The old fashioned way of dosing a weak stomach, or stimulating the Heart or Kidneys is all wrong. Dr. Shoop first pointed out this error. This is why his prescription — Dr. Shoop's Restorative— is directed entirely to the cause of these ailments — the weak inside or controlling nerves. It isn't so difficult, says Dr. Shoop, to strengthen a weak stomach, Heart, or Kidneys, if one goes at it correctly. Each inside organ has its controlling or inside nerve. When these nerves fail, then these organs must surely falter. —Those vital truths are leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. Test it a few days, and mark improvement will promptly and surely follow. Sold by all dealers.

Public Ownership Popular in Many Western Cities

Winnipeg Leading off In Securing Public Ownership

Winnipeg, Dec. 29.—Public ownership in theory and practice, is making very considerable advancement of late in Western Canada, and much of this progress has occured in Winnipeg as is shown by the fact that the city now owns all public parks, its asphalt plant, city quarries, waterworks, and street lighting systems, and has under construction at the present time its own electric power plant, costing four millions of dollars.

Herein lies a question of very great importance to the city of Winnipeg, a corporation seeking to supply power at a cost which shall further help to attract manufacturers from other parts in establishing their industries here. The inrush of settlers to Western Canada has made of Winnipeg a great distributing station for a vast tract of country which has already brought about the establishment of over 150 wholesale houses and an equal number of manufacturing plants. Trade opportunities are very great when operations are conducted from such an advantageous base as Winnipeg has demonstrated itself to be and if manufacturers can be assured of cheap power, and plenty of it, there is no doubt that the future of Winnipeg as a manufacturing city will be high indeed.

Following the example set by Winnipeg nearly all the smaller cities west to the Rocky Mountains are operating a number of their public utilities that serve the uses of the people in their respective communities. The acquirement by the Manitoba Provincial Government of the Bell Telephone Company has been followed by the Alberta Government purchasing the same system there and both provinces are now pushing ahead the needed work to keep pace with the demands of settlement. The Province of Manitoba has now over 5,000 rural telephones installed and in Alberta the entire system now comprises 1,400 miles of trunk lines with an additional 600 miles of rural lines used by farmers.

Six months ago Alberta had thirty-five telephone exchanges and toll offices, now there are 105. No class of people in the west realises the wonderful utility of the telephone more than the farmer. The rapid extension of rural lines in Manitoba has done much to increase facilities for greater and more speedy business transactions from the Capital city of distribution in supplies of all kinds—Winnipeg.

FOR ALDERMAN

LADIES AND GENTLEMEN,

In respectfully requesting your support in the election for aldermen I appeal especially to the laboring people whose interests I desire to represent in the council. My record as a servant of the city is well known. I have lived here for 60 years and have always worked for the good of the city.

Thanking you in anticipation for your support.

Respectfully yours,

Thomas Rutherford

FOR ALDERMAN

LADIES AND GENTLEMEN,

I respectfully solicit your votes and influence in favor of my candidature as one of your Civic Council for 1909, and to ensure my re-election.

Thanking you in advance.

Respectfully yours,

W. H. Bradburn

TO THE ELECTORS

LADIES AND GENTLEMEN;

At the urgent request of a large number of ratepayers I have consented to become a candidate for the council for 1909 If elected I will do my utmost to further the best interests of the city. It is time that our council made a decided effort to reduce expenses, and thus keep down the taxes, which have of late years grown so burdensome. I believe that the business of the council can be more economically managed, and I will, if elected, do my best in this direction.

Soliciting your votes and influence, I am,

Yours sincerely,

James Bogue

CARD FROM ALD. H. PHELAN

To The Electors of the City of Peterborough;—

LADIES AND GENTLEMEN;

Having been again honored with nomination for alderman, I have accepted the same at the solicitation of a large number of influential ratepayers.

My record in the Council in the past is well known to all, and if again honored with your confidence I will endeavor to render efficient service. Such good business judgment as may have qualified me for being of service to the city will be again used to the best of my ability.

Harry Phelan

BOARD OF EDUCATION

To the Ratepayers of the City.

LADIES AND GENTLEMEN;

I am again a candidate for election as one of your representatives on the Board of Education of the city. By your kind favor I have been one of the members for the last thirteen years, and I trust that my services have been such as to merit a renewal of your confidence.

I shall be heartily glad if you will accord me your vote and influence.

Respectfully yours

Robt. Fair

The Mayoralty

To the Ratepayers of the City of Peterborough:

I take this opportunity of returning my sincere thanks for the confidence reposed in me by my election by acclamation for a second term as your Mayor.

Yours faithfully,

HENRY RUSH.

Forty-Four Candidates Nominated For The City Council For 1909

Mayor Rush Re-Elected by Acclamation—T. F. Matthews Re-Elected as Water Commissioner Ten Nominations for Board of Education—Addresses by Mayor Rush and Mr. T. F. Matthews

It is many months since the City Hall held so large a number of ratepayers as it did yesterday morning. The occasion was the municipal nominations and there is a whole lot of interest in the present campaign, and especially in the contest for aldermen.

After the nominations for mayor, water commissioners and Board of Education, the city clerk was elected chairman and he presided while the speeches were made by the mayor and Mr. T. F. Matthews.

THE MAYOR'S ADDRESS.

Mayor-elect H. Rush was the first to address the ratepayers, and he read the following,—

I take this opportunity of thanking the ratepayers for having elected me to the important position of mayor of this city. Had I gone from door to door soliciting votes, I could not have expected a larger majority than I received. I have done the best I could and if you re-elect me I will endeavor to do my best again. That I have satisfied the aldermen, goes without saying, for at the last meeting of the council they passed a resolution thanking me for the able manner in which I conducted the meetings.

You will be pleased to know that you own about 62 acres of land, having a frontage of half a mile on Water street, with all the buildings thereon. On this property there is gravel, stone and sand enough to last the city for years for repairing the roads, for building new concrete sidewalks bridges or any other concrete works. This property was acquired five years ago and the rents from it etc., has more than paid the interest on the investment. The city engineer has also informed me that it has already paid back 77 per cent. of the $10,000 that was paid for it, in gravel, stones and sand. Then again, after the gravel, etc., has been entirely exhausted, the land itself will be more valuable for building purposes, as George street can be extended through it, thus giving a frontage to be sold on each side for building lots.

We have now over 40 miles of granolithic sidewalks and about 13 miles of wooden ones yet to be repaired by concrete. We have also nearly 24 miles of sewers, a mile of which is on streets where there is no water. A little more than a mile of sewerage has been built this year and 5 2-3 miles of concrete sidewalks both costing slightly less than that of last year.

Regarding the debentures.—

During the early part of last year times were exceptionally good, work was very plentiful, and one could only with the greatest difficulty procure laborers, the demand being so great, but instead of closing down the civic work, and reserving it for a year, such as this has been sewers were built on streets where there is no water, consequently they cannot yet be used. The ratepayers are still paying 4 8-4 per cent. for the use of the money it cost to construct them.

Instead of allowing the workingman to avail himself of the opportunity of obtaining employment from those who were engaged in building, and thus preserving the civic work for a time when men were unemployed, this branch of the work was kept going.

Perhaps the chairman of last year's Board of Works can explain the reason for this.

This year the first thing the Board of Works did was to pass a resolution that sewers would be built only on the streets on which there was water, thus saving the ratepayers paying interest on work that was not required.

The latter part of lastg year the manager of the Bank of Toronto appeared to be dissatisfied with the city account and demanded that the overdraft be reduced. Something had to be done as no other bank in the city wanted the account in the condition that it was then in. I have a copy of a letter here—I will read it later—which was sent to the manager of the bank, with the knowledge approval and consent of the ex-mayor, after the sending of which an arrangement was made, the city to pay six per cent. for the use of the money they required for this year, 1908, in excess of any that might be to the credit of the other civic bodies. I find no fault with that arrangement, it was the best that could be done under the circumstances.

About two months ago, the chairman of the Finance Committee and myself waited on the manager of the bank and arranged for the requirements for next year, 1909, at five per cent., one per cent. better.

This year's council according to the agreement made last year with the bank, as per the letter I have just read, were obliged to sell the debentures, but the overdraft has been kept well within the limit arranged for by last year's council and the bank, thus saving the difference to the ratepayers in interest.

Mr. Sawers asked Mr. Rush who ex-Mayor McWilliam's Finance Committee was, and why they should not be blamed as much as the ex-mayor.

To this his Worship replied that he did not wish to personally reflect upon Mr. McWilliams, but merely to defend himself. If Mr. McWilliams comes to the council with any reasonable request, as far as I am concerned, he will receive the same courteous consideration as any other citizen.

P. Campbell, Esq.,

Manager Bank of Toronto, city.

Dear Sir,—At a meeting of the Finance Committee of the City Council held last night at which representatives from the Board of Education and City Trust Commissioners were present, the banking accommodation required in connection with the city accounts for 1908 was considered and the following resolution was adopted;

"That the city treasurer be instructed to inform the Bank of Toronto, that the banking accommodation required next year, for ordinary and extraordinary requirements, will be as follows; On the first of January $125,000 on the combined accounts, and by February 15th, debentures to the amount of $61,000 will be sold and from that time on, a line of credit of $100,000 is asked for, but as near as can be estimated, taking into account the sale of $36,000 of school and waterworks debentures by March 31st, and $40,000 of local improvement debentures by June 1st, the requirements will be on February 15th, $85,000, March 31st, $75,000 June 1st $60,000, July 1st $75,000, August 1st $25,000, from which date it will gradually rise to $65,000 on November 1st, and will remain at about the same figures to December 15th, and after that date will not exceed $100,000 and that the treasurer ask the bank to give the terms on which it will give the civic bodies the accommodation.

Of the $13,362 43 to be transferred to the Commissioners of the City Trust account, about $20,000 will be held to 30th of June next to meet debentures maturing at that date, and about $10,000 of the remainder to pay the half year's interest to same date.

Kindly favor me with your reply at as early date as possible.

FRANK ADAMS.
City Treasurer.

Mr. T. F. Matthews stated that he had just learned of his re-election as water commissioner, and thanked the ratepayers for their renewal of confidence. He stated that the commissioners had always considered the money of the commission in the same light as they would their own, and all expenditures had been made with the utmost care.

NOMINATIONS.

The following is a list of the nominations for the various municipal offices, the elections to take place on Monday next;—

FOR MAYOR

Henry Rush, insurance agent.
Elected by acclamation.

FOR WATER COMMISSIONER.

Thomas Francis Matthews, manufacturer.
Elected by acclamation.
Mr. Matthews will hold office for three years.

BOARD OF EDUCATION

Matthew Albert Morrison, dentist
Benjamin Franklin Ackerman, manufacturer.
Robert Fair, merchant.
R. F. Boucher, physician.
Mars. McClelland, physician.
Ernest V. Frederick, physician.
Wm. Madill, merchant.
Robert Hicks, coal merchant.
E. F. Mason, merchant.
William S. Robinson, mechanic.

FOR ALDERMEN.

Thomas Rutherford.
William H. G. Armstrong.
Archibald Alexander McIntyre.
Joseph Downing.
George A. Gillespie.
William H. Bradburn.
William George Morrow.
George Edward Elliott.
George H. Duncan.
Robert Neill.
James Hogue.
William Buller.
Henry William Morgan.
Archie R. Moore.
Andrew Brown.
Joseph R. Metheral.
William James Johnston.
James Finnie.
Robert Hicks.
George James Tovey.
Benjamin F. Ackerman.
John James Turner, jr.
John Anderson.
Henry Phelan.
Vincent Eastwood.
Alexander Gibson.
John D. Craig.
John D. Craig.
Benjamin Shortly.
Harry C. Winch.
Joseph James Duffus.
Robert H. Leary.
Dickson Davidson.
James H. Metheral.
John O'Brien.
Daniel Cushing.
Ludger D. Letellier.
William Stabler.
James T. C. Lang.
Richard Sheehy.
John H. Smith.
Joseph Batten.
John Hampden Burnham.
James Edgar.
Joseph S. Bell.

A Brilliant Masonic Function

In Honor of St. John the Evangelist--Installation of Officers and Banquet

In accordance with time honored customed, the anniversary of Saint John the Evangelist was commemorated at the Masonic Temple on George street last night, when over 250 Masons assembled to take part in the installation of officers for the two city lodges, and in the subsequent banquet and after dinner entertainment. The function was a brilliant success in every sense of the word, and was pleasingly marked by the presence of the oldest mason in Canada, if not in the whole world—Bro. Mantel, of Tinonburg, who will be 100 years of age next May. Mr. Mantel is hale and hearty, and is the guest of his great son-in-law, Mr. Edwards, of Cavanaugh's big departmental store. Despite his great age he responded to the toast of the visiting brethren in a vigorous after dinner speech, replete with humorous reminiscences and anecdote. While admitting to have passed successively through the stages of childhood and manhood, and on to childhood again, the distinguished and thrice-welcomed visitor displayed a degree of intellectual vigor worthy of many a younger man.

Another exceptionally interesting number was the response of Rt. Wor. Bro. H. R. H. Kenner to the toast of "Canada," his learned address including an instructive review of the comparative histories of France and Britain as empire-building nations, together with Canada's marked advance in science, art, education and literature since the Battle of the Plains of Abraham; that glorious event so recently celebrated at Quebec. In education he thought Canada leads the world. The eloquent speaker left his audience with the thought that Canada has two futures to choose from—that of independence or that of Imperial federation. The former state he characterized as selfish, and the latter as generous and of world wide influence.

Bro. (Rev.) J. R. Webb also gave an intellectual treat in his much appreciated lecture entitled "Some Principles of Masonry as exemplified by the life of St. John the Evangelist."

During the evening very acceptable vocal solos were rendered by Bro. W. Mellroy, W. Bro. Walter Stocker, Bro H. W. Morphet and Bro. C. M. Bennett. W. Bro. John Crane officiated as accompanist in his customary talented manner.

The menu was served by Bro. T. Hooper, who catered to the occasion in a style that called for the commendation of all present. V. Wor. Bro. D. Spence made a very capable chairman of the banquet, at which he was strongly supported by Wor. Bro. W. H. Bradburn.

THE INSTALLATION

The following officers were installed by V. Wo. Bro. D. Spence, whose splendid work elicited well deserved eulogy by those present.

CORINTHIAN LODGE, A.F. & A.M.

W.M.—W. G. Morrow.
I.P.M.—T. F. Matthews.
S.W.—R. P. Watt.
J.W.—M. Comstock.

PETERBOROUGH LODGE.

W.M.—Wm. Hall.
I.P.M.—E. E. Lord.
S.W.—A. P. McLean.
J.W.—W. J. Henry.
Chap.—(Rev.) J. R. Webb.
Treas.—A. Gibson.
Sec'y—W. H. Walkey.
D. of C.—D. Spence.
S.D.—A. Davidson.
J.D.—W. R. G. Huggins
I.G.—C. E. Anderson.
S.S.—A. A. Fowler.
J.S.—W. S. Campbell.
Organist—John Crane.
Tyler—E. B. Wilson.
Trustee—G. I. Rogel.
Auditors—H. Rush and W. Menzies.

TOAST LIST.

The King, the Protector of the Craft—Proposed by D. Spence.

The Grand Master and the Grand Lodge of Canada, in Ontario.—Proposed by Alex Gibson. Response by Duncan Walker.

Canada—Song by W. Stocker. Response by H. R. H. Kenner.

The Newly Installed Officers.—Proposed by John Crane. Response by W. G. Morrow and W. Hill.

Address on St. John the Baptist by Rev. J. R. Webb.

The Visiting Brethren—Proposed by Dr. Morrison. Response by Bro. Mantel.

The Absent Brethren—Proposed by W. H. Walkey.

The Retiring Officers—Proposed by R. E. Wood. Response by T. F. Matthews and E. E. Lord.

The Installing Master—Response by D. Spence.

The Junior Warden's Toast—By M. Comstock.

ABSENT BRETHREN.

Coupled with the toast to the absent brethren were the following names.

City League Schedule Provides for Two Games Every Thursday Night

The schedule for the City League was drawn up last night at the meeting in the Y.M.C.A. parlors. All the clubs were represented, and President C. G. Graham occupied the chair. Mr. Fred Craig was elected secretary-treasurer to fill the vacancy of Bert Huston, who has left the city and a better choice could not have been made.

The first games of the season will be played on Thursday night, Jan. 7th, and there will be two games every Thursday night until Feb. 4th, thus the season will be extended over a period of five weeks, and during that time local fans will see some of the best hockey ever presented in a city league.

The referee board will be composed of the following;—Messrs. George Lynch, W. E. Wasson and H. P. Morgan.

The schedule is as follows:—

Jan. 7—T.A.S. vs. West Ends, Stratheonas vs. Belmonts

Jan. 14—Belmonts vs. Lakefield, T.A.S. vs. Stratheonas.

Jan. 21—Belmonts vs. T.A.S. Lakefield vs. West Ends

Jan. 27—T.A.S. vs. Lakefield, Stratheonas vs. West Ends.

Feb. 4—West Ends vs. Belmonts, Stratheonas vs. Lakefield

The Charity Board Passed Accounts

The monthly meeting of the Charity Board was held last night when the usual list of accounts were passed. Since last meeting the amount of charity dispensed by the Board was $242 80 and the total during 1908 was $2,204.33. A motion was passed accepting the tender of W. A. Anderson for 100 cords of wood at $5.30 per cord. The board got wood from Mr. Anderson last year and it was very good, and they did not see any reason why he should not get it again as there was practically no difference in price.

Bachelors' Dance

One of the most enjoyable events of the season was the annual Bachelors' dance in the Conservatory of Music Hall last night. There were over 150 couples present, and they spent an exceptionally pleasant evening. The floor was in excellent shape, and the music could not have been better.

River Neva Inflicted with Cholera Germs

Copenhagen, Denmark, December 29.—Private despatches from St. Petersburg confirm the reports of an increase of cholera, giving as the cause the infection of the River Neva. Cable despatches some months ago predicted that this would be the case. It now appears that the filters through which the waters of the Neva should pass before being used for drinking purposes by the public have not been cleaned in fifteen years. These filters, in fact, have themselves become centres of cholera germs. When the members of the Board of Health inspected them recently in several places, the stench was so frightful that some of the men fainted. There seems to be little chance that this condition of things will be changed for some time to come, as the reactionary city government refuses to consider the project of planning new waterworks. Under these circumstances, as spring draws nearer, a fresh outbreak of cholera, fiercer than any heretofore experienced, is thought to be inevitable.

Captain Hains' Insanity as Revealed in Cells

Flushing, N.Y., Dec. 28.—The building up of the defence of Thornton J. Hains to disprove the charge that he was a principal with his brother, Captain Peter C. Hains, jr., in the killing of Wm. E. Annis, last August, at Bayside, was taken up in earnest today before Justice Crane, in the Supreme Court. Counsel for Hains has nearly a score of witnesses under subpoena, but whether they will all be called is problematical.

The defence is said to have under subpoena two eye-witnesses of the killing who were not called by the State. Their testimony will tend to show that Thornton Hains' actions, when Annis was shot, were those of defence for his brother, and not offence.

Thornton Hains will be the star witness in his own defence. He will probably not be called until near the last. He will likely be on the witness stand the entire day.

Raymond C. Weaver, a builder, will testify that it was at his invitation that the Hains brothers went to Bayside on August 15. General and Mrs. Peter C. Hains, parents of the defendants, will likely be summoned to give testimony concerning the mental condition of Capt. Peter C. Hains. The trial will not likely be concluded for ten days.

John F. McIntyre, counsel for Thornton Hains and Captain Peter C. Hains, said that the mental condition of Captain Peter C. Hains, jr., was very alarming.

"I can see no improvement in Captain Hains' mental processes," said Mr. McIntyre. "His condition is truly alarming, and I fear a fatal termination of his trouble. The captain puts on his army uniform three or four times a day, and, imagining himself at Fort Hamilton, gives orders to an imaginary company of soldiers. He recites poetry and sings airs from the opera during the day. I am extremely apprehensive over the outcome. The treatment now being given him may be effective in time, but I doubt it."

To stop any pain in 20 minutes, take one of Dr. Shoop's Pink Pain Tablets. See formula on the box. Ask your Doctor or Druggist about this formula. It can't be bettered. Womanly pains, head pains, any pain gets instant relief. Box of twenty Pink Pain Tablets, 25c. Sold by all dealers.

Chinese Cruisers Capture a Bristish Steamer

Hong Kong, Dec. 28.—The British steamer Tai On was captured yesterday by two Chinese cruisers, near Kum Chuk, west of the river.

The reason for the capture is believed to lie in the fact that the steamer several months ago ran down a junk, and drowned a theatrical company which was on board.

Further development from the capture are expected.

Illustrated Lecture on the Holy Land

An Illustrated lecture on the Holy Land by Mr. Wm. Kennedy, a student at Queen's University, and who is spending the Christmas holidays in lecturing in the interests of the University Missionary Association. He was here under the auspices of the Y.P.S.C. and a good attendance was present. The lecture was interesting and instructive. He took the audience to Jerusalem, Bethelem, Nasareth, Jerico, JJordan Valley, the Dead Sea region, Damascus and Baalbec.

Rev. J. G. Potter expressed the appreciation of the society to Mr. Kennedy and the evening concluded with the benediction.

Tom Longboat Joins Ranks of Benedicts

Thomas Longboat, the great distance runner in the world, was married at seven o'clock last night, to Miss Lauritta Maracle of Deseronto. The ceremony was performed by Rev. A. H. Creegan. The bride was attended by Miss Essie Clause, of Albany, N.Y., and Mr. Thomas F. Flanagan was best man, looking after Longboat's matrimonial affairs as well as his racing dates. The ceremony was a quiet one and was solemnized at seven o'clock in an

LOST HIS NERVE

A Strong Man Almost Died. Grew Thin, Weak and Nervous.

A REMARKABLE RECOVERY.

"Until three years ago I was the picture of health—then I became what people call Neurasthenic. I grew sleepless, worried, lacked will power, felt great physical fatigue, experienced fears and felt always in danger of something unknown. All the time I grew thinner and weaker, felt so nervous that I felt the end must be near. No medicine helped, each one seemed a new disappointment. Then my doctor suggested "Ferrozone"—it was a fortunate choice because I improved at once. I gained weight, enjoyed my meals, got a better color, forgot my nervous fears. The way Ferrozone built me up is surprising—it made a new man of me and now I look good for twenty years to come."

J. Y. WAGHORNE (Merchant)
Wilmington.

Ferrozone is a nourishing tonic that strengthens, fattens, builds up, restores weak sickly people to health. If you feel poorly let Ferrozone help you get well. 50c. per box, or 6 boxes for $2.50, at all dealers.

WANDERERS WON FIRST GAME

Special to the Times.

Arena, Montreal, Dec. 28.— Fully six thousand people saw the Wanderers and Edmonton teams play the first game of the series and season at the Arena tonight. The first half of the game was lightning fast, and considering that it is so early in the season the hockey was of a first-class brand. The Edmonton team seemed to have shot their bolt in the first half as they did not appear to play with the same vim and lacked combination. The Wanderers sustained their reputation of being strong finishers and while the last quarter of the game was uninteresting, the match as a whole was clean and fast.

At half-time the score stood 3—2 in favor of the visiting team. Wanderers went out in the second half evidently determined to win, and after seven minutes' play Glass scored. Then the famous Smith added two goals to the score, and Glass made it 6—3. He again scored a few moments before the final bell.

The general opinion seems to be that the cup is in little danger of being lifted by the team from the West.

Final score—Wanderers 7. Edmonton 3.

The teams were;—

Wanderers.—Hern, Ross, Smaill, Glass, Johnston, Smith, Gardner.

Edmonton—Lindsay, Patrick, Pitre, Whiteroft, Vair, Phillips, McNamara.

Mr. Walter Pakenham of Toronto, was at home Douro street, Ashburnham, for the holiday.

Honored by Women

When a woman speaks of her silent secret suffering she trusts you. Millions have bestowed this mark of confidence on Dr. R. V. Pierce, of Buffalo, N. Y. Everywhere there are women who bear witness to the wonder-working, curing-power of Dr. Pierce's Favorite Prescription—which saves the suffering sex from pain, and successfully grapples with woman's weaknesses and stubborn ills.

IT MAKES WEAK WOMEN STRONG
IT MAKES SICK WOMEN WELL.

No woman's appeal was ever misdirected or her confidence misplaced when she wrote for advice, to the World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets induce mild natural bowel movement once a day.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

MUNICIPAL REFORM NEEDED

Reform has touched and benefitted every public institution in this country except the holding of municipal elections and the method and time for the collection of taxes, comments the Stratford Beacon advocating rather radical municipal reforms. We hold our municipal elections during the holiday season, spreading personal bitterness where "peace and good will should prevail," the same as our forefathers did when the province was half forest. We collect taxes at the end of the year, forcing many small householders to scrimp their small Christmas offerings and delicacies to their families, and when warm clothing and house heating are necessities, to gather together the tax money. And all because in the early days there was little money abroad in town or country to pay taxes with except at this season, when the sleighing facilitated the selling of grain, wood and timber. Now everybody, including the farmer, has more money in midsummer than in December. Produce finds ready sale all the year round, and employment is more plentiful in summer than winter; yet we stick to the old system. Even the tax collector is a relic of the past. He was appointed in the days when there were few roads and those of the worst description. It was more economical to have one man go round the township and collect the taxes from the many than to have the many go to the treasurer and pay in their money. Now, the tax collector in cities and towns is paid a salary to sit in his office; the many come to him and pay their money, only to have it passed by him through a wicket or taken along the corridor, to be deposited with the treasurer. Could anything be more absurd than the perpetuation of such a system?

There are no means by which a member of the Legislature could make himself more useful than by working out amendments to the Municipal Act which would modernize this system. Municipal elections should be held in the autumn, the end of the fiscal year being changed accordingly, and taxes should be made payable at the same time to the treasurer, not to a collector.

FALSE PROSPECTUSES

Several promoters of mining companies in Ontario have been fined in Toronto for issuing prospectuses not in accordance with the provisions of the law. Abuses like those connected with the flotation of mining companies in Kootenay about ten years ago, are now being repeated in connection with schemes to raise capital for mines in the Cobalt district. So exaggerated are the statements regarding the deposits of mineral, and the amounts of capital which investors are asked to subscribe, that the creation of these companies has almost become a joke. But unfortunately too many people are induced to invest their money on the faith of these representations, and usually of a class that can least afford to lose their money for the benefit of men whose interest is less in the production of ore than in the sale of shares. The action of the Ontario Government in prosecuting this class of promoters cannot fail to have a beneficial effect and save many innocent people from loss. It will also make the promoters understand that they incur a serious responsibility for the statements in their prospectuses and cause them to be more cautious in their representations.

The old fashioned way of dosing a weak stomach, or stimulating the Heart or Kidneys is all wrong. Dr. Shoop first pointed out this error. This is why his prescription — Dr. Shoop's Restorative— is directed entirely to the cause of these ailments — the weak inside or controlling nerves, to strengthen a weak stomach, Heart, or Kidneys, if one goes at it correctly. Each inside organ has its controlling or inside nerve. When these nerves fail, then those organs must surely falter. These vital truths are leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. Test it a few days, and see! Improvement will promptly and surely follow. Sold by all dealers.

MR. ROOSEVELT AND CONGRESS

It is not surprising that the United States Congress has taken up the grave accusations made by President Roosevelt against some of its members. The statement made in this subject by Mr. Roosevelt in his last annual Message regarding the attitude of members of Congress towards the appropriation for the Secret Service Fund of the Government, was nothing less than a very serious charge against the political integrity and honesty of the National legislators. It is hardly conceivable that Mr. Roosevelt would have made such a deliberate statement unless he felt that he had ample evidence as to its accuracy. Although sometimes impulsive in his utterances, Mr. Roosevelt would not be likely to display a similar failing in penning an official communication to Congress. What the final outcome of the matter will be remains to be seen. But in any case it can scarcely fail to be interesting, whether the verbal duel results in a victory for the President, or ends in the complete demolition of the grave charge implied against members of the National Legislature.

News in Brief

London, Dec. 26.—At Messrs. Puttick and Simpson's Rooms, Leicester square, £290 was realized for a rare old violin by Santo Serafino, while another by Nicholas Amati went for £100.

AGAINST CHINESE STOWAWAYS

The Australian House of Representatives has passed the bill introduced by the Minister of External Affairs, rendering ship-owners liable to a fine of £100 for every Chinese stowaway found on one of their ships.

WHISTLING EARL.

The Earl of Yarmouth, who has successfully organized a series of chinee concerts in the residential district of Bourne End, Buckinghamshire, yesterday contributed whistling solos, which were greatly appreciated.

BIG PRICES PAID.

At the sale of Italian majolica by Messrs. Fosters at the gallery, 54 Pallmall, a 10-inch jug decorated with female heads, a 7 1-2-inch vase with entwined handles, and a circular vase decorated with female busts in relief fetched 117 guineas.

POPE HONORS DETECTIVE.

The Pope has conferred the order of Knight of St. Sylvester on Mr. John Melville, ex-superintendent of Scotland Yard, for the services he rendered to European society in protecting the lives of kings and other rulers during his long professional career.

NAIL-SWALLOWER'S FATE.

John Young, aged twenty, made a wager with his fellow-workmen at Glasgow that he would swallow more nails than any man. He swallowed seventeen, each one and a half inches long. His fellow-workmen thought better of their wager, and did not swallow any of the nails. Young died later in the infirmary.

WELLAND CANAL

Tenders for Supplies for the Year 1909

SEALED TENDERS for Supplies addressed to the Superintending Engineer, Welland Canal, St. Catharines, Ont., will be received until 10 o'clock on Saturday, the 16th of January, 1909, for the supply and delivery of various articles of Timber, Hardware, Castings, Oils, etc., for use on the Welland Canal and its branches for the year 1909.

Specifications, forms of tender and other information may be obtained at the Superintending Engineer's Office, St. Catharines, on and after Thursday, the 31st December, 1908.

The lowest or any tender not necessarily accepted.

L. K. JONES,
Secretary.

Department of Railways and Canals, Ottawa, December 22, 1908.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

Synopsis of Canadian North west HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

THE TIMES' FINANCIAL PAGE---OF INTEREST TO THE CANADIAN INVESTOR

MILLIONSOF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Waisted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW wha it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world. Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock---to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Our smelter thus erected will save 85% in treatment. freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment ; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when here you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100.000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution oi the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Address

The Kuenzel's Process Smelter Co.

Chas. A. Kuenzel, President A. W. Kuenzel, Secretary and Treasurer

BUENA VISTA, COLORADO

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash val es in exchanging any of them for took in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making th a offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, a d which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinary a installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 170 feet depth, extending laterally and down indefinat ly. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something new on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 20 y are more.

Write me, giving full informati n of what you have to exchange.

The Plow Woman

By ELEANOR GATES,
Author of "The Biography of a Prairie Girl."

COPYRIGHT, 1908, BY McCLURE, PHILLIPS & COMPANY.

(Continued.)

CHAPTER XXV.

AREE scout scoured every foot of ground leading up to the shack. He trailed the mules, the squaw, the troopers. He followed those moccasin prints that came across the draw and went again. He found the last behind the lean-to, along the side nearest the coulee, on the back fire strip in front, and declared they had been made by a white man.

Two circumstances pointed strongly to the truth of this—the body had been carried away in the direction of Shanty Town; a white man would have taken so much trouble, not an Indian, who would have left his handiwork for all to see. And again, when Shanty Town was searched one of the huts was found to contain evidence of late occupancy—scraps of food that were not yet stale and in a rusty stove fresh coals. But though the coulee, the road, the prairie and the timber edging the river were all faithfully scanned one thing concerning the murderer's doings remained a mystery. At Shanty Town the traces of him began and ended. But how had he reached Shanty Town?

Old Michael furnished the clew of time. He related how he had heard the crack of a gun to the eastward the previous evening, "about th' ind av th' furst dog watch."

Captain Oliver stayed until the last rod had been traveled and the last stone turned. Then he was ferried to Brannon. On landing he went at once to the wife of his colonel, who had vacated her home when the command left and was now living with Mrs. Martin at Major Appleton's.

"Mrs. Cummings," he said, "the old man on the bend is missing. It looks like murder. His two girls are left, orphaned and heartbroken. They need a woman's comfort, ma'am. Will you not go to them, and will you find a woman to stay with them for a few nights?"

"Oh, how very sad!" exclaimed that lady, then turned away as if suddenly perplexed. "I—I—really don't care to go myself," she went on, when she had given his request a moment's thought. "I know these country people—so touchy and taciturn, always ready to think one is patronizing them."

"One usually is," retorted the captain sharply. "Then I must ask somebody else."

"One of the troopers' wives would probably be glad to go."

"You are evidently quite mistaken regarding these young women," declared Oliver, with some heat. "Mrs. Oliver will think differently."

"Really, I haven't thought of them," she answered petulantly. "But why, may I ask, don't they come to the post?"

"They prefer to stay in their own little home. In their present trouble and grief it is particularly dear to them. Would be to any one."

"I think it odd, captain, that they should choose to stay over there alone. Can—can they be—eh—quite nice?"

"Madam," replied Oliver sternly, "they wish to do what would please their father. They wish to be independent."

"Ah!" Mrs. Cummings threw up her head.

"And let me say that I heartily commend them," Oliver fairly roared. "They are made of the stuff of our forefathers, who pushed their way into the wilderness. Their spirit is the spirit of the frontier." With which, bowing and fuming, the captain stamped out.

Mrs. Oliver, a motherly chunk of a woman, thought very "differently." Work and babies she consigned to a thrifty trooper's wife and in a jiffy pinned on a bonnet that had stood various seasons. "I'll be back in the morning," she said, with a kiss for each of the seven. Then, stuffing a tidbit or two into the wide pockets of a duster, she hastened away.

Captain Oliver meanwhile had cleared the front room of his progeny and summoned the surgeon, Lieutenant Fraser and Matthews.

Matthews came at last. As he entered the three men were struck by a curious change in him. He was erect and somewhat soldierly in his bearing; he had let his hair grow until it rested upon the handkerchief knotted about his throat, while his dress now aped that of the more picturesque scouts. Buckskin trousers, down which at the outer seams was a dripping of fringe, were tucked into high boots. Over his red flannel shirt he wore a tunic or blouse also of buckskin, fringed the length of the arms and belted at the waist like a hunting shirt. A vest no longer concealed his revolvers. His weapons were at his side, like a trooper's. In one gauntleted hand he held a wide gray hat.

"You want to see me, cap'n?" he asked, meeting that officer's look squarely.

"Yes," answered Oliver shortly. "I demand an exact account of your time for the past thirty-six hours, beginning with the evening after the departure of the command. I need not tell you why I ask this, and I make no apology for asking. There are reasons for your wanting that old man over there out of the way. You attacked his house in the winter during his absence, when two defenseless women were at home to repel your attack. That lays you open to mistrust. I may add that Lancaster's eldest girl regards you as her father's murderer."

As Oliver talked his woebegone face had grown fierce and dark. Now he rose, lifting clinched fists. "Murder," he cried, "under my very nose and against a household that I had sworn to guard! Speak, Matthews, speak!"

Matthews screwed up his mouth thoughtfully and looked into space. "Beginning the evening after the command left?" he said. "Let me see. Why, I ain't crossed since the colonel left."

"Account for your time," repeated Oliver.

(To be continued.)

"I demand an exact account of your time."

Cheaper Cables Lemieux's Theme

New York, Dec. 26. — The Times says: That not only cheaper, but very much cheaper, rates for cablegrams across the Atlantic are near at hand was the confident assertion of Rodolphe Lemieux, the postmaster-general in the Canadian cabinet, on the eve of his departure for Canada after a day spent in this city following his arrival from Europe.

"The reform has been accomplished on the Pacific," declared Mr. Lemieux, "and it will soon come about on the Atlantic."

Mr. Lemieux said the movement had recommended itself to influential interests in the United States also, but he declined to be questioned as to whether or not the Government had been, or would be approached by Canada or Great Britain in the matter. However, he said, it was regarded as a significant when Whitelaw Reid the American ambassador in London, at a dinner given to Mr. Lemieux in that city, declared in a semi-humorous way that the United States would not stand by idly and see Canada enjoy alone what he described would be the great boom of low cable rates to Europe.

NEW CABLE NOT NEEDED.

If the cable companies would make the reduction that would satisfy the governments, according to Mr. Lemieux, then there would be no new cable laid across the Atlantic, and he believed that that was what was likely to happen. In any event, he added, he had received such assurances in London that he felt almost certain that the day of very much cheaper cabling between Europe and America was not far distant.

He believed a state-owned cable across the Atlantic, if it should become necessary to lay one, undoubtedly would be as successful and satisfactory in every way as the Pacific cable from Canada to Australasia.

"That project first was seriously broached in the early nineties," he said, "and it was accomplished about 900. Previously it cost $2.25 a word to send a cable message from Australasia to England. The new cable brought about a reduction of about 50 per cent., that is, to $1.13, and there has been a still further reduction, namely to 75 cents. But for the state owned cable and its cheap rates I am confident the old rate of $2.25 a word would still obtain. That line, although it has been described as losing money, yields not only sufficient to pay the interest on the bonds that were issued for its construction, but also a surplus for the ventual extinction of the capital obligation."

Mr. Lemieux said the demand on the Atlantic cable companies which was expected to come to a conclusion this spring, was not for an arbitrary rate of 2 pence or 4 cents a word, as he said was erroneously supposed in many quarters. It had been proposed, instead, that messages be divided into several classes, such as urgent, semi-urgent, and deferred, for instance, and charged for accordingly, but in any event the rate to be considerably lower than the prevailing hilling, or 25-cent rate. Mr. Henniker-Heaton, known in England as the father of penny postage, who has taken an active part in the movement for lower cable rates, wanted an even lower charge, namely a penny, or 2 cents a word, he said. If a state-owned cable is to be laid it is the belief of Mr. Lemieux that it would eventually be of a charge of cents a word.

Coughs that are tight, or distressing tickling coughs, get quick and certain help from Dr. Shoop's Cough Remedy. On this account Druggists everywhere are favoring Dr. Shoop's Cough Remedy. And it is entirely free from Opium, Chloroform, or any other stupefying drug. The tender leaves of a harmless lung-healing mountainous shrub give to Dr. Shoop's Cough Remedy its curative properties. These leaves have the power to calm the most distressing Cough, and to the most distressing Cough, and to soothe and heal the most sensitive bronchial membranes. Mothers should, for safety's sake alone, always demand Dr. Shoop's. It can with perfect freedom be given to even the youngest babe. Tastes good, your-self, and can! Sold by all dealers.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Dr. Shoop's Restorative

"ALL DEALERS"

Long Service Records of Many Workmen

London, Dec. 28.—It was suggested the other day that candle factories should rank with our leading health resorts, in view of the long service records held by many of their workers. Now it is the turn for music to put in its claim, for some remarkable figures are forthcoming from the Old Ford works of the well-known piano makers, Messrs. John Broadwood & Sons, Limited.

Men who have completed only forty years with the firm are regarded merely as promising youngsters A Daily Chronicle representative was yesterday introduced to a group of seven men who have between them given 380 years' work to the making of pianos—an average of almost fifty-six years each.

The veteran of the factory, Mr J. Wilson, can boast of sixty-six years' service. "I joined the firm as a boy of 9 or 10 years, at Westminster," he said. "My father had been with them thirty-five years as a French polisher, and I learned the same trade beginning first on piano legs and later doing the tops. They've never been able to improve on the polish we used sixty-six years ago, and no machinery has been able to replace the hand polishers.

Long service is quite a tradition of the firm. Although established as far back as 1727, it has now some workers who descend in an unbroken line from men who started at the first factory. Before now grandfather, father and son have worked side by side at the same time.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they do not reach the seat of the disease. Catarrh is a blood and constitutional disease and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known combined with the best blood purifiers acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

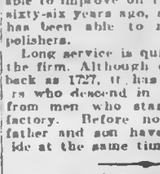
Sold by Druggists, price 75c.

Take Hall's Family Pills for constipation.

THIS APPEAL IS TO YOU!

The Hospital for Sick Children

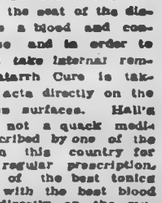
REMEMBER That Every Sick Child in Ontario Whose Parents Cannot Afford to Pay for Treatment is Treated Free.



The Hospital is not a local institution, but provincial. The sick child from any place in Ontario, who can't pay, has the same privileges as the child living in Toronto.

SICK BUT NOT NEGLECTED.

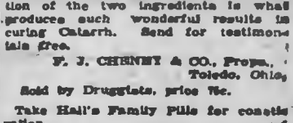
The Hospital had last year in its beds and cots 1,945 patients—368 of these were from 212 places outside of Toronto. Seventy-five per cent. were children of poor people who could not afford to pay.



HAPPY WITH HER DOLL.

This Charity appeals to fathers and mothers of Ontario for funds to maintain the hundreds of sick children that it nurses every year.

Since its foundation the Institution has treated 14,466 children. 10,800 of these were unable to pay and were treated free.



BEFORE. AFTER.

There were 51 cases of club foot treated last year.

If you know of any child in your neighborhood who is sick, or has any deformity, send the parent's name to Secretary.

"THERE IS YOUR BOOK."

The Hospital's Cry is not for Land, but for the Children, as your Dollars go not to the Hospital but to the Children.

Please Send Contributions to J. Ross Robertson, Chairman, or to Hamilton Davidson, Sec.-Treas. The Hospital for Sick Children, College St., Toronto.

...R THIS

...reasing of the System
...d Sure Protection against
...g and Summer Sickness.

After the long hard winter, system cleansing is badly needed. The blood must be purged and purified, otherwise pent-up impurities will beat through the skin and all through the summer you'll be tormented with rashes, pimples, humors and boils.

The best of all blood purifiers, and at the same time an unequalled tonic and appetiser, is Dr. Hamilton's Pills; they will build up, aid the digestion of food, keep the system vigorous, healthy, strong. Being mild and pleasant in action, you need not hesitate to use Dr. Hamilton's Pills. Take them at night —note the difference in the morning, how fresh, bright and well you feel. No surer health bringer and health keeper known than Dr. Hamilton's Pills. Get a 25c. box today. At all dealers.

Obituary

THOMAS MENZIES.

Mr. K. G. Leeh yesterday morning received a telegram announcing the death at Kingfisher, Oklahoma, of Mr. Thomas Menzies, a former well known and prominent resident of Peterborough. Mr. Menzies has been in ill health for some time and his demise was not unexpected. Mrs. Menzies has been in the city on a visit since May and had arranged to leave for Oklahoma yesterday.

The late Mr. Menzies was a native of Perthshire, Scotland, where he was born in January, 1832. He was the only son of a family of four children, who came to America in 1851. After a year's residence in New York, the family came to Peterborough, and Mr. Menzies, then about twenty-one years of age, entered into employed with a Mr. Rogers, who conducted a general store in Ashburnham. For several years he was an officer in the militia, his commission bearing the signature of Sir Edmund Head, and in 1856 he was actively associated with the organization of the first volunteer company in Peterborough. He was a Justice of the peace, and during the period between the death of the late Mr. Hatton and the appointment of Mr. Dumble, performed the duties of police magistrate. Nineteen years ago Mr. Menzies and family removed to Oklahoma, where they have since resided. Mr. Menzies is survived by Mrs. Menzies, four daughters and two sons. The daughters are, Mrs. R. S. Davidson, and Mrs. K. G. Leeh, city; Mrs. George Lang, Kingfisher, Oklahoma, and Mrs. E. Watrous, Enid, Oklahoma. The sons are Stanley, of Hennessy, Oklahoma, and Thomas at home. The late Mrs. Robert Graham, Lakefield, was a sister. Nothing is up to this writing known of the funeral arrangements.

J. W. LANGMUIR, Managing Director.

Toronto, Dec 15th, 1908.

The old fashioned way of dosing a weak stomach, or stimulating the Heart or Kidneys is all wrong. Dr. Shoop first pointed out this error. This is why his prescription — Dr. Shoop's Restorative— is directed entirely to the cause of these ailments — the weak inside or controlling nerves. It isn't so difficult, says Dr. Shoop, to strengthen a weak stomach, Heart, or Kidneys, if one goes at it correctly. Each inside organ has its controlling or inside nerve. When these nerves fail, then those organs must surely falter. These vital truths are leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. Test it a few days, and real improvement will promptly and surely follow. Sold by all dealers.

NEARLY 70,000 PERSONS REPORTED KILLED IN AN EARTHQUAKE HORROR

Probably Twenty Thousand Dead in Messina Alone—The Survivors are Terror-Stricken —Earthquake Succeeded by New Horrors

MT. ETNA NOW IN ERUPTION

Rome, Dec. 29—The disaster in the Province of Calabria and the Island of Sicily has today assumed staggering proportions. Each successive report received from the stricken region makes it more apparent that the first stories of the widespread destruction were little, if any, exaggerated. Messina alone reports 12,000 victims, but it is feared that this is only a partial list of the dead and wounded.

Reports are coming in from the other towns giving the estimates of dead therein from five hundred to several thousand.

Reggio still remains in its tragic isolation.

It is impossible to get word from the stricken city, and the silence gives rise to the most fearful apprehensions.

News has come from Messina, eight miles north of Reggio, but no reliable estimate of the dead there has been made.

Vandalism of the worst kind has broken out, and the government has adopted the most energetic and most severe measures for its repression. Robbers and looters are shot on sight.

BARRACKS AND PRISON FALL.

The prison at Messina collapsed. Some of the prisoners were killed, but the survivors made their escape, and joined the hooligans who were sacking the city. Such confusion reigned that the robbers met with no resistance. The local chief of police lies dead in the rooms of his office.

The barracks at Messina were demolished. The commander of the troops was killed outright, and there are many victims among the enlisted men. The government last night sent General di Cossatto, an army corps commander, to take full charge of the troops in the devasted territory. One of his first measures will be to declare martial law.

INDESCRIBABLE HORRORS.

The robbers pillaged the ruins of the shattered buildings and even stole clothing and valuables from the corpses of the victims They were not deterred by the flames that broke out in several sections of the city, but took advantage of the light for their vandalism. The night in Messina was one of horror indescribable. Fire, robbery, dead and dying on every side, the city in the utmost confusion, and the people panic-stricken and under a spell of terror.

Troops began to pour into Messina last night, and this morning a number of steamers arrived from the peninsula with soldiers on board. Patrols were at once organized, and efforts made to bring some order into the situation. Bands of citizens were formed and helped heroically in the work of rescue.

MANY COURAGEOUS ACTS.

Many courageous acts were performed by soldiers and citizens alike, and in some cases the rescuers themselves lost their lives trying to help others. Towards morning several of the worst fires had been extinguished, the looting was under partial control and comparative order had been partially restored. Everything possible is being done to succor the wounded, but the relief measures are still utterly inadequate owing to the immensity of the disaster.

CHURCHES IN RUINS.

The finest palaces, churches, and theatres of Messina are now heaps of ruins. Countless dead bodies are scattered through the wreckage, and their decomposition will doubtless bring pestilence to add to the horrors of the situation.

The devastation over the entire district was more or less complete. No part of the provinces of Reggio de Calabria escaped.

The disturbance was most severe along the shores of the straits of Messina, where the cities of Messina and Reggio are situated. In more than one town the shocks caused gas mains to explode, and disastrous fires resulted. The flames helped greatly to swell the death list.

The configuration of the Straits of Messina has been materially altered. The tidal wave that completed the destructive work of the earthquake was 30 feet high.

Wireless telegraphy has been of the greatest assistance in getting in reports from the devasted regions and in helping the authorities to realize the extent of the disaster and to send help to the places where it was most urgently needed.

A flying squadron of the Italian navy, composed of the three best battleships, had left for a cruise on the Atlantic before the first news of the disaster came to hand. Through the medium of the wireless telegraph it was possible to reach these vessels and order them to proceed at full speed for Messina.

A British squadron that was at Syracuse, has left for Messina. It is taking a number of doctors and supplies of medicines, etc., for the succor of the wounded.

There are also several Russian ships at Syracuse. It is reported from Catalonia that the Bishop of Messina is buried under the ruins of his residence.

The dome of the cathedral at Catania collapsed and other churches as well as the city hall threatened to fall at any moment. The tidal wave sank numberless small boats in the harbor of Catania.

At Ripeate the tidal wave was 35 feet high. It swept in with appaling power and lasted forty-two seconds.

Rome, Dec. 29.—A despatch from Palermo, Sicily, says that the dead at Messina as a result of the earthquake and tidal wave of yesterday, are estimated at 12,000

Scores are still alive beneath the ruins of the city.

Owing to the inadequacy of the means of rescue at hand, it will be impossible to reach these people, and bring them out alive.

Messina has a population of close on to 100,000 people.

Other despatches received here place the dead at Messina at even more appaling figures. The Tribuna publishes a special telegram saying the casualties will reach a total of 75,000. This report has not been substantiated.

MOUNT AETNA ERUPTS.

Catania, Sicily, Dec. 29. — Mount Aetna, the volcano a short distance from here, is this morning showing considerable activity, and the detonations, which can be plainly heard in this city, together with the volume of smoke rolling out of the crater, have added to the panic of the people.

Death List will Reach Seventy Thousand

Rome, Dec 29.—The Minister of Marine at five o'clock this afternoon received a wireless despatch estimating the dead at Messina at fifty thousand.

No news yet has been received from Reggio.

70 ENGLISH DEAD

Rome, Dec. 29.—The Minister of the Interior has received a telegram from Messina, saying that the bodies of seventy English travellers, and thirty Germans are buried beneath the ruins of the Hotels Trinacria, Victoria, and Bellevue Messina.

ABOUT 70,000 DEAD

Rome, Dec 29.—The Tribune today publishes an estimate of the total casualty list in Calabria and Sicily, which places the number at between 60,000 and 70,000.

100 TOURISTS KILLED.

Palermo, Dec. 29.—Refuges from Messina say there were 100 foreigners in the Hotel Trinacria, and that they all lost their lives. The hotel has been completely obliterated. It was one of the best in the city and patronised almost exclusively by tourists. It was situated in the Via Garibaldi.

KING AND POPE HELP.

Rome, Dec. 29.—It was announced here this afternoon that the Pope will inaugurate the establishment of an international committee of Catholics the world over to assist the survivors of the capastrophe. The Pope heads the subscription list with 1,000,000 lire ($200,000). It is understood that King Victor Emmanuel will give 2,000,000 lire for the relief of the victims.

Twenty Candidates for Alderman, Eight for Board of Education

Time for Filing Qualifications Expired Last Night—Exceptionally Good Fields—Citizens Have Opportunity to Select Good Council—Who the Men Are

The municipal contest is now on in earnest. The time for filling out qualifications expired last night at nine o'clock. For the next few days the candidates will all wear the Quaker Oats' smile and will shake hands with all their acquaintances. The field comprises twenty candidates for the council and eight for the Board of Education, and it is a hard field to pick the winners from. Good men have been selected by the ratepayers and some of the best men in the city have consented to their names going before the electors next Monday.

On Monday last the ratepayers nominated forty-four men for the council and of this number twenty have decided to seek the support of the people, fully realizing that eight of them will be allowed to continue their own business uninterrupted by civic matters. Which eight that will be is a matter few would care to publicly prophicy. There is one thing certain, however, and that is the people have an opportunity to select one of the best councils that ever sat in the arm chairs behind the desk. It is now up to them to study the list and select the very best men, in their opinion, and aside from any petty or personal grievance. Most of the men seeking election have served either in the council or in some other office before and their records are known.

The Board of Education will be well represented. There are eight candidates in the field and they are all good men and well known to the people. The four old members of the board are again seeking election and four new members.

In the council ten of the old aldermen are in the field. Ald. Johnston and Ald. Tovey retired after having given good faithful service for several years. Both of them feel that they can no longer devote the time necessary to public business as their own duties demand more personal attention.

The candidates are as follows;

FOR MAYOR

H. Rush, by acclamation.

FOR WATER COMMISSIONER.

T. F. Matthews, by acclamation.

FOR ALDERMEN.

William Buller.
Robert Hicks
W. George Morrow.
Robert Neill.
W. H. Bradburn.
George B. Elliott.
J. J. Turner, Jr.
Joseph Methural.
A. R. Moore.
Jos J. Duffus.
W. E. G. Armstrong.
Geo. H. Duncan.
Henry Phelan.
James Bogue.
George A. Gillespie.
John D. Craig.
Alexander Gibson.
Harry Morgan.
A. Brown.
A. A. McIntyre.

FOR BOARD OF EDUCATION

Robert Fair
B. F. Ackerman.
Dr. F. V. Frederick.
Dr. M. A. Morrison.
W. S. Robinson.
William Medill.
E. F. Mason.
Dr. J. McClelland.

A greatly interested bunch of candidates were at the city clerk's office last night, watch the other candidates file their qualifications. They canvassed each other for their vote and influence, but promised to canvas no others.

Can you pick ALL the winners from the field?

One alderman stated that he had received letters asking his support from the Retail Merchants' Association, the Ministerial Association, the Temperance party, the Licence Victuallers' Association, the Carpenters' Union, the Trades and Labor Council, etc., etc. He offered them for publication, but they were so numerous and space was so short that it was necessary to refuse them.

Mr. W. S. Robinson, who has done good service on the Board of Education during the past two years, is entitled to a second term, and he will no doubt receive a very large vote from the laboring people.

New Year's day is a holiday, but it will be a busy one for a lot of the candidates, some of whom have already done a lot of feeling among the "fastions."

The retail merchants on George street, certainly have a strong representation in the council. They have selected a bunch of good men, too.

The labor men are represented by some very able candidates and they will undoubtedly be successful with some of them.

To pick the best men in the field; those who are enterprising and have the interests of the city at heart, look up the list of election cards on page four of this issue.

Annual Sunday School Supper and Entertainment was a Great Success

The most successful entertainment that has been held in St. Andrew's school room for the past twelve years was the annual tea and program of the Sunday school last night. Unlike other years all the departments combined and had one big night and it proved very enjoyable both from the point of attendance, interest and character of the entertainment. A big crowd was present, and the children were out en masse. Supper was served from 5.30 until 7.30 o'clock, and this was followed by a half hour of play for the children. At eight o'clock the program was started and it consisted of a chorus by the primary and kindergarten department. Miss Billings of Auburn, gave "the New Church Organ," as a recitation, and the Mandolin Club rendered several selections.

The cantata "The Waif's Christmas," was presented by the children in a manner which showed very careful and thorough training as well as talent. Miss Bella King is responsible for the training of the youngsters. Miss Ethel Tully assisted her at the piano

Miss Grace Evans took the part of Fairy Queen very acceptably, and Stewart S. Laing made an ideal Santa Claus.

The program was followed by the Christmas tree and the distribution of presents to the primary and kindergarten classes.

Rev. J. G. Potter read the list of prize winners. Prizes were awarded for attendance at Sunday school, and for the highest percentage of marks. A number of prizes were also donated by the occasion for attendance at church.

There were 20 prizes for those receiving over 85 per cent., 20 prizes for over 75 per cent., and 20 prizes for over 65 per cent.

Miss Jessie Stevens and Miss Laura Grant won Mr. C. S. McClelland's general proficiency prize.

Victor Thorndike received a special prize as he was at Sunday school 52 Sundays during the year.

The prizes were presented by Mr. R. Lees and at the close Rev Mr. Potter expressed appreciation to those who had taken part in the program, and who assisted in making the evening so pleasant.

Nineteen Hundred and Nine

This coming year, what will it be? Many a gambler will rise and declare. "Fellows, I've bought my last chip; I've played my last card." The man with the tobacco habit will bid farewell to his old friend reluctantly.

The dancers will stop their dancing, the swearer, his cursing, and the man past the 40th summer declares that he will no more make an ass of himself.

Everywhere, in all walks in all quarters, men, women and children will greet the new year with new resolutions and new hopes.

We look back for a moment in retrospect, and behold our errors, but regrets are vain, they never paid a bill or made a man of anyone, and we will find the coming year, in spite of vows and resolutions, much like the past.

The sun will rise and set, the winds will blow us the soft breezes of spring time, the flowers will blossom, the orchards will bloom, the grass will grow, the fruits and grains will ripen, and history will repeat itself.

The lambs will skip on the fields, the birds will build their nests, rear their young and depart again.

In business we will meet with success and disappointments. We will have our losses and our gains, our fierce competitions.

In friendships the old must drop out and the new come in to take their places. Some will lose a husband, a wife, a father or mother, a brother, or sister—a sweetheart perhaps.

This coming year some will meet fierce temptation, all hell will seem to conspire against us, and we will cry "Enough, my God, enough!" We will also have the moments of ecstacy and delight.

There will be the scandals in our neighborhood as usual.

Some citizens will abscond, some citizen will be unmasked, some rascal brought to judgment. Magistrates will still render decisions, judges will still sentence criminals, give judgments, and the Court of Appeal will still be grinding.

Every city, town and village will have its burning question, every village will have its fool and wise man.

Hell will still yawn and right will continue its battle against the evils of society.

Nineteen hundred and nine!

We are growing old.

These passing years glide by so quickly that, almost ere we are aware, we notice that we couldn't go up the stairs quite as quickly as we once did, that we could not read quite as fine print as of yore, that our ears are not quite as sharp as they used to be.

So time goes rolling on, relentless, ceaseless and forever, shattering our vows, promises and ideals with ridiculous ease.

It recognizes only deeds, not promises or regrets.

On roll the days, each day alive with opportunities, each day is the day to resolve and resolve anew.

Why January 1st, 1909?

Now is the only time, the past is gone, and to-morrow never is.

C. F. R.

Port Colborne Elevator Largest and Fastest in Ameaica Said Mr. Harvey

One of the holiday visitors to the city is Mr. Daniel Harvey, who has been in Port Colborne since the early spring superintending the installation of the machinery in the big new elevator erected there by the department of railways and canals. Mr Harvey will remain home until after New Year's, when he will return to Port Colborne for the winter. The elevator is one of the largest and is the fastest in the world. It has now a storage capacity of 1,000,000 bushels and when completed will hold 2,000,000. The foundations for the extra storage bins is already finished. The building is 250 feet frontage, 200 feet high and 150 feet wide, and when completed it will be 250 feet wide. It is constructed of reinforced concrete and steel and is absolutely fire proof. There is no insurance on either the building or the contents. It is operated by electric power from Niagara Falls supplied by the Ontario Power Company and will unload a vessel at the rate of 30,000 bushels per hours. Four marine legs are used for this purpose and are dropped down into the hold of the steamer and are fed by electrically operated shovels.

The Port Colborne harbor is practically completed and its 22 22 foot draft will permit the largest type of lake steamers to enter the the harbor and unload. The draft is two feet greater than the Buffalo harbor and gives the Canadian port a great advantage.

The first steamer to lighter at the new elevator was the Midland Prince which brought down from the Lake Superior ports 315,000 bushels of wheat. This grain was re-loaded into the ordinary canal steamers and barges which have only a 14-foot draft and it required two steamers and three barges to carry the cargo down to Montreal.

The contractors on the elevator were Messrs. Peter Lyle & Son, of Montreal.

"The Margaret Cox Home for Girls" is the New Name for "Hazel Brae"

A visit to "Hazel Brae," the late Dr. Bernardo's home for girls, reveals a completely renovated and up-to-date institution. Workmen have performed marvels in improving and repairing the old building and now as one walks through he is impressed on every side by the brightness and attractiveness of the place. The house has been repapered and a large and spacious wing has been built.

For all these improvements great thanks is due Hon. Senator Cox. The Senator owns "Hazel Brae" and when it was pointed out that unless something was done to add to the accommodation of the house, quarters in another city would have to be looked for, he very readily offered to make the changes which lately have been brought to a culmination. The superintendent and local management of the home are deeply indebted to him and are highly pleased with their now splendidly equipped building.

The new wing has been built on the north side of the house. It is three stories high with a basement fitted up with a new laundry and new lavatories. The first floor of the wing is utilized as a dining hall and the thirty or more girls who from time to time make "Hazel Brae" their home have now spacious quarters in which to eat their meals.

What constituted the old dining-room has been moved over a little west of the main building and will be used as a school for the children. The girls' new dormitory is on the second floor. It is bright and well ventilated and will accommodate forty beds, although not more than thirty-two beds is ever needed, as there is seldom more than that number there. However in case a party arrives from the Old Country there will be ample accommodation for them on the third flat.

The first party of the New Year is expected to sail from England on the 29th of February, arriving here about March the first. The old dormitories will be used for the general purposes. In the infirmary, ten can be accommodated whereas before there was room for only six.

The building is heated throughout by steam, a new furnace having been recently installed.

New oilcloth, carpets, blinds, beds and bed linen have been purchased and placed.

The house is very cosy and homelike, and is the picture of cleanliness and happiness.

The name of the Home has now been changed from Hazel Brae and will hereafter be known as the Margaret Cox Home for Girls.

St. Andrew's Church

The Woman's Home Missionary Society will meet this evening at 7.30 o'clock sharp in the school room. All the members are particularly requested to attend.

A short prayer meeting will be held this evening at eight o'clock, and the annual meeting of the teachers' association will be held immediately afterward.

Hams Won Their First Game

Butch's Hams broke the record last night and actually won a game in the ten pin tournament, and Joe Hay ran up the splendid score of 512. Everyone was surprised but since the earthquake in Italy, almost anything can happen. The Hams were strengthened by Hartubise who played an average game. The Midgets were not in very good form, for instance Gireaux rolled 162 pins the first game and 84 the second.

The scores were;—

BUTCH'S HAMS—				
Hutchinson	114	119	110—	343
Hartubise	160	120	154—	434
Hay	195	134	183—	512
	469	372	447—	1288
MIDGETS—				
Hayes	130	167	142—	439
Brown	139	141	112—	392
Giroux	162	123	84—	369
	450	451	339—	1240

R. N. Scott Elected Reeve of Smith by Acclamation

Reeve R. N. Scott and the council of the township of Smith, were returned by acclamation at the nominations held Monday. This is the fourth time that Mr Scott has been elected to the reeveship by acclamation, and he is to be heartily congratulated. He accepted the office in June of 1905, when Mr. Ed. Elliott resigned to become county clerk.

Mr. Scott has proved himself a valuable servant in municipal affairs, for the people of Smith and the fact that he has again been given the office by acclamation is an evidence of the confidence reposed in him by the electors of his township.

He has also proved himself to be a faithful and efficient member of the County Council. He has done good work as chairman of the House of Refuge Committee and also of the County Property Committee. His name has been mentioned as the one to hold the Wardenship during 1909, and it is altogether likely that this proposal will not meet with any opposition. Reeve Scott thoroughly understands the county affairs and

The council of Smith for 1909 is as follows—

Reeve—R. N. Scott.
Deputy Reeve—T. H. Graham.
Councillors—J. H. Garbutt, Fred McKee and Wm. Davis.

Disclaims Intention of Eventual Occupation

St Petersburg, December 30.— The charge brought in the Douma on December 26, by Prof. Paul Miliukoff, leader of the Constitutional-Democrats that the Russian policy of double dealing in Persia, and particularly the behaviour of Col. Liakhoff, the military governor of Teheran, evidenced preparations for the eventual occupation of Persia by Russian troops, has drawn a response from the Foreign Office.

An official communication praises the work of Col. Liakhoff, and defines his status as a Persian officer entirely subordinate to the Shah, who is alone responsible for his conduct.

Green Sickness

A DISEASE OF YOUNG GIRLS.

Interesting and Suggestive Advice that All Should Read.

Many mothers will echo the conclusion expressed in a very interesting and suggestive letter written by Mrs. Zacharia Pollard, of Grand Bay.

"It is one of the illusions of motherhood that once the disease of childhood have been successfully passed a smooth road lies before their dear ones. Boys bruise themselves, or perhaps break a limb, but the physical history of the young girl, is subject to so many dangers, it is only when some great one has been successfully overcome that we realize how many dangers there are. My eldest child, a daughter, just as she had entered upon the sixteenth year, suddenly developed weakness, her color faded, some unpleasant heart symptoms indicated a lowered vitality and that organ, but strange to say she appeared plump. The bodily functions were obstructed, and a waxy or pallid, or yellowish skin gave her a ghastly look. The doctor's tonic failed to improve the symptoms, we decided to try Ferrozone so highly recommended in the newspapers. It was probably three weeks before any manifest change was noticeable, but once that Ferrozone checked the running-down process the upward advance was rapid. I suppose if I had neglected to give her Ferrozone she would have fallen into permanent ill-health, as it is I am deeply thankful that Ferrozone has completely restored my daughter to vigorous robust health."

No tonic so nourishing, as strength-giving, as Ferrozone. It gives you a grand appetite, brings fine color, a healthy glow to the cheeks. If this, you gain in weight. Think it over, Ferrozone is just what every person in poor health requires. Sold by all druggists, 50c. per box or six boxes for $2.50 Try Ferrozone today.

Returned After Absence of Eighteen Years

Guelph, Dec. 29.—While his many friends in Guelph and Fergus and Nichol township had thought him dead for the last eighteen years, a report of his death having been published in 1890, Capt. W. G. Morgan, late of the Northwest Mounted Police, and a former resident of Nichol township, has been making a success of horse ranching in Alberta. He walked into the office of Mr. S. Broadfoot, of the Inland Revenue Department yesterday, looking as well and almost as young as ever. His old friend, Mr. Broadfoot, was greatly surprised at the mysterious reappearance, and could not help muttering something

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

WEDNESDAY, DECEMBER 30, 1908

YIELDS OF CANADIAN FARMS IN 1907

A census bulletin issued by the Dominion Department of Agriculture places the total value of the field crops of Canada for the year now closing at four hundred and thirty-two and one-half million dollars. This figure does not by any means represent the total of the year's output of Canadian agriculture. Much the greater part of the grain, hay, corn, and roots produced have been, or will be, transformed into meats and dairy products before leaving the hands of the producers, and the value increased in the process. In addition to this there are the returns from orchards and vineyards, of which no account has been taken in the bulletin in question. When fair allowance has been made for these two items it will probably be found that the gross value of Canadian farm products for 1907 will not fall much, if any, below the even $500,000,000.

Half a billion dollars is a huge sum, but it must be remembered there are a large number of individuals to share in the division. There are about three and a half million people living on farms in this country, so that a total of $500,000,000 represents only $143 per capita.

When the figures showing production per acre are looked into, the situation becomes no more satisfactory. In grains the cash value of the yields per acre ran from $12.15 in the case of oats to $21.10 for winter wheat. By the time deductions are made for cost of cultivation and seed the returns in the case of oats represent little more than a fair rental for the land. In fall wheat, when it is remembered that much of the land sown to this crop is summer fallowed the previous season, the returns are little better. It is only, indeed, in potatoes, roots, and fodder corn that a fair showing is made — $43.35 to $84.50 per acre. These crops have shown a fair margin of profit even after accounting for the extra cost of cultivation. The more the area devoted to hoe crops is extended, with the increase in stock feeding and the better cultivation that go therewith, the more satisfactory will be the return obtained even from the acreage devoted to grain production.

TO CHEAPEN PAPER

The growing scarcity of wood pulp due to the destruction of forests, and the consequent rapidly rising price of paper, has led scientists to experiment on processes of paper-making hitherto unknown.

Among the experiments made those conducted by the United States Forest Service and the Bureau of Plant Industry in this matter are of great interest. These experiments, to pay the expenses of which Congress made an appropriation, are to find a substitute for wood pulp in the manufacture of paper, and the United States Government Chemist, Dr. H. S. Bristol, who has conducted the investigation, has already demonstrated cornstalks will produce good paper.

To make the new paper of commercial importance, it is necessary that it be supplied as cheaply as wood pulp product, and that this can be done these scientists hope to be able to show. A company is, in fact, even now in existence which was organized for the purpose of making paper from cornstalks and from waste sugar cane, or bagasse.

According to Mr. Guenther, the United States Consul-General in Germany, a sugar planter in the Island of Trinidad has built a mill and makes paper from sugar cane stalks. The mill cost $15,000, and the planter claims that it has made paper worth $24 a ton by a process so inexpensive that it will now pay to grow cane for that purpose alone and make sugar a by-product.

Many prominent men connected directly or indirectly with the paper trade, however, judging from the results of the experiments that have been made in the past, do not look for success. If paper, though, can be made a commercial success by this process, corn growers and cane planters will be able to derive a large income therefrom, and at the same time a great saving will result in respect to our rapidly disappearing forest wealth. The sale of stalks would bring a clear profit to the corn grower.

Should the price of paper, such as is used by the daily press, continue to rise as rapidly as it has been doing for some time, the newspapers and periodicals will also have to rise in price. The only alternative seems to be a cheap substitute for wood pulp. If the experiments mentioned prove successful, the economic and social importance of the discovery will be inestimable.

PARDON AND PENSION FOR DOCTOR LEYDS

Memories of the last days of the Transvaal Republic are recalled by the announcement that Dr. Leyds is no longer an outlaw, so far as South Africa is concerned. Lord Selbourne, the High Commissioner and Governor-General of British South Africa, has given Leyds permission to return to the scene of his ante-bellum activities. Moreover, on the recommendation of Premier Botha, the British Government will allow him a pension. The constitutions granted the Transvaal and Orange River Colony exhausted our capacity for astonishment at the magnanimity of the present British Government; were it not so we should be amazed that Leyds, the man who has as much responsibility for the war as any other man, living or dead, should be forgiven so soon, and actually rewarded for his services.

DID LEYDS SELL OUT?

As a matter of fact, the pension to Leyds may be susceptible of a very simple explanation. It will be remembered that though Leyds "out-Krugered" Kruger in his hostility to the British Government, he was suspected of having betrayed the Boers when he saw that their cause was doomed. With the fall of Pretoria Leyds vanished. Somewhere in Europe he concealed himself, and never encountered any of the other Boer fugitives if he could avoid it. It was notorious that Oom Paul was highly indignant with Leyds for his unwillingness or inability to explain what had become of the money entrusted him to spend on behalf of the Boers in Europe. It was supposed that he had large sums "planted", but Leyds always pleaded poverty when reproached for neglect to keep some of the other refugees who were almost penniless in Europe. He continues to plead dire poverty, and it is this plea that has been officially accepted by the British Government. If we are to suppose that he was a traitor to Kruger, the whole game becomes easy to understand.

LEYDS A HALF-BREED.

Traitor or not, Leyds is a remarkable man. It would be difficult to find another who had to overcome greater obstacles at the beginning of [illegible]. To begin with, he is a half-breed. His father was a Dutchman and his mother was a native of [illegible]. Young Leyds spent his childhood in Java, where his father was a petty lawyer; but he was ambitious for his son, whom he sent to Amsterdam to be educated. In 1881 when Kruger and Smit visited Europe, Leyds was lucky enough to run across them. He was able to be of some assistance to them in connection with the Netherlands railroad concession. The cautious Boers were much impressed with the abilities of the young man, and ended by inviting him to return to the Transvaal with them.

AN ATHEIST, TOO.

He proved industrious, and, the Boers having agreed to forget that he had black or brown blood in his veins, came to overlook other objections. Deeply pious as he was, Kruger was shocked to learn that Leyds was an atheist. The old autocrat puffed at his pipe in silence for a few minutes after this discovery, and then said, "Young man, it grieves me, it pains me, and I blame you much. But if you do your duty faithfully as an honourable man there need be no objections to your serving this republic." So he made Leyds State Attorney, and in a few years promoted him to the more important post of Secretary of State. It was in this position that Leyds did his most important work. He made it his policy to pay frequent visits to Europe, and in the course of these missions he came in contact with the leading continental statesmen.

LEYDS, THE GO-BETWEEN.

His success as Secretary of State appears to have been founded on two pillars—his own abilities as a deceiver, and the unpopularity of Great Britain. For years before the war broke out friction existed between Great Britain and the Transvaal. Summed up, the British contention was that Englishmen, and all other foreigners, should enjoy the same civic rights as Boers in the Transvaal. These rights Kruger refused to concede. But he knew that at the end of all the negotiations he would be forced to give in to the superior force of Britain, unless he could find allies in his quarrel. It was Leyds' business to make these allies. Carrying to Kruger assurances that the Boers would be supported in Europe, and playing in Europe upon the general hatred of the British, which was almost universal about that time, Leyds made himself very popular at both ends. That he did get encouragement from more than one Continental capital is sure; and that he did magnify these promises to Kruger is equally certain. His false representations brought on the war.

FIXING THE PRESS.

When the blow fell, Leyds at once betook himself to the Boer Legation at Brussels. He had assured the Boers at home that intervention on their behalf was certain, but that it was necessary to bribe the newspapers to advocate the step, in order that the Government might seem to be yielding to popular clamor when they were merely carrying out a prearranged plan. How much money he spent on the newspapers, and how much he saved for his own uses, no one knows but Leyds. He has never accounted to anyone, and there remains no one to account to. A usually well-informed writer declared some years ago that Leyds' one ambition after the collapse of the Boer Republic was to become a representative of the British Government in some capacity. Having been pardoned and granted a pension, it seems not unlikely that this ambition will be realized.

The old fashioned way of dosing a weak stomach, or stimulating the Heart or Kidneys is all wrong. Dr. Shoop first pointed out this error. This is why this prescription—Dr. Shoop's Restorative—is directed entirely to the cause of these ailments—the weak inside or controlling nerves. It isn't so difficult, says Dr. Shoop, to strengthen a weak Stomach, Heart or Kidneys, if one goes at it correctly. Each inside organ has its controlling or inside nerve. When these nerves fail, then these organs must surely falter. These vital truths are leading druggists everywhere to discover and recommend Dr. Shoop's Restorative. Test it a few days, and see improvement will promptly and surely follow. Sold by all dealers.

Bewildering Relationship of Two Families

Washington, Penn., Dec. 30.—Bewildering relationships among members of two East Finley township families have resulted from the marriages of a father and his two sons and a widow and her two daughters. The three ceremonies were celebrated within the last two months. Henry Dillinger, an aged farmer, whose second wife died nearly a year ago engaged Mrs. Maria Richmond as his housekeeper. It was agreed that two daughters of Mrs. Richmond—Lucy, sixteen years old, and Jessie, nineteen years old—should live in the Dillinger home with the father and his two sons, Charles and David. After a time the aged farmer married Lucy Richmond, and the two families continued to occupy the same house. A few weeks after the first marriage Mrs. Richmond became the wife of David Dillinger, the older son. Jessie Richmond and Charles Dillinger were married last week. The three families still live in the home of the older Dillinger.

Preventics, the new Candy Cold Cure Tablets, are said by druggists to have four special specific advantages over all other remedies for a cold. First—They contain no Quinine nothing harsh or sickening. Second—They give almost instant relief. Third—pleasant to the taste, like candy. Fourth—A large box—48 Preventics—at 25 cents. Also fine for feverish children. Sold by all dealers.

DOMINION CANALS

Notice to Dealers in Cement.

Sealed Tenders, endorsed "Tender for Cement," will be received by the undersigned, up to 16 o'clock on Friday, the 30th January, 1909, for the supply of some 100,000 barrels of cement, more or less, required for the construction and maintenance of the various canals of the Dominion and to be delivered in such quantities, at such places and at such times as may be directed.

Dealers in cement may tender for the total quantity required, or for such portions thereof as may suit their convenience.

Specifications, forms of tender and full information can be obtained at the Department of Railways and Canals, Ottawa, on and after this date.

The Department does not bind itself to accept the lowest or any tender.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals.
Ottawa, 24th December, 1908.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

WELLAND CANAL

Tenders for Supplies for the Year 1909

SEALED TENDERS for Supplies addressed to the Superintending Engineer, Welland Canal, St. Catharines, Ont., will be received until 16 o'clock on Saturday, the 16th of January, 1909, for the supply and delivery of various articles of Timber, Hardware, Castings, Oils, etc., for use on the Welland Canal and its branches for the year 1909.

Specifications, forms of tender and other information may be obtained at the Superintending Engineer's Office, St. Catharines, on and after Thursday, the 31st December, 1908.

The lowest or any tender not necessarily accepted.

L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, December 22, 1908.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for it.

A marvellous trial reading of character by the well-known scientific phrenologist, Prof. McKellar, L. V., 21 Beaconsfield avenue, Toronto, whose public blindfold tests prove the reliability of phrenology. Send address and 10 cents silver. Enclose photo when possible. Will return with reading.

MILLIONSOF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Waisted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW wha it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world- Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock---to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Our smelter thus erected will save 85% in treatment. freight charges and hauling the ore to the railway This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment ; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when her you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary. development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Address

The Kuenzel's Process Smelter Co.

Chas. A. Kuenzel, President A. W. Kuenzel, Secretary and Treasurer

BUENA VISTA, COLORADO

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash values in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery is installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property that have already waited long for results, and that may not be able to realize anything for 90 days more.

Write me, giving full information of what you have to exchange.

CALVIN ESTERLY,
717 Market St., San Francisco, Cal.

"OXOL"

The word "Oxol" does not mean one feed, or one preparation No; "Oxol" is a name given to all goods for horses, cattle, swine and sheep, prepared by Messrs. S. K. & T. C. Windsor of Australia, New Zealand, England and Canada.

The veterinary preparations as well as the compressed bales of fodder placed on the market of the world under the name of

"OXOL" FOR CATTLE

are all of the greatest possible order of merit and may be used by farmers, graziers, dairymen, and all owners of stock with the full assurance that these goods have the power in a very short time to double their incomes by feeding, fattening and curing all animals, which to them mean money.

One agent only in each district who has sole contract of the local trade for agent's name. See future advertisements, etc.

The Plow Woman

By ELEANOR GATES,
Author of "The Biography of a Prairie Girl."

COPYRIGHT, 1908, BY McCLURE, PHILLIPS & COMPANY.

(Continued.)

"I messed at Blakely's that night. Afterward me and Kippis had a little game."

"What game?"

"Cards."

"Ah!" At once Oliver sent for the sutler and the sergeant and, waiting for them, tramped up and down. When the men came he halted and with pointed finger asked Matthews to repeat his story. The interpreter did so.

"And how long did that game last?" demanded Oliver.

Without looking in Kippis' direction the interpreter answered, "Till revelly," he said.

Fraser grunted, the surgeon smiled broadly, but the captain frowned.

"Of that, later," he said significantly. "Kippis?"

The sergeant stepped forward, "Hit's hall true, sir," he faltered. It was Kippis' misfortune always to look more guilty than he was. With Oliver's angry gaze upon him he flushed redder than fire.

The captain was only half satisfied. He turned to the sutler. "And you, Blakely?"

The sutler had a round, jolly figure—a figure that was a living advertisement of the fat producing quality of his edible wares. At Oliver's question that figure gave a startled bounce, like a kernel of corn on a hot grid. "True, sir, true," he vowed huskily and coughed in apprehension behind a plump hand.

The captain looked keenly from man to man. "Very well," he said. Those twelve hours accounted for, Matthews was shown innocent of planting the pole. "Tell me what you did yesterday from revelly on."

"Slept till stables."

"I know that's so," said Fraser.

"After that?" Oliver asked.

"I goes into the stockade. Little Thief was carving his bride."

The captain glanced at Fraser. The latter nodded back.

"I remember," said Oliver slowly. "Then?"

"Cards till revelly."

The listening officers laughed.

But there was no softening of the captain's face. "Who played with you?"

Matthews indicated the sutler and the sergeant by a sideways move of the head. "Them two," he answered.

"Blakely?"

"True—true." And Blakely gave another bounce.

"Sergeant?"

"True's far's Hi know, sir."

The thirty-six hours were now covered. Oliver sat down. "That'll do. I want Squaw Charley and the men who have been on duty at the stockade since the command left. Matthews, you may go."

Matthews bowed, Blakely and the sergeant saluted and the three withdrew. Outside, beyond hearing, they exchanged congratulatory shakes of the hand.

"My, but the dander!" breathed the relieved sutler, rolling his apple round head. "I was that scairt!"

"Make you happreciate the K. Ho. w'en you got 'im," returned Kippis sagely.

Matthews shrugged his shoulders pityingly. But he had nothing to say.

The three gone, Oliver had turned to those with him. "A complete alibi," he said.

"I knew it," said Fraser. "But I wanted you to get it first hand."

"You knew?"

"Yes, sir. And I hope you'll be easy on Kippis. He and Blakely have been helping me keep tab on Matthews to prevent the very thing that's happened."

An hour later a second group of men gathered in the captain's front room. These were the troopers for whom the commanding officer had asked. With them came Squaw Charley, quaking in his feathers, flinching at every look. As Oliver appeared the wretched Indian was half dragged, half pushed before him.

The examination was short. The sentries who had tramped the high board walk vouched for Charley's constant presence in the stockade throughout the whole of the required time. The guards at the sliding panel lent corroboration. From sunup till taps of the previous day Charley had fleshed at the hide of an elk, the scarred fury, Afraid-of-a-Fawn, hanging over him the while. Both nights from taps on he had watched outside the lodge occupied by the hag and an Indian girl.

Captain Oliver crossed to the bend to tell Dallas his results. "Matthews has witnesses who know where he was every minute of the time," he said. "Undoubtedly he had no active part in this affair."

"He knows about it, though," she answered.

"That would be hard to prove."

Before he went the captain proposed certain defensive improvements for the shack. She accepted them gratefully. Later a carpenter nailed thick cleats across the warped door, and the post blacksmith put heavy lashes of iron over the eyes of the shack.

At nightfall a detachment landed on the east bank, divided and went on a scout in opposite directions. It was only part of Oliver's plan of guarding, for he did one thing more—spoke plainly to Matthews in regard to the bend.

"I advise you to relinquish all claim to the Lancaster place," he said. "I shall allow no warring on girls."

Matthews gave his promise.

During the first few days that followed Marylyn's heart beat pendulum-like between grief and dread. It was grief when in a moment of forgetfulness she found that she had set the table for three or when, missing her father in th ar he soon came much with her—the spoke of him to Dallas. At such time, with sweet impartiality, she mourned him as sincerely as she had mourned her mother. But at night, when the detachment came back from its scouting, she felt a terrible dread—dread lest the hunt had been successful and the troopers should ride across the prairie to the shack door bearing something solemnly home.

Those first days past, however, the sharp edge of her sorrow, together with her fears, wore gradually away. She had the elastic spirit of eighteen, and she was impatient of this new heartache, which possessed none of the romantic qualities of the old. A doubt of her father's death, fostered by Dallas, grew until it became a conviction. He had been taken away or he had fled; he would return. Meanwhile, though nothing could have induced her to leave the shack after dark, it fretted her sorely that in the daytime she was not permitted to go as far as the grove.

That restriction was the only hardship that the elder girl allowed the younger to bear. Dallas believed that their father had come to mortal harm, but she never shared that belief with Marylyn.

"We got to keep a stiff upper lip, baby sister," she would say, with an encouraging pat. And her smile was always hopeful and cheering.

Mrs. Oliver came daily and spent her time with Marylyn. She did not feel that Dallas needed buoying—Dallas, quiet, self poised and stanch. Yet all the while the elder girl was growing wan under the strain, for having given generously of her strength there was no one from whom in turn she might take. And so her thoughts came often to be of the one who had faithfully watched over them, how faithfully shown by the fact that catastrophe had followed swift upon his leaving. And in her heart she cried out for him.

The tragedy on the bend furnished a nine days' wonder for Brannon, but the garrison felt little grief over it. Lancaster had earned their dislike by insults open and veiled and by his determination to cut his family off from every friendly influence. The enlisted men were even inclined to treat his disappearance facetiously. When they heard about the pole they declared that in his fright over it he had fired a shot.

(To be continued.)

Humor

HIS MISTAKE.

Why Lawyer Bunson Ceased to Be a Kidder.

Bunson was always a great kidder. He isn't any more.

Bunson is a lawyer, although, of course, he is known by a different name. Don't ever get the idea, though, that this didn't really happen just because Bunsen's real name isn't mentioned.

Well, as we were saying, Bunson used to be pretty much of a kidder. He would even kid his own patient little wife. Those who care to read on down a little farther will learn why he ceased to be a kidder.

One evening last week when Bunson got home his wife had a new hat to show him. It was some hat. Anybody could have seen that it was the final phrase in female headgear.

But Bunsen started in to make fun of it. He said it looked as if it had been trimmed by a cross eyed milliner on an empty stomach. And he made a lot of other disparaging remarks that were extremely harassing to poor Mrs. Bunsen. "D'je buy it eight unseen?" he inquired. "Say, how much do they pay the girl that sold you that? She ought to have a raise. Any girl who could put that one over a customer must be something of a smooth salesindy, I'm here to remark."

Mrs. Bunsen was almost in tears. Bunsen had to go into the other room to have a quiet laugh at her expense. Oh, he was the great kidder, all right!

The next day, though, he had forgotten all about the hat.

The day after that he was reminded of his little jokefest. Mrs. Bunsen handed him a slip of paper when he came home to get his victuals that evening. It was a bill for retrimming that hat—$18.34 it came to.

Bunsen paid it without a murmur and said the revised edition of the hat was just exactly right. He isn't making fun of hats any more.—Cleveland Plain Dealer.

A Minor Matter.

A young broker in Boston while visiting a certain household in the Hub not long ago encountered a number of young women graduates whose conversation suddenly turned to a discussion of the development of the English novel.

The dealer in stocks and bonds speedily found himself "out of it." Presently during a lull one young woman asked him:

"What do you think of Fielding, Mr. Brown?"

"Oh, fielding is important, of course," quickly responded the broker, "but it isn't worth much unless you've got good pitchers and men who can hit the ball."—Harper's Weekly.

Mr. and Mrs. E. L. Goodwill spent Christmas at the home of the latter's parents in Kingston. Mr. Goodwill returned to Peterborough last night, but will rejoin his wife for New Year's.

Weak Kidneys

Weak Kidneys, surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organs itself, but in the nerves that control and guide their strengthless Dream. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month. Tablets or Liquid—and see what it can and will do for you. Druggists recommend and sell

Dr. Shoop's Restorative

"ALL DEALERS"

Letter to The Editor

Mr. Editor,—Allow me to make a few remarks on the following text from which possibly we may learn some lessons which the writer, as well as the reader, might do well to keep in memory.

"Ye shall keep my Sabbaths and reverence my sanctuary; I am the Lord." Lev 19. 30

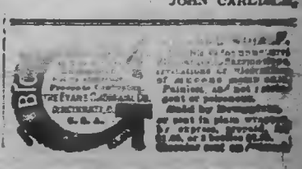
The Sabbath is a holy day set apart as a sacred day of rest from common or secular use. Every hour of the Lord's Day is holy. The sanctuary is a holy place set apart from common or secular use and consecrated to religious use and divine worship. Every court of the sanctuary is holy. To desecrate the Sabbath we have only to use it as a common day, for instance. The merchant has only to offer his goods for sale on this day, to profane the Sabbath. He may argue that all his profits of that day's business he will devote to sending the Gospel to the uttermost parts of the earth, and pleads that false doctrine that "the end justifies the means", or else let us do evil that good may come, but in vain, he is brought in guilty—both by the law of God and man—of Sabbath desecration and sanctuary desecration were punishable under the levitical law by death. To desecrate the sanctuary we have only to use that sacred place as a common house. What is Church? Church means the Lord's house. We may call it our church, it is in a sense but preeminently it is God's house, "Ye shall reverence My Sanctuary." The God of Heaven is not confined to temples made with hands, for "the Heaven of heavens cannot contain Him" but He has now as of old His earthly court, where He condescends in infinite mercy to make the children of men to speak to them by his spirit through His word, His ambassadors, etc. Yes, and in every true sanctuary. His ministers from the imperial court of heaven are always in attendence ministering to the heirs of salvation, and as reporters gathering up news of sinners repenting, for publication in the upper sanctuary. It well becomes us to tread the courts of the Lord's house with reverence. "Ye shall reverence My Sanctuary." Earthly kings demand strict adherence to court rules. Even so the King of Heaven expects that the simple reasonable court rules of the sanctuary be observed. Let us consider some of them Court rules for men, heads uncovered short hair. For women, heads covered, etc., but if I may be excused the digression, if I remark that the women of four day have overdone this simple rule and have enlarged the borders of their hats to such an extent that for length, breadth, depth and height one can only compare them to ——I pause for a simile, and these large hats have come to be such a plague in some parts for of one heroic preacher, just the other day, it is reported, that he refused to proceed with the services of the sanctuary until the wearers of these aforesaid hats either took them off or left the church. Moral—We can get too much of a good thing. Let us consider next the court rules governing the matter of singing in the sanctuary. I would say that we as professing Christians living in a Christian country, this land of churches, are in duty bound to study court rules that we may know how to behave ourselves in the church of God "Psalms hymns and spiritual songs," is the simple court rule laid down for the regulating of our behaviour in the matter of singing in the courts of the Lord's house, and I would say right here that I challenge the world to disprove that statement.

We profane the Sabbath when we sing the common secular songs of the street on that day. Likewise the sanctuary is desecrated when these common songs are sung there. Desecration of sanctuary is alienating to common purposes that which has been appropriated to religious uses. To turn from right or true use. When we use the sanctuary for concerts, operattas, etc., and offer these entertainments for sale at 25 cents a head at the door of the sanctuary, and as the programme calls for singing the common songs of the street—fit only for a comic show—such as Tom Tom, the Piper's Son, Yankee Doodle Come to Town, or Johnnie Smoker. What are you guilty of? I leave my reader to judge for himself.

"Ye shall reverence my sanctuary; I am the Lord." We will consider for a moment what is included in the sanctuary. It surely includes the children's court, viz., the Sabbath school. The Sabbath school might well be called the children's church. At all events, it is as much a part of the church as the nursery is part and parcel of the home. If we train our children to treat the sanctuary as a common house where they may play, eat and drink to the full and romp between tables through the church playing hide and seek under the pews to the utter dismay of the sexton. If we treat them in this way when they grow old they will not depart from it. But train them to reverence the sanctuary as a holy place as we train them to reverence the Sabbath as a holy day they will as they grow older, be more likely by so doing to find the house of God to be the gate of heaven to their souls

God whose understanding is infinite, knew how much the law of association effected His earthly children when He said "Ye shall reverence my sanctuary."

Yours etc.,
JOHN CARLISLE.



Weary, Worn Out, Tired

If You Feel Poorly this Spring this Article is worth Considering.

Nothing in life keeps people from advancement like poor health. If the nerves are weak if the stomach, liver, bowels or kidneys, fail to work properly, healthy surely suffers. Spring is the hardest time on health —the season when the system calls for active cleansing medicine.

The best plan is to entrust your condition to a physician of reputation like Dr. Hamilton, who has had years of experience in compounding tonics. For the tired and tired feeling of spring Dr. Hamilton says nothing is better than Mandrake and Butternut Pills, and this is well proven in the case of James Burton of Lewisham. "I had grip and it left me very weak, the disease settled in my back and side, which ached day and night. I had a nagging cough. My appetite was all gone. My nerves unstrung. I could not sleep well. I struggled against growing pale, thin and weak—but it was no good. Spring brought depression, overpowering weakness—and bad headaches. But my life was spared, simply because I learned of the wonderful merit in Dr. Hamilton's Pills of Mandrake and Butternut. The result was marvellous. I gained rapidly, became strong, ruddy, vigorous, perfectly well. I urge every man and woman to use Dr. Hamilton's Pills regularly.

You'll brighten up, have cleaner blood, stronger nerves, better spirits after using Dr. Hamilton's Pills, 25c at all dealers. Guaranteed safe, sure helpful for old and young.

Peterborough Poultry Show January 6 and 7. Hundreds of birds. Each farmer's son should show birds. Each farmer's daughter a dog, big eggs and a pair of dressed chickens. Come all.

New Fire Alarm

"The life saving fire alarm" is an invention of Mr. George Scriver, of Uxbridge and he is in the city in the interests of the alarm. Mr. Scriver has great faith in the practicability and convenience of the system and thinks the ratepayers will not be slow to appreciate its value. Mr. Scriver has spent a great deal of time in perfecting his invention and is having models for demonstration purposes manufactured in the city. He will be here for a few days.

And it is entirely free from Opium, Chloroform, or any other stupefying drug. The tender leaves of a harmless lung-healing mountainous shrubb give to Dr. Shoop's Cough Remedy its curative properties. Those leaves have the power to calm the most distressing Cough, and to soothe, and heal the the most sensitive bronchial membrane. Mothers should, for safety's sake alone, always demand Dr. Shoop's. It can with perfect freedom be given to even the youngest babes. Test it once yourself, and see! Sold by all dealers.

Obituary

MELVILLE E. HERRON.

The death occurred Sunday morning of Mr. Melville E. Herron, a very well known and highly respected resident of Cavan Township, near Springville. The deceased, who was twenty-six years of age, had a large circle of friends in Peterborough, where he resided for some years. He attended the Peterborough Business College under the late William Pringle, and after graduating from that institution was employed for some time in the Kingan Hardware Company. Later he was in the employ of the Lindsay branch of the Metropolitan Life Assurance Company. About two years ago he was taken ill and he has been an invalid ever since, growing steadily worse until death came Sunday morning. He was a bright and promising young man and his many friends in the district will regret to learn of his demise. He was the son of Mr. J. J. Herron, lot 20, con. 11, Cavan, and is survived by two brothers, Messrs. Bruce, of the Northwest, and Lloyd, at home, and two sisters, Mrs. W. H. Robertson, of South Monaghan, and Mrs. Lindsay Vance, living in the Northwest.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they do not reach the seat of the disease. Catarrh is a blood and constitutional disease and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known combined with the best blood purifiers acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

F. J. CHENEY & CO., Props.,
Toledo, Ohio.

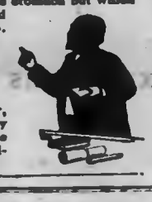
Take Hall's Family Pills for constipation.

Preventics, the new Candy Cold Cure Tablets, are sold by druggists to have all other remedies for a cold. First—They contain no Quinine, nothing harsh or sickening. Second—They give almost instant relief. Third—Pleasant to the taste, like candy. Fourth—A large box—25 Preventics—at 25 cents. Also fine for feverish children. Sold by all dealers.

STOMACH LIVER LUNGS

Each of the third organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.



The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

GIVEN AWAY.—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent *free* on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

The Mayoralty

To the Ratepayers of the City of Peterborough:

I take this opportunity of returning my sincere thanks for the confidence reposed in me by my election by acclamation for a second term as your Mayor.

Yours faithfully,
HENRY RUSH.

VOTE FOR

WILLIAM BULLER

The People's Candidate for Alderman

Your Vote and Influence

respectively solicited for the re-election of

J. J. TURNER, Jr. For ALDERMAN

Card from Mr. Duffus

To the Electors of the City of Peterborough

LADIES AND GENTLEMEN,—

I have accepted nomination for Alderman at the request of numerous influential ratepayers of the city. If elected, I promise to give diligent attention to the duties of the office. Being a heavy taxpayer and having a good knowledge of city affairs, I feel that I should be of assistance in safeguarding the public interests; and I promise, if elected, to do all that careful judgment can do to promote the welfare of our progressive city.

Joseph J. Duffus

FOR ALDERMAN

A. A. McIntyre

respectfully solicits your support for his candidature for the City Coneil. He has severed several years and his course is well known to all. He will, if re-elected, perform his duty without fear or favor, and will be guided by his own convictions.

A. A. McIntyre.

For Alderman

To the Electors of the City of Peterborough:—

Your vote and support is requested for my re-election to the Council. My course during the last term was according to my honest convictions without fear or favor. I propose to follow the same course if re-elected.

Yours respectfully,

Harry Morgan

Re-Election of Ald. Gillespie

To the Electors of the City of Peterborough:

Ladies and Gentlemen,—At the request of many citizens largely interested in the welfare of Peterborough, I have decided to again accept nomination as Alderman. I trust that the confidence reposed in me last year has strengthened my candidature for a second term. If so my aim will continue to be the advancement of the progress of our growing city. While I will oppose without fear or favor all useless expenditure, I shall support all wise measures calculated to build up our natural resources, irrespective of wards or boundaries.

Respectfully yours,

George A. Gillespie

Card of Thanks

In retiring from the municipal rens and not allowing my name to go on the ballot this year, I desire o express my appreciation of the honor conferred upon me by my mover and seconder. I also desire to express my sincere thanks to the many friends who loyally supported me during the several years I served in the council as well as those who intended to support me again had I decided to run. My own business demands my personal attention and I cannot afford to spare the time necessary for public business. Wishing one and all the compliments of the season, I remain

Yours respectfully,

Wm. J. Johnston

TO THE ELECTORS

LADIES AND GENTLEMEN:

At the urgent request of a large number of ratepayers I have consented to become a candidate for the council for 1909. If elected I will do my utmost to further the best interests of the city. It is time that our council made a decided effort to reduce expenses, and thus keep down the taxes, which have of late years grown so burdensome. I believe that the business of the council can be more economically managed, and I will, if elected, do my best in this direction.

Soliciting your votes and influence, I am,

Yours sincerely,

James Bogue.

FOR ALDERMAN

To the Electors of the City of Peterborough:

LADIES AND GENTLEMEN,—

I again solicit your votes to elect me to the Council. I have served in the Council three years, and believe that the experience gained will enable me to give better service another year, and if elected I will do my best in the interest of every part of the city.

I have the honor to be your obedient servant,

Geo. E. Elliott

Board of Education

LADIES AND GENTLEMEN,—

In presenting myself as a candidate for election to the Board of Education, I ask your support and influence, and if elected will endeavor to faithfully serve the interests of the Board.

Yours truly,

M. McClelland

BOARDOF EDUCATION

To the Ratepayers of the City.
LADIES AND GENTLEMEN;

I am again a candidate for election as one of your representatives on the Board of Education of the city. By your kind favor I have been one of the members for the last thirteen years, and I trust that my services have been such as to merit a renewal of your confidence.

I shall be heartily glad if you will accord me your vote and influence.

Respectfully yours,

Robt. Fair

Your Vote and Influence

are respectfully solicited for the election of

Dr. Ernest V. Frederick

for the

Board of Education

Election Jan. 4, 1909.

For Board of Education

Vote for Billy Robinson, the People's Candidate.

I solicit the support of the ratepayers, and especially the working people. I have a clean record during the past two years, and desire to serve another term.

Yours respectfully,

W. S. Robinson

YOUR VOTE AND INFLUENCE

is respectfully solicited for the election of

Joseph R. Metheral
AS ALDERMAN
Election January 4th, 1909

VOTE FOR

W. H. G. ARMSTRONG
AS ALDERMAN

for the year 1909, and honest, efficient and economical city government. No interests but those of the city will receive his consideration.

Election on January 4th.

CARD FROM ALD. H. PHELAN

To the Electors of the City of Peterborough:—

LADIES AND GENTLEMEN;

Having been again honored with nomination for alderman, I have accepted the same at the solicitation of a large number of influential ratepayers.

My record in the Council in the past is well known to all, and if again honored with your confidence I will endeavor to render efficient service. Such good business judgment as may have qualified me for being of service to the city will be again used to the best of my ability.

Harry Phelan

FOR ALDERMAN

LADIES AND GENTLEMEN;

I respectfully solicit your votes and influence in favor of my candidature as one of your Civic Council for 1909, and to ensure my re-election.

Thanking you in advance.
Respectfully yours,

W. H. Bradburn

TO THE RATEPAYERS of the City of Peterborough

LADIES AND GENTLEMEN,—

Having been urged by a large number of ratepayers to again run for the council, I have consented to do so, and I respectfully solicit your vote and influence for my re-election.

If elected I will do everything in my power to forward the best interests of the city.

Thanking you one and all for past favors, I remain,

Yours respectfully,

W. G. MORROW

FOR ALDERMAN

A. R. MOORE

Respectfully solicits the support of the ratepayers in favor of his candidature.

He has lived among you all his life; knows the requirements of the city and promises if elected to faithfully serve you in every way.

Your support solicited.

Archie R. Moore

TO THE ELECTORS

LADIES AND GENTLEMEN,—

Having accepted the nomination for re-election as Alderman of the city for the year 1909, I respectfully solicit your votes and influence.

If again favored with your confidence and elected, I shall continue to look after your interests, do my best to serve you faithfully and discharge the duties pertaining to the position in a manner that I hope will generally merit the approval of the majority of the electors.

Thanking you for your generous support in the past, and wishing you all a happy and prosperous New Year, I am

Yours truly,

GEO. H. DUNCAN.

Impressive Ceremony at Mount St. Joseph

Five Young Ladies Received Into Sisterhood of St. Joseph Ceremony Performed by Bishop O'Connor

A very impressive and important ceremony was performed yesterday in the chapel at Mount St. Joseph by his Lordship Bishop O'Connor, when five young ladies were received into the Sisterhood of St. Joseph.

The names of the young ladies are given as follows, with the names they will bear hereafter in their religious life;

Miss Mary Hamilton, Eganville, Ont.; Sister Sylvester.

Miss Sarah O'Neill, of Shanowny, Cork County, Ireland; Sister St. Felix.

Miss Elizabeth McNulty, of Douglas, Ont.; Sister Margaret.

Miss Elizabeth Guinea, of Montreal; Sister Mary Leona.

Miss Blanche Coutourier, of North Bay; Sister Mary Antoine.

THEIR FIRST STEP.

These young ladies have been on probation for some months and took their first step, which is the reception of the holy habit. Two years from now they will make their final vows, the concluding step to the sisterhood.

High mass was celebrated in the chapel by his Lordship Bishop O'Connor, and the following members of the clergy were present; Rev. Father Dowdall, of Eganville; Rev. Father McColl, Rev. Dr. O'Brien, Rev. Father Kelly, Rev. Father Hurley, of St. Basil's, Toronto, and Rev. Father McGuire of the Oblate Order of Ottawa. There were also a large number of the friends and relatives of the novices, who had come from the respective towns to witness the ceremony. The music during the mass was sung by the sisters' choir of Mount St. Joseph. The chapel, which was appropriately ornate for the occasion was crowded.

During the past week the five young ladies were on a retreat, which was preached by Rev. Dr O'Brien.

THE SERMON.

During the mass Rev. Father Dowdell, D.D., of Eganville, preached a special sermon from the text, "What will it profit a man if he gains the whole world and loses his own soul." It was an eloquent discourse upon the responsibilities of the young woman who enters the sisterhood, and also emphasized the sacrifice which had to be made. God had placed His people on this earth that they might save their own soul. The young ladies might do this in their lives with the rest of the world, but by their call to the religious life He had chosen them to be nearer Him for their salvation, for caring for the sick and poor, and teaching the ignorant. Rev. Father Dowdall portrayed the beauty of the religious life, and throughout his sermon uttered words of good advice that would be of assistance to the novices.

His Lordship Bishop O'Connor also addressed them.

Whitcroft's Team Won Second Game of Stanley Cup Series

(Times Special).

Arena, Montreal, Dec. 30 — The Stanley Cup remains in Montreal. The Western team made a gallant fight to win it, and the game tonight was the fastest hockey seen in Montreal for a long time. The score at half time was two to one in favor of Edmonton, and the pace, up to that time, was of the fastest. The visiting team had much the best of the lay in the first half and the two wings, Deeton and Miller, did some very fast work in their respective positions. Tom Phillips who had his ankle broken in Monday's game was at the arena on crutches, and it will be some time before he will be able to don skates again.

The final score on tonight's game was 7—6 in favor of the visiting team.

The final score on the two games being 13 to 10 in favor of Wanderers.

ROUGH GAME.

Tonight's exhibition was one of the roughest ever seen here. The local boys were determined to hold the cup even if they had to kill all the visitors. They certainly tried to put Patrick under the sod. Four times he was laid out but always came back. The fourth time he received an awful bump and had to be carried to the dressing room. After ten minutes, however, he was on the ice again, and the game proceeded. Still the Wanderers kept at him and he was deliberately tripped twice in 30 seconds. The locals were very much afraid that the Westerners would break loose and trim them, and the only thing that prevented them doing so was the superfluous use of the gad. The referee was kept busy penalising the Wanderers in the last ten minutes.

WHITCROFT CHECKED HARD.

Whitcroft was checked very hard and watched very close so that it was impossible for him to break away. Deeton and Miller, who took the places of Phillips and McNamara, put up a great game and kept their checks going all the time. Lindsay in goal was a star. He picked off innumerable hot ones and then laughed at the crowd. In the last minute of the game he stopped three that looked like sure shots. The rink was crowded and the greatest enthusiasm prevailed.

Lady True Blues Elect Their Officers

The completion of organization of the new Lodge of Lady True Blues Searchlight Lodge, No. 7, was completed Tuesday night by the election and installation of the following officers,—

W.M.—Sister Ethel Bell.
D.M.—Sister Mrs. Mary Picken.
Rec. Sec. — Sister Mrs. Florence White.
Fin Sec. — Sister Miss Maggie Weart.
Treas.—Sister Mrs. Elma Mark.
Chap.—Mrs. Helen Carnall.
D. of C.—Sister Miss Ruth Waldie.
Con.—Sister Maud Cook.
1st Com.—Sister Bert Van Natto.
2nd Com.—Sister Mrs. Charles Wright.
3rd Com.—Sister Miss Zada Bell.
4th Com.—Sister Mrs. Edith Southwall.
5th Com.—Sister Miss Carrie Bell.
I.T.—Sister Mrs. A. Carr.
O.T.—Sister Miss Laura Lang.
Auditors—Sisters Misses Zada Bell and Laura Lang.

The next night of meeting will be held on the second Tuesday in January, 1909.

Address to Poultrymen

On the afternoon and evening of Wednesday, January 6th, during the Poultry Show, addresses will be given by Miss Mary Yates of Toronto. Word to this effect was received by the secretary yesterday, from Mr Geo. A. Pitman, superintendent of the Department of Agriculture, Ontario. What the subjects of her addresses will be is not known, but will be announced tomorrow.

New Year's Reception at the Y.W.C.A.

Open house on New Year's Day at the Young Women's Christian Association.

All the girls of the city are most cordially invited to spend the afternoon or evening at the Association.

All will be warmly welcomed and entertained.

Come and help to make this the brightest and happiest New Year's Day the Association has known.

Proceeds of "Crystal" for Doreas Society

Mr. Edwards, proprietor of the Crystal Theater, the most popular place of amusement in the city, has kindly volunteered the proceeds of one afternoon at the theater, for the benefit of the Doreas Society. The date has not been fixed yet but it will be early after New Year's Day. This offer of Mr. Edwards is a very generous one and will be greatly appreciated by the Doreas Society. This society is an organization which is doing an extensive charitable work in a quiet way and unknown to the public. But many unfortunate families have been furnished with clothing, groceries, etc., and the Christmas season was made brighter.

Entire City of Reggio was Obliterated and Inhabitants All Killed

Latest News Corroborate Reports That Entire City on Italy Side of Messina Straits was Obliterated

Despatches from the earthquake center indicate that Monday's quake was the most terrible in its results of any known to history. Nothing compares with it except that at Yeddo, Japan, two hundred years ago, unreliable reports of which declare that 200,000 persons perished. In this week's disaster it is almost certain that 125,000 lives were lost, and every dispatch tends to swell previous estimates. It would not be surprising if the death list yet reaches 200,000. The property loss will run into hundreds of millions of dollars and exceed that occasioned by any previous natural disturbance. It were as though some omnipotent hand had grasped the earth's foundations and in thirty seconds shaken to pieces everything on the surface.

Catanzaro, Calabria, Dec. 30 —No direct news yet has been received from Reggio, a city of 50,000 people, but everything goes to confirm the report that the city has been practically obliterated.

Rome, Dec. 30.—From the latest estimates today it is feared that the total number of victims in Sicily and Calabria will reach more than one hundred thousand, while the damage to property will be several hundred millions.

35 TOWNS WIPED OUT.

Rome, Dec 30.—News reaching Catanzaro from the outlying districts in Calabria indicates that 35 towns and villages have been wiped out, with the number dead in that district alone exceeding 30,000. The few survivors are mad with terror, and have fled to the forest-clad mountain slopes, where they are subsisting on roots and the bark of trees.

CITY OF REGGIO ENGULFED

Paris, Dec. 30.—A Palermo despatch says that a torpedo boat which went to Reggio has returned, being unable to locate the site of the city, and reporting that nothing remained but ruins.

10,000 DEAD HERE.

Catanzaro, Calabria, Dec. 30.—A report received here early this morning says that the town of Bagnara, on the coast to the north of Reggio, has been completed wiped out. Fire completed the work of destruction. The report says that "All the inhabitants of Bagnara are dead."

The town counted about 10,000 people.

A big cross has been planted in the midst of the devastation. This monument alone will recall to posterity the dreadful catastrophe.

In a few days lime will be scattered over the heap of ruins, which alone mark the site of a once populous town.

AEOLIAN ISLANDS DEVASTED.

Rome, Dec. 30.—Cable communication with the Aeolian Islands, 25 miles north of Sicily, is interrupted. It is evident that the line is broken, and it is thought that the islands also have been devasted.

The largest of the group is the island of Lipari, and the capital town, has a population of 12,000.

Rome, Dec 30.—The prefect of Reggio, Signor Orso, who was thought to have been killed, has reached a coast point in safety after 24 hours of fearful experience. He could hardly talk, but he said Reggio had been almost entirely devasted, that the dead ran into the thousands, and that the surrounding villages also have been destroyed.

A laborer who escaped from Reggio relates that shortly before daybreak a deafening noise like the roaring of a hundred cannon was heard. This was followed by the subsidence of the entire lower portion of the city. At the same time the sea, to an accompaniment of frightful roaring, swept over the water front. The cathedral, all the municipal buildings, the barracks, and the fine places that lined the corso are now heaps of ruins. The agonized screams of the people could be heard above the crash of falling buildings.

HALF POPULATION DEAD.

Rome, Dec. 30.—Half the population of Calabria and the eastern part of Sicily are dead, the other half are weeping.

As the great extent of the terrific seismic disturbance becomes apparent it seems impossible to exaggerate the horrors which have followed them. The calamity which has overwhelmed Italy is almost beyond the grasp of imagination, not only because of the dead, now known to number tens of thousands, but because of the innumerable wounded buried in the ruins, many of whom will perish because it is impossible to rescue them from the wrecks of their former homes.

The whole of Italy is absolutely stunned, and on the scene of the disaster the bulk of the people are literally demented with the suddenness and extent of the blow.

The total number of victims is variously estimated from 50,000 to 150,000.

TORPEDO BOATS LOST.

Paris, Dec. 30.—The Matin's Naples correspondent says that several torpedo boats were destroyed in the harbor at Messina by the tidal wave incident to the earthquake disaster.

Giving further details the despatch says that between Messina and Catgania, many of the pretty villages where Theocritus laid the scene of his tenderest idyls, are terribly ravaged, meaning incalculable loss to the world's poesy.

The Matin estimates the total number of earthquake victims at 75,000.

QUEEN ALMOST SWOONED.

Rome, Dec. 30.—When King Victor and the Queen arrived at Messina today, touching scenes were enacted as their majesties made their way into the ruined town. The scene of disaster and horror was too much for the Queen, who almost swooned. Crowds of terror-stricken persons swarmed themselves in the mud, and screaming for pity and aid.

Many terrible stories are related in connection with the rescue work. The rescuers had to contend with a superstition as deep rooted in the Sicilian mind, that in many instances, injuring men and women clung to crumbling wall, refusing to let go their hold and seek a safer position.

As further facts concerning stricken Messina become available, they corroborate in every detail the worst fears heretofore expressed. The cathedral, municipal buildings, the barracks and the prisons are all destroyed, and presumably all the smaller buildings shared the same fate.

Of two hundred and eighty railway employes at the station at Messina, only eight are known to have survived while at Reggio the silence of death leaves to the imagination the terrible horrors wrought by the catastrophe, with the horrid inrush of the sea, the swallowing up of the boats, the crushing of ships, and destruction of bridges and walls. The sea became almost instantly covered with debris after the wave heaved, containing refuse of every description, dotted with human bodies.

When day dawned the entire shore line of the surrounding country was utterly changed in appearance.

The [illegible] was almost entirely altered, [illegible] all the magnificent houses [illegible] the shore, only a few tottering ruins remained. From these ruins from time to time there sprang jets of flame and smoke.

Accuses Chief of Arson and Robbery

Simcoe, Dec. 29.—At the continuation of the Malone trial today Mr. Kelly, counsel for the prisoner, instanced a number of cases in which he said Wilkins had made mistakes in identification.

"Did you ever get the promise of the chief's job?" asked Mr. Kelly.

"I got no promise of any job," replied Wilkins.

"I suppose you obey him like a brother, eh! Do whatever he tells you! Cut a man's throat if he ordered you to, eh!"

"No, I wouldn't go as far as that."

"I suppose not. You have been at Sunday school, eh, and learned the commandments. 'Thou shalt not steal.' 'Thou shalt not kill,' 'Thou shalt not bear false witness, etc!" said Mr. Kelly, sarcastically.

ABUSED THE COURT.

When it came to a question of the statement signed by Wilkins at the sanitarium, where he was taken after the shooting, Mr. Kelly and Crown Attorney Slaght had a sharp tiff. Mr. Kelly demanding to see it, and Mr. Slaght contending that if it were produced in this court it must be used throughout.

"His worship doesn't understand any more about law than the man in the moon," said Mr. Kelly. "You have no right to put it in your pocket and pass it around like that."

It took the court sheriff some moments to restore order, while the magistrate's face bore a somewhat stunned expression.

Mr. Claght still refused to produce Wilkins' statement, and Mr. Kelly got angry.

"You know that his worship is certainly no lawyer, and you are, and you take advantage of it," said Mr. Kelly. He got his way eventually, and the statement was produced. It had been made to a Mr. Agar and Squire Earl. There was a second statement, but Wilkins could not remember to whom he made it.

NOT PROMISED THE JOB.

"You think your chances of getting the chief's job are as good now, as they were, do you?" asked Mr. Kelly.

"I don't think anything about it," said Wilkins angrily. He denied ever having been promised the chief's position or any position.

On the night of the shooting Wilkins said that the chief was not drunk, but had been drinking, as he could smell it from him.

"You made a statement to the Crown that he did?"

"No."

"What! You will get a premium from the Crown if you just keep on. Just stick to it that Malone shot you, that's all you will do, eh!" said Mr. Kelly furiously.

"Mayor Carter never insinuated to you to get the chief out of the way?"

"No."

"We have got a tip that Constable Wilkins got how much from the fakirs on Fair day?" asked Mr. Kelly.

"Nothing. I got it from Chief Malone," said Wilkins, and a laugh went over the crowded court room.

"How did you get into Martin's store?" asked Mr. Kelly suddenly.

"It was unlocked."

"And you went in alone?"

"No."

"You reported it open?"

"Yes."

"And you were there alone?"

"No."

Coughs that are tight or distressing, tickling coughs, get quick and certain help from Dr. Shoop's Cough Remedy. On this account Druggists everywhere are favoring Dr. Shoop's Cough Remedy. And it is entirely free from Opium, Chloroform, or any other stupefying drug. The tender cares of a harmless lung-healing mountainous shrubb give to Dr. Shoop's Cough Remedy its curative properties. These leaves have the power to calm the most distressing Cough, and to soothe, and heal the the most sensitive bronchial membrane. Mothers should, for safety's sake alone, always demand Dr. Shoop's. It can with perfect freedom be given to even the youngest babes. Test it once yourself, and see! Sold by all dealers.

Survivors Tell Tale of Horrors--Awful Scenes

Catania, Dec. 29. — The following graphic story is told by a woman who arrived here from Messina, this morning. She was herself badly injured. She describes the horrors that accompanied the disaster at Messina in these words:

"Infernal is the only word that will adequately describe the fearful and terrifying scene. When the first shock came most of the city was fast asleep. I was awakened by the rocking of the house. Windows swayed and rattled and crockery and glass crashed to the floor. The next moment I was violently thrown out of my bed to the floor, I was half stunned, but knew that the only thing to do was to make my way out doors.

"The streets were filled. Everybody had rushed out in their night clothes heedless of the rain falling in torrents. Terrified shrieks arose from all sides and we heard heart-rending appeals for help from the unfortunates pinned beneath the ruins.

"Walls were tottering all around us and not one of my party expected to escape alive. My brothers and sisters were with me, and in a frenzy of terror, we groped our way through the streets holding our own against the panic-stricken people, clambering over piles of ruins, until we finally reached a place of comparative safety. But this was not done before I was struck down and badly injured by a piece of furniture that fell out of the upper storey of a house.

"All along the road we were jostled by scores of fleeing people, half clad like ourselves. The houses seemed to be crashing to the ground in whatever direction we turned.

"Suddenly the sea began to pour into the town. It seemed to me that this must mean the end of everything. The on-coming waters rolled in a huge wave, accompanied by a terrifying roar.

"The sky was aglow with the reflection of burning palaces and other buildings and as if this was not enough there suddenly shot up into the sky a huge burst of flame, followed by a crash that seemed to shake the whole town. This probably was the gas works blowing up.

"Eventually we reached the principal square of Messina. Here we found two or three thousand utterly terrified people assembled. None of us knew what to do. We waited in an agony of fear. Men and women prayed and groaned and shrieked. I saw one of the big buildings fronting on the square collapse. It seems to me that scores of persons were buried beneath the ruins. Then I lost consciousness and I remembered no more."

Refugees are pouring into Catania by trains, steamers and automobiles. They are half-naked and stupefied with terror and suffering. Some of them appear almost insane from the horrors through which they have gone. In the beginning they could only babble, "Messina has been devastated, the city has been annihilated." They declare that thousands of demented survivors are still wandering among the ruins of the city. A wounded soldier said: "The spectacle was terrifying beyond words. Dante's Inferno gives you but a faint idea as to what happened on Monday morning at Messina. The first shock came before the sun had risen. It shook the city to its very foundations, immediately the houses began to crumble. Those of whom were not killed at once made their way over undulating floors to the street. Beams were crashing down through the rooms. The stairs were equally unsafe.

"I found the streets blocked by fallen houses. Balconies, chimneys, bell towers, entire walls had been thrown down. From every side of me arose the cries and moanings of the wounded. The people were half-mad with excitement and fear. Most of them had rushed out in their night clothes. In a little while we were all shivering under a torrential downpour of rain. Everywhere there were dead bodies, nude, disfigured and mutilated. In the ruins I could see arms

Anthracite Discovered Near Oshawa

Lindsay, Dec. 30.—What is hoped to be a most important discovery, not only to the finders, but to the people of Ontario, is just reported from Oshawa.

Messrs. Davis, well drillers, who have been working at Oshawa visited Lindsay yesterday. These gentlemen report that while putting down an artisian well in the town of Oshawa a few days before Christmas, when the drill had reached a depth of 76 feet it struck a vein of anthracite coal 14 feet thick, and passing through it struck a very strong flow of natural gas. They state that the citizens are very much excited over the discovery and the owner of the property has raised the price of his property.

Basketball Team Leaves for Montreal Tonight

The Peterborough Basketball team will leave today for Montreal where they will play the Fairmount team in that city on New Year's night. The teams will line up as follows;—

Forwards—G. Millar, F. Cressman, center, T. Millar; defence, Sutherland and B. Hall. Mr. Collings, the physical director of the Peterborough Association will accompany the team on its trip.

Fairmount's team will be picked from the following—H. Cobb, J. N. McCuaig, W. Dunwoody, G. Robinson, C. F. Bowen, and R. Graham. The boys have been putting in a lot of practice and may be expected to give the Brownies a hard tussle.

Stores will Close at 10 O'Clock Saturday Nights

Commencing next Saturday night the local clothiers will close their stores at ten o'clock, and will continue to do so. This was decided some time ago and those who have been in the habit of shopping late will see to it that they procure their necessities earlier than in the past. This change will not affect some of the stores for they have been accustomed to closing at the hour of ten, but there are many who remained open before midnight until the last straggler had wended his way homeward and the streets were appearing deserted and lonely.

It is not known what action the other merchants will take. The most of them try to get away shortly after ten o'clock if possible. It is a business axiom that there is no money in turning away customers. The change will be appreciated by the clerks who have been used to late hours.

Separate School Board Elected

Nominations for Separate School Trustees were held yesterday at noon at St. Peter's school.

The following nominations were made;—

Mr. M. L. Henry for the First Ward.

Mr. James Murty for the Second Ward.

Mr. John J. Lynch for the Third Ward.

Mr. Thomas J. Lane for the Fourth Ward.

Mr. Wm. Collins for the Fifth Ward.

Only the required number having been nominated they were duly elected.

Wedding Bells

BOYLE—COMSTOCK.

A very pretty wedding was solemnized at the residence of Mr. Aaron Comstock, Water street at 2 o'clock yesterday afternoon when his eldest daughter, Miss Sarah, was united in marriage to Capt. Robert B. Boyle of the steamship "Paliki" of the Algoma Central steamship line.

The bride who was given away by her father, entered the drawing room to the strains of Mendelsohn's wedding march, played by Miss Dolly Comstock. The ceremony was performed by Rev S. Boyle, rector of Christ church, Chatham, and brother of the groom, assisted by Rev Canon Davidson, rector of St. John's church.

The bride and groom were unattended.

After the ceremony and happy congratulations had been bestowed upon the newly wedded couple, a dainty repast was partaken of.

Among the out of town guests present were the Misses Boyle of St. Catharines, and Rev. and Mrs Boyle of Chatham.

Capt. and Mrs. Boyle left on the 4.30 train for a trip to New York. On their return they will reside in St. Catharines.

BUCHANAN—SMITH.

The marriage of Miss Edith M. Smith, fourth daughter of Mr. William Smith, Aberdeen avenue, to Mr. James Joseph Buchanan of Brandon, Man., and son of Mrs. Horsman, of Vancouver, B. C., was solemnized yesterday afternoon at two o'clock, at the residence of the bride's father. The ceremony was performed by Rev. Robert Peggie, of St. Paul's church. The bride was given away by her father, entering the drawing room to the strains of Mendelssohn's wedding march played by her sister, Miss Frankie Smith. The bride was assisted by the groom's sister, Miss S. Buchanan, of Vancouver, B.C., and the groom was supported by Mr. Garbet Neff, of Moosomin, Sask.

STOMACH CATARRH

WATERY RISINGS, BELCHING GAS DIGESTIVE WEAKNESS.

Fred M. McKenzie Recommends a Scientific Treatment that Cured Him

Now discoveries to the line of medical treatment have come before the profession of late years with almost alarming rapidity, but one that promises to overshadow all others in the treatment of stomach and digestive troubles is Ferrozone, which is a scientific combination of vegetable extracts and juices that soothe the stomach and improve digestion in a truly wonderful way.

So many are interested in finding a really good stomachic medicine, that Mr. McKenzie, one of the most prominent citizens in Cambridge, tells of recently he proved to be a "cure."

"Although my appetite was poor and I ate little, I always had the sensation of having eaten too much. I felt burdened with weight and oppression as hour or two after eating. Often I had heartburn, risings of a bitter liquid, coated tongue and bad breath. There was a continuous pain in my stomach, especially before meals."

BAD CASE CURED.

"No case of Catarrh of the stomach and digestive organs could be worse than mine. I suffered the limit of human endurance for two years. I doctored but didn't find the real remedy until I got Ferrozone, what a blessing the preparation must be to all mankind. I took one Ferrozone tablet at the close of each meal and in one week improved. In a month, although not cured, the improvement was steady. I continued to use Ferrozone for three months, when I was restored to robust perfect health. I would urge every man to try Ferrozone—in many ways it will do good."

In all cases of Weak Stomach, Indigestion, Nervousness, Palpitation of the Heart, Insomnia, General Debility, Chronic Dyspepsia, and all wasting diseases use Ferrozone, no remedy will so surely and quickly restore tone to the frail vigor of health and strength.

Whether you take Ferrozone every other day or not, you will notice every bite you eat tastes good, and every bit of the nourishment that your food contains is assimilated and appropriated by the blood and tissues. Try Ferrozone, all dealers, 50c. per box or six boxes for $2.50. Get it today.

Fire at Mr. Brown's Real Estate Office

Just before one o'clock last night the firemen were rooted out of bed in double quick time. An alarm was sent in from Box 23. A fire was discovered in Mr. A. Brown's real estate office, which was caused by the fire from the stove burning through the floor. Fortunately it was discovered in time and the department responded so promptly that the use of the chemicals soon extinguished the flames. It was a narrow escape however, for the Munro House and block as the fire had a very nice start.

Annual Tea and Entertainment at Knox Church

A very successful and a much enjoyed evening was spent at Knox church last night. The occasion was the annual supper and entertainment for the Sunday school. The children were present in large numbers and thoroughly enjoyed the excellent supper that was served, and the cantata which followed. Sheriff Hall gave a short address, and Rev. Mr. Keith acted as chairman. The success of the cantata is due to Mrs. Morley who trained the children and Miss Charlotte English as pianist.

The Boys' Guild presented Rev. Mr. Keith with a book case, and Mrs. Keith a box of flowers. Several of the teachers also received gifts from the members of their classes.

Tea was served from 5 to 6.30 and the program commenced at seven o'clock.

Annual Meeting of Teachers' Association

The annual meeting of the Sunday School Teachers' Association of St. Andrew's church was held last night after a short prayer meeting. The work of the Sunday school was reviewed and arrangements were made for the conduct of the work during the new year. The main business was the appointment of the officers and permanent teachers. The financial statement showed a very favorable year and it will be presented to the congregation at their annual meeting.

The teachers for the primary department were elected as follows;—Miss Ethel Richardson, Miss Roma Langford and Miss Margaret Girven. John M. Lang will have a senior boys' class.

OFFICERS FOR 1909.

Superintendent—Rev. J. G. Potter.
Assist. Supt.—R. Lees, M.A.
Sec.-Treas.—W. S. Lang.
Assistant—Collin Lees.
Librarian—Wm. Richardson.
Assistants—Geo. Evans, Miss Mildred Brightman and John Brightman.
Organist—Miss Ethel Tully.
Leader of Praise—Gordon Wright.
Children's Instructor—Miss Bella King.

Arrangements were made to have a class for the Normal students on Wednesday evenings at 7.30 for half an hour before prayer meeting during the winter months.

NEW YEAR'S MORNING.

Preparatory service will be held in St. Andrew's church on New Year's morning at eleven o'clock. At half-past ten the session will meet.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

THURSDAY, DECEMBER 31, 1908

AN EDUCATIONAL DEPARTURE

In Chicago there are being established what are called "continuation schools". They are evening schools designed for the benefit of those who have had to leave the public schools at an early age and go to work as wage earners. Superintendent Cooley of Chicago's public school system, says of this departure. "We've made a little concession to the workers in the establishment of technical high schools. In many cities — notably in Springfield, Mass.—more children are attending the technical schools than the ordinary high schools. But even these will not meet the demands of the people. There must be training for the workers in the grades. This is what has been started this fall in Chicago, and our start, I think, marks a turning point in school affairs here-abouts. Four evening schools now are doing the 'continuation' work exclusively."

One of these evening schools is given up to business arithmetic, correspondence, stenography and the like; the other three are devoted to mechanical trades, and other machine shop work, mechanical and architectural drawing and the like. These "continuation schools" are entirely distinct from the ordinary "night schools," which give instruction in reading, writing and arithmetic. The classes of this latter sort, which have been carried on in St. Catharines in past winters have sometimes been so poorly attended that the Trustees and teachers felt rather discouraged. An effort, however, has been made to continue this much needed work this winter.

The "continuation schools" in Chicago are planned to meet the needs of a different class. It is the intention in Chicago to open evening schools all over the city which will be given up to work of an apprentice character, under the patronage of the principal trades and trades unions. It looks like an undertaking of considerable magnitude, and the curious thing is no sign of any cry of socialism being raised against this radical extension of state or municipal activity, which as it is described, is in the utterance of Chicago's Superintendent of Education, means the guidance, by organized action of the community of young men into the various trades and specialties of industry.

ITALY'S TRAGEDY

With the end of the year comes the greatest tragedy of modern times—a sudden and unlooked for convulsion of nature that has devastated a smiling country and has sent thousands of poor souls into eternity. The calamity covers a larger area than was affected by any other earthquake, and it has been more destructive both of life and property. Italy is entitled to the sympathy of the world in the presence of such a disaster, and the sentiment ought to take pratical shape, for there can be no doubt that this distress among the survivors is keen.

The earthquake is the last of a series occurring in recent years. Preceding it we had the convulsion of San Francisco and that in Jamaica. Prior to these there was one in South America, and another in the West Indies. Scientists have been watching the geographical distribution of these movements with a view to discovering the conditions which produce them. So far no definite results have been obtained. But it seems to be conceded that the interior of the earth is in a state of continual commotion. The rocks are moving. Friction produces heat and gas. The elements seek an outlet, and the volcano acts as a safety valve. All that is within, however, cannot escape, and there is, as a consequence, pressure upon the crust of the earth. This force makes itself felt at the weakest points, and here the earthquakes are experienced. The belief now entertained with reference to the character of the earth's surface is that it is weak in the basin of the Mediterranean, and that it thing off again in and about the West Indies Islands, which are of volcanic origin, and on the west side of the Rockies. The huge elevations are supposed to have been thrown up from within, and the area below them is thought to be weak, and therefore subject to a shock whenever the gas or the steam within the earth seeks a way out.

Science is finding out what the earth quake is, and where it is most likely to occur. But science cannot tell how it is to be avoided or to be controlled. The phenomenon remains and will always remain a witness to the mighty power of what we describe as Nature, and to the impotency of man. It is when we read of the terrors of those who feel the earth shaking beneath their feet that we recognise that which otherwise is not so often dwelt upon, the smallness and the feebleness of human beings.

The old fashioned way of dosing a weak stomach, or stimulating the Heart or Kidneys is all wrong. Dr. Shoop first pointed out this error. This is why his prescription—Dr. Shoop's Restorative—is directed entirely to the cause of these ailments—the weak inside or controlling nerves. It isn't so difficult, says Dr. Shoop, to strengthen a weak Stomach, Heart or Kidneys, if one goes at it correctly. Each inside organ has its controlling or inside nerve. When these nerves fail, then these organs must surely falter. These vital truths are leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. Test it a few days, and real improvement will promptly and surely follow. Sold by all dealers.

SICILY'S HISTORY A CHECKERED ONE

Sicily, the scene of one of the greatest disasters of modern times, is far fallen from its once great position, and it needs an earthquake to bring it into prominence. There is no Italian province that does not take higher rank than Sicily, which produces ninety per cent. of the organ-grinders of the world, and a great percentage of the loafers of the Mediterranean. In the middle ages, and down to comparatively recent times, Sicilian pirates were the terror of merchantmen, and, until its political incorporation with Italy, Sicily was a sort of scapegrace, whose traditions alone were distinguished.

Separated from the mainland by a very narrow stretch of water, Sicily's first inhabitants are supposed to have come from Italy. The Phoenicians early founded colonies on the island, one of them being Palermo. In the eighth century, B. C., the Greeks landed on the coasts and swept the Phoenicians into the interior, which, being extremely mountainous, afforded them secure fortresses, while their conquerors remained in possession along the shores. The Greek invaders founded new colonies, one of them being the City of Messina, formerly called Zancle. They also established Syracuse, one of the most famous of the world's ancient cities. Indeed, Syracuse grew to dominate all the island, for in the battles that began between the Carthaginians and the Greeks in the fifth century, B. C., the issue was so much in doubt that Syracuse held the balance of power.

Then came the Romans, all-conquering, and obtained possession of the whole island, which they used as the granary of their empire. After its decline and fall Sicily was overrun by barbarians of different nationalities. At the close of the fifth century the Ostrogothe were the masters of Sicily, but their reign was short, for in 535 the island became a part of the Byzantine Empire, having fallen to the sword of Belisarius. About the middle of the ninth century the Saracens occupied the island, and made Palermo their capital. They held on until the eleventh century, when the Normans swept them out and established the feudal system. They also united Sicily to Naples, and since then the two have been known as the two Sicilys.

In 1053, Pope Leo IX., at the head of German and Italian troops, tried to drive out the Normans, but he was defeated and taken prisoner, and held until he had acknowledged the Normans' conquest. There followed two hundred years of fighting and rebellions, which ended in the expulsion of the French in 1282 from Naples. But they clung to the Island of Sicily for another century and a half, and it was not until the reign of Alphonso V. that the kingdoms became reunited. At his death, however, the old division occurred. In the war of the Spanish succession Sicily played a part, and was finally traded for Sardinia. It now became part of Spain, and in the Napoleonic wars was almost the prey of Napoleon. Thanks to the British navy the island was saved when Napoleon gave Naples to his favorite general Murat.

As an appanage of Spain, Sicily had a turbulent forty years after the downfall of Napoleon, but it broke with the Bourbons for all the time in the reign of Francis II. Garibaldi, in 1860, crossed the strait from Italy, and Sicily was his easy prey, the people having no heart to fight for their despotic king. As was inevitable, in view of the frequent conquests, the modern Sicilian is a blending of many races. In some districts the people are more like Arabs than Italians, though all are Roman Catholics. There are great extremes of wealth and poverty, and the unequal distribution of land is held to be responsible for much of the brigandage that has made the Sicily of modern times notorious. It is there that the Mafia flourishes, and though under Victor Emmanuel considerable progress has been made, the Sicilian has a long way to travel before he raises himself to the rank of the Calabrian.

The island is triangular in shape, being 180 miles on its longest side, and 113 miles on its shortest. The coast is rugged, the interior much broken by mountain regions, where goats thrive best of domestic animals. It is not far from the ill-fated Messina, where the famous whirlpool of Charybdis lies in wait for the ruinary mariner. Mount Etna rises in solitary grandeur on the east coast of the island, midway between its northern and southern extremities. The rivers are torrential, and the sirocco haunts part of the coast. On the whole, Sicily is just the sort of place where some great natural cataclysm might be expected.

Department of Railways and Canals, Canada

DOMINION CANALS

Notice to Dealers in Cement

Notice to Dealers in Cement.

Sealed Tenders, endorsed "Tender for Cement," will be received by the undersigned, up to 12 o'clock on Friday, the 29th January, 1909, for the supply of some 180,000 barrels of cement, more or less, required for the construction and maintenance of the various canals of the Dominion and to be delivered in such quantities, at such places and at such times as may be directed.

Dealers in cement may tender for the total quantity required, or for such portions thereof as may suit their convenience.

Specifications, forms of tender and full information can be obtained at the Department of Railways and Canals, Ottawa, on and after this date.

The Department does not bind itself to accept the lowest or any tender.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals.
Ottawa, 24th December, 1908.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

WELLAND CANAL

Tenders for Supplies for the Year 1909

SEALED TENDERS for Supplies addressed to the Superintending Engineer, Welland Canal, St. Catharines, Ont., will be received until 12 o'clock on Saturday, the 16th of January, 1909, for the supply and delivery of various articles of Timber, Hardware, Castings, Oils, etc., for use on the Welland Canal and its branches for the year 1909.

Specifications, forms of tender and other information may be obtained at the Superintending Engineer's Office, St. Catharines, on and after Thursday, the 31st December, 1908.

The lowest or any tender not necessarily accepted.

L. K. JONES,
Secretary.

Department of Railways and Canals.
Ottawa, December 22, 1908.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency. For the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

BLOOD DISEASES

Guaranteed Cured or No Pay.

If you ever had any contracted or hereditary blood disease, you are never safe until the virus or poison has been removed from the system. You may have had some disease years ago, but now and then some symptom alarms you. Some poison still lurks in your system. Can you afford to run the risk of more serious symptoms appearing as the poison multiplies? Beware of mercury or mineral drugs used indiscriminately—they may ruin the system. Twenty years experience in the treatment of these diseases enables us to prescribe specific remedies that will positively cure all blood diseases of the worst character, leaving no bad effects on the system. Our New Method Treatment will purify and enrich the blood, heal up all ulcers, clear the skin, remove bone pains, fallen out hair will grow in, and swollen glands will return to a normal condition, and the patient will feel and look like a different person. All cases we accept for treatment are guaranteed a complete cure if instructions are followed.

Reader If in doubt as to your condition, you can consult us FREE OF CHARGE. Beware of incompetent doctors who have no reputation or reliability. Drs. K. & K. have been established over 30 years.

WE CURE Nervous Debility, Varicocele, Stricture, Blood and Secret Diseases, Kidney and Bladder Complaints. Consultation Free. If unable to call write for a Question List for Home Treatment.

THE TIMES' FINANCIAL PAGE---OF INTEREST TO THE CANADIAN INVESTOR

MILLIONSOF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Waisted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW wha it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world- Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Our smelter thus erected will save 85% in treatment. freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when her you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100.000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Address

The Kuenzel's Process Smelter Co.

Chas. A. Kuenzel, President A. W. Kuenzel, Secretary and Treasurer

BUENA VISTA, COLORADO

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash value in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the nine billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery is installed and paid for. Development work is done, exposing a quartz ledge 20 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something new on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information of what you have to exchange.

CALVEN ESTERLY,
717 Market St., San Francisco, Cal.

"OXOL"

The word "Oxol" does not mean one food, or one preparation No; "Oxol" is a name given to all goods for horses, cattle, swine and sheep, prepared by Messrs. S. K. & T. C. Windsor of Australia, New Zealand, England and Canada.

The veterinary preparations as well as the compressed bales of fodder placed on the market of the world under the name of

"OXOL" FOR CATTLE

are all of the greatest possible order of merit and may be used by farmers, graziers, dairymen, and all owners of stock with the full assurance that these goods have the power in a very short time to double their incomes by feeding, fattening and curing all animals, which to them mean money.

Cosgrave's Beer

Words of praise have ever prevailed in advertising "copy" That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

ADVERTISE IN THE TIMES.

The Plow Woman

By ELEANOR GATES,
Author of "The Biography of a Prairie Girl."

COPYRIGHT, 1909, BY McCLURE, PHILLIPS & COMPANY.

(Continued.)

ever, a anger, broken a cruces man "was sent." One wag announced that the section boss was mired in some alkali mudhole; another, that he had been bitten by a polecat; a third composed some doggerel lines in which Lancaster was described as having gone "over the range." Notwithstanding this the troopers had deep sympathy for the bereaved girls.

Oliver, never too popular, they scored roundly for his treatment of Matthews and vowed to the latter that he had ample grounds for walking off and leaving the whole shooting match, but Matthews gently chided them, reminding them that any moment an interpreter might be badly needed. Furthermore, he said, he would disregard the unfairness shown him, for he knew his duty.

Brandon was still asking who and why and how in the Lancaster affair when Squaw Charley discovered and showed to Captain Oliver the testimony that had in some way escaped the scout. Under a willow clump on the beach before Shanty Town was a well defined mark in the sand, V shaped, long and quite deep. It was the mark left by the prow of a boat that had been pulled out of the water and hidden at the river's edge. It was almost certain proof of the route taken, going and coming, by Lancaster's assailant.

But no absolute facts were unearthed. As the days slipped by this cruel one became apparent—the section boss, with his wild outbursts of anger, his implacable hatreds, his suspicions and his tantrums of jealousy, was gone.

CHAPTER XXVI.

ACROSS the sky, a pale shining ribbon, stretched the Milky Way. The braves in the stockade were watching it, their faces reverently upturned. They sat before their lodges in silent knots of two or three or stood apart here and there, shrouded in summer sheets of dressed cowskin and motionless as statues. When they moved, it was to draw heavily upon a pipestone bowl and waft the incense of kinnikinick toward the glimmering strip overhead—the sacred road that leads the Sioux to the happy hunting grounds.

One moon had passed since the signal smoke arose on Medicine mountain. In that time, though they had fasted and prayed, not a crumb of hope had come to feed their languishing spirits. Truly it seemed as if the pied buffalo were bringing them more than a generous share of ill luck. The interpreter told them only evil news—that all but sixty of the posy soldiers had gone to hunt and kill Indians. As for the distant peak, from it had curled up no moors at all.

They gambled no more. They spoke no more of the captive white women. The four condemned brooded in their wigwams, with eyes gloomy, with hair unkempt. Among the squaws, hot discontent was working. They greeted even those who brought them rations with black looks and menacing gestures. And all—warriors as well as squaws—got up with the sun and paced along the log walls like prisoned animals, wearing a deep rut into the earth.

Throughout the winter they had been contented enough with their lot. In no other winter had they enjoyed such freedom from labor and care, such health, comfort and abundant food. But now—the grass was grazing high. The new leaves were opening. The willows were in bud. The wild fowl were back and nesting by the river and slough. In lonely ravines the antelope kids were bleating—proof that it was the killing season of the pronghorn. And here the village was yet shut in a pen—like pigs!

Soon—it might be any day—the four chiefs would be dragged out to die by the rope. If the rest were sent away, would it not be to some reservation? And if by chance they got free? Their ponies were gone. Where could they get others? Then it would be late in the summer perhaps. On what would their women and children live? There would be no dried meat for pemmican, no caches of roots or berries, no packed fish, no emptied tongues, no hoofs—nothing. And all would go hungry.

The post saw how terrible was the ferment among the hostage every soul, following David Bond's last visit to the stockade, had used extra precautions. The officers' families never entered the sliding panel now, but climbed a ladder and viewed the Indians from the safe height of the board walk. An armed escort went with the rations on issue days. The sentry beats were halved and the number of watchers three doubled. And every night a detail entered and rigidly searched each lodge to see that no brave was trying, after the fashion of the badger, to burrow a way out. Squaw Charley alone was exempt from any new ruling, for he came and went when he chose.

Yet he had changed in no less degree than his brothers, though in a different way. The word from Medicine mountain had been a blow to quiver under. For months the outcast whose loyalty the Plow Woman boasted had been slipping from his old time fealty to her, made false by his dream of winning back his rank. In a moment he had seen his chance for honor wiped out. Before him again there lay only woman's work, curses, beatings and a life with the dogs—even worse, to see her whom he coveted going to Standing Buffalo!

He could bear the curses and the cruelty. He could sit quietly under the ridicule that outraged the childish vanity of his kind. He could thirst. He could starve. But, returning to the roof one night, he had prowled yearningly past her lodge and had come upon her and her new lover standing cheek to cheek, close wrapped in a single blanket.

And so this night, while the warriors watched the sacred track upon the sky, he made his way to the river. For there he meant to plead the God of David Bond, that he send him a chance for valor—a chance to slay. Out in the starlight, therefore, he fell upon his knees.

But before his simple mind had framed his petition there entered a thought that puzzled and alarmed. He pondered upon it. The God of David Bond was a God of peace, who frowned in awful anger upon fighting and bloodshed. The preacher had said so. Had taught "Thou shalt not kill!" Had taught that no answers were vouchsafed to wicked prayers, but punishments instead. How, then, could a prayer of that kind be sent to him?

The outcast was dismayed.

Then came a happier idea. The God of David Bond, being a God of peace, why trouble his ear? Why not pray this one prayer for blood to the great spirit he had served before—the great spirit who marked out the destinies of the Dakotas, who was ever strongest in times of war?

Hurriedly Squaw Charley got to his feet and ran to the edge of the bank, where there were climbing lengths of grapevine. Degraded, he might not use tobacco for a rite. But the great spirit would understand. In the dark his hands felt for and found a dry stalk. He snapped off a finger length of it.

A second to take flint and steel from his buckskin pouch. Another to light the bit of vine. Then—

But he did not sit upon the ground with crossed legs. Neither did he pull upon the vine. He let it go out instead. And sank hesitatingly to his knees, for, again, he had remembered!

David Bond had said: "The red man's god is poor and stingy. He lets his people want and starve. He lets enemies triumph over them and destroy. But the God of the white man is rich and good. See how generously he gives to those who serve him! Yet, lest you anger him, have none other because he is a jealous God!"

He might not pray to either then! He lifted despairing eyes and saw above him, divinely luminous, that sacred path, glittering white with the hastening spirits of the dead.

He put a ragged sleeve across his eyes to shut out the sight. It brought

(To be continued.)

Evening Gowns Rarely Correct

There is no charge that a New Yorker—or any other American for that matter—dislikes quite so much as that of provincialism. Attack our ethics and our morals; call us cold, heartless, pleasure loving, vain—and we will smile complacently, but even whisper that we are the country cousins of the Londoner or the Parisienne—and you wound us at our most vulnerable point. There is no sneer that hits home quite so unerringly as the "We-do-these-things-so-much-better- on-the other-side-don't-you-know" with which foreign visitors sometimes meet our most strenuous efforts toward cosmopolitanism.

A single visit to one of our restaurants or theatres will convince you that the conventions of evening dress are either shockingly misunderstood or deliberately defied by the average woman of means and position. She wears a hat and a high-necked dinner gown—a costume as inappropriate for an evening affair as a bright red frock at a funeral.

Of course, I am speaking primarily of city life, and of women who frequent our restaurants and theatres, and on them I cannot urge too strongly the value and importance of the demi-toilet for semi-formal wear.

FEELS ILL AT EASE.

I am very much interested, a short time ago, in hearing a discussion on the subject of evening dress among women of moderate means. The chief reason that was advanced for its general disregard—economy—did not seem convincing. An evening gown need not cost more than any other kind of dress, and if a woman grumbles at its limited usefulness, there are all sorts of clever makeshifts of collars and chemisettes that will let an evening gown see the daylight.

No; the true reason is that the American woman is not accustomed to equip the decollete gown in public places; she has not been brought up to it. She feels self-conscious and ill at ease in evening dress at any but certain recognized functions. She ought to feel ill at ease and provincial in anything else. I hope the time will soon come that she will feel so. Not until she does will we outgrow the last of our gaucheries—the high-necked evening frock.—The January Delineator.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they do not reach the seat of the disease. Catarrh is a blood and constitutional disease and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known combined with the best blood purifiers acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic sufferers, nor turn twisted heads to their proper place. That is impossible, but I can now speedily kill the pains and aches of this deplorable disease.

In Germany—until I [illegible] in the City [illegible] which [illegible] I was completely crippled with Rheumatism, I practically tried [illegible] a perfected [illegible] preparation. Without [illegible] had been [illegible], I gradually [illegible] until [illegible] one of [illegible] I was [illegible] as well as [illegible] formerly owned all [illegible] of [illegible] which [illegible] sounds dreadful disease. [illegible] the afflicted [illegible] to [illegible] [illegible] and [illegible] [illegible] and pain away under the action of this [illegible] remedy as [illegible] water when called on [illegible] [illegible]. And [illegible], when [illegible] [illegible] [illegible]

HOW TO TELL

If the Kidneys and Liver are Not Acting Well.

Thousands die every year from aggravated kidney distress that could have been saved if they only knew.

Your back may ache, you think it's tiredness or physical weakness.

You grow irritable and nervous—it's put down to loss of sleep.

Joints ache, muscles get sore—that's all put down to bad weather.

Then digestion gets poor, appetite fades away, color bleaches, spirit droop.

Can't you see it's all from your over-worked kidneys, which can't keep the body clear of poisons that are now surging through the whole system?

Cure your kidneys with Dr. Hamilton's Pills.

"When I was so stooped and back weary, so lame and sore with kidney and bladder trouble, I cured myself quickly with Dr. Hamilton's Pills" writes C. C. Ferrier, a well known merchant in Plainsville. "Dr. Hamilton's Pills touched the spot, at once, gave my back ease, lifted depression and weariness, made a new man of me. I can also say for a good spring medicine to clear and enrich the blood Dr. Hamilton's Pills have no equal."

The housewife whose aching back makes every little duty a burden, the working man who is tired all day and can't rest at night, whose back aches, and whose feet swell—these people have kidney trouble. Women whose kidneys are sick, suffer continually from blind and sick headaches, faint and dizzy spells, bearing down pains, sharp twinges when stooping, distressing urinary troubles, aching muscles, and joints lack of apetite, and loss of sleep. Reach the cause. Cure the kidneys. Use Dr. Hamilton's Mandrake and Butternut Pills, which have cured thousands, 25c. at all dealers.

To stop any pain in 20 minutes, take one of Dr. Shoop's Pink Pain Tablets. See formula on the box. Ask your Doctor or Druggist about this formula. It can't be bettered. Womanly pains, head pains, any pain gets instant relief. Box of twenty Pink Pain Tablets, 25c. Sold by all dealers.

Miss Jean O'Brien returns to St. Catharines this morning after a visit to her parents, Rogers street, Ashburnham.

Miss Luella Knapp, organist of the Brock street Methodist church, Kingston, and Mrs. Frank Dunbar, of Napanee, are the guests of Mr. and Mrs. H. B. Collier, Weller street.

Mr. Adam Hall

One of the Most Potential Factors in the Development of Peterborough

In the business development of Peterborough, many interests and progressive concerns have entered into its development. In this regard we call the attention of our readers to the establishment of Adam Hall, hardware merchant, at 407 George street. This house was established forty-two years ago by the late Thos. Lamnin, who ably conducted it for twelve years when the present proprietor took possession. The business occupies a handsome three-story building, conveniently fitted with all modern appliances for handling the large trade controlled. The stock carried embraces general hardware, house furnishings and stoves. The house manufactures a special line of steel ranges, hotel ranges and heaters for lumbermen and contractors' camps, their patronage covering Eastern Ontario. In addition to these two branches of the business in a third that is devoted to the installation of steam and hot water-heating systems, the installation of furnaces and the most modern systems of plumbing. In these departments about thirty mechanics are employed. The head of this progressive house is a native of Peterborough, and one of the most prominent figures in the mercantile, industrial and public life of the city. He has served for five years as alderman; was president of the Canadian Cordage and Manufacturing Company for six years, was vice-president of the Otonabee Power Company, and is a present director of the Big Bend Lumber Company located at Arrowhead, British Columbia. He is a gentleman of unquestioned integrity, sound business and financial judgment, and one of the most potential factors in the development of Peterborough.

Peterborough Fuel and Cartage Co.

A Solid Business Concern of which Ald. Buller is the Capable Manager

One of the largest dealers in fuel in Peterborough is the Peterborough Fuel & Cartage Company, whose yards and sheds are located on Aylmer street, and who have offices at No. 182 Charlotte street. This company not only handle the best grades of hard and soft coal, and hard and soft wood, but have also unsurpassed facilities for general cartage business and for moving or storing household goods, pianos or merchandise. They employ expert packers, and guarantee careful handling of all goods entrusted to their care. This business was established in 1904, and the same year was incorporated with a capital stock of $40,000.

The manager, Mr. W. Buller, is a man of shrewd, sound business and good financial judgment, combined with a wide practical business experience. These qualities have resulted in the popularity and substantial advancement that has been won. The annual output of this company amounts to 7000 tons of coal and 1500 cords of wood. This trade is drawn principally from the city and immediate vicinity. Mr. Buller is a native of Peterborough, is an alderman, and a member of the Charity Board.

To The Electors

Ladies and Gentlemen:—Having been nominated for Alderman, and having been urged by a large number of all classes of citizens to remain in the field, I have decided to do so. If you think I will represent you well, I will be pleased to secure your vote and influence to ignore my election. I have always been very much adverse to personal canvassing, but I assure you I will appreciate your support all the more because it is given unsolicited, and I promise if elected to do my best without fear or favor.

Yours respectfully,

Andrew Brown

Fortune Telling

Does not take into consideration the one essential to woman's happiness—womanly health.

The woman who neglects her health is neglecting the very foundation of all good fortune. For without health love loses its lustre and gold is but dross.

Womanly health when lost or impaired may generally be regained by the use of Dr. Pierce's Favorite Prescription.

This Prescription has, for over 40 years, been curing delicate, weak, pain-wracked women, by the hundreds of thousands and this too in the privacy of their homes without their having to submit to indelicate questionings and offensively repugnant examinations.

Sick women are invited to consult Dr. Pierce by letter *free*. All correspondence held as sacredly confidential. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

Dr. Pierce's Great Family Doctor Book, The People's Common Sense Medical Adviser, newly revised up-to-date edition—1000 pages, answers in *Plain English* hosts of delicate questions which every woman, single or married, ought to know about. Sent *free*, in plain wrapper to any address on receipt of 21 one-cent stamps to cover mailing only, or in cloth binding for 50 stamps.

VOTE FOR

WILLIAM BULLER

The People's Candidate for Alderman

Your Vote and Influence

respectively solicited for the re-election of

J. J. TURNER, Jr. For ALDERMAN

Card from Mr. Duffus

To the Electors of the City of Peterborough

LADIES AND GENTLEMEN,—

I have accepted nomination for Alderman at the request of numerous influential ratepayers of the city. If elected, I promise to give dilligent attention to the duties of the office. Being a heavy taxpayer and having a good knowledge of city affairs, I feel that I should be of assistance in safeguarding the public interests; and I promise, if elected, to do all that careful judgment can do to promote the welfare of our progressive city.

Joseph J. Duffus

For Alderman

To the Electors of the City of Peterborough,—

Your vote and support is requested for my re-election to the Council. My course during the last term was according to my honest convictions without fear or favor. I propose to follow the same course if re-elected.

Yours respectfully,

Harry Morgan

Re-Election of Ald. Gillespie

To the Electors of the City of Peterborough:

Ladies and Gentlemen,—At the request of many citizens largely interested in the welfare of Peterborough, I have decided to again accept nomination as Alderman. I trust that the confidence reposed in me last year has strengthened my candidature for a second term. If so my aim will continue to be the advancement of the progress of our growing city. While I will oppose without fear or favor all useless expenditure, I shall support all wise measures calculated to build up our natural resources, irrespective of wards or boundaries.

Respectfully yours,

George A. Gillespie

FOR ALDERMAN

To the Electors of the City of Peterborough:

LADIES AND GENTLEMEN,—

Having accepted nomination as Alderman for 1909, I most respectfully solicit your vote and influence. I have been honored in representing the city on the Aldermanic Board for the past four years. My efforts during that time have always been to serve the city's best interests. My record is before you, and on this I now ask your support. Wishing all a happy and prosperous New Year, I remain

Yours truly,

A. A. McINTYRE

To The Electors of The City of Peterboro

LADIES AND GENTLEMEN,—

Having been nominated for the position of Alderman, at the request of a large number of the ratepayers, I have consented to become a candidate.

I am opposed to personal solicitation, believing that the office should seek the man.

Through the medium of the public press I respectfully solicit your vote and influence to secure my election, and, if elected, I will endeavor to discharge the duties pertaining to this office to the best of my ability.

Respectfully yours,

Alex. Gibson

TO THE ELECTORS

LADIES AND GENTLEMEN;

At the urgent request of a large number of ratepayers I have consented to become a candidate for the council for 1909. If elected I will do my utmost to further the best interests of the city. It is time that our council made a decided effort to reduce expenses, and thus keep down the taxes, which have of late years grown so burdensome. I believe that the business of the council can be more economically managed, and I will, if elected, do my best in this direction.

Soliciting your votes and influence, I am,

Yours sincerely,

James Bogue

FOR ALDERMAN

To the Electors of the City of Peterborough;

LADIES AND GENTLEMEN,—

I again solicit your votes to elect me to the Council. I have served in the Council three years, and believe that the experience gained will enable me to give better service another year, and if elected I will do my best in the interest of every part of the city.

I have the honor to be your obedient servant,

Geo. E. Elliott

Board of Education

LADIES AND GENTLEMEN,—

In presenting myself as a candidate for election to the Board of Education, I ask your support and influence, and if elected will endeavor to faithfully serve the interests of the Board.

Yours truly,

M. McClelland

BOARD OF EDUCATION

To the Ratepayers of the City.
LADIES AND GENTLEMEN;

I am again a candidate for election as one of your representatives on the Board of Education of the city. By your kind favor I have been one of the members for the last thirteen years, and I trust that my services have been such as to merit a renewal of your confidence.

I shall be heartily glad if you will accord me your vote and influence.

Respectfully yours,

Robt. Fair

Your Vote and Influence

are respectfully solicited for the election of

Dr. Ernest V. Frederick

for the

Board of Education

Election Jan. 4, 1909.

For Board of Education

Vote for Billy Robinson, the People's Candidate.

I solicit the support of the ratepayers, and especially the working people. I have a clean record during the past two years, and desire to serve another term.

Yours respectfully,

W. S. Robinson

Re-Elect M. A. Morrison

LADIES AND GENTLEMEN,—

Your Vote and Influence for the re-election of

M. A. Morrison

for Board of Education for 1909.

Election on January 4th.

CARD FROM ALD. H. PHELAN

To the Electors of the City of Peterborough;—

LADIES AND GENTLEMEN;

Having been again honored with nomination for alderman, I have accepted the same at the solicitation of a large number of influential ratepayers.

My record in the Council in the past is well known to all, and if again honored with your confidence I will endeavor to render efficient service. Such good business judgment as may have qualified me for being of service to the city will be again used to the best of my ability.

Harry Phelan

FOR ALDERMAN

LADIES AND GENTLEMEN;

I respectfully solicit your votes and influence in favor of my candidature as one of your Civic Council for 1909, and to ensure my re-election.

Thanking you in advance.

Respectfully yours,

W. H. Bradburn

TO THE RATEPAYERS of the City of Peterborough

LADIES AND GENTLEMEN.—

Having been urged by a large number of ratepayers to again run for the council, I have consented to do so, and I respectfully solicit your vote and influence for my re-election.

If elected I will do everything in my power to forward the best interests of the city.

Thanking you one and all for past favors, I remain,

Yours respectfully,

W. G. MORROW

FOR ALDERMAN

A. R. MOORE

Respectfully solicits the support of the ratepayers in favor of his candidature.

He has lived among you all his life; knows the requirements of the city and promises if elected to faithfully serve you in every way.

Your support solicited.

Archie R. Moore

TO THE ELECTORS

LADIES AND GENTLEMEN,—

Having accepted the nomination for re-election as Alderman of the city for the year 1909, I respectfully solicit your votes and influence.

If again favored with your confidence and elected, I shall continue to look after your interests, do my best to serve you faithfully and discharge the duties pertaining to the position in a manner that I hope will generally merit the approval of the majority of the electors.

Thanking you for your generous support in the past and wishing you all a happy and prosperous New Year, I am

Yours truly,

GEO. H. DUNCAN.

Magistrate Dumble Reserved Judgment in Case Against Rattray

The trial of William Rattray for the theft of nearly $700 from Mr. Martin Connors during the summer, was continued yesterday when al the evidence was received and Magistrate Dumble deferred judgment until Monday morning.

The principal witness yesterday was P C Newhall, who went to Toronto on December 17th with Mr. Connors when it was learned that Rattray had been apprehended. They went to the police station, where he was in custody, and while Mr. Connors spoke to the prisoner through the bars, P C. Newhall remained in the corridor and afterwards, when Mr. Connors had gone. The conversation he overheard was rather damaging against the prisoner, as it was with another man in an adjoinint cell.

P. C. Newhall Testifies

Part of the officer's testimony was as follows:

I heard Mr. Connors say to the prisoner, "You've got yourself into a nice box," and referred to the theft. Rattray replied that he never had any money and stated that he had been with a number of Peterborough fellows sitting on the tombstone at the corner of George and Charlotte streets about one-thirty of the night in question.

Witness said Mr. Connors told prisoner that he had tried to get young O'Toole and another fellow to help him do the job. Part of the reply Rattray made was as follows: "If they say so it must be true, for I was bonsed. I had been sitting it up good." He denied having an accomplice. He said he went along Charlotte street to Aylmer, and thence to the C. P. R. He caught a freight about 1.30 a. m.

It Looked Bad

Mr. Connors remarked that the fact that he was well acquainted with the hotel looked bad against him. Rattray replied that it did, as he knew where the money was kept and how to open the window, but "other people knew as well as myself."

P. C Newhall stated that he heard a prisoner in an adjoining cell say, "You gave yourself away when you told about being on the coubstone and being boosed, etc., but there is only his and your word for it." Rattray replied, "They can't do anything to me, as nobody seen me and they said there was another man with me."

The voice asked again, "What about them rubber shoes?" Rattray replied, "They were my ball shoes, We took the spikes off them. Connors said somebody told him I got them to do the job."

The voice said, "It looks bad your skipping out when you had just got there." Rattray said, "We had ars ranged to come down. Was with another fellow for work, but the other fellow backed out and he came alone.

P. C Newhall gave an account of that part of the conversation which referred to Rattray's trip to Chicago. It took him five days and nights to do the journey, and after staying two days in that city started back again. He had slept around the docks in Toronto for a time, and the first night he spent at home he was arrested. Later he said no one had found any money on him. One of the prisoners said, "You were foolish to tell that hotelkeeper that it must be true if the fellows he had been with said so."

Messrs. Longo's Relatives Lived in Ill-Fated Sicily

The Longo cousins, proprietors of the fruit store on Hunter street, east of George street, are but three years out from Sicily, and one of their families is living in the town of Termini situated about twenty-five miles from Palermo on the coast of the Tyrrhenian Sea.

When seen by a Times reporter last night, Mr. Longo stated that he did not consider that any of his relatives had met with injury as the reports seemed to indicate that the western part of the island had escaped the disaster. It is hoped that his surmise is correct but it may possibly be that Termini was affected as the shock was plainly felt in Palermo.

His Family There

The town of Termini is almost on a straight line between Palermo on the west and Messina and Reggio on the east. It is a strange coincident that Joseph Longo is the name of each of the two men referred to. They stated that they are cousins and before coming here lived next door to each other in a double house. One is taller than the other and of darker complexion. The latter has brought his family out to Canada, but the other man who is known widely in the city, from his peddling fruit in the summer with a waggon, has his own family and his father in his native town. He sent a letter home yesterday inquiring about the safety of his family, but expects to have one from them soon, sent before the arrival of that which he has dispatched.

Experienced a Quake

Just before they came to Canada, their town was visited by an earthquake of minor force when compared with that which has devastated the beautiful Calabrian and Sicilian cities. Mr. Longo in describing its effect said "it was just like a great big stone hitting the roof of your house and you never expecting it. It shook from top to bottom and you would think it was going to pieces and would tell about you. Our houses were badly shaken and the people badly frightened. They thought a worse one would come so they went out on to a plain outside the town and camped in tents until their fear passed away."

Messina the Fruit City

The large, progressive city of Messina has suffered sadly. Probably everybody knows that most of the lemons and many of the oranges that we use are shipped from that port. Mr. Longo pointed to a crate of lemons and there on one end was the name Messina, showing that it had been packed and shipped from that city. Messini is about one hundred or more miles from this port, and it is likely that a more or less severe shock was felt in the home city of the Longos. One's imagination makes no mistake in the supposition that large amounts of lemons, oranges and olives were lost in the earthquake. Mr. Longo says that he is confident that such has been the case. To substantiate his belief a late despatch from Montreal is as follows:

Montreal, Dec. 31.—As the result of the earthquake in Sicily the wholesale fruit men report that the prices of oranges and lemons have already advanced. That portion of Sicily affected is in the centre of the lemon and orange district, from which Canada receives a very large share of her supplies.

Mr. Longo stated that he knew a Toronto firm who had a consignment of 1700 crates of lemons ordered from Messina which were to be shipped on Tuesday. Needless to say that shipment did not get far on its journey.

The reporter gained many other interesting items of information regarding Sicily from Mr. Longo who said that his home town is the centre of one of the best olive districts in the world.

Corbett Insists That Jeff is Champion

Sydney, N.S.W., Dec. 31.—William H. Wood, chief secretary of New South Wales, in an interview today, said that the prize fight situation at Sydney was being given serious consideration by the government authorities, as the Burns-Johnson contest last Saturday savored of being more brutal and repulsive than scientific.

He declared that unless infighting was eliminated boxing here would have to be regarded as an illegitimate sport. Mr. Wood says that an attempt would be made to amend the laws so as to make New South Wales less of a happy hunting ground for securing big purses, as in the last contest, as it was not desired that Sydney should correspond with the Pacific slope regarding pugilistic undertakings.

However, as a result of the character of pugilism indicated in the fight on Saturday, the police would prevent any further contest here between Burns and Johnson.

DAY BEFORE CONTEST.

A peculiar fact regarding the battle for the world's championship was that America received the result the day before the fight took place. Burns and Johnson were scheduled to meet in the ring Saturday morning at 11 o

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be overdone. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, hunger, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is then to be feared against the germ. You can fortify your body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

A Happy New Year

To every citizen of Peterborough, city and county, and to every living man, woman and child throughout the world, The Times wishes a happy and prosperous New Year. May the twelve months beginning today bring greater blessings, both spiritually and materially, than has any twelve months in the past. May the international, domestic and individual strife, which has characterized the world since the beginning, be stamped out to such an extent that the masses will be brought to a full realisation of the responsibilities of their real mission on earth. May the church make such progress in the next twelve months towards christianizing the world that even the most sanguine will appreciate the words of the great Prophet when he said, "Go ye into all the world and preach the Gospel," and when that is done, "I will come again," and pilot my children to the foot of the great throne and then plead their cause before the Father of all mankind.

To one and all The Times again wishes a bright, happy and prosperous New Year.

ALD. HARRY PHELAN
Who is Seeking re-Election

THE MUNICIPAL CANDIDATES APPEALING FOR SUPPORT

A peculiar coincidence in connection with the municipal race is the fact that while two aldermen—Johnston and Tovey—have retired—two ex-aldermen of recent experience are again in the field in the persons of Robert Hicks and George H. Duncan, both past chairmen of the Board of Works, the hardest municipal office to hold within the city's gift. The new and untried men in civic affairs are, Jas. R. Metheral, Archie Moore, Jos. J. Duffus, W. H. Armstrong, Jas. Bogue, John D. Craig, Alex. Gibson and Andrew Brown, and they present a strong combination of business capability.

The slate of twenty candidates may prove to many electors a difficult one from which to pick the required twelve, as it offers no peculiar weaknesses to render rejection easy, but on the contrary presents an aggregation of desirable candidates, all of whom are worthy of public confidence. Of course the aldermen seeking re-election have a weighty advantage over their competitors from the fact that they are tried men with records for commendable regard for the city's interests as a whole, as evidenced in the markable freedom from criticism of their civic legislation during the past term. And the city's affairs are generally admitted to have been conducted in business-like manner, and difficult projects engineered and put through to completion as becoming men who had the courages of their convictions. Perhaps here it would not be out of place to allude briefly to some of the aldermen who have given this city marked service.

ALD. PHELAN

As Chairman of the Board of Works, the most strenuous position on the Aldermanic Board, Ald. Phelan's task last year was by no means a light one. But he proved himself to be full of business, first, last and always, and consequently enjoyed the support of his committee to the fullest extent. No time was too much for him to devote to his important office, the demands by ratepayers, (and they are always numerous), for improvements and permanent work were handled in a capable manner and acquiesced in whenever practicable. In committee, no time was wasted in unnecessary controversy, and he kept himself thoroughly conversant with the detail work of his big department. In fact, Ald. Phelan did the duties of a paid city controller, and we venture to say that this will be fully recognized at the polls next Monday. The city streets this year presented a creditable appearance, and each ward shared his impartial attention. The vexed waterfront question was settled in a manner satisfactory to all concerned largely owing to his indefatigable efforts, while his insistent advocation for a new bridge at Smith street has resulted in the present bylaw for that purpose being now before the ratepayers. This bridge is certainly a crying want, especially so as the cost of keeping the present one in repair is amounting to the yearly interest on the money needed for a new and modern structure. While the money asked for this purpose is considered by some to be excessive, the council are not committed to any special design, and will if re-elected economize as far as commensurate with the requirements. It is unnecessary to expatiate upon Ald. Phelan's peculiar fitness for the chairmanship he has had the honor to fill, but suffice it to say, he is a typical alderman, both in avoirdupois and in business capacity and all-round aldermanic ability.

A. A. McINTYRE.

Alderman McIntyre has enjoyed public confidence in the city hall four years now, and goes again before the electors by the request of a big circle of influential citizens. His public career has been marked by a general interest in the community as a whole, and an intrepid firmness of attitude on all public questions. He is not afraid to stand in the minority, and on more than one occasion the courage of his convictions has been in evidence when important issues were at stake. As alderman he gives to the public the same high degree of business acumen that has enabled him to make a success of his private affairs. An employe of labor himself, he is well and favorably known among the laboring classes as fair and generous in all his dealings, and the corporation employes have always found in him a warm sympathiser. Take him, altogether, Ald. McIntyre has proven a valuable member of the Board of Aldermen, and if elected for a fifth term, the confidence of the electors will be found to have been well placed.

EX-ALD. DUNCAN.

George H. Duncan, in consenting to stand for election again, has complied with the wishes of many advisers. In 1907 he held the important office of Chairman of the Board of Works, in which position he displayed untiring energy and business capacity. His rejection at the polls in 1908 was generally felt to have been a mistake and regretted by a large portion of the community, for he was well-known to be a faithful representative of the public at the city hall. His record stamps him as a fearless advocate of the needs of the city as a whole, and one who may always be relied upon to be at his post of duty. He is a very desirable candidate with municipal experience that would stand the community in good stead should he be elected for a third term. In the past he cheerfully sacrificed considerable valuable time to his aldermanic duties, and in the future, if elected, it is safe to say, he will apply the same strenuous and aggressive principles to all public matters that has secured to him a prosperous and progressive business career.

HARRY MORGAN.

Mr. Harry Morgan has been the efficient representative in the council from Ashburnham for the past couple of years and he has never lost an opportunity to advance the interests of his constituents. He has frequently put up a stiff fight for improvements to be made there which were greatly needed, and he has also watched closely all the expenditures and when he was not in favor of them he was heard from. He looks after the labor interests and always advocates their cause. He will no doubt be given a seat in the council again.

WM. BULLER.

Mr. Wm. Buller, is one of the aldermen who entered this council last year, and who displayed an ability for municipal business rarely seen in a first year man. His opin-

(Continued on page four.)

Blacklist Men Must Pay Heavy Fine

Two bottles of Calcutt's lager found in the pockets of a man who has been on the "Indian list" for the past five or six months was the primary reason for the imposition of a fine of ten dollars at this morning's police court.

The two pints were produced in court and were certainly not perfumery or salt water. The prisoner appeared to have been on a spree and although P. C. McGinty testified that he had smelt liquor off him when he arrested him, he stated that he had not had a drink in weeks.

His explanation of the bottles was that he had bought them from a man in Calcutt's brewery before he was "listed" and had them hidden in his father's cellar during that time.

"I suppose you passed and repassed them as a practice in a control," Magistrate Dumble caustically remarked. The prisoner had asked for a drink in a local hotel and was being served with it when another bar tender entered and seeing him, took the bottle and glass from him.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A fifty box—48 Preventics—25 cents. Ask your druggist. He knows! Sold by all dealers.

Children of House of Providence Entertained

Mr. and Mrs. C Rutherford entertained the children of the House of Providence at their residence, London street Wednesday afternoon and evening and the little folks had an outing that they will long remember. During the afternoon they were treated to a sleigh drive around the city which was greatly enjoyed. Afterwards a delightful tea supper was served to which the little ones with their appetites sharpened by the drive, did ample justice. A large Christmas tree in the hall was loaded down with an abundance of gifts for the children and no one was forgotten. Afterwards all the children gave a very enjoyable programme of songs and recitations their finished work showing that they have received very careful training. Mr. and Mrs. Rutherford have made this treat for the children of the House of Providence an annual affair, and it is eagerly looked forward too.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

Cook in Captain Hain's House Startles the Jury in the Court

New York, Dec. 31.—Mrs. Claudia F. Hains—the alleged cause of the Anais tragedy—yesterday entered the trial of Thornton Jenkins Hains, charged with murder, and throughout the day remained the principal figure.

In person, Mrs. Claudia is still in Massachusetts, or somewhere without the jurisdiction of the court. She was represented yesterday, surely against her will, by two witnesses for the defense, who were as far apart as witnesses could be.

NEGRO WOMAN A WITNESS.

One was Samuel Chester Reid, an inspector attached to the naval construction corps of the United States navy, a southerner by birth, and from a distinguished family. The other was a middle-aged negro woman, Minnie Rohme, who has been cook in the family of Captain Peter C. Hains, jr., since a year before his marriage to the Boston girl.

The testimony of the Southern officer and the cook were both admitted to the jury by Judge Frederick E. Crane, on the ground on their bearing upon the sanity of Captain Hains. Mr. Reid told what the captain had told him of what he learned on his return from the Philippines in May of this year. The cook told what she told the captain immediately on her return.

RECITED "THE VAMPIRE."

In two incidents the Hain's trial yesterday kept up to its record for novelties. The first sensation came in the morning, when Reid was describing the condition of Captain Hains when the former visited him a few weeks ago in the Long Island City prison. Reid was asked to tell in exact words what the captain had said to him. He began to recite "The Vampire," Rudyard Kipling's poem.

Reid brought this in after declaring that Captain Hains had recited the poem to him. He was about to go on with the other verses when Judge Crane asked: "Did you read this over before you came in?"

"I know it well," said Reid.

"It is known all over the English-speaking world," exclaimed McIntyre. "Your honor's pardon, but I think the question improper."

Thrown Into Prison Cells on the Second Day of His Honeymoon

Toronto, Dec. 31.—Thrown into prison cells the second day of his honeymoon, Edward S. Soane will now have to answer the serious charge of bigamy. Soane was married in St. Thomas on Tuesday last to Miss Jennie E. Reynolds, came to Toronto yesterday, and registered at the Savoy Hotel with his bride. This morning he was in the hands of the police on information given by the brother of Soane's first wife. A vagrancy charge was preferred by his worship during the morning session of police court, and the man was held until the close of court, when the bigamy charge was read to him. He offered no plea.

Soane's alleged crime forms a story of unusual interest, and according to the police version, is as follows:

After living with his first wife, Kathleen McLean, for many years of varied happiness, he took a notion to cut loose the bonds, and, without warning, left his home in Lindsay, where six children depended on him, and went to Jackson, Michigan. According to information received, the youngest child died shortly after the father's departure, and a Lindsay doctor reported that the death was due to neglect. After spending some months in Jackson, where he was free from prosecution, Soane moved to St. Thomas, there secured his new bride's permission to a marriage, and was united to her on Tuesday by Rev. Mr. Pidgeon of that city.

Fearless of any legal results from the second contract, Soane came boldly to Toronto, where he knew several people, an dregistered at the Savoy Hotel with his wife. But the brother of the first wife, Mr. McLean caught sight of the familiar face of his deposed brother-in-law and notified the detective department.

The arrest came this morning, and was a thorough and disagreeable surprise to Sloane.

Frightful Scenes in Messina--Burning Bodies by the Thousands

Reggio, Dec. 31.—There is reason to believe that an entire regiment of infantry was drowned by the tidal wave at Palmi. Three hundred of the soldiers' bodies already have been recovered.

Naples, Dec. 31.—Of the 14,000 people living in Palmi, only a few score are alive today. Yesterday, alone, 2,200 corpses were buried in the cemetery there.

Messina, Dec. 31.—A frightful scene occurred here today amid the ruins of the Customs House.

Bands of famished individuals were groping among the debris in the hope of discovering food. The first of the searchers were successful, and others, attracted by their cries of joy, fell upon them with revolvers and knives. The luck ones defended each morsel literally with their lives.

The struggle was of the most inhuman description. The famished men threw themselves upon each other like wolves, and several fell disemboweled in defending a handful of dry beans or a few ounces of flour.

One of the unfortunates was pinned to a plank by a knife while clinging to him hand was his little child, for whom he had sought food.

REGGIO BAD AS MESSINA.

Rome, Dec. 31.—King Victor Emmanuel, who left Messina last night with Queen Helena, arrived early this morning at Reggio, and after visiting the town in company with the Queen, re-embarked on a warship and sent the following wireless telegram to Premier Giolitte;

"I return from Reggio, which I found in a condition no less disastrous than that at Messina. The prefect at Reggio says that grave injustice has been done to the communes of his province.

Management of Poultry Subject of an Address by Miss Mary Yates

Miss Mary Yates, the talented lecturer who is being sent here by the Institutes branch of the Department of Agriculture, to lecture on the second day of the big Peterborough Poultry show next week has sent to the secretary of the local Poultry Association a synopsis of her subject for next week's lecture which promises to be well worth hearing. The subject will be the "Management of Poultry," in which Miss Yates will give much interesting and valuable information on egg production, table poultry, preparation for showing, hatching and rearing, food and feeding stuffs, etc. She will also give demonstrations in killing, plucking and shaping birds for market, packing, trussing for table, boning and carving.

The list show of the Peterborough Association gives every promise of being a grand success. Certainly the members of the Association have their shoulders to the wheel and if determined hard work can accomplish anything the success of their efforts is assured.

Important Change in Canadian Pacific

During the months of January and February the C. P. R. "Imperial Limiteds" will not run between Montreal and Winnipeg, or between Calgary Vancouver. This change will not, however, affect passengers from this district to any considerable extent. The departure time of the northwest express from Toronto is unchanged from 10.15 p. m., daily, there is no change in the fast time made to Winnipeg, and for passengers to Calgary and points east, no wait in that city. Passengers for points west of Calgary and the Coast will enjoy a welcome break in their long journey, arriving in Winnipeg at 12.40 p. m., and after an afternoon and evening in which to see the attractions of the western metropolis, leave for their destination at 10.45 p. m. This opportunity to explore Winnipeg, the gateway to the Northwest, and famous for its rapid growth and prosperity, will undoubtedly be welcomed by cross-continent travelers. The change takes effect January 1st.

First Junior O.H.A. Game in Whitby

morning on the G.T.R. 8.20 train for Whitby, going via Lindsay, to play their first game in the O.H.A. series. The boys had a good practice Wednesday night and last night again at seven o'clock, and they appear to be in good shape. They are playing fast hockey and should pull out a victory tonight. The line-up is as follows:—

Goal—Giroux.
Point—Fey.
Cover—Wade.
Rover—C. Rae.
Center—C. Giroux.
Left—Pentland.
Right—Hillier.

Unhealthy Women

Lose Color, Constantly, Weary, Look Wrinkled, Hollow,

THEY ALL GET HEALTH—VITALITY—VIM, STRENGTH FROM FERROSONE.

Once you use the celebrated nerve vitalizer and tonic, Ferrosone — once you feel its magic powers, working through your weakened system—then you'll know for sure that health at last awaits you.

So much quicker and surer is ferrosone to rebuild and restore that thousands use no other medicine.

"Because I am now well," writes Miss I. F. Sinclaire, from Sault Ste. Marie, "I feel it my duty to tell every young woman what benefit I got from Ferrosone. I grew very thin, and at twenty-five years old my face was hollow and wrinkled—my color was bad and I looked ten years beyond my age. I was nervous and hysterical, couldn't sleep, had no appetite, burst into tears at the least provocation. Then I worried, feared would go into decline, and was so depressed every morning that life was no longer happy.

"I was astonished at the quick and thorough action of Ferrosone. It gave me permanent strength and vitality, nervous fears disappeared, indigestion and stomach weakness were cured. Sound sleep returned. I looked better and younger, had clear color. I gained in weight, felt happy vigorous, strong.— It is a year since I first took Ferrosone. It has restored me to health I never knew before and I will continue to recommend it as the greatest tonic and strengthener on earth."

Very few girls and women are so abundant in health as to not require medicine. Nothing excels Ferrosone in supplying strength, blood and nerve power. Not a stimulant, but a nourishing tonic is Ferrosone. 50c. per box or six boxes for $2.50, at all dealers. Try Ferrosone. Do it to-day.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

FRIDAY, JANUARY 1, 1909.

THE OFFICERS OF 1812-15

Of the war of 1812-15 we have had many histories; but until this year there has been no relation of that prolonged struggle available which tells of the army organization and gives the names of the principal participants. The missing facts have been furnished by Mr. L. Homfray Irving, the honorary librarian of the Canadian Military Institute, in a volume he has just issued. For six years Mr. Irving has been laboring upon this important work, consulting histories, military documents, archives, and army lists, with the result that he has made a complete record, not only of the regiments which took part in the campaign, but of all their officers.

To the student of Canadian history the volume is exceedingly interesting. He learns from it that the military organization consisted of three distinct forces working under one control. In the first place there was the regular army. Then there were the Canadian regiments raised by regular officers, and enlisted for the full term of the war. Again, there was the Canadian militia, which provided from every district its contribution to the defensive work. The names in every branch of the service are historic. Those of the regular officers are connected with great military events the world over, while those of the Canadian officers are practically household words. We come across the Robinsons and the Jarvis', the Shaws and the Macdonells, the Allans, the Merritts, the Ryersons, the Talbots, the Denisons, the Hewards, all good Upper Canada names. In the list of the militia officers who participated with credit in the defence of the country.

The work, however, is not merely local. It gives the names and records, not only of the Upper Canada militia officers, but also of the officers of the French-Canadian regiments, which fought so gallantly in various parts of the Lower Province. The orders designating the character of the uniforms to be worn, the rates of pay to be drawn, and the rations to be served, contain facts not hitherto made known. Along with the white military force engaged in defence there were Indian corps, notably that under Crouching Panther, known to fame as Tecumseth. These served with distinction.

There was also a naval force of very considerable strength. The Royal Navy in Canadian waters consisted of 17 ships on Lake Ontario, 13 on the St. Lawrence River, 7 on Lake Erie, 4 on Lake Huron, and 17 on Lake Champlain. Some of these were built outright in Canada, others were put together, the frames being sent from across the ocean. All the officers employed on these vessels were men of experience. Sir James Yeo, the commander-in-chief on the lakes, had fought against Napoleon, while Commodore Barclay, who commanded on Lake Erie, had fought at Trafalgar. Mr. Irving's book is full of valuable information with reference to the war, and of the most important of recent contributions to the facts in relation to that struggle for the preservation of the independence of Canada.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—25c. Sold by all dealers.

To The Electors of The City of Peterboro

LADIES AND GENTLEMEN.—

Having been nominated for the position of Alderman, at the request of a large number of the ratepayers, I have consented to become a candidate.

I am opposed to personal solicitation, believing that the office should seek the man.

Through the medium of the public press I respectfully solicit your vote and influence to secure my election, and, if elected, I will endeavor to discharge the duties pertaining to this office to the best of my ability.

Respectfully yours,

Alex. Gibson

To The Electors

Ladies and Gentlemen:—Having been nominated for Alderman, and having been urged by a large number of all classes of citizens to remain in the field, I have decided to do so. If you think I will represent you well, I will be pleased to secure your vote and influence to insure my election. I have always been very much adverse to personal canvassing, but I assure you I will appreciate your support all the more because it is given unsolicited, and I promise if elected to do my best without fear or favor.

Yours respectfully,

Andrew Brown

Board of Education

LADIES AND GENTLEMEN,—

In presenting myself as a candidate for election to the Board of Education, I ask your support and influence, and if elected will endeavor to faithfully serve the interests of the Board.

Yours truly,

Dr. M. McClelland

For Board of Education

Vote for Billy Robinson, the People's Candidate.

I solicit the support of the ratepayers, and especially the working people. I have a clean record during the past two years, and desire to serve another term.

Yours respectfully,

W. S. Robinson

Your Vote and Influence

are respectfully solicited for the election of

Dr. Ernest V. Frederick

for the

Board of Education

Election Jan. 4, 1909.

Re-Elect M. A. Morrison

LADIES AND GENTLEMEN,—

Your Vote and Influence for the re-election of

M. A. Morrison

for Board of Education for 1909

Mr. F. J. MacDonnell, of Toronto, has arrived in Peterborough to assume the duties as representative of the International Correspondence Schools

ADVERTISE IN THE TIMES.

Card from Mr. Duffus

To the Electors of the City of Peterborough

LADIES AND GENTLEMEN.—

I have accepted nomination for Alderman at the request of numerous influential ratepayers of the city. If elected, I promise to give diligent attention to the duties of the office. Being a heavy taxpayer and having a good knowledge of city affairs, I feel that I should be of assistance in safeguarding the public interests; and I promise, if elected, to do all that careful judgment can do to promote the welfare of our progressive city.

Joseph J. Duffus

Re-Election of Ald. Gillespie

To the Electors of the City of Peterborough:

Ladies and Gentlemen,—At the request of many citizens largely interested in the welfare of Peterborough, I have decided to again accept nomination as Alderman. I trust that the confidence reposed in me last year has strengthened my candidature for a second term. If so my aim will continue to be the advancement of the progress of our growing city. While I will oppose without fear or favor all unwise expenditure, I shall support all wise measures calculated to build up our natural resources, irrespective of wards or boundaries.

Respectfully yours,

George A. Gillespie

FOR ALDERMAN

To the Electors of the City of Peterborough:

LADIES AND GENTLEMEN.—

Having accepted nomination as Alderman for 1909, I most respectfully solicit your vote and influence. I have been honored in representing the city on the Aldermanic Board for the past four years. My efforts during that time have always been to serve the city's best interests. My record is before you, and on this I now ask your support. Wishing all a happy and prosperous New Year, I remain

Yours truly,

A. A. McINTYRE

For Alderman

To the Electors of the City of Peterborough:—

Your vote and support is requested for my re-election to the Council. My course during the last term was according to my honest convictions without fear or favor. I propose to follow the same course if re-elected.

Yours respectfully,

Harry Morgan

BOARD OF EDUCATION

To the Ratepayers of the City.

LADIES AND GENTLEMEN;

I am again a candidate for election as one of your representatives on the Board of Education of the city. By your kind favor I have been one of the members for the last thirteen years, and I trust that my services have been such as to merit a renewal of your confidence.

I shall be heartily glad if you will accord me your vote and influence.

Respectfully yours,

Robt. Fair

VOTE FOR

WILLIAM BULLER

The People's Candidate for Alderman

Your Vote and Influence

respectively solicited for the re-election of

J. J. TURNER, Jr. For ALDERMAN

FOR ALDERMAN

LADIES AND GENTLEMEN;

I respectfully solicit your votes and influence in favor of my candidature as one of your Civic Council for 1909, and to ensure my re-election.

Thanking you in advance.

Respectfully yours,

W. H. Bradburn

CARD FROM ALD. H. PHELAN

To the Electors of the City of Peterborough:—

LADIES AND GENTLEMEN;

Having been again honored with nomination for alderman, I have accepted the same at the solicitation of a large number of influential ratepayers.

My record in the Council in the past is well known to all, and if again honored with your confidence I will endeavor to render efficient service. Such good business judgment as may have qualified me for being of service to the city will be again used to the best of my ability.

Harry Phelan

VOTE FOR W. H. G. ARMSTRONG

AS ALDERMAN

for the year 1909, and honest, efficient and economical city government. No interests but those of the city will receive his consideration.

Election on January 4th.

FOR ALDERMAN

A. R. MOORE

Respectfully solicits the support of the ratepayers in favor of his candidature.

He has lived among you all his life; knows the requirements of the city and promises if elected to faithfully serve you in every way.

Your support solicited.

Archie R. Moore

YOUR VOTE AND INFLUENCE

is respectfully solicited for the election of

Joseph R. Metheral

AS ALDERMAN

Election January 4th, 1909

TO THE ELECTORS

LADIES AND GENTLEMEN;

At the urgent request of a large number of ratepayers I have consented to become a candidate for the council for 1909. If elected I will do my utmost to further the best interests of the city. It is time that our council made a decided effort to reduce expenses, and thus keep down the taxes, which have of late years grown so burdensome. I believe that the business of the council can be more economically managed, and I will, if elected, do my best in this direction.

Soliciting your votes and influence, I am,

Yours sincerely,

James Bogue

FOR ALDERMAN

To the Electors of the City of Peterborough;

LADIES AND GENTLEMEN.—

I again solicit your votes to elect me to the Council. I have served in the Council three years, and believe that the experience gained will enable me to give better service another year, and if elected I will do my best in the interest of every part of the city.

I have the honor to be your obedient servant,

Geo. E. Elliott

ADVERTISE IN THE TIMES.

TO THE RATEPAYERS of the City of Peterborough

LADIES AND GENTLEMEN.—

Having been urged by a large number of ratepayers to again run for the council, I have consented to do so, and I respectfully solicit your vote and influence for my re-election.

If elected I will do everything in my power to forward the best interests of the city.

Thanking you one and all for past favors, I remain,

Yours respectfully,

W. G. MORROW

TO THE ELECTORS

LADIES AND GENTLEMEN.—

Having accepted the nomination for re-election as Alderman of the city for the year 1909, I respectfully solicit your votes and influence.

If again favored with your confidence and elected, I shall continue to look after your interests, do my best to serve you faithfully and discharge the duties pertaining to the position in a manner that I hope will generally merit the approval of the majority of the electors.

Thanking you for your generous support in the past, and wishing you all a happy and prosperous New Year, I am

Yours truly,

GEO. H. DUNCAN.

THE TIMES' FINANCIAL PAGE---OF INTEREST TO THE CANADIAN INVESTOR

MILLIONSOFDOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Waisted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW wha it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world- Miners as well as investors in miniog stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company, which will help you—which will help the miner as well as the investor in mining stock---to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Our smelter thus erected will save 85% in treatment. freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment ; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when her you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary. development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this Company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Address

The Kuenzel's Process Smelter Co.

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash value in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery installed and paid for. Development work is done exposing a quartz ledge 30 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information of what you have to exchange.

CALVIN BUTERLY,
717 Market St., San Francisco, Cal.

THE DOMINION BREWERY COMPANY, LIMITED

They are finest and purest in the market
The WHITE LABEL BRAND is a specialty
To be had at all first class dealers

"OXOL"

The word "Oxol" does not mean one food, or one preparation No: "Oxol" is a name given to all goods for horses, cattle, swine and sheep, prepared by Messrs. E. E. & T. C. Windsor of Australia, New Zealand, England and Canada.

The veterinary preparations as well as the compressed bales of fodder placed on the market of the world under the name of

"OXOL" FOR CATTLE

are all of the greatest possible order of merit and may be used by farmers, graziers, dairymen, and all owners of stock with the full assurance that these goods have the power in a very short time to double their incomes by feeding, fattening and curing all animals which do them most money.

One agent only in each district who has sole contract of the local trade for square meals. See future advertisements, etc.

Cosgrave's Beer

Words of praise have ever prevailed in advertising "copy" That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

Peterborough, December 31st, 1908.

S. R. ARMSTRONG,
City Clerk.

Official Information

Officers of D. H. A. clubs, especially managers and secretaries, should take cognizance of the following official information :—

Certificates are issued at the discretion of the executive, and are revocable without notice. All players must have certificates.

O. H. A. clubs are warned not to play with or against professionals, or teams suspended by the association.

Players eligible to play in the junior O.H.A. this season must be under 20 years of age on Jan. 1, 1909.

Any club convicted of having in its membership professionals of any kind shall forfeit its membership in the association.

Any clubs using players not qualified under the residence rule will be summarily suspended. The date this year is Aug. 1.

No player can play in an exhibition match with any club but his own without first receiving a permit from the O. H. A. executive.

No player is eligible to play in the intermediate series who has played in more than one senior championship match this season, and no player is eligible to play in the junior series who has played in a senior match or in more than one intermediate match this season.

Club secretaries should see that the players have their certificates on hand early to show to the referee so that there will be no delay in starting the game.

Home clubs should see that a dark distinguishing line is drawn on the ice between the goal posts and small white flags provided for goal umpires.

No player can play in an O. H. A. schedule game who is, or has been in the current season, a member of, or has played with, in the same association year, any other club in a recognized hockey association—city and town leagues excepted—without special permission of the executive.

Each club shall pay half the expenses of the referee. It shall be $5 for all distances up to fifty miles, and he shall be allowed at the rate of ten cents per mile one way for all distances above fifty miles. When a referee is away from home over night, and the mileage is below eighty miles he shall be allowed mileage for eighty miles at ten cents per mile.

The expenses of the travelling clubs are at the rate of ten cents per mile for one way for eight men, which expenditure must be guaranteed and paid by the home club.

When the home-and-home matches are played in the same city or town, the home club is to take the net proceeds of the game.

Any club intending to default a match must send to the secretary of the opposing club, and also to the secretary of the association, at least three days' clear notice, exclusive of the day on which the match is to be played. Unless the executive shall otherwise order, any club failing to send such notice shall be subject to a penalty of $15, together with all legitimate expenses incurred by the competing club in connection with such match. The penalty is expulsion.

Secretary W. A. Hewitt of the O.H.A. has issued his annual instructions to referees, to govern their conduct of championship matches, as follows :—

All players must have certificates, to be presented to the referee before play commences, and all players must answer to their names as called by the referee.

The captains of competing teams shall provide the referee with a list of players who participate in the match, with their respective positions.

Captains will toss for choice of goals. The visiting team will make the call.

The duration of matches shall be one hour, exclusive of all stoppages. All matches must be played to a finish, except in a two-club group, where home-and-home matches are being played.

EXTRA TIME WHEN TIE.

In the case of a tie at the end of one hour's play—except in a two-club group—ends shall be changed and the match continue in ten-minute periods, five minutes each way, until one side shall have scored a majority of goals.

Begin play by dropping the puck on the ice between the sticks of the two players who are to face it. The blade of the sticks shall be on the ice. Penalise any player who delays the game by violating this rule.

Insist on matches beginning promptly at the advertised time. The team or teams failing to comply with this order shall be fined $10 per team.

The referee has control of all officials and his decision shall be final. He will appoint the goal umpires, and the penalty timekeeper shall be appointed by the captain of each team.

In case of an accident to any player compelling him to leave the ice, the opposing side shall immediately drop a man to equalize the teams. There shall be no delays from any cause whatever. The intermission of half-time will be ten minutes, and this rule must be strictly enforced.

Hockey sticks shall not be more than three inches wide at any part, and not more than 13-inches long at the blade. They shall consist entirely of wood, with tape binding permissible.

Posts of the goal nets shall be four feet in height, six feet apart, and at least five feet from the end of the ice. It is the duty of the referee before the match begins to measure the goals, and see that they are the correct size.

GOALKEEPER MUST STAND.

The goalkeeper must not during play lie, sit or kneel upon the ice; he may stop the puck with his hands, but shall not throw or hold it. He may wear pads, but must not wear a garment such as would give him undue assistance in keeping goal. The referee must rule off the ice, for any time in his discretion, a player who, in the opinion of the referee, has offended against this rule.

Referees will not call an off-side when the puck comes off the goalkeepers stick inside a space of three feet out from goal, extending to both sides of the rink.

The referee must keep a record of all players ruled off, the time of the penalty, and the cause. It is imperative that he shall report all rough play to the association. Players ruled off for roughness on the ice will be disciplined by the Executive Committee.

The referee is absolute master of the game, and should not allow any player except the captain of each team to question any decision he might make. Any complaint by players must be made through the captain of the team.

Post your report to the secretary immediately on the blanks provided for the purpose.

Specifications, forms of tender and other information may be obtained at the Superintending Engineer's Office, St. Catherines, on and after Thursday, the 31st December, 1908.

The lowest or any tender not necessarily accepted.

L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, December 22, 1908.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform with the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for it.

THE CANADIAN MAGAZINE

A number of distinguished names appear among the contributors to the January Number of The Canadian Magazine. Prof. Goldwin Smith writes a timely and most interesting consideration of "The Crisis in India", and Sir Charles Tupper writes on "An Incident of Confederation." These two contributions alone would make the number one of more than ordinary interest, but there are as well important features, including "The Head-hunters of Formosa (Illustrated), by Thurlow Fraser; "Five Famous Empty Chairs" (Illustrated) by Frank Yeigh; "The Lay of the Ladye of Holyrood" (Illustrated), by Jean Blewett; "Plays of the Season" (Illustrated) by John E. Wheeler; "The Modern Olympia," by H. J. P. Good; "Bulgaria: A Study in History" (Illustrated), by J. Castell Hopkins, with short stories by Lilian LaFurlong Meadon Hill, Carl Ahrens, and poems by Isabel Ecclestone Mackay, Virna Sheard, George Herbert Clarke, H. M. Tecoman, Jean Blewett, James F. Hewerson and Louise G. Gregory.

Apetite Gone---Nerves Badly Run Down

A Strong Moral Well Exemplified In Mrs. Wilson's Case.

Like thousands of other people at this season of the year Mrs. E. P. Wilson was tired and worn out—winter sorely tried her health and vigor. But now she is robust and well, eats well, sleeps well, feels invigorated and braced. "For some years," writes Mrs. Wilson of Watmore, P.O., "I suffered from systematic weakness, biliousness and depressing headache. I could take little nourishment and grew thin and pale. If I ate a hearty meal the result was dreadful. Pains started at my chest, and spread all through my body going across my stomach, back and right side. I was discouraged till a friend insisted on me taking Dr. Hamilton's Pills. They made a new woman of me, and for the past eight months my health has been perfect. For a good cleaning, rejuvenating medicine I urge every one to use Dr. Hamilton's Pills."

There is extraordinary and magic power in Dr. Hamilton's Pills; they bring vigor, tone, health and spirits—are compounded from the most wonderful and healing juices and essence in vegetable life—are safe for young and old, and guaranteed to kindle renewed activity and strength of every system that is weak, sickly or run down from kidney, liver, stomach or bladder trouble. Get Dr. Hamilton's Pills of Mandrake and Butternut—today—25c. at all dealers.

Teamsters' Ball

What promises to be a very successful affair is the annual social ball and supper under the auspices of the teamsters and drivers of the city. It will take place on Tuesday evening, January 16th in Ashburnham Hall. Good music will be provided and a fine time is assured.

Canal Leakages

The annual report of the superintendent of the Trent Valley Canal, J. Harris McClellan, has been prepared and The Times has received a copy, but owing to the length of it and the late hour it was received it will not be possible to publish it until Monday. The report is in detail and deals with the leakages all along the canal giving the number and nature of boats, the size and nature of the cargo carried and the number of passengers and pleasure boats. A most pleasing feature of the past year has been the immense increase in traffic on the Trent Canal. There have been more passengers and tourists and a great increase in the freight traffic as well as the small pleasure boats.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.,
Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN,

Take Hall's Family Pills for constipation.

Personal

Mr and Mrs. F. Fox of Toronto, are visiting friends in town.

Mr. Harry Crossman was in Toronto yesterday on business.

Miss Blanche Graham, Lakefield, is the guest of Miss Kelly, Downie st.

Mr. A. E. Byrne, Division Superintendent of the T. C. S., is in the city on business.

Mrs. M. Heron, of Ottawa, is visiting her cousin, Mr. Robert Nichols, 89 Park street.

Miss Pauline Nealon, of Toronto, is the guest of Mrs. F. F. Garden, 660 George street.

Miss H. H. Kelly of Montreal is spending a few weeks holidays at her home, Downie st.

Mr. and Mrs. C. J. Buckley of Toronto, are visiting with friends in the city.

Mrs G. E. Templeman and son, of Montreal, are the guests of Mrs. Geo. W. Hall, Simcoe street.

Mrs. E. A. Langfeldt and children are spending a holiday in Orillia with Mrs. Langfeldt's parents.

Miss Olive Sheppard of Pembroke street, is visiting Miss Rogers, Peterborough.—Toronto Globe.

Mr and Mrs. H. Henderson are spending the winter at the home of Mr. A. W. Crossman, Brock street.

Miss Bess Coulter, Peterborough, Ont., will be the guest of the Misses Clark, Riverdale, for the next few weeks.

Master Floyd McMaster who has been on an extended visit to his friends for a month, is expected home to-night.

Mr. J. H. Burnham, editor of the Review, returned yesterday afternoon from Ottawa, where he had been for a few days.

Miss Elizabeth Coulter, Peterborough, will be the guest of the Misses Clark, Riverdale, for the next few weeks.—Toronto News.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

Obituary

Port Colborne, Dec. 30.—Mr. Samuel J. Sidey, collector of customs at this place, died at the St. Catharines Hospital this morning, following an operation for appendicitis. Mr. Sidey was engaged for years on the Welland Tribune staff, until his appointment to the collector's office here. He was fifty-eight years of age, a prominent Mason, and a member of St. James' Episcopal church here, and will be greatly missed in business and social circles. He leaves a widow, two sons and two daughters, Harry, of the Welland Tribune, and Thomas, Florence and Marion at home.

The late Mr. Sidey was formerly editor of the Welland Tribune, which position he filled for several years with profit to the paper. He was one of the best known and popular men in the Niagara district before he entered the government service. Since then he has not been before the public eye.

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs, quickly yield to the healing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Contains no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge! Sold by all dealers.

Municipal Candidates

(Continued from page one.)

tions always received consideration and he was particularly effective in committee. Mr. Hutler is well known and is popular with all classes. He will no doubt be re-elected and if so the coming year will see him one of the prominent members of the civic governing body.

GEO E. ELLIOTT.

Mr. Geo E. Elliott has sat in the council for the past three or four years and he has always been found advocating the measures which were for the best interests of the city. Still he was not afraid to oppose any action of the committees on council that did not appeal to him to be the proper thing. He is a man well known and popularly so in the city and he has had a lot of municipal experience, both in Smith township and in this city.

J. J. TURNER, JR.

Mr. J. J. Turner, jr., during his first year in the council made a very creditable record. He is possessed with a keen business sense and he has the courage of his convictions, as was shown on several occasions in committee. He was on several important committees and was frequently consulted on matters of importance. He is a young man with a bright future and his services to the city should be of value.

GEO. W. MORROW.

Mr. Geo W. Morrow, the chairman of the Finance Committee last year is again seeking the support of the ratepayer. Mr. Morrow, as a financier and a business man, is known to every citizen, and his careful and watchful eye on the civic treasury has been the means of keeping the taxes within reason. A first-class man who is in touch with the money markets of the world, and who has financial matters at his finger tips is necessary for this important post and it is doubtful if a more capable man could be found in the city than Mr. Morrow. His personal popularity will also assure his re-election and near the top of the poll, too.

W. H. BRADBURN.

Probably none of the members of the present council has spent as much time or given as careful attention to the civic business as has Ald. Bradburn, chairman of the Property Committee, and the Special Power Committee. The latter committee has a big proposition on hand and the chairman has been instrumental in getting it advanced to such a state that a public announcement of the municipal power policy may be made at any time. He has also had a lot of heavy work in connection with the Property Committee as well as being an active member on the Board of Works and Finance Committee. He is one of the candidates who should be among the six who will sit for two years.

GEO. A. GILLESPIE.

One of the best liked men in the city is Mr. Geo. A. Gillespie. Recently he has been prominently in the public eye having been placed there by his good business ability, his close attention to details and his habit of knowing what he is going to say before he says it. He has done good work in the council and on the Board of Trade, and as a keen business man he ranks with the very best. No mistake will be made in voting for Geo. A. Gillespie.

ROBT. HICKS.

The many friends of ex-Ald. Robt. Hicks, were more than pleased to see him once more enter the municipal field. He is one of the best men that ever sat around the board. While in the council before he put to good use his ability to handle a big proposition and he did the city splendid service on many occasions. That he will be given a very large vote is assured as it is men of his stamp that are desired in the city council.

Subscriptions are invited for 15,000 Shares of $10 each payable as above.

PROVISIONAL DIRECTORS

ANDREW KELLEY, President Western Canada Flour Mills, Winnipeg
ROBT. MATHER, Gentleman, Vancouver, B.C.
JOHN McVICAR, Grain Dealer, Winnipeg
DAVID L. MATHERS, Contractor, Kenora, Ont
EDWIN LOFTUS, Barrister-at-Law, Winnipeg.
W. T. CREIGHTON Lumber Dealer, Winnipeg.
ROBERT C BIRKETT, Financial Broker, Winnipeg.

TEMPORARY SECRETARY—R. C. BIRKETT, 255 Notre Dame Avenue.
SOLIITORS—Mulock, Loftus, Armstrong & Lindsay, Winnipeg.
BANKERS—Bank of Toronto, Winnipeg.
AUDITOR—W R. RAMAGE, Winnipeg.
TEMPORARY OFFICE OF COMPANY—255 Notre Dame Avenue, Winnipeg.

This Company is formed with the object of buying property in Winnipeg and Suburbs, particularly in the Eastern part of the Town, where, owing to the location of the Grand Trunk Pacific Railway Terminal Shops and Yards, great developments are bound to take place in the immediate future, more especially now that the huge Union Stock Yards are to be located in the close vicinity, where large numbers of men will be employed in the abattoirs.

The first acquisition of the Company cousists of a Block of land containing about 246 acres, situated on the Springfield (Dugald) Road and facing the site on which the shops and yards of the Grand Trunk Pacific Railway are now in course of erection. This property is described as lots 52 to 57 inclusive of Roman Catholic Mission property, Plan 433, and has a frontage of half a mile on the Dugald, or Springfield Road, immediately in the centre of the site of the Shops, Round House, etc., where also the Station, Freight Sheds and Elevators and probably the Main entrance to the Yards will be located. The land has also a frontage of three-quarters of a mile on the Government Road running South and between Sections 4 and 5, Range 11-4 E.

The land is thus the most favorably situated in the very heart of the developments which are now taking place around the huge establishment of the G. T. P. Shops and Yards. It is high and level being only a stone's throw from the Main Line, and is eminently suitable for sub-division into building lots, for which there is bound to be a good demand when the huge Shops and Yards are completed and in operation.

The contract for the erection of the new Locomotive and Car Shops was let to Thomas Kelly & Son's, of Winnipeg, on October 19th last, and this portion alone involves an expenditure of $500,000. The Locomotive Shops will be 823 by 174 feet, built of brick, steel and concrete, and will be equiped with the most modern plant for the repairs of all sorts of iron and steel work used in Railway operation.

The Shops will be the most extensive in Western Canada: the total expenditure being in the neighborhood of $5,000,000, of which the Government is contributing $1.500,000, the balance of $3,500,000 being paid by the G. T. P. Railway Company as their share.

As the location is too far from the City to make it possible for the employees of these Shops to live in Winnipeg, a bona fide demand for Building Lots, Market Gardens, Manufacturing Sites, etc., is bound to spring up, and there is no property in the neighborhood better suited to meet such a demand than one which the Company is acquiring.

The Shops and Yards are situated about 6 miles East of the centre of the city of Winnipeg, too far for the men to live in the City and to go to and from their work every day. As a consequence a new Suburb will quickly spring up in the neighborhood of the Shops. The workmen will build houses for themselves and families near their work, the Tradesman will come as required, and Banks, Schools and Churches will quickly follow. Such development doe not take long, and in two or three years a Town of 6,000 to 7,000 inhabitants will be where today is open prairie

An area of suitable land facing these Shops has been laid out in building lots intersected by 66 feet wide streets and with a 16 foot lane at the rear of each lot. The land is high and dry and there are unning wells on almost any part of it.

What happened when 3 years ago the Canadian Pacific Railway Shops were built? Lots on the South of them were first sold at prices ranging from $60 to $150 each; now they are mostly built on. A Large Town is in evidence having its Banks, Stores, Schools, Fire Hall, etc. The price of vacant lots in the C. P. R. Town today ranges from $300 each to $50 a foot frontage. The same will happen in East Winnipeg, and two or three years hence lots will be worth equally as much as those in the C. P. R. Town today.

The price of the property is $150,000 payable:—

$50,000 in cash on completion of purchase. $25,000 on June 1st, 1909.
50,000 in fully paid shares of the Company. 25.000 on Dec. 1st, 1908.

Interest on deferred payments of 6 per cent, with privilage of pre-payment at any time

There is a Torrens Title to the property, which will be delivered to the Company subject to the $50,000 mortgage

Plans of the sub-division have already been prepared and approved by the Municipality, according to which the property sub-divides into 2,000 building lots. These lots will readily sell at an average price of $125 each, which is well under the mark, which would realize $327,000

Deduct therefrom cost	$150,000	
Commission on sales, surveying, etc., say	37,000	
		187,000
Which would leave a net profit of		$140,000

or more than 280 per cent on the Cash payment and nearly 100 per cent on the total price.

It is reasonable to suppose that sufficient sales of the property will be made to meet the payment of $25,000 due next summer, and some $15,000 of lots have already been disposed of at an average of $150 each. Contracts and payments already made on same will be applied on the second payment. In any case the value of the property will increase with every fresh development in the way of building that goes on, and there is no better investment in Winnipeg today than the one now placed before the public.

With the surplus funds of the Company, it is intended to go ahead immediately with the pegging and surveying of the property, and lay the Streets and erect as soon as possible workmen's dwellings, which will readily be snapped up by the employees working on the spot. This will be a largely profitable undertaking for the Company, and in addition to the 280 per cent. profit on the investment, will produce at least 30 per cent. or 40 per cent profit on the building enterprise.

THIS APPLICATION FORM MAY BE USED:

The East Winnipeg Townsite Development Co., Ltd. Winnipeg
(CAPITAL $200,000)

I.....of.....hereby apply for..... shares in THE EAST WINNIPEG TOWNSITE DEVELOPMENT CO., LTD. of the par value of $10.00 each and agree to accept the same or any less number that may be alloted to me.

I hand you herewith the sum of $.....being 20 per cent. of the total value of the shares applied for and agree to pay a further 30 per cent on allotment and the balance in calls set forth in the prospectus.

I agree to abide by the By-laws of the Company.

Dated.....this..... day of.....A. D., 1909

Longboat Made Dorando Quit the Race at 19th Mile

Longboat won his race from Dorando in Buffalo on Saturday night. It was an easy stunt too and made the Italian quit at the nineteenth mile. There was an immense crowd present and the man from Italy had a big bunch of supporters there who cheered him wildly until the end came and then there was weeping in little Italy. There was all kinds of money bet by the supporters of the little man although the odds were 2 to 1 on the Indian.

Longboat, when he first visited the new 9-lap track, said that he was going to beat the Italian as far as possible. He said he was going to take the lead and make the pace and see just how fast and how far Dorando could go. The result is obvious. Dorando could not go more than nineteen miles while Thomas with his young bride watching him from a box at the ring side, was going like an Indian, with the full knowledge that he had his man at his mercy.

Polling will Start at 9 O'Clock This Morning

Polling will start this morning at nine o'clock and will continue all day until five o'clock this evening. This is the fourth annual election since Peterborough became a city and while there is no contest for the mayoralty or water commissioner the citizens have a most important duty to perform in selecting twelve men to act as aldermen and four members of the Board of Education. The fields for both are large and exceptionally strong and if there is not a first class council elected the citizens will have none but themselves to blame. There are men in the field who are capable of giving the city the best government it ever had. It might be well for every ratepayer to write on a piece of paper and place it where it will be seen every morning;—"I helped to elect the city council. If they make mistakes, or do wrong, it is my fault and I will not complain, but next January I will vote differently."

The polling places have already been published as well as the officers in charge of each. All the voters have to do is to go to the right polling place and mark their ballots for the 12 best men in the field and in making their selection they should forget all personal or petty grievances, and choose the men with the greatest business capacity and the men of the highest standard of character. If this is done there will be little or nothing to complain of during 1909.

Letter to The Editor

(To the Editor of The Times.)

Sir,—It has been brought to my notice that statements are being made, and have appeared in print, that the aldermen and myself were responsible for reducing the wages of workmen employed by the city, and fault has been found with this. I refer to this because the council serves the people and the people have a right to know the facts. The council employes a street commissioner who looks after the greater part of the street work, and they act on the principle, and have done so for more than one year, that he should be given authority to employ the men, otherwise he would not be in a position to do the best for the ratepayers, and as the council has confidence in him that authority has not been interfered with. I have not, nor so far as I am aware has any member of the council interferred with the officers of the department as to who were employed or what wages were paid to any particular employe of the department. As to the wages that have been paid, laborers have been paid from $1.50 to $1.60 per day and in a few cases $1.75. Mechanics and more skilled men on sidewalks and other work have been paid higher wages,—of course. Teams have been paid for at $3.65 per day. I believe the wages paid have been the highest current rates, as the city should not depress the scale of wages nor inflate it, but pay fair wages for the work done. The name of one man has been mentioned frequently in the current reports. I did not know the facts in this case, but am informed that he is not able to do general work and is given work that he can do fairly well and has been paid $1.25 per day—the only instance of wages less than $1.50 on the list, and he could not earn more in any other way if indeed he could obtain employment elsewhere at that wage. Last winter this man met with an accident and was laid up for eight weeks and was paid half rate, $4.50 per week during that time. Really I think it will be agreed that he has not been unfairly treated. I do not like to mention a particular case, but owing to the persistent reports I felt that it should not be avoided.

The mayor and aldermen are elected to transact the business of the city in a fair, impartial and business like manner, doing no injustice to any individual or individuals nor to the ratepayers as a whole. I believe the electors will see that this year the matter of wages referred to has been dealt with honestly and fairly, with the purpose of giving everyone fair play and serving the interests of the city.

Yours truly,

H. RUSH.

Edmonton Won from Ottawa by 4 Goals to 2

(Special to the Times.)

Ottawa, Jan. 2.—An immense crowd saw the Edmonton whirlwinds and the local pros in an exhibition game here tonight. The rink was crowded and the greatest enthusiasm prevailed throughout. It was a lightning fast game all the way with most of the play in favor of the westerners. Whiteroft played his old time game and won a lot of applause. His whole team were in better form than when playing in Montreal, and there is little doubt in the minds of local hockeyists that the visitors could go back to Montreal and play the Wanderers off their feet. The score at full time was Edmonton 4, Ottawa 2.

After the game Hon. Frank Cochrane, Minister of the Interior, entertained the Edmonton team to a wine supper and give the boys a jolly good time generally.

Sewer Plugged

On Sunday evening it was discovered that the sewer at the Oriental Hotel was plugged up and was flooding the cellar. The fire department took a couple of lengths of hose up and flushed it out. Had this not been done great damage would have resulted.

Temperance Meeting

Those in charge of the gospel temperance meetings which were held on Sunday evenings in the Crystal, have decided to change the time of meeting to the afternoon at 4.15 o'clock. The first afternoon meeting was held yesterday and was largely attended. In future all the gospel temperance meetings will be held in the afternoon.

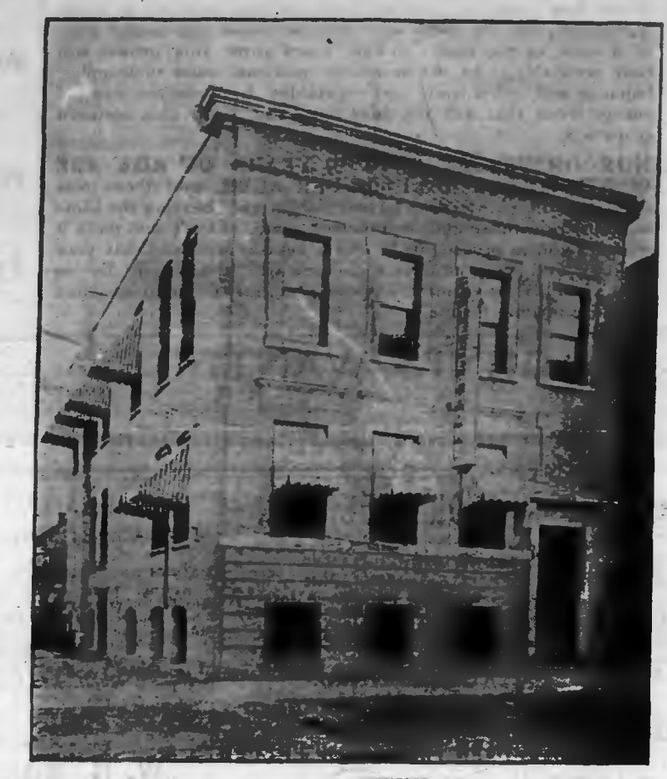
When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, suppresses inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter, *free*. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about women's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a *free* copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 50 stamps.



Peterborough Exchange of the Bell Telephone Company

LAST YEAR WAS A RECORD ONE FOR THE TRENT VALLEY CANAL

Lockmasters Along the Route Have Made Their Reports—1908 Was the Busiest in History of the Canal—There were 872 Lockages at the Lift Lock and 11,050 Passengers Went Over

The returns from the various lockmasters on the Trent Valley Canal have been received by the superintendent, Mr. J. H. McClellan. These returns show the number of lockages and amount of traffic generally that passed through the different locks during the past season. The comparisons show that 1908 was the busiest year in the history of the Trent Canal.

The report was so long that only those of local interest are published here.

YOUNG'S POINT LOCK.

P. P. Young, Lockmaster.

Young's Point still maintains the proud position of being the busiest lock on the entire Trent Canal. Each year the number of lockages show an increase over the preceding year and during the past season the number of lockages at this point totalled 2,130. This, of course, is due to the large tourist traffic to Stony Lake. Notwithstanding the fact that local option prevails in a number of municipalities that border on Stony Lake, it is significant that Lockmaster Young reports that eight tons of whiskey passed through his lock on the way to Stony Lake during the season.

THE RETURNS.

Total number of steamboats	1399
Total number of small boats	316
Total number of scows	326
Total number of rafts	126
Total lockages	2130
Total number of passengers	36,210
Total No. ft. of lumber	6,250,000
Total No. cords wood	3654
Total No. live stock	310
Shingles	5,000,000
Stone, cords	900
Merchandise, tons	1079
Wheat, bags	300
Cement, barrels	2700
Brick	7320
Potatoes, bags	320
Cedar posts on scows	600
Cheese, tons	48
Hay, tons	29
Iron, tons	11
Earthenware, tons	10
Furniture, tons	16
Coal, tons	46
Oil, tons	8
Whiskey, tons	8
Total tonnage freight	1236
Agricultural implements and machinery, tons	54

LAKEFIELD LOCK.

John R. McWilliams, Lockmaster.

This lock is known as Lock No. 1 of the Peterborough-Lakefield section. In former years the traffic through this lock was almost exclusively freight, but during the past season the Otonabee Navigation Company ran a passenger boat from Peterborough to Stony Lake each day, which has brought up the total number of lockages from 580 in 1907 to 856 during the past year.

The returns from this lock are as follows:—

Total No. of steamboats	570
Total No. of scows	287
Total No. of rafts	21
Total No. of lockages	856
Total No. cords wood	4000
Total No. live stock	154
Stone, cords	630
Tile	100000

PETERBORO' HYDRAULIC LOCK

H. W. Gillespie, Lockmaster.

The traffic at the Peterboro' Hydraulic lift lock during the past year shows a steady improvement. Each year since the opening of the lift lock in 1904, the number of lockages has steadily increased. During the past year the total number of lockages reached 872.

A record of the lockages of the Peterborough Hydraulic Lift Lock is as follows:

Total No. of steamboats	423
Total No. small boats	181
Total No. of scows	251
Total No. of rafts	8
Total No. of passengers	11050
Total lockages	872
Total No. ft. of lumber	1185000
Total No. cords wood	3448
Total live stock, hogs	160
Tonnage of boats	32426
Merchandise, tons	255
Cements, tons	11
Iron, tons	7
Stones, cords	775
Shingles	1850000
Brick	80000
Potatoes, bags	175
Timber, ft.	1175000
Coal, tons	40
Furniture, tons	7
Posts	700
Lath	15,000
Lime, bushels	30
Oils, tons	8

PETERBOROUGH LOCK.

Wm. Collins, Lockmaster.

The traffic through the Peterborough Lock does not at the present time indicate the volume of traffic down the Otonabee River to Rice Lake, as it did some years ago, before the Peterborough Street Railway Company extended its line to a point on the Otonabee river just below the locks. As is well known a handsome new dock has been constructed on the Otonabee river at the foot of the Peterborough Street Railway, and a great deal of traffic commences at this point. Notwithstanding this fact, however, the total lockages through the Peterborough lock during the past year amounted to 1,158. Of this amount it is worth noting that 56 of these lockages consisted of small boats, chiefly gasoline launches, but it should also be noted that there was one passenger boat less plying on the Otonabee river than there was in the preceding years. The Water Lily, which formerly travelled on the Otonabee river, last year had its route from the Wolfe street wharf to Stony Lake points.

Total No. of steamboats	552
Total No. small boats	456
Total No. of scows	456
Total No. of passengers	28894
Total No. ft. lumber	3590000
Total No. cords wood	350
Total No. live stock	2002
Total No. tons freight	842

BALSAM LAKE DIVISION.

The above list of locks does not by any means constitute the entire number of locks on the Trent Canal. For instance, on the Lake Simcoe-Balsam Lake division there are five locks between Lake Simcoe and the Kirkfield Hydraulic lift lock, of which no mention is made above. This is owing to the fact that a record of the lockages at Kirkfield indicates pretty much the volume of traffic through the other five locks on that division.

LAKEFIELD DIVISION.

There are five locks on this division that are not mentioned in the above list. The records of the Lakefield Lift Lock indicate the amount of traffic in the remaining five locks on this division.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventics—25 cents. Ask your druggist. He knows! Sold by all dealers.

300,000 Lives Lost in Monday's Earthquake

People wish to know the actual number of deaths from Monday's earthquake. Prof. Ricci, director of the Etna Observatory, says they will exceed 200,000. If any reliance can be placed in cabled reports, the figure should be nearer 300,000. Thus, today, the U.S. ambassador to Italy, wired that the only figures that can be given are reached by calculating the total populations before the disaster, and subtracting therefrom the numbers that are supposed to have survived. The result is, of course, approximate. On this basis is made the estimate that about 25,000 people have left Messina and the Messina commune. As the total population of the city and commune was about 155,000, and as there are about 15,000 people still in the district, the dead probably amount to 115,000. This is in Messina alone. The dead at Reggio number 45,000, at Bagnara 16,000, and in outlying Calabrian town 30,000. Besides these there are probably 50,000 dead in other Calabrian and Sicilian towns. A conservative estimate of the lives lost would be 250,000.

GUNS TO BOMBARD RUINS.

Rome, Jan. 2.—It has been reported here that the services of a number of Italian warships will be made use of to bombard the ruins of Messina order to bury under debris the bodies of the dead still exposed, but this report lacks confirmation.

Fenelon Falls Council Failed to Qualify--Have Only Two Councillors

Fenelon Falls, Jan. 2.—Dr. Gould is Fenelon Falls reeve for 1909 Dr. R. M. Mason, who has given such splendid service in this position for two years past and who last year was elected by acclamation, decided to withdraw from the contest, and Dr. Sims, who was another nominee, also withdrew, leaving Dr. Gould elected by acclamation.

In the matter of the council, a rather unusual situation has occurred. Eleven men were nominated for seats on the Council Board, but only two of these took the necessary declaration in the time limit. Messrs. S. Corbett and A. Northey took the necessary legal qualifications and so will be members of the 1909 council. It will be necessary for another nomination to be held to select the other councillors required.

Dr. Mason, J. L. Arnold and M. H. McCallum were elected school trustees without a contest.

Week of Prayer In All Churches

All the Protestant churches are combining this year in the week of prayer, and every night until and including Friday a special service will be held in one of the larger churches. The program for the week is as follows;—

Monday, Jan. 4—Charlotte street Methodist, "The Supremacy of Christ in Private Life."

Tuesday, Jan. 5—St. Andrew's Presbyterian and Mark St. Methodist, "The Supremacy of Christ in Business Life."

Wednesday, Jan. 6—George street Methodist, "The Supremacy of Christ in Home Life."

Thursday, Jan. 7—Murray street Baptist and Knox Presbyterian, "The Supremacy of Christ in Social Life."

Friday, Jan. 8—St. Paul's Presbyterian, "The Supremacy of Christ—it's Resale."

No minister will officiate in his own church.

Ald. Harry Morgan and the Coal By-Law

What is considered by many ratepayers as one of the most important pieces of municipal legislation passed during 1908 was Ald. Harry Morgan's amended to bylaw No. 1167, which was passed through the council on August 3rd last. This amendment provides that any purchaser of coal or any police may order the coal to be weighed on the market scales and a ticket giving the exact weight be furnished when requested by the purchaser or the police the market clerk shall weigh coal free of all charges. Ald. Morgan considered this would be a good thing for the citizens and many ratepayers appreciate his efforts in having the bylaw so amended. While the coal merchants have no objections to weighing their coal on the market scales if so requested, it would be a great hardship to compel them to use those scales exclusively as it would greatly increase their expense in delivery. As the by-law now stands all parties are satisfied, and Ald. Morgan will receive the benefit at the polls today.

Bill Crowley Visiting at His Home Here

Mr. Wm. Crowley, trainer for the Edmonton hockey team, arrived in the city Saturday night and will be here a couple of days. He is looking and looking fine and thinks the West is the only place for a young man. Bill was given a most cordial reception by his many friends here who were very glad to see him. He had not much to say in reference to the Montreal games that has not already been published, but he was very sorry that the boys had such hard luck.

Tablet was Presented to the Y.M.C.A.

New Year's was reception day at the Y.M.C.A. and all day and evening the building was thronged with visitors. Boys and young men had full use of the gymnasium, whether members of the association or not. During the day dainty refreshments were served by the members of the Ladies' Auxiliary. The most important feature of the reception was the presentation to the association of a handsome bronze tablet, the gift of Mr. J. W. Bennett. The tablet bears the following inscription;

In memory of Charlotte Jane Nicholls, through whose munificence this building was erected in 1896.

The tablet has been placed on the south wall of the lobby and is attracting much attention. Mr. Bennett's kindness is deeply appreciated.

Edmonton Team Had Hard Luck

The manager of the western hockey stars which endeavored to lift the Stanley Cup from the Wanderers and carry it off in triumph to their home in Edmonton, spent New Year's day in the city with relatives and friends. Whiteroft naturally was very much disappointed at the failure of his bunch to trim Montreal. He blames it all on fate and according to all reports from Montreal the luck was against the westerners. They played very fast hockey and had the Wanderers up in the air at times but there was something lacking which prevented Whitty's stars scoring.

Swartz's Second Hand Store Was Burned Out

What looked like the makings of a bad fire was discovered about half past ten on Saturday night in Swartz's second-hand store on Simcoe street at the rear of the Kingan Hardware Co., Mr. Swartz had gone home about half an hour before and everything appeared to be all right but the stove became overheated and soon set fire to the premises. When it was discovered by Mr. David Forsythe there was a big blaze. He phoned to the fire hall to the department were at the scene before anyone had time to turn around a couple of windows were broke in and the chemicals brought into use. It was not long before the flames were all extinguished. The damage to the stock will amount to between $300 and $400 while it will take in the neighborhood of $150 to put the building into good repair again. The property belongs to the Toronto Savings and Loan Co.

Obituary

EDWIN PAKENHAM.

After a brief illness Edwin Pakenham, one of the old residents of the city, passed away at his home, 36 Manning avenue on Sunday afternoon. He was 70 years of age, and the father of a large family. The deceased had resided here for many years and was well and widely known. He was a millwright and had been employed at the Quaker Oats Mills for years. He was a member of the Church of England. He leaves five sons, Prof. Pakenham of Toronto, Walter of Toronto, Frank, James and Gilbert of the city, and two daughters live at home. Misses Cora and Maud. The funeral will be held on Tuesday afternoon and interment will take place at Little Lake cemetery.

RUTH FOX.

Mrs. Ruth Fox, relict of the late Chas. Fox, 222 Carlisle avenue, died on Sunday about noon, at the home of her daughter, Mrs. J. Rutherford. She was 78 years of age and has been a resident of Peterborough for many years where she had a large circle of friends. The funeral will be held on Tuesday afternoon at two o'clock and interment will take place in Little Lake cemetery.

The Interesting Route

To Manitoba, Saskatchewan and Alberta, is via Chicago and St. Paul, Minneapolis or Duluth. Through the brilliantly lighted St. Clair tunnel by electricity, without smoke, gas, or dust. Secure pamphlet, "New Route to Winnipeg and West" from nearest Grand Trunk agent.

His Nerves Weak

POOR MEMORY, LACKED VIGOR, LOST EMPLOYMENT.

Another Case Proving You quickly get Bracing Health from Ferrozone.

There's a real reason why Ferrozone cures.

It's a true nerve tonic—not a stimulant—it feeds the nerves with nourishment—gives them vim, actual activity.

No other tonic in the world like Ferrozone, nothing else is so quick and lasting in its effects on a run-down, nervous system. "I used enough medicine to appreciate an honest one," writes J. B. Beattie, from his home in Newcastle. "From babyhood I was not overly strong and was always nervous. I smoked a good deal, but cast the whole my habits were good. My trouble first began with a shortening of the hours of sleep. I would awaken too early, my appetite was poor, and to whip it up I used highly spiced and sweet foods. First thing I knew I had palpitation on doing a little extra work, and then an awful tiredness came upon me, and a strange feeling of dread—almost of fear — made me think I was losing grip of myself. My power of memory weakened and I lost my position. Then I read about Ferrozone. Say, it's awfully good to get a medicine that helps you right off. I don't mind telling you I was badly scared, and every dose was almost like sunshine. At once I began to feel better, and permanently better I really was, for less than a dozen boxes made me a well man. Now I can do my work with any man and I am grateful to Ferrozone."

Ferrozone corrects all enfeebled conditions of the system, builds up and gives the body great resistive power against disease. To use Ferrozone course lasting robust health. 50c. per box or six boxes for $2.50, at all dealers. Try Ferrozone, do it to-day.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

North Monaghan Man Elected as Mayor of Alameda

From the Alameda, Sask., Despatch, it is learned that Mr J J Brealey, a former resident of North Monaghan whose name is kept in memory in the township by "Brealey's School House," at the recent municipal elections in Alameda was elected Mayor by a majority of 9. The report of the voting indicates that Mr. Brealey has somewhat departed from the strenuous and lively methods which marked the assertion of his citizenship in this vicinity some years ago. It states that Mr. Brealey sat quietly in his head quarters during the polling, but that at the close of the poll "Jim" received congratulations and passed round the cigars."

Elaborate Plans Prepared for a Revolution

New York, Dec. 29.—It was learned today that elaborate plans had been prepared for a revolution in Venezuela, when the peaceful coup d'etat by General Juan Vincente Gomez, acting-President of the Republic, in assuming permanent power, thus disposing of Castro, saved the country from the throes of another insurrection. The revolution was secretly planned in this city, and was about to be launched.

Not since the establishment in New York, in 1895, of the Cuban revolutionary junta for the management of the campaign against Spain has there been such careful and elaborate preparations in this country for an armed uprising as that which General Nicolas Rolando, a tried Venezuelan fighter, has been making, and which is, for at least the present, put aside "pro bono publico."

The followers of General Rolando organized a junta in August last, which authorized the issuance of gold certificates to the amount of $1,000,000. These certificates, of a par value of $1,000 each, were signed by General Rolando, as president of the junta, and Nicanor Bolet, as treasurer, and were made payable at the Windsor Trust Company one year after President Castro's resignation "or dismissal" from office. The junta had also fiscal agents and counsel, both well known in their professional spheres. They were, respectively, George W. Young & Co., and John R. Dos Passos.

Through the advice of the latter every requirement of international neutrality laws and international comity was complied with, even to the four shipments of arms and ammunition that have already gone forward to points in the West Indies.

The junta was in negotiation to buy the fast steam yacht Seneca, belonging to the estate of Theodore R. Hostetter.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Sheop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Sheop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Sheop's Restorative goes directly to the weak and failing Nerves. Each organ has its own controlling Nerve. When these nerves fail, the depending organs must of necessity faker. This plain, yet vital truth, clearly tells why Dr. Sheop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

To The Electors of The City of Peterboro

LADIES AND GENTLEMEN,—

Having been nominated for the position of Alderman, at the request of a large number of the ratepayers, I have consented to become a candidate.

I am opposed to personal solicitation, believing that the office should seek the man.

Through the medium of the public press I respectfully solicit your vote and influence to secure my election, and, if elected, I will endeavor to discharge the duties pertaining to this office to the best of my ability.

Respectfully yours,

Alex. Gibson

To The Electors

Ladies and Gentlemen:—Having been nominated for Alderman, and having been urged by a large number of all classes of citizens to remain in the field, I have decided to do so. If you think I will represent you well, I will be pleased to secure your vote and influence to insure my election. I have always been very much adverse to personal canvassing, but I assure you I will appreciate your support all the more because it is given unsolicited, and I promise if elected to do my best without fear or favor.

Yours respectfully,

Andrew Brown

Board of Education

LADIES AND GENTLEMEN,—

In presenting myself as a candidate for election to the Board of Education, I ask your support and influence, and if elected will endeavor to faithfully serve the interests of the Board.

Yours truly,

Dr. M. McClelland

For Board of Education

Vote for Billy Robinson, the People's Candidate.

I solicit the support of the ratepayers, and especially the working people. I have a clean record during the past two years, and desire to serve another term.

Yours respectfully,

W. S. Robinson

Your Vote and Influence

are respectfully solicited for the election of

Dr. Ernest V. Frederick

for the

Board of Education

Election Jan. 4, 1909.

Re-Elect M. A. Morrison

LADIES AND GENTLEMEN,—

Your Vote and Influence for the re-election of

M. A. Morrison

for Board of Education for 1909

Mr. F. J. MacDonell, of Toronto, has arrived in Peterborough to assume the duties as representative of the International Correspondence Schools.

ADVERTISE IN THE TIMES.

Card from Mr. Duffus

To the Electors of the City of Peterborough

LADIES AND GENTLEMEN,—

I have accepted nomination for Alderman at the request of numerous influential ratepayers of the city. If elected, I promise to give diligent attention to the duties of the office. Being a heavy taxpayer and having a good knowledge of city affairs, I feel that I should be of assistance in safeguarding the public interests; and I promise, if elected, to do all that careful judgment can do to promote the welfare of our progressive city.

Joseph J. Duffus

Re-Election of Ald. Gillespie

To the Electors of the City of Peterborough:

Ladies and Gentlemen,—At the request of many citizens largely interested in the welfare of Peterborough, I have decided to again accept nomination as Alderman. I trust that the confidence reposed in me last year has strengthened my candidature for a second term. If so my aim will continue to be the advancement of the progress of our growing city. While I will oppose without fear or favor all useless expenditure, I shall support all wise measures calculated to build up our natural resources, irrespective of wards or boundaries.

Respectfully yours.

George A. Gillespie

FOR ALDERMAN

To the Electors of the City of Peterborough:

LADIES AND GENTLEMEN,—

Having accepted nomination as Alderman for 1909, I most respectfully solicit your vote and influence. I have been honored in representing the city on the Aldermanic Board for the past four years. My efforts during that time have always been to serve the city's best interests. My record is before you, and on this I now ask your support. Wishing all a happy and prosperous New Year, I remain

Yours truly,

A. A. McINTYRE

For Alderman

To the Electors of the City of Peterborough:—

Your vote and support is requested for my re-election to the Council. My course during the last term was according to my honest convictions without fear or favor. I propose to follow the same course if re-elected.

Yours respectfully,

Harry Morgan

BOARD OF EDUCATION

To the Ratepayers of the City.

LADIES AND GENTLEMEN;

I am again a candidate for election as one of your representatives on the Board of Education of the city. By your kind favor I have been one of the members for the last thirteen years, and I trust that my services have been such as to merit a renewal of your confidence.

I shall be heartily glad if you will accord me your vote and influence.

Respectfully yours.

Robt. Fair

VOTE FOR

WILLIAM BULLER

The People's Candidate for Alderman

Your Vote and Influence

respectively solicited for the re-election of

J. J. TURNER, Jr. For ALDERMAN

FOR ALDERMAN

LADIES AND GENTLEMEN;

I respectfully solicit your votes and influence in favor of my candidature as one of your Civic Council for 1909, and to ensure my re-election.

Thanking you in advance.

Respectfully yours,

W. H. Bradburn

CARD FROM ALD. H. PHELAN

To the Electors of the City of Peterborough;—

LADIES AND GENTLEMEN;

Having been again honored with nomination for alderman, I have accepted the same at the solicitation of a large number of influential ratepayers.

My record in the Council in the past is well known to all, and if again honored with your confidence I will endeavor to render efficient service. Such good business judgment as may have qualified me for being of service to the city will be again used to the best of my ability.

Harry Phelan

VOTE FOR

W. H. G. ARMSTRONG

AS ALDERMAN

for the year 1909, and honest, efficient and economical city government. No interests but those of the city will receive his consideration.

Election on January 4th.

FOR ALDERMAN

A. R. MOORE

Respectfully solicits the support of the ratepayers in favor of his candidature.

He has lived among you all his life; knows the requirements of the city and promises if elected to faithfully serve you in every way.

Your support solicited.

Archie B. Moore

YOUR VOTE AND INFLUENCE

is respectfully solicited for the election of

Joseph R. Metheral

AS ALDERMAN

Election January 4th, 1909

TO THE ELECTORS

LADIES AND GENTLEMEN;

At the urgent request of a large number of ratepayers I have consented to become a candidate for the council for 1909. If elected I will do my utmost to further the best interests of the city. It is time that our council made a decided effort to reduce expenses, and thus keep down the taxes, which have of late years grown so burdensome. I believe that the business of the council can be more economically managed, and I will, if elected, do my best in this direction.

Soliciting your votes and influence, I am,

Yours sincerely.

James Bogue

FOR ALDERMAN

To the Electors of the City of Peterborough;

LADIES AND GENTLEMEN,—

I again solicit your votes to elect me to the Council. I have served in the Council three years, and believe that the experience gained will enable me to give better service another year, and if elected I will do my best in the interest of every part of the city.

I have the honor to be your obedient servant,

Geo. E. Elliott

ADVERTISE IN THE TIMES.

TO THE RATEPAYERS of the City of Peterborough

LADIES AND GENTLEMEN,—

Having been urged by a large number of ratepayers to again run for the council, I have consented to do so, and I respectfully solicit your vote and influence for my re-election.

If elected I will do everything in my power to forward the best interests of the city.

Thanking you one and all for past favors, I remain,

Yours respectfully,

W. G. MORROW

TO THE ELECTORS

LADIES AND GENTLEMEN,—

Having accepted the nomination for re-election as Alderman of the city for the year 1909, I respectfully solicit your votes and influence.

If again favored with your confidence and elected, I shall continue to look after your interests, do my best to serve you faithfully and discharge the duties pertaining to the position in a manner that I hope will generally merit the approval of the majority of the electors.

Thanking you for your generous support in the past, and wishing you all a happy and prosperous New Year, I am

Yours truly,

GEO. H. DUNCAN.

Official Information

Officers of O. H. A. clubs, especially managers and secretaries, should take cognizance of the following official information :—

Certificates are issued at the discretion of the executive, and are revocable without notice. All players must have certificates.

O. H. A. clubs are warned not to play with or against professionals, or teams suspended by the association.

Players eligible to play in the junior O.H.A. this season must be under 20 years of age on Jan. 1, 1909.

Any club convicted of having in its membership professionals of any kind shall forfeit its membership in the association.

Any clubs using players not qualified under the residence rule will be summarily suspended. The date this year is Aug. 1.

No player can play in an exhibition match with any club but his own without first receiving a permit from the O. H. A. executive.

No player is eligible to play in the intermediate series who has played in more than one senior championship match this season, and no player is eligible to play in the junior series who has played in a senior match or in more than one intermediate match this season.

Club secretaries should see that the players have their certificates on hand early to show to the referee so that there will be no delay in starting the game.

Home clubs should see that a dark distinguishing line is drawn on the ice between the goal posts and small white flags provided for goal umpires.

No player can play in an O. H. A. schedule game who is, or has been in the current season, a member of, or has played with, in the same association year, any other club in a recognized hockey association—city and town leagues excepted—without special permission of the executive.

Each club shall pay half the expenses of the referee. It shall be $5 for all distances up to fifty miles, and he shall be allowed at the rate of ten cents per mile one way for all distances above fifty miles. When a referee is away from home over night, and the mileage is below eighty miles he shall be allowed mileage for eighty miles at ten cents per mile.

The expenses of the travelling club are at the rate of ten cents per mile for one way for eight men, which expenditure must be guaranteed and paid by the home club.

When the home-and-home matches are played in the same city or town, the home club is to take the net proceeds of the game.

Any club intending to default a match must send to the secretary of the opposing club, and also to the secretary of the association, at least three days' clear notice, exclusive of the day on which the match is to be played. Unless the executive shall otherwise order, any club failing to send such notice shall be subject to a penalty of $35, together with all legitimate expenses incurred by the competing club in connection with such match. The penalty is expulsion.

Secretary W. A. Hewitt of the O.H.A. has issued his annual instructions to referees, to govern their conduct of championship matches, as follows :—

All players must have certificates to be presented to the referee before play commences, and all players must answer to their names as called by the referee.

The captains of competing teams shall provide the referee with a list of players who participate in the match, with their respective positions.

Captains will toss for choice of goals. The visiting team will make the call.

The duration of matches shall be one hour, exclusive of all stoppages. All matches must be played to a finish, except in a two-club group, where home-and-home matches are being played.

EXTRA TIME WHEN TIE.

In the case of a tie at the end of one hour's play—except in a two-club group—ends shall be changed and the match continue in ten-minute periods, five minutes each way, until one side shall have scored a majority of goals.

Begin play by dropping the puck on the ice between the sticks of the two players who are to face it. The blade of the sticks shall be on the ice. Penalize any player who delays the game by violating this rule.

Insist on matches beginning promptly at the advertised time. The team or teams failing to comply with this order shall be fined $10 per team.

The referee has control of all officials and his decision shall be final. He will appoint the goal umpires, and the penalty timekeeper shall be appointed by the captain of each team.

In case of an accident to any player compelling him to leave the ice, the opposing side shall immediately drop a man to equalize the teams. There shall be no delays from any cause whatever. The intermission of half-time will be ten minutes, and this rule must be strictly enforced.

Hockey sticks shall not be more than three inches wide at any part, and not more than 13 inches long at the blade. They shall consist entirely of wood, with tape binding permissible.

Posts of the goal nets shall be four feet in height, six feet apart, and at least five feet from the end of the ice. It is the duty of the referee before the match begins to measure the goals, and see that they are the correct size.

GOALKEEPER MUST STAND.

The goalkeeper must not during play lie, sit or kneel upon the ice; he may stop the puck with his hands, but shall not throw or hold it. He may wear pads, but must not wear a garment such as would give him undue assistance in keeping goal. The referee must rule off the ice, for any time in his discretion, a player who, in the opinion of the referee, has offended against this rule.

Referees will not call an off-side when the puck comes off the goalkeepers stick inside a space of three feet out from goal, extending to both sides of the rink.

The referee must keep a record of all players ruled off, the time of the penalty, and the cause. It is imperative that he shall report all rough play to the association. Players ruled off for roughness on the ice will be disciplined by the Executive Committee.

The referee is absolute master of the game, and should not allow any player except the captain of each team to question any decision he might make. Any complaint by players must be made through the captain of the team.

Post your report to the secretary immediately on the blanks provided for the purpose.

Another Case Proving You Quickly get Dazing Health from Ferrozone.

There's a real reason why Ferrozone cures.

It's a true nerve tonic—not a stimulant—it feeds the nerves with nourishment—gives them vital actual activity.

No other tonic in the world like Ferrozone, nothing else is so quick and lasting in its effects on a run-down, nervous system. "I used enough medicine to appreciate an honest one," writes J. B. Beattie, from his home in Newcastle. "From babyhood I was not overly strong and was always nervous. I smoked a good deal, but ate the whole my habits were good. My trouble first began with a shortening of the hours of sleep. I would awaken too early, my appetite was poor, and to whip it up I used highly spiced and sweet foods. First thing I knew I had palpitation on doing a little extra work, and then an awful tiredness came upon me, and a strange feeling of dread—almost of fear — made me think I was losing grip of myself. My power of memory weakened and I lost my position. Then I read about Ferrozone. Say, it's awfully good to get a medicine that helps you right off. I don't mind telling you I was badly scared, and every dose was almost like sunshine. At once I began to feel better, and permanently better I really was, for less than a dozen boxes made me a well man. Now I can do my work with any man and I am grateful to Ferrozone."

Ferrozone corrects all enfeebled conditions of the system, builds up and gives the body great resistive power against disease. To use Ferrozone assures lasting robust health. 50c. per box or six boxes for $2.50, at all dealers. Try Ferrozone, do it to-day.

Peterborough Fuel and Cartage Co.

A Solid Business Concern of which Ald. Buller is the Capable Manager

One of the largest dealers in fuel in Peterborough, is the Peterborough Fuel & Cartage Company, whose yards and sheds are located on Aylmer street, and who have offices at No. 162 Charlotte street. This company not only handle the best grades of hard and soft coal, and hard and soft wood, but have also unsurpassed facilities for general cartage business and for moving or storing household goods, pianos or merchandise. They employ expert packers, and guarantee careful handling of all goods entrusted to their care. This business was established in 1904, and the same year was incorporated with a capital stock of $40,000

The manager, Mr. W. Buller, is a man of shrewd, sound business and good financial judgment, combined with a wide practical business experience. These qualities have resulted in the popularity and substantial advancement that has been won. The annual output of this company amounts to 7000 tons of coal and 1500 cords of wood. This trade is drawn principally from the city and immediate vicinity. Mr. Buller is a native of Peterborough, is an alderman, and a member of the Charity Board.

Mr. Adam Hall

One of the Most Potential Factors in the Development of Peterborough

In the business development of Peterborough, many interests and progressive concerns have entered into its development. In this regard we call the attention of our readers to the establishment of Adam Hall, hardware merchant, at 407 George street. This house was established forty-two years ago by the late Thos. Lamrin, who ably conducted it for twelve years when the present proprietor took possession. The business occupies a handsome three-story building, conveniently fitted with all modern appliances for handling the large trade controlled. The stock carried embraces general hardware, house furnishings and stoves. The house manufactures a special line of steel ranges, hotel ranges and heaters for lumbermen and contractors' camps, their patronage covering Eastern Ontario. In addition to these two branches of the business is a third that is devoted to the installation of steam and hot water-heating systems, the installation of furnaces and the most modern systems of plumbing. In these departments about thirty mechanics are employed. The head of this progressive house is a native of Peterborough, and one of the most prominent figures in the mercantile, industrial and public life of the city. He has served for five years as alderman; was president of the Canadian Cordage and Manufacturing Company for six years, was vice-president of the Otonabee Power Company, and is a present director of the Big Bend Lumber Company located at Arrowhead, British Columbia. He is a gentleman of unquestioned integrity, sound business and financial judgment, and one of the most potential factors in the development of Peterborough.

"ALL DEALERS"

Department of Railways and Canals, Canada

DOMINION CANALS

Notice to Dealers in Cement

Notice to Dealers in Cement.

Sealed Tenders, endorsed "Tender for Cement," will be received by the undersigned, up to 16 o'clock on Friday, the 30th January, 1909, for the supply of some 100,000 barrels of cement, more or less, required for the construction and maintenance of the various canals of the Dominion, and to be delivered in such quantities, at such places and at such times as may be directed.

Dealers in cement may tender for the total quantity required, or for such portions thereof as may suit their convenience.

Specifications, forms of tender and full information can be obtained at the Department of Railways and Canals, Ottawa, on and after this date.

The Department does not bind itself to accept the lowest or any tender.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals.
Ottawa, 30th December, 1908.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

WELLAND CANAL

Tenders for Supplies for the Year 1909

SEALED TENDERS for Supplies addressed to the Superintending Engineer, Welland Canal, St. Catharines, Ont., will be received until 10 o'clock on Saturday, the 16th of January, 1909, for the supply and delivery of various articles of Timber, Hardware, Castings, Oils, etc., for use on the Welland Canal and its branches for the year 1909.

Specifications, forms of tender and other information may be obtained at the Superintending Engineer's Office, St. Catharines, on and after Thursday, the 31st December, 1908.

The lowest or any tender not necessarily accepted.

L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, December 22, 1908.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform with the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

THE CANADIAN MAGAZINE

A number of distinguished names appear among the contributors to the January Number of The Canadian Magazine. Prof. Goldwin Smith writes a timely and most interesting consideration of "The Crisis in India", and Sir Charles Tupper writes on "An Incident of Confederation." These two contributions alone would make the number one of more than ordinary interest, but there are as well important features, including "The Head-hunters of Formosa (illustrated), by Thurlow Fraser; "Five Famous Empty Chairs" (illustrated) by Frank Yeigh; "The Lovely Ladye of Holyrood" (illustrated), by Jean Blewett; "Plays of the Season" (illustrated) by John E. Webster; "The Modern Olympic," by E. J. P. Good; "Bulgaria: A Study in History" (illustrated), by J. Castell Hopkins, with short stories by Lilian Leveridge, Headon Hill, Carl Ahrens and poems by Isabel Ecclestone Mackay, Wilfred Sheard, George Herbert Clarke, E. M. Yeoman, Jean Blewett, James B. Macrae and Louise C. Glasgow.

a picture he longed to forget—the terrible picture of his downfall.

It was a spring day, and the Dancepaws, to make ready for battle, were dancing the great sun dance. He was only chief Moon Dog then, haughty as Sky, brave as the next, given to warfare and the shedding of blood. In the great tent it was he who led.

He was naked save for a loin cloth. Owls' claws were braided in his hair. Eagle feathers trailed from his scalp-lock. The skin of his body was hidden beneath devices.

He signified a wish to suffer wounding, to have willow wands run through the flesh of his back. Standing Buffalo was dancing beside him, and it was that warrior's knife which leaped from his beaded sheath to do the cutting.

And then the wounds weakened the chief Moon Dog. The wands tore his flesh past all power to endure, and he knew nothing, but when the squaws brought him to life again they told him that, like a squaw, he had pleaded for mercy and wept!

For this he was branded, spat upon, cast out and cursed. For this he had gone hungry, scoured kettles and herded with the dogs.

David Bend had come, telling him of one who was bruised, reviled and nailed to a tree. That one was the God of the white men. Broken in spirit, Squaw Charley had accepted him.

Yet—what had the new God done for him? Was his work lighter? Not! Was the food not the coutoo's still, fouled by the touch and the tongues of others and by the dirt of the pen? Yea. If the new God was good, why had he not saved the evangelist?

The soul of Squaw Charley tottered. Hark!

Overhead a high sailing crane bugled. But to the outcast the lonely night cry seemed supernatural, a hail from one of the departed.

He uncovered his eyes and looked up. Above him stretched the pale, shining ribbon of the Milky Way.

Again the crane sounded its resonant, guttural cry. He shook himself as if to free his body from a chain.

Once more he took out flint and steel and lit the bit of grapevine. Then he sank to the prairie, where he crossed his legs like a brave. Now with deep breath he drew upon the stem. His nostrils filled, he tipped back his head and from them, upward to the path, sent wreath upon wreath of adoring smoke.

CHAPTER XXVII.

One morning in early July Matthews came swaggering into the post barber shop, his air that of a man who is mightily pleased with himself. "Bill," said he as he flung off blouse and hat, "wish you'd mow down this stubble of mine."

The barber set about strapping a razor. "Don't want your mane trimmed?" he inquired. "Strikes me—eh—it's pretty long."

The interpreter loosened the collar of his shirt and took a chair. "Never you mind about my mane," he answered. "It's just as long 's I want it."

Matthews gave a dismissing wave of the hand. "I savvy English and most Injun," he said; "none of them fancy languages, though. I been to school only a week in my half life. That was down in Omyha, and one week was plenty." At the remembrance he shook with silent laughter. "That week, as I say, was 'nough for me. The teacher—she was a lady, mind y'—tries to tell me that it's the same blamed sun we see comin' up every mornin'. 'Look a-here, now,' I says: 'Don't we git a new moon once in a while? Then, what's the matter with havin' a change of sun?' Well, that plumb stumped her. She shut up."

The barber was now ready for operations, so Matthews adjusted his shoulders, closed his pink lidded eyes and followed the suit of his nonplused teacher.

Bill felt there was something in the wind and longed to question Matthews, yet dared not. The interpreter, formerly so feared and even disliked, by the enlisted men, was now regarded in B troop as a generally misunderstood and maligned individual—this in consequence of the Lancaster inquiry; hence he was playing the role of injured innocence and seriously taking himself for a popular hero. He was more cocksure and conceited than ever before and more prone to brag and bully. Scraping diligently away the barber shuddered at the thought of even letting the razor slip.

Kipple was less respectful. He entered when Matthews was rising, all redolent of bay rum, and surveyed the latter in mock amaze. "My, ha, my!" he cried. "Hain't we bloomin' fine!"

Matthews wriggled those faint lines upon his forehead that served for eyebrows. "You go soak your head," he retorted.

"And no gun hon 'b 'ip," went on the sergeant. "But w'y, ho, w'y does 'e wear red shirts?"

The interpreter spraddled out his legs. "Folks git rich mindin' their own business," he said meaningly.

Kipple could not forego a last gibe. "Person 'd halmost think yoo's goin' sparkin'," he declared.

Matthews gave a start, and his keen eyes shot a searching glance at the sergeant's smiling countenance. What he read there reassured him. The other was bantering without a notion that he approached the truth. The interpreter shrugged and stalked out. Within the hour he was on his way to the Lancasters.

He did not go to the shack, however. From the cottonwoods he spied Dallas at work in the corn, so he directed his steps thither. She did not see him. Her back was toward the river, and the sun was glinting on her swinging hoe. Beyond her, on a picket rope, was Simon, the bull. He was traveling in a restless circle and sending lonesome blasts across the deserted prairie. He alone saw the interpreter and paused in his rounds, head raised and eyes bulging inquiringly.

Dallas weeded on, unconscious of a visitor. The corn was shoulder high now and bearded. Its long leaves swayed and whispered, covering the sound of Matthews' approach. But when he was yet some rods off a flock of ground sparrows rose before him with startled twitters. At that she looked back. The next instant she had caught up the Sharps.

Matthews halted and lifted his hat, displaying hair pasted down to a silky smoothness. "I ain't got no gun," he said quietly. "I jus' come for to have a talk."

She made no answer.

The interpreter shifted from foot to foot and mopped his forehead. "I allus been sorry for what I done las' winter," he went on. "I was a blame fool to come scarin' you gals—ought to knowed better. But, you see, when I started nobody told me there was women folks over here."

Dallas took a deep breath.

"I wanted to tell you," continued Matthews. "And—and I wanted to say I feel sorry about you' losin' your pa. Now he's dead, I wouldn't take this here land if you come to me and says, 'Mick, it's yours.' That's jus' the way I feel—yes, ma'am. I savvy how to treat a lady. Miss Lancaster, gramatically speaking—leastwise."

"You talk nice," commented the girl.

His looks faltered from hers. He gave his hard laugh. "You're a little out of temper," he said soothingly. "That's natural, though. You had a lot of trouble."

"My trouble's all owing to you," she answered passionately, "and I'll thank you to go—right now."

He put out a hand in expostulation. "Jus' a minute," he begged. "You done me wrong, but I don't hold it agin you. Jus' believe I didn't hurt your pa. And I admire you and your sister, sure I do. By golly! You're blamed sandy!"

"You take big chances to come here."

"Now, Miss Lancaster!" His shin quit. He wagged his head dolefully. Then, whether from warmth or a desire to display the glories of his raiment, he took off his blouse.

As he talked in a half whine that was meant to be placating Simon suddenly became a more interested spectator. He began to revolve again, and at the very end of his rope, slipping around with tigerish gracefulness, or, the rope taut, he halted as near as possible to the two in the corn, stamped one forefoot angrily and shook his curly head. There, a bold affront, was that blot of glaring scarlet. It awoke in him a long slumbering lust for fight.

But the interpreter did not remark the bull. After repeated praise and condolence he had arrived at the main object of his visit.

"I got a proposition to make you," he was saying the while he cooled himself with his hat. "It's jus' this, and it puts a' end to the hull row—you and me will forgit what's past and done. Eh?" He paused impressively and threw out an arm toward the shack. Smoke was curling out of the chimney. A slender figure was flitting to and fro within the open door. "And if I come to see the little one maybe it'll be O. K.?" To make himself clearer he touched a hand to his mouth and wafted toward the house a smacking kiss.

Sudden fury seized Dallas. Her lips moved.

A few rods away was another as furious, one whose eyes were as red as

The bull was at his heels.

the interpreter's. Simon was pawing with alternate hoofs and tossing dirt and grass into the air. With each stroke he gave a sullen rumble.

"Now," proceeded Matthews, speaking from one side of his mouth, "you and me wouldn't jibe." He giggled with a feeble attempt at mirth. "But your sister, she's a nice little gal, and she'd like me. I'm"—

He got no further nor was Dallas given time to reply. A resonant blare rang through the lanes of corn. Then came the sound of trotting. They turned, to behold Simon advancing. He had jerked up the picket pin!

Matthews saw his peril. With a curse of alarm he dropped coat and hat and made for the coulee.

But to no use. The sight of that flaring red maddened the bull. His feet stretched to a gallop, his broad horns lowered until his muzzle touched the grass, his tail sprang out to the level of his curly back. With the picket rope hissing across his flanks and with no eye for his mistress he bore down upon the hapless Matthews.

"Shoot him! Shoot!"— screamed Matthews. The bull was at his heels. With quick thought he side stepped.

It gave him a brief respite; but, since Simon went on for a space and then wheeled, it also cut him off from the coulee. He tore toward the shack, now. After him, tether whipping among the stalks, charged the bull. Again the interpreter side stepped, just in time and with the dexterity of a matadore. But Simon was more alert and came about like a cow pony, emitting terrible bellows. Matthews fled toward Dallas. His face was a sickly green. His hair was loosened and waved backward in the sun.

"Shoot!" cried Dallas as we went by.

Matthews was winded, and when the bull's hot breath fanned his back for the third time he resorted to strategy. Once more stepping aside and escaping the sharp horns by less than a foot, he followed, and, in desperation, seized Simon by the tail.

And now the bull's anger was suddenly changed to fear. His desire to horn that scarlet thing became a desire to get rid of it. With a bawl of terror he darted this way and that, trying to shake himself free and swinging Matthews clear of the ground. This method failed. At once he adopted new tactics. Bellowing, he raced away through the corn, dragging the interpreter astride of the stalks, plowing up the earth with him, rolling him feet first or sidelong down the rows; but, like grim death and with ransome oaths, Matthews hung on.

Out of the corn to the coulee road they went—when Simon saw the grove at the landing. Among those trees many a pestering buffalo fly had been outwitted; there, where grapevines tangled, many a mosquito had been rubbed away. Quick as a flash Simon made for the cut, with Matthews coming breathlessly after.

The interpreter thanked his stars for the bull's maneuver. The grove would give him shelter. He could dodge behind a friendly trunk or skim one to safety. He—

Simon had stopped to indulge in more whiplash waltzing, and the arm weary Matthews could scarcely keep his hold. "Ma-a-aw, ma-a-aw!" roared the bull. Then, discouraged, he shot forward again.

But now fright consumed him, and he lost thought of scratching free of his tormentor. His red eyes were popping from his curly face. His mouth was wide. His tongue lolled. With great jumps he sped straight through the grove.

It was all too swift for calculation. Matthews was conscious only of a great wind, of an invisible power that bound him to that bull's tail, of a dull roar in the ears, a blur in the eyes—

Simon leaped the hedge of fruit laden grapevines, poised for a second on the brink of the river's caving bank—his feet together, his neck stretched. Then the red of him disappeared, and after it the mere vivid tuft at the end of his tail.

CHAPTER XXVIII.

It was old Michael who fished the interpreter from his unwelcome bath. Choking with rage and spewing muddy water, Matthews was hauled into the stern of a pirogue. There, while the pilot rowed slowly to the Brannan

TEMPORARY SECRETARY—R. C. BIRKETT, ... Dame Avenue.
SOLIITORS—Mulock, Loftus, Armstrong & Lindsay, W...
BANKERS—Bank of Toronto, Winnipeg.
AUDITOR—W. R. RAMAGE, Winnipeg.
TEMPORARY OFFICE OF COMPANY—255 M... Avenue, Winnipeg.

This Company is formed with the object of buying property in Winnipeg and Suburbs, particula... Eastern part of the Town, where, owing to the location of the Grand Trunk Pacific Railway Terminal Shops a... great developments are bound to take place in the immediate future, more especially now that the huge Un... Yards are to be located in the close vicinity, where large numbers of men will be employed in the abattoi...

The first acquisition of the Company consists of a Block of land containing about 246 acres, situat... Springfield (Dugald) Road and facing the site on which the shops and yards of the Grand Trunk Pacific Ra... now in course of erection. This property is described as lots 52 to 57 inclusive of Roman Catholic Mission ... Plan 433, and has a frontage of half a mile on the Dugald, or Srpingfield Road, immediately in the centre o... of the Shops, Round House, etc., where also the Station, Freight Sheds and Elevators, and probably the Main... to the Yards will be located. The land has also a frontage of three-quarters of a mile on the Government ... ning South and between Sections 4 and 5, Range 11-4 E.

The land is thus the most favorably situated in the very heart of the developments which are now ta... around the huge establishment of the G. T. P. Shops and Yards. It is high and level being only a stone's th... the Main Line, and is eminently suitable for sub-division into building lots, for which there is bound to b... demand when the huge Shops and Yards are completed and in operation.

The contract for the erection of the new Locomotive and Car Shops was let to Thomas Kelly & Son... nipeg, on October 19th last, and this portion alone involves an expenditure of $500,000. The Locomotive S... be 823 by 174 feet, built of brick, steel and concrete, and will be equipped with the most modern plant for t... of all sorts of iron and steel work used in Railway operation.

The Shops will be the most extensive in Western Canada: the total expenditure being in the neig... of $5,000,000, of which the Government is contributing $1,500,000, the balance of $3,500,000 being paid by t... Railway Company as their share.

As the location is too far from the City to make it possible for the employees of these Shops to live in ... a bona fide demand for Building Lots, Market Gardens, Manufacturing Sites, etc., is bound to spring up, an... no property in the neighborhood better suited to meet such a demand than one which the Company is acqu...

The Shops and Yards are situated about 6 miles East of the centre of the city of Winnipeg, too far fo... to live in the City and to go to and from their work every day. As a consequence a new Suburb will quick... up, in the neighborhood of the Shops. The workmen will build houses for themselves and families near th... the Tradesman will come as required, and Banks, Schools and Churches will quickly follow. Such develop... not take long, and in two or three years a Town of 6,000 to 7,000 inhabitants will be where today is open pr...

An area of suitable land facing these Shops has been laid out in building lots intersected by 66 feet wi... and with a 16 foot lane at the rear of each lot. The land is high and dry and there are running wells on al... part of it.

What happened when 3 years ago the Canadian Pacific Railway Shops were built? Lots on the ... them were first sold at prices ranging from $60 to $150 each; now they are mostly built on. A Large Town is in... having its Banks, Stores, Schools, Fire Hall, etc. The price of vacant lots in the C. P. R. Town today ran... $300 each to $50 a foot frontage. The same will happen in East Winnipeg, and two or three years hence lo... worth equally as much as those in the C. P. R. Town today.

The price of the property is $150,000 payable:—

$50,000 in cash on completion of purchase.	$25,000 on June 1st, 1909.
50,000 in fully paid shares of the Company.	25,000 on Dec. 1st, 1908.

Interest on deferred payments of 6 per cent, with privilage of pre-payment at any time

There is a Torrens Title to the property, which will be delivered to the Company subject to th... mortgage.

Plans of the sub-division have already been prepared and approved by the Municipality, according ... the property sub-divides into 2,000 building lots. These lots will readily sell at an average price of $125 ea... is well under the mark, which would realize $327,000

Deduct therefrom cost	$150,000	
Commission on sales, surveying, etc., say	37,000	
		187,000
Which would leave a net profit of		$140,000

or more than 280 per cent on the Cash payment and nearly 100 per cent on the total price.

It is reasonable to suppose that sufficient sales of the property will be made to meet the payment ... due next summer, and some $15,000 of lots have already been disposed of at an average of $150 each. Contr... payments already made on same will be applied on the second payment. In any case the value of the prop... increase with every fresh development in the way of building that goes on, and there is no better inves... Winnipeg today than the one now placed before the public.

With the surplus funds of the Company, it is intended to go ahead immediately with the ...gging an... ing of the property, and lay the Streets and erect as soon as possible workmen's dwellings, which will re... snapped up by the employees working on the spot. This will be a largely profitable undertaking for the C... and in addition to the 280 per cent. profit on the investment, will produce at least 30 per cent. or 40 per cen... on the building enterprize.

THIS APPLICATION FORM MAY BE USED:

The East Winnipeg Townsite Development Co., Ltd. Winnipe...

(CAPITAL $200,000)

I.....of.....hereby apply for..... shares in THE EAST WINNIPEG TOWNSITE DEVELOPMENT CO., LTD. of the par value of $10.00 each and ag... accept the same or any less number that may be alloted to me.

I hand you herewith the sum of $.....being 20 per cent. of the total value of the shares a... for and agree to pay a further 30 per cent. on allotment and the balance in calls set forth in the prospect...

Corbett Insists That Jeff Is Champion

New York, Dec. 20.—Jim Corbett has rushed into print with some comments on the victory of Johnson over Burns. He insists that Johnson did not win the heavyweight championship from Burns because the latter never held the title rightfully. Corbett insists that Jeffries is still the champion and declares that the latter never had a right to give his title away. While making this statement Corbett possibly forgets the night at Maspeth several years ago when, just before a match between Peter and Steve O'Donnell, of Australia, he climbed into the ring and announced that as he had decided to retire, he had turned the championship over to O'Donnell. This statement was generally ridiculed by the crowd at the ringside and with added emphasis when Maher scored a knockout in a punch.

Then Corbett took his title back and defended it against Fitzsimmons at Coeur Du. Corbett believes that barring Kauffman, there is no heavyweight in training who would have a chance with Johnson, and deplores the fact that Jeffries will not come out of his retirement. All over the country sporting writers are urging Jeff to fight Johnson but the big fellow still remains obstinate.

Sam Fitzpatrick, who has received credit for "making" Johnson, is an Australian and at one time was a pretty fair boxer. Years ago he figured in a remarkable fight in Australia, his opponent being a pugilist named Abe Aitken. Both landed on the jaw at the same moment and each was practically knocked out. The referee went up in the air as to rendering a decision and could not declare a winner until Aitken came to his senses a few minutes before Fitzpatrick. Sam left Australia for America nearly twenty years ago. Upon his arrival here Peter Jackson engaged him as his trainer. Fitzpatrick made a lot of money handling Jackson and Kid Lavigne, but he has spent much of it expecting Johnson. He now stands an excellent chance of getting a big bank roll. Fitzpatrick is a quiet, unassuming fellow, who is well liked by American sporting men. He has been a follower of the horses and made his home for a long time at the Hoffman House.

MADE IN HEAVEN.

By T. BLAIR EATON.

Copyrighted, 1908, by Associated Literary Press.

The bishop had just landed a big fish. It was a big fish, and before it was finally hauled into the cockpit of the Sally B. it had displayed undoubted qualities of gameness that had warmed the cockles of the bishop's heart.

Therefore, as Jim Crocker, who always took the bishop out when he fished in Sepanenagett bay, fastened down the sheet and headed the little catboat for the ripa once more there was a seraphic smile on the bishop's intellectual face.

He stood with one foot on the seat, paying out his line astern, his eyes taking in delightedly the sparkle and flash of the water and the little white clouds creeping up above the horizon.

Those clouds whispered of a smart breeze later on, and with the wind freshened a bit it would be an ideal day for fish. Anon the bishop turned to survey his latest catch, and each time as he did so he gave a little chuckle of satisfaction.

Suddenly there was a mighty tug at the line; astern was a flash of blue and silver as the fish leaped from the water. The bishop took a firmer hold on the line, and his eyes glowed with excitement.

"Ease her up a bit, Jim," he called to the man at the tiller. "Look at the fellow I've hooked this time. He's the father of them all!"

So engrossed was the bishop with his fish that he did not hear the quick panting of a gasoline engine, nor did he see the power boat tearing toward them, sending up twin waves of white spume at its bow.

Just as the second fish—and it was considerably larger than the first—was hauled aboard the Sally B. the coughing exhaust of the engine ceased and the power boat shot alongside.

There were two men in it—a big, athletic young fellow with clean cut features who stood beside the wheel in

"HERE'S THE MORNING BOAT TO THE ISLAND."

the bow and a small, dark man, evidently the engineer, perched on the seat by the engine amidships.

"Hello!" the big young man hailed them. "Is this Bishop Carrington's boat?"

"I am Bishop Carrington," said the bishop.

"Good," said the other, with much relief. "Bishop, I wish to goodness you'd have spread the news abroad last night that you were down here. It would have saved me no end of worry. As it is, we've time enough yet. I'm going to ask you to do me a favor, if you will—a very great favor. My name is Devereaux—John Henderson Devereaux. I think you knew my father very well."

"Look here," said the bishop, "are you Billy Devereaux's son?"

"The same," young Devereaux grinned.

"My boy," said the bishop heartily, "come aboard."

"There isn't time," said the younger man. "Bishop, as I say, I am going to ask a favor of you."

"Don't hesitate to do so," said the bishop graciously.

"I want you to come with me in the power boat to Dark island."

"Well, well, well!" said the bishop, the while a frown wrinkled his brow. "That will be an hour's run in that boat of yours. Another, too, to get back here, and the fishing this morning is particularly good. Am I very necessary to your plans, whatever they are?"

The young man in the power boat hesitated perceptibly.

"Bishop," said he, "I just watched you land that last fish of yours, and the manner in which you did it told me—pardon my frankness—that you have a bit of sporting blood in your veins. Therefore I think this favor I am going to ask of you you'll grant me—if I get you to Dark island in this craft in forty-five minutes by using her, and we can get back home in the same time. I'll promise you won't be away from your fishing over two hours. Will you come?"

"You are Billy Devereaux's son," asked the bishop. "For that reason I consent. Nothing else, I assure you, would take me from this fishing."

Reluctantly he climbed into the power boat. "I'll be back in two hours, Jim," he called to the boatman. He turned to the young man at the wheel. "Now, then, my fine kidnaper, make all speed for Dark island, and while we are getting there suppose you tell me what is at the bottom of all this."

"A lady," said Devereaux simply as the boat went tearing across the bay.

"So I surmised," said the bishop dryly. "Do you mind telling me her name?"

"You probably know her," said the other. "It's Margaret Sterling."

"Yes, I know her," said the bishop. "Now a few details, if you please."

"Of course you know her aunt, Mrs. Bradbury?" said the younger man.

"I do," said the bishop, with a certain grim emphasis.

Young Devereaux pointed to a trail of smoke just above the southern horizon.

"You see that smoke?" he asked. "Well, that's the morning boat to the island. On that boat are Margaret's aunt and Sir William Winterham, with all his titles trailing him. He arrived from England yesterday, and Mrs. Bradbury is bringing him up here to the Crags. The rest is obvious. Mrs. Bradbury's word is law with Margaret, who has lived with her aunt all her life. It's a splendid match from Mrs. Bradbury's point of view."

He paused.

"Go on," the bishop commanded.

"Well, I have different views on the subject," said Devereaux, with a sudden squaring of his broad shoulders that filled the bishop with secret admiration, "and down in her heart I am sure Margaret has too. When Mrs. Bradbury and Sir William, with all his distinctions, land at the steamboat pier, which is just in front of the Crags, I want Mrs. John Henderson Devereaux to be the first to greet them. That is the favor I want to ask of you. You catch my meaning, I trust?"

"Well, bless me!" said the amazed bishop. He sat silent for a time. Then "Bless me!" he said again. "The impudence of you—the astounding impudence!"

He began to chuckle softly.

"Is this boat going at her best speed?" he asked. "We've got to make Dark island ahead of that steamer. I say we've got to."

The steamer was whistling off the island when the power boat shot up to the pier by the Crags, and the bishop and young Devereaux, scrambling out, hurried up the path to the big house among the pines. As they reached the piazza a radiant girl came forward to meet them. Devereaux, breathless, but with shining eyes, wasted no time in greetings.

"Margaret," said he, "this is my father's oldest friend, Bishop Carrington. He is here to marry us—at once, before that steamer docks."

"Oh!" said the girl, flushing beautifully. "Oh!"

For the moment she seemed utterly bewildered. Then she turned to the bishop with a smile of comprehension.

"Are you quite ready, bishop?" she asked with quiet pride, taking her place by the young man's side.

"Dearly beloved brethren, we are gathered together here"— began the bishop in sonorous tones, when the steamboat whistle, sounding close to the pier, interrupted him.

"We had best abbreviate," he said hurriedly. "The boat will be in before we can finish the complete service."

Five minutes later the bishop was congratulating the happy pair before him.

"And now," said he, a bit uneasily, "if you'll lend me your power boat and your engineer, John, I think I'll get back to the bay. The fishing is simply wonderful this morning, and—er—besides, I think it would perhaps be prudent under the circumstances for me to meet Mrs. Bradbury a little later."

Two Opinions.

Lawyer Smart—Good morning, Mr. Gull. What can I do for you today?

"I want to get your opinion on a matter of law."

"Yes."

"My hens got into my neighbor Brown's yard, and he poisoned them. What I want to know is, can I recover damages?"

"Certainly. It was malicious mischief on his part, besides being a destruction of your property."

"Thanks. But hold! I stated that wrong. It was Brown's hens got into my yard, and it was I who administered the poison."

"Ah, yes; I see. That puts a different color upon the transaction, and it is clear that he, in the person of his hens, was the trespasser, whereas in laying the poison on your premises you were quite unaware that his fowls would eat it. It was purely an accident, so far as you were concerned."

"Thanks. How much?"

"Thirteen and fourpence."

"Why, that's just twice what you asked for a legal opinion the other day!"

"I know it; but, you see, I have given you two opinions today."—London Tit-Bits.

The Collies and Amen.

I once witnessed a phase of prompt evolution of practical and of devotional religion in Scotch sheep dogs on a communion Sabbath among the mountains. The churchyard was crowded with shepherds, accompanied by their dogs, which lay quietly asleep at the feet of their masters. The sermon was finished, the psalm had been sung, the final prayer was being offered, and there was no sign of impatience, but the moment the benediction commenced the devotional doggies all round themselves, and before the "Amen" they were in marching order.—"Recreation Hall—An Autobiography."

SEWELL HILL NI HELLENADY

Mr. Jack Primeau of Lindsay, is visiting at his home, Driscoll Terrace, Ashburnham.

THE BELL TELEPHONE COMPANY'S SERVICE

Demonstrates the Industrial Growth of Peterborough—A Wonderful Organization That Enhances the Economy of Business Operations.

There is no surer indication of the industrial and commercial enterprise and progress of either city, town or country than the development of its telephone service. In this respect the record of the Bell Telephone Company of Canada in Peterboro and the surrounding district, in steady growth of exchange service, extension of lines into rural districts, and the expansion of long distance lines and business, is so remarkable as, in comparison, to place Peterboro in the front rank among the cities of Canada.

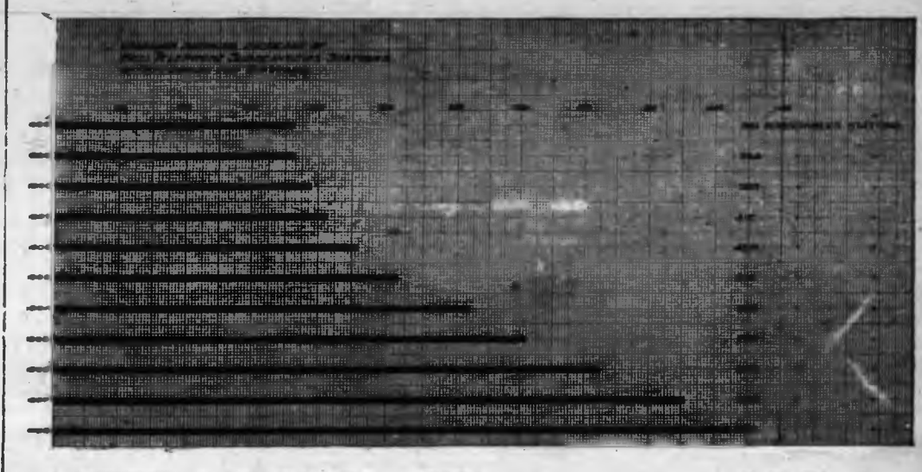
A few salient points which distinctly mark the Company's progress should prove interesting to our readers who take pride in what has been accomplished in making this the commercial centre of the Midland District.

These records show that not only has Peterboro made enviable industrial and commercial development, but that this development has been steady and continued, a fair indication that it is established on a sure foundation and that it may be confidently relied upon to continue.

That the Company has faith in Peterboro's future is shown in the permanent provision it has made for increase in its business.

Ten years ago the Bell Telephone Company occupied three small rooms upstairs in George Street, which was sufficient for its exchange, local manager's office and store rooms. To-day the Company occupies the block shown in the accompanying engraving, erected for its exclusive use. The building in appearance is a credit to the city and the Company, while its interior arrangement and equipment embody all the latest and most approved features of modern telephony. As a pledge of the Company's faith in Peterboro's future, the equipment installed provides for an ultimate capacity of 5000 lines, or based on the usual average, at least 7,000 subscribers' stations—seven times what it is at the present time. This is a practical demonstration of what capitalists think of our future prospects as a city.

That the records of the Company's business fully justify this confidence is demonstrated in the following diagram, showing the steady growth of the Peterboro Exchange for the past ten years.



Few people, even constant users of the telephone, realize what an important factor is this service in the commercial and social life of the community. The following is a comparative statement of local calls in the Peterboro exchange:

1898—Number of exchange connections 892,800
1908—Number of exchange connections to Dec 1st, 2,684,600

But of even greater importance to the industrial and commercial life of the city is the Long Distance Service of the Company, and Peterboro's progress in this respect is equally as remarkable as the local service. The following is a comparison of the number of long distance connections of this year with ten years ago:

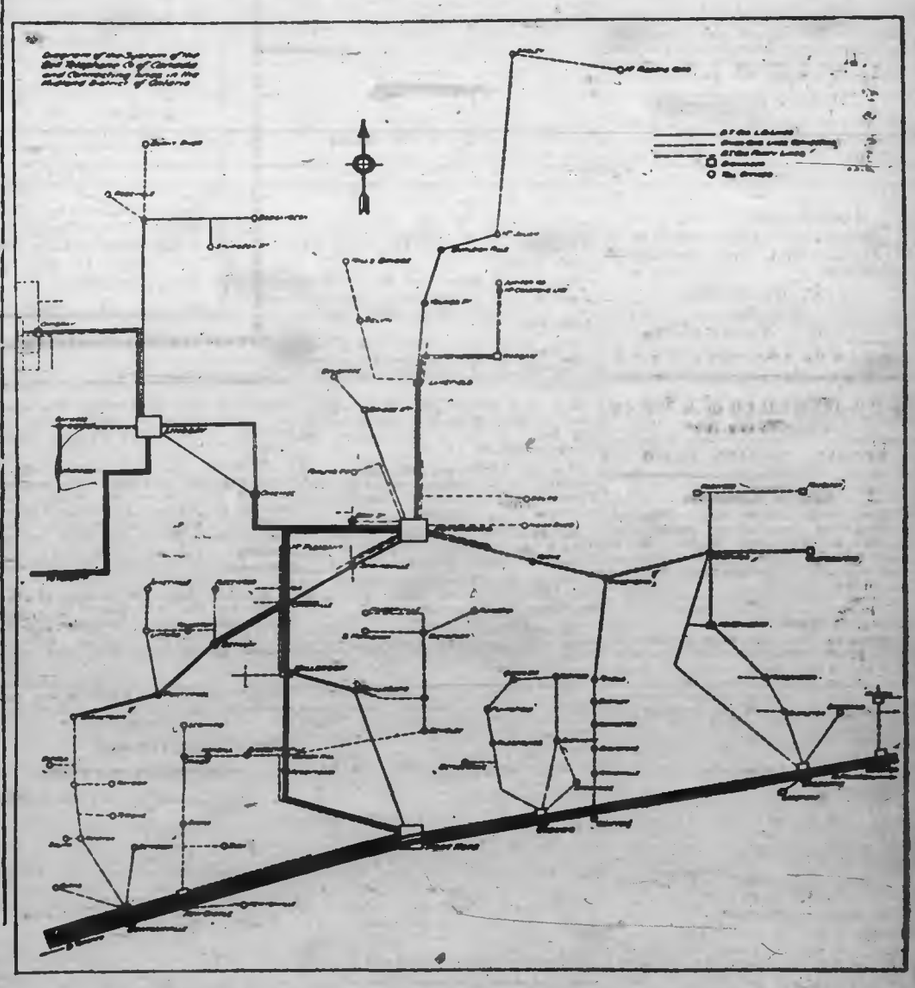
	Outgoing Calls.	Incoming Calls.
1898—	16,735	16,540
1908—To Dec. 1st	50,220	50,530

The volume of business which this represents is impossible to compute, but it is undoubtedly one of the largest assets in the commercial interests of the city.

The Bell Telephone Company's exchange, where this volume of business is handled, is a busy place and will well repay a visit to anyone who is interested in seeing how it is done. Commodious apartments, skill and engineering experience in devising equipment of the highest efficiency to facilitate the work of the staff, thorough organization in every department, all go to providing patrons in this city with a service which is unsurpassed. In providing this service the Company gives steady employment to twenty-eight people who live here, and whose earnings go to swell the patronage of our merchants.

The Bell Telephone Company has shown commendable enterprise in the extension of its service to meet the demands of all classes in the district. The City of Peterboro itself, with an average of a telephone for every sixteen inhabitants, shows a development not surpassed, if equalled, by any city in Canada. Every village in the district tributary to Peterboro has connection with the Company's system, and in addition lines now radiate on practically every highway, which give service to scores of farmers, and this service is being rapidly extended.

How completely the Company serves the Midland District is shown in the following diagram.



Ten years ago no one would have anticipated such a complete service as this system affords, and to the inexperienced observer it would appear that little remains to be done, either in increasing local connections or making outside extension. Yet the Company by its provision for the future development, in its new building, and its lately reconstructed plant, gives practical evidence of its faith that the increase of the past is only a small beginning of what may be anticipated in the future.

The record of the Company in Peterboro, in its improved equipment and in keeping pace with the increasing demands for service, is the best guarantee that they will be found ready and equal to the requirements of the future. Peterboro can congratulate itself in being well served by the Bell Telephone Company, and upon the fact that this service has added materially to the growth and prosperity of this industrial city.

J. FINLAY & SONS COMPANY.

Manufacturers of Hubs, Spokes, and Bent Goods, Vehicles, Wheels, Etc.—Norwood, Ont.

The above is a wideawake and energetic business firm situated at Norwood, Ontario, a few miles east of Peterborough, and is a living example of what pluck, determination and indomitable perseverance will accomplish even under discouraging circumstances over which man has no control. This firm commenced business in 1866 under the name of J. Finlay & Company; but were burned out in 1877, when they sustained a loss of about $30,000. Nothing disheartened, however, the company rebuilt again immediately, and resumed active operations with as little delay as possible. In 1883 the firm was re-organized, and the partnership of John Finlay and William Finlay registered under the company name of J. Finlay & Son. William Finlay died in 1894, but the business was continued under the same name until 1907. In November, 1907, the hub factory at Tweed was purchased and operated as a branch of the Norwood factory. Fire visited this firm a second time in May, 1904, when the Tweed branch was destroyed by fire. The company at once replaced the destroyed factory by a handsome concrete structure considerably larger than the old building.

In 1904 the large and wealthy riding of East Peterborough attested to the esteem and respect in which Mr. John Finlay was held by the community, in electing him as their representative in the House of Commons, at Ottawa.

In January, 1908, this firm's name was again changed to J. Finlay & Sons Company, and they are favored by a mammoth business in the manufacture of screen wheels and all kinds of carriage woodwork. Their connection extends throughout Canada and the United States, while recently they have succeeded in working up considerable business with Australia, New Zealand, England, Peru, Jamaica, and Newfoundland.

J. Finlay & Cons Company, are in a position to meet all demands upon them for the above goods, no matter in what quantity, and one can readily see from the foregoing summary of their business history, that they have manifested a spirit of twentieth century push and enterprise worthy of emulation. At Norwood the C.P.R. siding to their factory doors is one quarter of a mile in length.

Mr. T. E. Finlay covers Eastern Ontario, Quebec, Nova Scotia, New Brunswick, and Prince Edward Island on his annual business tour.

Says This Medicin Has Mystic Powers

It's in the spring that health gives out—that folks begin to feel dragged, weary, tireless,—hasn't to eat, look pale, feel discouraged

If you've reached this state read what J. W. Jervell, well known in Morristown, has to say about the medicine that cured him. "Last winter I caught a heavy cold that settled in my back. My kidneys and liver were affected and my health failed. By spring I was in bad shape—couldn't sleep like I used to—felt tired in the morning—ate very little—was terribly depressed, pale and anxious looking. Twinges of rheumatism, frequent neuralgia attacks near the temples, made matters worse. The doctor prescribed three times, but didn't help. Then I heard of Dr. Hamilton's Pills.—They possess mystic powers surely, for I gained and improved day by day and now am in perfect health again. I will praise and use Dr. Hamilton's Pills till I die."

The ingredients in Dr. Hamilton's Pills are pure and wholesome—come right from the storehouse of Nature in the form of vegetable juices and extracts,—consequently this gentle invigorating laxative tonic and blood purifier is safe for old and young alike. We assure you of enormous benefit from Dr. Hamilton's Pills, which revitalize delicate glands, search out the seat of hidden disease, build the body with vigor and health that has caused thousands of broken-down, despairing men and women to join in a mighty song of praise for the beneficient aid that comes from this king of all tonics. Get Dr. Hamilton's Pills to-day. 25c at all dealers.

VALDEZ, ALASKA.

The Morning Times
PETERBOROUGH, ONT.

MONDAY, JANUARY 4, 1909.

Rev. Dr. Langfeldt

Rev. Dr. Langfeldt had a fainting spell at the close of the watchnight service on Thursday night. He is now feeling much better, however, and was able to conduct both services yesterday.

Early Closing

Starting last Saturday night, the first of the New Year, all the clothing stores and most of the dry goods and other stores, closed at ten o'clock. This is the merchant's new resolution and it will be greatly appreciated by the clerks. The public will no doubt endeavor to shop earlier than usual Saturday night's.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—25c. Sold by all dealers.

Chimney Fire

At about twenty minutes to seven o'clock Saturday night the fire alarm was sounded and the fire department called to Mr. W. H. Hill's insurance office on Hunter street, where a chimney had taken fire. It only required a few minutes to extinguish the blaze and no damage was done.

Curling Rink

The regular scheduled rink games will be started in Peterborough's new curling rink tomorrow night and will be played every afternoon and evening for the balance of the season. The rink was kept busy all day New Year's and a large number enjoyed the sport. There were four rinks in the morning, six in the afternoon and four at night. The ice is now in elegant shape.

Saturday's Market

The market was open as usual on Saturday morning although it was the day after New Year's. It was larger than a week ago and for the first day after a holiday business was brisk. Quite a number of people were in the city and the stores did a pretty fair business too.

Church Music

All the churches were crowded yesterday. It being the first Sunday of the New Year, and many who had not been regular attendants during 1908 turned over a new leaf and got out to service. The decorations were left from last Sunday and the Christmas music was also rendered again and it was greatly appreciated.

Boys Having a Merry Time

The greatest sport and most exciting fun for the small boy during the winter is bobbing down the hills. In all parts of the city the hills are alive with youngsters with bob-sleighs and single hand sleighs and the real fun they have is good to see. In fact many older people enjoy the same sport.

Personal

Miss Sherry of Norwood, was in the city Saturday.

Mr. Harry Mann was in Toronto over the holiday.

Mr. M. W. Matchett is in the city for the holidays.

Miss Lillian Summerville of Toronto, is the guest of friends in the city.

Mr. Thos Begley fo Lindsay, was in the city over the holiday.

Rev. H. J. Keith and little son spent New Years in Smith's Falls.

Mr. E. J. Pugh of the Dominion Bank staff, was in Toronto for the holiday.

Miss Lulu Scott of Toronto, was the guest of her parents, Melbonnel street, over the holiday.

Miss Kathleen Merrell of Lakefield, is visiting at her home, Homewood avenue.

Mrs. Warde and son of Brampton, were guests of Mrs. W. J. Scott, for New Year's.

Mr. Herb Heffernan of Rochester, N.Y., is the guest of his mother, Hunter street, for a few days.

Mr. Harry Rogers of Montreal, is the guest of his parents, Mr. and Mrs. R. B. Rogers, Hunter street, east.

Miss Etta Wiggins of Campbellford, is the guest of Mrs. H. Newton, Hunter street, for a few days.

Misses Evelyn and Tryphena Chasty Union street, are visiting friends in Beaverton.

Miss Annie Beattie of Kingston, is the guest of her parents, Mr. and Mrs. Wm. Beattie, Ashburnham.

Miss Acton of Toronto, is the guest of the Misses Irwin, Ashburnham.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

Misses May Jones and Bessie Flemming spent New Year's at Miss Flemming's home in Port Hope.

Mr. and Mrs. D. A. McBride of Orangeville, are spending the holidays with the latter's sister, Mrs. R. V. McGuire, Rubidge street.

Mr. "Scotty" Miller, formerly of the local Bank of Toronto staff but now of Toronto is visiting here for a few days.

Miss Elma Hales of Burleigh, is spending her Christmas holidays with her cousin, Miss Nelly Nisbet of Harvey.

Miss Nelly Nisbet and Mr. Wm. Nisbet of Harvey, spent Christmas at the home of Mrs. W. H. Hales, Burleigh.

Rev. F. J. Sawers returned to Montreal at noon Saturday, after spending New Year's at his home 286 Brock street.

Mrs. E. L. Payne, 525 Homewood avenue will receive on the first Tuesday of the month during the season.

Mr. and Mrs. J. H. Morrison of Arcola, Sask., spent the holidays with friends in North Smith.

Mr. D. B. McRae, city editor of the Review, spent New Year's at his home in Maxville.

Mr. and Mrs. S. H. Pearson of Pittsburg, Pa., were the guests of relatives in North Smith for the holidays.

Mr. McKay of Toronto, general manager of the Machine Telephone Co., was in the city over New Year's shaking hands with his many friends.

Mr. Fred M. Hall left Saturday morning for Flint, Mich., where he has secured a position with the Buick Automobile Co.

Mr. and Mrs. W. B. Tapson of Bowmanville, were New Year's guests of Mrs. W. R. Thompson, 376 Stewart street. Mrs. Tapson is a sister of Mrs. Thompson.

Miss Dover, daughter of Mr. Fred Dover, of Ashburnham, who recently returned from Germany where she pursued a most distinguished course leading to the degrees of Ph.D., is resting at home this winter preparatory to re-entering the college professorate at an early date.

An Exceptional Opportunity for an Investment

The East Winnipeg Townsite Developmnet Company, Limited, is a company organized for the purpose of purchasing property in Winnipeg and suburbs, and particularly in the eastern part of the town where the new Grand Trunk Pacific Railway terminal shops and yards are located. This section is bound to witness great development in the near future and especially that the Union Stock yards are also to be located in close proximity and will employ large numbers of men in the abattoirs. The company already has purchased 240 acres on the Springfield road and facing the G.T.P. shops and yards site. It has a frontage of half a mile immediately in the center of the G.T.P. sites, and also where the main entrance to the stock yards will likely be located. It is thus in the heart of the developments taking place. It is high and level, within a stone's throw of the main line and an ideal tract for subdividing into building lots. The erection of the G.T.P. shops, etc., means an expenditure of nearly $5,000,000. This will furnish some idea of the magnitude of the works and the value of property for residential purposes in such close proximity.

Already an area of suitable land facing the shops has been laid out in building lots and is intersected with streets 66 feet wide and with a 16 foot lane at the rear of the lots. Good flowing wells can be found on almost any of the lots.

Remember what happened in the vicinity of the C.P.R. shops which were built three years ago. Lots then sold at $60 to $150 each. Now they are all built on and sell at from $300 a lot to $50 per foot frontage. This property in East Winnipeg is worth $150,000, payable as follows:—

$50,000 in cash on completion of purchase.

$25 on June 1st, 1909.

$50,000 in fully paid shares of the company.

$25 on Dec. 1st, 1909.

Full particulars will be seen in the advertisement on another page, and anyone who knows a good thing when they see it will do well to look it up and read carefully.

PETERBOROUGH ELECTS TWELVE GOOD MEN FOR COUNCIL FOR THE YEAR 1909

Result of the Polling Gives General Satisfaction—Vote was Small but All Good Men were Selected—Ald. Gillespie Headed the Poll with Ald. Harry Morgan a Close Second—Two of Last Year's Council Went Down to Defeat.

THE THREE BY-LAWS SUFFERED DEFEAT

The municipal elections resulted in a bunch of surprises, although the ratepayers could not have selected a better lot of men had they to do it over again. Ald. Geo. A. Gillespie headed the poll with 1125 votes, but Ald. Harry Morgan, the other Ashburnham man was a strong second with 1115 votes, just 10 behind; Ashburnham people did themselves proud. Ald. Robt. Hicks, one of the new men polled a big vote, coming fifth with 1027. Ald. Buller was third with 1097, and Ald. Phalen fourth with 1056. Ald. Morrow polled 975, and these six men are the ones who will serve a two-year term without again appealing to the people.

The election passed off very quietly. Only a few of the candidates did any hustling, the majority preferred to allow the people to decide the whole question. This was one of the reasons why the vote was so small, another reason is that many of the polling places have been changed and several new ones added so that a large number of people did not go to the right place and consequently did not vote.

The council for 1909 will have four new faces, viz., Aldermen Hicks, Duffus, Metheral and Duncan. These will take the places of Aldermen Elliott and Neill who were defeated, and Ald. Tovey and Johnston, who did not enter the contest. All the new men are good level headed business men, and as the ratepayers decided on a change they could not have chosen four men who would represent all classes any better. The public generally will be glad to see Mr. Hicks in the arena again.

The returns were very slow in coming in. One reason was the large number of different ballots, and also the presence of several new officials.

The new council will hold its first session on Monday next but previous to the meeting they will all be required to take the oath of office.

BYLAWS.

It was a snow storm and a landslide for all the bylaws and especially Smith street bridge and the fair grounds bylaws which were defeated at every sub-division. The street extension bylaw, however, received a majority in some of the divisions. The result of the vote was simply the decision of the ratepayers to cut down the expenditures of large sums for local improvements that are not revenue producers. The meeting of the Board of Trade which opposed the fair grounds and the Smith street bridge bylaws had great weight with the ratepayers. It was generally believed that much lesser sums could be made to answer the purpose.

In the case of the street extension bylaw for $21,000, the citizens did not show wisdom as the most of the money asked for has already been expended and, as a result, the required sum will have to be placed in the estimates for this year and next year. The taxpayers will therefore be prepared to accept a considerable increase in their taxes, as this money must be paid.

The general impression is that the other two bylaws will be redrafted by the council and submitted again later on.

These returns are incomplete.

NOTES.

Jos. Metheral was the only old fire brigade candidate elected to the council. He will undoubtedly make a good alderman too.

Hats off to Ald. Gillespie and Ald. Morgan, the great men from the east. Ashburnham was loyal to its representatives.

There were some surprises in yesterday's elections, especially the decisive NO! the bylaws got.

Ald. Elliott and Ald. Neill were the only two members of the old council defeated.

Mr. Duffus for a new man made a first rate run and he will be one of the valued members of the 1909 council.

G. H. Duncan, an ex-chairman of the Board of Works Committee, is in the council again. He should know what he is up against and his past experience will be of value to him.

Congratulations are due E. F. Mason who headed the poll in the Board of Education contest.

W. S. Robinson was the only member of the Board of Education to be defeated.

The first meeting of the Board of Education will be held tonight in the Toronto Savings & Loan Company's office, when E. F. Mason, the only new member, will ride the goat.

Ald. Morrow was looked to make a much better run than he did. In fact many picked him to head the poll. He did not canvas, and no doubt that had a lot to do with it.

Mr. "Scotty" Miller, formerly of the local Bank of Toronto staff but now of Toronto is visiting here for a few days.

Result of Yesterday's Vote

The vote as polled by sub-divisions for aldermen in yesterday's election. The six receiving the highest number of votes are elected for two years.

Robt. Fair	807
Morrison	769
Ackerman	728

The other candidates are—

W. S. Robinson	648
Wm. Madill	599
Dr. McClelland	419
Dr. Frederick	370

Mrs. Blythe Broke Away Twice, was Overtaken and Dragged Back

Agincourt, Jan. 4.—Walter C. E. Blythe was taken to Toronto jail last night, and the man is charged with a murder so brutal, so utterly revolting in its gruesome details, that even the bruise-blackened body of the wife-victim is only one of a series of dreadful pictures which the crime presents. Blythe has admitted, says a constable, that he killed his wife. Blythe, warned that his story would be used as evidence, persisted in the statement, according to the constable, even showed the best policer with which he said the deed was done, and confirmation is forthcoming from five-year-old Reggie Blythe, who heard the clamor of an onslaught which ended in death.

A CHILD THE ACCUSER.

From the lips of the child himself comes part of the story of last evening's tragedy.

"I heard a noise," he told a press representative today. "It was just daddy hittin' her. He often did that."

"What did he hit her with?"

"A poker and a hammer," said the child.

He is a bright boy; fairly well dressed; intelligent almost beyond his years. His little sister Rosie is just two. Today the children are without a mother.

LONG SERIES OF ASSAULT.

Neighbors declare without hesitation that the murder of Mrs. Blythe is the culmination of a long series of domestic differences. County Constable Hobbs, who arrested Blythe, says that the man admitted having beaten her for years. The woman herself told him that her husband used to beat her in England. They came to this country about four years ago.

TOLD OF IT HIMSELF.

What happened Sunday night is best told, perhaps in the words of Malcolm Walker. Blythe's nearest neighbor, whose home is almost across the side road from the scene of the tragedy. The Blythes once occupied this place themselves, and lived in the village before that.

"It was about 8.30 last evening," he said today, "when Blythe came over to my place. We hadn't been very friendly, for they said my boy had prevented little Reggie from going to school last year. Reggie was only four years then.

"Well, I saw that Blythe looked troubled, and I thought there was something wrong, so I said to him, "Hello, is there anything I can do for you?"

"He said, 'I wish you'd come over. I think I have killed my wife.' He did not say why."

TROUBLE FOR YEARS.

It is quite evident that Blythe has been a wife-beater for years. His wife told the constable some weeks ago that he had beaten her so badly in England that their first child had been still born.

A REGULAR THING.

"Had you known for some time

(Continued on page four.)

Silas H. Pearson Arrested in Pittsburg--Confesses to Robbery and Shooting

Pittsburg, Pa., Jan. 4.—The mystery surrounding the shooting of Jacob Knoedler, at Wilcox Station, merchant, in his own store, on the night of November 24th last, has been cleared up, following the arrest of Silas B. Pearson of Peterborough, Ont., last night, and his confession that he had wounded the merchant in an attempt to rob the store. Knoedler is still in the hospital in a serious condition. Pearson was arrested by county detectives as he alighted from a Pittsburg and Lake Erie train, in company with his wife. The couple had just returned from a visit with friends in Peterborough. For some time the county detectives had laid the shooting at the door of Pearson. Requisition papers had been made out and a detective was to start for Peterborough on Monday to bring him back. Information reached the detectives yesterday that Pearson and his wife were headed for Pittsburg, and when they stopped off the train last night they were arrested and taken to the county jail, were Pearson was sweated. At first he denied having any knowledge of the shooting. Later after he and his wife had been separated and both had told stories which in no way agreed, he confessed and signed a written statement. He was committed to jail to await the action of the grand jury. Mrs. Pearson will be held as a witness.

He was placed in the county jail, a self-confessed criminal, five hours after his arrival in Pittsburg from Canada, accompanied by his wife. Testimony secured against him by detectives was too strong for him to resist. After the first session of grilling to which he was subjected, he was allowed an hour in which to ponder over the matter, and gave in quickly when again attacked, in his signed confession he says:—

"I hereby voluntarily state that on the night of November 24th, at 10 o'clock I entered the store of Jacob Knoedler, at Willock Station, in Baldwin township, and when surprised by Mr. Knoedler, shot three times, but do not know how many times I hit him. This statement is made voluntarily by the signer, Silas H. Pearson."

In a lonely cottage in the country near Carrick, Pearson's booty from apparently many raids were found by detectives. He left for his home at Peterborough, Ont., shortly after the shooting of the merchant. Chief Wagner received a tip that he was the burgal wanted only a week ago, and had men watching for him since then.

How's This

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

Take Hall's Family Pills for constipation.

BROWN—SAWERS.

A quiet wedding was solemnized New Year's afternoon at three o'clock at the residence of Mr. Augustus Sawers, 288 Brock street, when his eldest daughter, Miss Mary, was united in marriage to Dr. William E. Brown of Victoria Harbor. The ceremony was performed by Rev. F. J. Sawers, of Christ church cathedral, Montreal, and brother of the bride. Only the intimate friends and relatives of the bride and groom were present. They were unattended.

Dr. and Mrs. Brown left on the 4.28 train. They will reside at Victoria Harbor.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser, in Plain English; or, Medicine Simplified, 1008 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for 21 one-cent stamps, to cover cost of mailing only. Cloth-bound, 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Juniors Won Their First Home Game

There was only a small crowd at Brock street rink last night to witness the first hockey match of the season in the junior series of the O.H.A. This was due to the large crowds watching the election returns, and also the show at the opera house. Peterborough pulled out a win and they deserved it as they played much the better game and especially in the second half. At half time the score was 2—2, and it had been pretty fast especially so as the going was very heavy. The Cobourg bunch could not stand the pace and in the second half they seemed to die away and were unable to put up an effective resistance. It was only at occasional intervals that they rallied. The final score was 10 to 6 in favor of Peterborough. Wade at point, and Rae at center, put up great games and played classy hockey. Shortt proved to be a find for the locals, and in his first game made good. Giroux in goal did all that was required of him.

For the visitors the stars were Guy, Gliddon and Doheny. The referee was Geo. Lynch, and he gave general satisfaction.

The teams lined up as follows,—

Peterborough.		Cobourg
	Goal.	
L. Giroux		Renolds
	Points.	
Wade		Miles
	Cover.	
Fox		Guy
	Center.	
Rae		Pratt
	Rover.	
C. Giroux		Doheny
	Right.	
Shortt		Gliddon
	Left.	
Pentland		Crowther

The first game in the Mercantile League was played last night in Brock street rink at 7.30 between the Quakers and the C.G.E., and resulted in a tie, one all. It was a good clean exhibition of amateur hockey, and some good material will likely develop from that league.

The intermediate O.H.A. team will open the season at Cobourg tonight when the following team will go down;

Goal—Derocher.
Point—Parnell.
Cover—Dusty.
Center—Rose.
Rover—Long.
Right—Seymour.
Left—Weatherstone.
Spare—Dobson.

Trainer Milburn will also accompany the team.

Does Your Heart Flutter?

Short Breath, Easily Fatigued, Rush of Blood.

IT'S IN THIS CONDITION THAT SUDDEN AND UNEXPECTED COMES.

The heart is an unfailing index of strength. Bodily vigor and a strong heart go hand in hand.

A slight fluttering and shortness of breath is a sign of failing strength, arising from weakened digestive power, or from weakness of the nervous system.

The organic and dangerous affections of the heart seldom manifest themselves until the climax is reached, when death usually supervenes.

Even a small variation in strength renders the heart susceptible on the emotional side, and a little fright, anxiety or haste will set it going at a frightful rate.

You ought to know that when your heart flutters easily, when your breath comes in gasps, when you tire quickly upon exertion, and rest does not recuperate, you have allowed yourself to run down.

It is under these conditions that Ferrozone acts like magic in its strength-giving power. Tens of thousands of Canadians can testify to the marvelous curative power of Ferrozone.

When it's remembered that Ferrozone has the power of making rich, red blood, of giving tone to the system, of vitalizing all the functional powers of the body, it will be easily seen in cases such as yours, in which these fluttering sensations are present, Ferrozone will speedily restore you to health.

Ferrozone makes you strong because it enables you to digest your food, because it makes rich, red blood—because it tones, strengthens, reinforces the whole system.

"I was so overcome with heart fluttering and acute indigestion I could scarcely walk upstairs without panting and catching for my breath," writes H. K. Young, a well known merchant in Augusta. "After using one box of Ferrozone I improved, and after two months I was cured and am sound and healthy as ever to-day."

The best proof of Ferrozone's merit is the enormous good it will do you, in your own case; try it, 50c. per box or six boxes for $2.50, at all dealers.

The Irish Must Own Their Farms

New York, January 4.—Peasant proprietors must displace the landlords in Ireland, was the theme of Sir Horace Plunkett's address at a dinner given in his honor at Delmonico's last night on the eve of his departure for the Old Country. He founded the Irish Agricultural Organization Society which now numbers over a hundred thousand.

Sir Horace said:—"The farmers are the chief wealth producers of Ireland. They have been handicapped by landlordism, but landlordism is disappearing. In fifteen years, or, at the most, twenty-five years, Ireland will be owned and governed by a peasant proprietary."

The great obstacle to be overcome, the speaker went on, was that the Irish were not farmers. Their natural bent is not that way.

"If I did not believe that Irish patriotism could find a solution," said Sir Horace, "I would cease trying to keep the remnant of our race at home."

"The mission of the Irish is to infuse a spiritual element into our too materialistic civilization, but to accomplish this there must endure in Ireland a distinctive people and a distinctive life, in which the Irish throughout the world may take a legitimate pride."

Bankers Are Tied for First Place in League

Three league games were played in the ten pin tournament at the P. B.C. alleys yesterday and last night. At night the Bonsols played a double header with Lock Works and the Bankers, and succeeded in winning only three out of the six. The Bankers took two games and this lowered their percentage in the running so that now they are tied with the Examiner A. team, 777 each. The Bankers have led the league since the beginning, but if the Examiner take three games from the Greys tonight, which is possible, they will go to the head of the list. The scores were as follows;

PACIFICS—			
Connors	142	201	112
McIlroy	189	145	175
Lillie	133	128	139
	464	474	426

Don't Diet for Fat

You have no appetite for gruel, have you? By the same token, if you scale in excess of 150 pounds, I know you have no great liking for gymnasium stunts. As a rule fat folk are neither athletic nor ascetic, except under compulsion, and nowadays they are not under compulsion to be either, no matter how necessary it is for them to reduce. There is a third, better, and surer way of getting rid of superfluous flesh.

The trouble with both dieting and exercise is, first, the trouble; second, the danger (fatty heart); third, wrinkles; and, fourth, stomach disgust. You are liable to all four if you exercise or diet. On the other hand, you can sidestep all four, and still reduce as much or little as you please, even up to losing a pound a day if you see fit, by taking a teaspoonful after meals and at bedtime of the following simple home recept; One-half ounce Marmola, 3-4 ounce Fluid Extract Cascara Aromatic, and 1 3-4 ounces Peppermint Water.

Any druggist will fill this prescription for you cheaply, and you may take it with perfect confidence that it will do no manner of harm. Instead it almost invariably improves the health and, likewise, the complexion.

T. Hains' Own Story in Evidence Now

Flushing, N.Y., Jan. 4.—Thornton Jenkins Hains took the witness stand today in his own defence of the charge that he was a principal with his brother, Captain Peter C. Hains, jr., in the killing of William E. Annis, and in a snappy manner related, under counsel's interrogations, the story of his life and Captain Hains' martial misfortunes that led to the slaying of Annis.

Thornton Hains replied to counsel's questions with accelerity and rapidity of expression that caused the court stenographers no little work to keep pace with the testimony. Sometimes the defendant made his answer before the district attorney could enter his objections to the line of interrogation.

The defendant told of his early life and of his seafaring career, and then hurried quickly over the track of time that brought him to May 31, the day of Mrs. Claudia Hains' confession. He had told of the sudden appearance of Captain Hains in his home, and of the excitement that the army officer was laboring under, because of what his wife had told him concerning Annis, when recess was taken.

The early part of the morning session was occupied with the conclusion of the cross-examination of General Peter C. Hains, who declared that the mental condition of Captain Hains showed improvement from May 31 to August 12, when he was served with his wife's cross-bill to the suit for a divorce. The general declared that the cross-bill contained such charges of immoral character against Captain Hains that his mind was again shocked, and there was a recurrence of his mental weakness.

Machinery Arrives for New Factory

Great credit is due the Peterborough Lubricator Manufacturing Co., for the marvellous rapidity they have made in getting their machinery placed for the manufacture of the automatic compressed air grease cups of which they have the patent right for the Dominion of Canada. Their machinery is all of the latest design some of the machines having to be specially made for the company.

The last two machines ordered are now on the way, consisting of two large presses which are used in pressing out the steel parts of the cup.

One of these machines is well worth a trip to the factory to see in operation, when Mr. Pennington, the efficient superintendent, will gladly show how the machine will handle a flat piece of cold steel like a child would a toy and a fully shaped cup is produced in a moment of time. Great pressure is required to do this work, one of these machines having a crushing pressure when the two parts come together of 60,000 pounds.

Very much credit is due the Manager Director, Mr. Boorome, as he has been untiring in his efforts to push everything to a successful finish. Owing to the large amount of orders to be placed in the city of Toronto alone. The President and Board of Directors found it advisable to open up a sales department and demonstrating office at 12 Bay st., where they have secured spacious offices on the ground floor.

The success of the company is assured and it will no doubt be one of the best dividend paying concerns in the Dominion. Orders are continually pouring in which will require the factory running overtime from the very start, which at once goes to show how much the article is appreciated. In our interview with the president Mr. Wm. Harstone, it is needless to say he is more than delighted with the prospects of the new company.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—50c. Sold by all dealers.

Water Commissioners will Submit a By-Law

It is a matter of but a few weeks when the water commissioners will appear before the ratepayers with a bylaw providing for raising something like $140,000 for the purpose of constructing a new dam, rebuilding the pumping plant and making other necessary improvements. The commission has the plans practically completed and will submit them to the council at the earliest possible moment. This bylaw, while representing the expenditure of a vast sum of money, is one of the most important matters the ratepayers have had to considered for years. The chief feature of it is that the revenue from the waterworks will meet the interest and sinking fund so that the taxes of the citizens will not be increased, and only the consumers of the water will be called upon to pay.

Doctor Amazed by Great Zam-Buk Cure

Sores on Scalp, Face, and Hands.

Children's Torture ended at last by Zam-Buk.

One of the greatest cures of Eczema and of open discharging sores ever effected, has just been worked by Zam-Buk, in the family of Mrs. J. Butler, of 3, Bannockburn Avenue, Montreal. She says:—

"Three of my children owe their cure of Eczema and foul discharging sores, which made their lives miserable, to the curative power of Zam-Buk.

My eldest daughter, Annie, first took the disease. It broke out on her face and scalp, causing nasty sores which discharged freely and gave off a very offensive odour. The disease was quickly transmitted to Herbert and Edith, and in their cases not only their heads, but their hands and faces were covered with sores and scaly places.

"I first tried various blood-purifying remedies, together with a highly recommended ointment and salve, but it did no good, so I then consulted a doctor. He treated the three children for some weeks applying all kinds of lotions and salves, but they did not seem powerful enough to get to the root of the disease. He next advised that the hair be all shaven off from the girls' heads in order to get down to the disease on the scalp, but as they each had such long hair I thought it a pity to cut it all off, and refused to comply with his request. He thereupon withdrew his services altogether. After that I bought first one kind of ointment and salve from the druggist and then another, but after using awhile, the result was the same—no benefit.

"I was now at a stand-still to know what to do when my son Herbert got a supply of Zam-Buk. The result in his case was so clearly beneficial after using the contents of one box that I immediately sent to the druggists for more, and lost no time in applying this balm to the discharging sores on the girls' faces and scalps. It seemed to take immediate effect, for the next day the sores looked healthier, and there was not so much complaining.

"From that time on, day by day Zam-Buk clearly demonstrated its exceptional healing powers. The discharging sores kept drying up, and disappearing from both face and scalp, and the itching, pain, and soreness grew less and less, until ended altogether.

"In the course of six weeks from beginning with Zam-Buk the two girls were entirely cured of this eczema—not a spot or sore to be seen on either face or scalp, while Herbert's case not being so serious, Zam-Buk cured him in less than two weeks. The doctor and all who have known of the children's sufferings have been amazed at the wonderful cure which Zam-Buk effected in so short a time."

Photo of Mrs. Butler's son and daughters who were so wonderfully cured by Zam-Buk.

MOTHERS SHOULD KNOW.

That the skin, once it is broken, is no longer a protection against disease and neglect to remember this fact is the reason why festering, inflammation, discoloration, swellings, proud flesh and even blood poisoning so often follow ordinary every day injuries. The great merit of Zam-Buk lies in its unique composition and its wonderful antiseptic quality. It immediately takes the soreness out of a wound, allays inflammation, destroys the gerous germs, and presents festering. Zam-Buk will not only cure the most troublesome case of skin disease, but for cuts, bruises burns, sprains festering wounds, ulcers, pimples and sores there is nothing to equal Zam-Buk. It is always reliable for the many injuries and diseases to which children are liable and should be kept always handy.

MILLIONS OF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Waisted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW what it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world. Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Our smelter thus erected will save 85% in treatment. freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying wortbless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when her you have the chance to get a smelter right at your mine, which will treat this ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

BUENA VISTA, COLORADO

An Exceptional Opportunity for an Investment

The East Winnipeg Townsite Development Company, Limited, is a company organized for the purpose of purchasing property in Winnipeg and suburbs, and particularly in the eastern part of the town where the new Grand Trunk Pacific Railway terminal shops and yards are located. This section is bound to witness great development in the near future and especially that the Union Stock yards are also to be located in close proximity and will employ large numbers of men in the abattoirs. The company already has purchased 240 acres on the Springfield road and facing the G.T.P. shops and yards site. It has a frontage of half a mile immediately in the center of the G.T.P. sites, and also where the main entrance to the stock yards will likely be located. It is thus in the heart of the developments taking place. It is high and level, within a stone's throw of the main line and an ideal tract for subdividing into building lots. The erection of the G.T.P. shops, etc., means an expenditure of nearly $5,000,000. This will furnish some idea of the magnitude of the works and the value of property for residential purposes in such close proximity.

Already an area of suitable land facing the shops has been laid out in building lots and is intersected with streets 66 feet wide and with a 16 foot lane at the rear of the lots. Good flowing wells can be found on almost any of the lots.

Remember what happened in the vicinity of the C.P.R. shops which were built three years ago. Lots then sold at $60 to $150 each. Now they are all built on and sell at from $300 a lot to $50 per foot frontage. This property in East Winnipeg is worth $150,000, payable as follows:—

$50,000 in cash on completion of purchase.

$25 on June 1st, 1909.

$50,000 in fully paid shares of the company.

$25 on Dec. 1st, 1908.

Full particulars will be seen in the advertisement on another page, and anyone who knows a good thing when they see it will do well to look it up and read carefully.

ADVERTISE IN THE TIMES.

Morning Times

TUESDAY, JANUARY 5, 1909.

MUNICIPAL GOVERNMENT

The difficulty that Thoroid and some other places have experienced in securing a sufficient number of eligible candidates to stand for Aldermanic positions at the present municipal contest has awakened an interest here again in modes of municipal government other than that under which we now live. The present system appears to be somewhat unsatisfactory, and a change, it is believed by many, would be beneficial.

After the destruction of Galveston, Texas, necessity demanded that the most efficient form of municipal government that could be found should be instituted, if the city were to rise from the sepulchre into which it had been swept. An experiment was tried and it worked admirably. The city was governed by a Commission of experts who were paid a salary, and so great was the success attained that it was not long before other cities were taking their cue from the Texas city then just rising from its ruins.

Wherever this system has been tried, it has given, it seems, the greatest measure of satisfaction. Canadians do not take kindly at first to such reforms as this. There seems no reason to doubt, though, that what has worked satisfactorily in cities situated as Galveston, Texas, was, would be quite as efficient in our Canadian towns and cities.

The Killing of Wm. E. Annis

New York, Jan. 2—The startling declaration that Thornton Jenkins Haina, now on trial for his life at Flushing, had twice prevented his brother Captain Peter C. Hains, Jr., from killing William E. Annis, vious to their tragic encounter at the the Bayside Yacht Club, was made Thursday.

It came from Thornton Hains' attorney's, and it was accompanied with the declaration that the prisoner would testify to all the details of these earlier encounters, when he takes the witness stand in his own behalf.

In the pages that have been printed about the Haina-Annis tragedy, previous to and during the trial, there was no hint that Capt. Haina the late Mr. Annis had ever met, from the night Mrs. Claudia Haina signed her alleged confession until the angry captain shot him down in his bathing suit, as he was landing his boat.

NEW FORM OF INSANITY.

Nor was this the only surprise that came from the attorneys for the defence yesterday. There was a terse outline of the defence which will be offered for Capt. Peter C. Haina, when he follows his brother to the Queen's County trial court. It even included the form of insanity, which the defence will probably plead, a matter of mystery up to this time.

Captain Haina will not ask acquittal on the paranoic form of derangement, which saved Harry Thaw from the electric chair, but which sent him to Matteawan.

"Furiosa transitoria," is the bridge which the Haina' attorneys have about decided to use between the "Unwritten Law" and the charge of murder in the first degree. It has this advantage over the Thaw plea; If the jury believe it and order an acquittal, they are not likely to recommend the confinement of the prisoner in an insane asylum, as was done in Thaw's case.

SURPRISES COMING.

Mr. McIntyre said Thursday night, "When the trial is resumed on Monday, Thornton Haina will take the stand and tell the whole story of his part in the tragic events which led to the death of Mr. Annis, and the arrest of the Haina boys. There will be many surprises in the prisoner's direct testimony, but I imagine the chief one will be when he tells of two previous meetings between his brother and the man whom the brother believed wrecked his home. Nothing has been said about these meetings, so far in the case, but we stand ready to corroborate Thorton's testimony on this point.

"Captain Haina knew Annis well, and had known him for five years. You must remember, too, that Capt. Haina went on one automobile trip with Mr. Annis, the night, he returned to Fort Hamilton from the Phillippines.

CARED FOR BROTHER.

"Then he learned of Mrs. Claudia Haina' behavior during his absence a blow that drove him almost insane and broke up his home. Her written confession followed, and the captain was virtually put in charge of his brother, the man now on trial, by his parents, General and Mrs. Haina. They feared that there would be serious trouble if Annis and the captain should meet unexpectedly. Subsequent events showed that the father and mother were quite right, and Thornton hardly left his brother out of his sight.

"It was on August 1st that the captain and Annis met face to face to face for the first time since the automobile ride, which was Mrs. Claudia Haina' last "bluff" with her husband. Thornton and the captain were in Manhattan on a shopping expedition. They were coming down Sixth avenue, and about to enter a departmental store when they met Annis coming out.

AN ACUTE START.

"Captain Haina gave an acute start, and his face showed that a mania was upon him. His brother restrained him forcibly, as Annis hurried away into the crowd on the street, without speaking. Thornton

Contains no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge! Sold by all dealers.

Police Court

William Rattray was acquitted on the charge of having stolen $636.12 from the City Hotel during the month of September, and passed from the court yesterday legally discharged.

After he had heard a little lecture from Magistrate Dumble, a lecture which he listened to with an expression of "hurry up and get through with it" on his face, Rattray enquired;

"Who is going to pay my way back to Toronto, your worship? They brought me down here and now I've got no money, how am I to get back?"

Magistrate Dumble looked almost surprised and replied "A man that can ride from Toronto to Chicago and back without paying a fare can surely go from here to Toronto."

Rattray answered under his breath that he would get there.

MAGISTRATE'S REMARKS.

His worship stated that the facts of the case must have left the conviction in any mind that the prisoner had committed the crime. The manner in which he came down from

TEMPORARY SECRETARY—R. C. BIRKETT, 255 Notre Dame Avenue.
SOLIITORS—Mulock, Loftus, Armstrong & Lindsay, Winnipeg.
BANKERS—Bank of Toronto, Winnipeg.
AUDITOR—W. R RAMAGE, Winnipeg.
TEMPORARY OFFICE OF COMPANY—255 Notre Dame Avenue, Winnipeg.

This Company is formed with the object of buying property in Winnipeg and Suburbs, particularly in the Eastern part of the Town, where, owing to the location of the Grand Trunk Pacific Railway Terminal Shops and Yards, great developments are bound to take place in the immediate future, more especially now that the huge Union Stock Yards are to be located in the close vicinity, where large numbers of men will be employed in the abattoirs.

The first acquisition of the Company cousists of a Block of land containing about 240 acres, situated on the Springfield (Dugald) Road and facing the site on which the shops and yards of the Grand Trunk Pacific Railway are now in course of erection. This property is described as lots 52 to 57 inclusiue of Roman Catholic Mission property, Plan 433 and has a frontage of half a mile on the Dugald, or Srpingfield Road, immediately in the centre of the site of the Shops, Round House, etc., where also the Station, Freight Sheds and Elevators and probably the Main entrance to the Yards will be located. The land has also a frontage of three-quarters of a mile on the Government Road running South and between Sections 4 and 5, Range 11-4 E.

The land is thus the most favorably situated in the very heart of the developments which are now taking place around the huge establishment of the G. T. P. Shops and Yards. It is high and level being only a stone's throw from the Main Line, and is eminently suitable for sub-division into building lots, for which there is bound to be a good demand when the huge Shops and Yards are completed and in operation.

The contract for the erection of the new Locomotive and Car Shops was let to Thomas Kelly & Son's, of Winnipeg, on October 19th last, and this portion alone involves an expenditure of $500,000. The Locomotive Shops will be 823 by 174 feet, built of brick, steel and concrete, and will be equiped with the most modern plant for the repairs of all sorts of iron and steel work used in Railway operation.

The Shops will be the most extensive in Western Canada: the total expenditure being in the neighborhood of $5,000,000, of which the Government is contributing $1.500,000, the balance of $3,500,000 being paid by the G. T. P. Railway Company as their share.

As the location is too far from the City to make it possible for the employees of these Shops to live in Winnipeg, a bona fide demand for Building Lots, Market Gardens, Manufacturing Sites, etc., is bound to spring up, and there is no property in the neighborhood better suited to meet such a demand than one which the Company is acquiring.

The Shops and Yards are situated about 6 miles East of the centre of the city of Winnipeg, too far for the men to live in the City and to go to and from their work every day. As a consequence a new Suburb will quickly spring up, in the neighborhood of the Shops. The workmen will build houses for themselves and families near their work, the Tradesman will come as required, and Banks, Schools and Churches will quickly follow. Such development dos not take long, and in two or three years a Town of 6,000 to 7,000 inhabitants will be where today is open prairie.

An area of suitable land facing these Shops has been laid out in building lots intersected by 66 feet wide streets and with a 16 foot lane at the rear of each lot. The land is high and dry and there are unning wells on almost any part of it.

What happened when 3 years ago the Canadian Pacific Railway Shops were built? Lots on the South of them were first sold at prices ranging from $60 to $150 each; now they are mostly built on. A Large Town is in evidence having its Banks, Stores, Schools, Fire Hall, etc. The price of vacant lots in the C. P. R. Town today ranges from $300 each to $50 a foot frontage. The same will happen in East Winnipeg, and two or three years hence lots will be worth equally as much as those in the C. P. R. Town today.

The price of the property is $150,000 payable:—

$50,000 in cash on completion of purchase. $25.000 on June 1st, 1909.
50,000 in fully paid shares of the Company. 25.000 on Dec. 1st, 1908.

Interest on deferred payments of 6 per cent, with privilage of pre-payment at any time

There is a Torrens Title to the property, which will be delivered to the Company subject to the $50,000 mortgage.

Plans of the sub-division have already been prepared and approved by the Municipality, according to which the property sub-divides into 2,600 building lots. These lots will readily sell at an average price of $125 each, which is well under the mark, which would realize $327,000
Deduct therefrom cost $150,000
Commission on sales, surveying, etc., say 37,000
187,000
Which would leave a net profit of $140,000
or more than 280 per cent on the Cash payment and nearly 100 per cent on the total price.

It is reasonable to suppose that sufficient sales of the property will be made to meet the payment of $25,000 due next summer, and some $15,000 of lots have already been disposed of at an average of $150 each. Contracts and payments already made on same will be applied on the second payment. In any case the value of the property will increase with every fresh development in the way of building that goes on, and there is no better investment in Winnipeg today than the one now placed before the public.

With the surplus funds of the Company, it is intended to go ahead immediately with the pegging and surveying of the property, and lay the Streets and erect as soon as possible workmen's dwellings, which will readily be snapped up by the employees working on the spot. This will be a largely profitable undertaking for the Company, and in addition to the 280 per cent. profit on the investment, will produce at least 30 per cent. or 40 per cent profit on the building enterprize.

THIS APPLICATION FORM MAY BE USED:

The East Winnipeg Townsite Development Co., Ltd. Winnipeg
(CAPITAL $200,000)

I.....of.....hereby apply for..... shares in THE EAST WINNIPEG TOWNSITE DEVELOPMENT CO., LTD. of the par value of $10.00 each and agree to accept the same or any less number that may be alloted to me.

I hand yon herewith the sum of $.....being 20 per cent. of the total value of the shares applied for and agree to pay a further 30 per cent. on allotment and the balance in calls set forth in the prospectus.

I agree to abide by the By-laws of the Company.

Personal

Mr. Harry Creasman spent Sunday in Barrie.

Rev. Father Fitzpatrick of Ennismore, was in the city yesterday.

Miss Faulkiner, who spent the holidays in Havelock, has returned to the city.

Messrs. S. R. Leggott and W. J. Leggott of Lakefield, were in the city yesterday morning.

Miss Mattie B. Robertson returned to resume her studies at Queen's University yesterday morning.

Miss L. M. Vansant returned Saturday night from spending New Year's with friends in Uxbridge.

Mr. Bert Armstrong passed through the city this morning from Campbellford to his home in Ottawa.

Mr. E. Pugh of the Dominion Bank staff, spent New Year's Day in Toronto visiting friends.

Misses Ethel and Lottie McIlmoyle have returned from Toronto where they spent the Christmas holidays.

Mr. Harry Rogers of Montreal, is visiting at the home of his parents, Mr. and Mrs. R. B. Rogers.

Mr. Robert Moher has returned to Ottawa after spending the holiday at his home, Patterson street.

Mr. H. C. Wright, former Y.M.C.A. secretary here, has spent the past week in the city and vicinity.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste, Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventics—25 cents. Ask your druggist. He knows! Sold by all dealers.

Mr. and Mrs. Herman Gray of Belleville, are visiting at the home of Mr. Gray's parents, 698 Harvey street.

Mr. Cyril H. Gray, accountant of the Farmers' Bank, Belleville, is visiting at the home of his parents, 698 Harvey street.

Mr. Geo. Haley of 397 Walton St., left on Saturday for Mexico, where he has secured a position as secretary for a mining company.

Mr. and Mrs Terrif have returned to their home in Weston, after an enjoyable visit at the home of Mrs. Terriff's parents, 690 George St.

Among those from Lakefield in the city yesterday were; Mr. Murdoch, Mr. Bruce Murdoch, Mr. Gordon Ridpath, Mr. Chas. Bell, Mr. R. Johnson, Mr. C. Curtin, Mrs. W. H. Casement and Miss McGibbon.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

Mrs. W. M. Shepherd, wife of the late W. M. Shepherd, who was well known in musical circles in Toronto, is visiting with her sister, Mrs. Giles Stone, Bethune street.

Mr. Will O'Brien commenced his duties yesterday morning as principal of St. Peter's school. His advancement during the past three years in the teaching profession has been rapid and notable.

Miss Lily Lawson, C.T.C.M., Toronto Conservatory of Music and Miss Jean Hamilton, "Elliott House," Toronto, are spending the holidays with their friend, Miss Lillian Little, 398 Boswell ave., city.

Mr. W. F. Crowley, the well known former Peterborough athlete, who accompanied the Edmonton hockey team on their cup hunting expedition to Montreal, arrived in the city on Sunday to spend a few days at his home here before leaving for the West. He witnessed the two cup games as well as the exhibition game in Ottawa on Saturday night and says that Edmonton has a splendid team and should have won the Stanley Cup with any degree of luck.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—25c. Sold by all dealers.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as fakirs when I met them. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skilful. I wrote them and got Their New Method Treatment. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only save $12 a week as I was three days off before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.

HENRY G. LOCOUT.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will create serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD cures all blood diseases.

YOUNG OR MIDDLE AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically, and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. Consultation Free. No matter who has treated you, write for an honest opinion Free of Charge. Books Free—"The Golden Monitor," (Illustrated) on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT, PRIVATE. No names on boxes or envelopes. Everything confidential. Question list and cost of Treatment FREE FOR HOME TREATMENT.

Cosgrave's Beer

Words of praise have ever prevailed in advertising "copy." That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash values in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something new on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information of what you have to exchange.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perwith the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

Heavy Blow for the Loan Shark

Montreal, January 4.—The loan-shark business received a heavy blow today when the court of King's Bench in appeal confirmed the judgment by which Julian Lalonde an agent of Tollman, the American king of loan sharks, was fined four hundred dollars or six months in jail for lending money on behalf of Tollman at illegal interest.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

Barbers' Banquet

The Barbers' Union held a very successful and enjoyable banquet at Hooper's Palm Gardens last night. A large number of the members were present and a good toast list was run off after due justice had been done to the menu provided.

Poultry Show

This is the first day of the poultry show and the directors of the association will be rushed all morning and afternoon receiving and placing the birds, and this evening the Market Hall will be thrown open to the public, and it will be open Wednesday and Thursday afternoons and evenings. Do not miss seeing the fancy poultry.

What Every Woman Requires for Headache Langour

Has your strength given out?

Do you feel languid and tired this spring?

Are you pale, somewhat nervous, finding it hard to do your housework?

Thousands feel just the same,—feel the enervating influence of spring, whether that brings out latent symptoms of disease and weakness. You should do like Mrs. Flannigan of Essex Junction—here is her experience. "I will never again suffer the torture of deadening spring illness — never will I have headaches, such sleepless nights, such pale cheeks and lack of appetite. I lived through it all several times, but now I know the medicine that cures. I urge every person, young and old, to try the invigorating effect of Dr. Hamilton's Pills. When I was so played out, listless,—Dr. Hamilton's Pills gave me appetite—I relished my meals and grew strong. Rosy color came to my cheeks, every day I felt lighter and better. All my old strength has been restored and the great tonic, blood purifying powers of Dr. Hamilton's Pills did it all."

(Women who are continually pale, blind and sick headaches, faint and dizzy spells, aching muscles, bearing, downs pains, lack of sleep and loss of appetite—they are the poor women that merely need Dr. Hamilton's Pills of Mandrake and Butternut, 25c at all dealers.

Private School

Mrs. W. J. Hall will Re-open Her Private School on Jan 4th at 234 Charlotte Street. Telephone 361 k.

The Interesting Route

To Manitoba, Saskatchewan and Alberta, is via Chicago and St. Paul, Minneapolis or Duluth. Through the brilliantly lighted St. Clair tunnel by electricity, without smoke, gas, or dust. Secure pamphlet, "New Route to Winnipeg and West" from nearest Grand Trunk agent.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

The Agincourt Murder

Continued from page one.

that there was trouble at the Blythe place?"

"Yes," said Mr. Walker. "We heard screams. We knew what was going on."

The Blythe children, who slept last night at Walker's, were present when he made this statement.

"Daddy often used to hit her," said little Reggie.

"He often did that."

"Yes."

"Did he swear at her?"

"Yes."

"What?"

"Last night."

SHE BROKE AWAY TWICE.

But the most terrible detail which the little fellow adds to the story is contained in his statement that his mother broke away twice before she finally succumbed. He had gone to bed before the end came, but saw his mother, earlier in the evening, jump through the window and make a dash for the neighbor's house. Later she escaped through the door. On both occasions, he says, his father caught her and dragged her back to the house.

A FEARFUL SIGHT.

It is impossible to describe the condition in which the body of the victim was found. It is impossible, also, to say without a post-mortem what blow it was which caused death, if one did. There are a couple of marks on the neck, but these do not appear to have resulted from blows. The real horror of the sight is provided by the lower limbs, which are a mass of bruises from hips to ankles.

It is no exaggeration to say that the legs are one huge blackened bruise. Their condition must have resulted from dozens upon dozens of blows, and administered with vicious intent. More than that, there are marks upon the poor mistreated limbs where other and earlier assaults have left their scars.

While it seems strange that a blow about the legs should cause death, it may be that the multitude of such which the poor victim received caused her constitution to succumb. Doubtless she had been weakened by repeated attacks.

Bottles of cough medicine were on a nearby dresser, and she may have been suffering from lung trouble as well. There appear to be no marks on the head, nor on the upper part of the body, except on the neck.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will smother the distorted flames of disease only, then return them to prostrate back to back again. That is impossible, but I can now surely kill the germs and poisons of uric diathesis the disease.

In Germany—with a Chemist in the City of Darmouth—I found the best ingredients with which Dr. Shoop's Rheumatic Remedy was made a perfected, concentrated preparation. With these best ingredients, I successfully treated many, many cases of Rheumatism; but now, at last, I will formally cure all curable cases of this horrible, death dealing disease. These cases generally women, found in Rheumatic blood poison to disappear and pass away under the action of this remedy as freely as does sugar when added to pure water. And then when Rheumatic blood poison is freely past from the system, and the cause of Rheumatism is gone forever. There is never the need—no actual reason to endure longer with one ache. We will, and in confidence invite you to

Dr. Shoop's Rheumatic Remedy

"ALL DEALERS"

But there are in the house mute witnesses of past events, not only in the form of flasks, but in the shape of bottles of turpentine and liniment. There are a number of these, and it is clear that the woman has been doctoring her own wounds as best she might.

When the final assault was made she was in the most unprotected condition possible. She was wearing only a grey dress and undershirt. Other undergarments she had none, and she wore no petticoats. Thus she received the full force of the terrible blows which were showered upon her.

One, at least of her fingers, was broken, and another badly cut in the melee.

Traces of refinement are visible amidst the poverty of the home. A large Bible and two or three other Bibles and prayer books were on one of the dressers. The large book contained the name "Amelia S. Cannett," doubtless the maiden name of the unfortunate woman. She got it on her birthday, Dec. 5th, 1891. In another of the books some one had written this:

"In moral books let bigots take delight.
He can't be wrong, whose life is in the right."

Final Meeting of Board of Education for 1908, Business was Wound Up

The final meeting of the old Board of Education was held last night with Chairman R. Fair presiding. The business for the year was wound up and the estimates for next year were prepared and passed, and will be submitted to the City Council. All the members were present except Mr. W. S. Robinson.

Before opening the meeting of the Board of Education last night, Chairman R. Fair congratulated Dr. Morrison and Mr. B. F. Ackerman upon their success at the polls on Monday, and he welcomed them to the Board again. For himself he expressed his sincere thanks to the ratepayers for the large vote that he had been tendered, and stated that during the coming year he would do his best in the interests of the people and the schools.

INSPECTOR'S REPORT.

Secretary Morrow read the annual report of the public schools, by the Provincial Inspector, which was on the whole very favorable and reflected credit upon the staff. A few changes were recommended and will be considered at once.

The Inspector also reported upon the new Collegiate Institute.

On motion of Mr. Hill and Dr. Morrison, the report was referred to the Supervision Committee and that the necessary appliances for the science department be purchased at once.—Carried.

FINANCE COMMITTEE.

On motion by Messrs. L. M. Hay and B. F. Ackerman, the Finance Committee's report was adopted as read.

ACCOUNTS PRESENTED.

The following accounts were received;—

BUILDING COMMITTEE.

To the Chairman and Members of the Board of Education;

Gentlemen,—Your Public School Building Committee, appointed to consider the claim of $100, by Rutherford Bros., of a balance due them on their contract for the King Edward School, beg to report that after careful consideration, and on the advise of the solicitor recommend that a cheque be issued to Rutherford Bros. for $4.00 in full settlement of their contract and all demands.

Your committee also considered the account of William Blackwell, architect, of $146 claimed by him to be due on the King Edward school abuilding, and recommend that a cheque be issued to Mr. Blackwell for $110, in full settlement thereof, Mr. Blackwell agreeing thereto.

All of which is respectfully submitted.

D. W. DUMBLE, Chairman.

To the Chairman and Members of the Board of Education;

Gentlemen,—Your Collegiate Institute Building Committee beg leave to report and recommend that Mr.

BRITISH TROOPS FIRE ON HINDOO RIOTERS IN INDIA

Religious and Racial Riots Broke Out between the Mahommedans and Hindoos

British Protected the Later—The Angry Mahommedans are Gathering

Calcutta, Jan. 5. — The religious riots between Mohammedans and Hindoos have taken a more serious turn again, requiring the intervention of British troops today at Titaghur, who fired on the Hindoo mob.

The Hindoos had resumed the attacks of two previous days on the Mosque at Titaghur, because the Mohammedans had sacrificed cows. The Hindoos destroyed the sacred furniture in the Mosque and partially demolished the walls.

Inflamed Mohammedans gathered to the defence of the Mosque and were subsequently surrounded by a military cordon which formed a barrier between the Mohammedans and the Hindoo rioters who assaulted the military in an endeavor to come to close quarters with the Mohammedans.

The troops fired upon the zealots, killing and wounding a number of them.

Isolated combats between Hindoos and Mohammedans are takig place throughout the disturbed district.

Mohammedans from more remote quarters are making their way to Titaghur to revenge the Hindoo insults to their faith.

Croup positively stopped in 20 minutes, with Dr. Shoop's Coup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—50c. Sold by all dealers.

Estimates of Board of Education for 1909

The estimates for the expenditure of the Board of Education for current expenses have been prepared and passed by the Board last night. They are as follows;—

EXPENDITURE.

Balance due bank, Dec. 31, 1908	$ 5,398 00
Salaries of teachers	31,000 00
Salaries of officers	2,300 00
Salaries of janitors	3,000 00
Fuel account	2,000.00
Printing and stationery	200.00
Repairs and furniture	1,600 00
Insurance	200 00
Incidental expenses	602 00
Domestic Science equipment	700.00
	$47,000 00

REVENUE.

Government grant	2,000.00
Amount required from City Treasurer	45,000.00
	$47,000.00

RECAPITULATION.

For Collegiate Institute	14,000 00
For Public schools	45,000 00
	$59,000 00

EXPENDITURE.

Balance due bank, Dec. 31, 1908	$ 6,446 25
Salaries, teachers and officers	16,000 00
Salaries of janitors	852 50
Fuel account	500.00
Printing and stationery	200.00
Maps, chemicals, etc.	200 00

Required to pay balance contracts to complete Institute	3,300 00
	$27,700 00

REVENUE.

Fees from pupils	$ 2,400.00
Government grant	1,300 00
Amount required from City Treasurer	14,000.00
Amount required by debenture	10,000 00
	$27,700.00

Peterborough's Poultry Show was Opened with 900 Birds on Exhibition

The Peterborough Poultry show in the Market Hall is in full swing and the spacious hall is nearly filled with coops from which the clarion call of the feathered inmates is heard repeatedly. Over eight hundred birds have arrived and some remarkably fine specimens are shown, the exhibit being well worth a visit even to those who have no particular interest in poultry, while the expert will find much to interest himself in. The directors and management had their hands full in finding room for the birds.

Every one in the city should make it a point to attend the show today, tonight or tomorrow. It is certainly well worth seeing.

Today Miss Mary Yates, the lecturer from the department, will give an address and demonstrations on the best methods of killing and dressing poultry. Chairs have been arranged in the north end of the building and no doubt a big crowd will take advantage of the opportunity to hear Miss Yates, who is well known as a lecturer and demonstrator in the poultry line.

NIGHT SHOW.

Last night was the first evening exhibition, and while the weather man was not favorable and it being the first night a good crowd was present. There are nearly 900 birds on exhibition and the number includes many of the best birds in Canada. One of the best known poultry judges stated to The Times that there were better birds here than in Toronto, and that they were also in better condition. The poultry show is a handsome one and an instructive one. Not only should the adults attend but every child in the city should be given an opportunity to see the chickens. The ladies especially will be interested as they can get many ideas for their new spring hats from the coloring and lacings on the chickens' tail and wing feathers.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Education will Cost the City $59,000 for 1909

It is estimated that the Board of Education will require for the Collegiate Institute and the public schools current expenditures for 1909 the sum of $59,000, and this sum will be asked for from the City Council. The following motion will give particulars of the amounts;—

Moved by Mr. L. M. Hay, seconded by Mr. John Crane,—That pursuant to 1 Edward VII, chap. 39, sec. 71, the Municipal Council of the City of Peterborough be, and they are hereby required to pay the treasurer of the Board of Education in monthly instalments, the money to be used

Dumble that the City Council be required for current expenses of the Collegiate Institute and Public school as follows;

January 15th, 1909	$15,000
February 15th, 1909	5,000
March 15th, 1909	5,000
April 15th, 1909	5,000
May 15th, 1909	4,500
June 15th, 1909	4,500
July 1st, 1909	4,000
August 15th, 1909	500
September 15th, 1909	500
October 15th, 1909	5,000
November 15th, 1909	5,000
December 15th, 1909	5,000
	$59,000

And that the secretary forward a copy of this resolution to the City Council.—Carried.

There is No Danger of Scarlet Fever

It will be good news to the citizens generally to hear that the scarlet fever epidemic which prevailed at the close of the last school term has been practically stamped out. The majority of the patients have recovered and there is now no danger to the children attending the schools.

Inspector Mowatt informed the Board of Education last night that all the schools had been thoroughly cleaned out during the holidays, and all danger of contagion removed. The parents are requested to send their children back to school at once as they will receive the full benefit of the term and of keeping the classes and teachers back with their work.

Four Senate Vacancies Are to be Filled Soon

Ottawa, January 6.—There are now four senatorial vacancies to be filled, two in Nova Scotia, one in Ontario, and one in Manitoba. In Ontario the vacancy was caused by the death of Senator Merner last summer, and in Manitoba by the death of Senator Bernier last week. It is likely appointments to fill the vacancies will be made prior to the opening of Parliament. In Nova Scotia, Mr. H. J. Logan, ex-M. P., is mentioned as being likely to succeed to one of the vacancies for that province. In Ontario the names of Adam Zimmerman, ex-M.P., for Hamilton, Hon. James Young, of Galt, and Mr. Cawthra Mulock have been mentioned.

The Complete Returns

The complete returns of the vote on the bylaws are as follows;

Result of Elections in Various Municipalities

There was considerable excitement in several of the Peterborough county townships Monday in connection with the municipal elections and in some cases the race for the honors was very warm. Others however were spared the excitement of a race, and in Smith, as was the case last year, there was no election, the etire board going in by acclamatio. This was also true of several other places in the district. Following is the list of the councils in the various townships so far received;

SMITH BY ACCLAMATION.

Reeve—R. S. Scott.
Deputy Reeve—Thos. H. Graham.
Councillors—J. H. Garbutt, Fred McKee and Wm. Davis.

OTONABEE CONTEST.

The elections in Otonbee resulted in the return of Reeve Joh H. Fife over William J. Porter, deputy reeve last year, by a vote of 489 to 305. Deputy Reeve Wm. H Stewart was elected by acclamation.

Councillors—
William A. Anderson—468.
John Miller—430.
Thos. G. Hasslet—370.
Donald K. Cameron—365.
The first three are elected.

THE FIGHT IN DOURO.

In Douro there was a warm race for the reeveship, resulting in the defeat of Dennis Maloey, who was reeve last year, at the hands of F. Moher, reeve two years ago. The figures were;

For Reeve—
Moher—254.
Maloney—227.
Councillors—
W. J. Charlton—264.
Michael Walsh—206.
B. Leahy—206.
Patrick Farley—191.
M. Maloney—177.
T. E. Jory—171.
A. Coughlin—175.
The first four are elected.

NORTH MONAGHAN.

Reeve John Brown (acclamatio).
R. A. Dobbin—130.
Walter McKee—132.
Jas. Morrow—132.
Wm. G. Bowden—130.
H. J. Forster—121.
G. H. May—116.
J. F. Clarke—99.
The first four are elected.

NO CONTEST IN GALWAY.

The Galway and Cavendish Council was returned by acclamation as follows;—

Reeve—C. Cohen.
Councillors—J. Clark, Wm. Hunter, Jas. Allen and A. Crigo.

BELMONT AND BETHUEN.

The council for Belmont ad Methuen were returned by acclamatio as follows;—

Reeve—Jas. A. Russell.
Councillors—A. A. Wilde, William Griffith, Wm. Rylott and Jas. Anderson.

ASPHODEL.

Reeve—Wm. Oakman.
Councillors — John McNaughton, Thos. Davidson, Maxwell Brown and Andrew Quinnan.

HARVEY.

D. Harvey, Robert Shaw was elected reeve over Jas. Ingram by a majority of 22, just reversing the results last year.

The old council was returned as follows—Thos. Elliott, Peter Graham, Hugh Allen and John McKenty.

ENNISMORE.

Michael Perdue was elected reeve of Ennismore Monday by a vote of 118 to 91 over John Young.

The councillors elected were — Wm. H. Crough, Wm. Harrington, M. O'Connor and T. H. Crough.

LOCAL OPTION AT LAKEFIELD.

The greatest interest was taken in the local option fight here on Monday, and the attempt to repeal the local option measure was defeated by a majority of 61.

A. J. Kidd was elected reeve by a majority of 59 over J. M. Bygott. The councillors elected were; Messrs. H. Moore, Clare Bravender, Arthur Robson and Rich. White.

The school trustees are ; Messrs. Chas. Tanner, Dr. J. Gibson and J. W. Ridpath.

NORWOOD.

For Reeve—
A. Breault—117.
C. E. Pakenham—102.
Councillors—
Chas. J. Blake—170.
John A. Robb—138.
A. B. Greenbank—132.
Hiram Lee—125.
George Elphick—110.
The first four are elected.

BURLEIGH AND ANSTRUTHER.

For Reeve—

	1	2	3	Tl.

R. McCauley	28	29	3	70
W. G. Stone	43	25	6	74
B. Windsor	7	35	11	53

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

Mrs. Blythe Died from Shock Following Terrible Beating by Husband

Agincourt, Jan. 5. — That Mrs. Blythe, who died here on Sunday night after a terrible beating by her husband, a C.P.R. sectionman, succumbed to the consequent shock, is said to be the conclusion arrived at as a result of the post mortem examination held at the Blythe house this morning.

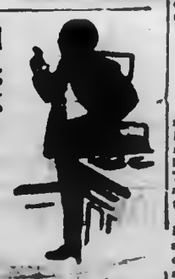
The examination was conducted by Dr. Silverthorne of Toronto, assisted by Dr. Chatterwick of Toronto. Dr. E. N. Coutts, of Agincourt, coroner, was also present, and Dr. Sicloy of Toronto, represented the prisoner.

The post mortem, which was thorough, lasted three hours and a half, and revealed a most horrible condition of affairs. The woman's legs beneath the discolored skin were a pulpy mass as a result of the hammering she had received. The bruises extended into the bone. No blow, however, seems to have touched a vital spot, and there were not many bruises on the upper part of the body. The cause of death seems to have been shock, resulting from a prolonged and brutal beating.

The inquest promises to be well attended, as now that the news of the murder has spread great interest is being manifested throughout the countryside. Stories, too, are being told of the manner in which the wife tried to conceal the ignominy of her brutal husband. She had always some excuse to account for the marks that used to appear on her face. Once she told her landlord that the black eye she had was the result of a fall from an apple tree, but her horrible death shows that these were only pretences.

The funeral will take place at 2 o'clock this afternoon, preceding which there will be a service at the house, conducted by Rev. Mr. Senning, of the English Church, Markham. No church service will be held on account of a smallpox quarantine.

Dr. Pierce's Favorite Prescription



is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of this same under oath.

It is sold by Medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" in either ignorance or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most precious possession—your health—may be your life itself. See that you get what you ask for.

Ald. Morrow's Card of Thanks

To the Electors of the City of Peterborough;

LADIES AND GENTLEMEN,—

I avail myself of this opportunity to sincerely thank you for your generous support at the polls on Monday last. I accept my re-election as alderman for 1909, as a substantial endorsation of my past public career in your behalf; and I assure you that my best efforts are always at the city's service in support and advocation of such measures as will enhance the general prosperity and progress of Peterborough as a whole.

With best wishes for the continued advancement of Peterborough as an important industrial and commercial center, and trusting that my record for 1909 will justify your renewal of confidence in me, I have the honor to remain.

Respectfully yours,

W. G. MORROW

Ald. Gillespie's Card

To the Electors of the City of Peterborough;

LADIES AND GENTLEMEN,—

I beg to thank you all for the splendid support I received Monday at the polls, which has resulted in re-electing me as a member of your Board of Aldermen for 1909.

I especially thank those of my friends who personally worked in my behalf, and whose exertions aided so much in giving me so large a general vote.

Believe me I fully appreciate the importance of your votes, and of the trust you have again imposed in me. I accept the verdict of the people as a vindication of my course in the council, which is very gratifying to me.

Respectfully yours,

George A. Gillespie

Card of Thanks

To the Electors of the City of Peterborough;

LADIES AND GENTLEMEN,—

I wish to thank you all most heartily for the support you so kindly gave my candidature, ensuring my return as one of the members here of the City Council for 1909.

Yours respectfully,

Harry Phelan

Interesting Facts

Food Knowledge on the Farm

With the Rural Free Delivery of mails, the farmer is as closely in touch with what is going on in the world, as his city brother.

What to eat, in order to get the best out of one's brain and body, is as important for the modern farmer as the manufacturer, business man or professional worker. An Illa. farmer writes:

"I am a farmer and was troubled with chronic indigestion for two years—suffered great agony and could find no permanent relief from medicines.

"A friend suggested that I quit using so much starchy foods, which are the principal cause of intestinal indigestion. I began to use Grape-Nuts and have continued with most gratifying results.

"Grape-Nuts food has built me up wonderfully. I gained 6 lbs., the first four weeks that I used it. My general health is better than before, my brain is clear, my nerves strong.

"For breakfast and dinner I have Grape-Nuts with cream, a slice of crisp toast, a soft boiled egg and a cup of Postum. My evening meal is made of Grape-Nuts and cream, alone.

"This diet gives me good rest every night and I am now well again."

Name given by Postum Co., Battle Creek, Mich. Read, "The Road to Wellville," in pkgs.

"There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

Absolutely Pure

ROYAL

BAKING POWDER

There is greater deception in the sale of baking powders than ever before. Closely observe the label and be certain of getting Royal.

STOMACH CATARRH

WATERY RISINGS, BELCHING GAS DIGESTIVE WEAKNESS.

Fred M. McKenzie Recommends a Scientific Treatment that Cured Him

New discoveries in the line of medical treatment have come before the profession of late years with almost alarming rapidity, but one that promises to outdistance all others in the treatment of stomach and digestive troubles is Ferrozone, which is a scientific combination of vegetable extracts and juices that soothe the stomach and improve digestion in a truly wonderful way.

So many are interested in finding a really good stomach medicine, that Mr. McKenzie, one of the most prominent citizens in Cambridge, tells of remedy he proved to be a "cure."

"Although my appetiet was poor and I ate little, I always had the sensation of having eaten too much. I experienced weight and oppression an hour or two after eating. Often I had heartburn, risings of a bitter liquid, coated tongue and bad breath. There was a continual gnawing pain in my stomach, especially before meals.

BAD CASE CURED.

"No case of Catarrh of the stomach and digestive organs could be worse than mine. I suffered the limit of human endurance for two years I doctored but didn't find the real remedy until I got Ferrozone. what a blessing that preparation must be to all mankind. I took one Ferrozone tablet at the close of each meal and in one week improved. In a month, although not cured, the improvement was steady. I continued to use Ferrozone for three months and was restored to robust perfect health. I would urge every man to try Ferrozone—in many ways it will do good.

In all cases of Weak Stomach, Indigestion, Nervousness, Palpitation of the Heart, Insomnia, General Debility, Chronic Dyspepsia, and all wasting diseases use Ferrozone, no remedy will so surely and quickly restore one to the full vigor of health and strength.

When you take Ferrozone every thing you eat tastes good, and every bit of the nourishment that your food contains is assimilated and appropriated by the blood and tissues. Try Ferrozone, all dealers, 50c. per box or six boxes for $2.50. Get it today.

HIGH SCHOOL FOR GIRLS

Chicago seems about to introduce an innovation in her educational affairs. Superintendent Cooley of the city schools has submitted his plans to the School Board for three technical high schools exclusively for girls, where graduates, it is his hope, will be turned out who can make all the "things mother used to make" and make them better. The segregation feature, it is anticipated, will meet the most determined opposition on the part of the Board, but the defeat of the proposal is not expected when it is shown that by segregation alone can all the desired results be obtained. In addition to advance courses in needlework, the girls will be taught to cook, to make their own clothing, to master all the difficulties of up-to-date housekeeping as well as the secrets of good marketing, with the minimum amount of money, music and millinery. Those who desire to enter trades to which women have been admitted, will also be given courses in the trades they select.

"I believe the technical schools for girls will be a big success," said Supt. Cooley, "Conditions are changing, and our plan is to send them out to make good wives or to develop into expert workers in the sphere they select for their industry. We have several technical schools for the boys, and they are a success. We have use for many more. This is the first attempt to give the girls tuition along the same lines, but in the work recognized exclusively for women. A boy or girl leaving these schools has a much better chance to cope with the existing conditions in the industrial world than one who has not had the advantage of the schooling. Boys would only be in the way when girls have their own work to do. It is the same as in the home. Boys are in the way in the kitchen and dining room when a girl has work to do. I cannot see anything but good in the segregation."

This is an experiment in education whose working out will be closely watched by everyone interested in the citizenship of the future. It has seemed to many for a long time that the chief fault with our present educational system is that it is not sufficiently practical, in that the boys and girls are required when they leave school to serve a full apprenticeship to the trade which they decide to follow for life.

The principle advocated by Superintendent Cooley of Chicago is a good one, and is applicable to boys and girls alike. It cannot but be fraught with splendid results. The Manual Training and Domestic Science departments introduced into schools in this country in the recent past have proved not only a popular but a very advantageous features of our educational system. The work done by the boys and girls in these classes already has justified the wisdom of the innovation made, while the possibilities that lie before these departments cannot be estimated in the least degree. Every school should have these departments and every school will have them just as soon as the public become seized with their importance and the advantages to be derived from them.

A GRUESOME POSSIBILITY

The theory that victims of electrocution are not actually killed by the shock, but are merely subject to a form of complete paralysis or coma, the duration and degree of which are problematical, opens up a vista of terrors which appears to have been lost sight of by those experts who are investigating the truth of the supposition. For one criminal who putatively expiates of deagin his sins against society by this means, there are ten, possibly a hundred innocent persons, to whom the mysterious fluid brings death or its next of kin. The public is comparatively callous as regards the criminal; it is immaterial whether the switching of the button sends him into eternity, or whether it requires the knife of a surgeon in a pseudo-post mortem examination to deal the coup de grace. The man dies, either in the chair, or a few hours later. But in the case of the victims of accidents by electricity, conditions are very different. The human mind has revolted in all ages from burial alive. Such a method of despatching a mortal was peculiar to the devilish doctrines of the Inquisition, and conceived, even in the Dark Ages, as one of the most potent influences, in the guise of example, toward inculcating a wholesome dread of defying a grim element in the community. The threat of premature interment was doubtless as effectual an incitive to confession in the Torture Chamber as any of the mere mechanical devices with which the more obstinate were coerced. Now, the possibility that those who have suffered severe shocks of electricity, and to all appearances died thereunder, are "not dead but sleeping," reveals a fathomless chamber of horrors which one can hardly realise at first. Perhaps the soul never awakens from its temporary dormant condition, and the dreadful sleep merges in actual death. If so, it is well. But perhaps not.

A COMPULSORY EDUCATION

The Presbyterian, in its issue of November 6, under the title "Education in Manitoba", says:—

"One of the most needed reforms in some parts of the Dominion is an effective compulsory education law. Attention has lately been called to the situation in Manitoba, where the conditions in some districts are little less than a scandal for any Canadian community. Our correspondent in the Presbytery of Portage la Prairie writes that he has visited one hamlet in his presbytery, where, at the time of his visit, he was assured that there were 32 children of school age, and only one, the son of the Presbyterian missionary, was attending school. The people of this hamlet were not foreigners. They were all, or almost all, Canadians, mostly of British descent, with one or two French-Canadian families. The school was a little distance out of the hamlet, and the parents were not sufficiently interested to send their children to it. In another school district, with a registered attendance of 40, the average attendance is only six. The teacher states that there are families whose children have never attended school, and in which the young men and women are entirely illiterate. This school district borders on a flourishing and progressive town. Its people are almost all of English speech, a few families being half-breeds. The children who are registered attend so irregularly that successive teachers have given up the attempt to make any progress as hopeless. Facts such as these, which are doubtless duplicated in many parts of the Province, surely call for legislation on the part of the Provincial authorities."

MILLIONS OF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Waisted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW wha it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world- Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—-to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Oursmelter thus erected will save 85% in treatment. freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era It is not an experiment ; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when her you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary. development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

PROVISIONAL DIRECTORS

ANDREW KELLEY, President Western Canada Flour Mills, Winnipeg
ROBT. MATHER, Gentleman, Vancouver, B C.
JOHN McVICAR, Grain Dealer, Winnipeg
DAVID L MATHERS, Contractor, Kenora, Ont
EDWIN LOFTUS, Barrister-at-Law, Winnipeg.
W. T. CREIGHTON Lumber Dealer, Winnipeg.
ROBERT C. BIRKETT, Financial Broker, Winnipeg.

TEMPORARY SECRETARY—R. C. BIRKETT, 255 Notre Dame Avenue.
SOLIITORS—Mulock, Loftus, Armstrong & Lindsay, Winnipeg.
BANKERS—Bank of Toronto, Winnipeg.
AUDITOR—W. R RAMAGE, Winnipeg.
TEMPORARY OFFICE OF COMPANY—255 Notre Dame Avenue, Winnipeg.

This Company is formed with the object of buying property in Winnipeg and Suburbs, particularly in the Eastern part of the Town, where, owing to the location of the Grand Trunk Pacific Railway Terminal Shops and Yards, great developments are bound to take place in the immediate future, more especially now that the huge Union Stock Yards are to be located in the close vicinity, where large numbers of men will be employed in the abattoirs.

The first acquisition of the Company cousists of a Block of land containing about 246 acres, situated on the Springfield (Dugald) Road and facing the site on which the shops and yards of the Grand Trunk Pacific Railway are now in course of erection. This property is described as lots 52 to 57 inclusiue of Roman Catholic Mission property, Plan 433, and has a frontage of half a mile on the Dugald, or Srpingfield Road, immediately in the centre of the site of the Shops, Round House, etc., where also the Station, Freight Sheds and Elevators, and probably the Main entrance to the Yards will be located. The land has also a frontage of three-quarters of a mile on the Government Road running South and between Sections 4 and 5, Range 11-4 E.

The land is thus the most favorably situated in the very heart of the developments which are now taking place around the huge establishment of the G. T. P. Shops and Yards. It is high and level being only a stone's throw from the Main Line, and is eminently suitable for sub-division into building lots, for which there is bound to be a good demand when the huge Shops and Yards are completed and in operation.

The contract for the erection of the new Locomotive and Car Shops was let to Thomas Kelly & Son's, of Winnipeg, on October 19th last, and this portion alone involves an expenditure of $500,000. The Locomotive Shops will be 823 by 174 feet, built of brick, steel and concrete, and will be equiped with the most modern plant for the repairs of all sorts of iron and steel work used in Railway operation.

The Shops will be the most extensive in Western Canada: the total expenditure being in the neighborhood of $5,000,000, of which the Government is contributing $1.500,000, the balance of $3,500,000 being paid by the G. T. P. Railway Company as their share.

As the location is too far from the City to make it possible for the employees of these Shops to live in Winnipeg, a bona fide demand for Building Lots, Market Gardens, Manufacturing Sites, etc., is bound to spring up, and there is no property in the neighborhood better suited to meet such a demand than one which the Company is acquiring.

The Shops and Yards are situated about 6 miles East of the centre of the city of Winnipeg, too far for the men to live in the City and to go to and from their work every day. As a consequence a new Suburb will quickly spring up, in the neighborhood of the Shops. The workmen will build houses for themselves and families near their work the Tradesman will come as required, and Banks, Schools and Churches will quickly follow. Such development does not take long, and in two or three years a Town of 6,000 to 7,000 inhabitants will be where today is open prairie!

An area of suitable land facing these Shops has been laid out in building lots intersected by 66 feet wide streets and with a 16 foot lane at the rear of each lot. The land is high and dry and there are unning wells on almost any part of it.

What happened when 3 years ago the Canadian Pacific Railway Shops were built? Lots on the South of them were first sold at prices ranging from $60 to $150 each; now they are mostly built on. A Large Town is in evidence having its Banks, Stores, Schools, Fire Hall, etc. The price of vacant lots in the C. P. R. Town today ranges from $300 each to $50 a foot frontage. The same will happen in East Winnipeg, and two or three years hence lots will be worth equally as much as those in the C. P. R. Town today.

The price of the property is $150,000 payable:—

$50,000 in cash on completion of purchase. $25,000 on June 1st, 1909.
50,000 in fully paid shares of the Company. 25.000 on Dec. 1st, 1908.

Interest on deferred payments of 6 per cent, with privilage of pre-payment at any time

There is a Torrens Title to the property, which will be delivered to the Company subject to the $50,000 mortgage.

Plans of the sub-division have already been prepared and approved by the Municipality, according to which the property sub-divides into 2,600 building lots. These lots will readily sell at an average price of $125 each, which is well under the mark, which would realize $327,000

Deduct therefrom cost	$150,000	
Commission on sales, surveying, etc., say	37,000	
		187,000
Which would leave a net profit of		$140,000

or more than 280 per cent on the Cash payment and nearly 100 per cent on the total price.

It is reasonable to suppose that sufficient sales of the property will be made to meet the payment of $25,000 due next summer, and some $15,000 of lots have already been disposed of at an average of $150 each. Contracts and payments already made on same will be applied on the second payment. In any case the value of the property will increase with every fresh development in the way of building that goes on, and there is no better investment in Winnipeg today than the one now placed before the public.

With the surplus funds of the Company, it is intended to go ahead immediately with the pegging and surveying of the property, and lay the Streets and erect as soon as possible workmen's dwellings, which will readily be snapped up by the employees working on the spot. This will be a largely profitable undertaking for the Company, and in addition to the 280 per cent. profit on the investment, will produce at least 30 per cent. or 40 per cent profit on the building enterprize.

THIS APPLICATION FORM MAY BE USED:

The East Winnipeg Townsite Development Co., Ltd. Winnipeg
(CAPITAL $200,000)

I.....of.....hereby apply for.....shares in THE EAST WINNIPEG TOWNSITE DEVELOPMENT CO., LTD. of the par value of $10.00 each and agree to accept the same or any less number that may be alloted to me.

I hand you herewith the sum of $.....being 20 per cent. of the total value of the shares applied for and agree to pay a further 30 per cent. on allotment and the balance in calls set forth in the prospectus.

I agree to abide by the By-laws of the Company.

Cheques and Money Orders may be made payable to the Secretary of the Company or its Bankers.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform with the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

Discovers Cure for Seasickness

Boston, January 6.—Dr. A. M.. Dougall, surgeon of the Allan liner Carthaginian, has discovered a new cure for seasickness. He has been experimenting with it for several years, he says, and on the trip just completed he put it a thorough test. The liner docked to-day, after as rough a trip as it had experienced in years, but not one of the fifty-seven saloon passengers was seasick.

Two women passengers started with all of the symptoms, but Dr. Dougall at once gave them a course in his treatment. He suggested to them that they could not be sick, and after hypnotizing them suggested the same thing. They got well at once. He tried it with all the other passengers as soon as they showed the slightest symptoms, and in every case there was not a recurrence.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours —and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventics—25 cents. Ask your druggist. He knows! Sold by all dealers.

Personal

Mr. Roland Reynolds of Wilkie, Sask., is visiting friends in the city

Miss Elinor Collins is visiting her mother, Mrs. A. J. Collins, in Mount Forest.

Mrs. Jas. F. Crowley, Water St., has returned to the city, after a week's visit with Lindsay friends.

Mrs. (Dr.) McNaughton of Mimico, spent New Year's with the doctor's sister, Mrs. Learmonth, Stewart street.

Miss Edith Hunter, Ashburnham, returned to Kingston yesterday to resume her studies at Queen's.

Mr. W. W. Dozzee, Ashburnham, has returned to Queen's University, at Kingston, after having spent his holidays with his parents.

Mr. and Mrs. W. B. Tapson returned Monday to Bowmanville, after spending New Year's with her sister, Mrs. W. R. Thompson, Stewart street.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

Mr. Jas. D. Cunningham, who has been spending the last few weeks the guest of Mr. J. H. Primeau, returned yesterday morning to his home in Ottawa.

Miss May Bill of the nursing staff of the Good Shepherd Hospital, New York, has returned to her duties after spending a two weeks' vacation at her home on Simcoe street

Major P. A. Davie, Mrs. T. G. Davie and Mrs. C. Aggett attended the funeral of Mrs. Davie's sister, Mrs. J. A. Galbraith, of Bowmanville, which took place on Saturday last in that town.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours —and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventics—25 cents. Ask your druggist. He knows! Sold by all dealers.

A marvellous trial reading of character by the well-known scientific phrenologist, Prof. McKellarr L. V., 21 Beaconsfield avenue, Toronto, whose public blindfold tests prove the reliability of phrenology. Send address and 10 cents silver. Enclose photo when possible. Will return with reading.

Serious Quakes May Occur This Week

Messina, Jan. 4.—At Niysa, between Messina and Catania, a freight train today ran into and telescoped an earthquake relief train crowded with injured persons, five of whom were killed.

Messina, Jan. 4.—Frank Perret, of Brooklyn, assistant to Prof. Matteucci, director of the Royal Observatory on Mount Vesuvius, speaking of the disaster here and in Calabria, says that other shocks are inevitable, as there is a flaw in the earth's crust where the slip occurred. He predicts heavier shocks for Monday, and declares that something, possibly very serious, may happen January 7 and 8, when the relative positions of the sun and moon will produce the greatest strain.

Saturday morning the fire broke out again in the municipal building. The city records were consumed and a high carried the burning papers far into the air and scattered them over the warships in the harbor. The fire communicated to the building of the Bank of Italy, where $15,000,000 in paper money was stored. The energetic efforts of the firemen and sailors, however, served to control the flames, and the money was removed to a warship.

PANIC ON SHIPBOARD.

Saturday night at 9.45 o'clock there was a fresh shock of earthquake, and a panic ensued ashore, and on board ship. Many of the tottering walls fell, but no fatalities were recorded. There have been a score of tremors since the disaster of last Monday morning, but this was the first that was distinctly perceptible. After this shock the fire in the municipal building flamed up again, and was burning fiercely when this despatch was sent.

ONCE DETACHED SICILY.

Earthquake experts who are here to study the phenomenon generally agree that the earthquake was the result of a fault in the geological formation under Messina, which constituted a line of contact in the volcanic action between Mount Etna and Mount Vesuvius, and that a slip occurred similar to the one which detached Sicily from the mainland.

That a subsidence occurred at some points and that there was a rising of the earth's surface at others is proved by soundings which show the channel of the harbor deeper at some places and smaller at others.

The British battleship Exmouth, which was at the Quebec tercentenary, at a distance of one-half mile mile south of Reggio, found fifty-eight fathoms of water where formerly there were two hundred and forty-three.

ADVERTISE IN THE TIMES.

Cosgrave's Beer

Words of praise have ever prevailed in advertising "copy." That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash values in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the nine billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery is installed and paid for. Development work is done exposing a quartz ledge 90 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 10 years more.

Write me, giving full information of what you have to exchange.

CALVIN ESTERLY,
717 Market St., San Francisco, Cal.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

BOARD OF EDUCATION

Continued from page one.

Gregor & Reid be paid the balance on their contract together with the sum of $283.80 being amount of their account for all extras, and for light fixtures, wiring, etc. Your committee have carefully gone over their bill with the architect whose certificate is attached thereto.

Your committee also recommend that Mr. C. A. J. Duranceau be paid the balance of his contract, together with the sum of $566.60 being amount of his account for all extras consisting mainly of fittings to laboratory, aquarium, fire protection, etc. Your committee have carefully considered this account with the architect whose certificate is attached thereto.

All of which is respectfully submitted.

M. A. MORRISON,
Chairman.

Mr. L. M. Hay in speaking of the estimates stated that the overdraft of $5,296.00 was due to engaging new teachers and the general increase in the salary schedule which was necessary in order to retain the efficiency of the staff and to secure new teachers of the highest standard.

Including the overdraft from last year of $5400 with an additional expenditure of $4700 increase in the salary schedule and $700 for the science department. The board would require $11,460 more this year than last.

INCREASED EXPENDITURE.

In regards to the estimates for the public schools, Mr. Hill pointed out that the $700 for domestic science department would all be paid back at the rate of $200 per year. Then there are today a sufficient number of teachers and the scholars will be given justice as was not possible in the past on account of the crowded condition of the rooms. Now more rooms are available and consequently more teachers have been engaged and their salaries along with the increased salary schedule make up the greater estimate this year than last. On the other hand the Board's grant from the Ontario Government this year would be greater. There are now some 20 first-class teachers engaged and the grant anyway will likely be increased by the Government.

Card of Thanks

To the Electors of the City of Peterborough:

LADIES AND GENTLEMEN.—

I wish to thank the electors of the city for selecting me as one of their representatives for this year in the Council, and as stated in my card, I will endeavor to honestly serve the city to the best of my power, irrespective of any other motive than the good of the city.

Again thanking you for my election.

Yours respectfully,

Joseph R. Metheral

Aldreman Hicks' Card of Thanks

To the Electors of the City of Peterborough:—

LADIES AND GENTLEMEN;

Please accept my sincere thanks for the voluntary and generous support accorded me in the municipal election on Monday. Coming without any solicitation or exertion of any kind on my part, your confidence places me under an obligation to you that I will endeavor to repay by carefully considering your interests in the management of this city's business.

Yours sincerely,

R. Hicks

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more, nothing less. Any one would know it to be a fact, if they could actually demonstrate it to be a question simply of a hidden tiny little nerve that really is all or [illegible] this disease—the Cardiac, or Heart Nerve—[illegible] and must have, more power, more stability, more [illegible], more [illegible] than all the other nerves combined.

This clearly explains why Dr. Shoop's Restorative in the past has made so many truly weak and ailing [illegible] the envy of all their friends, following a course of Dr. Shoop's Restorative treatment—it gives real, genuine heart nerve strength—it gives the very nerve and nerve force that is needed to make the heart do its duty—to make it strong, steady, reliable—to make it beat as it should beat—to make it do its work as it should do it.

If you would have strong, steady, reliable heart action, you must have strong heart nerves—no other kind will do.

Dr. Shoop's Restorative

Mr. Duncan's Card

LADIES AND GENTLEMEN.—

I take this opportunity of thanking my friends and supporters for their well directed efforts on my behalf during the municipal elections Monday. This renewal of your confidence in again placing me in a position to serve you on the Board of Aldermen, is very gratifying, especially as the vote was so general from all parts of the city.

Yours truly,

GEO. H. DUNCAN.

Ald. Bradburn's Thanks

LADIES AND GENTLEMEN.—

I have pleasure in tendering you my thanks for again endorsing my past record in the council by re-electing me to serve another term as one of your Board of Aldermen. I shall, as in the past, endeavor to merit your confidence. Such unsolicited support is certainly very gratifying, as I am more at liberty to use my own judgment in all matters coming before the council.

Yours respectfully,

W. H. Bradburn

The Peoples' Candidate thanks the people

To the Electors of the City of Peterborough:

LADIES AND GENTLEMEN.—

I take this opportunity of thanking you all heartily for your generous support at the polls on Monday last, which resulted in my re-election as your representative on the Board of Aldermen for 1909, by a very gratifying vote.

I fully recognise the importance of the confidence you have placed in me, and in the future as in the past, my best efforts will be directed in the interests of the community as a whole.

Believe me, I am much encouraged by the people's endorsation of my past public career, so substantially exemplified in returning me third on the list of aldermen elect; and I beg to remain now as always, "the People's Candidate."

Yours truly,

Wm. Buller

ONLY MORNING DAILY BETWEEN TORONTO AND OTTAWA

VOL. XXXII NO. 5 — PETERBOROUGH, ONTARIO, THURSDAY, JANUARY, 7 1909 — PRICE TWO CENTS

Will Select Chairmen of Standing Committees, A Few Suggestons

Who will be the chairman of the various committees of the 1909 council? All the aldermen and many citizens are asking or thinking that question. It will not be known until next Monday night or later. But the aldermen-elect will meet on Monday morning at eleven o'clock and take their oath of office and if the custom is followed a nominating committee will be appointed to select the chairmen and draft the standing committees for the year, or the new council may prefer to select their chairmen in open council and allow the chairmen to draft their own committees.

There are six standing committees and to be the chairman of one of them is the aspiration of most aldermen. The committees are:—Board of Works, Fire, Water & Light, Finance, Manufacturers', Property and Legal. The latter includes reception and joint with the county.

While nothing has been given out as to the chairmen, there can be no harm in commenting upon this momentuous question and if any alderman prefers to be given the committee recommended for someone else he is asked to remember that this slate is by no means official, nor yet was it suggested by any member of the council.

The Fire, Water & Light Committee will no doubt be the hardest one to fill. The policy of the late committee was made a feature in the past campaign, and while to the majority of the people it was satisfactory, there were some who opposed it. It may be possible that several men will look for that committee as it is now the second largest spending committee and is not exceeded very much in importance by the Board of Works, and yet there is much less work. It should therefore be the most sought after. To an outsider who has watched the municipal career of most of the men it would appear that Ald. Butler is the best man for that position. He was on the committee last year. He knows what is required and he is a man firm in his convictions and one who cannot be trifled with.

The Board of Works would naturally be offered to Ald. Phelan, although there are two new men in the council who have filled the same position.

Ald. Bradburn would be a good finance minister, while Ald. Morrow would be a strong man for the Manufacturers' Committee.

The Property Committee will be an important committee this year, as there will be the new public library and the isolation hospital to be erected. Ald. McIntyre has been a successful building contractor and he has been five years in the council. He should make a good man for that committee.

Ald. Gillespie, who headed the poll, would make an ideal chairman for the legal, reception and joint with the county committee. He is a careful, painstaking man with a general knowledge of municipal business which would fit him for the position and his wide acquaintance throughout the county would give him a decided advantage with the County Council.

Those not satisfied with the above selection will kindly communicate with this office at once and the correction will be made, or you may take your ideas direct to the council meeting Monday morning.

As Christ Would Live, An Experiment by 11-000 Young People

Cleveland, Jan. 6.—Eleven thousand young people of Cleveland will try to live the next two weeks as Jesus would were He on earth.

Aroused to a high pitch of enthusiasm by the Rev. W. B. Wallace, who addressed 1,800 delegates from three church societies of the city, the young people who gathered at Epworth Church tonight sobbed and prayed as they began the experience.

They will perform their ordinary avocations as heretofore, but in all their actions they will use Christ as a model. They will mend their dispositions, and will endeavor to keep in a cheerful frame of mind both at home and at their work. They will be careful what they say about their neighbors and friends, and will try in all things to lead an ideal life.

They will pay particular attention to their religion. Four denominations, Baptist, Methodist, Congregational and Presbyterian, are represented by the three organizations, and the members will attend all the prayer and other meetings at their churches, and will study the Bible in their homes. They will try to obey their leader's injunction to be gentlemen and ladies in the strictest sense of the words, and will lend a helping hand to those about them.

In an impassioned appeal, the Rev. Mr. Wallace urged them to live Christ-like lives.

"What would Jesus have us do?" he exclaimed. "Be a man. Be like a burst of sunshine. Learn to smile. Show your joy in your handclasp. Jesus was every inch a man. He would shake hands like a man, not like a giraffe, were He here to-day. Bring sunshine into the lives of others. Do not take up four seats at a time on the streetcar. Do not go to work ten minutes late, with a grouch. Be sunny. Also do not quit work ten minutes early, with a sour face. Christ would not do that.

"Be frank. If you are a 50-cent man do not pass yourself off as a $1 man. There was no shoddy in Christ's carpenter shop. Be honest in your religion. Lead a sustained life. Pray. Read your Bible. Urge others to read the Word.

"Christ is the world's gentleman. He would have us live as ladies and gentlemen. The titles are often misused. Let us claim the right to the titles in the coming two weeks. Christ worked. If you haven't a job now, get one. Don't be a loafer.

"When the temptation comes to be dishonest in business say 'No,' no matter what comes. Let's be honest in speech, too, in what we say about our neighbors.

"It has been said that we would weaken our cause by a two weeks' trial, a demonstration, of how Christ would live. I know there are those who have not been living up to the standard we now have set. I am sure that in the next two weeks they will live differently. This movement signifies that righteousness has come to rule the world."

Next Sunday another mass meeting will be held at Epworth Church, at which reports of progress will be made by representatives of each of the three societies. If the young people find that the task they have set out to perform is too hard and that they have trouble living up to their ideals, special prayer meetings will be held to encourage them and cheer them on. The pastors of the different churches have given the movement their sanction and have asked the young people to go to them for advice as to the course they should pursue.

At the end of the two weeks another mass meeting will be held, at which more reports will be made by those participating in the movement and an endeavor will be made to sum up the results.

The attempt of the young people to live as they think Jesus would live were He on earth is not to be accompanied by any outward sign of their participation in the movement.

PETERBORO' POULTRY SHOW ATTRACTING LARGE CROWDS

First Exhibition is a Great Success—The People Appreciate the Opportunity to See Good Birds.

Splendid Address and Demonstration given by Miss Yates—See the Show Today

The members of the Poultry Association are more than pleased with the success they have achieved. Their first exhibition has exceeded all expectations in the matter of the number of birds shown, their standard, and the patronage from the people. All the afternoon and evening people were going in and out and the big hall was comfortably filled all the time, while last night at times it was crowded.

Everyone is well pleased with the birds shown, and well they might be for they are indeed handsome ones.

SIXTY-NINE CLASSES.

There are sixty-nine classes of poultry represented and 900 select birds are on exhibition.

The heaviest divisions are the minorcas and light and dark brahmas and orpingtons. There is also a splendid class of plymouth rocks. There are eight varieties of wyandottes, a big class of Rhode Island reds and a heavy representation of black silver and golden hamburgs.

To the casual observer the large collection of fancy fowl has a special interest, as have also the games of which there are seventeen Indian games, eight exhibition games and some of the real old pit birds. There is a large section of all varieties of leghorns.

On a table at the south end of the building is a particularly fine showing by R. Westcott, of a dozen black minorca eggs, weighing 36 1-2 ounces to the dozen. A dozen buff orpington eggs on the same table weigh 23 ounces, and the difference in weight lends to the contention that eggs should be sold by weight and not by the dozen. It would seem that this would be to the advantage to both the seller and the purchaser.

On the same table is a pair of dressed buff orpingtons owned by John Mathieson, Manning avenue, and weighing 23 pounds. They are spring chickens and are a very fine pair, as their splendid weight would indicate.

THE OFFICERS.

Too much credit cannot be given to the officers and directors of the association. It was only a few months ago that the Peterborough Poultry Association took form, and it was organized when there was practically no interest taken in such an organization. But the boys got together and by sticking to it they have developed and their first attempt at an exhibition is most gratifying.

Mr. Geo. Paxman is the superintendent of the show, and he is looking after things like a veteran. The birds were cooped and have been very fortunate in having a chicker so late in the fall, or so early in the winter. As an advertisement and an attraction the poultry can not be beaten, and it is particularly good coming just at the time when the poultry show is on, and it is creating a lot of interest among the fanciers. Mr. Denne is himself a lover of thoroughbred fowl, and he spends a lot of time among his birds. Raising chickens and caring for them is in fact his hobby.

When asked by another poultry fancier how he managed to have a setting hen at this time of the year, Mr. Denne replied that it was a sure sign of an open winter. In spite of the sudden change and the report of the cold wave and blizzard coming from the west he sticks to the theory that the winter will be an open one.

Miss Yates' Lecture

The feature of the Poultry Show yesterday afternoon and last evening was the lecture and demonstration on the dressing and carving of chickens by Miss Yates of Guelph. This well known poultry lecturer has had extensive experience on large poultry estates in the Old Country and in Canada also. She has taken a course at the Ontario Agricultural College, and is now a departmental lecturer for the Ontario Government with headquarters at the McDonald Institute, Guelph.

The information which Miss Yates imparted yesterday, was the result of her observation and experience, and it proved to be of infinite value to the many people who listened to her. She has a very interesting manner and is a pleasing speaker so that it is a profitable pleasure to hear her.

The first step Miss Yates took was to explain how to purchase a young, tender and desirable bird in the market. A good bird can be picked out at a moment's glance by one who knows what to look for. The texture of the skin and the feet and legs indicate the condition of the fowl. After the chicken has been purchased it must be prepared and dressed for the table. This she did before the interested audience. The head was first severed and then the neck removed close to the body while the skin remained entact. Next the crop was taken out and by a series of simple movements the entrails were removed entact and without the slightest trouble.

In taking the legs off about an inch of the hock is left on which keeps the meat in place while cooking and makes a plumper bird when served.

Miss Yates had a cooked fowl on the table which she explained had not been properly prepared. However, she demonstrated the most modern way to carve and also the choice cuts on the bird. This information she gained from King Edward's own poultrier, so that those who followed her instructions will know that the King would be glad to sit down to the table with them and help eat their chicken. The wings are removed first and then the legs and the whole side of the breast is removed at once, and this is regarded as the very choicest cut on the bird. Miss Yates will also lecture this afternoon and there should be a big crowd in attendance.

"Supremacy of Christ in the Home Life" was Subject of Address

The third of the series of the week of prayer services was held in the George street Methodist church last night and was very largely attended.

Rev. Mr. Trumpour, rector of All Saints' presided, and Miss Reesor sang "I am happy in Him."

Rev. J. G. Potter was the speaker of the evening and his subject was "The Supremacy of Christ in the Home Life." He based his remarks on Ephes 6,6. "As the servant of Christ doing the will of God from the heart." He referred to the custom among the Greeks who had an image of piety in the halls of the town houses. The Romans' custom was the daily worship and the Jewish custom of the morning and evening sacrifice. He referred to it as the greatest privilege of the Christian life to give Christ the supreme place in the home life.

The words of John Hall were quoted;—"Make the God of Bethel yours and let your household go out in life under the influence of truth linked with every endearing memory and every sweet association of home, making it to them a type and prophecy of heaven."

Rev. Mr. Potter strongly emphasized the value of the family alter, and the fidelity of the parents with the children in the family pew; the faithful witness of the Christian life in the home and the daily example, especially of the father to the boys of the family.

The enemies of the home were referred to including envy, worldliness, hidden sin and drunkenness. He scored the liquor traffic as one of the worst enemies to home purity, and called upon Christians to do all they could to lessen the evils. In closing Mr. Potter quoted the following verse;—

Oh, happy home where thou are not forgot,
Where joy is flowing full and free.
Oh happy home where every wound is brought
Physician, comforter to Thee.
Until at last, earth's day's work ended,
All meet Thee in that home above,
From whence Thou camest,
Where Thou hast ascended.
The heaven of glory and of love."

Defence May Present Poison Theory in Blythe Case--Terrible Bruises

Agincourt, Jan. 6.—Will the defence in the Blythe murder case plead that the death of Mrs Blythe was due to some other cause than the beating she received? That they have thought of such a course was evident by the thoroughness with which the post mortem examination was conducted. In fact, it is stated that there is a possibility of the defence contending that death was due to some poisonous article, taken either deliberately or accidently. Mr. T. N. Phelan, the prisoner's counsel, when interviewed on the subject, stated that he could not say anything until he had seen Dr. Sisley, who represented him at the post mortem.

According to Dr. Silverthorne, however, the only cause to which death could be attributed was what was apparent. In other words, the woman died as a result of the beating. In order to fully satisfy the Crown that this is the case, and that there are no traces of poison in the system, portions of the woman's anatomy have been retained for the purpose of corroborating what the doctors say. If there is any objection on the part of the defence to the doctors' finding, these will be produced.

TERRIBLE BRUISES.

Speaking of the condition in which the woman's body, particularly her lower limbs was found, Dr. Silverthorn said; "I never saw anything to equal it. I have seen people with their heads broken, and their faces kicked in a street brawl, but I never saw such a mass of bruises as there were on this woman's legs. The flesh was literally bruised to the bone. It looked as though she had been injected, not only to one beating, but to many, perhaps extending over several days, to produce such a condition."

Another point brought out is that fact that the woman must have been dead for several hours before Blyth gave the alarm instead of dying at six o'clock, as stated. Dr. Coutts, who was the first physician on the scene, arrived there about half-past nine on Sunday night. He found that rigor mortis was beginning to set in, and as the house was warm, his would not occur until about eight hours after death, indicating that the woman must have died early in the afternoon.

A corroboration of this theory is the fact, stated to the press by Malcolm Walker, that he noticed that the house across the road, in which the Blythes lived, was very quiet during the afternoon, and Mr. Walker had, in fact, remarked that it looked as if the Blythes were away.

BURIAL OF MRS BLYTHE.

Mrs. Blythe was buried yesterday afternoon in the Presbyterian Cemetery here. There was a considerable attendance at the funeral, fourteen rigs following the hearse containing the body from the house to the burying ground. The funeral was conducted by Rev. Mr. Snelling, of Markham.

The children, Rosie and Reggie, are being kept by the Walker family. Strict orders have been issued that no one but the Walker family is to see them or speak to them until after the inquest.

LOSS OF APPETITE

NO AMBITION, LACK OF ENERGY, DYSPEPTIC, LANGUID

Under the Beneficent Action of Ferrozone Quick and Certain.

How common these conditions are. They are the outcome of the first life of our day, proving that waste is immensely greater than the power of our body to rebuild.

In order to cure, first construct the blood—change white cells to red ones, fill the blood with nourishment—do this, and the result will be in your case just as it was with J. E. Vanhorne, a prominent citizen of South Alexandria.

"Four years ago my health became very poor, I grew thin and yellow. I wasn't strong, lacked energy, and slept poorly. At breakfast I ate very little. My physician said it was a bad case of indigestion. I grew worse and many said I would die. I tried everything and almost lost faith in medicine. My mother had been reading about Ferrozone and advised me to try it.

IMPROVED IN FOUR DAYS.

"The change brought about by Ferrozone was marvellous. In four days I felt stronger and had better appetite. I enjoyed my meals and felt no more nausea. My digestion improved steadily and my general health continued better than ever. Ferrozone made a new man of me and I know of no tonic half so good."

FERROZONE CURES INDIGESTION.

When you take Ferrozone everything you eat tastes good—all your food is converted into nourishment that supplies vigor and strength to blood, nerves, muscles and heart. Can't you see just why Ferrozone cures? Not a case of weak stomach, heart palpitation, indigestion, gas bloating, headache or languor that Ferrozone won't cure. It agrees with men, women, children—old and young. harmless and pleasant. Sold everywhere, 50c. per box or six boxes for $2.50, at all dealers. Try Ferrozone—do so today.

Obituary

MRS. HENRY BEST.

The death of Mrs. Henry Best, wife of ex-Mayor Best, occurred at an early hour this morning.

Funeral will be held Saturday at two p.m.

Fuller particulars will appear in tomorrow's issue.

Peterborough Won Two from Keene

Two rinks of Keene curlers were in the city yesterday, and spent a very enjoyable afternoon and evening with the local curlers at the new rink. In the afternoon only one rink played. D. Hall skipped for the locals and W. Campbell for the visitors, with the score in favor of Peterborough. The rinks were as follows:—

Peterborough.	Keene
M. W. Lyle,	J. Bryce
G. Ferguson	J. C. Read
H. Foote	J. Moore
P. Lang, sk 12.	W. Campbell, sk10

Peterborough	Keene
Weble	Deen
Campbell	Bell
W. Reid	McWilliams
W. Talbot, sk.14.	McCamus. sk8

Mrs. Jas. F. Crowley, Water St., has returned to the city, after a week's visit with Lindsay friends.

Week-Old Chickens on Exhibition at Denne's

One of the most novel exhibits seen in any window in Peterborough are the chickens in Mr. R. Denne's window on George street. One window is divided into two coops with three full grown minorcas in one, and the other contains a buff orpington hen with five chicks not more than a week old. Chicks hatched by a hen at this season of the year is most unusual and Mr. Denne was

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs.

Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

Ten Rinks were on the Ice Last Night

The first of the schedule rink games in the new curling rink were played last night with ten rinks playing. The ice was in the pink of condition and the night was the liveliest this year. All seven ices were in use and the men had great sport. Every one has only the highest praise for the rink, the ice and the lighting system, and these will do much to advertise Peterborough as a curlers' town.

ADVERTISE IN THE TIMES

Britain and the U.S. Warning China

Pekin, Jan. 6.—The British, the Japanese and the American Ministers are acting upon the principle that the situation brought about by the dismissal of the Grand Councillor, Yuan Shi Kai, requires a strong attitude on the part of the Powers and a warning to the prince regent against any administrative act that might endanger the peace. The German, the Russian, and the French ministers appear to be without instructions from their Governments, and are awaiting developments.

Officials of the Chinese Government have intimated that inquiries concerning the treatment of Yuan Shi Kai on the part of the legations would be unwelcome, and that moreover the Chinese Government is not prepared to receive representations from foreign governments on the subject.

Peterborough Lost to Port Hope by a Score of 6 Goals to 5

The junior O.H.A. hockey game in Brock street rink last night, was not overly interesting from the spectators' point of view. The Port Hope boys won by a score of 6—5, but the game, while a fair exhibition of hockey, was not at all exciting or strenuous. The first half was particularly void of sensations. The teams did not seem to possess the usual amount of ginger. The half ended 4 to 1 in favor of Port Hope. The second half was somewhat faster and at times both teams showed a little combination. The scoring in this half was a little more in favor of the locals, who managed to notch up 4, making their total 5, while Port Hope only got two more.

Referee Moxon of Toronto, was satisfactory so far as the crowd was concerned. He endeavored to do his best but the crowd was out of sorts and hard to please.

The line-up was as follows;—

Peterborough.	Goal.	Port Hope.
Giroux	Point.	Record
Wade	Cover.	Nixon
Fox	Center.	Nowthin
C. Giroux	Rover.	McMillan
Rae	Right.	Brown
Shortt	Left.	Dow
Pentland		Stevenson

Referee—Moxon, Toronto.

There were no games in the P.B.C. ten pin tournament last night, as the two teams which were to have played were watching the hockey match between the Peterborough and Port Hope junior O.H.A. teams. There will be two games tonight however.

Mr. J. E. Bennett of Toronto, is the judge, and he will complete his duties this morning. He started yesterday afternoon and he had a big job ahead of him. Mr. Bennett is one of the best poultry judges in the Dominion, and has officiated at shows from the Atlantic to the Pacific, and he is loud in his praise of the Peterborough show which he states compares very favorably with the Toronto and Guelph exhibitions.

The list of prize winners will appear later.

Nervous, Diseased Men

DRS. K. & K. ESTABLISHED 20 YEARS

A NERVOUS WRECK

Consultation FREE. Question Blank for Home Treatment sent FREE. Reasonable Fees for Treatment

ROBUST MANHOOD

We Guarantee to Cure all Curable Cases of Stricture, Varicocele, Nervous Debility, Blood Poisons, Vital Weaknesses, Kidney, Bladder and Urinary Diseases, and all Diseases Peculiar to Men and Women.

Don't waste your time and money on cheap, dangerous, experimental treatment. Don't experiment at your own cost your sufferings by being experimented on with remedies which they claim to have just discovered. But come to us in confidence. We will treat you conscientiously, honestly and skillfully, and restore you to health in the shortest possible time with the least medicine, discomfort and expense practicable. Each case is treated as the symptoms indicate. Our New Method is original and has stood the test for twenty years.

DRS. KENNEDY & KENNEDY

Cor. Michigan Ave., and Griswold St., Detroit, Mich.

Canada Cuba Land & Fruit Company (LIMITED)

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands.

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

WHAT'S IN A NAME?

Not much sometimes, although sometimes there is a great deal. There is one name which is not so much used now as formerly, and it ought to be dropped entirely until reason arises for reviving it. It is the use of the term "Northwest" to describe central Canada. This practice is not so common as it used to be, but it is geographically wrong. When Canada took over the Hudson Bay territory it was natural enough for the people of the eastern provinces to speak of it as the Northwest, but Manitoba, Saskatchewan and Alberta are not Northwest provinces any more than British Columbia is. As a general rule British Columbia people have ceased to refer to the central provinces as the Northwest, but even they have not wholly dropped the habit. Yukon Territory is the Canadian Northwest. The use of the expression does not signify very much here in Canada, but it is misleading when used abroad. It conveys the idea of Arctic climate and causes people to wonder how the Northwest part of the Dominion can be habitable at all. Of late years Manitoba has managed to escape from the title. When the term "Northwest Provinces" is used, Saskatchewan and Alberta are meant. Thus we read of "Manitoba, British Columbia and the Northwest Provinces," although all four of them are within the same parallels of latitude. We would have supposed that the press of Alberta and Saskatchewan would long ago have rebelled at this improper nomenclature.

TO PROTECT OUR FORESTS

The great waste of timber resources caused by forest fires in Canada during the past few years shows that present measures for forest protection are inadequate. That negligence and carelessness are responsible for the majority of forest fires those who have inquired into the subject are agreed, but notwithstanding the campaign of education on the subject forest fires still continue on a large scale.

The movement started some time ago with a view to having the Government take more definite action in the protection of forests, and to make the breach of the forest protection laws punishable by imprisonment without option of a fine should have good results, remarks the Berlin Telegraph. The object aimed at is not merely to increase the number and enlarge the powers of the forest wardens but also to compel every camper to either extinguish his fire or keep it under guard by night as well as by day, and to prevent any stumps or underbrush being fired within a reasonable distance of the standing timber; and to make railways and factories whose tracks or works are within the forest responsible for the protection of the forest to a given distance on each side of the railway track or the factory.

AN INTERESTING DEMAND

The coal fields of Pennsylvania seem likely to present a novel phase of the industrial situation next year when the miners will demand that the mine operators shall not only formally recognize their organization, but shall also collect the union dues and hand them over to the miners' federation.

The agreement arrived at at the conclusion of the great strike of 1902 was renewed in 1906 after several weeks of idleness by the men, and negotiations between the operators and the men in which each side started out with the demand of concessions. In the summer of 1905 the membership of the unions had fallen very low, but John Mitchell got many of the men back into the ranks. He did not, however, dare provoke a serious fight because, as he himself admitted, he did not believe the men would hold out. As soon as a strike is over or an agreement signed, the miners drop out of their unions. Great efforts have been made during the past few months to recruit the unions to their full strength and the leaders are reported to be fairly well satisfied with the results.

Negotiations will probably begin before the expiration of the present agreement, April 1 next, but there is little hope that an agreement will be reached until there shall have been a trial of strength. The representatives of the miners demand the abolition of the present Conciliation Board and propose an agreement to be reached by both parties, according to the terms of which all disputes shall be settled. But their most interesting demand is in these words:—

"We demand the complete recognition of the United Mine Workers of America as a party to negotiate a wage contract, and that the United Mine Workers of America shall be recognized in our right to provide any method we may adopt for the collection of revenues for the organization."

In other words, says the Ottawa Free Press, the union not only demands recognition of its organization, but so far as to ask that the employers shall assist in financing it for any future struggles. To this demand the operators will not consent, and unless it be modified before April this continent may again be face to face with another great struggle in the coal fields of the United States, for it is difficult to imagine that a fight over such an issue could be confined to Pennsylvania.

The adoption of the miners' plan would involve the collection of the union dues from all miners, whether union men or not; it would ensure the United Mine Workers an annual revenue of a million dollars; and it would mean that their war chest would always be filled.

But, as in all industrial struggles, it will be the public who will suffer, and therefore coal consumers will hope that during the present winter Mr. Roosevelt will be able to bring about a conference between the miners and the operators by which a modus vivendi shall be reached and a great strike averted.

THE ENGLISH IN INDIA

It is becoming the fashion in certain quarters to exclaim against the horrors of British rule in India. We have before us a copy of "Free Hindusthan," a periodical published in New York, and purporting to be "an organ of freedom and of political, social and religious reform." Its motto is: "Resistance to tyranny is service to humanity and a necessity of civilization." It is published to promote "the liberation of Hindusthan, that millions may be saved from the starvation caused by the legalised pillage of India by the British government." On its first page it has two pictures of famine victims. Its reading matter is all directed against the British government. It is edited by Bande Mataram, and its chief purpose seems to be to raise money.

Mr Bande Mataram conveniently shuts his eyes to the history of his own country. He would not dare look at the facts and then claim that British rule has done harm to India, that is, that it has produced worse conditions than those which existed before the days of Clive. He can, however, attract a certain clientele by claiming that England robs India. Here the facts are against him, but why should a reformer pay any attention to facts! Mr. Mataram has a soul above facts. We have at hand a London despatch of the 15th, which contains some statements that are interesting in this connection. A Hindu writer is quoted as saying that £30,000,000 are annually sent from India to England. Mr. Charles McMinn, who has lived forty-five years in Hindustan, says that the shoe is on the other foot and that India gets a great deal more money and bullion than she sends away. He points out that during the last year that country only exported £9,000,000, whereas £28,000,000 were received, showing that the country was richer in cash and bullion by £19,000,000 on the transactions of the year. Mr. McMinn quotes Mr Kier Hardie as saying that in the last forty years 30,000,000 of the people have died in poverty, and points out that the official returns put the number at 1,000,000. He shows that the purchasing power of the people has increased three-fold in the last twenty-five years, while their trade has increased over 200 per cent., which is a greater increase than the United States can show. If India were being starved by British rule we would look for a decrease in the population, but there is an increase. British rule in India has brought order out of chaos, and if it were once terminated there would be a repetition of the dreadful incidents, which have made the history of the country so terrible. That more might have been accomplished than has been may be true; that much remains to be done is beyond all doubt, but we feel very sure that the impartial investigator will have to concede that with all its shortcomings India is the better for being under the British flag.

A BANKER'S FAITH

At the 140th annual banquet of the Chamber of Commerce of the State of New York, Mr. Byron E. Walker, president of the Bank of Commerce, delivered an address upon the industrial future of Canada. He began by explaining why in the matter of population and industrial development the United States is so far ahead of this country. Though the first colonies in both countries were established about the same time, the War of Independence united the thirteen States into one nation almost a hundred years before Confederation made a Dominoin out of the different Canadian provinces. Not till 1886, when the Canadian Pacific Railway was completed, could Canada be said to be one country. It was not till 1870 that ownership of the great prairies of the West passed from the control of the Hudson's Bay Company; and whereas the tide of immigration has been flowing into the United States from Europe since 1830, it was not until almost sixty years later that Canada was ready for her settlers.

He proceeded to give a few figures to indicate the growth of Canada's trade, with a view of giving emphasis to the real point of his address, which was to be made later on. In 1880 our imports were $140,346,000, and our exports about a million more, our total foreign trade being just less than $280,000,000. Nine years later our imports alone were nearly $42,000,000 greater than our total foreign trade in 1880; our exports were $27,000,000, and our total foreign trade nearly $615,000,000, a growth of more than 100 per cent. in nine years. Only one feature of Canada's present position with regard to foreign trade is unsatisfactory. That is the preponderance of imports over exports. Now, as Mr. Walker remarked, the good old idea used to be that while nations settle their accounts with bills of exchange and other forms of money, in reality they only exchange goods with each other; and also that if one nation bought from another very largely in excess of its power to pay in goods, it must look to the nation it was buying of so largely to buy the securities which must be sold to pay the balance.

This principle of international exchange is not honored in the case of Canada and her foreign buyers and sellers. In the last ten years we have bought from Great Britain to the extent of about $600,000,000; from the United States we have bought $1,439,-353,000, and from other countries we have bought $371,450,000. We have sold to Great Britain $1,174,000,000, to the United States $767,250,000, and to other countries $250,500,000. Great Britain therefore takes our products far beyond our purchases from her, and she takes most of our securities as well. The United States sells us 60 per cent. of what we buy abroad, but she buys only 35 per cent. of what we have to sell, and she very rarely buys a Canadian security. This is all the more regrettable, since the United States can understand better than European countries that we cannot build railways and in a general way put a country in condition for settlement without mortgaging our future. These securities are the mortgages, but the United States for the most part refuses to look at them. Of late our purchases from Great Britain have been improving, and there has been a better tendency with regard to our bonds in the United States.

"But", said Mr. Walker, "I ask you whether you consider it likely that trading relations so one-sided can continue for ever? Beyond a peradventure, if you do not open your doors a little more liberally to us, so that we can more nearly pay you in goods, instead of always drawing on London for the purchase price of what she has bought from us, in order to pay you, you will leave us no alternative but to keep up our tariff walls until we can create at home almost every manufactured thing on the one hand, while on the other we seek trade preferably with any nation which takes pay in goods, so as to lessen our payment of actual money to you. Believe me, my dear friends, that I am bold enough to say these things because some one should say them, and because you of all bodies in the United States are the one to which they should be said."

After this plain speaking Mr. Walker went on to show why he and all other Canadians have faith in the future of their country. As to the amount of wheat we should raise in the West he made no predictions. Clearly it would be enormous, for every year we are finding out that wheat will grow farther north than we had thought twelve months earlier. Our timber, although it is not inexhaustible at the present rate of cutting, can be made sufficient for all time if we are willing to learn the lessons in forestry that our universities are desirous of teaching. We have more fishing waters than any other nation in the world, although they have been shamefully abused and neglected by Governments. We have iron, nickel, copper and coal enough to rank with the greatest nations in this respect, and if we are only eighth among the nations of the world in the production of gold, we are likely very shortly to take high rank in silver, when the Cobalt camp is shipping $1,000,000 of ore every month.

After mentioning our great industries of dairying and stock raising, our wonderful waterways and water powers, our climate and our growing manufactures, Mr. Walker concluded: "Finally, we are a contented people, with a fine birth rate and hardly any illiteracy, loving law and order and insisting on it in every mining camp and on the rudest frontier line. We hope to build up a nation as free as any in the world with our own peculiar institutions, with a share of some kind in the British Empire, and with relations with your great country, which should through the coming ages be of benefit to both nations, materially, intellectually and ethically."

A REFORMED POLICE SYSTEM

The remarkable development in the Simcoe police shooting case is fortunately a rare incident in the annals of police history in Canada. It is not often that the very policemen themselves plunder the people who pay them for protection. As a rule the police are true and loyal to their trust. At the same time the incident draws attention to the necessity for a complete overhauling of the constabulary system as at present in existence in Ontario. At present there is no provincial system which keeps the police in constant touch with one another. And only by keeping in close touch can criminals be effectively captured and evil-doing minimized.

At present there is a Provincial detective force, county constables and the town and village policemen. These three main bodies have separate entries and the two latter will not work outside their own individual narrow limits. It seems to us that it ought to be possible to devise a system which would permit these three bodies to work together in harmony, without any haggling and delay as to who is going to pay the constable for duties performed outside his own limits.

Furthermore we believe it would be a good thing if some sort of itinerant system could be arranged which would move police chiefs and sergeants about every few years from one part of the country to the other. This would prevent the officers from getting stale in one place and would in addition make them acquainted with other parts of the Province. The latter knowledge would be of immense advantage to a smart police officer in the performance of his duties. A few mounted policemen scattered through the province, also, would greatly assist in the perfecting of an efficient system of policing Ontario.

The reform is bound to come some day: why not make a start now?

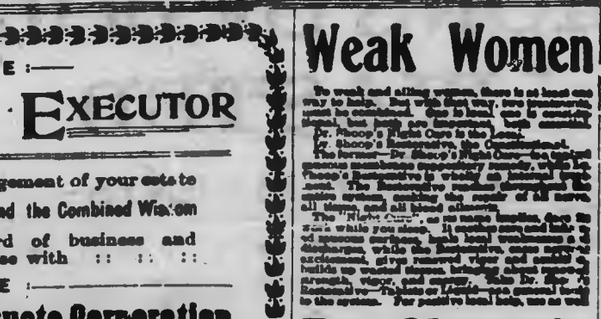
THE ENGINEERING MAGAZINE

The leading place in The Engineering Magazine for January is given to the first of a series of two articles by J. G. H. Kerry on the Georgina Bay Ship Canal, one of the major projects now under consideration by the Canadian Government. In the present instalment Mr. Kerry outlines the history of the Ottawa and French Rivers as transportation routes and of previous projects for their canalization to admit of navigation by ocean-going vessels, and he describes at length the scheme which is to be submitted for the approval of Parliament during

Weak Women



Dr. Shoop's Night Cure

"ALL DEALERS"

the coming session. The concluding section next month will discuss the economic possibilities of the canal.

Illustrations have been used lavishly in the presentation of Jacques Boyer's review of the methods of microscopic metallography and its use in French industries, and W. F. Bradley and H. W. Perry's timely description of the apparatus for power generation and transmission used on the successful aeroplanes of Europe and America. Reginald Pelham Bolton continues his illustrated discussion of means and methods of heating the feed water of steam boilers with a consideration of the economy of live-steam heating, and Arthur Selwyn-Brown concludes his survey of West Australian gold-mining practice with an illustrated review of the methods of gold milling and cyaniding. In the seventh instalment of his series on efficiency as a basis for operation and wages, Harrington Emerson shows how wastes are detected and eliminated. Chas. A. Howard concludes his review of the development of the small steam turbine with a survey of the field to which this type of prime mover is adapted, and C. E. Knoeppel, in the fourth article of his series on systematic foundry operation and foundry costing, discusses the importance of the various elements entering into production cost and shows how they are apportioned to production. The number carries also the full Review of the Engineering Press and The Engineering Index.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

Keene

The nominations for Reeve, Deputy Reeve and Councillors took place in the Town Hall, Keene, on Monday at the hour of twelve o'clock. Mr. Stewart was elected Deputy Reeve by acclamation. The persons for Reeve are J. Fife(the present Reeve) and W. J. Porter (the present Deputy Reeve). Those for Councillors are D. Cameron, J. Miller, W. Anderson, and T. Hazlett. At one time of the proceedings, the ratepayers had come to the conclusion that a minature Burns and Johnston affair was going to take place. But we are pleased to report that it all passed over, with only the tongues being used for weapons. The election is to take place on January 4th, 1909.

The annual meeting of the ratepayers of Public School No. 4 was held on Wednesday the 30th in the School House. Mr. Jas. McNeil was elected chairman and Mr. Andrew Shearer Secretary. The annual report of the School Board was read by M. D. Wallace the secretary of the Board. It was accepted. The next order of business was the election of the Section's Auditor. Mr. Jas. McNeil was elected by acclamation. The final order of business was the election of a trustee to take the place of Mr. A. Stewart the retiring member of the Board. The following gentlemen were nominated and voted on:—

Name.	No. of Votes
A. Stewart	2
John McFarlane	2
W. Wedlock, &c....	2

Mr. Wedlock was declared elected for the years 1909-10-11.

A very pretty wedding took place at the residence of W. T. Harrison, M. D., when his only daughter Mabel, was united in marriage to Mr. Torrance Sharpe (Manager of Bank Montreal, Winnipeg). Miss Harrison entered the room to the accompaniment of the wedding march ably rendered by Miss S. Campbell, Peterborough. She looked charming in a fine dress of Duchess Satin, and was assisted by Miss Miller of Oxbow. The groom was supported by Mr. Boyd, son of Chancellor Boyd. Miss Steel ably filled the position of Flower Girl. The bride was the recipient of a large number of beautiful and costly presents, showing the esteem in which she was held by her large circle of friends. The happy couple left on the 2.20 train for Montreal and other eastern points. They will reside in Winnipeg in the future.

We regret very much to report that Mr. Martin Kennaly had the misfortune to fall on Monday and break his hip. As Mr. Kennaly is 82 years of age it is thought that he will be considerable time before he is able to move about again.

Mr. Thos. O'Neill, of Hastings, is in the village, where he will undergo treatment with Dr. Harrison. We hope Tom will soon be all O. K. again.

The Ball held at Lang on Dec. 30 was a grand success. Messrs. McFarlane and Miller furnished the music. The floor was ably managed by Mr. D. Kennaley, of Keene. Mr. Kennaly is one of the best (if not the best) floor managers in the Province.

The I.O.F. intend holding their annual Ball and Oyster Supper on January 8th, 1909. The usual excellent time may be expected.

ADVERTISE IN THE TIMES.

Cause of Earthquakes

There is no doubt that we know more about the heavens above than of the waters under the earth. Whether there are waters under the earth is one of the things we do not know; but the common assumption is that the interior of the globe is in a molten condition, and that the earth upon which we move is a mere crust. A few years ago it was taught that this crust was not more than 30 miles thick at any point, and only a few hundred feet thick at others. A better understanding of tidal action has tended to discredit this theory, for even with a 30-mile crust, 3,000 miles of molten rock, affected in the same fashion as the ocean by tidal action, would be likely to undergo violent alterations of form daily, and there would be terrific earthquakes twice every 24 hours.

ONE WEAKENED THEORY.

The Sicilian disaster is likely to cause scientists to overhaul their kit of knowledge used to dress up theories about earthquakes and volcanoes. That volcanoes occur where the earth's crust is thinnest, and that earthquakes haunt the same districts is true; but, apparently, it is not true that volcanoes offer protection against earthquakes. The theory has been that the volcano is a sort of escape valve, through which pour the destroying forces and vapors that otherwise would produce an earthquake. The Sicilian earthquake took place in the vicinity of Mount Etna; and on this occasion the safety valve failed to work. While this incident has the effect of weakening the safety valve theory, it tends to strengthen another doctrine, to wit, that earthquake disturbances are often quite insulated, as though they happened in a sort of earthquake chamber, which prevented their spread to adjacent areas, also highly productive of disturbances on their own account.

NOT SAFETY VALVES.

An earthquake, they say, is an uncompleted effort to establish a volcano. Therefore, disturbances in non-volcanic regions, such as San Francisco, would in theory, be less violent and less frequent if a volcano should be upheaved some time. The Sicilian tragedy, as noted, will disprove of the idea that eruptions prevent quakes, and that the zone of immunity extends for a distance of 100 miles or so from the active crater. Our established ideas about earthquake zones remain unchanged. Sicily has been famed for both earthquakes and volcanoes. The St. Lawrence Valley, the west coast of North America, New England, the Mississippi Valley, Scotland, Algeria, Syria, India and the Himalayas are all on the earthquake zone, though far removed from active volcanoes.

HOW EARTHQUAKES ARE CAUSED.

In one respect the Sicilian earthquake bears out a scientific generalization, which is to the effect that these disasters may be looked for chiefly in mountainous districts lying very close to the sea. The idea is that they are caused by sea water penetrating clefts in the bottom of the ocean, and rushing down and in until they reach a spot where there is great heat. Then ensues a struggle between the ocean torrent and the terrestial fires, which terminates in the water becoming heated, until it is transformed into steam. Then, as steam requires 1,700 times as much space as the water from which it was generated, there comes the explosion, the earthquake, and, perhaps, the volcano. There is another theory, which may be called the non-volcanic theory. That is, that, as the interior of the earth contracts, the strata above sink down to fill the clefts or caverns that have developed. As millions of tons are thus dislodged, and as they may fall great distances, the force of the settling down might well jar the earth for hundreds of miles in all directions.

SCYLLA AND CHARYBDIS.

The old idea of seismic disturbances was that they were the work of demons or manifestations of the wrath of God. More than 3,000 years ago the mariners who had business in the waters of the Straits of Messina dreaded the coast. There dwelt Scylla in a cave in a bluff fronting on the straits, and he was represented as being a monster with twelve feet and six heads. Each head was equipped with three rows of teeth, and the monster could dispose of six seamen at a gulp. Opposite Scylla was a low ledge and about it the waters were alternately sucked in, and belched forth. The vessel that came within a certain distance of this whirlpool was doomed. But to keep clear of Scylla it was almost necessary to enter the whirlpool's grip, and so Scylla and Charybdis became famous in Homer's day, and have lived since as a powerful figure of speech. We have learned much since then, but less about the mysteries of the earth's interior than almost any other subject.

Jack Miller is a Native of Otonabee Township

Two men who have sprung into the limelight in the athletic world during the past few days are Harold Deeton and Jack Miller, the two home-brews who distinguished themselves on the Edmonton challenge team in their game with the Montreal Wanderers for the Stanley Cup.

Both men proved conclusively that they are there with the goods in the hockey line, and it is probable that more will be heard of them before the winter is over along this line.

HAROLD DEETON.

Harold Deeton, who is known to all Edmontonians, came from Galt, Ont., to Brandon, and went east with the Brandon team as spare man, when they met the Wanderers. He went from Brandon to Edmonton, four years ago. He is famous for his speedy individual rushes up the ice, and for his accurate shooting.

JACK MILLER.

Jack Miller, the crack right wing of the Edmonton hockey team, is a native of Otonabee, Peterborough County, Ont., and learned the rudiments of the game in a little two by four rink in Keene. At 12 years he was playing in the Trent Valley League, and the curly-haired lad will be remembered in Millbrook and Lakefield. For two seasons he played for Norwood, and then for Midland, when they were runners-up for the Junior O.H.A. championship.

Five years ago he went West, and now, with his brother, owns and operates an ideal cattle ranch on the Hand Lake, Northern Alberta. As a host he is a prince of good fellows, and is as reticent as he is clever. He is acknowledged the best horseman in the district and to see him on the hurricane deck of a bucking bronche is a treat. He is an enthusiastic hunter, and spent a month in the Rockies last summer.

Miller keeps a number of good coyote dogs, as well as a setter and a retriever, to say nothing of his famous bull terrier "Features". On the

A Scientific Wonder

The Secret of a Famous Healing-Balm

The re-discovery of a secret that has lain hidden in the dust of 20 centuries is an event full of fascinating interest, and the story of Zam-Buk, the world-famed first-aid and skin-cure will always enlist attention. Zam-Buk is the virtual descendant of those wonderful and mysterious herbal balms by the use of which the manly athletes of Ancient Greece and the stalwart gladiators of Rome ensured the healthiness and ready-healing of their skin.

Many are the attempts that were made to produce a perfect balm for the skin, but only in Zam-Buk has the ideal been realised. Since its discovery Zam-Buk has been welcomed in mansion and cottage, and the people of two hemispheres realised that they have been placed in possession of an absolutely unique cure for skin complaints.

The reasons for this triumph of science are simple and few. Taking a lesson from the Ancients, the proprietors of Zam-Buk first of all wisely decided that the ideal balm must be purely herbal and contain not the slightest trace of rancid animal fats or poisonous minerals. Then Zam-Buk is made solely from rich and pure essences obtained from certain rare medicinal herbs. These juices and extracts are prepared and refined by ingenious scientific processes and then so skilfully blended that a unique, effective and yet perfectly natural preparation for dispelling skin-disease is secured.

Zam-Buk has an affinity for the human skin such as no ordinary ointment or linament can possibly possess. Besides soothing pain and allaying irritation, it possesses unique antiseptic and germicidal qualities which virtually chase disease germs out of their hiding-places in the skin tissues; at the same time it purifies the pores and invigorates the natural functions of the skin in a way that no other preparation can.

Zam-Buk solves in a perfect manner the problem of always having handy at home or at one's work an ever-ready and reliable first-aid for cuts, burns, scalds, bruises, lacerations, scratches, etc. Zam-Buk is without equal for eczema, ulcers, piles, bad leg, ringworm, scalp sores, festering sores, sprains, stiffness, poisoned wounds of all kinds, face sores, chafing, chapped hands, cold-sores, frost-bites, sore feet, diseased ankles, and all itching, irritation, and inflammation.

Zam-Buk is a daily need in every household and is sold by all druggists and stores at fifty cents a box. Refuse harmful and dangerous substitutes sometimes "pushed" as being "just as good".

New Railway Department

Montreal, Jan. 5.—The Canadian Pacific Railway have created an Industrial department in connection with their extensive offices at Winnipeg, for the purpose of encouraging the development of cities, towns and villages along its lines in the west and to this end they will have the co-operation of the secretaries of all boards of trade, who will keep in touch with F. W. Peters, who has been appointed to follow up all enquiries of an industrial nature and place before them the advantages and opportunities that exist along the company's lines.

News in Brief

Winnipeg, Man., January 4.—Tenders closed at noon for two millions of construction on the city power plant, eastern firms tendering as follows:—General work, Henry, Quinlan & Robertson, Montreal; Transmission cables, Eugene T. Phillips, Montreal; Dominion Wire Manufacturing Co., Montreal; Northern Aluminum Co., Shawinigan Falls, Que.; Steel Towers, Canadian Bridge Co., Walkerville; Goold, Shapley & Muir, Brantford; W. P. Kemp, Montreal; Canada Foundry Co., Toronto; Erection of transmission system, R. McMannus & Co., Hamilton.

Halifax, N. S., January 4.—The executive of the Provincial Conservative Committee held a largely attended meeting last night, every county being represented. Messrs. Stanfield, Madden, Rhodes, Jamieson, and Crosby, M. P.'s were present. A letter was read from Mr. R. L. Borden regretting his inability to be present. The main topic was Provincial affairs. The executive will prepare a platform, which will be submitted to a Provincial convention to be called in the near future. Much was done in the way of organization and at the convention a Provincial leader will likely be selected.

Heavy Blow for the Loan Shark

Montreal, January 4.—The loan-shark business received a heavy blow today when the court of King's Bench in appeal confirmed the judgment by which Julian Lalonde an agent of Tollman, the American king of loan sharks, was fined four hundred dollars or six months in jail for lending money on behalf of Tollman at illegal interest.

Cosgrave's Beer

Words of praise have ever prevailed in advertising "copy." That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash value in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 370 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information of what you have to exchange.

CALVEN ESTERLY,

CLEAN Up INSIDE

Blood and System Cleansing in the Spring Makes Good Health all Summer.

In spite of all your careful habits safe to say that in the spring you feel poorly—have a throbbing sensation in the head—skin is pale or yellow, with dark rings under the eyes. If not absolutely bilious the system is so full of bile that you feel heavy and tired all day long.

Clean up, work off the winter's accumulation of waste, purify your blood. Do this and you'll feel fresh as a prize-fighter. "For ten years, says W. H. Sangster, of Concord, "I suffered greatly from impure blood, which made me feel debilitated and unfit for work. I had no appetite suffered from indigestion and gas, had some pains in the back, caused by poor kidney action. Spring was the hardest time of all, and many a time I felt despondent and languid enough to throw up the sponge. I was impressed by the marvellous work done by Dr. Hamilton's Pills and tried them. They suited me exactly. In one week I felt like new. I was braced up, got rid of blood weakness, gained in flesh, got back my old time appearance and spirits. Dr. Hamilton's Pills will clean all the sickness out of a man in short order and I urge young and old to use this grand tonic medicine."

Dr. Hamilton's Pills are a perfect spring medicine, they destroy germs and poisons of every description and strength whereby the system rallies and the patient quickly enjoys the blessings of Perfect Health. Get Dr. Hamilton's Pills today—25c. At all dealers.

Installation of Officers

A joint installation of officers of Lift Lock Camp Knights of Maccabees and the Lady Maccabees, will be held in their hall on Simcoe St., next Monday night at eight o'clock. A full attendance is requested.

Charlotte St. Ladies' Aid Elects Officers

There was a good attendance Tuesday at the annual meeting of the Ladies' Aid Society of Charlotte St. Methodist church. Satisfactory reports of the year's work were received. One item calling for special mention being the Thanksgiving offering which amounted to $125.

A vote of appreciation was tendered to the officers of 1908 for their excellent work. The election of officers for 1909 resulted as follows;

President—Mrs. J. H. Wolstenholm.
Vice-Pres.—Mrs. G. Reid.
Secretary—Mrs. H. B. Collier.
Treas.—Mrs. Chas. Lyle.

George St. Church

The Ladies' Aid Society of the George street Methodist church held their annual meeting Tuesday afternoon, when the reports of the various committees were presented.

Every thing shows a year of progress and considerable work has been done. The officers for 1909 were elected as follows;—

Pres.—Mrs. A. W. Cressman.
1st Vice-Pres.—Mrs. S. R. Armstrong.
2nd Vice-Pres.—Mrs. Geo. Elliott.
Sec.—Mrs. S. Shortly.
Treas.—Mrs. F. Mason.

Mrs. Jas. Stubbs was elected head visiter to assist the pastor and over see the visiting committee.

Another progressive year is looked forward to and much good work should be accomplished.

Wedding Bells

SHARPE—HARRISON.

The home of Dr. and Mrs. Harrison, Keene, was the scene of a very pretty wedding, December 30th, at 11 a.m., when their only daughter, Mabel, was married to Mr. Torrance S. Sharpe, of the Bank of Ottawa, Winnipeg. The ceremony was performed by the Rev. W. D. Harrison under a floral arch. The bride looked lovely in her handsome gown of liberty satin with trimmings of duchess lace and seed pearls. Her veil was arranged over a corset of orange blossoms. She carried a shower bouquet of white roses and lilies of the valley. She was attended by Miss Miller, of Calgary, who wore a beautiful gown of pink figured silk voile and carried a large bouquet of pink roses. Little Aileen Steele, cousin of the bride, made a very sweet little flower girl, dressed in white and carried a basket of sweet peas. Mr. Philip Boyd, of Toronto, attended the groom. Miss Campbell, of Peterborough, played Lohengrin's Wedding March as the bridal party entered the room.

After receiving the congratulations of their friends an elaborated wedding breakfast was served in the dining room (which was decorated in the Xmas colors) to 23 guests. The usual toasts were proposed and responded to. The bride's going-away gown was of taupe broadcloth with velvet and braiding with hat to match. They left on the afternoon train for Montreal and other points and will spend two weeks in the east before going to their home in Winnipeg.

Where You Go to Cast Your Ballot

Where do I vote? was the question asked by a large number of voters last Monday when they discovered that they had got into the wrong pew. This was caused by the many changes necessary in the polling places. Ald. Buller has stated that during the coming year he will introduce a bylaw or a resolution authorizing the city clerk to mail a post card to each person, entitled to a vote, telling them where they vote This has been done in political campaigns and worked successfully, and it would be a good thing for the municipality, while the cost would not amount to a great deal. Ald. Buller will no doubt receive the support of all the council.

Personal

Mrs. D. Hughes-Charles and Mrs. Gracey will receive this afternoon.

Mrs. and Miss Montizambert leave today for a two weeks' visit to friends in Quebec.

Mr. Dan Sheehan has gone to Rochester, where he will visit his brother, Mr. J. Sheehan.

Mrs. T. F. Matthews will not receive again until the third Friday in January,

The Misses Morrow, Weller street, are visiting with friends in Hamilton.

Mr. Wm. Cox, who has been visiting Mr. Harry Hall, Water street, left for Toronto Tuesday afternoon.

Miss Alberta Gooding is in London, visiting with her school friend, Miss Stevely, daughter of Mayor Stevely.

D. J. McCarthy, B. S. A., returned on Saturday to Kingston, after spending the holidays with his sister, Mrs. W. Shea, Reid street.

Miss Dell Baker of Lindsay, has returned home after spending the last few days the guest of Miss M. Trombley, Charlotte street.

Mr. and Mrs. Walter Squires and children, of Toronto, and Mr. and Mrs. E. Squires of Hamilton, returned yesterday morning after having spent New Year's with Mr. and Mrs Walter Squires, Albert street.

Mr. A. A. Fowler, district deputy grand master, I.O.O.F., was in Norwood Tuesday installing officers of the Norwood Lodge, No. 262, I.O.O.F., with Col. J. W. Miller, P.G., R. J. Matchett, P.G., and F. Wise, P.G.

Miss Helen Davidson left yesterday on a visit to friends in Sarnia. In the course of a couple of weeks she will join her mother at King Fisher, after which Mrs. Davidson and Miss Davidson will spend the winter in Mexico.

Among those who returned to St. Hilda's College, Toronto, Tuesday, were Misses Dorothy Aylmer, Gladys Crane, Jean Hurstone, Marion Benne, Murial Burnett and Lillian Summerville, Mabel Budge and Marjorie De la Fosse.

Mrs. R. S. Davidson, Dalhousie street, accompanied her mother, Mrs. Thos. Menzies, to her home at King Fisher, Oklahoma Territory Tuesday. Mrs. Menzies has been visiting her daughter, Mrs. Davidson, for some months.

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs quickly yield to the healing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Contains no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! How your own judge! Sold by all dealers.

Miss Faulkiner, who spent the holidays in Havelock, has returned to the city.

Mr. and Mrs. E. McIlmoyle have returned to the city and will visit his parents, Mr. and Mrs. W. J. McIlmoyle in Selwyn. They have been in the West for the past ten years and will spend the winter in this neighborhood.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventics—25 cents. Ask your druggist. He knows! Sold by all dealers.

Presentation by the Girls' Guild

The Girls' Guild met at All Saints' church Monday evening and presented Miss Cotton, the retiring president, with a very handsome pearl brooch pin. Miss Cotton is leaving for Albany, N.Y., where she will go into a nurses' training school.

The address was read by Miss Clara Cairns, while the presentation was made by Miss Duggan. During the four years of her residence here, Miss Cotton has endeared herself to all and has been a valued member of All Saints' and of the Guild from the presidency of which she is now withdrawing.

Wanted to See It

English Clergyman: "And when you arrive in London, my dear lady, don't fail to see St. Paul's and Westminster Abbey."

Fair American: "You bet; I'll rattle those off sure; but what I've been hankering to see, ever since I was knee-high to a grasshopper, is the Church of England!"

Million Pounds Wanted

New York, N. Y., Jan. 4. — Tenders were made to-day on about 1,250,000 pounds of copper wire for a power plant which is to be erected at Winnipeg, and the fact that eight wire drawers in the United States who were bidding upon this contract made enquiries for copper gave the impression that there was great demand for metal. Undoubtedly, a contract will be placed in the near future, and over 1,000,000 pounds of refined copper will be purchased by the successful bidder. Wire drawers who tested the market for copper found producers and selling agents unusually firm, asking 14 1-4 for February and March shipments.

One on the Lawyer

The lawyer who cracks jokes at the expense of the witness often gets more than he gives. The following incident is told by a Milwaukee lawyer:—

The witness was an elderly lady and the lawyer was a confirmed bachelor.

"How old are you?" asked the lawyer, "I am an unmarried woman, sir, and I do not think it proper to answer that question."

"O, yes, answer the question," said the judge.

"Well, I am 50."

"Are you not more?" persisted the lawyer.

"Well, I am 60."

The inquisitive lawyer then asked her if she had any hopes of getting married, to which she replied:

"Well, I haven't lost hope yet, but I wouldn't marry you, for I'm sick and tired of your palaver already. So you can consider yourself refused."

Cold Snap Makes Charity Board in Demand

Relief Officer Miller of the Charity Board, reports a rush of business now. This last cold snap has caused the people to hustle around for fuel and food and clothes. At this time of year work for the laboring men of the poorer classes is scarce, but at the same time there are a number who will not work anyway when it is cold.

There has been some talk of starting the special fund again for the relief of needy families but conditions are not as bad as last year, but this step will not be taken except as a last resort. If it is at all possible to make the men work it will be done as there are several families where there is no man in the house to provide. In some cases he has left his wife and children. These will be looked after by the Charity Board and other societies.

Mr. Miller expects to have a busy time from now on, although up to the present there have been fewer applications than last year.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—25c. Sold by all dealers.

The thermometer took a sudden drop yesterday and last night it was several degrees below zero, and so cold that very few people were on the streets. In Winnipeg Tuesday night it was 47 below and the cold wave has reached Ontario and it will be zero for several days.

ADVERTISE IN THE TIMES.

If Coffee and Biliousness

Interfere with business

Quit the Business

If you feel "hurt about it."

One time a man thought it all over and finally decided that he would rather have his head clear and his mind keen for business than to "enjoy" the "dumps" half the time.

So he quit the Coffee, even the "one cup a day."

The biliousness quit itself.

So did a certain sick feeling about the heart when he hurried for a car.

Being fond of a good hot drink for breakfast he took on POSTUM the liquid food coffee. It came to his table with the colour of the strongest French drip coffee, and a little rich cream turned it to a rich golden brown. The flavor was distinct, but had the soft pleasing "tang" of mild high grade Java.

So the change was easy.

In a few days he told himself how much fun it is to be well—brisk, snappy, and keen—"the greatest fun on earth." Of course 'There's a Reason."

Coffee (with many folks) congests the liver, producing biliousness by keeping in, instead of throwing off, the wastes of the body. They turn to poisons, and the whole body is more or less affected. When the cause (coffee) is withdrawn, Nature slowly tries to right the wrong. It helps, to drink Postum, for it contains in liquid form certain parts of wheat which Nature uses to rebuild broken down nerve centres.

These are truths to those who know dietetics. Every man can ignore the theories and yet convince himself by personal test. That's the surest way to find out why

"There's a Reason" for

POSTUM

Made at the pure food factories of the Postum Cereal Co., Ltd. Battle Creek, Michigan, U. S. A.

MILLIONS OF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Wasted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW what it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world. Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock---to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Our smelter thus erected will save 85% in treatment, freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when her you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above, while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

Peterborough Poultry Exhibition Had Three Days of Success

First Annual Exhibition Came to an End Last Night--One of the Best Poultry Shows Held in the Province

The first annual Poultry Exhibition under the auspices of the Peterborough Poultry Association, came to an end last night at ten o'clock after a three-day success which would be creditable to even Toronto. The Association started out with many obstacles in their way but these have been overcome and everyone was delighted with the results. The exhibitors were all praise and assured the directors of their return next year.

Mr. C H. Wilson, proprietor of the Merefield Poultry Farm and Apiary at Hawkestone, Ont., and one of the largest exhibitors, stated that this was the best cooped and best arranged local poultry show he had ever attended, while the birds were as good as any shown at the largest exhibitions. All the birds were in the pink of condition and looked their best.

One result of the exhibition has been the creation of a stronger interest in the industry in this city. The old breeders and fanciers are more enthusiastic, while many new breeders will be found in the business this spring. Many sales of birds were made, and high prices were paid. The poultry men themselves exchanged a lot of money, and many local birds were purchased and taken away for breeding and exhibition purposes.

Speaking to some of the directors last night The Times was informed that the finances of the show were all that could be desired, not only had all the prize money been paid but there was sufficient money left over to pay all expenses, and the coops as well and probably a little surplus besides. This is a report most encouraging and speaks well for next year.

British Naval Plans Sold to Germany

New York, Jan. 7.—That the plans of the new Forth naval base, at Rosyth, near Edinburgh, Scotland, have been sold to the German Government by an officer in one of the volunteer regiments and a German who obtained employment with the firm that planted many of the mines beneath the River Forth, is the information contained in a letter which Walter Hammond, an orderly in the King's County Hospital, Brooklyn, has forwarded to Alexander Ure, Solicitor-General of Scotland and member of Parliament for the district of West Lothian.

Hammond, who has been in this country only three months, is prepared to return to Scotland and lay before the proper authorities the evidence in his possession of a betrayal of British naval plans and secrets to the German Government. He is an electrician, and for several years worked in the same factory with the German.

Although declaring he had long suspected that the German naval officials were kept informed of what was being done at the Forth naval base, it was not until he reached this country, Hammond said last night, that he obtained sufficient evidence to warrant him in calling the facts to the attention of the member of Parliament from West Lothian.

"Much of the electrical work in and about the great Forth naval basin is being done by the firm of Bruce Peebles and Company, of Pilton, near Edinburgh," he said. "Carmichael Peebles, son of the founder of the firm, the heaviest stockholder in the concern, is a commissioned officer in one of the volunteer reserve corps maintained by the Government. One night William Watson, an employe of the electrical works, was held up near the plant and robbed of plans which showed where a chain of mines would be sunk in the River Forth, as well as other important details of the naval base. It was not until later that I learned who was the assailant, and that he assaulted Watson for the sole purpose of getting the plans.

German Agents Allowed to Inspect the Interior Works

"It was after the attack on Watson that I found that the assailant was a German, who was a frequent visitor at the home of a man who for many years was German Consul at Leith, the port of entry to Edinburgh.

"I was employed on the electrical equipment in the Forth naval base, and I know that agents of the German Government have been permitted to inspect the interior of the works and enter the chambers beneath the river.

"I have reason to believe that the information sent by me to Alexander Ure, K.C., M.P., will result in the arrest of two or three men. I am personally acquainted with Mr. Ure, and there is no doubt but that he will make a thorough investigation and place the matter before the proper authorities. I am prepared to return to Scotland at any time for the purpose of aiding the prosecution of those who have betrayed the Government."

"THE SUPREMACY OF CHRIST IN THE SOCIAL LIFE."

Both the Murray street Baptist and Knox Presbyterian churches crowded last night to hear the addresses on "The Supremacy of Christ in the Social Life." At the former church Rev. Robt. Pogue presided, while Rev. L. H. Coon was the speaker.

At Knox church Rev. J. R. Wells presided, and Rev. E. A. Pearson, B. A., was the speaker. He based his remarks on Acts 2:36, "Therefore let all the House of Israel know assuredly that God hath made that same Jesus whom ye have crucified both Lord and Christ."

These were the last words of the first distinctive Christian sermon. While Christ crucified was the theme of salvation it must not keep from view the enthronement of Christ as King. McKay of Uganda said; — "The cross must never be permitted to shadow the throne. The first great note of the evangel was the Lordship of Christ. Conviction of sin comes through being in the presence of the King.

His right to lead and rule implies our obligation to obey. Many fail on the very threshold of Christian life because they do not recognize Christ as being of their lives. The words faith and obedience may be different to the eye but they have the same meaning. How is this to be applied to social life? By what rule shall Christians govern their social relationships? Not by the imitation of the examples of others, but in the language of Christ, "Ye are my friends if ye do whatsoever I command you." The rule is threefold. First, the teaching of the moral law; second, the rule of influence. It must needs be that offences come but woe be to that man man by whom the offence cometh. As an illustration of this point the speaker referred to an incident on election night. He was standing beside a man recently moved into the city from the country. He had been in the habit of drinking considerably when visiting the city but had since joined the T.A.S., and stopped drinking. He claimed that he did not want his example to be of harm to his boys who were growing up around him. He is doing all in his power to assist the work of temperance.

The third was the rule of service, "Seek ye first the kingdom of God," which implied in the Christian complete devotion to Christ and His work in the world. There were many things that were not unlawful, but for the Christian were inexpedient. The highest purpose for every Christian ought to be the fulfillment of the will of Christ for the betterment of the world.

Rev. Mr. Pearson closed with what a year 1909 would be if Christ were enthroned as Lord and King.

Annual Meeting of the Cordage Co's Shareholders

A large and representative meeting of the Shareholders of Canadian Cordage & Manufacturing Company, Limited, was held yesterday afternoon at the office of the Company 25 Aylmer street. The Directors submitted the financial statement of the Company and the auditors' report thereon to the shareholders.

The financial year of the Company which has just been brought to a close was an exceedingly trying year for the manufacturers throughout Canada to withstand the great financial depression. The lumbering and shipping trades were particularly affected by this depression which resulted in a substantial curtailment of the volume of the Company's sale of rope and lath yarn although at the same time there was an increase in their twine sales.

The Directors regretted that there was no available profits with which to pay a dividend upon the Common stock, but since the first of the season the Company has been running substantially to its full capacity and better results are anticipated in the future.

The Report of the Directors to the shareholders further stated that there are upwards of 4,000 shareholders interested in this Company living in different parts of Canada, the vast majority of whom are unable to attend the annual meetings of the Company and hear the reports and explanations made by the Directors to the shareholders from time to time. Owing to the fact that the Company has been unable to pay a dividend from a variety of causes since the year 1906 many of the shareholders have written letters from time to time to the Directors and Officers of the Company unfairly and unjustly charging that the shareholders are not getting their share of the gross profits earned. In view of these statements the Directors themselves deemed it expedient in the interests of the Company to recommend to the shareholders that a resolution be adopted at this meeting authorizing Mr. W. R. Morris, chartered accountant to make a full investigation into the affairs and management of the Company in respect to its gross profits from the time the Company commenced business to the present time with a view of satisfying the shareholders that all the profits of the Company have been fairly accounted for. On motion of Mr. H. W. Wilcox of Whitby, seconded by Mr. Robert M. Thurston, of Winnipeg, it was moved in amendment to the Directors motion that the investigation be confined to the last two years being the date when Mr. Adam Hall, the former president of the Company resigned from the Presidency of the Company and this amendment to the Directors motion was carried.

The following were elected Directors for the ensuing year Messrs. H. W. Wilcox, R. R. Hall, J. C. Groendyke, James S. Latimer and John A. Bennett.

At a subsequent meeting of the Directors the following officers were appointed, Mr. R. R. Hall, President, Mr. J. C. Groendyke, Managing Director and Mr. E. B. Fowler, Secretary.

Special Meeting of School Board

A special meeting of the Board of Education will be held on Tuesday night for the purpose of discussing the report of the inspector on the Collegiate Institute. Principal H. R. H. Kenner will be present and address the meeting.

The West Riding Election Protest

The appeal of the respondent, Mr. J. R. Stratton, M.P., herein will come up before the supreme court judge for hearing on the 16th proximo. The appeal is from the judgment of Mr. Justice Britton who found against the respondent in his preliminary objections to the petition of protest fyled herein. The registrar of the Supreme Court has directed that the respondent proceed with his appeal on the 16th proximo. The matter came before the registrar yesterday on direction of Mr. Justice Britton who ordered that the matter should be proceeded with without delay.

LOUIS M. HAYS, K. C., IS CHAIRMAN OF BOARD OF EDUCATION

After Seventeen Years as a Member He was Elevated to the Chair—Standing Committees and Their Chairmen were Selected—Vote of Thanks for the Secretary

Mr. Louis M. Hayes, K.C., was chosen chairman of the Board of Education for the year 1909. The inaugural meeting was held last night in the Board room in the Toronto Savings & Loan Company's offices. Secretary W. Geo. Morrow presided, and after the new members took their oaths of office and filed their qualifications, he asked the Board to select a chairman for the ensuing year.

Ballots were passed around, and the vote resulted in favor of Mr. Hayes, and his choice was made unanimous. In accepting the position of presiding officer, Mr. Hayes expressed his hearty thanks for the great honor conferred upon him. He referred in eulogistic terms to the good work done by the retiring chairman and asked the members to give the same support to him as was given Mr. Fair, and he hoped that the year's business would be transacted with the same spirit of harmony as has characterised the past year.

STANDING COMMITTEES.

The next move was the appointment of a nominating committee with the following members to strike the standing committees; — Messrs. Hill, Ackerman, Crane and Nelson, and Dr. Burnham. The committee met immediately and made the following report which was read by Dr. Burnham;—

Finance Committee.—Messrs. Ackerman, Dumble, Fair and Crane.

Property Committee—Messrs. Nelson, Gibson, Dumble, Fair and Dr. Morrison.

Supervision Committe — Messrs. Crane, Morrison, Hill and Dr. Burnham.

Committee on Appointments —The whole Board.

Building Committees —The same committee as appointed last year was again selected, and the name of E. F. Mason inserted instead of W. S. Robinson.

CHAIRMEN CHOSEN.

Ballots were cast by each committee for the selection of the chairmen, and it resulted as follows;

Finance—Robt. Fair.
Property—W. F. Nelson.
Supervision—John Crane.
Appointments—W. H. Hill.

VOTE OF THANKS.

Before the Board adjourned, Mr. W. H. Hill took occasion to express his personal appreciation as well as that of the board, to the secretary Mr. W. G. Morrow, for his allowing the board and meeting in his offices which were both convenient and comfortable. He moved on behalf of the board a vote of thanks to Mr. Morrow.

Mr. Robt. Fair took great pleasure in seconding it.

Mr. D. W. Dumble in speaking to the motion stated that not only was Mr. Morrow very kind in allowing the use of his office for board meetings but he wished to express his appreciation of the very careful and thorough manner that the secretary prepared the business which was to come before the board Chairman Hayes in a few remarks extended the vote of appreciation from the board to the secretary.

Secretary Morrow thanked the board for their expression of approval and appreciation. He said that it was very convenient for him to have the board meet there. It is just 22 years in February or March that he first attended a Board of Education meeting and at that time he was very young, green and nervous. But he had overcome that and has always taken a great interest in the educational affairs of the city. He was always pleased to meet with the members and to assist them in anyway possible.

The board then adjourned.

Large Crowds at the Curling Rink

There was another big crowd at the curling rink last night, and all the ices were in use again. Enthusiasm is running high in curling circles this year. To stand or sit in the comfortable club rooms and watch the fifty or sixty men vigorously swinging their brooms over the ice is a sight worth seeing, and one which would open the eyes of many of the good wives who do not think their men knew how to handle the broom. Some of the games were close last night and the ice was very keen. Mr. McIntosh has build up a beautiful sheet which will require continued mild weather to destroy. The rinks playing last night were as follows;—

Dr. Eastwood—14.	B. S. Foote—9
A. Moore—19.	D. Hall—10
T. Brightman—13.	Dr. Greer—11
R. Helm—20.	W. M. Long—16
D. Davidson—13.	S. T. Medd—8

TONIGHT'S GAMES.

The following rinks have been drawn to play tonight;—

R. Neill vs. T. F. Matthews.
F. B. Clegg vs. H. R. H. Kenner.
J. H. Ferguson vs. W. J. Thompson
G. B. Stevens vs. J. B. Burnham.
Dr. Fraser vs. G. L. Hay.
F. M. Dela Fosse vs. G. H. Giroux.
S. Ray vs. W. M. Long.

SELECT SKIPS.

A meeting of the club is called for this evening at eight o'clock for the purpose of selecting skips for the Shepherd—Neill Cup, which will be played for in the rink on Monday next.

FEES ARE DUE.

A notice is posted up in the rink to the effect that the membership fees are over due.

Mr. R. J. Duncan Visited at His Home

Mr. R. J. Duncan, who has been a guest of his father in the city during the holiday season, leaves this morning for Cleveland, Ohio, where he will resume his duties as foreman in the Free Press office in that city. Mr. Duncan is a brother of Ald. Geo. H. Duncan, and has many old friends in this city who were very pleased to renew acquaintance with him. He has been foreman in the Free Press office for the past eighteen years.

Apparatus for Heating is Satisfactory

For the first time the second boiler and furnace in the new Collegiate Institute was lighted on Wednesday on account of the sudden drop of the mercury and on Thursday, while the thermometer outside hovered around the zero mark all day, the one inside was up to 90 degrees and the heat had to be turned off.

Dr. Morrison with considerable pride, informed the board of this fact at the meeting last night. He also stated that the ventilating system was working perfectly. If it was opened out full such a blast of air would go through the building that it would almost blow one away. Both Dr. Morrison and Architect Belcher were greatly pleased with the operations as also were the members of the board.

Mr. B. F. Ackerman also informed the board that the furnaces of the King Edward school were also working satisfactory. The board will have double windows placed on the inside of this school.

"The Results of the Supremacy of Christ"

"The Results of the Supremacy of Christ," will be the subject for the last sermon of the series which have been delivered by the different ministers during the week of prayer. The services this year have been exceptionally well attended. The addresses were all eloquent and interesting and much good has been accomplished. The service tonight will be in St. Paul's Presbyterian church and it is especially desired that the church be crowded to hear this last address. A collection will be taken up tonight and this is the only collection asked for during the week and no doubt it will be a liberal one.

Wanted to See It

English Clergyman: "And when you arrive in London, my dear lady, don't fail to see St. Paul's and Westminster Abbey."

Fair American: "You bet; I'll rattle those off sure; but what I've been panting to see, ever since I was knee-high to a grasshopper, is the Church of England!"

Mr. H. C. Wright, former Y.M.C.A. secretary here, has spent the past week in the city and visinity.

The Brewery Team Had a Big Run

One day this week one of Calcutt's Brewery teams, felt kind of frisk and took an uncalled for run from George street down Charlotte to the G.T.R. station. Here they turned into the yard and the wagon swung and struck the sidewalk with the result that the driver and barrels were thrown over the fence into the little park. The team continued on to King street and around to Aylmer, down Aylmer until they reached the fire hall. Here the men were out with the hose and as the team approached they turned the water on and the horses ran into a tree and were stopped. The wagon tong was broken but no other damage was done.

Peterborough Tent Installed Officers

The installation of the officers of Peterborough Tent No. 69 Knights of the Maccabees took place Wednesday night at the regular meeting in the Knights of Pythias Hall. The following officers were installed by Sir Knight R. Morrison, district deputy.

P.C.—A. E. Morrison.
C.—J. Killingbeck.
Lieut. C.C.—J. Dodds.
Sergt.—W. Sherwood.
Rec. and Fin. Keeper—R. Morrison.
Chaplain—W. Noftall.
Physician—Dr. J. A. Morgan.
M. at A.—E. A. Wicker.
First M. of G.—P. Darling.
Second M. of A.—J. H. Prise.
Sentinel—F. Drane.
Picket—H. Hinchcliffe.

After the installation the Knights adjourned to Fowler's restaurant, where an enjoyable oyster supper was served, several bright speeches and a pleasant social hour being enjoyed.

The Peterborough Tent will meet on the first and third Wednesdays of each month in the Knights of Pythias Hall, Simcoe street.

Are in Montreal

The Ontario members of the Canadian curling team for the tour to Scotland are in Montreal today. They gathered in Toronto yesterday, that is, all but R. M. Waddell of Peterborough, who joined the party passing through that city this morning. The Ontario men are,

Col. Robert Mackenzie, W. J. Ryder, Sarnia.
J. H. Neelands, J. J. Brown, Barrie.
T. J. Hamilton, Fergusen.
Alex. Logan, Parry Sound.
R. L. Patterson, Randolph Macdonald, Simpson Rennie, R. S. Strath Toronto.

Farmers were Ploughing and the Frogs Singing

Chatham, Jan. 7.—The people of this county have experienced a sudden change from spring to winter weather during the last few days. On Tuesday all of the farmers on the Pere Marquette from Chatham to Wallaceburg were plowing. There was no frost in the ground. The stock were grazing in the fields, and the weather was like summer. As far west as Tilbury the frogs were singing on the sidewalks.

Yesterday the temperature went down to real January weather, and last evening the heavy frost has put a sudden stop to all farming operations.

During the past two days there has been a drop of fully thirty points in the temperature.

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so?

The general health of women is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N.Y.

Senior City Hockey League Opening

The opening of the Senior City Hockey League took place last night when two games were played in Brock street rink. For the opening night the attendance was very good and the prospects for a successful season are very bright.

The first game was between the West Ends and the T.A.S., and resulted in a win for the Total Abstainers by a score of 2—1. The half time score was 1—0 in the latter's favor. The game throughout was a good exhibition of hockey, and the teams were very evenly matched.

The line-up was as follows;

West Ends.		T. A. S.
	Goal.	
Halpin		Derocher
	Point.	
Wade		Quinlan
	Cover.	
Dobson		Cahill
	Rover.	
Rose		Prigley
	Center.	
McNorn		Galvin
	Right.	
Shortt		Shortt
	Left.	
Pentland		Henry

STRATHCONAS WON.

The second game, Belmonts vs. the Strathconas, was a runaway for the latter who are holders of the championship. The half time score was 4—1, while the full time was 14—2.

The line-up was as follows;

Strathconas.		Belmonts
	Goal.	
Wilson		Davidson
	Point.	
Dobson		Meyers
	Cover.	
Dusty		Eccleston
	Rover.	
Ray		Clarke
	Center.	
Long		Wilson
	Right.	
Seymour		W. Wareham
	Left.	
Weatherstone		C. Wareham

Miss Elinor Collins is visiting her mother, Mrs. A. J. Collins, in Mount Forest.

ADVERTISE IN THE TIMES.

Methods of the Board were a Big Surprise

Mr. E. F. Mason, the new member of the Board of Education, was duly received at the inauguration meeting last night, and he had his eyes opened in a way which agreeably surprised him. The harmony which existed and the dispatch with which the business was transacted was something quite different to some of the sessions he had attended in the City Council. Mr. Mason is of the opinion that he will like the Board of Education better than the council.

LAWYERS EAT

Grape-Nuts

"It Builds the Brain"

"There's a Reason"

No More Gold Filling for Teeth

The use of gold for teeth filling is doomed, according to a salesman for a large dental supply house quoted by the Philadelphia Record. "Most of us can remember when nearly everyone carried about in his mouth more or less precious metal," says this authority. "No one was ashamed of displaying gleaming yellow when he smiled. We formerly sold thousands of dollars' worth of specially prepared gold to dentists. But that is all changed. The new porcelain fillings have been so far perfected that nearly all dentists use them, to the almost total exclusion of gold."

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it?. Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

A CHANGE COMING

The reports which reach Canada of the destitution and commercial depression in Great Britain make melancholy reading, especially at this time of the year. It is not only that the big commercial centres are filled with poor and destitute people who are crying for work of any kind to keep body and soul together, but the reports from the shipping centres state that the docks are crowded with idle ships, an unusual condition of affairs for a maritime country like Great Britain.

The present Asquith Administration seems to have become more deeply bogged in the political mire than was the preceding Campbell-Bannerman Administration. The history of the past few years of Liberal rule in Great Britain is punctuated with one bungle after another with the result that it has succeeded in hopelessly antagonizing public opinion and in losing the confidence of the people.

The indications all point towards a radical change in the near future in Great Britain. Of all the great powers of the world Free Trade England alone is suffering from severe commercial depression. All the other powers have a measure of Protection and if Great Britain does not in the near future adopt some form of a Protective policy the signs are very misleading. Tariff reform has made enormous strides in Great Britain in the past three or four years and the Hon. Mr. Chamberlain's policy has taken deep root in the British public mind. The chances are that there will be a change of Government and the adoption of a Protective policy just as soon as the British voters get the opportunity of a general election whereby they may express their opinions.

A WELCOME REFORM

The other evening at the Commercial Travellers' banquet in Toronto, the Hon. W. J. Hanna, Provincial Secretary, made the gratifying announcement that it was the intention of the Ontario Government to insist upon the hotels situated in the rural sections installing modern sanitary conveniences. This is a much needed reform that will be highly appreciated by the travelling public, for, while some of the rural hotel proprietors have with commendable enterprise equipped their houses with waterworks systems and lavatories, there are still many who have not and whose sanitary conveniences are a disgrace to the year we live in and a menace to health. In fact, the crude and primitive condition of some of them have for long been the subject of many a grim jest upon the part of the travelling public.

The more dense becomes our population the more important becomes the matter of sanitation in public and private houses. In insisting upon proper sanitary conditions in hotels the Ontario Government is responding to the popular demand.

ICE PALACES IN CANADA

There is something juvenile in the objection raised to the building of an ice palace in Montreal, as there was in the objection to Kipling's phrase of "Our Lady of the Snows." Why deny that ice palaces can be built in Canada, that there is plenty of snow, and that the winters are long and cold? The fact to be emphasized is that in spite of, or perhaps because of, these things, we can grow plenty of the finest wheat in the world. It is well to point out that wheat can be grown in the Peace River district, but it would be the height of folly to pretend that the Peace River Country has a climate like the Niagara Peninsula.

The building of an ice palace in Montreal as a central feature of a winter carnival would tend to emphasize another fact, namely, that our cold winters are sources not of terror, but of enjoyment to those who are healthy and warmly clad. We doubt whether the ice palace has ever done this country any harm, but it is possible that representations of an opposite character are responsible for immigrants trying to work in outside employments in Canada without overcoats or mittens.

The hot summers of tropical or subtropical countries are more trying than the cold winters of Canada, but we do not find the inhabitants of these countries suppressing the fact that they wear linen suits and grow oranges and bananas.

SELECTION OF UNLUCKY FORTY

"There will be no central or organized attempt on the part of the temperance people to influence the decision of the License Commissioners as to what particular hotels are to be cut off the licensed list. Of course, there may be, and in fact are, a number of localities in which those living near hotels are circulating petitions to be presented to the board asking for the removal of certain particular hotels. But there is no general list being compiled by our organized committees."

In these words Mr. Ben Spence, of the Alliance, summed up the attitude that the temperance forces of this city are taking on the matter of the hotels that will have to lose their licenses.

In reference to the local efforts that are being made, Mr. Spence said that he knew that petitions were being circulated in the district around Bathurst and Bloor and Dundas and Bloor. There are three hotels near these two districts, the Brunswick Hotel, at the corner of Brunswick and Bloor, the St. Alban's Hotel, at Bloor and Bathurst, and the Pines, at the corner of Dundas and Bloor.

Another district that is getting up a petition is that around Queen and King at the extreme west end. The Ocean House is at the corner of Queen and King streets.

Rev. Dr. Shearer said that all the temperance people would like to see the License Commissioners make a clean sweep of the residential districts, and not merely pick out one here and there in the down town district.

"What we want," said Dr. Shearer, "is to reduce the amount of liquor consumption in the city, and the latter method would not do that.

"Then if there are any more to be cut off after the residential districts have been cleared, the Commissioners should deprive any hotelkeeper of his license who has been at all in the habit of presuming on the law."—Toronto Star.

A GREAT REFORMER FALLS

There has come a sudden check to the reform movement in China by the the reform movement in China by the dismissal of Yuan Shih Kai. Among Chinese statesmen he stood easily first as a reformer, and in the regard of the foreign diplomats at Pekin. So long as he held office they felt that the interests of their respective countries would not be sacrificed in response to the clamor of Chinese demagogues and grafters. Now that he has been removed by the stroke of a pen, they fear that a great reactionary movement may set in, and culminate in a war upon the foreigners like the Boxer uprising. At the moment it is undecided what step shall be taken in an effort to countermine the expected movement. All the powers do not agree that they must make strong representations to China on the subject. Great Britain, the United States and Germany are acting in concert, while Japan holds back. Difference of opinion at the present crisis is most unfortunate.

Yuan Shih Kai is considered by most foreign observers in China to be the greatest statesman the race has produced in modern times. Intellectually he ranks above the late Li Hung Chang, and in the matter of morals there is no comparison to be made. Strangely enough, he had immense influence over the late Dowager Empress, and when Li Hung Chang died Yuan Shih Kai became her nearest adviser. Although the Empress lacked Yuan's enthusiasm for modernizing China, she knew that she had not in her service another such able administrator or one who was less likely to abuse his powers for personal advancement. It may be, too, that Yuan Shih Kai's humble origin—for in China the humblest are the Chinese — touched a responsive chord in her own heart, for though she claimed Manchu ancestry, there is more than a suspicion that she, too, was a plebian Chinese. The Manchuses are given credit for the plot that has laid low Yuan Shih Kai, and the blame is not likely to be misapplied, for the Manchus being the lords and aristocrats of China, it is they who most strenuously oppose all changes, whether in the nature of reforms or otherwise.

The outside world first heard of Yuan Shih Kai in 1897, when he was made Judicial Commissioner of Chi-li, and Director-General of Trade and International Relations in Corea. Next year he became vice-president of an Army Corps Control Board, and in 1899 was promoted to the vice-presidency of the Board of Works, and later Acting Governor of Chi-li. In 1901 he was made junior guardian of the heir-apparent; in 1907 consulting Minister of the Council of Government, and in 1903 president of the Army Reorganization Council. Next he was made Viceroy of Chi-li a great office he filled with conspicuous ability only resigning it in 19 07 to become a member of the Guard Council. At the time of his removal from all offices he was head of the Chinese army, and was generally regarded as the real ruler of China, and the supposition was that Prince Chun, the Prince Regent, was a mere figurehead.

Yuan Shih Kai earned the respect and gratitude of the foreign powers when the Legations at Pekin were besieged. He was Taotai of Shanghai, and from the beginning his personal sister by the well-known scientific phrenologist, Prof. McKellar, L. V., 21 Beaconsfield avenue, Toronto, whose public blindfold tests prove the reliability of phrenology. Send address and 10 cents silver. Enclose photo when possible. Will return with reading.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.,
Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Mystery Hidden Beneath Our Surface

New York, Jan. 8.—A cable despatch to the Herald from Paris says; M. Camille Flammarion, the famous astronomer, who attributes the disaster in Italy to volcanic action, suggests again as he did forty years ago that an attempt be find out with certainty the internal composition of the terrestrial globe. The only means of doing this would be to bore a gigantic well several kilometres deep. Such a work would not be beyond the power of present day engineering. This well would be a source of inexhaustible heat for humanity.

"If the various government would agree to direct toward this object all the soldiers of Europe, each employed in accordance with his special trade or occupation, they would win a victory superior to all past and future wars of extermination, by bringing to light the mystery which is hidden beneath our surface, and as while this work was being executed the habit of fighting would be lost, humanity would have gained by it a double process, both scientific and social.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative, in five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

New Auto Power

Chicago, Jan. 8.—Honk! honk! Look out for the vacuum-producing propeller!

It is going to revolutionize the automobile industry, it is said, by driving autos with atmospheric pressure. No more gasoline will be needed. If you doubt this, ask John A. Wade of Travers City, the inventor, who arrived in Chicago yesterday for the purpose of demonstrating his device. A public test will be made some time this week.

To the untinted the arrangement for producing and utilizing vacuum as motive power may appear complex. Mr. Wade's description of the device herewith will make it all simple—maybe.

"The propeller is in the form of a tube, built of steel, and is placed on the flooring of a vehicle," said he. "By means of electric fans the air is drawn from the tube, which, like the piston rod of an engine, rushes forward. That sets the vehicle in motion the speed being controlled by a lever connected with the fans.

"The propeller is perfectly practicable, and I already have been offered $156,000 from a Chicago firm for the right to manufacture the machine. I drove yesterday two miles in a buggy propelled by one of my wooden models."

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs, quickly yield to the healing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Contains no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge! Sold by all dealers.

A Decrease in the Dairy Exports

Prescott, Jan. 6.—The Eastern Ontario Dairymen's Association was opened today by J. R. Dargavel, M. P.P., the president. Hon. Mr. Duff will be present to make one of his first public utterances as Minister of Agriculture. In his annual report the president pointed out that we again find a marked falling off of the exports of cheese, but an increase in the output of butter. The aggregate value of Canadian cheese and butter exports for the season just ended was approximately $18,987,340 as compared with $20,186,398 for 1907, a decrease of $1,999,058, but if we make comparison with 1906, which amounted to $25,999,034, this season's returns would show a decrease of no less than $7,011,694. A partial explanation / was the rapid increase of home consumption due to immigration.

"That there was less cheese made in Eastern Ontario than the year previous, goes without saying," the president admitted. "Owing to extreme dry weather during the summer of 1907, many farmers found themselves short of feed to get their cattle through the winter of 1907-08, and thousands of milk cows were sold for almost nothing to reduce the number for which feed must be provided. The shortage of feed in the spring of 1908, and a drought during the summer following, caused the farmers to buy considerable feed, and, in consequence, less revenue was derived from their dairy business, although prices ruled slightly higher during the year 1908 than for any of the previous years; but the farmer is slowly learning the lesson of the necessity of better cows, better farming, more feed, and cheaper production, and I am going to predict that, if not in the season ahead of us, the near future will see us not only making a quantity as great as the years of our largest make of cheese in Canada, but a larger make than Canada has ever known.

A WARNING SIGNAL.

"Not long since," Mr. Dargavel observed, "a Scottish Agricultural Commissioner on his return home to the Old Country from a visit and inspection of dairying in Canada stated that "the stables in which some Canadian dairy cows are kept are not as clean as they ought to be,' and he coupled with this the suggestion that something should be done to induce the Imperial Government to see that the Canadian authorities enforced a system of inspection in the Dominion of Canada as rigorous as that applying to dairying in the Old Country. Does this not look like a danger signal? I must confess that I believe this Scottish agriculturist had cause to make this statement, and my belief is founded on personal knowledge of the condition of some stables I myself have seen."

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs, quickly yield to the healing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Contains no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge! Sold by all dealers.

Mike Flanagan Quits

M. J. Flanagan, brother of Tom Flanagan, the man who trained Tom Longboat for his last two races with Dorando, has chucked up his job.

"I wouldn't take $200 a day and handle that fellow," says Mike, disgustedly. "He is the most contrary piece of furniture I ever had anything to do with. If I wanted him to train at 1 o'clock, I had to fight him all the way. He always wanted to do something else. I want no more to do with him."

So it is up to the long-suffering, patient Tom Flanagan to both train and manage him. Tom will leave for New York to take hold of him to-morrow.

Wine, Red Wine, is What Makes Me Run--Dorando

Give me wine, red wine, because it makes me run fast, and faster, and faster. Give me Chianti, and give me lots of it, for it's life itself, is wine. I love it because it makes me forget that I am tired. I want wine because when I drink it no one can catch me. Ah, Chianti, it means life and victory.

This is what Dorando Pietri, near-winner of the Marathon race at the Olympic games, said in New York a few days before he met Johny Hayes, the official winner, in a re-running of the classic event.

Lorando was drinking several bottles of wine each day. He took it while running, while eating, before arising, and before retiring. He practically lived on wine. He said he couldn't run without it, and laid his success in the long-distance events to wine.

Pietri collapsed after he entered the stadium at Shepherd's Bush during the Olympic games last summer. He lost the Marathon when in sight of the finish line.

Dorando came to America. He said he lost the real Marathon because he was given whiskey and champagne instead of wine. He declared if he had been given wine he would have won. He drank wine in preparing for his race with Hayes on American soil, and he won. He laid his success to wine.

Then came Longboat. Dorando is still training on wine. He said he would defeat the Indian on wine as easily as he defeated Hayes, but in that meeting on the cinder path of Madison Square garden in the closing week of November, Dorando collapsed near the finish and had to be carried off the track. He said his heart gave out.

Last Saturday night they ran again, Dorando and Longboat. They met in Buffalo. Again there was no question about Longboat's superiority over the Italian. They had gone 18 miles and six laps when Dorando collapsed again. He said his heart gave out, but he was drinking wine from the eighth mile.

Four times this year has Dorando engaged in Marathon contests, and in only one has he finished. His wine theory must still be proven, for when he raced Hayes, the American was in poor shape and was hardly expected to win.

Dorando Pietri himself has established convincing proof that a man can't keep in good physical condition and sip from the cup that cheers.

Petition Forwarded for the Release of Philips

The Minister of Justice has before him a petition for the release of Joseph Phillips, the founder of the York County Loan and Savings Company. It is signed by several hundred prominent business men of Toronto, and was forwarded by Mr. T. C. Robinette, K. C.

"I am asking for Mr. Phillips' release on two grounds," said Mr. Robinette, to-day.

"One is that when he pleaded guilty to making false returns and surrendered all his property for the shareholders and others who had money in the institution, it was with the understanding that he would get off on suspended sentence or at least that the sentence would not be nearly so long—under a promise by some one, I will not say by whom.

"The second reason I am laying before the Minister is that the affairs of the York Loan are not turning out nearly so badly as was anticipated and that there is no evidence that Mr. Phillips intended to appropriate any of the money invested in side lines. That has manipulated the funds in various ways by the subsidiary companies is of course evident, but it was done in the interest of the beneficiaries.

"He has spent two years there now, and served about half his term and has been a model prisoner."

"How is his health?"

"Excellent, so far as I know."

Will Extend Power Line

Toronto, January 8.—"We will proceed with arrangements to extend the transmission line on the advantageous terms we received in the tenders for building the line and supplying the electric equipment," said Hon. Adam Beck to The Globe, discussing the result of Monday's municipal voting on the power project, which he regarded as satisfactory, especially in Chatham and Dundas, where there were strong adverse interests.

"The vote goes far to accomplish the desire of the commission," added the Power Minister. "It was not the intention to serve only a favored few of the cities within a fixed distance of Niagara Falls, but to serve, in as real a sense, the smaller towns and villages over the greater Provincial area. There is now no doubt of the transmission. The tendering companies for electrical equipment have guaranteed the operation of the high voltage.

"Of course," added Mr. Beck, "the vote in most cases is only the initial one. It gives the municipal councils authority to negotiate a contract with the Commission. Before the contract is concluded the municipalities will require moneys for distribution purposes and will have to submit their final debenture by-laws."

The staff of the Commission will proceed immediately with the preparation of estimates for the various municipalities interested.

What About "U"?

"What about this 'u' business?" said the mild-mannered smoker on the back of the street car.

The individual with the aggressive chin looked at him for a moment and then demanded: "Watch-yer talking about?"

"'U'."

"Well, don't you get too gay, young feller. I——"

"Beg your pardon, but you misunderstand me. I'm not talking about 'you', but 'u'—the letter——"

"I ain't got no letter that don't belong to me, so you'd better cut out your josh. It's a new one on me."

By this time the mild-mannered man was beginning to get somewhat aggressive himself. "It's not you—yourself—personally," he began again, "that I am trying to talk about; it's this controversy——"

"Another one o' them Polacks, eh? Where is he?"

"Where's who?"

"Name is it?"

"It isn't a Polack. It's—look here—do you mean to tell me that you haven't read or heard anything of the battle of the 'u's?"

"Never. Where'd it come off?"

"Why it's the Education Department——"

"Queer place for a fight. Who won?"

"Oh, but there wasn't any real, actual fight. It's just a contro—er—I mean a quarrel over——"

"Well, why don't they call in the police?"

"What for?"

"To stop the row, o' course. Nice thing when I've got to be joshed about a row that——"

"But, my dear fellow, let's try to understand each other. It's about the use of the letter 'u'. Now, would you use 'u', for instance, in spelling——"

"Sure, wherever it needed it."

"Yes, but what about 'u'——"

"Well, what about me? Go on, go on, young feller, say it; say it just once, and——" The aggressive man doubled his fists.

The mild-mannered man lamely explained once more: "It's not you—yourself—I'm talking of; it's the letter 'u'".

"There'll be one 'you' less on this car in about a minit if 'you' say another word," was the angry retort. The mild-mannered man did not say the other word.

When the aggressive one stepped from the car to the sidewalk at a Yonge street crossing his gaze was attracted by a big sign in a store window. It read: "'U' need a new tie." The man gasped and gazed wildly around. "Nary a loose brick in sight," he muttered savagely, "and a good thing for that windy!"

When Pop Swore Off

By Sam S. Stinson.

When Pop swore off last New Year's
My Maw was awful glad.
Although she never cried a bit,
But that's a way she had.
Pop said that he'd a-done it
Jest after Christmas night,
Except that he was waitin' for
New Year's to do it right.

When Pop swore off last New Years,
It seemed like he was sore.
He scolded Maw and kicked the cat
Clean through the kitchen door.
An' as fer me, good gracious!
He licked me good enough,
Jest 'cause I asked him how it felt
To do without the stuff.

When Pop swore off last New Years,
He didn't smile for days,
But seemed to mope around the house
With just a stony gaze;
An'there was simply nothin'
That seemed a-pleasin' him.
I never see a man so stern,
An' grumpy like, an' glum.

When Pop swore off last New Year's,
It lasted for a spell;
But when he started up again,
Maw said 'twas just as well.
I guess she knows her business;
It made Pop act so queer.
I hope he ain't a-goin' to do
No swearin' off this year!

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—relieves blood pressure away from pain centers. Its effect is far-reaching, pleasingly delightful. Quickly, though safely, it steady equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablet stops it in 20 minutes, and the tablet simply dissolves the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

Dr. Shoop's Headache Tablets

...The... Plow Woman

(Continued.)

shore, he stretched his sorry, bedraggled figure—a figure in striking contrast to that of an hour before. His handkerchief hung upon one ear, his red shirt clung, his buckskin trousers, dark and slick from their soaking, bellied with water let in at the hand; his bright topped boots spurted like pump nozzles, his pale hair straggled and dripped into his eyes.

When the boat touched at the steamer side, he raised himself to look back. Simson was leisurely ascending the cut and reaching to left and right for tender wisps of vine. Matthews gave his hard laugh. "I'll make meat of you," he promised savagely. Then he turned to Michael.

The Irishman was leaning back, steadying his craft against the bank with one hand, holding his stub pipe out in the other. His blowzy face was blowzier than ever. Down it, from his closed lids, ran the teardrops, chasing one another into the black notched cavern of his mouth.

Here was a culprit handy to the moment's anger. Matthews arose in his squashing boots. "You lop eared son of a gun, who you laughin' at?" he demanded.

The cavern widened till the face was split in two. "W-w-w-ah!" gasped the pilot.

"Maybe you think it was funny," said the interpreter, with suave heat. Cunning devilry disturbed his features, and, stepping forward in the boat, he kicked Michael on a bunion.

Pain sobered the pilot. With a roar of "Howley smoke!" he swung his paddle aloft.

The interpreter was too quick for him. Like a frightened muskrat he sought the water, floundered to a solid footing and waded out. "You will monkey with a bumsaw!" he taunted. "Jus' wait!"

Clinging to his injured foot, old Michael rocked himself and cursed, but not for long. He was soon rambling toward the barracks, "for," he argued, "there's more 'n was way t' kill a cat."

In a frontier post news flies with the dust in the air. Soon the story of Matthews and the bull had spread to every soul at Brannon. The line chatted it from gallery to gallery. Clothespin row digested it in hilarious groups. At barracks it set the men to swapping yarns. "I knowed a feller once that was goin' past a bull pen," declared one trooper, "and he had a pail of cherries, and I'll be darned if"— "But say! Down home one time," put in a second, "there was a vaquero with a red sash that was stoopin' to fix a flank girth, and"— "Why, that ain't a two spot to what happened in Kansas a year ago this summer. The prettiest gal I ever seen—you know them Kansas gals can be purty—she had a wig that 'd keep your hands warm in January. Well"—

When, however, the surgeon recounted the story at the bachelors' mess mess mirth over it was noticeably lacking. To the little circle of officers there was nothing comical in the fact that a man from the post had molested the girls so recently orphaned. And all save Fraser vowed stormily that Matthews would be called to account. The young lieutenant said nothing.

Before the meal ended the interpreter came in. He had changed his clothes and restored his hair to its pristine smoothness. He gave the group his usual bob and smile.

Cold stares answered him—from all but one, who fairly bounded from his chair. It was Fraser, face red, shoulders working under the blue of his uniform. He planted himself before Matthews.

"You d——d blackguard!" he gasped.

The other looked highly amused. "What's got into your craw, sonny?" he inquired.

"You d——d blackguard!" repeated Fraser, and struck out.

An amazed and delighted mess room looked on, for Fraser, the tender hearted Fraser, the pink cheeked "mamma's darling," was battering the interpreter hammer and tongs.

From the doorway the captain's voice interrupted the battle, and the two men were pulled apart. Matthews fell to wiping at his stained lips, which had magically puffed to proportions suggesting those of the colonel's black cook, while the lieutenant was panting and struggling wildly to get free.

Oliver thrust the latter behind him and addressed the interpreter. "I'm not stopping this boy because I don't think you need a second thrashing," he said. "I'd like to see you walloped within an inch of your life. But I can't have this kind of thing going on."

"I wasn't goin' to took them guns," lisped Matthews. "I ain't no city tough."

"We don't need your services at Brannon any longer. You light out."

After that mess went merrily on. "Didn't know you had it in you, Fraser," marveled one officer. "By cracky," added a second, "how you can sing!" The surgeon sighed. "No one has ever understood Robert," said he, "but women, critters and kids."

And now Matthews' blood was up, and under his sloping forehead the gray matter was bubbling and boiling like the soup in the sutler's pot. He hurled out terrible oaths against the shack, against Captain Oliver, against Fraser, against the old pilot. Dallas Lancaster had made a cheap spectacle of him. The commanding officer had ordered him to leave Brannon, the "unlicked calf" of a lieutenant had whipped him out of hand, and the man most ready to grumble his liquor had gone through the barracks a-blabbing.

He hurried to his room to pack his belongings. "I'll fix 'em! I'll fix 'em!" he raged. "I'll git even with the hull crowd."

He halted at a window and looked across the Missouri at the little shack. "When the reds go to the reservation, that'll do for you," he said. "But how

(To be continued.)

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—25c. Sold by all dealers.

Cosgrave's Beer

Words of praise have ever prevailed in advertising "copy." That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash value in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which in the original course of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 20 cents per share.

Power and hoisting machinery is installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great value. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information of what you have to exchange.

CALVIN ESTERLY,

717 Market St., San Francisco, Cal.

Wanted

Wanted at once a good dining room girl, also a kitchen girl. Apply at 291 Hunter street.

Fractured Her Ankle

Mrs. Isidore Goselin, Romaine St., met with an accident the other day which will confine her to her bed for some time. She was going down a number of steps leading to the yard, when she slipped and fell, fracturing her left ankle. Dr. McNulty attended her and she is now resting easily.

The Interesting Route

To Manitoba, Saskatchewan and Alberta, is via Chicago and St. Paul, Minneapolis or Duluth. Through the brilliantly lighted St. Clair tunnel by electricity, without smoke, gas, or dust. Secure pamphlet, "New Route to Winnipeg and West," from nearest Grand Trunk agent.

The "Diamond" Wall Rack

Have you seen the "Diamond Wall Rack, sample of which is on display in our Bookstore window? If not see it at once and get particulars. It is given as a premium to our subscribers and is the "Peer of Premiums." It beats them all in the verdict of all who see it. Times Printing Co., Hunter street, Peterborough.

Got $250

Two hundred and fifty dollars is the amount received by the Salvation Army Band from those they serenaded during Christmas week. There are still seventy-two who promised donations, to hear from, and the amount should exceed $300 when all the money has been handed in. A public statement will likely be given when the entire amount has been subscribed.

Gone to New York

Fred Simpson left yesterday for New York where he will run in the relay race in Madison Square Garden against AM. Shrubb, the English runner, who is also well known here. This is Simpson's first attempt at professional running and his race will be watched with interest. He is being managed by Tom Eck, who is as good a man as the Hiawatha Indian could get hold of.

Home Needlework

The Weekly Times and the Canadian Home Needlework magazine (a monthly magazine) for $1.25 per year. As most of our readers are probably aware the magazine is indespensible to ladies who have any desire for needle or crochet work. It contains all the latest ideas in fancy work that is worth having. To our present subscribers who will renew and promptly with above conditions may also receive a copy. Subscribe now. Times Bookstore, Hunter street, nearly opposite the Post Office.

Eastemore Fire

Word was received yesterday afternoon of another fire in Eastemore. The barns and stables belonging to Mr. Wm. J. Crough were destroyed, together with the machinery and the farmer's products of the fields, which were stored in them. Mr. Crough and his wife, it was learned, had gone for the day on a visit to relatives, and only the young people were left to fight the fire. The stock were taken out safely, but everything else was lost. The origin of the blaze could not be ascertained. It was only two days ago that a similar misfortune befell Mr. M. F. Crough, a cousin of Mr. Wm. J. Crough.

ADVERTISE IN THE TIMES.

Prison Ball

Warden Mudd, of the Kentucky State Penitentiary, plans to organize a baseball team of long-sentence convicts and games will be played with other teams of the institutions. Mudd believes baseball will make better prisoners. The game will give the men something to think about he says, and keep their minds off their surroundings. The team will start practice early in the spring. Nearly all the men proposed for the long-sentenced team say they can play.

Non-Com. Officers

The election of officers for the N.C.O. Mess, of the 57th Regiment, was held Wednesday night at the mess rooms on Simcoe street, and the following officers were elected; Hon. President, Staff-Sergt. Sharp; Pre-President, Col.-Sergt W. Roberts; Secretary-Treas., Sergt. Mitchell; Hon. Chaplain, Major Rev. J. C. Davidson. During the evening a presentation was made to Sergt. Batten, of a beautiful case of pipes, for having served faithfully for twenty years. A short address was given by Quartermaster-Sergeant Edwards and the presentation was made by Staff-Sergt. Sharp.

Personal

Mr. George Brady of Lindsay, was visiting friends in the city yesterday.

Mrs. James Lynch, Aylmer street, left yesterday for New Westminster, B.C., to visit her son, Mr. Fred Lynch.

Messrs. W G. Ferguson, Alex. Gibson, Geo. Bennett and J. D. Craig were in Toronto yesterday attending the Harry Lauder concert in Massey Hall.

Mr. and Mrs. Henry Henderson, of Norwich, who have been visiting their son and daughter, Mr. and Mrs. A. W. Creasman, Brock street, have returned home.

Lindsay Free Press: Miss Aileen Lytle is in Peterborough today visiting friends.—Mr. G. E. Brust of Peterborough, was in town yesterday.

Miss May McGibbon, Sherbourne street, and Miss Eva Grieve, Newcastle, have returned from a very pleasant visit with friends in Peterborough.—Port Hope Guide.

Messrs. Hanley Jackson and W. M. Gowans, of Ebolt, B.C., who have spent the past week at the former's home, Bethune street, left yesterday for Toronto andNiagara Falls where he will spend a short time before returning west.

Mrs. T. F. Matthews, Miss L. Davidson and Misses Morrow left yesterday for Hamilton, where they are enjoying a pleasant re-union with friends whom they met on their extended tour through Europe and Asia last spring. They will likely be away until the end of the week.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours —and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventics—25 cents. Ask your druggist. He knows! Sold by all dealers.

A marvellous trial reading of character by the well-known scientific phrenologist, Prof McKellar, L. V., 21 Beaconsfield avenue, Toronto, whose public blindfold tests prove the reliability of phrenology. Send address and 10 cents silver. Enclose photo when possible. Will return with reading.

The Vital Statistics for Peterborough

There were more deaths, more births and more marriages in Peterborough during 1908 than during 1907. Although 1908 was leap year there were only four more marriages than in the previous year. Apparently Peterborough ladies did not take advantage of the leap year privilege. There were 42 more deaths in 1908 than in 1907, but the number of births showed an even larger increase, there being 58 more in 1908 than in 1907.

The figures were given out at the city clerk's office yesterday and are as follows;

	1908.	1907.
Births	453	395
Marriages	168	164
Deaths	273	231

The number of births, marriages and deaths during the last quarter of 1908—October, November and December was as follows;—

Births	119
Marriages	49
Deaths	71

This Blood Made Strong

TIREDNESS AND WEAKNESS OVERCOME.

A Joyous Letter.

"I admit because I neglected early treatment I am entirely to blame for the condition of weakness that for nearly two years made my life a "real misery," writes Mrs. Hanna, of Beauport. "At first I felt sort of flat in the morning and could do no more than pick at my breakfast. Later I remember my sleep was disturbed, that dreamy, restless sleep, from which you finally awaken, feeling as if you could never get up. Then I became thin, lost my color, got nervous and fearful about nothing, and kept thinking about myself all the time, and was irritable, cross and easily made cry. What would have become of me if I had not taken Ferrozone, I can't imagine. Ferrozone put new life into me from the start. It strengthened my nerves and brought back my color, and in a little while, less than three months, no healthier and brighter woman could be found anywhere. I highly praise Ferrozone and advise sick people to take advantage of its health-conferring properties."

Ferrozone quickens the powers of both body and mind, simply because it forms lots of blood that's full of life and vitality. Ferrozone creates appetite, gives strength, vim and endurance. It's good for old people, good for everybody that needs better health. Thousands of men, women and children use Ferrozone every day and all say it's the best nourishing, strengthening tonic made; try Ferrozone yourself, 50c per box or six boxes for $2.50. Sold by all dealers.

Obituary

MRS. HENRY BEST.

As was noted in yesterday's issue Mrs. Henry Best passed away at an early hour Thursday morning at her home on Lock street.

Mrs. Best was fifty-seven years old, having been born in Otonabee in the year 1851, she was married 34 years ago to Mr. Henry Best, who is well known and respected as a citizen, and who occupied the position as mayor of this city.

Mrs. Best has been ill for some time, but since the new year her condition of health has been gradually growing a great deal worse, until death resulted yesterday morning. She is survived by her sorrowing husband, two daughters, Mrs. W. H. Manning of Peterborough, and Miss Brethe at home. Five brothers, John Fife, of Tacoma, Wash.; Alexander and Thomas Fife, of Neebe, North Dakota; David Fife, of Emmetsburg, Iowa, and Hugh, of Otonabee, survive her, as well as two sisters, Mrs. Joseph Lisle, of Los Angeles, Cal., and Mrs. C. H. Sweetling, of Auburn, N.Y.

The funeral will be held on Saturday from the residence, 103 Lock street at 2.30 p.m., and proceed to the Little Lake Cemetery for interment.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box —and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

Great Year Ahead

A great year is promised for readers of the Family Herald and Weekly Star of Montreal. Already the acknowledged best family and farm paper printed, the publishers are out with the announcement that it is to be vastly improved during 1909, in appreciation of the enormous number of subscriptions received. The paper is to be enlarged, their news service vastly improved, more stories of a high order of merit are promised, new contributors of great literary fame will contribute and many new features of absorbing interest are to be introduced. Evidently the Family Herald and Weekly Star during 1909 is going to be greater value than ever before.

Conjugal Bliss in 1950

"My love", mentioned Mr. Sufferer-Gette. "I wonder—I wonder whether you would let me have the use of my latchkey this week?"

"Latchkey!" bellowed his wife, "What the dickens do you want with a latchkey, my good man?"

"Well, my love," coughed Mr. Sufferer-Gette, "we are holding a series of fathers' foregatherings in the mission hall this week, when we hope to do a little needlework on behalf of the parish poor. Miss Nancy has kindly consented to come and talk to us about her recent Farthest North trip, and——"

"Great heavens!" roared the irate wife, banging her pipe upon the table to emphasize her words. "Don't you know your duty is at home? Besides, on Monday I've got to attend the Women's Emancipation League; Tuesday, the Sisters of Charity meeting; Wednesday, the local policewomen's concert; Thursday, the Daughters of Toil Lecture; Friday, the Women's Science Research class, and on Saturday, our football club's smoker. Now, don't you forget—your duty is at home!"

And so it came to pass.—Tit-Bits.

Saw the Woman with the Baby in the Valise

Toronto, Jan 7.—It will be remembered that a day or two before Christmas a baby was left in a telescope valise on the steps of the Sick Children's Hospital, was discovered by one of the attendants, and taken in and cared for.

It was learned today at the Union Station that a young woman and a man, as well as the baby which they had in a new telescope valise, were all seen by two of the matrons in the ladies' room.

A few days before Christmas a young woman carrying a telescope valise came into the general waiting room at the station and asked for a private room. The nearest thing there in that line is the Ladies' Waiting room, so she was taken there. After sinking into a chair and placing the valise beside her she beckoned to the matron.

"I'm so tired," said she, "and I'm sick, and I've got a baby in that valise."

"Heavens!" exclaimed the matron. "Aren't you afraid of the poor thing suffocating in there?"

"Oh, no," was the woman's reply, in an indifferent tone. "She's been there quite a while already, and I guess can stand it for a while longer."

But the matron persisted and finally got the valise unstrapped and the baby out. She says the child was a little girl and very beautifully dressed.

The woman was young, extremely good looking, and well and fashionably dressed. She came in at 11 o'clock in the morning, and stayed until 8 o'clock at night, when a man met her and the two went off together.

"She said," said Mrs. Barchard, the matron who was on duty there in the afternoon, "that she had come from Montreal, although there is no train from there at eleven in the morning. She also said that she was carrying the baby in the valise by the doctors' orders, as the child had a cold, and would be safer in the grip."

Mrs. Galvin was on duty in the morning when the woman first came in.

Keene

The nominations for Reeve, Deputy Reeve and Councillors took place in the Town Hall, Keene, on Monday at the hour of twelve o'clock. Mr. Stewart was elected Deputy Reeve by acclamation. The persons for Reeve are J. Fife(the present Reeve) and W. J. Porter (the present Deputy Reeve). Those for Councillors are D. Cameron, J. Miller, W. Anderson, and T. Hazlett. At one time of the proceedings, the ratepayers had come to the conclusion that a minature Burns and Johnston affair was going to take place. But we are pleased to report that it all passed over, with only the tongues being used for weapons. The election is to take place on January 6th, 1909.

MILLIONS OF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Wasted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has been tested in every detail. We KNOW wha it will do and we know that it will do what we claim for it.

You kn w what a cheap smelting process will mean to the mining industry all over the world. Miners as well as investors in mining stock must pay their share in unreasonable charges to s me smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Oursmelter thus erected will save 85% in treatment, freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matt r how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values fr m the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when her you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,

Deputy of the Minister of the Interior.

Ald. Geo. A. Gillespie was Again Made Director of Dairymen's Association

Aerating Milk is Not a Good Plan, Curds are Gassy--Eastern Ontario Dairymen Elect Their Directors

Prescott, Jan. 8.—The Eastern Ontario Dairymen's Association in session here yesterday listened to an address by Mr. G. H. Barr on the inadvisability of aerating milk in an effort to keep it sweet during the hot weather. Mr. Barr showed from tests made that milk which had been aerated gave curds which were gassy, and those made from milk which had been cooled and not "dipped" were first quality, and made good cheese.

Mr. G. G. Publow, inspector at Kingston, gave his sixth annual report, which showed that two official prosecutors had been appointed in addition to the twenty-four instructors. Although the milk yield during the past year was less than average, the improvements and additions to the factories of the district ever which he hheld away had amounted to $150,000. Sixty-three factories have started th emanufacture of butter from whey and this is being found a profitable industry.

Mr. Wilson, superintendent of dairymen in Saskatchewan, told of the strict regulations which governed affairs in that province, and said that a new creamery must first be approved of by the department, and then not established within 20 miles of an existing factory.

Mr. Ayer, president of the Montreal Produce Merchants' Associa addressed the meeting. He claimed that the proposed sale direct to Great Britain would probably mean a decline in prices and the gathering of huge stocks of dairy produce in the warehouses of Great Britain.

Mr. G. A. Gillespie is a director from this district.

Peterborough Canoes Purchased by Peltier, the Lost Inspector

In yesterday's paper appeared a despatch from Winnipeg telling of the terrible suffering endured by a party from the Dominion Survey, sent out to search for Inspector Peltier and his party of Eskimos, who have been missing some time.

A year ago an officer named Cladwell from the Geological Department at Ottawa was sent on a survey in the north country, and never was heard of again. Last spring Inspector Peltier was despatched with a search party from Chesterfield Inlet, and was to wait at Fullerton till August 1st, but the party and boat were never seen again. The third party, consisting of sergt.-Corpora' Reeves and three Eskimos, were sent out Nov. 22, but nothing was heard from them, and it is believed they, too, were lost. A fourth party will be sent out later.

In connection with the above it is interesting to note that Inspector Peltier, who is missing, was in Peterborough last spring. He came here for the purpose of purchasing canoes in which to make the trip referred to above. He bought four canoes from the Peterborough Canoe Co., any, two of them being for another party. The best canoes obtainable were purchased, the inspector apparently realizing that the trip he was about to undertake was a dangerous one, and the best that could be had would b enecessary.

Bowling Match at at the Y.M.C.A. Alleys

The scores in the Y.M.C.A. bowling tournament last night were as follows;—

Little	90	105	72
Pratt	146	85	91
Wade	108	105	98
	344	295	261

Grand total 900.

Millard	117	130	88
Armstrong	140	132	171
Shirley	132	110	156
	389	362	415

Grand total 1166.

Methodists Won from the Baptists

A very interesting curling match was pulled off yesterday afternoon when the Methodist enthusiasts met their Baptist brethren and gave them a good ducking in the tank of solidified water. Rev. Mr. Pearson of Charlotte street church, skipped for his denomination, while Rev. Mr. Webb of Murray street Baptist, directed the stones for his rink. The game created a lot of sport for the spectators as well as the players The rinks and scores were as follows;

METHODISTS.	BAPTISTS
F. Brownscombe	Maitland
B. F. Ackerman	Mwntgomery
H. Foote	Rev. Webb, sk. 1

Bankers Made Two Two Records Last Night

By taking three wins from the Midgets yesterday afternoon, the Bankers are once more safely in the lead in the ten pin tournament at the P.B.C. alleys. The second game was a tie, but it was rolled off and the "money slingers" won. The Bankers not only won three games but they made a record for the three-game score, having rolled a total of 1598,—and they also made a record for the three-man single game, rolling 581 in the third game. The Bankers have so far, easily shown themselves to be the best team in the league. Not only by the number of games they have won (17 with only 4 losses), but they hold the team re-

Coroner's Jury Blames Walter Blythe for the Death of His Wife

Excessive Violence by Husband was Fatal--Witnesses Testify That Blythe Expected to Hang for His Conduct

THE JURY'S VERDICT

"We find that Mrs. Walter Blythe came to her death on Sunday, January 3rd, 1909, at her home, lot 24, con. 3, Scarboro township, as the result of excessive violence, inflicted by her husband, Walter Blythe, and we also find that this was not the first time that she had been subjected to violence at the hands of her husband, Walter Blythe.

HUGH CLARK, Foreman.

Agincourt, Jan. 8.—The inquest into the death of Mrs. Walter Blythe was held this morning before Coroner Dr. F. N. Coutts of Agincourt. Crown Attorney Drayton acted for the Crown, while Mr. T. N. Phelan appeared for the prisoner.

Malcolm Walker, a neighbor of the Blythes, was examined first. He told the story of how Blythe had rushed into his home on th efatal Sunday evening, crying out that he had killed his wife.

LOTS OF ROWS.

Mr. Phelan cross-examined.

"How long have you known Blythe?"

"About two years."

"Have you noticed anything peculiar in the relations between Blythe and the wife?"

"They had lots of rows."

"What sort of disposition had Mrs. Blythe?"

"She was a nice woman."

"Was she in the habit of scolding her husband?"

"No. I don't think so."

"What was the cause of the trouble?"

"She did not water the cows when he told her to, and also neglected to do other little things around the place."

"What did Blythe say to you when he rushed into your house?"

"He was very much excited, half laughing and half crying."

"Did he know his wife was dead?"

"No; not until the doctor arrived."

Mr. Walker went on to say that he had forbidden Blythe to go back to his own house for fear he might frighten the children.

Mr. Drayton wanted some more information about previous quarrels.

OFTEN HEARD CRIES.

"I often heard Mrs. Blythe crying out as though her husband were beating her, but I never went over.

The Big Bonspiel will Open on Tuesday

Peterborough's Bonspiel, and the first one in the new rink, will open on Tuesday next at two o'clock, and for the balance of the week, there will be some of th efastest and most enthusiastic games ever played in this city. Already the club is assured of rinks from Lindsay, Orillia, Bobcaygeon, Keene, Lakefield, Napanee, Norwood, Beaverton, Oshawa and other towns and cities in Ontario. It will be the biggest bonspiel ever held here and it may be that it will be necessary to play a game in the morning, two in the afternoon and two in the evening with seven ices going all the time, which will mean 14 rinks or 56 men playing at one time.

Scores Made at Curling Rink Last Night

The following are the scores at the curling rink last night in the club's contest;

Fraser 8.	Hall 12.
Fitzgerald 14.	Stevenson 10
Dela Fosse 9.	Giroux 12.
Kenner 10.	Clegg 7.
Thompson 16.	Ferguson 13
Matthews 8.	Neill 12
Lang 10.	Ray 16.

How's This ?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.,
Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

The Skips were Chosen

Monday will be a big day at the curling rink. It is the annual match for the Shepard-Neill trophy and four rinks from Orillia will arrive in the morning with the determination of carrying the coveted prize away with them to their northern camp. The local curlers are just as confident that they will retain the silverware and there will be a battle royal. The weather man promises a frosty atmosphere so that good ice is assured. The Peterborough curlers met last night and selected the following skips to play against Orillia;—R. Neill, C. N. Brown, G. Giroux, 6. Ray.

"The Supremacy of Christ--Its Results"

The closing meeting in the Week of Prayer series was held last night in St. Paul's church, and was a great success in point of numbers and interest. The auditorium was well filled, the singing was most hearty, and the prayers were fervent and helpful. The Rev. Dr. E. A. Langfeldt, M.A., presided, and conducted devotional exercises. Miss Helen Davies rendered very effectively, "I'm a Pilgrim."

The address of the Rev. Mr. Henderson, pastor of Charlotte street Methodist church, was eloquent and inspiring. The subject of the evening was "The Supremacy of Christ—its results."

The speaker based his remarks on Phil. 2.5. "Let this mind be in you which was also in Christ Jesus." The work of Christ was referred to in various ways. He was regarded as Teacher, Saviour, Lord, King, Judge, but here He is spoken of as our Pattern.

We can scarcely appreciate the full meaning of this. Christ was Divine. His name was Immanuel—God with us; yet His was also an intensely human life. In our sphere we are to imitate Him. Spiritualizing the old legend regarding His resurrection wherever He has gone flowers have sprung up.

We are Christ's representatives, and what He was so are we to be. He seems to say to us "Remove the obstacles." He is the light—open the shutters—draw back the curtains, that darkness and sin may be dispelled. He is like the ocean. If you remove the barriers it will overflow, so let the barriers of the heart be removed—the body made clean and Christ shall fill your life.

Jesus Christ was the peer of Jehovah, yet He made use of His equality with God for the work of man. He thought it not robbery to be equal with God, yet made Himself of no reputation, and took upon Him the form of a servant.

He was sovereign, yet became servant of all.

He was born in poverty, yet had been equal with God. "The word was with God, and the word was God." He divested Himself of all His glory that He might share the care and burden of humanity. It was "for our sakes" He became poor. We must behold the great unselfish life of Christ.

If we imitate Him! Do we not find selfishness substituted for love, self-gratification instead of helping our brother man. The Christian life is first of all Dethronement of self, and then entering upon the service of Christ for man.

The first form of the descent of Christ was His incarnation, the second was His obedience unto death with all its ignominy and disgrace. To us the cross is the badge of all that is Christian. In Christ's day it was the sign of shame. "Cursed is everyone that hangeth on a tree."

The Christian must in like manner prove his discipleship by self-sacrifice. Mr Henderson referred to three or four most suitable instances of heroic Christian service. In one case two Moravian missionaries selling themselves into slavery that they might save the slaves.

In another the missionary and his wife giving themselves to the work among the lepers and there spending their lives in order that these lepers might be saved.

But exaltation is the result—the sequence of humiliation. "Wherefore God also hath highly exalted Him and given Him a name which is above every name." The cross first and then the crown is as universal as the law of gravitation. He that humbleth himself shall be exalted, and the life of Jesus Christ repeats itself in those who follow Him.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

Davidson Won the Oyster Supper

The first game for the oyster supper was played yesterday afternoon in the curling rink when T. F. Matthews's rink went down to defeat before D. Davidson's stalwarts. The score was 15 to 10 in favor of Davidson. The rinks were;

F. Dickson	Hall
R. Hicks.	T. F. Matthews
W. Thompson	H. A. Morrow
D. Davidson, sk15	G. Boucher, sk10

Daughters of England Instal Their Officers

The installation of the officers of Lady Lansdowne Lodge, Daughters of England, was held Thursday night, the following officers being installed by Sister Mitchell, D.D., G.P.:—

Pres.—Sis. Wolstenholm.
Vice Pres.—Sis. Anderson.
Sec.—Sis. Mitchell.
Treas.—Sis. Tovey.
Chap.—Sis. Roberts.
1st. Com.—Sis. Rathbone.
2nd Com.—Sis. Pittman.
3rd. Com.—Sis. Logan.
4th Com.—Sis. Doe.
L.G.—Sis Evans.
O.G.—Bro. Taylor.
Surgeon—Dr. Young.
Trustees—Sisters Shaw, Gaskins and Lush.
Auditors—Sisters Oliver, Byers and Thomas.

After this business had been completed they repaired to Hooper's Grill Room where mine host Hooper provided suitable refreshments.

God Save the King.

C.P.R. Appreciate Firemen's Efforts

Fire Chief Howard is in receipt of a very complimentary communication from Mr. James Oberne, general superintendent of the C.P.R., conveying the thanks of the C.P.R. Company, and its officers, to the Peterborough firemen for the assistance rendered the company on the night of the 14th of November last at the time of the wreck near Parnell street.

Mr. Oberne also mentions that he has recommended an appropriation of $25 to be divided among the men. It will be remembered that a collision occurred just outside the city limits, and the firemen were successful in saving 25 cars of merchandise from destruction by fire. The letter is a personal one and also mentions similar service rendered on the night of May 31st last, when Mr. Howard was chief at Owen Sound. The wreck that occurred there was attended with fatal results. The late W. H. Boskill, one of the company's best known engineers, lost his life.

Mr. Boskill was a brother-in-law to Mayor Rush.

Protest Against Gene Hurtubise was Entered, He is a Professional

There are doings in the bowling tournament and as the date approaches for the much talked of game between the Hams and the Greys' bowlers, things are warming up. These two teams, while they meet in the regular tournament game, are so cocky and so confident of winning, that an oyster supper has been wagered. This has started the Greys to figure and they have finally hit upon a scheme which is making the Hams sit up and take notice.

Mr. Joe. Hay, the proprietor of the alleys, and also one of the Hams, has received the following communication, which was done up in red seals and pink ribbons, and is so good that an explanation is unnecessary;—

THE COMMUNICATION.

Peterborough, Jan. 7, 1909.

Mr. J. B. Hay,
Bowling Academy, City.

Dear Sir,—This is to inform you that we have been in communication with Mr. Crowe, secretary of the C.A.A.U., He has advised us that Mr. Gene Hurtubise is a professional. Therefore we feel that he should not be allowed to play with the Hams on the night they meet the Greys.

We do not want you to think that we are afraid of the aforesaid gentleman's bowling ability, because we are confident that we can wipe the floor with the Hams any day in the week, barring Sunday. The fact of the matter is we are afraid of injuring our amateur standing.

We trust that you will see the wisdom of barring all professionals from the bowling competition, and thereby do all that is possible to keep the ancient game of bowls in the place it has occupied since the days of Drake and Hawkins, viz., that of the greatest of all indoor amateur sports.

It is just possible that it may enter your head that we are after that oyster supper and intend getting it by fair means or foul. Should such an unworthy thought be fathered by such a noble brain as we know you to possess, we trust that you will cast it from you, because Mr. Hay, we consider our honor above such a trifling thing as an oyster supper, especially if we have to put up the coin for it. We trust that we will not have to urge this matter any further. With all due respect to Mr. Hurtubise, we say that he has no right to mingle with amateurs with the highest standing, such as enjoyed by the Greys.

We might also say that it would be wise to have a competent referee on the foul line. We would recommend either Tom Flanagan or Tim O'Rourke. Should you not know these gentlemen send a wire to "Alfie" Shrubb.

The team committee and executive met in silent conclave and after due deliberation refused to play under any other conditions. We would like to say that the chief reason for taking such a course as this, is because we intend playing golf and lawn tennis in the near future and our position could never be the same in athletic circles should we play with Mr. Hurtubise.

Thanking you in advance, we are sir,

Yours sincerely,

Signed on behalf of the Greys.
FRED McFADDEN.
NORMAN PERRY.

The C.P.R. will Expend 30 Million in the West

Winnipeg, Jan. 9.—Thirty Million dollars was mentioned to-day as the local lara was mentioned to-day at the local offices of the Canadian Pacific as the sum which Second Vice-President Whyte will ask from the treasury of the company to be expended on western lines during the season of 1909.

Mr. Whyte will leave for the east on Friday and will spend the following week in Montreal. He will be accompanied by the chief engineer for western lines, W. M. Schwitzer, who for several weeks past has been devoting his entire time to a consideration of the work to be done next year in connection with the building of additional track and betterment and maintenance of existing lines.

The Interesting Route

To Manitoba, Saskatchewan and Alberta, is via Chicago and St. Paul, Minneapolis or Duluth. Through the brilliantly lighted St. Clair tunnel by electricity, without smoke, gas or dust. Secure pamphlet, "New Route to Winning and West," from nearest Grand Trunk agent.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—25c. Sold by all dealers.

Statement from President City Temperance and Moral Reform League

Following the week of prayer the City Temperance and Moral Reform League will begin its program of campaign with the vote for the banishing of the bar next January.

The work of the league will be educative throughout the year. The spirit that permeates the executive is that of good-will to the citizenship of this progressive city. In the language of the Rev. Dr. Henderson, the league clearly recognizes the fact that the true spirit of christianity today must be translated in the liberty and loving service for the uplift of men around us.

The object of the league will be to bring before the attention of the citizens of Peterborough facts bearing upon the importance of removing the saloon from the hotel business, it shall appeal to those who have been drawn under the power of strong drink, and will seek to work along the lines of the T.A.S. in securing the total abstinence pledge from the men of the city. It will appeal also to the higher motives in the men who indulge moderately in the hope that, for the sake of others they will forego that which after all is a most dangerous and questionable delight. The league will appeal to the men engaged in the traffic themselves in the hope that they may get a clear view of the awful havoc their daily efforts are producing, and the high esteem in which they would otherwise behold if they would out out the bar and do all that they are capable of doing in helping to build up a strong and genuine citizenship where every British subject would be free to enjoy the blessings of his home and family circle. It will be the object of the league also to furnish facts relative to the large gains to the commercial interests of the city and from time to time, will have the testimony of prominent business men in the towns and cities when the enormous sums of money—worse than wasted in strong drink have been converted into groceries, boots and shoes, clothing and bank accounts.

The league will appeal to all the citizens for their assistance in procuring helpful hints and information that will add to the interest of the educational work.

The league has opened an office in the new block, 173 Simcoe street, where all communications, clippings, short, pointed letters may be sent.

Considerable space has been purchased in the city press for the Saturday editions which will be under the ale management of an intelligent, wise and judicial editorial committee, and the executive invites all who are interested in this work to meet with them any Thursday night at their rooms at 173 Simcoe street.—Com.

SHRUBB MATCHED.

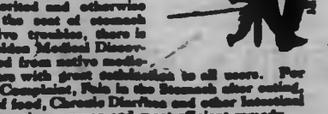
Toronto, Jan. 8—Percy Smallwood, the little Welshman, who defeated Tom Longboat at Philadelphia, has been matched to meet Alfie Shrubb, the English pro. champion, in Toronto on January 15. The race will take place in Riverdale rink on a banked track which runs 12 laps to the mile. Manager C. W. Smith, of the Rink has hung up a $600 purse for the event.

While both men have agreed to run, yet there is a hitch over the distance, but 15 miles will probably be the distance. Shrubb may try to get a race on with Geo. Adams of Hamilton, at 10 miles, or Fred Meadows of Guelph, at five, while Smallwood wants another Longboat race.

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But these our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in overcoming the inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a dynamic compound, entrusted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhoea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The signature has on its outside wrapper the signature



You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

St. John's Sunday School Entertainment a Huge Success

The annual Christmas entertainment, held last night under the auspices of St. John's Sunday school, was the best that has ever been given in St. John's history. The order of the little folk was freely commented upon, while the program furnished was of a unique nature, and equally enjoyed by the elder members of the church present, and the scholars in general. The platform had been tastefully decorated with picturesque scenery appropriate to the occasion, and every number was presented in costume and accompanied by scenic effects. No pains had been spared to render the event a record one, and its unqualified success reflects considerable credit upon Mr. R. J. Devey, the Sunday school superintendent, who spent considerable time and money in preparing the splendid program offered last night. While the public generally had not been invited to be present, the school room was well filled with scholars and leading members of the church, who one and all testified in unmistakable manner to the pleasure they derived from the entertainment. At the conclusion of the excellent program refreshments were served in the shape of tea, cake, ice cream, and other palatable edibles. The beautiful electrical effects were furnished by Mr. Cotton and Mr. Common, and the refreshments by Coleman Bros.

Amongst the guests present were Rev. Canon Davidson, the rector, and both wardens, all of whom entered into the requirements of the occasion. Canon Davidson addressed the assemblage in a few chosen words, giving a full measure of credit to Mr. R. J. Devey, under whose superintendency the Sunday school has of late made rapid strides.

The following program called for many encores, and will be repeated on Tuesday evening, next, in St. John's school room, at eight o'clock p.m.

Marching, Bear the little feet.—The choir boys.
"Sing O Sing of Jesus"—Miss Dean's infant class.
Solo, "The concert in Massey Hall." Arthur Horsefield.
Recitation, "The Errand Boy,"—Willie Common.
Song, "Dolly's singing lesson," —Miss Cuffe.
Toy Duett,—Isabel Morphet and Cyril Devey.
Piano duett,—The Misses Gladman.
Sextette, "If you will come to tea" —Misses Whitcroft, Hatton and Rountree, Masters, Devey, Horsfield and Common.
Violin solo, "Cavalleriana Ruaticania" —Miss Palmer.
Sailors' song, "The Powder Monkey" solo by Cyril Devey, chorus by St. John's choir boys.
"The Moon Song."—Solo parts by Mrs. R. J. Devey, Miss Agnes Horsfield, Masters Cyril H. Devey and Arthur Horsefield.
Chorus by senior girls.
Soldiers' song, "The Rifleman," by St. John's boy choristers.

The training of the children was due to the kindness of Mrs. R. J. Devey, Miss Dean and Mr. R. J. Devey, who spared no pains to give the children a thoroughly happy time.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

NEW POWERS FOR JUDGES

It is understood that communications have passed between the Ontario Government and the Hon. A. B Aylesworth, Minister of Justice, in reference to the adoption of the indeterminate sentence in the province. Ontario is about to establish a prison farm, to be a means of reforming those convicted in the courts rather than a penal institution. In connection with this new step it is desired to have power to send first offenders to the farm on the understanding that they may be released on parole when it is believed that they will lead upright lives for the future. In order to adopt such a plan it is necessary that the Dominion Parliament pass legislation, and it is probable that the special committee of the Legislature which investigated prison methods and advocated in its report the reforms to be inaugurated in the spring, will wait on the Minister of Justice as a deputation. It is said that Mr. Aylesworth is personally favorable to the use of the indeterminate sentence. The special committee consisted of Messrs. J. P. Downey, M.P. P., Findley McDiarmid, M.P.P., George Pattinson, M.P.P., and John Dargavel, M.P.P.

Receipt that Cures Weak Men—Free

Send Name and Address To-day—You Can Have It Free and be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So, I have determined to send a copy of the prescription, free of charge, in a plain, ordinary sealed envelope, to any man who will write me for it.

This prescription comes from a physician who has made a special study of men, and I am convinced it is the surest-acting combination for the cure of deficient manhood and vigor-failure ever put together.

I think I owe it to my fellow man to send them a copy in confidence, so that any man, anywhere who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what, I believe is the quickest-acting, restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and so, cure himself at home quietly and quickly. Just drop me a line like this: Mr. A. E. Robinson, 2269 Luck Bldg., Detroit, Mich., and I will send you a copy of this splendid receipt, in a plain, ordinary sealed envelope, free of charge.

Strange Murder of a Minister

Detroit, Jan. 7.—The dismembered body of Rev. J. P. Carmichael, a Methodist minister, was found yesterday partially consumed by fire in the two heating stoves of one of his three churches near Columbus, in the south-western part of St. Clair County.

Identification of the dead clergyman was made by Orville Lindsay, who was sent to the church by Mrs. Carmichael, who had been in great distress since her husband failed to return home when expected Tuesday evening.

TWO MEN INVOLVED.

Clues to the murderer and his motives are difficult to obtain. There is a rumor that a strange man left a train at Hickey late Tuesday and was directed to the Columbus church, and there are other rumors indicating that two men were implicated in the crime. The fact that several coins were found in the clothing of the dead man and in the ashes in the stove precluded the theory of robbery, and at the time of his death it was not known that the murdered minister had an enemy in the world.

WIFE AND THREE CHILDREN.

Rev. Mr. Carmichael had been in Michigan about ten years, and for two years had been pastor of the three churches at Columbus, Adair, and China. With his wife and three children, he resided at Adair. Leaving home Tuesday morning, he told Mrs. Carmichael that he was going to Columbus to arrange for a series of revival meetings there. He waved his hand to a group of children as he drove out of the village of Adair, and from that moment all trace of him is lost.

BLOOD EVERYWHERE.

Myron Brown, who lives near the scene of the tragedy, was the first to discover the crime. While waiting at the crossroads to keep an appointment the cold wind drove him to seek shelter in the church. He was surprised to find the church doors unlocked, and was terrified to see the church floor, the pews, and even the communion table daubed with blood and fragments of bloody clothing scattered all around. Evidently the clergyman, who was 56 years old and of athletic build, had made a terrific struggle for his life. Brown hurried to the village of Hickey, whence he notified the sheriff's office at Port Huron.

KILLED WITH A DIRK.

The authorities on their arrival at the church found parts of the dismembered body in the two stoves, respectively, at the front and rear, and discovered in one stove the head of what was apparently a new hatchet, the handle of which had been burned off. A dirk was also found in the church, and it is believed that the dirk served for the murder, while the hatchet was used to cut the body to pieces.

The minister's horse was found yesterday tied to a tree in the village of Pine River. His overcoat was in the buggy.

Pine River is a small village near Thornton, on the main line of the Grand Trunk Railway, and fully twenty miles from the scene of the murder.

Man and Wife were Reconciled

Montreal, Jan. 9.—Alf. Allen, the expugilist, of Ottawa, is in Montreal, and will speak at meetings in the Old Brewery Mission.

There is something romantic in connection with Mr. Allen's visit to Montreal. The memory is sad, but the sequel now being realized is of the most joyous character. He recently found his wife and eight-year-old son, from whom he had been separated for five years and came here to rejoin and be reconciled to them.

Five long years ago Mrs. Allen, who could no longer stand the abuse of a drinking, fighting husband, left him, and went away, he knew not where—and little did he care. But when, through the influences which seized him in the revival meetings, he decided to lead a Christian life, he began to think of his wife and child, and started inquiries with the object of finding them and re-establishing his home. While studying, in preparation for taking up evangelistic work, Mr. Allen has been prosecuting the search and very recently learned that his wife and child were living in Lachine. We went there, and a reconciliation was effected.

Planning a Warship of Immense Size

Washington, January 8.—Plans have been outlined by the Bureau of Construction of the United States navy for a great battleship of 25,000 tons, designed to carry eight 14-inch guns. This fact became known yesterday through the making public of testimony given before the House committee on naval affairs several weeks ago by Rear Admiral Capps, chief constructor. No indication has been given yet that such a battleship will be authorized, but there is in this mid-ye of officials of the department the possibility of asking for an appropriation for a ship of larger type than the Dreadnought.

Another Suit Against Standard Oil Co.

Chicago, Ill., January 9.—District Attorney Sims, foiled by United States Supreme Court in his efforts to exact $29,240,000 fine from the Standard Oil Company, announced to-day that the next time he would try for $40,000,000 fine. The District Attorney is waiting only official communication from the Attorney-General at Washington before beginning a new suit. A new trial may be heard by Judge Landis, too. The new litigation will hinge on the question of what constitutes the "unit of offence" in the rebating evil. "We will be ready to re-try two of the cases against the Standard Oil Company within a day or two," said Mr. Sims to-day. "Six other cases will be ready within ten days."

MY FREE TRIAL TREATMENT MAY CURE YOU

Kingston, June 6, 1904.

Dear Mrs. Currah: I feel so very much better after using the ten days' treatment of Orange Lily you were kind enough to send, that I will not require any more. In fact, I feel entirely well, and it is now a month since I stopped using the treatment. (Miss) F. T. W.

Similar letters to the above are not infrequent though, of course, such cases are not of long standing. Most women who have suffered for any length of time will require to use Orange Lily longer than the Free Trial Treatment in order to effect a complete cure, but in every case they will be benefited. Further, the benefit will be permanent whether they continue to use Orange Lily or not. It is not taken internally, and does not contain any alcohol or other stimulant. It is an applied treatment, and acts directly on the suffering organs. In all cases of women's disorders, these organs are congested to a greater or less extent, and Orange Lily will relieve and remove this congestion just as positively and certainly as the action of ammonia or soap on soiled linen. It is a simple chemical problem, and the result is always the same, a step towards better health and complete cure.

In order that every suffering woman may prove its good qualities, without cost, I will send enough of Orange Lily for 10 days' treatment absolutely free, to each lady who will send me her address. Mrs. K. F. Currah, Windsor, Ont.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you and make a man of you. Under the old system you don't have the least possible chance. Nerves and brain lost vigor, the nervous become strong as steel, no vital exhaustion, headaches and dizziness disappear, the eyes become bright, the face full and clear, energy returns to the body, and the mental, physical and sexual organs are brought to full development, no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know more than a fellow. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars.

NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

BEFORE TREATMENT

AFTER TREATMENT

Peter E. Simmons, of Kalamazoo, Mich., writes: "I was troubled with Nervous Debility for many years. I lay it to indiscretion and confidence in early youth. I became very nervous, could not sleep, never knew whether I was tired or not. I imagined everybody who looked at me guessed my secret. Consequently dreaded to meet people. Had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, bowels were sticky, eyes blurred, hair came, memory poor, etc. Numbness in the fingers led me to call the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, even an electric belt. For three months I went to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult DRS. KENNEDY & KENNEDY, and from the first consultation I had faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic. I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and will continue to do so."

CURES GUARANTEED OR NO PAY

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD AND URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES and all Diseases peculiar to Men.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

Can't be Christlike and a Stenographer

Cleveland, Ohio, Jan. 9.—"You can't live as Jesus would and be an employe of a large Cleveland business house," says Miss Selma McGovern, aged 19, who attempted Monday morning to begin living two weeks as she thinks Christ would. Two days of the experiment convinced her of the impossibility in Cleveland business life.

"It can't be done by an employe," she said. "The employer himself might carry the morality of Jesus into his business if he chose. The case is not hopeless. But the employer—at least my employer—doesn't. And it is suicidal for the employe to attempt it.

"Christ's morality and business tact clash. An employe insisting upon rigid honesty would be discharged instantly. I don't mean to say my firm is dishonest. Along broad lines it isn't. But the department managers resort to many evasions of the truth in order to escape unpleasant consequences.

"For instance, a retail store is writing or wiring in for an explanation of why a certain order has not been sent. The reply is that it is the fault of the manufacturer. We have punched them up several times already. We will do so again at once, and no doubt the order will soon be shipped. So the letter runs.

"Perhaps the manufacturer has been punched up. That may all be true; but after writing the letter, the department head may or may not make good his word. Most always he doesn't.

"No doubt it is necessary in business to tell that kind of lies. But Jesus wouldn't. And when I type the letter I must tell the lie too. Jesus would not be implicated in the lie. He would refuse to write it. If I did that I would lose my position."

Pork and Beans High, 75 Cents Per Plate

"Never saw anything like it in my life," said H. Logan, who returned from Elk City yesterday. He was referring to the rush to Gowganda.

"Pork and beans 75 cents a plate, is the charge and bill of fare at Gowganda's first eating house, and it is not so unreasonable when you consider the difficulties in getting in supplies.

"At Elk City," said Mr. Logan, "the hotels are crowded with all sorts of people, bound for Gowganda. When the regular accommodation is all sold men are permitted to lay down on the floors of the rooms down stairs. The dining rooms are cleared and the men make themselves as comfortable as possible wrapped in blankets or canvas.

"HIKING" OVER THE TRAIL.

"Men are hiking in over the trail. The government road is not yet completed and the people at Elk City have simply thrown up their hands and are waiting helplessly. Prospectors coming in say that the Canadian Northern road, on which 60 men are at work, will be first in the field. Men have already reached Gowganda over the C. N. R. cut from Sellwood using snowshoes.

"One has to get up north to realize the extent of the mining movement. Machinery going in for the Otisse including one compressor. At Charlton, Otisse machinery was unloaded and on the skids. I also passed a sawmill plant, and they say a second sawmill is going in this week.

TELEPHONE EXTENSION.

"The wire for the telephon extension is being strung this week. And Elk City will soon have quick communication with the outside world.

"Among those bound for Gowganda was F. A. Macintosh, one of the discoverers of the Bartlett mines.

"A big safe for the Royal Bank was delivered this week. This institution is one of the greatest conveniences at Elk City, and it is said they will extend their mining business by establishing a branch at Gowganda.

"I heard many prospectors say that a recording office was needed at Gowganda. It would serve several thousand prospectors working west of Wigwam Lake."

"Two prospectors walked from Gowganda to Elk City in one day, arriving at the camp at 2 a. m. Having only money enough for railroad fare, they left at 5 a. m. for Earlton. At Hills their hands were badly frozen and they had to stop while some men rubbed out the frost with snow. The effects will probably not be permanent."

Prefers British Methods

Toronto, Jan. 9.—Although there is a diversity of opinion regarding the merits of the British forms of spelling, the majority of Toronto people seem to favor its retention. They are divided on the question of retaining the "u" in such words as "honor," "favor", "color", but are unanimous in their opposition to such innovations as "tho" for "though" or "thru" for "through".

The following short interviews give the opinions of prominent Toronto men on the subject:—

PREFERS BRITISH METHOD.

Col. J. M. Gibson, Lieutenant-Governor of Ontario: "I prefer the British method, and am opposed to phonetic spellings."

Sir James Whitney: "Personally, I would like to see the English forms of spelling retained. They are used by all cultured men, who speak and write the English language throughout the world. They are also retained by the English press, and were approved by an order-in-council at Ottawa some years ago. I am not in favor of changing English spelling until we are ready to create a new language, which will be entirely phonetic. This wantoff trifling with the language is useless. There is no magic in either form, but I prefer that which is established."

Hon. Frank Cochrane, Minister of Forests and Mines: "I am not an authority. As I am one of the worst spellers in the Province, I do not want to go on record as such. Call up Sir James."

Mr. A. R. Boswell, K. C.: "Always with the 'u'. I never spell according to the American method myself. I always stick to the English."

"Then you don't believe in such contractions as 'thru' for 'through'?"

"Certainly not," replied the K. C. indignantly.

OPPOSED TO EXTREMES.

A. E. Kemp: "I lean toward the English method, but I must confess I'm a delinquent, for I usually spell such words as 'honor' and 'color' without the 'u'. But I don't believe in going too far, as some journals do, and spelling 'through' 't-h-r-u.'

"But I suppose the American style is bound to come, as it is the shorter."

Provost Macklem of Trinity College: "It is well to be somewhat conservative on such matters; not unreasonably so, but in moderation. I don't believe in giving free rein to such tendencies, for it leads to such spelling as 'tho' for 'though', and 'thoroly' for 'thoroughly'. I see no reason why we should follow an American custom in our spelling. I believe in going to the fountain head of our language, the old English, and from there, we will derive the proper spelling for our words. So most assuredly do I spell honour with a 'u'. This is so in all simple words, but in the compounds the 'u' should be dropped. Thus, 'honorary' is spelled without the 'u'. Honourable, on the other hand, is an exception. It retains the 'u'."

BOTH FORMS CORRECT.

Professor Goldwin Smith: "In a sense, both forms are correct, but I prefer the old method. Why not continue using it? 'Honor' is only an abbreviated form."

Rev. R. McBrady, C.S.B., Professor of Classics in St. Michael's College: "I was taught to spell 'honor' with a 'u' and I always do so. When I see this extraordinary phonetic spelling, I am surprised."

Rev. Prof. D. D. Kilpatrick: "The old method gives the affiliation to the language better. It retains the connection between the old and new. Contractions tend to lower the purity of English style."

Dr. R. A. Reeve: "One naturally likes the English way of spelling," he said, "But in practice I always write 'honor' without the 'u'. I accept the general rule in words of that kind, and omit the 'u'."

H. F. Gadsby, Canadian Editor of Collier's: "The newspapers are good educators of current spelling; they, in their own interests, leave out all unnecessary letters, and I think this should be a good plan for all classes to copy. The letter 'u' seems superfluous to me, and I think the most recent form of spelling the word should be maintained —honor."

Dr. R. J. Wilson: "The word is more euphonious without the 'u', which is a superfluous letter. We should use as simple forms as possible."

Dr. R. E. McKenzie: "I prefer the shorter method. It is practically established, and I do not see any benefit in introducing the 'u'. We do not hear anything about spelling honorable with a 'u'."

MAYOR LIKES SHORT CUTS.

Mayor Oliver: "Condensation is the motto, and the short cut in this is honor."

Major J. A. Murray: "Honour I believe to be the more correct way of spelling the word."

N. L. Martin, assignee: "We are halfway between the two countries, England the United States, and we should adopt a middle course in spelling reform. I would favor cutting out the 'u' in words like honour and colour, but I would not go so far as to use tho for though or thru for through."

F. W. Ellis: "Cut out the superfluous 'u'."

Thos. E. Aikenhead, president of the Aikenhead Hardware Co.: "The shortest way is the best way, so long as the other fellow knows what you mean."

Cough Caution

[illegible] positively never poison your [illegible] from a cold, [illegible] cough—[illegible] and [illegible] the irritated [illegible] always heal, [illegible] tually suppress it with a chal tubes. Don't [illegible] how many [illegible] disputing poisons [illegible] finally come about. For [illegible] has constantly warned [illegible] mixtures of [illegible] Chlorodyne, or similar poisons. And now [illegible] Cuppens says, "Put it on the [illegible] if poisons are in your Cough Mixture." Very good! Mayor [illegible] for this very important [illegible] and citizens, [illegible] on having [illegible] Cough Cure. No poisons [illegible] in Dr. Shoop's [illegible] and none in the [illegible], who is responsible [illegible] save the label. And it's now [illegible] said to be by [illegible] that Shoop's is best, truest, most [illegible] cough remedy. Take it [illegible] for [illegible] particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare [illegible] of it. Shoop [illegible] with others and [illegible] difference. No poison [illegible] them. For sale [illegible] to us the sole [illegible] by druggists.

Dr. Shoop's Cough Cure

"ALL DEALERS"

Change of Premises

At the expiration of the lease of their present premises, Messrs. Jordan Bros., will move their retail business to the large store formerly occupied by Messrs. MacPherson Company, a few doors further north on George street. The retail floral business has increased to such an extent that the present premises

....The.... Plow Woman

(Continued.)

[illegible] soak them a—a dozenor straps!"

It was then that a change in his plan came to his mind. Why wait until the Indians were sent, if—

The more he thought of the change the better he liked it. "One deal and everybody dazed. Land 'll be mine, and there'll be some court martialin'."

He determined to get into the stockade for a last talk with the hostages. If they approved what he proposed, he would promise them his services. Yes, he would. The value of the quarter section had made him fight for the land. But this was a horse of another color. His pride had been outraged. For that he would have his quits.

His conduct earlier in the day and the fight at the sutler's gave place that afternoon to other and more direful news. A steamer touched on its way down the river and told of the Custer massacre. Not a trooper at Brannon but had lost a friend; not an officer but had lost several. Gloom settled upon the post, and Matthews was forgotten.

He took advantage of that. Before an order went out to prevent him he went through the wicket of the sliding panel and gathered around him the four chiefs named in Cummings' ultimatum. They were more sullen, unhappy and discouraged than ever. A few words and he had them breathless with interest.

"You must look to me alone for freedom now," he said. "There has been a great battle in the valley of the Greasy Grass. Custer, the Long Hair, met Sitting Bull and his allies, and Custer and all his men are dead."

Ho-hos of joy greeted the announcement.

"Yet this is not good for you. There will be other battles. Your brothers will have no time to come and rescue you. Even your friends, the Scarred Arms, will not help, for it is said that the Cheyenne warriors are gone to join the Sioux"—

"What of the two white squaws that were captured?" asked Shoot-at-the-Tree anxiously. "And what of us—is there danger?"

"The women are still with your people, and who knows what may happen soon? So I come to speak of your delivery. I shall get you free—you shall free my land."

"But our women," suggested Standing Buffalo, his eyes straying toward a tent at the stockade's center. "They go free too?"

"That is impossible. But what does it matter? When you are gone your

"You will know by a sign."

women and children will be cared for—put upon a reservation. From there you can steal them back."

"But how can we get free?" inquired Lame Foot. "Tell us quickly."

Matthews drew the four chiefs' heads together and whispered to them. After a time all rose.

"Shall we have guns?" inquired Canada John.

"No—bows and arrows. I can get them and hide them in my board lodge across the river."

Lame Foot pouted. "Our brothers who are fighting have fine new rifles from Standing Rock."

"Rifles I cannot get," said Matthews.

"But," said Standing Buffalo, "if we grass to your lodge and get our bows and arrows, will not the pony soldiers follow in their smoking canoe?"

"Bah!" retorted the interpreter. "Am I like a pig for sense? The smoking canoe shall be gone."

The chiefs nodded.

"I must go," added Matthews. "There is no time for the pipe. Remember, if you are discovered trying to escape I know nothing of it. Then I shall try another plan. And keep everything from Squaw Charley. He is a friend to the pony soldiers. He may tattle."

"And your reward," said Canada John softly. "It is that the Plow Woman and her sister shall be"—

Matthews put a finger to his lips. "You will free my land," he said.

"When the night comes?" whispered Lame Foot. They pressed about Matthews, taking his hands.

"When the night comes," he answered, "you will know by a sign. Let a warrior keep watch, for it shall come when the moon dies. It shall be the call of a mourning dove."

CHAPTER XXIX.

BISMARCK searing at last since dawn Lounsbery's head had been poised from a window of the forward car. Now followed it with a wedge of shoulder sinu[illegible] muttered a fervent "Thank God!" His [illegible] was blackened by the

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—25c. Sold by all dealers.

Cosgrave's Beer

Words of praise have ever prevailed in advertising "copy." That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash values in exchanging any of them for took in a live mine.

Here is your opportunity for changing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs in market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 20 cents per share.

Power and hoisting machinery installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 370 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information of what you have to exchange.

CALVIN ESTERLY,

717 Market St., San Francisco, Cal.

Next time you are in need of a good girl to help you in your housework, send in a small advertisement to THE TIMES

THE TIMES goes into the homes of people who keep servants, and these servants who may intend making a change, will see your advertisement.

THE TIMES goes into many outside towns and villages and your advertisement will be seen by girls coming to the city.

Weary, Worn Out, Tired

If You Feel Poorly this Spring this Article is worth Considering.

Nothing in life keeps people from advancement like poor health. If the nerves are weak, if the stomach, liver, bowels or kidneys, fail to work properly, healthy surely suffers. Spring is the hardest time on health—the season when the system calls for active cleansing medicine.

The best plan is to entrust your condition to a physician of reputation like Dr. Hamilton, who has had years of experience in compounding tonics. For the ills and tired feeling of spring Dr. Hamilton says nothing is better than Mandrake and Butternut Pills, and this is well proven in the case of James Burton of Lewistown. "I had grip and it left me very weak. The disease settled in my back and heads, which ached day and night. I had a nagging cough. My appetite was all gone. My nerves unstrung. I could not sleep well I struggled against growing pale, thin and weak—but it was no good. Spring brought depression, overpowering weakness and bad headaches. But my life was spared, simply because I learned off the wonderful merit in Dr. Hamilton's Pills of Mandrake and Butternut. The result was marvellous, I gained rapidly, became strong, ruddy, vigorous, perfectly well. I urge every man and woman to use Dr. Hamilton's Pills regularly.

You'll brighten up, have cleaner blood, stronger nerves, better spirits after using Dr. Hamilton's Pills. 25c at all dealers. Guaranteed safe, sure helpful for old and young.

A Woman's Sympathy

Are you discouraged? Is your doctor's bill a heavy financial load? Is your pain a heavy physical burden? I know what these mean to delicate women—I have been discouraged, too; but learned how to cure myself. I want to relieve your burdens. Why not end the pain and stop the doctor's bill? I can do this for you and will if you will assist me.

All you need do is to write for a free box of the remedy which has been placed in my hands to be given away. Perhaps this one box will cure you—it has done so for others. If so, I shall be happy and you will be cured for 5c (the cost of a postage stamp). Your letters held confidentially. Write to-day for my free treatment. MRS. F. E CURRAH, Windsor, Ont.

PETERBOROUGH, ONT.

SATURDAY, JANUARY 9, 1909.

Passed Through the City

The Lindsay hockey team passed through the city yesterday, and stopped at the Oriental for dinner. They took the 1.40 G.T.R. for Belleville, where they played last night. Capt. Simpson accompanied the boys.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventics—25 cents. Ask your druggist. He knows! Sold by all dealers.

Water Rates Raised

Complaints have been made at The Times office of the water rates having been increased in some sections of the city while they have not been altered in others. Why this change is what the people would like to know.

"The Private Secretary"

There was a rehearsal for "The Private Secretary," held in the Knights of Phythias hall on Simcoe street last night at eight o'clock. Those taking part are making good progress and the production promises to be a popular one.

Chosen Friends

The installation of officers took place at the regular meeting of the Chosen Friends in the Sons of England hall last night at eight o'clock. Grand Organizer Campbell of Hamilton was present and installed the officers.

Cruelty to Horses

Complaints are being made of carelessness of drivers in not properly covering their horses while they are left standing this cold weather. It would be a commendable act if the police were to notify all owners or drivers of horses of the necessity of properly covering their horses while standing.

Entertained Class

Rev. Mr. and Mrs. Riddiford entertained the members of the Park St. Baptist church Bible class at their home this week. A very enjoyable time was spent. Refreshments were served at the close of one of the most enjoyable social evenings the class ever had. All went away feeling that their hosts knew just how to entertain.

Woodmen's Notice

The members of Sherwood Forest Camp No. 89, W.O.W., are requested to attend the regular meeting on Monday evening, January 11th, at eight o'clock. Installation of officers and other important business. Refreshments will be served.

A marvellous trial reading of character by the well-known scientific phrenologist, Prof McKellar, L. V., 21 Beaconsfield avenue, Toronto, whose public blindfold tests prove the reliability of phrenology. Send address and 10 cents silver. Enclose photo when possible. Will return with reading.

Mr. J. A. Culverwell of Cobourg, was in the city last night and registered at the Oriental Hotel. He was on his way to Havelock on business.

Mrs. McCartney spent the New Year's holidays with her son, Mr. Geo. McCartney of Peterborough.—Mrs. Melville and Miss Melville of Peterborough, were the guests of Mrs. G. A. Duncan over the holidays.—Mr. and Mrs. S. T. Medd of Peterborough, were out for New Year's with his parents, Mr. and Mrs Thomas Medd.—Millbrook Reporter.

New Members

The reception of new members into Str Paul's church was held immediately after the prayer service last night. There were a large number of members received, preparatory to the Holy Communion service on Sunday.

In the Crystal

A big gospel temperance meeting will be held in the Crystal theater on Sunday afternoon, when the Bible classes of the various churches will assemble and a representative from each will give a three-minute address. The orchestra of the George street Methodist Sunday school, will furnish the music.

To Attend Funeral

A meeting of the Charlotte street Methodist church Board of Managers was held last night when Rev. E. A. Pearson and Mr. R. J. Kidd were appointed to attend the funeral of the late Rev. Crossley at Whitby, as representatives from the Charlotte street Methodist church.

New Organ

A new organ was installed in the guild room of St. Andrew's church yesterday afternoon. It was the gift of Mr. J. D. Tully to the Sunday school, and was suitably acknowledged by the teachers' association at their last meeting. Mr. Tully has for many years been interested in the work of the Sunday school and was at one time a member of the teachers' association.

Sallow Complexion

Changed to Ruddy Glow

No one likes a sallow, muddy complexion. Many who are so afflicted do not realize that the daily consumption of tea or coffee is likely the cause.

Tea and coffee contain a drug—caffeine—which so irritates the nerves of the stomach that food is not properly digested and that causes bad blood.

It weakens, by its after effects, the heart and lungs so that the full amount of life-giving oxygen is not taken into the lungs and that is another cause of bad blood. It is often the cause of sallow complexion and nervousness also.

"During the past year," writes a Com., "I found that I was gradually growing nervous through some unknown cause. I was peevish and restless, and my complexion had that sallow disagreeable color seen in debilitated people and nervous dyspeptics.

"During this time coffee was my chief beverage at every meal. Having been for many years a constant user of Grape-Nuts, I had read "The Road to Wellville," and becoming interested in Postum, I decided to try it in place of coffee.

"The result was gratifying and successful in every respect. It seemed that miracles were performed in that first week. My sallow complexion gradually giving way to a healthy, ruddy glow, and my nerves felt rested and at ease.

"In a short time my whole system felt rejuvenated and I was in fine spirits. It is needless to say that from that time to this Postum has always had its place on the pantry shelf along with the famous Grape-Nuts.

"Postum, when made according to directions on the pkg., has a rich, tasty flavour and leaves an invigorating effect which is so different from the languid after feeling of the coffee drinker."

"There's a Reason."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

A Wise Mother's Story

Let Mothers and Daughter Read Carefully and Profit By It.

"I am convinced," writes Mrs. A. B. Bogeford from St. John, "that a majority of young girls who die of consumption do so because their mothers neglected their health at the critical time when carefulness insures vigor and sound health. If a girl's health is neglected from her eleventh to sixteenth year her body will be weak and she becomes a ready victim of typhoid anaemia, and in many cases consumption itself. In her sixteenth year my youngest daughter showed signs of failing strength. Some dyspeptic troubles developed, her heart became weak and palpitation frightened her dreadfully. She was irregular in the important bodily functions and rapid loss in weight and a ruddy complexion pointed to a rapid decline.

She disliked making her troubles known to our doctor, a feeling I felt I should respect, and so by good fortune I was led to use Ferrozone with most gratifying results. My neighbor next door, Mrs. Woods, had found Ferrozone so good in nervousness that she persuaded me that it would restore Flossie's health, and from the time the second box was commenced her improvement was constant. She is now a big, strong girl, ruddy and plump, able to study hard and to take her share of household duties. I am an earnest advocate of Ferrozone. We all use it now as a tonic as it is certainly woman's best friend."

All dealers sell Ferrozone, 50 cents per box or six boxes for $2.50; procure a supply today.

Heating and Ventilating was Satisfactory

In yesterday's issue appeared an item in reference to the very satisfactory working of the heating and ventilation system at the new Collegiate Institute which was given its first real test this week. The system worked to perfection and it might just be mentioned that Messrs. MacGregor & Reid had the contract for the work and to them is due the credit for the very satisfactory job that was done. Messrs. MacGregor & Reid are well known plumbers and electricians and their work is always satisfactory.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

Obituary

Whitby, Jan. 8.—Rev. D. O. Crossley, pastor of the Methodist Tabernacle, died of pneumonia early this morning. He was taken ill on Sunday night. Though very unwell he insisted on going out on Monday and voting for local option, of which he had been one of the chief advocates during a strenuous campaign of several months at this, the county seat. Rev. Mr. Crossley was sixty years of age. His only brother is the celebrated evangelist, Rev. H. T. Crossley.

The news of Rev. Mr. Crossley's death was received with deep regret in Peterborough. He was widely know in this city, being a former pastor of Charlotte street Methodist church. He spent five years here leaving Peterborough six years ago last July for Bowmanville. After four years there he was transferred to Whitby, where his death took place. Mr. Crossley was succeeded as pastor of Charlotte street church by Rev. Mr. Jolliffe.

The late Mr. Crossley was beloved by his congregation in Peterborough and rendered splendid service at Charlotte street church. He was chiefly instrumental in freeing the church from debt. When he came to Peterborough there was a debt of $13,000 on the church. Mr. Crossley devised a system for paying off the debt and it was so successful that two years after he left Peterborough the whole of the $13,000 had been paid off.

Mr. Crossley visited Peterborough a few weeks ago, conducting anniversary services at George street church.

SARAH JANE GILCHRIST.

The "Silver State" of Deer Lodge City, Mont., contains an obituary notice of a former Peterborough resident in the person of Mrs. Duncan McLeod.

The notice is as follows:

Ovando, Mont., Oct. 17.—Died at their home on McCabe Creek, near Ovando, on October 13, 1908, Sarah Jane Gilchrist, wife of Duncan McLeod; born at Gofftown, N.B., on the 16th day of November, 1823, and a daughter of D. John Gilchrist, of Port Hope, Canada, the first physician licensed by the government. Surviving her are her husband, and two daughters, Mrs. Alfred Stewart, of Ovando, Mont., and Mrs. Geo. Reynolds of Portland, Ore., and two sisters, Mrs Charles Perry, of Peterborough, Canada, and Miss Anna Gilchrist, of Port Hope, Canada.

Before coming to Ovando, Mrs. McLeod had lived with her husband in several states of the union, and for many years lived in Helena, where Mr. McLeod was engaged in mining, real estate and insurance. Since coming to Ovando they have lived a retired life, and are much respected by their friends an dneighbors.

Interment was made in the Ovando cemetery followed by a large concourse of sorrowing friends. Funeral services were held at th echurch by Rev. Fulford, from New Chicago, and was most inspiring and cheering to those left behind. The choir rendered several choice selections.

Ask any fair-minded doctor and he will tell you that golden seal, cubebs and oil of copaiba (contained in Pe-ru-na) are valuable remedies in the treatment of catarrhal diseases. And every honest doctor will concede that collinsonia canadensis, corydalis formosa and cubeb seed (contained in Pe-ru-na) are tonic remedies of high value. With this opinion all the leading medical text books agree.

MILLIONS OF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Wasted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW wha it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world. Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Oursmelter thus erected will save 85% in treatment. freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when her you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary, development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Search will be Prosecuted in Chicago for Clergyman Accused of Foul Murder

Port Huron, Mich., Jan. 9.—It became known here today that Rev. John H. Carmichael, minister of the "Rattle Run" Methodist church, in which George Browning was butchered last Tuesday night, bought a ticket from Port Huron to Chicago the day after the murder and presumably left for that city.

With the identy of the murdered person cleared up yesterday afternoon, every effort of the investigators today was toward discovering the whereabouts of Rev. Carmichael and uncovering a possible motive for the crime.

Little progress has been made thus far.

Woman Knocked Down Going to Church

Mrs. Hart of Benthune street, met with a nasty mishap on Sunday morning on her way to church, the effect of which she will feel for several days. She was on London street near George, and as she attempted to cross George a horse and cutter swung around the corner, and the cutter struck Mrs. Hart knocking her down. She was taken by some friends into Mr. Richardson's home on London street, and latter on was driven home. She feels sore and stiff, but nothing serious resulted.

Kaiser Made No Break Did Not Talk Politics

New York, N. Y., January 11.—A Herald's Berlin despatch says: The attack of the British Press upon the Kaiser with reference to his New Years speech has called forth a semi-official denial to the effect that the Emperor talked no politics. The Emperor is now on perfectly good terms with Prince von Buelow, and gave him his usual present at Christmas, his picture. It is true, however, that the Emperor referred to an article by General von Schlieffen in the Deutsche Revue.

This is the usual sort or article written for magazines in Germany by officers along the lines, "be ready, keep your sword sharp, your powder dry, and beware of the British". Why Great Britain should be so sensitive, when English writers habitually point to Germany as the national foe, the Teutons find it difficult to comprehend

The Hains Case is Nearing an End

Flushing, N.Y., Jan. 9. — A few words spoken in rebuttal and surrebuttal today, and all the evidence in the trial of Thornton J Hains will be in.

The State will call all the eye-witnesses of the shooting of Wm. E. Annis to deny the testimony of John Tierney, the ash collector, a witness for the defence, who said he was on the float when Captain Hains killed the publisher.

The testimony of the many witnesses will be brief, and Prosecutor Darrin said today that he has reason to believe that both sides will be ready to sum up on Monday.

The defence, it is understood, will call only one witness in sur-rebuttal.

Justice Crane told counsel that he wanted them to conclude with the taking of evidence tonight, and indicated that he would not permit any "fishing excursions."

Thornton Hains has been visibly depressed since he left the witness stand Thursday, and spectators in court spoke of his deranged appearance.

"It's only natural that I should feel the strain of the trial," said Hains, "when so much depends upon the outcome. No man knows what twelve men may do, but as I have read the faces of the men who will judge the facts, I have no fear of a conviction. My only fear, however, is a possibility of disagreement, which means another long stay in jail, perhaps, before I can get a new trial. On the evidence I should be acquitted, and my best belief is that I will be found not guilty."

City Council Will Organize for the Ensuing Year

At eleven o'clock today the newly elected council for the city will meet for organization. The aldermen will take their oath of office and then proceed to get the committees in shape for th eyear. It will be an anxious time for some of the aldermen, and will cause an unnatural fluttering in more than one heart, although none of the aldermen will admit that they want a committee and even get cross if they are accused of wanting one. Nevertheless they want a chairmanship and there would be great disappointment for some if things do not pan out just as they should. There are now six standing committees and there are twelve aldermen, so that six of them will have to be satisfied with sub-chairmanships. The result of today's proceedings are being watched for with general interest.

Mare's Feet Fell Off--A Base Deceiver

"It's too bad for a man to pay $125 for a mare that's not worth $5."

"But you tried to sell her for $75," said his honor.

It was a horse deal that had been dragged into court and was tried this morning in Judge Mason's chambers.

Dr. Wilkinson, of Richmond Hill, bought a guaranteed mare in April last from Meyers Goldstein at the Repository from Goldstein's agent a man named Green. The doctor discovered that the horse was "nerved" and began suit against Burns and Sheppard of the Repository and Meyers Goldstein for $145, for fraud and misrepresentation. All above $80 was thrown off to bring the case within the Division Court.

Mr. Wm. Watley, said: "I got her from Mr. Alfred Gordon for $65, had her examined by five vetrelnaires and they couldn't find anything wrong. She had a mark of 17, they told me. Then one morning I trotted her out of the stable and one foot flew off. Then she took two or three steps and another went off. And she went far better with her hoofs off. Then I had her shot."

Mr. Gordon bought the horse from Dr. Wilkinson for $40, and made $13 on the deal. Goldstein bought the mare from a man near Orangeville for $125.

The case adjourned until Monday next to get Green's evidence.

King Alfonso is too Sporty

Madrid, Spain, Jan. 9.—King Alfonso's fondness for sport of all kinds is known throughout Europe. Recently he has been absent from his capital on a shooting expedition in Andalusia at Lachar and Trascmulao, near Granada, on the estates of the Duke of Don Pedro Galatino, and of a wealthy Granada banker, the count of Aquite.

For some time the public and the press generally have viewed with disfavor these sporting proclivities of the young monarch and have been more or less critical on the subject; Lately the Mundo, an influential Liberal evening newspaper, took the bull by the horns and published a strong leading article, severely censuring the king.

"No one more sincerely esteems our young monarch than we do," says the Mundo. "He has many admirable qualities, and it grieves us to see his majesty portrayed every day in the illustrated papers in all kinds of strange costumes and postures, many of them exceedingly unkindly and undignified—this everlasting monomania for sport; tennis, golf, polo, yachting, shooting, automobiling and what not. Has the king no duties; no thought for anything but sport? In a country like England, where nearly every problem has been solved, such frivolities in a sovereign would not seem so bad, but in our poor, unfortunate, unenlightened, suffering country, badly needing a guiding hand, such spectacles are not worthy of the king.

"We are informed that at Granada the other day Don Alfonso killed 800 birds with 800 shots. According to the statements of the courtiers he did not miss a single shot. What futile and silly adulation! Recently Emperor William on the termination of a day's shoot, went to see the game and beheld laid out before him 60 deer.

"'All have fallen to your majesty's gun,' said the courtiers.

"'Is it possible,' replied the emperor, 'but strangely enough, I only fired 35 times.'

"What we wonder, does Don Alfonso think when he is told that he has killed 800 head of game? It is sad. Our young sovereign is intelligent, noble, highly intellectual and braves, with all the qualities that go to make an excellent king. Let him be guided in the future more by thought for the welfare of his country and his people than by his mania for sport.

"It is more profitable to dwell in the hearts of one's people, as do Edward and gracious Alexandra of England, than in the estimation of sycophantic courtiers."

ADVERTISE IN THE TIMES

Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge from modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

It Makes Weak Women Strong. Sick Women Well.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition.

7,000,000 PERSONS IN RANKS OF UNEMPLOYED IN BRITAIN

Said to be Suffering Hardships Because of the Lack of Employment

Urge the Immediate Employment of Surplus Labor by the Reclamation of the Waste Lands

London, Eng., Jan. 9.—The management committee of the General Federation of Trade Unions in Great Britain has issued a manifesto in which all trade unions are advised to instruct their members to refuse to work overtime. The manifesto says;

"Board of trade statistics, trade union returns and processions of the workless alike testify to the fact of unemployment and to the grave nature of the situation. Engineering trade unions, with a membership of 153,863, report an unemployed percentage of 12, while shipbuilding unions, with a membership of 60,631, have 25.2 per cent. of their members out of work. Other trades show equally deplorable returns, which suggest that the average percentage of totally or partly unemployed among skilled workers, is little short of 10 per cent."

It is asserted by the management committee that over 7,000,000 human beings in Great Britain are enduring hardship and want through unemployment, and this estimate is based on the following calculation,

"There are 5,000,000 skilled workers in Great Britain, of whom 10 per cent. are totally or partly unemployed. For every skilled workman out of employment two unskilled men are workless. Every worker represents a family of five. Skilled workers unemployed, 500,000; unskilled, 1,000,000; their families, 6,000,000; total 7,500,000.

"In the hope of mitigating the evils of these depressions we recommend that all public bodies supervise their own direct and indirect employment; that they stipulate in their contracts for the total abolition of overtime and distribute their work so as to meet the periods of depression and the worst conditions of unemployment. We also advise trade unions to issue executive instructions to their members to refuse to work overtime. We urge the immediate employment of surplus labor by the reclamation of waste lands, the protection of foreshores and riversides from the encroachment of sea or stream, the development of harbor facilities, afforestation, the acquirement of land and the building or rebuilding of houses for the workers on improved sanitary principles, the encouragement of municipal and co-operative farms, the systematic co-ordination of municipal and governmental regulations and machinery for unemployment, the acquisition by the state of the canal and railway systems throughout the United Kingdom and the full development of the Small-Holdings Act, with the state as proprietor.

It is also recommended that a national department of labor be established, presided over by a minister with a seat in the cabinet, charged with the direction of that labor which has not been absorbed in the ordinary course, and that a permanent unemployed board be set up.

"America's Bid for Canada"

London, Jan. 9.—American affairs are given a great deal of prominence in this morning's newspapers, and especially attention is paid to the conflict between President Roosevelt and the U. S. Congress.

The Daily Mail, in a spirited editorial under the caption, "America's Bid for Canada," says it is convinced if a treaty of reciprocity is concluded between Canada and the United States it will involve nothing less than the gradual absorption of Canada by the United States, and "end all of the noble dreams and aspirations in which the largest minds of our race have indulged."

The newspaper appeals to Canadian patriotism to have further patience. It says the period of quiescence is fast drawing to a close, and that the imposing structure of free trade is receiving a succession of shocks that will soon leave the way clear for a closer commercial union of the colonies with the mother country.

The Daily Telegraph in an editorial on Chinese affairs thinks that the recent conclusion of an agreement between the United States and Japan was far more significant than the dismissal of Yuan Shi Kai.

"The agreement," the Daily Telegraph continues, "signalizes the triumph of sanity—recognizes the wise truth that it is as advisable to leave the remote future to grapple with its own possibilities as to let the dead past bury its dead."

Doctor Suing Woman for Breach of Promise Wants $150,000

Chicago, Jan. 9.— That suit for $15,000 alleging breach of promise has been filed here by Dr. K. Stanley of New York, against Mrs. Jeanette Deere Chapman of Moline, Ill., and Chicago, and a social leader in this country and abroad, was made public today by Attorney Henry Roth.

"The suit was filed a month ago," said Mr. Roth, "but we have been unable to get service on Mrs. Chapman. Mrs. Chapman is a sister of Charles Deere, president of the Moline Water Power Company. He is 58 years of age, and very wealthy.

"Mrs. Chapman and Dr. Stanley had planned a trip around the world following their wedding, and the doctor abandoned a highly lucrative practice to prepare for the wedding. Objections raised by Mrs. Chapman's children resulted in the breaking of the troth."

Rose Makes The Thirty-Fifth "Lifer" at Kingston

Kingston, Jan. 9.—Rose has, so far, not been assigned to any particular duty.

He makes the 35th life man in the penitentiary. The last lifers before him were Dulman, Nolan, and Walsh, the Welland Canal dynamiters. There are but two women serving life sentences.

Six Nightriders were Sentenced to Hang

Union City, Ten., Jan. 9.—Six of the night riders convicted of the murder of Capt. Quentin Rankin, a prominent attorney, were sentenced today to be hanged on Feb. 19.

The other two were sentenced to penitentiary for life.

The attorneys for the defence immediately gave notice of an appeal to the state supreme court.

Judge Jones imposed the death penalty on Garrett Johnson, Tid Burton, Bob Ransom, Fred Pinson, Sam Applewhite and Arthur Cloar, and sentenced Bud Morris and Bob Huffman, the two other defendants, to 20 years (or "life") in the penitentiary.

In applying for a new trial the defence attacked the competency of jurors McKinney and Dahnke, asserting that they had expressed opinions as to the guilt of the parties on trial and that Dahnke was a resident of the State of Kentucky. Witnesses will be introduced to prove the facts.

It was also claimed that Juror Ronson, who was ill, was thus incompetent to pass on the guilt or innocence of the accused.

EVIDENCE FULL OF PERJURY.

Judge Jones, in passing sentence said; "I said some time ago to the grand jury that it was a sad, sad day when these men left their quiet homes; that their wives had not taken them around the neck and pleaded with them for God Almighty's sake to stop and not band themselves together for such unholy acts. The evidence in this case is bristling with perjury. The jury has returned a verdict against Bud Morris and Bob Huffman, of murder in the second degree, and which must stand.

"The jury has also returned a verdict in the first degree against six of the defendants, and in view of the manner in which the life of Quentin Rankin was taken, I can see no mitigating circumstances in this crime. It was not done in the heat of passion and has none of the elements of mitigating circumstances, and that part of the verdict will be disregarded."

After a moment's breathless silence the court said;

"Bud Morris, you will stand up.

"It is the sentence of the court that you be incarcerated in the penitentiary for 20 years, and be deprived of your rights and franchise."

Bob Huffman next received the same sentence.

SENTENCED TO DEATH.

Judge Jones, after a pause, continued;

"Garrett Johnson, you have been tried on a charge of murder in the first degree. A motion for new trial is over-ruled by the court. It has been considered, and the judgment of the court is that you be remanded to jail until Friday, Feb. 19, when you will, by the sheriff of this county, be hanged by the neck until you are dead, and may God have mercy on your soul."

The same judgment was pronounced on the remaining five defendants convicted of first degree murder.

Perfect silence prevailed in the court room during the pronouncement of the sentences. The defendants, each in turn, arose pale and worn, and received the words of Judge Jones.

The court then directed the sheriff to see that the defendants be carefully looked after and a proper guard be supplied. Court then adjourned.

Canadian Held in Murder Case--Mob Tried to Lynch Him--Came from Midland

Ogallala, Nebraska, Jan. 9.—Under a heavy guard, Lafayette Dales, alias John H. Dales, was lodged in the county jail here last night, charged with the murder of Volly Mann in the prairies east of here last October. Dales, who is a fugitive from justice from Owen Sound, Ont., was arrested at Las Animos, Colorado, Wednesday night. The woman who traveled with him as his wife is also in custody here on a charge of complicity, having been arrested some weeks ago.

After his arrest Dales made the following confession;

"My right name is Lafayette Dales. I am 39 years old and have a wife and three children, one daughter married, living at Owen Sound, Ontario. I deserted them eight years ago, when I jumped a $1,000 bond under which I was awaiting a trial on a larceny charge.

MEETS MRS. SMITH.

"I met Mrs. Smith last June in Lockport, N.Y., where I had been working at my trade of stonecutter. She offered me $500 if I would travel to Colorado with her. She said that she had some property there that needed her attention, and that if we could get to Colorado, there would be plenty of money for both of us.

"We beat our way on trains to South Chicago, where Mrs. Smith stole several watches and other valuables, which we converted into cash. We rode the cushions to Omaha. There our money gave out, and again we started to tramp across country.

ASKED FOR A RIDE.

"We first met Mann in the little town of Brady's Island, Neb. He had four horses and a prairie schooner. We asked him for a ride, and he said that he would carry us on our way as far as Ogallala. We travelled with him for two days and three nights. Mrs. Smith shot and killed him at about three o'clock in the morning of the third day.

"From the first Mr. Smith was scheming to get hold of Mann's wagon and his horses. She told me that if I had any nerve at all I would kill him some night at our campfire. I refused to do so. About 2 o'clock on the morning of October 8 my wife shot Mann in the back of the head while he slept. He died instantly. I aided Mrs. Smith in putting Mann's body in the empty water course."

Bowlers will Please Take Some Notice

Brantford, Jan. 8.—A challenge match for five games between J. Grantham and Harry McKay, two of Brantford's best bowlers, was played at the Brantford Bowling Academy tonight against new pins. McKay established a new record for five games. He also rolled the possible score in his first game. Score;

McKay	300	225	248	225	258—1256
Grantham	225	203	220	203	190—1041

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

Thaw is Entitled to Prove He is Sane

Nyack, N.Y., Jan. 9.—Harry K. Thaw is entitled to a trial on the question of whether he has recovered his sanity, according to Justice Tompkins, who today heard arguments on a writ of habeas corpus obtained by Mrs. Mary C. Thaw, his mother.

In applying for the writ Mrs. Thaw declared that Harry K. Thaw was not a criminal, having been acquitted by a jury, and that he is now sane and should not be kept in prison.

Thaw was brought down from the Matteawan Asylum today to be present at the hearing. He was represented by Charles Morschauser.

Mrs. Thaw and Harry's brother, Joe. Thaw, accompanied the prisoner.

District Attorney Jerome of New York, asked that the proceedings be transferred to New York county, where, he said, the sanity of Thaw could be determined finally. The district attorney declared that modern scientific opinion held that Thaw was an incurable paranoiac. He said that Thaw was a dangerous person and should not be allowed at large.

Justice Thompkins said that Thaw was entitled to a trial to determine whether he had recovered his sanity and was safe to be at large, but he justice reserved decision as to where the trial should be held. Mr. Morschauser having opposed the transfer of the case.

The justice remanded Thaw to the asylum meanwhile.

Barque Turned Turtle

New York, January 11.—The barque Annie Smith, which arrived yesterday from Belize, British Honduras, brought five men of the British schooner Annie, which was lost off the Honduran coast.

A remarkable story was told of the loss of the schooner. According to the shipwrecked mariners, their vessel was a short distance off the coast on November 16, when she was struck and capsized by a waterspout. All hands climbed up on the bottom of the schooner, including Captain Decker, who finally ordered a couple of San Blas Indians in the crew to dive down and attempt to clear away the boats. The Indians were expert swimmers and succeeded in getting one of the boats clear.

The seven members of the party then pulled ashore, landing at a small town, and went from there to Belize in a small sailboat.

The Annie was a total loss. She was only a year old, of 193 tons burden, and owned in Liverpool, N. S.

Dokis Indians Get First Instalment of Huge Sum of Money

North Bay, Jan. 9.—The distribution of the first installment of the million dollars which the Dokis Indian tribe are to receive for their famous pine limit took place at Sturgeon Falls a few days ago.

The first Indian to get his share was the young chief, Alex. Dokis, whose late father, the old chief, during his lifetime refused to sell the limit.

Romance pictures the young chief taking up his father's policy at the grave of the aged chieftain and resolutely fighting the battles of the dead to the brink of his last resting place, with a fine scorne refusing to look upon the plunder gouged from the slaughter of the forests, but stern fact shows the son of his father eagerly advancing to the lodge of Indian Agent Cockburn and cheerfully accepting the share of his family, amounting to $5,625 on the first payment. Far from being coaxed, he was, as stated, the first Indian to take the money.

PAID TEN PER CENT.

The sum of $52,000 was paid the band, which represents a part payment only of the ten per cent. allowed them according to the terms of the surrender of the pine timber on the reserve. Another distribution will be made of the cash payment to the band after the limits are paid for in full by the purchasers. The first payment was at the rate of $625 per head. Chief Dokis, with a family of nine, received $6,875, while Henry Dokis, whose family roll call numbers ten, received $6,250.

The distribution was made at Sturgeon Falls by Indian Agent Cockburn, and the tribe was fully represented by heads of the following families; Dokis, Restoule, Metegremens, Kiasco, and Ennewich, to the number of 84 men, women, and children, who will draw interest on the capital amount which will mean to some families $3,000 per year.

The Indians listened stoidly to the explanation of the Indian Agent that the piece of paper each received meant that a large sum of money was in the Quebec Bank to their credit, which could be obtained when required. A short lecture on banking and the beauties of the saving department followed, after which the Government checks marched solemnly to the bank in the firm grasp of the Indian recipients, and each one drew the face value of the check, and burdened with wealth, returned to the presence of the Indian agent, where each Indian piled his money up on the table and joyfully regarded the stacks of greenbacks.

One Indian insisted on having his money translated into bills of small denomination.

Simpson Ran Great Race in New York

(Special to The Times.)

New York, Jan. 10.—Alf. Shrubb, the English professional champion runner, won the 12-mile relay race at Madison Square Garden tonight. He was placed against three speedy pro. runners, Frank M. Kanely of Cambridge, Mass., Fred Simpson, an Ojibway Indian of Peterborough, and Tom Williams of Somerville, Mass. Shrubb showed a world of speed and had little difficulty in running away with the race from the others. Kanely, who started with him was out run from the third lap. Shrubb having obtained a lead of a quarter of a mile when Simpson the Peterborough Indian took up the race at the end of the fourth. The Ojibway ran splendidly but failed to gain an inch on Shrubb who paced Simpson an even time for the next four miles. Williams took up the last relay and pulled Shrubb's lead down to half a lap. When the test came towards the close of the race, however, he was out-sprinted. Shrubb showed ample reserve power and won out by six hundred yards. Time one hour five minutes fifty seconds.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box of Preventics—25 cents. Ask your druggist. He knows! Sold by all dealers.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

Morning Times

UNION LABEL

MONDAY, JANUARY 11, 1909.

THE WEEK OF PRAYER

In the week of Prayer which was brought to a close by the splendid service in St. Paul's Church last night the Ministerial Association of this city may feel justly gratified and are to be congratualted on making the subjects for meditation and prayer of an up-to-date and practical character.

The people of Peterborough are also to be commended for their devotion and loyalty as the success of the services, while not altogether dependent upon large numbers, were made more intensely interesting and encouraging to everybody by the universal interest shown in the meetings.

No one in professional business, or private life will feel that the first week in the new year has been otherwise than very profitably spent in a season of mental, moral and religious stock-taking, and a time of securing nobler and worthier ideals in the union of all who love in the service of all who suffer.

"Bene orasse, bene laborasse".

A LIFE SENTENCE

What to do with criminals mentvily responsible but morally reprobate is a question much before the world at the present time, remarks the Montreal Witness. The youth, Rose, who has just been convicted in Toronto of the base crime of attacking a woman who had surprised him in a robbery, could make out no case for insanity; but his short course proves him to have had such a continuous tendency to crime as to make it seem that he was morally abnormal by nature. He is represented as being an early epileptic. It seems no matter whether, as some will claim, these tendencies rendered him morally irresponsible or not, the sentence would necessarily have been the same in duration, that is, for life, which, in point of practice, means till he is morally and mentally cured. The judge, in imposing the life sentence, without holding out any suggestion of possible ultimate release, expressed the hope that, in coming years, he would realise the gravity of his position, which, if it meant anything at all, was a suggestion of possible reform.

So far, we have no controversy with our methods. Society requires the segregation of dangerous persons, and the claims of society come first with public moral administration. The protection of society we have seen to, though at the greatest possible cost to society. But what of our duty to the individual? There is no worse condition possible for a young man than brooding solitude. The conditions are unbalancing. The temptations are destructive. We are so made that active and useful occupations for mind as well as body are essential to our moral well-being—doubly essential, therefore, for the recovery of the morally depraved. What is wanted for cure, then, is not abnormal conditions; but conditions as nearly normal as can be, including regular work, as much light and open air as possible and mental occupation. Greatly to the economic as well as moral loss of society the good of the condemned has never in the past been the object of punishment. If it would consult its own interests, to say nothing of its duty to its wards, society will make this the first object of discipline.

With this object first it would seem that our public penal system would have to be revised. The first consideration would everywhere be how to inspire the criminal with high hope and noble resolve. To this end, sentences should be indeterminate and hope should take the place of despair. There should be a course of mental and physical activity, severe enough to prevent dangerous moral relaxation. It should be of a sort to fit the convict for life in the world, educative and bracing. The work should be a stimulus and not a depressing treadmill. To this end the truths of it, after paying for the con-

4

vict's support, should be his, for his family, or for his new start in life. And for this purpose it would need to be productive work. These men have committed crimes; but no greater crime against a fellow man could be committed by society than one which should condemn him to hopeless uselessness and self-contempt by forbidding him the supreme human right of doing his part in the economy of mankind by earning his own living. The idea that he can injure other men by producing more cheaply is absurd on the face of it, as his labor, or the product of his labor, goes on the market in open competition and brings just what it is worth. The more people who are adding to the world's wealth *the richer society* will be. The more people who are dependent on the rest for a living the worse for every individual in the community. There is never really any prolonged over-production. People's wants are never at an end. The more useful production there is the more means there will be to buy

How's This

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.,

Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

VICTIMS OF COLD AIR

Considerable interest has been aroused by a recent article in this column in which an anonymous English physician was quoted as protesting against the present craze for removing tonsils. Not so much weight attaches to his opinion as though his name were known to be that of a distinguished medical man; but it is fair to accept or reject his ideas as they appear to coincide with common sense and experience or to traverse them. Medical men, whether distinguished or obscure, are reluctant to give advice to the public, without fee, through the newspapers. It is unbusinesslike to give something for nothing, and it is a violation of professional etiquette to talk to the newspapers; for nothing is more abhorrent to a doctor than free advertising, except it is advertising at card rates. The doctor who talks freely to Marcus Woodward in the London Express may have good reasons, therefore, for concealing his identity.

THE TWIN FETICHES.

Speaking of colds, influenza, pneumonia, and other kindred and seasonable illnesses, the English doctor has some interesting remarks to make on the subject of night air. He attacks those twin fetiches of the healthy Englishman—the cold tub and the open window. Both are bad in cold weather, he says, for it is extremes of temperature that are dangerous. Fresh air we must have, of course, but it should not be air off a refrigerator. Cleanliness we must have, but we need not daily shock the millions of nerves in the skin with cold water. It is true that many people are so robust that they can safely sleep in the open air, but it is worth nothing that many of the wild animals that do so, *foxes*, for instance, and many kinds of birds, instinctively protect their bronchial tubes, the one by breathing through a screen of fur, provided usually by the long hair on the tail, and in the other case by tucking the head under the wing. Why should a man try to outdo a fox or a sparrow in the matter of hardihood?

VICTIMS OF COLD AIR.

The open window, declares the doctor, is slaying its tens of thousands. His own experience has taught him that nearly all throat troubles are first noticed in the morning, which is presumptive evidence that the mischief was done while the victim slept. It must be borne in mind that this is the time when vitality is lowest. The nervous system is asleep, the circulation quiet, and nature is off his guard for a few hours. It is imperative, therefore, that the hours of sleep should not be selected for making experiments in hardihood that might be a severe test when the body is strung to its highest pitch of vigor. The doctor remarks that the temperature of the body in health is 98.4 degrees, and in summer the air, day temperature, may be 90 degrees, falling suddenly at night in bedrooms with open windows to 50 degrees.

OPEN THE DOORS INSTEAD.

Even in summer, therefore, the difference between the heat of the body and that of the surrounding atmosphere may be 50 degrees. In winter, with open windows, and water freezing solid in the room, the difference may be 80 degrees. He continues:

"Nature steps in and endeavors to warm this night air and impede the current as much as possible by providing a larger heating surface at the back of the mouth and nose in the form of enlarged tonsils and adenoids.

"Well, a child falls asleep with the window open. Some 50 degrees of heat must be taken with each inspiration from the tonsillar region for air-warming purposes—15 times in the minute, 900 times in the hour, 7,200 times during the eight hours' sleep. When not in perfect health, this is too great a strain, the vitality is lowered, the throat gives way, and ulceration or congestion follows.

"As there is no scientific system applied to bedrooms whereby bad outer air is purified, filtered, disinfected, and heated before being breathed, the safest plan is to sleep with the door open, allowing pure, but warm, air to enter from halls and passages. Air in passages is likely to be pure because of the many chances that fresh air has to enter, and it is never so cold as air through the window. Cold air is not necessarily pure air, nor warm air impure."

HOW IT HAPPENS.

Men who are at work all day in the cold air may sleep with open windows, and take no such risks as those who pass the day in workshops or offices, where the temperature is kept about 70 degrees. The day passed in warm buildings has a tendency to make the mucous membrane of the respiratory tracts tender. They are thus peculiarly susceptible to the freezing night air. If we breathe through the nose, the air is warmed more than if it is inhaled through the mouth before it reaches the lungs; but in either case it passes along some extremely sensitive surfaces. Breathe through the nose and you run a risk of nasal catarrh, cold in the head and influenza. Breathe through the mouth and you take chances on tonsilitis, bronchitis, quinsy, or laryngitis. Breathe through both nose and mouth and you expose yourself to any of these ailments, or a combination of them.

PURE, WARM AIR.

The essential thing is pure air, as the doctor says; but so little attention has been paid to scientific ventilation in planning and building ordinary houses that it is extremely difficult to get pure air from anywhere but outside. Those who are fortunate enough to have roomy halls need not take the double risk of breathing cold air and sleeping in a draught, to which the average man in this climate exposes himself when he is seated with the open window fad.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

The Interesting Route

To Manitoba, Saskatchewan and Alberta, is via Chicago and St. Paul, Minneapolis or Duluth. Through the brilliantly lighted St. Clair tunnel by electricity, without smoke, gas or dust. Secure pamphlet, "New Route to Winnipeg and West," from nearest Grand Trunk agent.

ADVERTISE IN THE TIMES.

Answered His Matrimonial Advt.

Toronto, Jan 8.—Roland M. Boswell of Elora, who is being sued by Miss Wilhelmine Cummings of West Toronto for alleged breach of promise, has filed his statement of defence.

In this document, Boswell says; "If any agreement was ever made between him and the plaintiff, said agreement was induced by false and fraudulent representations made by the plaintiff to him.

"The plaintiff and the defendant were strangers and unknown to each other until June, 1908, when the plaintiff answered an advertisement published by the defendant; "Refined gentleman, aged 25, worth $20 000, desires to correspond with young lady, object matrimony. Box 142."

"The plaintiff answered said advertisement in a false and assumed name, and if any agreement was ever made whereby the defendant agreed to marry the plaintiff, it was made and induced through the deceit, deception, and fraud, practiced on him by the plaintiff in pretending that she was some person other than herself, and through the fraudulent concealment by the plaintiff of her true name and family.

"The defendant has, ever since his infancy, been subjected to fits of a nervous character, and is, while under the influence thereof, irrational and irresponsible, and is not capable of transacting any business, and is, while in such condition, easily influenced to do what he would not do, if in a sound mental condition.

"If the defendant ever promised or agreed to marry the plaintiff, it was at a time when the defendant, in said condition, and while in such condition, was prevailed upon by the plaintiff to make her a promise of marriage, and that he is not and never was bound by such promise or agreement.

"Said condition was clearly and easily apparent to the plaintiff, and the plaintiff was aware of his condition.

"If he ever did promise or agree to marry the plaintiff, he was released from the promise and agreement by the plaintiff.

"If he ever promised to marry the plaintiff, the plaintiff has refused to marry the defendant, whereby the defendant is released from his promise to marry the plaintiff.

"This action should be dismissed."

The tender leaves of a harmless lung-healing mountainous shrub give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs, quickly yield to the healing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Contains no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge! Sold by all dealers.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, and less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that nervousness, headfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and mental systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars.

NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

BEFORE TREATMENT

AFTER TREATMENT

Peter H. Stemmers, of Kalamazoo, Mich., relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, hard pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Nervousness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and will continue to do so."

CURES GUARANTEED OR NO PAY

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD AND URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES and all Diseases peculiar to Men.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

Great Britain Leads in Italy's Relief Work

London, January 11.—The British ministers being dispersed at this time, the amount of the Government Grant for the earthquake victims in Southern Italy remains undecided. Meanwhile, British money, clothing, medical supplies and naval and medical help are being lavishly placed at the disposal of the sufferers.

The Mansion House fund has reached $200,000, which includes $5,000 from Lord Strathcona, and $2,500 from Lord Mount Stephen. Ten thousand garments in 130 packing cases left London yesterday, at the instance of Mrs. Alec. Tweedie's committee. Other supplies go forward daily, but the help most immediately needed and appreciated is naval and medical. The Russian ships have done splendidly, and the French were also effective. The Germans did little, having no Mediterranean fleet.

Admiral Curzon-Howe, who was at the Quebec Tercentenary celebration, now commands the British Mediterranean fleet. He did not rush wildly and unprepared to the scene, but collected every available naval and civilian doctor, and for medical supplies ransacked the British naval stores on the Mediterranean, which are kept in a high state of efficiency, and preparation for war. As a result, when he arrived in the flagship Exmouth, with the battleship Canopus, the cruiser Sutlej and other vessels, he was able to do more in one day than all the rest of the nationalities. The British have been hard at work ever since.

Up to Monday, the British had rescued 3,816 lives and relieved thousands of others. The American ships passed Suez Canal on Monday, but unfortunately are themselves in need and able to do very little. A relief ship with stores, etc., is being sent to their assistance from the States.

Deputy Signor Nasi, member of the Zanadrelli Ministry telegraphs from Reggio as follows: "The heroism, self-sacrifice, order and celerity of the British crews are above all praise. They erected tents and hospitals, and transported the wounded. Day and night they landed large supplies of provisions. Their memory will never be forgotten here."

When leaving San Giovanni on Wednesday Curzon-Howe and staff received an almost frantic ovation from the entire population who cried "Long live England, long live our Saviours."

Peace of Europe is Threatened by Germany

New York, January 11.—A despatch to the Herald says:—Not since the beginning of the complications in the Near East has so much war talk been heard as to-day. The military party is waxing strong, and officers and staff all declare war is inevitable, that everything is prepared and that hostilities will surely break out in March. It is also said the Kaiser has lost all patience with England, is turning a deaf ear to the peaceful counsels of Imperial Chancellor, Prince Von Bulow, and is listening with attention to the warlike utterings of his military staff.

The Kaiser's sudden departure from Hubertusstock and his abandonment of the Corfu trip are all put in as arguments that a coup is being prepared, owing to information received from the Kaiser, Franz Josef of Austria who, having got forty-five thousand men into Bosnia and Herzegovina, has made preparations to double that number within three days.

An Austrian agent, well known to court here some weeks ago, was according to report, charged with the mission of buying with all possible discretion all stocks of rifles and ammunition he could get hold of.

A report on the Bourse also says Servia has bought 25,000,000 cartridges in Belgium.

A Servian newspaper, "Politika," recently remarked that although her enemies could not prevent Servia from celebrating a peaceful Christmas, blood shed was being prepared for Easter. This was tended to make the people nervous. Kiamil Pasha, Grand Vizier of Turkey, is represented as no longer believing in the possibility of the maintenance of the peace of Europe.

Progress in New Ontario

In sizing up the growth of the Canadian West, Ontario people are apt to overlook the development in Western New Ontario.

Ontario is, in fact, the link which connects Canada East and West, and it partakes of the characteristics of both.

The development of the country lying west of Lake Superior and of the district north of the height of land is now proceeding.

This development is spread over such a large territory that it is difficult to judge how great it is, but the growth of Fort William and Port Arthur is an evidence of what is going on in the country behind.

At Fort William in the first eleven months of 1906 there were erected 434 buildings, as compared with 353 in the same period in 1907. The majority of these buildings were residences, but there were also some large private and public buildings. These included school buildings worth $100,000, a Presbyterian church, costing $60,000, and a handsome Masonic Temple.

All Canada will benefit immensely by the filling up of the country lying between North Bay and Winnipeg, and this rapid growth of the Lake Superior ports is a gratifying evidence of what is going on in that district.

How Maxine Elliott Stopped Mike's Bath

New York, Jan. 11.—The Herald says: Miss Maxine Elliott thought she would make a little tour of inspection over her new theatre, in Thirty-ninth street, yesterday morning. It is a very pretty theatre and Miss Elliott is as fond of it as a child is of a new toy.

Adjoining the stars' dressing-room is a perfect dream of a bath, with tiled floor, an enticing porcelain tub, all the latest thingumbobs in the way of showers, sprays, mirrors, pomades, cerates and perfumed waters, known in their fulness only to a popular actress.

Miss Elliott entered her dressing-room, opened the door of the bath-room and started in. She only started, for in a fraction of a second she backed away with a shriek. A vision, surpassing fair, had met her gaze.

Lolling luxuriously back in the tub, which was nearly filled, was the unadorned of—well, call him Mike—one of the stage hands. His head was above the water, and from his lips protruded a dainty gold-tipped cigarette, the curling smoke from which mingled with a delicious vapors of the bath.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We call and choose fully recommend

Dr. Shoop's Restorative

"ALL DEALERS"

News in Brief

St. John's, Nfld., January 11.—Petition against the return of Messrs. Woodford and Murphy, Peoples' party members for Harbour Main, has just been filed. There are the usual charges. Others will probably follow on both sides.

Kingston, Ont., January 11.—Some two hundred pupils have been prohibited since November 13 from attending the public schools of the city because they have not presented to the authorities certificates of successful vaccination. Yesterday a special meeting of the Board of Education was held to consider admitting them again. It was finally decided to open the school only to those who were physically unfit to undergo vaccination, with the understanding that they should be vaccinated as soon as possible. This will allow about fifty of the number to return to school.

Washington, January 11.—Secretary Root signed arbitration treaties with Ecuador Bolivia and Hayti.

Next week Secretary Root hopes to sign with Ambassador Bryce a treaty for the reference of The Hague tribunal of disputed questions affecting the Newfoundland fisheries, for the settlement of pecuniary claims, and for the mutual use of the boundary waterways. With the exception of some claims which may have to be subtracted from the list, Mr. Root and Mr. Bryce have agreed on these treaties, and they now await the approval of the British Foreign Office.

....The.... Plow Woman

(Continued.)

breath of the engine, his hair was roughed by the tugging wind, so that he bore not a trace of the past month's careful grooming. Outside of Chicago he had shed his eastern garb for blue flannel shirt, dark breeches and tall boots. Again he was a frontiersman.

A brakeman entered to call out the final stop. Cramped limbs here and there slowly unwound their sleepy lengths and gazed around. A slim recruit in a front seat who was outward bound to fight Indians wakened with a protesting oath. Other occupants of the car grudgingly put away their card packs, but cheerfully clapped on their hats. A long, hot journey was done.

But Lounsbury when he drew in his head and shoulders delayed his preparations to alight. He reached down to a boot leg and fished out a letter, one paragraph of which he carefully reread.

"As I say, if you look for that rascal, you'll find the right man. He was here, for Charley saw him. 'Who was it?' I asked the Indian. What do you think he did? He crossed his fingers on his nose!"

Lounsbury took a deep breath. "It's likely," he said aloud. "It don't take courage to kill a cripple."

The wheels were yet turning when Lounsbury swung off. His looped belt had been buckled on, and once more his revolver hung handily upon his thigh. As he tossed his satchel to the ticket agent he gave the ".45" a swift look over. Then, with the expression that the Clark outfit respected showing through the grime of the train, he started on a tour of saloons.

In a square fronted groggery his hunt ended. An assortment of adventurers packed the place—mule skinners, soldiers, gamblers, settlers. Among them was a sprinkling of women. He pushed his way through the crowd until he reached the bar. There, officiating in pink shirt sleeves, was the "Babe."

A moment Lounsbury faced him in silence, his cheeks puffing and his chest swelling in an effort at self control. Then, dropping his hand to the ".45," he gave a jerk of the head. "Come out," he ordered.

The "Babe's" squint eyes made separate inspections of the room. He was in the act of pouring from a bottle to a glass. Now, as he held them before him, they tinkled together.

His customer backed away to the door, where it was cooler. The women cluttered at the farther bar end. The other loungers rotated to a position behind Lounsbury and waited, all agrin.

He came loafing out, the sweat standing in huge beads upon his neck. Lounsbury advanced to him, playing a tattoo along the bar with his left hand.

"'Babe,'" he said quietly, "the train goes back Chicago way in the morning."

The other blinked and gulped. "W'y, w'y"— he began.

"You take it," continued Lounsbury. "Your family's getting darned unpopular here."

The "Babe's" diverging orbs popped from his face and again played from side to side.

"Y-e-e-s," drawled Lounsbury. He ripped open the other's vest. Two pistols were displayed snuggling head to head. He plucked them out and kicked them across the room. "The morning train," he repeated. "So long."

"Babe" gave a weak nod. Lounsbury walked out. "Howdy, boys; howdy," he said pleasantly as he went. The admiring crowd returned his salute and rotated back to the bar.

He wasted no further time, but hurried to his store, a saddle roofed building farther along the street. Before it paced a Fort Lincoln officer. Lounsbury stopped him for news.

"You ought to be chuck full of it," returned the officer, pumping the storekeeper's arm, "just in from New York."

"The redskins?"

"Daytime sorties on us yesterday."

"Pretty sassy. How about Brannon?"

"Nothing since old Lancaster"—

"I heard that—Fraser wrote me." Lounsbury gritted his teeth.

"And our poor Custer?"

"Ah, poor Custer! The east's talking about nothing else."

"Awful! Awful!" The officer turned away to hide the twitching of his face.

"Going to Lincoln now?" asked Lounsbury.

"Not right away."

"Then I'm off."

"For Lincoln?"

"No; for Brannon."

"Brannon! Alone? Lounsbury? Why, the Indians"—

"I'm going just the same." He hailed a neighbor to bargain for a cayuse of reputed wind and speed, and in another half hour he was ready.

He rode as light as possible. Behind the cantle rolled in a poncho he tied some hard tack, jerked beef and brandy. His revolver was to surround by a Henry, which he carried in a holster under his leg. For the ".45" he took fifty rounds. A second fifty, designed for the rifle, occupied the loops of his belt. Thus armed and provisioned he jogged out of town.

Good fortune made the journey almost uneventful. He saw but one Indian, who loped into sight from a wooded bottom and turned tail when Lounsbury leveled his gun. Twice only did he come upon signs of savages. Toward the middle of the first night he passed a pile of glowing embers, where food had been cooked and eaten, and fifty miles lower down, the next afternoon, as he dismounted at a riverlet, the cayuse shied from an antelope kid that had dragged itself to the water for a last drink. There was an arrow through its neck, and the little body was still limber.

Just before dawn the second morning he turned with the river, crossed the coulee and reined upon the yellowing bend. To his left, a black dot

(To be continued.)

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—25c. Sold by all dealers.

Cosgrave's Beer

Words of praise have ever prevailed in advertising "copy." That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

Values for Your Investments

Have you any stock or other investments that have been given as unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash value in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs in market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery is installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information as of what you have to exchange.

CALVIN ESTERLY,

717 Market St., San Francisco, Cal.

DOMESTICS

Next time you are in need of a good girl to help you in your housework, send in a small advertisement to THE TIMES

THE TIMES goes into the homes of people who keep servants, and these servants who may intend making a change, will see your advertisement.

THE TIMES goes into many outside towns and villages and your advertisement will be seen by girls coming to the city.

HOW TO TELL

If the Kidneys and Liver are Not Acting Well.

Thousands die every year from aggravated kidney distress that could have been saved if they only knew.

Your back may ache, you think it's tiredness or physical weakness.

You grow irritable and nervous—it's put down to loss of sleep.

Joints ache, muscles get sore,—that's all put down to bad weather.

Then digestion gets poor, appetite fades away, color bleaches, spirit droop.

Can't you see it's all from your over-worked kidneys, which can't keep the body clear of poisons that are now surging through the whole system.

Cure your kidneys with Dr. Hamilton's Pills.

"When I was so stooped and back weary, so lame and sore with kidney and bladder trouble, I cured myself quickly with Dr. Hamilton-ton's Pills" writes C. C. Ferrier, a well known merchant in Plainville. "Dr. Hamilton's Pills touched the spot, at once, gave my back ease, lifted depression and weariness, made a new man of me. I can also say for a good spring medicine to clear and enrich the blood Dr. Hamilton's Pills have no equal."

The housewife whose aching back makes every little duty a burden, the working man who is tired all day and can't rest at night, whose back aches, and whose feet swell—these people have kidney trouble. Women whose kidneys are sick, suffer continually from blind and sick headaches, faint and dizzy spells, bearing down pains, sharp twinges when stooping, distressing urinary troubles, aching muscles, and joints lack of apetite, and loss of sleep. Reach the cause. Cure the kidneys. Use Dr. Hamilton's Mandrake and Butternut Pills, which have cured thousands, Etc. at all dealers.

PETERBOROUGH, ONT.

MONDAY, JANUARY 11, 1909.

W. A. A. to Meet

A meeting of the W.A.A. Reading Circle will be held at Mrs. Seward's this evening at half-past seven. Miss Bennett will read a paper on "Durer."

A Driving Party

The young people of Knox church will hold a driving party to Springville this evening. Vehicles will leave Knox church from 6 to 6.45 p.m.

Shredded Wheat Banquet

A Shredded Wheat Banquet will be held at Murray afreet Baptist church on Friday evening, January 15th, under the auspices of the Ladies' Aid Society.

Assisted in Service

Rev. E. Seward, a retired pastor of this city, assisted Rev. Dr. Langfeldt at both morning and evening services in St. Luke's yesterday.

Curling Rink

There was the usual Saturday night crowd at the curling rink, and all seven ices were in use and a lot of good sport was enjoyed. There were no scheduled games.

Annual Meeting

The annual meeting of the Y.M.C.A. will be held on Tuesday evening when the reports on the work of the society for the year will be presented and six new directors will be elected.

Congregational Meeting

The congregational meeting of St. Andrew's church will be held a week from Thursday, Jan. 21st, when the various departments of the church will present the annual reports.

"The New Creation"

St. Luke's church was well filled last night to hear the first of the series of sermons on the new creation by Rev. Dr. Langfeldt. His subject was "The Last Things." This series will however be discontinued while the rector is away.

Late Rev. D. O. Crossley

Reference was made in many of the local churches yesterday to the death of a former highly respected and much loved pastor of the Charlotte street Methodist church, Rev. D. O. Crossley of Whitby. The deceased had many warm friends in this city among the clergy as well as in his congregation.

Shepherd-Neill Cup

Orillia, with four strong rinks will arrive in the city this morning to meet four rinks of local curlers for the annual Shepherd-Neill trophy competition. The games will be played in the new rink and will be watched with great interest by many enthusiastic curlers.

Personal

Mrs. Frankish and Mr. Arthur Frankish of Lakefield, were in the city Saturday afternoon.

Miss Lulu Jones, Fenelon Falls, returned home after a two weeks' visit at her uncle's Mr. R. W. Jones, Bethune street.

Mr. Horace Sutcliffe of New York, who has been a few days in Peterborough en route to Chicago, left the city for the West Saturday morning.

Lindsay Post;—Rev. Dr. Brown of Peterborough, left for home last evening.—Mr. J. Seymour of Peterborough was in town today on business. —Mr. Hobgood went to Peterborough this morning on a business trip.—Miss Margaret McGeough has returned to Peterborough to reaume her studies at the Normal school.

A marvellous trial reading of character by the well-known scientific phrenologist, Prof McKellar, L. V., 21 Beaconsfield avenue, Toronto, whose public blindfold tests prove the reliability of phrenology. Send address and 10 cents silver. Enclose photo when possible. Will return with reading

Church Notes

St. Andrew's Church

The rally meeting of the Y.P.S.C.E. will be held this evening in the guild hall and all the young people of the congregation are requested to be present.

The Mission Band will meet on Tuesday afternoon to prepare for the work of 1909.

Prayer meeting Wednesday night.

The Board of Managers will meet on Wednesday night at eight o'clock sharp. Important business.

The executive of the W.F.M.S. will meet Tuesday afternoon at 3.30 for special business.

St. Luke's Church

The Girls' Auxiliary will meet in the infant class room this evening at eight o'clock.

The Brotherhood of St. Andrew will meet on Tuesday evening at eight o'clock.

On Wednesday night the usual week-night service will be held.

Thursday afternoon at 2.30 o'clock the Woman's Auxiliary will resume their regular meetings.

The annual Christmas tree and and entertainment for the Sunday school will be held on Friday evening. A silver collection will be taken at the doors to defray expenses.

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs, quickly yield to the healing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Contains no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge! Sold by all dealers.

Memorial Service

On Wednesday evening next a memorial service will be held at the Charlotte street Methodist church in memory of the late Rev. D. O. Crossley, who passed away in Whitby on Friday. The full choir will be presented and brief addresses will be made by members of the Quarterly Board.

Celebrate Burns' Night

The Scotchmen of Peterborough are preparing to celebrate Burns' Night Monday, January, 25th. A banquet is being arranged by the local camp of the Sons of Scotland, and a braw time is anticipated. The banquet will be held at the Snowden House and there will be a toast list and a good musical program. An active committee are in charge of the arrangements for the function.

Rates Not Increased

In Saturday's issue was an item referring to complaints against the raising of water rates in some parts of the city. The Times has been informed by the commission that the rates have not been raised in a single instance. The lawn service in previous years was charged up the end of one quarter and now that charge is spread equally over the four quarters so that it is really easier on the consumers than before.

Must Take a Rest

The many friends of Rev. Dr. Langfeldt will regret to learn that he suffered another fainting spell Sunday after the morning service. He was able, however, to occupy the pulpit in the evening, but his condition is such that his physician has ordered him to go away for a time and take a complete rest. Rev. Dr. Langfeldt will leave on a vacation in the near future.

Extension Ladder was Broken Saturday

The fire department was out Saturday afternoon for an hour's ladder practice and upon the return when the wagon was being backed into the hall the horses got in a hurry and backed the ladder into the building. As a result the 46 foot extension ladder was broken.

POSTUM

has done for thousands in health-profit it will do for you.

"There's a Reason"

Rheumatic Liver, Overstrained Kidneys

Caused Sickness that Puzzled Able Physicians. Was Cured by Ferrozone.

A REAL MIRACLE.

"My doctor told me I had gouty or rheumatic liver and kidneys," writes G. O. Forde, from Halifax. "I guess he was right for I was a might sick man and felt the game was pretty nearly up. So many remedies failed that the doctor was completely puzzled. As for symptoms—I had bushels of them in the morning a sort of nausea. Sometimes the bowels were constipated, at other times quite relaxed. I felt dull, and a sense of weight in the back and over the liver was very distressing."

LOST 15 POUNDS IN WEIGHT.

"My color resembled a yellowish pallor, and gradually I lost weight to the alarming extent of fifteen pounds. I looked jaundiced and felt sure I would die.

"Then I read of the wonders worked by Ferrozone and in desperation I bought six boxes. At once I began to mend. Ferrozone must have put a keg or two into the nervous system for things at the end of the month began to look up. In three months I felt like new, but kept on taking Ferrozone. In six months I was cured."

FERROZONE SAVED HIS LIFE.

"Were it not for Ferrozone I wouldn't be alive today. I am sure it will cure any weakness, rheumatism, gout, debility, poor blood or nervousness. My condition embraced all these, and Ferrozone cured me." Leader, get Ferrozone today, 50c. per box or six boxes for $2.50. at all dealers.

Obituary

MARGARET CAMPBELL.

On Saturday night Miss Margaret Campbell, a sister of Rev. Dr. Campbell, of Coldwater, passed away in the Nicholls hospital, after only a few days suffering from pneumonia and heart trouble. The deceased had been in poor health for the past three months but her condition did not become serious until about a week ago. She resided with her brother on a fairm near Springville, and the funeral will take place from his home on Tuesday.

CORNELIUS HALPIN.

There died at 158 Lake street this city, on Saturday morning at eight o'clock, Mr. Cornelius Halpin, who has resided for more than 50 years in Peterborough. Coming to Canada from Askeating, County Limerick, Ireland, as a young man, he first settled in Montreal, but later moved up to Peterborough, where he afterwards continued to reside. The late Mr. Halpin was for many years an employee of the late Mr. George Hilliard, formerly M.P., for West Peterborough by whom Mr. Halpin was regarded as a trusted and intimate friend. The deceased gentleman, whose death was due to Bright's disease, leaves surviving him three sons and one daughter. John, Michael and Thomas and Bridget. His wife predeceased him four years ago, as did also two sons, Patrick and Cornelius and one daughter, Mrs. W. J. Devlin. The late Mr. Halpin was universally regarded as an upright and honorable citizen of sterling character and kindly heart, and he will be much missed by a large circle of friends and acquaintances.

The funeral will take place from the late residence to St. Peter's Cathedral this morning at nine o'clock, and thence to the Roman Catholic cemetery.

Friends are asked to omit flowers.

Transformer on Fire Causes Excitement

The firemen were rooted out of bed earlier than usual on Sunday morning, although they had very little work to do and were soon back to their bunks and in the land of nod again. Just a few minutes before six o'clock P. C. Meharry noticed a bright reflection which to him appeared to be a fire at the Bank of Montreal. He immediately sent in an alarm from box 22, and when the firemen appeared on the scene a couple of minutes later they discovered a transformer on a pole at the corner of Water and Simcoe streets, was on fire. A small stream of water was turned on and the fire extinguished and the casting cooled down gradually so that the least possible damage was done. There was a high at the time blowing towards the bank's building and had not P. C. Meharry's watchful eye seen the blaze considerable damage might have resulted.

HOCKEY

JUNIOR O.H.A.

Whitby Junior O.H.A. team will meet the locals at Brock street rink on Tuesday night. This should be a great game to watch. Peterborough lost to Whitby, but the locals expect to win the return game.

INTERMEDIATE O.H.A.

The Belleville Intermediates will play here on Friday night. Keep this date open if you want to see good hockey.

SEYMOUR—CAMPBELL.

At Port Perry on Friday, Jan. 8th, the residence of Mr. Wm. Campbell, the marriage of Miss Mabel Alice Campbell, daughter of Mr. Wm. Campbell to Archibald H. Seymour, second son of Mr. C. J. Seymour of this city was solemnized. The ceremony took place under a canopy of flowers in the drawing room. The bride was attended by her sister, Miss Letitia and the groom by his brother Charles J. Seymour. The groom's gift to the bride was a diamond ring and to the bridesmaid a bignet ring. After the ceremony a sumptuous dejeuner was partaken off. The newly married pair shortly afterwards left for Buffalo and eastern New York on an extended trip. Mr. Seymour is a traveller for Messrs. J. J. Turner and Sons of this city, and will reside in Port Perry.

Born

FREDERICK—In Peterborough on Sunday, January 10th, to Dr. and Mrs. E. V. Frederick, a son.

MILLIONS OF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Wasted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW wha it will do and we know that it will do what we claim for it.

You kn w what a cheap smelting process will mean to the mining industry all over the world- M ners as well as investors in minig stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Oursmelter thus erected will save 85% in treatment. freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when her you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

BARRISTER'S "FEE BOWL"

In Old Days Counsel Received Their Rewards in Huge Dish.

An interesting relic of old days in the legal profession, known as a "fee bowl," has just been presented to the Master and Benchers of the Inner Temple, and many people have been making a journey to the "Buttery" to have a look at it.

In the early days of last century it was still customary for learned counsel to receive their fees and retainers in cash, which was received with ceremonious gravity in a capacious bowl, solemnly kept for that special purpose by the lawyer's chief clerk, who usually bestowed it in safe place where it could be conveniently reached when payments were made.

The fee bowl in question has been presented to the Inner Temple by Miss Malcolm Macnaghten, son of Lord Macnaghten.

It has a distinguished history, and has in its time been the intermediate recipient of many substantial fees. It was used by Sir Frederick Pollock, Lord Chief Baron of the Exchequer, and passed from him to the well-remembered Baron Martin, of the Court of the Exchequer, the son-in-law of the Chief Baron.

It afterwards belonged to Baron Pollock, by whom it was presented to Baron Martin's grandson, the present donor.

The bowl now reposes in the big safe in the chamber of Inner Temple Hall known as the "Buttery." In this safe are kept the silver plate used at the banquets and "call" dinners and other treasures belonging to the Inner Temple.

It has been suggested that if some of the fees of leading K.C.'s of to-day were paid in cash the capacity of the bowl would be severely taxed, but a good many members of the junior Bar would be content to receive their professional earnings in the fee bowl, without being unduly distressed by the possibility of an overflow.

St. John, N. B., January 11.—Pursued by the police while crossing from Milltown, Maine, to Milltown, N. B., Wentworth Fox, aged forty years, leaped from a bridge into the St. Croix River, and though he was able to crawl upon the pier in the centre of the stream, he died from exposure shortly after being rescued.

Mail Contract

Sealed Tenders addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 19th February, 1909, for the conveyance of His Majesty's Mails, on a proposed Contract for four years ninety-two times per week each way, between Peterborough and Canadian Pacific and Grand Trunk Railway stations from the 1st April next.

First Council Meeting of the New Year was Held Last Night

Many Communications were Read--By-Laws Passed and Routine Business Put Through

Grant of Five Hundred Dollars Made to the Mayor--The Claim of Mrs. Rogers Settled.

ALD. BULLER.
Chairman Fire, Water and Light.

The first council meeting for 1909 was held last night when routine business was transacted, and the business for the year got under way.

Those present were;—Mayor Rush, Aldermen Hicks, Duffus, Duncan, Morgan, Buller, McIntyre, Gillespie, Turner, Metheral, Bradburn, Morrow and Phelan.

The minutes of the last regular meeting were read and confirmed.

COMMUNICATIONS.

The following communications were read;—

From city treasurer giving receipts and expenditures for December, estimated receipts for the year, and actual receipts to Dec. 31st. and the appropriations for the year with payments on each account to December 31st, 1908.—Received.

From the city clerk giving result of Board of Education election, the council and the bylaws.—Received

From Thos. B. McGrath applying for position of assessor.—Committee of the Whole.

From F. J Jamieson applying for position of assessor.—Committee of the Whole.

From J. N. McCrusky complaining of damage to his house due to the fire department.—Legal Committee.

From Rev. Mr. Pearson, inviting the mayor and aldermen to his church for the annual civic sermon, at George street Methodist church.—Accepted, and they will attend next Sunday night.

From the Municipal Journal asking for renewal of city's subscription.—Finance Committee.

From Bicknell, Bain & Stratby, re Wm. Hamilton Mfg. Co. title to real estate.—Property Committee.

From the Municipal World, asking for renewal of subscription. —Finance Committee.

From chief of police re his extension telephone, asking the city to pay for it.—Finance Committee.

From Geo. C. Morgan, re preparing plans for water works and electric light plants.—Power Committee.

From Board of Education making annual demand on the council for money—Finance Committee.

From the city treasurer, informing the council that the balance of the city account on Dec. 31st, was $50,552.91 in bank's favor.—Received.

From Sick Children's Hospital, for aid.—Finance Committee.

TAX COLLECTOR'S REPORT.

The tax collector made the following report;—

Total on roll	$159,356.66
Total on deposit	145,263.33
Balance	14,093.33
Less 2 p.c. discount	2,290.45
	$11,802.88

Collected during the month of December, $1,292.33

The city engineer made his reports.

POOL ROOM LICENSE.

From Rev. Dr. Langfeldt, protesting against the reduction of the pool room licenses. He protested against the existence of these places altogether, as he claimed they were frequently used for gambling and young boys resorted there also.

A protest was also received from Rev. Henry J. Keith, president, and Rev. Mr. Pearson, secretary of the Ministerial Association, against any reduction in the pool room licenses. —Finance Committee.

COST OF EDUCATION.

When the demand for $60,000 from the Board of Education, was read, the aldermen asked that the Board furnish full information in reference to the demand and also the debenture for $10,000 that the board desires issued.

The Board will be asked to meet the council in the near future.

In the meantime the first month's portion of the demand will be paid.

TIME EXTENDED.

Mr. R H. Leary stated that he was in receipt of a letter from Mr. Chas. F. Detman of Pennsylvania, asking that his franchise to test this neighborhood for natural gas be extended. It had been difficult to close up the block of land as there were only four families who held out and refuse to rent or do anything with their property. They would like to have the franchise extended for six months. Mr. Detman and his associates are confident that they will find both gas and oil here.

It was moved by Ald. McIntyre and Ald. Metheral, *that the franchise be* extended for six months.

Moved in amendment by Ald. Bradburn and Buller that the time be one three months.

The amendment was carried.

The report of the Committee of the Whole Council held in the afternoon was read and adopted.

BYLAWS.

Bylaw No. 1428, authorized the City Trust Commission to sell one acre of the Hilliard farm to Mr. Weatherstone for the erection of a mat factory.

Bylaw No. 1429, authorized the construction of a sewer on part of Dublin street as a local improvement, and provided for the payment thereof.

Bylaw No. 1430, authorized an agreement with the Peterborough Light and Power Co., whereby the city has control of the city streets, and not the company.

Bylaw No. 1431, appointed the members of the Board of Health, for the year as follows;—James Murtry, W. J Johnston, to fill the vacancies caused by the death of Mr. Alfred Parker and the expiration of Mr. Murty's term.

CHAIRMEN OF COMMITTEES WERE SELECTED BY THE NEW COUNCIL

Only Disagreement was Over the Property Committee—Ald. McIntyre and Ald. Bradburn were Nomated.

Ald. Wm. Bradburn was Elected Chairman by Ballot—Seven Committees This Year.

Following the Mayor's address at yesterday morning's council meeting Ald. Phelan and Ald. Morrow moved that the council go into committee of the whole to strike the standing committees.

On motion of Ald. Phelan and Ald. McIntyre the council adjourned until 8 o'clock in the evening and then the committee of the whole met down stairs.

One of the most ticklish jobs the Aldermen have to go up against during the year is the selection of the chairmen for the standing committees. This was accomplished by the Peterborough Aldermen Monday morning and with very little trouble. It is well that the meeting passed off as harmoniously as it did, and the public will no doubt consider that the best men for the respective committees were selected.

There was a difference of opinion in regard to only one committee, viz., the Property. Two were nominated, Ald. McIntyre and Ald. Bradburn. A vote was taken by ballot and resulted in the latter being elected by six votes to five, one Ald. putting in a blank ballot. Ald. McIntyre stated that he had desired to get the Property Committee. The council however, voted for Ald. Bradburn, who was chairman last year and who has done considerable work

Continued on page three.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours —and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box 48 Preventics—25 cents. Ask your druggist. Be Known! Sold by all dealers.

Standing Committees for 1909 Selected

The Committee of the Whole Council made the following report to the City Council;—

BOARD OF WORKS—Ald. Phelan, chairman; Aldermen Bradburn, Buller, Gillespie, McIntyre, Turner, Duncan.

FIRE, WATER AND LIGHT—Ald. Buller, chairman; Ald. Turner, Hicks and Morgan

MANUFACTURES (Railways and Franchises)—Ald. Gillespie, chairman; Aldermen Hicks, Morrow, Duffus and Metheral.

FINANCE (Printing and Licenses)—Ald. Morrow, chairman; Ald. Phelan, Gillespie and Bradburn.

PROPERTY (Market, Building and Health)—Ald. Bradburn, chairman; Ald. Morgan, Hicks, Duncan and McIntyre.

LEGAL (Reception, Legislation and Joint with County)—Ald. Turner, chairman, Aldermen McIntyre, Metheral and Duffus.

02 That a Special Power Committee be appointed, composed of Ald. McIntyre, chairman; Aldermen Morrow, Bradburn, Gillespie, and Phelan.

3 That a grant of $500 be made to the mayor to be paid quarterly at the beginning of each quarter

4 That the agreement arrived at to settle the claim of Mrs. Rogers regarding stagnant water caused by the filling in of the *water front, namely, that the city pay* $600, the Canadian Pacific Railway $600, and the Peterborough Cereal Company $350, be confirmed, and that the city treasurer be authorized to issue a cheque for $600 to the city solicitor to carry out this agreement and that the city solicitor to carry out this agreement and that the city solicitor be authorized to pay the money to Mrs. Rogers upon receiving a proper release, also that the Mayor be authorized to give a letter to the Peterborough Cereal Company, agreeing that if the company is not given a conveyance of the land *referred to in bylaw No. 1126* and the city resumes possession of the said land the city will return to the company the $350 paid by them with interest at the rate of 5 per cent. per annum.

Imperial Scots Co. Gave Fine Program At Conservatory Hall

The lovers of Scotch music were given a rare treat last night at the Conservatory of Music when the Imperial Scots Company rendered their very choice program. The members of the company are all first-class artists and they are touring the Dominion. Mr. R. Gliddon of the Conservatory was fortunate in securing the company for an night's engagement here. The hall, however was not filled, but those present were very appreciative and were also delighted. Mr. J. M. Hamilton is the world's greatest baritone soloist, his selections were warmly received by the Peterborough audience. All the numbers were encored and the artists were very kind in responding. The following is the program;—

Piano Solo ... ... Scotch Airs.
Miss Annie McKay.

Soprano Solo...The Auld Scotch Songs
Ruby Sneath Grant.

Tenor Solo... "... ... ...Afton Water
J. M. Hamilton.

Comic Song ... . Oor Work Soiree
Fred Barclay.

Duet ... ... Hunting Tour
Miss Grant and Mr. Hamilton.

Soprano Solo ... Home, Sweet Home
Ruby Sneath Grant.

Tenor Solo ... ... The Laird o' Cockpen
J. M. Hamilton.

Piano Solo ... . Scottish Airs
Miss Annie McKay.

Duet ... ...Ye Banks and Braes
Miss Grant and Mr. Hamilton

Comic Song ... . The Fusilier
Fred Barclay

Tenor Solo...Draw the Sword Scotland
J. M. Hamilton.

Soprano Solo, Blue Bonnets over the Border.
Ruby Sneath Grant.

Comic Song ... Wee Jimmy MacKay
Fred Barclay

Humorous Trio ... Wha'll Shut the Door.
Miss Grant, Mr. Hamilton, and Mr Barlay.

Auld Lang Syne by Imperial Scots Company.

Minister-Murderer Cuts His Throat in Illinois, Widow Takes it Calmly

ALD. PIPELAN.
Chairman Board of Works.

Rev. J. H. Carmichael, Wanted for the Murder of Gideon Browning, Has Committed Suicide

SAYS HE WAS HYPNOTIZED

Carthage, Ill., Jan. 11.—Rev. John Haviland Carmichael, the clergyman who is wanted for the murder of Gideon Browning at Rattle Run, Mich., is under arrest. He was taken into custody early today after an attempt to commit suicide by cutting his throat. Carmichael made two serious wounds in his neck, and it was at first believed by the physician in attendance that he would recover, but he died at noon.

A letter of ten pages was written by Carmichael before he attempted suicide, admitting his identity, and confessing that he killed Browning, cut up the body, and burned it in the church stove while under the hypnotic influence of a woman.

Carmichael had been staying here for the last two days at a private boarding house.

His attempt at suicide was made while in an outhouse on the premises of the place at which he had secured a room.

He has a sister living here, a Mrs. Hughes, but he has not been with her to any extent.

Adair, Mich., Jan 11. 11. —"Really, have they found him?" was Mrs Carmichael's exclamation, when told that her husband had been found in Carthage, Ill. She took the news calmly; in fact seemed almost relieved to know that the much-sought man had been located.

"I know of no reason why he should have gone to Carthage," she continued. "He had no relatives there, and no friends that I ever knew of. I never heard of Carthage before, and know nothing of the place."

STILL A MYSTERY.

Detroit, Jan. 11.—The news of the attempted suicide at Carthage, Ill., of Rev. J. H. Carmichael, the Columbus church murder a spect, has not brought with it as yet an explanation of the motive, which is as mysterious as ever. The case has aroused the most widespread interest, which will continue until the problem is solved.

The fugutive preacher was reported as having been seen in many far-separated points in Canada and the United States, including Glencoe, St. Thomas, and Thorndale, in Ontario. Apparently the country is full of men about 65 years old, over six feet tall, with a limp in their gait, and a scar on their lip just as it was full of pegged-leg men in a noted Ontario case some years ago, and of men tattooed in a peculiar manner, and with a martial bearing as in the Moir case at London last summer.

The attempted suicide may be the result of the Chicago Sunday papers yesterday declaring that the preacher had been traced to that city. The fact that the murderer tried to end his life will make some people think he was responsible for his actions when his crime was committed. People here, however, apart from wanting their curiosity as to Mr. Carmichael's motive satisfied, hope he will not recover to stand trial for murder. He is better dead, they say.

Two Houses Burned

Apsley, Jan. 8.—On Thursday night Mr. Robert Mace who resides in the north of Anstruther about 10 miles from Apsley and Mr. Joe McCauley, who resides on the east road, 4 miles from the village both had their dwelling houses and contents destroyed by fire, caused by overheated pipes the evening being cold and no doubt heavy fires were being kept on. Insurance, if any,

You Manufacture Fat?

If it were not for the fact that you add to your fat every day, on would soon get back to a decent figure. Each day's activities consume some of your excess. But it is "off with the old—on with the new" with you every twenty-four hours, so that the fat balance remains unchanged.

Now, people who take Marmola Prescription Tablets really get thin, but harmlessly so, and a hint as to the reason is given above. They eat and drink with undisturbed delight as formerly, and yet they lose many of them, a pound a day. The reason is Marmola causes the body to stop manufacturing useless fat; hence the body it is introduced into gets thinner as a matter of course. Each day's activities alone would account for the delightful result.

Check up results from this point of view and you can readily understand why Marmola Prescription Tablets cause no ill effects or wrinkles, but, on the contrary, help the stomach and the appearance. They are nature's allies, not her competitors. This commends them to all, even the timid, as safe; and since they reduce one as fast as is desirable, that is all that is required.

When you get tired trying other methods of getting thin test this one. Marmola Prescription Tablets come in large, generously filled cases, and if your druggist can not supply you, which is unlikely, you can get one or more cases by mail by sending the price, 75 cents, direct to Marmola Company, Detroit, Mich.

Mayor Rush Recommends Economy and Care by the Council for This Year

The new city council met yesterday morning at eleven o'clock when all the Aldermen were presented and took the necessary oath of office. Then an open meeting was held with Mayor Rush in the chair. In calling the members to order and greeting his colleagues His Worship read the following address :—

"Gentlemen—

I am pleased to welcome you to the Council of the City of Peterborough for this year as the choice of the electors to look after the interests of the municipality. I feel honored myself in being placed in this position for another year, and I know we all feel the responsibility of the trust reposed in us.

It will be our duty to carry on the policy of building up the city. For this purpose no opportunity should be overlooked. Advantage should be taken of every opening to add to our industries whenever this can be done on terms advantageous to the city and anything that can be done to attract industries should be carried out.

The matter of expenditures will require our careful attention. The additional schools that have been erected and the enlarged accommodation for school purposes has added considerably to the expenditure for educational purposes, and the requirements of the Board of Education, as shown by the demand which has been forwarded to the Council, will be materially more than last year. This sum must be raised, and will increase the tax rate for that purpose, and that we may keep the total rate as low as possible consistent with proper service, we will have to lay our plans for the years work with the utmost care. Careful estimates of cost of every projected work should be made before it is undertaken and the expenditures guarded to produce the best results.

I am sure we can look forward to a year of harmonious effort to Advance the interest of the city.

A Municipal Automobile

At the council meeting on Monday morning, Ald. Turner suggested that the city furnish the chairman of the Board of Works with some kind of conveyance to enable him to travel about the city during the many months when he is called upon to inspect work and visit places in need of repair every day. Would Ald. Phelan prefer an automobile, an aeroplane, a ballon, or a lady's bicyclef Probably he would like a little red dragon like the chief of the fire department sports. It is a little late now for Santa Claus, and the old fellow spent all his money last year, so if the chairman of the Board of Works will try jollying the street car conductors for another year the ratepayers will be grateful and probably next Christmas, if he is a good boy Santa will put an auto in his stocking.

Speaking of automobiles it might be suggested that the city invest a couple of thousand dollars in one of the "Red devils." It would be a very handy thing for the use of the *city officials*, the Board of Works' chairman and committee to visit sewer and sidewalk construction work; for the Fire Water and Light Committee to skip around at night to see how the arc lamps are burning behind the handsome shade trees; for the Property Committee to get chesty over and say, "We own and control that;" for the Manufacturers' Committee to hunt up free *sites for manufacturers; for the Re*ception Committee to use in entertaining the visitors, to and the friends of the city; for the Power Committee to keep supplied the necessary energy; for the Finance Committee to "settle for," and for the Legal Committee as a source of constant trouble and innumerable law suits on account of the aldermen's reckless driving; and lastly for his worship the mayor to use as a means of escape from the unemployed and the constant kickers.

A municipal automobile would be a grand thing and would give the boys a little fun between "D—ks." or meetings we should say.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, cold risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medicinal forest plants. World's Dispensary Medical Association, Props., Buffalo, N. Y.

Orillia Won the First Half of Contest for the Shepherd-Neill Trophy

Orillia	61
Peterborough...	57
Orillia up...	4

The result of the first half of the Shepherd—Neill cup contest as given above. The play started at 9.30 and ended about 12.40. Some fifty enthusiasts remained to see the finish. It was the first trophy contest the local curlers have played in their new rink and, if for nothing else than *to have a good start, they should* have won. The second half will be played in Orillia in the near future.

The fifth annual competition for the Shepherd—Neill trophy, was begun in Peterborough's new curling rink last night about 9.30 o'clock, when four strong teams from Orillia met four Peterborough rinks. The visitors arrived on the 9 o'clock train and went directly to the rink where they were welcomed by a large number of local curlers. Four ices had been reserved for them and the big game was started at once. The ice was *in the pink of condition* and every end was stubbornly contested. The curlers put their whole heart into the game and took advantage of every opportunity. Many close ends resulted and there was keen interest on the part of the players, and the many spectators all through the game.

The Shepherd-Neill Cup was presented by Mr. Shepherd of Orillia, and Mr. R. Neill of Peterborough, to be competed for annually by the Orillia and Peterborough curlers. The men from the northern town won the coveted prize the first year but the locals took it the next two years. Last year Orillia won it again. The competition consists of eight rinks aside and four rinks from Orillia play here and four from Peterborough play in Orillia, but the same players are not eligible to play in both towns. The return half of the contest will be played in Orillia at an early date, after the bonspiel is over.

THE RINKS.

The rinks with the skips and the scores were as follows;—

Peterborough.	Orillia.
Dr. Wightman	J. Millison
J. E. A. Fitzgerald	Wm. Fox
T. Brightman	Angus Cross
R. Brown..	Skip G. Thompson 22
Peterborough.	**Orillia.**
L. Hall.	W. Crow
J. Montgomery	T. W. Robbins
W. M. Lang.	A. B. Thompson
G. Giroux 11.	Dr. J. W. Barvie. 14
Peterborough.	**Orillia.**
W. Adamson	Geo. Moore
W. Reid	R. Wade
W. E. Talbot	G. Rafley
R. Neill 20	J. B. Tudhope 9
Peterborough.	**Orillia.**
A. Webb	Rev. Dollard
D. Hall	D. A. MacNab
R. Hicks	D. J. Grant
S. Ray 11.	F. Toogood 16
Peterborough 57; Orillia 61.	

ADVERTISE IN THE TIMES.

All Ready for the Big Bonspiel which Will Open this Afternoon

The first game in the big bonspiel in the Peterborough Curling rink, will be played this afternoon at two o'clock. The draw will be made this morning and from then on the ice at the rink will be practically in constant use from early morning until late at night. Today's games will be played at 2 and 4.30. After supper a third will be started at 7 o'clock, and the last at 9.30, which will finish up at about midnight on Wednesday the play will start at 9 in the morning with the second game at 12.30. The afternoon and evening games will start at the same hour as on Tuesday. Thursday's games will be scheduled the same as Wednesday and it is expected to finish up Thursday night at about midnight, if not the last games will be played Friday morning.

The outlook for a most successful bonspiel is the very brightest. The club has had all kinds of encouragement so far and the visiting curlers now in the city are saying all kinds of nice things about the rink and the club rooms. The local curlers are also making every provision for the comfort of their guests and for their convenience. New clothes hooks have been hung along the south wall in the reception hall, while the upstairs room has been fitted up as a lunch and refreshment room where the curlers can secure light refreshments during the progress of the game. This feature will be greatly appreciated especially by those who have to play around the meal hour or late at night.

The prizes for the bonspiel are now on exhibition in R. Neill's win for each member of the winning rink.

The first consolation prize is a travelling bag for each member.

The second consolation is a cut glass bon bon dish for each member.

The third consolation is a pair of military brushes for each member.

The managing committee have everything in good shape and there is no doubt but that the visitors will have an enjoyable time here. The ice in the rink is in fine shape.

ARE YOU WEAK AFTER SICKNESS ?

Later on It Will be Harder to Get Strong than Today. What are You Doing to Get Well?

A case in point is well exemplified in the following letter from Mrs. N. J. Wilder, wife of a well known citizen of Pittsfield, who writes; "I had a nervous disorder that completely prostrated me. I couldn't sleep, and would lay and toss about all night, arising in the morning more tired than ever, head heavy, eyes dull, and every bone and muscle aching. I tried to get along without calling in a doctor, but was finally driven to it. He treated me for some time, but with no perceptible improvement in my health. Some one recommended Ferrozone. The change it effected in my system was noticeable almost instantly. I gradually took on flesh. The 'all-gone' feeling left me. In less than six weeks I was fully recovered from what looked to me like an everlasting sickness. I will always recommend Ferrozone feeling with sincerity that it is an honest, powerful, health-giving tonic.

Try Ferrozone today!

The nourishment and vital energy it supplies is wonderful.

Ferrozone makes you feel better at once, it's good for men, for women, for children—just the thing for everybody seeking better health. Sold by all dealers 50c. per box or six boxes for $2.50.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—50c. Sold by all dealers.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

MEAL PERMIT FUND

Students at the University of Missouri are able to get board at the University Dining Club for $1.50 a week. This low price is made possible because 430 students are members.

This year scores of students made application for meal permits and were told that the club was already filled to its capacity. Students desiring to "break in" at the club have been known to pay as much as $7 as a premium for a meal permit.

A meal permit which gives the owner the right to eat at the club, costs $19. Transient diners must pay $1 a meal.

The main purpose of a meal permit is to supply the manager of the club with funds at the beginning of the year, so that he may be able to purchase foodstuffs and other incidentals in large quantities and thereby save on the purchase price. The permit also serves to pay the salary of the cooks and other helpers.

The meal permit fund amounts to more than $6000 a year. The weekly income of the club amounts to more than $950. The club's annual income totals $30,000. The expenditures of the club are the same as the receipts.

The amount of food used at the University Dining Club is said to exceed that used by any dining room in Missouri, and is equal to that used in any large eastern college dormitory.

Three hundred and fifty pounds of meat, six bushels of potatoes, 1000 biscuits, six gallons of syrup and 225 loaves of bread are used in a day.

All food stuffs for the club are bought in large quantities, usually in carload lots. Meat is contracted for by the year and is received in weekly shipments from the Kansas City Stock yards.

WINS SUCCESS IN FOREIGN LANDS

COLDS CURED BY THE AID OF AMERICAN REMEDY.

Testimonials Received from Many Foreign Countries Prove the Worth of Chamberlain's Cough Remedy.

It will be a pleasure to the friends of Chamberlain's Cough Remedy in this country to learn that it has become quite popular and is meeting with the same unfailing success in many foreign countries as at home. The following extracts from letters show that people everywhere appreciate the superior excellence of this remedy:

England.

"I consider Chamberlain's Cough Remedy the best in the world."
WM. SAVORY, Warrington, Eng.

Australia.

"We can thoroughly recommend Chamberlain's Cough Remedy."
GEO. HOOPER,
Geelong, Victoria, Australia.

Jamaica.

"Grateful mothers are daily thanking me for advising them to use Chamberlain's Cough Remedy." J. RILEY BENNET.
Brown's Town, Jamaica, B. W. I.

Cape Colony, Africa.

"My wife has found Chamberlain's Cough Remedy to be invaluable with the children."
LEONARD C. STRETTEN,
Worcester, Cape Colony, Africa.

Orange River Colony, Africa.

"We sell more of Chamberlain's Cough Remedy than any other preparation of the kind."
JOHN MAIN,
Manager for S. Peterson, Ltd., Bloemfontein, Orange River Colony, Africa.

New Zealand.

"People who once use Chamberlain's Cough Remedy are almost certain to call for it when again in need of such a medicine."
HENRY SUMAS KAVOU, Chemist,
Masterton, N. Z.

How Amatuer Boxers Get Into the Ring

New York, Jan. 9. — Immediately before the recent Johnson-Burns contest in Australia, the question of the former's gameness was dwelt upon at great length by a number of the scribes in making their forecasts as to the probable outcome of the battle. Some predicted defeat for Johnson and based their convictions on the belief that he would not stand the gaff if it were sunk in deep enough. There were no good grounds on which to base this opinion. During a career of almost ten busy years in the ring, he has never been known to hoist the milk-white flag, and it does not look as though a man would quit in that time, if it were his natural inclination to do so. That dogma of cynicism so popular with ye olden time storekeeper that it is a good policy to believe every man dishonest until he proves himself otherwise is just about as kindly and logical as would be the tenet that every fighter is a quitter until he has proven himself game. The person who makes the prognostication or bets that any high-class fighter of to-day will be defeated because he isn't game makes a sad mistake. It isn't once in a hundred times that a boxer of the top-flight will "stop" in a battle until forced to do so. This statement doesn't go, in so far as the obscure boxer or the novice is concerned, but for the man who is battling for a championship. We cannot recall, off-hand, a single instance where a champion boxer was a "quitter". Shades of John L. Sullivan, Jack Dempsey, Terry McGovern, George Lavigne, Jim Jeffries, George Dixon, Pack McAuliffe, Battling Nelson, Stanley Ketchell, Bob Fitzsimmons, perish the thought.

When a man is champion or even fights for the title, it is a hundred to one bet that he is "game"; if not morally, he surely is physically. If he weren't he wouldn't go up so high on the pugilistic ladder. He would be found out long before he had attained such a degree of prominence. This statement is made with the full realization that there are exceptions to most rules. Once in a great while a capable fighter may show a streak of orange, but, just to satisfy yourself, try to pick out the really able boxers—champions or near-champions, who have "quit", to use the ring term, for cowardice. In the first place it takes a pretty game man to take up the ring as a profession. If he imagines it is a path of roses, he will find out his error long before he has graduated from the amateur ranks. Fooling around the gymnasium, boxing with all who come along, will show him that he is sure to receive some pretty hard knocks every time he puts on the gloves with a fairly capable man. He now is learning to box. When he is able to handle himself a bit, he joins out with some registered club. Next he takes part in a tournament or some kind of a competition with the amateurs. It is nothing unusual for a boy to fight three or four times in one night in his mad desire to capture a medal. And how they do fight. No flirting or stalling, but the real, old McCoy. A black eye or a swollen nose is an ornament—not a mark of disgrace. He is happy when he can say to his chummates: "I know I got my mawlings all right-o, but, you should see the other fellow," and then he proudly shows his medal, which may have cost as much as eleven dollars. Some have been known to cost that much. He is satisfied. The club feels exalted. His father will say: "I don't want Steve to box, but gee, he did trim up those other boys." And so Steve gets his first flash of the noise, the glamor, the adulation so dear to the heart of the winner. He has the fight bug, proper.

Finally the amateur turns pro. He does it on the quiet because his "Governor" might object. It isn't that he needs the money so much, because he can get all he needs from his father. But from his love for the sport and the excitement that goes with it. The best he now can get is a preliminary bout and this he wins, receiving, perhaps, as much as ten or twenty dollars. It might be remembered that Bob Fitzsimmons, after cleaning up half a dozen men in Jem Mace's tournament at Timaru, New Zealand, back in '68, received a princely gift in the form of a picture. It was a photo of Mace. History does not tell us whether or not the donor's name was inscribed on the back, but it is presumed that it was and it may have read: "Presented to Bobby Fitzsimmons, a good boy and some boxer, from his patriarchal and benevolent friend, J. Mace." But that didn't keep the grizzled old warrior from developing into a pretty fair sort of scrapper and going through the ranks of the middle and heavy-weights like pilsner through a faucet.

After winning a dozen or so certain-release, preliminaries, and semi windups, the ex-amateur begins to attract a lot of attention and some wise manager takes him under his wing. He boosts him along, he gets him important matches and in a year or two has him up near the top of the heap. He is no longer a worker. He has outgrown that, skipped the middle division and now is a full-fledged heavyweight of considerable prominence, with a bright future, plenty of science and a fairly good punch. He has had his troubles in getting there, though. It wasn't like taking a chop from a sick spaniel. He received many a nasty wallop en route; put in many a hard day in the gym. and tedious hours on the road; suffered for want of water when he was baked and cooked-out trying to make weight and oftentimes was short of money not only for forfeits, but for actual living expenses. It looked easy enough for him now because his name was made; the papers were filled with his pictures and accounts of his exploits and the matchmakers wanted him. Then he is matched to fight for the championship; the eyes of the entire sporting world are focussed on him; his friends and relatives have become reconciled; his admirers have bet on him to win, and the championship is within his grasp. Ask yourself the question, is it likely that he will "quit" under these conditions, when one more successful battle will land him on the ground for which he has been striving with all his strength and might? Not so one would notice it. He will battle so long as he has a leg to stand on. Something will keep him there—pride, vanity, self-respect or perhaps the humility and disgrace that he knows are sure to be heaped upon the shoulders of the shrinking, cringing coward. No, gentle reader, it is pretty safe to prophesy and a good thing to wager on, that once a man works his way to the top over a long, rough road, he is game until it is absolutely proven to the contrary.

It mightn't be such a bad idea to keep tabs on this little Welshman, Jem Driscoll, who is now in this country. We saw him box Matty Baldwin and he is there a thousand ways. He is fast as lubricated lightning, tricky as a lemur and knows the fighting game backwards. He has been boxing in this country about eight weeks, his first appearance being on Nov. 13, and in that time he has fought and won five bouts, two with Baldwin, two with Grover Hayes, and one with Charlie Griffin. He is not a youngster by any means, having turned twenty-eight, and he is in his prime right now. If there is any boy around of his weight, 126 pounds, who can beat him, he is keeping in the background with a vengeance. The best around here was Baldwin and he couldn't check the little foreigner's winning streak. Looks like the only boy who classes with him is Abe Attell. It may be that they will get together, but the weight question will have to be settled first. Attell is a legitimate featherweight, as feathers go in this country—122 pounds. Driscoll fights under the English scale, nine stone, or 126 pounds. He couldn't make 122, and he on his bear, and his manager, Jimmy Johnson, says it will have to be at 126 or nothing. Just a prediction—if ever they clash at that figure, Attell will have his hands full, both of them. Johnson dropped in the other day and talked for publication. "Kindly say for me," quoth James, "that Driscoll is ready to box Attell, but, on certain terms only, 126 pounds, ringside if necessary. I know Attell is a wonderful boxer, and I am not underrating him. Driscoll can not do twenty-two and be strong, and he would have to be at his best to cope with Attell. Jem has won the South African and Australian featherweight titles. In England he defeated Johnny Summers and Joey Bowker. In this country he beated the fastest boys they could trot out. He has never been whipped. With Attell, the only stumbling block may be the weight. I will not deviate—126 or nothing.—That is final. The other questions would be easy. We will bet as much as $5,000, if it is demanded. Any city, any club where the inducements are right. Jim Jeffries, Jack Sheehan, Tim Hurst, Billy Roche, Jack Welsh, Jack McGuiggan or any other reliable referee will suit. If Abe will agree to the weight, the match is made so far as we are concerned. It is up to him." Talk about your fights—that would be some battle.

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash values in exchanging any of them for took in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery is installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information of what you have to exchange.

CALVIN ESTERLY,
717 Market St., San Francisco, Cal.

COMING TO PETERBOROUGH

Macpherson skip, he hiked his breeks,
An' said, "Let's gang awa',
Wi' besom an' wi' curlin' stane,";
An' then there cam' a thaw.

The loch that was a' frozen ower
Was soft as mush, ye ken;
Macpherson, skip, was dashed to think
He'd has to wait till—when?

"Let's gang," he said, "to Peterborough
Ton is the bonnie toon;
Hamilton is na place for Scots
To lay the pot lid doon.

"The ice up yon is one foot thick,
An' skirlin' is the breeze.
An', pardon the outlandish phrase,
We noo think that's the cheese.

"The weather here is unco bad;
(We canna tell the day
When we can put the curlin' stane
Or gowf we has to play."

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventics—25 cents. Ask your druggist. He knows! Sold by all dealers.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

NERVOUS DEBILITY

Thousands of young and middle aged men are annually swept to a premature grave through EARLY INDISCRETIONS, EXCESSES AND BLOOD DISEASES. If you have any of the following symptoms commit no further it is too late. Are you nervous and weak, despondent and gloomy, specks before the eyes, with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, dizziness and headache, unusual in urine, pimples on the face, eyes sunken, bashful, unable to concentrate attention, poor memory, lifeless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, weak manhood, premature decay, bone pains, hair loose, sore throat etc.

BLOOD POISONS

Blood Poisons are the most terrible and most serious diseases. They sap the very life blood of the victim, and unless entirely eradicated from the system may affect the future generation. Beware of Mercury. It only suppresses the symptoms—OUR NEW METHOD cures them.

OUR NEW METHOD TREATMENT alone can cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches, find sores disappear, the nerves become strong as steel, so that nervousness, bashfulness and despondency vanish, the eye becomes bright, the face full and clear, energy returns to the body, and the moral, physical, and vital systems are invigorated; all draining cease—no more vital waste from the system. Dont let quacks and fakirs rob you of your hard earned dollars. We will cure you or no pay.

READER No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Monitor" (Illustrated)

Question List for Home Treatment Sent on Request.

Cosgrave's Beer

Words of praise have ever prevailed in advertising "copy." That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

Wiring New York's Newest Large Bridge

The few huge cables upon the strength of which will depend the safety of the crowds of New Yorkers who are to use the new Manhattan Bridge are now being hauled into place. Each cable will consist of thirty-seven strands of 256 wires each, a total of 9472 wires in each cable, or 37,888 wires in all four cables. These must be strung wire by wire, and the present rate of progress, which is the fastest in the history of suspension bridges, it will be well on in January of this year when the last wire is hauled across the river. John A. Roebling's sons, who bridge, are now, thirty years afterward, performing the same office for New York's newest link with the Long Island shore.

The method of getting the wires from anchorage to anchorage is as simple as it is expeditious. At the Brooklyn end of the bridge, are four stationary electric motors—one for each cable. Each motor drives a big grooved wheel, around which passes what is called a "hauling wire." Now, this hauling wire works on the same principle as a tenement-house clothes line; an endless rope looped through two pulleys far enough apart to keep it fairly taut, so that if you hang something—a shirt, for example—on one "leg" of the rope and pull on the other leg you can send the shirt across the back yard as far as the other pulley. In the case of the bridge, the hauling wire — a three-quarter-inch steel rope—corresponds to the clothes line and the pulleys correspond to the big grooved wheel driven by the motor at the Brooklyn anchorage and the big wheel without any motor at the New York end.

Now, instead of a shirt hanging on an endless clothes line, we have hanging on each "leg" of the hauling wire, one at the Brooklyn end and the other at the New York end, what is known as a "travelling sheave"; this is simply a V-shaped iron bracket with its ends clamped to the wire and a three-foot grooved wheel with its hub at the angle of the V. It is clear then that if the "sheave" at the New York end is hauled toward Brooklyn the one at the Brooklyn end will at the same time be hauled toward New York; precisely as, with a shirt at the window end of your pulley line and a pair of socks at the back yard pole, if you pull the socks toward the window you will simultaneously send the shirt toward the pole, so when the driving motor in Brooklyn is started the sheaves are drawn in opposite directions from shore to shore; and when each is at the shore end and the motor is reversed they each travel back again. The distance between anchorages is 3725 feet.

Now you will want to know the use of the travelling sheaves. It is simple. The wire which is to make the great cables is delivered to the bridge on huge reels or spools, each weighing three tons. Half of these spools are placed at each end of the bridge. The end of the wire from a reel is passed around the wheel of the traveling sheave at each anchorage and fastened to the anchorage itself. The driving motor is then started and the sheaves move across the bridge, unwinding the wire from each reel. A double wire is thus strung by each sheave every time it crosses the bridge. When the sheave reaches the other side of the bridge the loop of the wire is lifted off the wheel and fastened to the anchorage. A new wire is then hauled from that side on the return trip; and so on until 256 wires have been hauled. When this has been done they are bound together at intervals. The completed strand is then lifted from the temporary saddle in which the wires have rested and laid in its proper place in the permanent saddle. Two strands of each great cable are thus wound simultaneously by the two sheaves of each hauling rope.

There is a separate hauling apparatus for each of the four bridge cables, so that they are strung independently of each other. By this arrangement, an accidental delay in stringing one cable affects that cable alone and work is uninterrupted on the others.

Each hauling rope is driven by a 50-horsepower electric motor and moves at a speed of 480 feet per minute, so that it takes a sheave about eight minutes to cross the river. Allowing for the time used in attaching wires at each end the sheaves make about three trips an hour; and at this rate the stringing of the whole 37,888 wires is a four months' job for the contractors.

The sheaves running across the bridge are a sight that makes people pause on their way across the older bridge; to many of them it is a mystery, and you may often hear excited arguments as to the why and the wherefore and the how of these little moving sheaves.

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs, quickly yield to the healing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Contains no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge! Sold by all dealers.

Husband Owns Wife's Clothes

Who owns a wife's dresses? That may be thought a simple, silly question admitting only one answer. Who in the name of all that is reasonable should own them if not the wife? But such is not the opinion which has just been enunciated by an English judge. It was in the Brompton County Court that the case came up which raised the issue. Certain customers had supplied a married woman with dresses and other articles of apparel. They were not paid, and after they had waited for their money what they considered a reasonable time, they repossessed themselves of their property. If they had a legal right to do this turned upon the ownership of the merchandise involved had been vested. If it belonged to the wife the seizure which had been effected was valid; otherwise not.

In the proceedings which ensued the husband set up the extraordinary claim that as he had given his wife the money wherewith to buy the dresses they belonged to him, and, strange as it may appear, this contention was upheld by the court.

Recommends Economy

Continued

towards securing the new public library which will be erected this year.

Ald. Gillespie was made chairman of the Manufacturers' Committee and attached to that was the special power committee. To even things up he resigned the power part of his committee and it was made one of the standing committees for this year and Ald. McIntyre was elected chairman.

As far as the other committees were concerned the choices were unanimous upon the first name mentioned.

MAYOR'S REMUNERATION.

Before the committee adjourned Ald. Morrow referred to the many calls made upon the Mayor during the past year for assistance to those out of work and he moved that the Mayor's remuneration this year be $600 instead of $500.

Ald. Hicks stated that while he realized that $600 was not too much for the Mayor of this city, yet he thought it advisable for the Aldermen to wait until the financial report of last year was presented and the condition of the city's funds were ascertained, before making any increases in salaries or adding new expenditures. He stated that real economy must be practiced this year and it would be well to start off that way. He moved in amendment that the Mayor's salary remain at $500. Ald. Morrow withdrew his motion.

CHAIRMEN ELECTED.

It was moved by Ald. Morrow and Ald. Bradburn that the chairman be selected by ballot.

Ald. Morgan objected to this and asked to have the selections made in open meeting.

In order to meet the views of both sides Ald. Hicks suggested that, as there would probably be no opposition in the majority of cases that the chairmen be named and if two were nominated then a ballot be taken. This idea was carried out.

The following Chairmen were selected:—

Board of Works—Ald. H. Fleming.

Fire Water and Light—Ald. Wm. Butler.

Manufacturers—Ald. Geo. A. Gillespie.

Finance—Ald. W. Geo. Morrow.

Property—Ald. W. H. Bradburn. Ald. McIntyre was also nominated but lost on the ballot.

Legal, Reception and Joint with the County—Ald. Turner.

Special Power Committee—Ald. McIntyre.

As Ald. McIntyre had been left off the original six committees Ald. Morrow expressed a desire to resign his committee and let Ald. McIntyre be Chairman of the Finance Committee. This however, was not satisfactory and the arrangement referred to above was adopted.

CHAIRMEN GRATEFUL.

All the new chairmen expressed their gratitude to the Aldermen for selecting them as the heads of the various departments in the city's affairs. They promised to devote their true and best thoughts to the welfare of the city and thus endeavor to merit the confidence placed in them.

The committee decided to allow the chairmen of the various committees to select their own colleagues. The meeting then adjourned and the chairmen met and reported to the council meeting in the evening.

Stop That Cold

To check easily outside or deform with Preventics, common sense dictates that Preventics, to cause a cold with Preventics to quit cheap, to be sure and to be obliged to cure in a short time, Preventics will cure a cold with some germ in it sooner than any other remedy—at the same time, Preventics will relieve quickly—at the same time, Preventics will prevent a cold from developing. Preventics are a positive preventive and cure for Colds, Coughs, Grippe, Influenza, Bronchitis, Sore Throat, Hoarseness, Tonsilitis, Headache, Neuralgia, Sneezing, Sick Headache, Pains in the Back, Sides and Limbs, Feverishness, Lagrippe, Pneumonia, Malaria, Chills and Fever, Nervousness, Sleeplessness, Nervous Prostration, Nervous Debility, Nervous Headache, Mental Depression, Loss of Memory, Hysteria, Dizziness, Crossness, Fretfulness, Nervousness, Wakefulness, Mental Worry, Excitability, Melancholy, Neuralgia of the Heart, Hysterical Choking, Nervous Chills, Women's Ailments, Pains Peculiar to Women, Change of Life, Backache, Kidney Pains, Weak Bladder, Nervous Diseases

Apetite Gone---Nerves Badly Run Down

A Strong Moral Well Exemplified in Mrs. Wilson's Case.

Like thousands of other people at this season of the year Mrs. E. P. Wilson was tired and worn out—winter sorely tried her health and vigor. But now she is robust and well, eats well, sleeps well, feels invigorated and braced. "For some years," writes Mrs. Wilson of Waltmere, P.O., "I suffered from systematic weakness, billiousness and depressing headache. I could take little nourishment and grew thin and pale. If I ate a hearty meal the result was dreadful. Pains started at my chest, and spread all through my body going across my stomach, back and right side. I was discouraged till a friend insisted on me taking Dr. Hamilton's Pills. They made a new woman of me, and for the past eight months my health has been perfect. For a good cleaning, rejuvenating medicine I urge every one to use Dr. Hamilton's Pills."

There is extraordinary and magic power in Dr. Hamilton's Pills; they bring vigor, tone, health and spirits—are compounded from the most wonderful and healing juices and essence in vegetable life—are safe for young and old, and guaranteed to kindle renewed activity and strength of every system that is weak, sickly or run down from kidney, liver, stomach or bladder trouble. Get Dr. Hamilton's Pills of Mandrake and Butternut—today—25c. at all dealers.

The Morning Times

PETERBOROUGH, ONT.

TUESDAY, JANUARY 11, 1909.

Gold Watch Found

A lady's gold watch was found on the streets yesterday and is now awaiting the owner at the police station for it.

New Transformer

A new transformer was placed on the pole at the corner of Simcoe and Water streets, to replace the one burned out Sunday morning. The broken wire was also repaired.

New Council

Mr. R. M. Roy has already completed a handsome group photo of Peterborough's new City Council, and yesterday morning it was placed on exhibition in the Hunter street window of McDonald's drug store.

Communion Sunday

Last Sunday morning the sacrament of the Lord's Supper was dispensed in St. Paul's church, and the attendance was a record one. There were 550 members took communion, the largest number in the history of the church. There were also quite a number of new members.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

Large Bible Class

Rev. Mr. Pogue's adult Bible class in St. Paul's Sunday school has increased in membership so rapidly that last Sunday there were 112 present. On the same day 26 young men attended Mr. Mowatt's young men's Bible class. This rapid increase is very encouraging to the pastor of St. Paul's and will be of great interest to the congregation.

25th Anniversary

The members of Lansdowne Lodge S.O.E., are making arrangements to celebrate the 25th anniversary of the inauguration of the lodge with a banquet to be held in the lodge room on the evening of Jan. 21st. Committees have been appointed to look after the arrangements for the affair.

Memorial Service

There will be a memorial service in the Charlotte street Methodist church on Wednesday night, commemorative of Rev. D. O. Crossley, a former pastor of the church, who was greatly liked and respected by members of his congregation here. There will be a short sermon by the pastor and addresses from several representatives of the board. The public is invited to be present.

Ladies' True Blues

The Ladies' Loyal True Blues will hold their first Scarlet Degree meeting this evening in the L.O.L. Hall, on Simcoe street. There will no doubt be a large gathering of Scarlet members present as an invitation is extended to all True Blues in the city with this degree, to assist in conferring it on the Search Light Lodge. This meeting should interest any True Blue that might be visiting in the city.

Special Service

There will be special prayer services held in the basement of the George street Methodist church every night this week, conducted by the pastor. All welcome.

Annual Meeting

The annual meeting of the Peterborough Agricultural Society, will be held in the City Council chambers on Wednesday afternoon, January 20th. A full attendance is requested.

Installation Tonight

At the regular meeting of Court Stanley, A.O.F., to be held this evening in S.O.E. Hall, a joint installation of the officers of Queen Alexandra Circle and Court Stanley, will be duly installed after which refreshments will be served and a large attendance is requested.

New Elders

Two new elders will be ordained at Knox church next Sunday morning and the ceremony will be of a very interesting nature. The new elders are Messrs. T. R. Kennedy and F. D. Armstrong. The ordination ceremony will be performed by Rev. R. J. Keith.

Schools Closed

Several schools in the northern part of the county are closed during the winter months. This is not unusual, however, as these schools have been closed in previous years, the sections being sparsely populated. Lang school in Otonabee did not open until yesterday, the trustees being unable to get a teacher. Several other sections also had difficulty in securing teachers.

Officers Installed

A joint installation of Lift Lock Tent and Queen of Canada Hive K.O.T.M. officers was held last night in their lodge room over C. N. Brown's store on Simcoe street. There was a large number of members of both lodges present and after the evening's business was completed, a supper was served in the lodge rooms and an enjoyable social time was spent.

Funeral Yesterday

The funeral of the late Cornelius Halpin took place yesterday morning from his late residence, 158 Lake street, to St. Peter's cathedral, and thence to the Roman Catholic cemetery. Many prominent citizens turned out to pay their last token of esteem to the memory of the deceased. At the church mass for the burial of the dead said by Rev. Father Galvin, and Rev. Dr. O'Brien officiated at the grave. The pall bearers were Mayor Rush, and Messrs. James Hogue, James Graham, James O'Brien, John O'Brien, and L. Drake.

How's This

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Canadian Club

The first meeting of the Canadian Club for this year will be held on Monday evening, January 18, at the National Hotel. Rev. Dr. Gould has been secured as speaker, and the subject of his address will be announced later. Membership tickets for the year can be obtained from the following members of the executive; Messrs. D. O'Connell, H. R. B. Kenner, Dr. Cameron, J. H. Larmonth, Rev. B. J. Keith, J. E. Hodgson, B. LeBrun, D. Hughes-Charles, A. H. Stratton, T. F. Matthews, S. R. Armstrong, F. D. Kerr, or the secretary, Mr. E. L. Goodwill.

Obituary

REV. DR. GARDINER.

Belleville, Jan. 10.—Rev. Dr. Gardiner, one of the oldest ministers in the Methodist church, died here yesterday morning. Deceased was 80 years of age, and had been in the ministry 56 years, occupying prominent positions in the Church. He was superannuated a few years ago.

Rev. Dr. Gardiner is an uncle of Mrs. John Nugent, Brock street, and he was well known in this district and greatly liked.

SABINA LOCKHART.

Miss Mary McBirnie, who resides with Mr. John Nugent, 205 Brock street, received a telephone message yesterday morning telling her of the very sudden death of her sister Sabina, wife of Mr. H. G. Lockhart, of Fernie, B.C. During the forest fires of last summer, Mr. McBirnie, who is a merchant in Fernie, had his premises destroyed. During their reconstruction, Mrs. Lockhart went to Toronto to stay with her family. She was a daughter of the late Mr. McBirnie, a former resident of Peterborough. The remains will be interred in the Little Lake cemetery. The funeral will be from the Canadian Pacific Railway station on the arrival of the express from Toronto at 11.26 a.m., on Wednesday.

CRESSSMAN'S—385, 387, 389 George Street, Peterborough

Personal

Mrs. McDermid, 519 Weller street, will not receive today.

Miss Mamie Rogers is visiting Mr. and Mrs. Geo. Burnham, in Toronto.

Mrs. T. B. Collier, 555 Weller St., will not receive today.

Mr. Joseph Stewart, of Battle Creek, Mich., is visiting his sister, Mrs. Polson, William street.

Miss Dorothy Hillard of Lakefield, is the guest of Miss Phillippa Dela-Fosse, 253 Stewart street.

Mrs. John Jayes returned home Saturday after spending a few days in Toronto visiting her son.

A number of boys passed through the city yesterday morning on their way back to the Grove school in Lakefield.

Mr. and Mrs. A. H. McGregor, and son Richard, of Medora, Man., are the guests of Mr. and Mrs. Wm. Fowler, Rubidge street.

Miss M. Lonergan of St. Joseph's Academy, who has been the guest of Mrs. M. O'Brien, Gilmour street, Peterborough, has returned to town. —Lindsay Post.

Mrs. W. E. Wright and Master Frank of Winnipeg, are the guests of Mrs. W. E. Wasson, 307 Hopwell avenue, and will receive with Mrs. Wasson this afternoon.

Mrs. S. Clegg, Stewart street, entertained a large number of guests on Saturday afternoon from four to six o'clock. Mrs. Clegg of Wingham, Miss Lole Ostrom of Toronto, and Miss Ruby Clegg assisted Mrs. Clegg in receiving the guests.

Among those successful at the recent qualifying examinations for entrance into the civil service, held at Toronto, are Mr. Terrot H. Glover, city, and Miss Kate Gannon of Enniskmere.

Miss Laura Smithson, who has been spending the Christmas and New Year's holidays with her parents, Mr. and Mrs. Joshua Smithson, has returned to Toronto to resume her studies at the University.

Mr. W. J. Coleman, of Coleman Bros., George street, is leaving shortly on a visit to London and New York. In both the English and American metropolis he will have a month's experience in one of the leading catering houses of the city and when he returns will undoubtedly be thoroughly equipped to meet the demands in all departments of plain and fancy baking in the most approved and cosmopolitan and satisfactory way.

The London Times of December 30, publishes the list of promotions in the army of that month. Amongst others there is that of Capt. Harold S. Rogers, R.E., to be major. The Times congratulates Major Rogers, who is a son of Lt.-Col. H. D. Rogers of this city.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

The Interesting Route

To Manitoba, Saskatchewan and Alberta, is via Chicago and St. Paul, Minneapolis or Duluth. Through the brilliantly lighted St. Clair tunnel by electricity, without smoke, gas or dust. Secure pamphlet, "New Route to Winning and West," from nearest Grand Trunk agent.

A marvellous trial reading of character by the well-known scientific phrenologist, Prof McKellar, L. V., 21 Beaconsfield avenue, Toronto, whose public blindfold tests prove the reliability of phrenology. Send address and 10 cents silver. Enclose photo when possible. Will return with reading.

ADVERTISE IN THE TIMES.

McCOY—BALL.

A quiet wedding was solemnized at the seven o'clock mass at St. Peter's Cathedral yesterday morning when Stella Ball, daughter of Mr. Wm. Ball was united in marriage to Mr. John Alfred McCoy. They were attended by Mr. Maurice Crowley and Miss Lillie Callahan. The ceremony was performed by Rev. Dr. O'Brien.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

Maintenance is Less this Year

There are at present in the House of Refuge 35 inmates, 20 males and 15 females, and although the aggregate number of days of the inmates maintained this year as compared with 1907, is nearly doubled, yet the cost of maintenance will, it is estimated be reduced from $2.55 to considerably below $2.00, but of course, last year being the initial year, had its drawbacks by way of supplies not being raised on the farm for the first seven or eight months.

The House of Refuge has earned a reputation with regard to the stock raised. A pair of Durham calves born last March were weighed recently and tipped the scales at 1075 lbs. Mr. Beavis considers this hard to beat in view of the fact that the animals only received ordinary care —Lakefield News.

Wedding Guests Left on the Road Side While Horses Went on a Jaunt

What effect upon the future bliss of a newly married couple has a runaway accident? The private library of this g.f.j. has been thoroughly searched but no reference to such a calamity can be found and there is nothing in the patent medicine almanacs either. The only answer that appears to be at all satisfactory was that made by one of the wedding guests in the accident, who said; "It's d—— inconvenient."

Yesterday afternoon there was a wedding up Water street north, and one hack containing four of the guests was on its way to the marriage feast when the street railway company's sweeper appeared on the scene. Thinking the sweeper was a new automobile or some other scab machine which was endeavoring to knock the livery horse union, the animals objected very strenuously to its presence. To show their displeasure they turned their hind quarters out which slipped the traces off the whiffle trees, and then they made a wild dash and got away. The hack was left standing in the roadway, neither coming or going, while the big grey team was hiking down Water street at a two-minute clip. They crossed over Smith street and went out Benson street until they struck a side road where they turned again and proceeded on their way rejoicing. Seeing a field of fall wheat they jumped the fence and amused themselves plowing up the ground. When the horses were going along Smith street, they were noticed by Mr. E. F. Mason, who was at his north store. He jumped into his delivery sleigh with his driver and started after the runaway and finally found them in the field where he got them in a corner and returned them to the city where the driver took charge. In the meantime the guests for the wedding were sitting in the hack wondering why they were not making more rapid progress. Finally one of the men got out and telephoned for another hack.

The only damage done by the runaway was one tug broken, and four people very much annoyed.

Annual Meeting Y.M.C.A. Reports were Presented, Deficit was Only $30

The annual meeting of the Y.M.C.A., was held in the parlors of the association last night, when President J. F. Sisk occupied the chair. In opening he referred briefly to the work that had been accomplished during the year. General Secretary Bassard also made a verbal report.

The reports of the various departments were as follows;—

MEMBERSHIP COMMITTEE.

On Jan. 1, 1908 there were 175 full priveleged members, 136 limited privilege and 105 boys, making a total of 415 members.

All these members were not taking part in the activities of the association and were consequently struck off the membership list and placed on the subscribers' list. Therefor, the report for this year of active members is a record one.

Full privileged members, December 31st, 1908—163.
Limited privileged—90
Boys—135.
Total—388 active members.

This shows a decrease of 27, although many more are taking advantage of the privileges.

PHYSICAL DEPARTMENT.

Considerable progress was reported by the Physical Committee, under the efficient leadership of Mr. Collings. Great interest had been developed in athletics. There was one team in the O.R.F.U., one in the city Rugby league, but were handicapped for want of a practice field; a basketball league of five teams played for the Cressman trophy, which was won by the Brownies; a gymnasium corps was organized as was also a track and field club; a boxing and wrestling class was formed. The work along all the lines has been very favorable.

BOYS' DEPARTMENT.

The interest in the Boys' Department is showing a general increase. The Y.M.C.A. Chieftain Baseball team won the championship last summer. Five Bible classes have an enrollment of 56. Two are taught by older boys. The boys' rooms were moved from the basement to the second floor which is a great improvement. The visit of Mr. F. H. T. Ritchie, Canadian Boys' secretary, was very successful and the older boys' conference on November 7, 8 and 9, when 152 boys from all parts of Ontario attended, did much to stimulate the work of the department. The visit of Mr. R. A. Waite of New York, on November 28, 29 and 30th, increased the activity in the religious work in the department. The boys have their own debating club and harrier club for the promotion of literary attainments and athletics. Besides mock court trials in the Conservatory of Music Hall in September, the boys have had three socials.

EDUCATIONAL COMMITTEE.

The Educational Committee in its report referred to the several improvements that have been made. In the reading room there are 6 daily and 8 weekly papers and 16 monthly magazines or a total of 30 periodicals. Classes in junior matriculation were held on three nights a week.

PROPERTY COMMITTEE.

The Property Committee reports showed in addition to many incidental repairs there was installed one pair of bowling alleys complete, provided for by the members of the association. A jacket boiler was installed which will prove an economy in heating bath water in the summer. Repairs were made to the boiler, the first since it was installed 12 years ago.

SOCIAL COMMITTEE.

The Social Committee's report referred to the various social functions during the year, including the New Year's reception at which the Ladies' Auxiliary assisted, and the formation of a social service club.

RELIGIOUS WORK.

The Religious Work Committee reported that during the winter and spring, men's meetings were held Sunday afternoons at 4.15, but in the fall it was decided to hold open house meetings once a month if suitable speakers could be secured. Only one has been held so far. The Bible class on Sunday afternoon has taken the place of the mass meeting. Practice on the part of the religious committee is to put in touch with the pastors of the churches all those who in any of the meetings express a desire to lead a christian life, and they have thus been brought into contact with the churches. The universal week of prayer for young men was observed by the association from November 7th to 15th. In connection with this work the members are helping to support a representative in India, and towards his support 48 of the members have, with a $5 contribution from the Ladies' Auxiliary, contributed $100, the largest figure raised for several years.

FINANCE COMMITTEE.

The Finance Committee made the following statement of receipts and expenditures;—

RECEIPTS.

Subscriptions	$ 279 00
Membership, full	994 50
Limited	389 00
Boys	410 00
Lockers	82 50
Dormitories	689 65

Peterborough Won From Whitby Juniors

Peterborough 9, Whitby 6, was the final score in the Junior O.H.A. game at Brock street rink last night. The attendance was only fair, but the hockey was classy. The first 20 minutes of the game was very fast and as Whitby had the better team combination they outplayed the locals. Whitby scored the first two goals in short time and it looked like a walk over for them. But the Peterborough juveniles settled down and got in some good work, with the result that the half-time score was 2—2. The visitors could not stand the pace and fell away miserably, while the locals strengthened and dug in for all that was in them. In the second half Peterborough had much the best of the game and put seven notches in the post while Whitby only added four goals to their string.

Leivingston, of Toronto, was the referee and while he was very strict in some respects he was generally satisfactory. The line-up of the teams were as follows;—

Peterborough.		Whitby.
	Goal.	
L. Giroux		H. Smith
	Point.	
Wade		Laver
	Cover.	
Pentland		Waugh
	Rover.	
Rae		Jones
	Center.	
C. Giroux		J. Smith
	Right.	
Shortt		Wilson
	Left.	
Hillier		Blanchard

Referee—Livingston, of Toronto.

How's This

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.,

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

THIRTY-EIGHT RINKS PLAYED IN PETERBOROUGH'S BONSPIEL

The First Round of the Primary Completed Last Night—An Extra End Played in the Reid-McFadden Game.

Several Close and Exciting Contests—Today's Program will Furnish Some Interesting Sport.

Peterborough's bonspiel was opened yesterday afternoon at two o'clock with the primary contests. The second game was started at five o'clock, and the third game at eight o'clock. It was the greatest afternoon and evening of sport the curlers of this city have had for a long time. The many visiting rinks were all strong and every man was out to capture one of the prizes. There was the keenest kind of curling and the participants became very enthusiastic while the big crowd of appreciative spectators applauded good plays.

In the second game which started at five o'clock the Bobcaygeon rink skipped by W. J. Reid and the Lindsay rink skipped by G. McFadden put up a stubborn fight which attracted all the attention. At the end of 13th end Reid was three shots up and only one end to play. McFadden steadied his men down and by carefully placing his stones he scored three shots, making it a tie. It was therefore necessary to play another end which was very close until the last stone was played by Reid, which resulted in his rink lying two shots. The game with 15 ends result d;—Reid 11, and McFadden 9. It was a close contest all through.

There was also close games between Rev. J. Wallace's rink of Lindsay, and J. R. McIntyre's rink of Keene, which resulted in a score of 13 to 12 in favor of the reverend gentlemen.

Two Peterborough rinks also went after each other with besoms. G. H. Giroux and J. H. Connal fought a hard battle, which at the end of the 14th end was only one shot in favor of Mr. Connal.

EVENING GAMES.

A very exciting game and one which required an extra end to decide was that of Dr. Greer, city, vs Mr. Toogood of Orillia. At the end of the 14th end the rinks were a tie, 8 all. The 15th end was a case of Dr. Greer's men placing a stone and Mr. Toogood's men knocking them out. It was curling to the broom every time and Mr. Toogood was true to his name and won by a single shot.

Another hard fought game was that of Mr. Ham of Napanee, vs. W. Geo. Morrow. The latter led until

(Continued on Page 4.)

At Cost

Hand sleighs at cost rather than keep any sleighs over. See our big boys' coasting sleighs at 19 and 60 cents; girls' sleigh at 40c and the "fast mail" with railing all around for only $1. Times Bookstore, nearly opposite post office.

This Morning's Draw

The following skips will have their rinks on the ice ready to start at nine o'clock the first round in the consolation;—

Ice 2—O'Connor v. McIntyre
Ice 3—Davis v. Campbell.
Ice 4—Giroux v. McFadden
Ice 6—Wilson v. Matthews.
Ice 6—Ferguson v. Brown.
Ice 7—Neill v. Rev Pearson.

Today's Program

9 a.m.—First round in consolation.
1 p.m.—Second round of primary and part of the second round for the consolation.
5 p.m.—Balance of second round for consolation.
8 p.m.—The semi-finals in the primary.

On Thursday the Primary finals and the consolation will be played.

Fitzgerald-Bottum Shield for Annual Competition

Additional interest has been created in curling circles here by the presentation of a very handsome shield for annual competition between Bobcaygeon and Peterborough clubs. The shield was donated by Mr. A. E. Bottum of Bobcaygeon, and Mr. J. E. A. Fitzgerald of Peterborough, and will be known as the Fitzgerald—Bottum shield. The trophy is a very handsome one of quartered oak with silver mountings. Around the top is a metal drape, in the center of which are the words Peterborough and Bobcaygeon. Immediately below this is figure of a curler ready to put his stone. The center of the shield is mounted with silver with the words For Annual competition. Presented by Fitzgerald and Bottum. Under this are two brooms and a pair of stones, mounted. It is a very handsome trophy and will weigh about 25 pounds. The conditions for the competition are that three rinks from Bobcaygeon play three Peterborough rinks here and four rinks from Peterborough will play four Bobcaygeon rinks there, and it is very likely that the first half of the first competition will be played here this week after the bonspiel.

The curling clubs of this city and Bobcaygeon will greatly appreciate the gift of Messrs. Fitzgerald and Bottum. The annual competition will create a more friendly feeling between the curlers fo the two towns and will also add much interest to the game as has the Shepherd—Neill Cup games between Orillia and Peterborough.

Mr. J. W. Leonard is Recovering

The Popular C.P.R. Official Not Seriously Ill

It will be good news to scores of people in this city and district to learn that Mr. J. W. Leonard, Assistant General Manager of the C.P.R., is rapidly recovering from a severe attack of lumbago. The report which appeared in the Toronto World that Mr. Leonard is seriously ill, we are pleased to say is entirely without foundation.

Knox Young People Enjoy Pleasant Time

About eighty Peterborough people the greater part of them being from Knox church Young People's Society, drove to Springville Monday night where they were the guests of the Young People's Society of the Springville Presbyterian church at a most enjoyable concert. Six busses were required to solve the transportation problem but Springville was reached in good time after an enjoyable drive.

Rev. Mr. Johnston was on motion elected chairman and a program rendered entirely by members of Knox church and was greatly enjoyed.

Earthquake Shock Startles British Columbia—Two Distinct Shocks

(Special to The Times.)

Vancouver, B.C., Jan. 12.—A slight earthquake was felt here yesterday afternoon about 3.45.

In Fairview, Grandview, and other high altitudes around the city, people rushed from their homes into the streets.

Reports of a slight shock came from Seattle, Victoria, Sumas, Tacoma, and Bellingham.

The shock lasted from 7 to 30 seconds, according to various reports from different parts of the city.

In Bellingham plaster was knocked off the walls of houses and electric chandeliers shaken to the floor.

TWO DISTINCT SHOCKS.

Everett, Wash., Jan. 12.—Two distinct earth shocks were felt at 3.15 yesterday afternoon in Everett and vicinity, travelling from east to west.

Please Help the Dorcas Society

Will the boys and girls, ladies and gentlemen, who happen to be on George street this afternoon, please drop into the Crystal, as the proceeds go to the Dorcas Sewing Society, who furnish clothing for the poor and needy families in the city.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box 48 Preventics—25 cents. Ask your druggist. Be know! Sold by all dealers.

The Interesting Route

To Manitoba, Saskatchewan and Alberta, is via Chicago and St. Paul, Minneapolis or Duluth. Through the brilliantly lighted St. Clair tunnel by electricity, without smoke, gas or dust. Secure pamphlet, "New Route to Winning and West," from nearest Grand Trunk agent.

Miss Dorothy Hilliard of Lakefield, is the guest of Miss Phillippa Delafosse, 283 Stewart street.

Installation of the New Officers

The officers of Court Peterborough No. 29, C.O.F., were duly installed by P.H.C.R. F. J. Jamieson and were as follows;

P.H.C.R.—George Hardwick.
C.R.—Wm. Whiteroft.
V.C.R.—Albert Long.
Rec.-Sec.—Chas. Stenton.
Fin.-Sec.—H. Nesbitt.
Treasurer—F. Adams.
Chaplain—Gordon Carter.
S.W.—E. Roy Menzies.
J.W.—Wesley Flannery.
S.B.—D. Menzies.
J.B.—Wm. Carter.
Physician—Dr. Eastwood.
Trustees—Jos. Metherel, Geo. Stanton, Albert Carpenter.
Auditor—F. A. Coates.

The usual spread provided by the new officers was followed by speech-making—Com.

S.S. Entertainment

The annual Sunday school supper and entertainment, under the auspices of the Charlotte street Methodist church was held in the school room last night. A large number were present and a most enjoyable evening was spent.

War in Balkans Averted

Constantinople, Jan. 12.—The Turkish Government accepts the Austro Hungarian offer of $10,000,000 indemnity for the annexation of Bosnia and Herzegovina, thus removing every possibility of war.

The Grand Vizer Kiamil Pasha, received Marquis Pallavicini, the Austro-Hungarian Ambassador at noon today, and notified him of the decision of the Council of Ministers.

Six Cases of Small-pox at Port Hope

Word was received in the city last night that there are six cases of smallpox at Port Hope. Such a large number of cases in one place is sufficient to cause the health authorities to sit up and take notice. Smallpox is getting pretty close to this city and the local authorities would do well to take steps to prevent a spread of the disease. No particulars as to the severity of the Port Hope cases were received.

Social Evening at the Y.W.C.A.

The first social evening this year was held at the Y.W.C.A. last night when a large number of young ladies were present and enjoyed an evening of games, music and readings. Miss McCalla, the popular secretary, is preparing for the season's work, and will soon begin the reorganization of classes. The outlook for the coming year are very bright.

Three Boys Spent Night in the Goal

Three young boys slept last night on the soft side of the benches in the police cells as a result of their little escapade about six o'clock in the evening. The boys had been left in the Crystal Theater turning down the seats for Mr. Edwards. The genial proprietor of the theater went out, leaving his coat hanging inside. When he came back the boys were gone and so was $5.60 from his coat pocket. The police were notified, and soon the youngsters were put where there was no temptation. They will appear before his worship this morning.

Opening Day of the Lindsay Races

(Special to The Times.)

Lindsay, Jan. 12.—The opening day of the Lindsay ice races was a great success. There was a large attendance of spectators and the two races were contested by several Peterborough horsemen were present. The results were as follows;—

2.16 CLASS.

Pansy, Rumbough of Wingham	1	1	8	1
Togo, G. Powell, Belleville	8	4	1	2
Prince Medium, G. Clark, Blenheim	2	2	6	4
Lou Keswick, A. Ashmore, Lindsay	4	3	2	3
Wawa, H. Leadly, Cookstown	3	6	3	7
Brown Hal, S. Hillett, of Sunderland	5	7	4	5
Olive B., McKay, Kingston	6	8	5	6
Minnie G., G. Deetman, Kinmount	7	5	7	8

Time—2.27 1-4, 2.27 1-4, 2.27, 2.27.

2.16 CLASS.

Gracy Pointer, P. Burke, North Bay	1	1	1	
Walter G., T. Hodgins, Orillia	4	2	2	
Otto K., D. Peters, Blenheim	2	3	3	
May Way, W. Carson, Kingston	3	4	4	

Time—2.23 1-4, 2.26, 2.27 1-4.

Starter—Frank Smith, of Buffalo.

Poultry Association Had Surplus of $114

A business meeting of the Peterborough Poultry Association, was held in the Bank of Montreal building last night, when everything in connection with the poultry show was cleared up. Cheques were issued to all the prize winners in full, and all accounts were paid. To the credit of the association after expenses were paid was $114, and of this $815 was voted to Mr. Geo. Paxman, the superintendent of the show, and to Mr. C. J. Hicks, the secretary, was given $20. The association has now $75 to their credit in the bank, to start next year with besides having paid for the 325 dogs built this year. The surplus will be used in building some 300 more coops as the show next year will be more than double the size of this year's.

The next meeting of the association will be held the first Thursday night in February, when officers for the ensuing year will be elected.

THE SILVER NORTH

Cobalt, Loraine, Larder Lake and Gowganda

Travellers returning from the great mineral fields of the north are more enthusiastic than ever regarding the permanency of the Silver Camp. Traffic was never better and steadily on the increase. One hundred and fifty teams are now employed daily in moving passengers, freight and supplies to the new Gowganda finds from Earlton, Englehart and Charlton. It is only 18 miles from Charlton to Elk Lake where there are 22 mines, and from Elk Lake to Gowganda is 22 miles.

Leaving Toronto 10.15 p.m. daily, on the Grand Trunk "Cobalt Special," Elk Lake can be reached the next afternoon, via Cobalt, Haileybury, New Liskeard and Charlton, and this will continue to be the best way.

The Ontario Government are being strongly urged to push on the extension of their line from Charlton, which will open up this rich territory.

Full information can be obtained by writing J. D. McDonald, District Passenger Agent, G. T. R., oTronto, Ont.

The Formal Opening of the New Armoury

At the rate of progress that is now being made the new armory will be ready for occupation in April. A staff of men is at work on the interior and the work is going ahead very satisfactorily.

Officers of the local regiment are already discussing plans for the opening of the armory which will likely take place early in the summer.

There will be a formal opening ceremony at which the Minister of Militia will in all probability be present at. One or two outside regiments will also visit the city on the occasion of the opening and it will be a red-letter day in the military history of Peterborough. If it is decided to have the ceremony on an elaborate scale the celebration will likely cover two days.

There are three regiments that will visit Peterborough in the near future and one or two of them will likely be here for the opening of the new drill hall.

Thirty Thousand Dollars in Liquor Fines

Toronto, Jan. 12.—The past years fines for infractions of the liquor law amount to $30,000, and not since 1905 have they reached anything like this amount. The official year does not close until the end of April, but for the twelve months ending Dec. 31st the above figures apply.

The $30,000 includes $12,000 which was secured by Provincial Officer Geo. Morrison, and $8,000 secured by Provincial Officer Ayearst, while the one hundred and two local inspectors secured $10,000. This inability on the part of the local inspectors is claimed to be due to their identity being known to all, and no surprises can be made. The silver north

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

DR. PIERCE'S FAVORITE PRESCRIPTION
Makes Weak Women Strong,
Sick Women Well.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that it is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

THE MILK QUESTION

The necessity of action being taken to improve the quality of the milk supplied to the people of large towns and cities is coming to be generally recognised, both on this continent and in Europe. In Great Britain active measures are being taken in that regard, popular sentiment having been aroused by the reports on the impurities existing in much of the milk supplied and the danger to the public health caused thereby. In New York City a Milk Committee, chiefly composed of eminent physicians, has the matter in hand, and after an investigation, extending over three years, has come out with the statement in favor of pasteurization as the method for securing safety from tuberculosis and other milk-borne diseases. The Committee declares that this treatment should be given to all milk which has not been produced under strict sanitary conditions. The Committee has experimented on feeding infants with raw milk and that pasteurized, and has come to the conclusion that it is a crime to feed a baby on milk of the former character. The pasteurization is easily effected, since it only requires that the milk should be raised to seventy degrees centigrade, or one hundred and fifty-eight degrees Fahrenheit in any clean ordinary saucepan. The terrible mortality among infants in the opinion of the Committee is very largely due to the impurity in the milk with which so large a proportion of them are fed.

LASH FOR WIFE BEATERS

Often the law deals only too leniently with wife beaters, says the Kingston Standard. A few months' imprisonment usually is the sentence visited upon these brutes when as a matter of fact they should be given the lash and given it with all possible severity—not once, but several times during their imprisonment, that they may come to realize what a thorough beating actually signifies. If they are brutal enough to beat their wives the law ought to be impartial and severe enough to give them a taste of their own medicine and to drive home to them that for each whipping they administered to the wife the law will visit the offender not with one whipping but with several whippings, and administered with no gentle hand.

AGAINST CHILD LABOR

Announcement is made of the holding of the fifth yearly child labor conference, under the direction of the National Child Labor Committee at Chicago, on January 21, 22 and 23. It is expected that there will be a large and influential gathering, and it is also hoped that on the next day, Sunday, January 24, the subject will be widely discussed in pulpits throughout the country, a request to that effect having been published and that date having been designated as "Child Labor Day". Examination of the tentative programme shews that part in the Chicago conference will be taken by numerous men and women of ample information, of practical purpose and of untiring devotion, and ground is afforded for hope that much substantial good will result from their deliberations. Both the conference and the wider proceedings of the following Sunday are to be cordially commended to the sympathetic interests of the nation.

The evils of child labor, unrestricted or practised on a considerable scale, should be too obvious to need detailed exposition. The physical, intellectual and moral effect upon the race is inevitably disastrous. Horse breeders realize and avoid the evils involved in the premature working of colts. Surely at least as much regard should be had for the young of the human species. The chief if not the sole reason for the working of children is the cheapness of their labor. There could be no greater economic fallacy than to regard it as cheap. In the long run it is the most expensive and wasteful kind of labor, because it impairs or destroys the efficiency of its subjects when they have attained maturity. It is a sacrifice of the far greater efficiency of the future for the far less efficiency of the present—to use a time worn simile, it is a killing of the goose that lays golden eggs. But even if it were truly economical to use child labor, that would be no justification of the practice. Better by far to have the products of our factories cost a little more than to have them at a low price at the cost of the stamina and the happiness of humanity.

It must be recognised that the problem is not an easy one to solve. On the contrary, it is particularly difficult. It seems to belong chiefly to the individual states, as a part of their police and sanitary powers. The ideal plan would doubtless be to secure concerted and uniform action by all the states, but unfortunately this has not yet been found possible, and the variation of industrial and social conditions among the states and the prevalence of commercial rivalries present grave obstacles to the attainment of such an end. National conferences, however, and the widespread discussion of the matter in all parts of the country should conduce toward a general recognition of the need of protecting the children of the nation from being stunted, blighted and debased, and should in time convince the authorities of every state of the fact that no state, for the sake of temporary advantage, can afford to violate the general fundamental principles of social welfare.

THE WHITE PLAGUE

It was Charles Dickens that uttered the truism that consumption is a disease which wealth never wards off and poverty cannot boast exemption from, the force of which is not yet fully realised.

There has been, it is true, an organised warfare carried on by the medical profession, the governments and the public for many years against the scourge in Britain, some of the countries in Europe and the United States, and to some extent in Canada. The death rate in these countries has decreased in proportion to the vigor with which the warfare has been carried on. There is not yet, however, the strong, live, vigorous, persistent public opinion on the question that is necessary to the extermination of the plague. Until that obtains, means initiated to check the ravages of consumption will not be supported as they should be.

Lincoln County and the City of St. Catharines have not been immune from the plague by any means. It was only recently, however, that an organized effort was instituted with a view to effectually treating tubercular patients here. Now, subscriptions are being invited to aid in the establishment of a tuberculosis hospital in this city. The donation of a site by Mr. R. W. Leonard, the arduous work done by the philanthropic ladies who have undertaken the work, and the generosity of a number of our citizens, who have evinced a kindly interest in the enterprise, have given the project a splendid impetus. It is hoped that the amount needed will be fully subscribed in the near future and that this much needed institution will soon be in operation.

Much should be done, as well, to prevent the disease from gaining a foothold where it has not yet penetrated. To this end an energetic educational campaign should be carried on, so that the general public may understand the infective nature of disease, that it is largely preventable by the destruction of the sputum in which the contagion lies, and that in a large percentage of cases the disease in its early stages is curable by the use of good food, sufficient rest and fresh air.

Those who have been immune from the disease owe a distinct duty to their less fortunate fellow citizens to do all in their power to assist in the warfare against consumption. One excellent way in which all can show a live, practical interest is by contributing to the fund now being raised to establish a tuberculosis hospital in St. Catharines.

ADVERTISE IN THE TIMES.

A NEW CONSPIRACY ON OUR LANGUAGE

In view of the local effort to improve the English language by cutting out some of the silent letters in a long list of words, it is worth noting that in the United States a number of patriotic fanatics are trying to rechristen the language. They want it called the American language, instead of the English language. The agitation reminds Prof. Brander Matthews of a humorous incident that occurred while the Revolutionary War was in progress. One staunch Yankee moved that the revolting colonies should renounce the English speech of the British oppressors, and learn a new tongue for themselves. There might be objections, he admitted, to the adoption of the language of any other country, but he thought that free born Americans were capable of inventing a new language of their own. Then Roger Sherman, of Connecticut, arose to move in amendment that the American colonies should retain the English language, and force the hated Englsh to learn another.

THE AMERICAN LANGUAGE.

The bitterness of a hundred and thirty years ago is some excuse for the preposterous motion of the anonymous American patriot; but it is difficult to consider with patience the activity of the American Language League. It is issuing circulars to the American people, urging them to "unite in calling the mother tongue by the name of the children who speak it." It is not intended to seriously change the language, although the incorporation of the host of "Americanisms" in colloquial use is no doubt contemplated when the next patriotic American dictionary is issued. We have often come across such a phrase as "Talk plain United States", but it has been uttered with humorous intention. There is nothing but earnestness, even solemnity, in the propaganda of the American Language League.

A DUTY FOR AMERICANS.

The circular, as quoted in Munsey's Magazine, by Prof. Matthews, appeals in the following words:—

"Does not America's preponderance carry with it the privilege and the duty of renvming its own language and calling it the American language? The language itself has done no more for Americans than French or German would have done, were either of those our national language; on the other hand, the Americans have done for the language this—they have practically made it the international language. Neither the language nor any name is necessary for our glory, but our nation-name, and exclusively ours, has become necessary for the language if it is to be designated by the full defining term, the term which recognises the teachings of the past and the sweep of present events.

"How much longer must the relative population, wealth and power of the United States and Canada increase before it dawns upon us that the American language is the logically definite, the closely appropriate, the historically inevitable designation?—and that to call the giant language by a nomenclatural inadequacy is like cleaning the shoulders of a Hercules with the garments of a dwarf?"

CANADA LUDGED IN.

You will notice that Canada is dragged into it, although Mexico is excluded. Mexico has as good right to be considered American as has the United States. As a matter of fact, the Mexicans were here before the Americans or Canadians. The matter is also placed before us on the plane of duty. No doubt the appeal will have its effect, and we may expect to see a bill introduced in Congress embodying the change. It may be followed by another bill, moving to change the name "Christianity" to "Americanity", or for some other insanity, for the same reasons advanced against the use of the word English. Congress suppressed the President's effort to have the words, "In God We Trust" struck off the coinage of the United States; and there is hope that it will kill off these similar bills when they make their inevitable appearance.

THE TWO LITERATURES.

Prof. Matthews thinks that the differences between British and American usage of speech are superficial and insignificant. He suggests that his countrymen continue to use the English language, and to speak of it as such; but he recommends that we recognize the term "American literature" as a distinct sub-division of English literature. As a matter of fact, this suggestion has been followed for many years past. We speak of English novels, and American novels, English and American writers, and often in hushed tones, of Canadian literature. We also gravely debate the question;—Resolved that we have a Canadian literature. The noted American critic concludes as follows:—

"English literature as a whole has now, in the beginning of the twentieth century, two main sub-divisions—British literature and American literature. They are both written in the English language, in the use of which they vary very little. In the nineteenth century British literature was adorned by many more glorious names than American literature, important as this is to us Americans. In the twenty-first century probably the balance will incline the other way. The language of this literature is the English language, but it is not exclusively the 'King's English' any longer. As Mark Twain is reported to have said once, the language has been taken over by a company, and we Americans hold a majority of the stock."

NEXT CENTURY.

If the professor's prophecy turns out to be correct, and the twenty-first century is adorned by many more glorious names in American than in English literature, there will be no effort on the part of the owners of those glorious names to distinguish themselves from the great English masters of the past. Their proudest boast will be that they are producing English literature; and in that day they may deserve to have the term "American literature" abolished and forgotten.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.,
Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

$350,000 from "Our Own Road"

Toronto, Jan. 13.—Estimates made one year ago of the surplus of the Temiskaming Railway for the year 1908 have been greatly exceeded, and a cheque for $350,000 just forwarded to the Government amounts exactly to the excess. This brings the total paid over to the Province to $300,000, and represents the difference between receipts and operating expenses. The amount last year was $235,000, so that the increase is nearly fifty per cent., $115,000. There were forty miles of track completed during 1908.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

THE TIMES' FINANCIAL PAGE---OF INTEREST TO THE CANADIAN INVESTOR

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash value in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the nine billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 170 feet depth, extending laterally and down indefinately. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information of what you have to exchange.

THE TIMES goes into many outside towns and villages and your advertisement will be seen by girls coming to the city.

What Christ would Do in Cleveland?

Cleveland, Jan. 11.—The movement began last Sunday by Cleveland young people to live for two weeks as Christ would has assumed a scope far beyond the expectations of its promoters. Fully ten thousand volunteers have unofficially joined the movement by attempting the test and pledging themselves to walk in His steps. Even city officials are taking an interest, and are ruminating on what Jesus would do if He were a city official.

Many interesting experiences have been related by those who have completed the first week's test. Some say they cannot carry the practice into business, others say they can. The test has also brought out a host of critics, some praising, others condemning the idea. Church members are encouraging the trial and pleading for its continuance. The scoffers sarcastically say that the effort implies past hypocrisy.

Discussions are rife in homes, in the churches, in clubs, and in newspapers as to what Jesus would do under all manner of circumstances, and what His attitude would be toward the common forms of amusement and human endeavor. Most of the arguments centre about the theatre, card playing, dancing and baseball, with supporters on either side.

Longboat Saw the Shrubb Race

New York, Jan. 11.—Can Tom Longboat defeat Alfred Shrubb at the Marathon distance? Sporting men are anxiously waiting to have this question answered when these great long-distance runners meet in Madison Square Garden on January 26. They have been matched to travel 26 miles and 385 yards, and speculation is rife as to the result. Shrubb's wonderful running in the twelve-mile relay race in the Garden Saturday night convinced the experts that when Longboat tackles him records will be smashed in wholesale style.

Shrubb was so fresh after running 12 miles Saturday night that he looked as if he could have gone the Marathon distance without extending himself. He ran the last lap like a 100-yard sprinter, and his great speed caused old-timers to open their eyes.

Longboat watched the Englishman's performance with particular interest. He never had seen Shrubb at his best before, and remarked after the race that he had no idea the Briton was "so good". The Indian, however, expressed perfect confidence in his ability to defeat Shrubb, explaining that he did not believe he could stick the 26 miles. It is believed that the Longboat-Shrubb race will be one of the heaviest betting events that has taken place in years.

Complete Drainage System for Whole of the Province

Windsor, Ont., Jan. 11.—An important project for provincial drainage is under consideration by Hon. Dr. Reaume, Minister of Public Works, under which it is proposed to utilize the rivers and waterways of the whole province. The project will probably be crystalized into legislation at the forthcoming session, but its working out will take at least five years.

Under existing conditions the Government has been confronted not infrequently with the question of granting drainage aid to one portion of the country at the expense of another. One district secures satisfactory outlet into a river, only to cause overflow and flooding further down the stream.

The Minister's plan contemplates a Government survey of all Ontario rivers and waterways and a report thereon. Upon the report as to the carrying capacity of the streams, the question of drainage will be tackled from a provincial and not a local standpoint, and the land drainage gauged to the capacity of the outlets.

Large Crowd Witnessed the Degrading Spectacle

Bethune, Pas de Calais, France, Jan. 11.—The first inflictions of capital punishment in France for a number of years past were witnessed in this town today, when four murderers were decapitated by the guillotine. The executions were public and took place in the presence of a large crowd.

The record of crime against the four men was a long one. Working together, they formed a band which had terrorized Northern France and Southern Belgium for several years, robbing, assaulting, and murdering at will.

As the condemned men were led out of prison cries of vengeance arose from the assembled crowd, and as the knife fell four times in rapid succession the people present did not hesitate to evidence their satisfaction.

EIGHTEEN MORE TO DIE.

The French Parliament recently passed a resolution in favor of the retention of the death penalty in France, and the cabinet a fortnight ago decided to carry out Parliament's ruling. The law permitting the infliction of capital punishment had been practically a dead letter, for it has been the custom of the president of the Republic to commute all death sentences to life imprisonment.

There remain today eighteen persons in France under sentence of death and the guillotine will be used for these executions.

IMPATIENT FOR DROP.

The executions were carried out rather quickly, yet the multitude from the twine and surrounding country, which gathered early last night, was most impatient, and upon the appearance of the condemned began yelling for instant death. The effect upon the crowd was the most horrible feature of the executions.

As one of the condemned men marched defiantly towards the steps of the platform, cries of rage broke from the crowd, which endeavored to break through the lines of soldiers closely formed around the guillotine. The man brutally repulsed a priest who sought to console him.

ATHIRST FOR BLOOD.

Shouts of joy burst from the crowd as the knife dropped. The troops immediately after the executions dispersed the crowd, and ended what was regarded by foreign observers as a degrading spectacle and as suggesting terrible scenes of mobs athirst for blood during the revolution.

Are Putting Up Wooden Shacks for the Homeless

Messina, Jan. 11.—Wooden shacks are being erected in the parks and piazza to accommodate 5,000 homeless Messinians and to shelter the soldiers on duty. The north end of the town was not damaged so much as other sections, and many of the low buildings there are intact.

The electric light plant has been patched up and was put in operation last night, affording facilities for continuing work on the ruins without interruption. But the authorities are all at sea, without system or efficient direction. Thousands of soldiers are engaged only in patrolling dangerous streets and guarding property instead of helping only in the work of rescue.

Food is plentiful here now. The weather is beautiful. The torrential rains have ceased and life for the thousands who have to sleep in the open air or under scant shelter is not a hardship for the days are warm and the nights are balmy.

Hundreds of donkey carts are employed in removing merchandise from half-ruined stores and warehouses in the Via Garibaldi Marina. Survivors owning property or awaiting the removal of bodies of relatives from ruins refuse to leave Messina, but hang around helpless and distracted from day to day. Soldiers guard the streets where there is danger from falling walls, and at each end can be seen groups of men and women silently gazing past the military cordon at the ruins of what was once their homes.

Revising the Statutes Night After Night

London, Jan. 13.—The lights burn late these nights in the offices of the law clerk of the legislature.

Three nights at least a week the judges sit there, and among the most devoted at the task is Chief Justice Sir William Meredith. In peace he now enters the halls and turns leftwards, where of old he proceeded up the broad stairway into the chamber to meet his doughty and crafty antagonist, the late Sir Oliver Mowat. To the left now, he goes, far along to the western end, then down a long narrow passage, opposite where the white-haired clerk of the House sits alone.

For three years, six judges have met, night after night, to prune, simplify, revise and consolidate the Statutes of Ontario, passed since the year 1897.

Of late they have been concerned chiefly with the laws of education, and the Legislature of 1909 will pass upon their work. Before the session is over seven sets of laws, covering the jurisdiction of the Ontario Department of Education, will have been amended and consolidated and submitted.

These are: High Schools Act, Public Schools Act, Boards of Education Act, Truancy Act, Public Libraries Act, Separate Schools Act, and the Department of Education Act.

When three Acts in compact form come before the members they will represent hundreds of suggestions, a few embodied in their clauses, the most examined and rejected. They will contain some changes in the laws that will be new, but none, it is understood, that will approach in their drastic character the amendments which the Government has introduced from time to time during the last four sessions. In their new form the Statutes will be a great boon to school boards and teachers all over the Province, who have become bewildered in the flood of amendments that the past eleven years have produced.

The commission of judges consists of Mr. Justice Osler, chairman; Chief Justice Meredith, Judge Teetzel, Judge Anglin, Judge Garrow and Judge Snider. The commission has been assisted in the laborious work of arrangement and revision by Mr. R. S. Neville.

Weak Kidneys

Weak Kidneys, surely point to weak kidney nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a new "nerve specifically prepared to reach these nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds—is dark and strong, if you have symptoms of kidney or other troubles, or if you need kidney help, try Dr. Shoop's Restorative—nerve tablets or kidney—and see what it can and will do for you. Druggist recommend and sell

Dr. Shoop's Restorative

"ALL DEALERS"

New York Woman Suffering from Leprosy

Aiken, S. C., Jan. 13.—Mrs. Mary V Kirke, sixty years old, a former missionary to South America and for fourteen years a resident of this city, is isolated in a house here, suffering from leprosy. For three years Mrs. Kirke has been blind. For a long time she has lived alone with a woman companion, who now faithfully remains in the guarded house in the capacity of a nurse.

Neighbors recently made enquiries, which resulted a few days ago in a report of the matter to the State Board of Health. The Aiken authorities placed armed guards around the house. Nothing is known here of Mrs. Kirke's family or where she formerly lived, except her announcement that she came from New York.

....The.... Plow Woman

(Continued.)

stood the shack. Three smaller forts were near it—Simon and the mule team. South, on the opposite bank, were the low, whitewashed buildings of Fort Branson. He bared his dust powdered head in thanksgiving.

The cayuse was warm and dripping. He rode to Shanty Town, loosened the cinch and led the animal up and down before the deserted huts. When it stopped blowing and reached for grass he picketed it on a lariat north of the Trooper's Delight. Then he descended to the building. The light was growing. Already he had been seen from the post. On his hallooing a small boat shoved off toward him, dancing its way against the current. Old Michael was not in it, only his citizen helpers. Fearing their tittle-tattle, Lounsbury curbed his impatience to ask about the shack. Landed, he made for the "back" quarters on the line.

Fraser was not up. To his "Come in" Lounsbury entered. They shook hands without a word, and the storekeeper sat down on the edge of the bed.

After awhile the lieutenant reached out to put a hand on the other's knee.

"Lounsbury," he said, "I feel like a criminal, but I never dreamed anything would go wrong if I kept track of Matthews."

"Why, we both thought that, Fraser. You're not to blame any more than I am."

"Oh, if I'd only"—

"But we can't spend any time kicking ourselves. After this there mustn't be a loophole. Besides watching Matthews, we must"—

"Matthews isn't here."—

"What?"

"Kicked out. We don't know where he is." Rapidly Fraser related the story of Simon's gallantry.

There was another piece of news of lesser importance. An Indian girl named Brown Mink was seriously ill. Her wigwam had been moved to the western curve of the stockade, where the ground was clear, and been changed from tepee shape to the form of a walled wickiup. Mrs. Cummings, touched with pity, had sent her a comfortable bed, while Captain Oliver, touched no less and pleased by the good humor of his prisoners, had ordered that during the daily search of the inclosure the tent of the sick girl be left entirely undisturbed.

The young officer omitted to tell of his share in the interpreter's departure and was distracted over an accident that had befallen him. On visiting his wild pets the previous evening he had found that a box containing reptiles had been broken open somehow and that all his rattlesnakes were gone!

With the first call for the trumpeters Lounsbury routed the sutler in a quest for breakfast. Then once more he sought the river. There was no waiting for men to row him. He found the small boat, headed for the beach below Shanty Town, mounted the cayuse and climbed the steep road to the prairie. Before him on a green stretch between river and shack he saw Dallas.

She was cutting grass in that same swale across which a month before had been tracked the deep planted, labored footprints. As she mowed she moved forward slowly, the bent swathe describing a regular half circle, the long, curved blade clearing a fragrant path. Her hat was off and lay at a distance behind her, where it floated boatlike on some blue stem tops. Still farther behind was Simon, cropping industriously and keeping a furtive watch upon his mistress out of the corner of one fiery brown eye.

Lounsbury spurred his horse to a run. She saw him coming, but, not knowing him, kept her scythe on the swing. When he had covered the greater part of the way, however, she stopped work, retreated to her hat and put it on. Then from beside it she picked up the Sharpe.

He saw that, and his jaw squared. The blood darkened his face, too, as if the sight shamed him. He spurred faster, reined so sharply that the horse slid upon its fetlocks and swung off.

"Dallas!" he cried. It was not a greeting, but a plea.

The moment was one long dreamed of, yearned for. A woman less genuine might have met it without a show of feeling. She, outspoken and simple, could not. Her eyes swam. Dropping the gun, she clasped his hand greedily.

"I knew you'd get back quick as you could," she said, choking.

For a long moment they stood thus, hand in hand, looking at each other. She saw that he was changed. The glint of merriment was gone from his eyes. His forehead bore new lines. His mouth had lost its boyishness. With her the past four weeks had also left their mark. The old look of high purpose was on her face. But she was older and graver and wore the new expression that Oliver had seen.

She spoke first. "Your mother?" she faltered inquiringly and withdrew a step.

"My mother—is gone," he said slowly; then, after a pause: "I came right after that; didn't stop to settle things. I can go back to the states later. But if I'd been here sooner—it mightn't 's' happened"—

She checked him gently. "Now, you got enough to worry you without us. We wouldn't go to the fort or Bismarck, and that was the whole trouble." To excuse her father and to take the blame herself, she told him of the refusal of David Bond's money and of Mrs. Cummings' slight.

"You see," she explained earnestly, by way of putting the best possible color to the latter episode—"you see, they think over there that we're trash. So they're bound to let us alone. It ain't that they haven't good manners"—

It was Lounsbury's turn to interrupt. He was tramping about. "Manners!" he said violently. "Manners! What's manners to do with it? There's a lot that's good manners—and cursed bad heart!"

She took up the scythe, brought a whetstone from the depths of a pocket and ran it down the blade thoughtfully.

"OXOL"

The word "Oxol" does not mean one food, or one preparation only; "Oxol" is a name given to all goods for horses, cattle, swine and sheep prepared by Messrs. S. K. & T. C. Windsor of Australia, New Zealand, England and Canada.

The veterinary preparations as well as the compressed bales of fodder placed on the market of the world under the name of

"OXOL" FOR CATTLE

are all of the greatest possible order of merit and may be used by farmers, graziers, dairymen, and all owners of stock with the full assurance that these goods have the power in a very short time to double their incomes by feeding, fattening and curing all animals, which to them mean money.

One agent only in each district who has sole contract of the local trade for agents name, see future advertisements, etc.

Cosgrave's Beer

Wordsof praise have ever prevailed in advertising "copy." That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

Says This Medicin Has Mystic Powers

It's in the spring that healthgives out—that folks begin to feel draggy, weary, restless,—hate, to eat, look pale, feel discouraged

If you've reached this state read what J. W. Jervell, well known in Morristown, has to say about the medicine that cured him. "Last winter I caught a heavy cold that settled in my back. My kidneys and liver were affected and my health failed. By spring I was in bad shape —couldn't sleep like I used to —felt tired in the morning—ate very little—was terribly depressed, pale and anxious looking. Twinges of rheumatism, frequent neuralgia attacks over the temples, made matters worse. The doctor prescribed three times, but didn't help. Then I heard of Dr. Hamilton's Pills.— They possess mystic powers surely, for I gained and improved day by day and now am in perfect health again. I will praise and use Dr. Hamilton's Pills till I die."

The ingredients in Dr. Hamilton's Pills are pure and wholesome—come right from the storehouse of Nature in the form of vegetable juices and extracts,—consequently this gentle invigorating laxative tonic and blood purifier is safe for old and young alike. We assure you of enormous benefit from Dr. Hamilton's Pills, which revitalize delicate glands, search out the seat of hidden disease, flood the body with vigor and health that has caused thousands of broken-down, despairing men and women to join in a mighty song of praise for the beneficient aid that comes from this king of all tonics. Get Dr. Hamilton's Pills to-day. 25c at all dealers.

Light Snow Fall

The light fall of snow on Monday night was just what was wanted to build up the sleighing again. About a foot or two feet of snow however would do very little harm.

Romaine Street Sewer

In the course of a few days the Board of Works will meet for the purpose of considering the Romaine street sewer which is to be rebuilt at once and a much larger pipe laid. It is expected that the work will be got under way in a short time.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours —and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventics—25 cents. Ask your druggist. He knows! Sold by all dealers.

None Better

We have a very large and varied stock of the latest in souvenir cards, also our lines at ten and twenty-five cents per dozen. Times Bookstore.

Chief's Report

The Fire, Water & Light Committee, after the council meeting on Monday night, paid a visit to the fire hall. They had a look over the premises and will hold a meeting in the near future. Chief Howard has prepared a semi-annual report and it will be presented to the meeting.

Iron Mines

A letter received by The Times from Mr. W. J. Kearne, Toronto, Peterborough's well known mining expert, states that he has secured another very large iron property near North Bay. He states that there is a million tons of iron in sight on this property, and he is making arrangements to put it on the market.

Personal

Mr. F. R. Gorman of St. Paul, Minn., is in the city.

Mrs. W. A. Maitland and Miss Ethel of Toronto are the guests of friends in the city.

Mr. R. M. Waldie of Strathcona, Alberta, is in the city on a business visit.

Mr. John Young of Toronto, is visiting Mr. John Foster, 250 Charlotte street.

Mrs. W. E. Wright of Winnipeg, is visiting her sister, Mrs. W. E. Wasson, Roswell avenue.

Mrs. (Dr.) King and Miss King will receive on Thursday and afterwards on the second Thursday of the month.

M. Pappas leaves tonight for Chicago and other American cities, to look up more new features for his Royal Theater.

Miss Lois Ostrom of Toronto, is visiting Miss Ruby Clegg, Stewart street, for a few days.

Mrs. Donald Potter will receive on Thursday of this week and afterward on the second Wednesday and Thursdays of the months.

Mr. and Mrs. Jas. Stubbs have been called to Toronto on account of the serious illness of their son, W. J. Stubbs of the Bell Telephone Company of that city.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—50c. Sold by all dealers.

Mrs. John Hart, Bethune street, who was knocked down by a horse who became frightened at the Army Band, Sunday morning, found it necessary to call in a physician yesterday, who found she has two fractured ribs besides being much affected from shock.

Mr. and Mrs. Jas. G. Humphrey of Griswold, Man., are visiting Mr. William Yelland, McDonel street. It is six years since Mr. Humphrey was in Peterborough. He is now engaged extensively in a general business mostly in the hardware line. They will remain in the east about three weeks.

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs, quickly yield to the healing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Contains no opium, chloroform, or other harmful drugs. mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge! Sold by all dealers.

A marvellous trial reading of character by the well-known scientific phrenologist, Prof McKellar, L. V., 21 Beaconsfield avenue, Toronto, whose public blindfold tests prove the reliability of phrenology. Send address and 10 cents silver. Enclose photo when possible. Will return with reading

Obituary

MR. JOHN MENZIES

An old and well respected citizen passed away Monday in the person of Mr. John Menzies, oldest son of the late James Menzies, in the 69th year of his age. Death came peacefully at the family residence, 228 Stewart street, while surrounded by his faithful wife and a number of relatives and friends. The illness was of short duration, the deceased having been stricken down by the rupture of a blood vessel, which rendered him unconscious and closed his early life at noon Monday. The late Mr. Menzies was born in Perthshire, Scotland, November, 1840, and came to Quebec with his parents in 1851, afterwards removing to Peterborough in 1853, where he has resided ever since. He was married to Sarah Bradfield, daughter of the late William Bradfield of Douro, in 1875. One child was born to this issue, which died in infancy. Deceased was of a quiet, genial nature, an affectionate husband, and an exemplary member of St. John's church. Sincere sympathy will go out to his sorrowing wife, who has been so suddenly bereft of her faithful companion in life, and to his four brothers and three sisters, William, Donald, Jennie and Kate, of this city; Robert J., of Lindsay; James, of Montreal; and Mrs. Walter Paterson of Milwaukee.

Funeral will take place from the family residence, 228 Stewart street, this afternoon at two o'clock.

WM. BADGE.

The death occurred at the Protestant Home yesterday morning of one of the inmates in the person of Wm. Badge. He was a very old man having reached the age of ninety-one years. He had been an inmate of the home for the past six years. He had no friends here, having come to Peterborough from England. No arrangements have been made for the funeral.

FEBBO—THOMPSON.

A quiet wedding was solemnized at St. Peter's Cathedral yesterday morning at eight o'clock when Miss Rose Thompson of Peterborough, was united in marriage to Nicholas Febbo, also of this city. The ceremony was performed by Rev. W. J. McColl. The The bridesmaid was Miss L. Cupoli, and the groom was ably supported by Mr. N. Jory. Mr. and Mrs. Febbo will reside at 496 Parnell street.

"There's a Reason"

WORRIED TO DEATH

INDIGESTION, LOSS OF SLEEP HEART PALPITATION.

A Case that Proves Prompt Action is Wise when Health is Poor.

"At night I would wake up with vague feelings of fear and numbness in my hands and other parts of the body," writes Mr. E. X. Smutton, of St. John's. "I had grown thin and pale, and at night it was very difficult to get enough warmth in my feet to get asleep. My digestion was poor, and appetite very uncertain. The form of nervousness that worried me most was starting at every little thing, which resulted in such violent heart action as sometimes frightened me. Finally I had to give up my work, which was inside office work, so languid, nervous and weak had I become. Through the intervention of a friend I was induced to use Ferrozone. My appetite improved at once, circulation also improved and Ferrozone accomplished the renewal of my blood and natural warmth seemed to come back to my limbs. At the same time Ferrozone built up my constitution. I became quite strong and resumed my occupation. In Brief, I am well."

Ferrozone is the only remedy of its kind in the world—it makes you feel better at once; when you are tired, dull, dispirited—when you feel there is nothing in life for you, that's the time to take Ferrozone.

What a change Ferrozone makes! Your blood sings through your veins, carrying nourishment to every nook and corner of the body, you feel the exultant thrill of abundant nerve force, you learn the luxury and delight of being at your best—in perfect good health.

Just try Ferrozone and see how much better you feel; it's the one remedy in all the world that will get you bracing health at once. Sold everywhere, 50c. per box or six boxes for $2.50, at all dealers.

A Presentation and an Address

On Monday afternoon, Principal McKone of the Peterborough Business College, was tendered a most pleasant surprise which will be one of the bright spots in his career as a dispenser of knowledge in this city. Just as he was about to call his class to attention for dismissal the teachers and students of the college took the opportunity to present him with a handsome clock and a bouquet of beautiful roses. The following address was read at the same time as the presentation:

Dear Mr. ~~Mc~~ Kone—

We the students of the P. B. C. gladly avail ourselves of the opportunity presented by your recent marriage to show in some slight degree our appreciation of your many kindnesses and untiring efforts during the year that you have been with us to promote in every way our best interests.

We extend to you our heartiest congratulations, and, as a token of our esteem, would ask you to accept this clock hoping that it may tick for you and Mrs. Mc. Kone, during many years of life together, only hours of happiness and prosperity.

We also would ask Mrs. Mc. Kone to receive these roses, assuring her that with them are given a hearty welcome to her new home in the city of Peterborough.

Signed on behalf of the college,

F. O'CONNOR.
E. HALL.
G. LONG.

January 11, 1909

Although take completely by surprise, Mr. McKone responded in a few hearty words thanking the teachers and students for their remembrance and thoughtfulness and for their expression of good wishes. In closing he said, "I am not much of a speaker, I will leave that to Mrs. McKone.

Mrs. McKone then extended her sincere thanks and appreciation of the kindness and consideration of the teachers and students. She expressed the wish that they would all become better acquainted, and she extended an invitation to all to visit her and Mr. McKone at their home.

Every facility and all information asked for has been willingly afforded me by the secretary, Mr. Hazard.

Auditor.

Peterborough, 12th January 1909.

MILLIONSOFDOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Wasted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW wha it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world. Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Oursmelter thus erected will save 85% in treatment, freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when here you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Wedding Guests Left on the Road Side While Horses Went on a Jaunt

What effect upon the future bliss of a newly married couple has a runaway accident? The private library of this q.f.j. has been thoroughly searched but no reference to such a calamity can be found and there is nothing in the patent medicine almanacs either. The only answer that appears to be at all satisfactory was that made by one of the wedding guests in the accident, who said; "It's d— inconvenient."

Yesterday afternoon there was a wedding up Water street north, and one hack containing four of the guests was on its way to the marriage feast when the street railway company's sweeper appeared on the scene. Thinking the sweeper was a new automobile or some other scab machine which was endeavoring to knock the livery horse union, the animals objected very strenuously to its presence. To show their displeasure they turned their hind quarters out which slipped the traces off the whiffle trees, and then they made a wild dash and got away. The hack was left standing in the roadway, neither coming or going, while the big grey team was taking down Water street at a two-minute clip. They crossed over Smith street and went out Benson street until they struck a side road where they turned again and proceeded on their way rejoicing. Seeing a field of fall wheat they jumped the fence and amused themselves plowing up the ground. When the horses were going along Smith street, they were noticed by Mr. E. F. Mason, who was at his north store. He jumped into his delivery sleigh with his driver and started after the runaway and finally found them in the field where he got them in a corner and returned them to the city where the driver took charge. In the meantime the guests for the wedding were sitting in the hack wondering why they were not making more rapid progress. Finally one of the men got out and telephoned for another hack.

The only damage done by the runaway was one tug broken, and four people very much annoyed.

Annual Meeting Y.M.C.A. Reports were Presented, Deficit was Only $30

The annual meeting of the Y.M.C.A., was held in the parlors of the association last night, when President J. C. Hook occupied the chair. In opening he referred briefly to the work that had been accomplished during the year. General Secretary Hassard also made a verbal report.

The reports of the various departments were as follows;—

MEMBERSHIP COMMITTEE.

On Jan. 1, 1908 there were 151 full priveleged members, 236 limited privelege and 105 boys, making a total of 415 members.

All these members were not taking part in the activities of the association and were consequently struck off the membership list and placed on the subscribers' list. Therefore the report for this year of active members is a record one.

Full privileged members, December 31st, 1908—183
Limited privileged—80
Boys—135.
Total—398 active members.

This shows a decrease of 17, although many more are taking advantage of the privileges.

PHYSICAL DEPARTMENT.

Considerable progress was reported by the Physical Committee, under the efficient leadership of Mr. Collings. Great interest had been developed in athletics. There was one team in the O.R.F.U., one in the city Rugby league, but were handicapped for want of a practice field; a basketball league of five teams played for the Cressman trophy, which was won by the Brownies; a gymnasium corps was organized as was also a track and field club; a boxing and wrestling class was formed. The work along all the lines has been very favorable.

BOYS' DEPARTMENT.

The interest in the Boys' Department is showing a general increase. The Y.M.C.A. Chieftain Baseball team won the championship last summer. Five Bible classes have an enrollment of 56. Two are taught by older boys. The boys' rooms were moved from the basement to the second floor which is a great improvement. The visit of Mr. F. B. T. Ritchie, Canadian Boys' secretary, was very successful and the older boys' conference on November 7, 8 and 9, when 152 boys from all parts of Ontario attended, did much to stimulate the work of the department. The visit of Mr. R. A. Waite of New York, on November 28, 29 and 30th, increased the activity in the religious work in the department. The boys have their own debating club and harrier club for the promotion of literary attainments and athletics. Besides mock court trials in the Conservatory of Music Hall in September, the boys have had three socials.

EDUCATIONAL COMMITTEE.

The Educational Committee in its report referred to the several improvements that have been made. In the reading room there are 6 daily and 6 weekly papers and 16 monthly magazines or a total of 29 periodicals. Classes in junior matriculation were held on three nights a week.

PROPERTY COMMITTEE.

The Property Committee reports showed in addition to many incidental repairs there was installed one pair of bowling alleys complete, provided for by the members of the association. A jacket boiler was installed which will prove an economy in heating bath water in the summer. Repairs were made to the boiler, the first since it was installed 12 years ago.

SOCIAL COMMITTEE.

The Social Committee's report referred to the various social functions during the year, including the New Year's reception at which the Ladies' Auxiliary assisted, and the formation of a social service club.

RELIGIOUS WORK.

The Religious Work Committee reported that during the winter and spring, men's meetings were held Sunday afternoons at 4.15, but in the fall it was decided to hold open house meetings once a month if suitable speakers could be secured. Only one has been held so far. The Bible class on Sunday afternoon has taken the place of the mass meeting. Practice on the part of the religious committee is to get in touch with the pastors of the churches all those who in any of the meetings express a desire to lead a christian life, and they have thus been brought into contact with the churches. The universal week of prayer for young men was observed by the association from November 7th to 15th, in connection with this work the members are helping to support a representative in India, and towards his support 48 of the members have, with a $5 contribution from the Ladies' Auxiliary, contributed $100, the largest figure raised for several years.

FINANCE COMMITTEE.

The Finance Committee made the following statement of receipts and expenditures;—

RECEIPTS.

Subscriptions	$ 279 00
Membership, full	994 50
Limited	399 00
Boys	410 00
Lockers	82 50
Dormitories	609 65
Less expense	65 80
	543 85
Hall rentals	61 00
Bowling alleys	208 10
Less expense	126 86
	81 24
	5451 69

EXPENDITURE.

Bowling alley installation	635 24

(Continued on page four.)

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

Peterborough Won From Whitby Juniors

Peterborough 9, Whitby 6, was the final score in the Junior O.H.A. game at Brock street rink last night. The attendance was only fair, but the hockey was classy. The first 20 minutes of the game was very fast and as Whitby had the better team combination they outplayed the locals. Whitby scored the first two goals in short time and it looked like a walk over for them. But the Peterborough juveniles settled down and got in some good work, with the result that the half-time score was 2—2. The visitors could not stand the pace and fell away miserably, while the locals strengthened and dug in for all that was in them. In the second half Peterborough had much the best of the game and put seven notches in the post while Whitby only added four goals to their string.

Leivingston, of Toronto, was the referee and while he was very strict in some respects he was generally satisfactory. The line-up of the teams were as follows;—

Peterborough.		Whitby.
	Goal.	
L. Giroux.		H. Smith
	Point.	
Wade		Laver
	Cover.	
Pentland		Waugh
	Rover.	
Rae		Jones
	Center.	
C. Giroux		J. Smith
	Right.	
Shortt		Wilson
	Left.	
Billier		Blanchard

Referee—Livingston, of Toronto.

How's This

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.,
Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

THIRTY-EIGHT RINKS PLAYED IN PETERBOROUGH'S BONSPIEL

The First Round of the Primary Completed Last Night—An Extra End Played in the Reid-McFadden Game.

Several Close and Exciting Contests—Today's Program will Furnish Some Interesting Sport.

Peterborough's bonspiel was opened yesterday afternoon at two o'clock with the primary contests. The second game was started at five o'clock, and the third game at eight o'clock. It was the greatest afternoon and evening of sport the curlers of this city have had for a long time. The many visiting rinks were all strong and every man was out to capture one of the prizes. There was the keenest kind of curling and the participants became very enthusiastic while the big crowd of appreciative spectators applauded good plays.

In the second game which started at five o'clock the Bobcaygeon rink skipped by W. J. Reid and the Lindsay rink skipped by G. McFadden put up a stubborn fight which attracted all the attention. At the end of 13th end Reid was three shots up and only one end to play. McFadden steadied his men down and by carefully placing his stones he scored three shots, making it a tie. It was therefore necessary to play another end which was very close until the last stone was played by Reid, which resulted in his rink lying two shots. The game with 15 ends result d:—Reid 11, and McFadden 9. It was a close contest all through.

There was also close games between Rev. J. Wallace's rink of Lindsay, and J. R. McIntyre's rink of Keene, which resulted in a score of 13 to 12 in favor of the reverend gentlemen.

Two Peterborough rinks also went after each other with Messrs. G. H. Giroux and J. H. Connal fought a hard battle, which at the end of the 14th end was only one shot in favor of Mr. Connal.

EVENING GAMES.

A very exciting game and one which required an extra end to decide was that of Dr. Greer, city, vs Mr. Toogood of Orillia. At the end of the 14th end the rinks were a tie, 8 all. The 15th end was a case of Dr. Greer's men placing a stone and Mr. Toogood's men knocking them out. It was curling to the broom every time and Mr. Toogood was true to his name and won by a single shot.

Another hard fought game was that of Mr. Ham of Napanee, vs. W. Geo. Morrow. The latter led until

(Continued on Page 4.)

At Cost

Hand sleighs at cost rather than keep any sleighs over. See our big boys' coasting sleighs at 19 and 60 cents; girls' sleigh at 40c and the "fast mail" with railing all around for only $1. Times Bookstore, nearly opposite post office.

This Morning's Draw

The following skips will have their rinks on the ice ready to start at nine o'clock the first round in the consolation;—

Ice 2—O'Connor v. McIntyre.
Ice 3—Davis v. Campbell.
Ice 4—Giroux v. McFadden.
Ice 6—Wilson v. Matthews.
Ice 6—Ferguson v. Brown.
Ice 7—Neill v. Rev. Pearson.

Today's Program

9 a.m.—First round in consolation.
1 p.m.—Second round of primary and part of the second round for the consolation.
5 p.m.—Balance of second round for consolation.
8 p.m.—The semi-finals in the primary.
On Thursday the Primary finals and the consolation will be played.

Fitzgerald-Bottum Shield for Annual Competition

Additional interest has been created in curling circles here by the presentation of a very handsome shield for annual competition between Bobcaygeon and Peterborough clubs. The shield was donated by Mr. A. E. Bottum of Bobcaygeon, and Mr. J. E. A. Fitzgerald of Peterborough, and will be known as the Fitzgerald—Bottum shield. The trophy is a very handsome one of quartered oak with silver mountings. Around the top is a metal drape, in the center of which are the words Peterborough and Bobcaygeon. Immediately below this is figure of a curler ready to put his stone. The center of the shield is mounted with silver with the words For Annual competition. Presented by Fitzgerald and Bottum. Under this are two brooms and a pair of stones, mounted. It is a very handsome trophy and will weigh about 25 pounds. The conditions for the competition are that three rinks from Bobcaygeon play three Peterborough rinks here and four rinks from Peterborough will play four Bobcaygeon rinks there, and it is very likely that the first half of the first competition will be played here this week after the bonspiel.

The curling clubs of this city and Bobcaygeon will greatly appreciate the gift of Messrs. Fitzgerald and Bottum. The annual competition will create a more friendly feeling between the curlers of the two towns and will also add much interest to the game as has the Shepherd—Neill Cup games between Orillia and Peterborough.

Mr. J. W. Leonard is Recovering

The Popular C.P.R. Official Not Seriously Ill

It will be good news to scores of people in this city and district to learn that Mr. J. W. Leonard, Assistant General Manager of the C.P.R., is rapidly recovering from a severe attack of lumbago. The report which appeared in the Toronto World that Mr. Leonard is seriously ill, we are pleased to say is entirely without foundation.

Knox Young People Enjoy Pleasant Time

About eighty Peterborough people the greater part of them being from Knox church Young People's Society, drove to Springville Monday night where they were the guests of the Young People's Society of the Springville Presbyterian church at a most enjoyable concert. Six busses were required to solve the transportation problem but Springville was reached in good time after an enjoyable drive.

Rev. Mr. Johnston was on motion elected chairman and a program rendered entirely by members of Knox church and was greatly enjoyed.

Six Cases of Small-pox at Port Hope

Word was received in the city last night that there are six cases of smallpox at Port Hope. Such a large number of cases in one place is sufficient to cause the health authorities to sit up and take notice. Smallpox is getting pretty close to this city and the local authorities would do well to take steps to prevent a spread of the disease. No particulars as to the severity of the Port Hope cases were received.

Social Evening at the Y.W.C.A.

The first social evening this year was held at the Y.W.C.A. last night when a large number of young ladies were present and enjoyed an evening of games, music and readings. Miss McCalla, the popular secretary, is preparing for the season's work, and will soon begin the reorganization of classes. The outlook for the coming year are very bright.

Three Boys Spent Night in the Goal

Three young boys slept last night on the soft side of the benches in the police cells as a result of their little escapade about six o'clock in the evening. The boys had been left in the Crystal Theater turning down the seats for Mr. Edwards. The genial proprietor of the theater went out, leaving his coat hanging inside. When he came back the boys were gone and so was $5.60 from his coat pocket. The police were notified, and soon the youngsters were in where there was no temptation. They will appear before his worship this morning.

Opening Day of the Lindsay Races

(Special to The Times.)

Lindsay, Jan. 12.—The opening day of the Lindsay ice races was a great success. There was a large attendance of spectators and the two crack local horses, several Peterborough horsemen were present. The results were as follows;—

2.16 CLASS.

Panay, Rumbough of Wingham	1	1	8	1
Jack, G. Powell, Belleville	8	4	1	2
Prince Medium, G. Clark, Blenheim	2	2	6	4
Lou Keswick, A. Ashmore, Lindsay	4	3	2	3
Wawa, H. Leadly, Cookstown	3	6	3	7
Brown Hal, S. Hallett, of Sunderland	5	7	4	5
Olive B., McKay, Kingston	6	8	5	6
Minnie G., G. Deetman, Kinmount	7	5	7	8

Time—2.27 1-4, 2.27 1-4, 2.27, 2.27.

2.16 CLASS

Gracy Pointer, P. Burke, North Bay	1	1	1	1
Walter G., T. Hodgins, Orillia	4	2	2	2
Otto K., D. Peters, Blenheim	2	3	3	3
May Way, W. Carson, Kingston	3	4	4	4

Time—2.23 1-4, 2.26, 2.27 1-4.

Starter—Frank Smith, of Buffalo.

Poultry Association Had Surplus of $114

A business meeting of the Peterborough Poultry Association, was held in the Bank of Montreal building last night, when everything in connection with the poultry show was cleared up. Cheques were issued to all the prize winners in full, and all accounts were paid. To the credit of the association after expenses were paid was $114, and of this $315 was voted to Mr. Geo. Paxman, the superintendent of the show, and to Mr. C. J. Hicks, the secretary, was given $20. The association has now $75 to their credit in the bank, to start next year with besides having paid for the 325 coops built this year. The surplus will be used in building some 300 more coops as the show next year will be more than double the size of this year's.

The next meeting of the association will be held the first Thursday night in February, when officers for the ensuing year will be elected.

THE SILVER NORTH

Cobalt, Loraine, Larder Lake and Gowganda

Travellers returning from the great mineral fields of the north are more enthusiastic than ever regarding the permanency of the Silver Camp. Traffic was never better and steadily on the increase. One hundred and fifty teams are now employed daily in moving passengers, freight and supplies to the new Gowganda finds from Earlton, Englehart and Charlton. It is only 18 miles from Charlton to Elk Lake where there are 22 mines, and from Elk Lake to Gowganda is 32 miles.

Leaving Toronto 10.15 p.m. daily, on the Grand Trunk "Cobalt Special," Elk Lake can be reached the next afternoon, via Cobalt, Haileybury, New Liskeard and Charlton, and this will continue to be the best way.

The Ontario Government are being strongly urged to push on the extension of their line from Charlton, which will open up this rich territory.

Full information can be obtained by writing J. D. McDonald, District Passenger Agent, G. T. R., oTronto, Ont.

The Formal Opening of the New Armoury

At the rate of progress that is now being made the new armory will be ready for occupation in April. A staff of men is at work on the interior and the work is going ahead very satisfactorily.

Officers of the local regiment are already discussing plans for the opening of the armory which will likely take place early in the summer.

There will be a formal opening ceremony at which the Minister of Militia will in all probability be present at. One or two outside regiments will also visit the city on the occasion of the opening and it will be a red-letter day in the military history of Peterborough. If it is decided to have the ceremony on an elaborate scale the celebration will likely cover two days.

There are three regiments that will visit Peterborough in the near future and one or two of them will likely be here for the opening of the new drill hall.

Earthquake Shock Startles British Columbia—Two Distinct Shocks

(Special to The Times.)

Vancouver, B.C., Jan. 12.—A slight earthquake was felt here yesterday afternoon about 3.45.

In Fairview, Grandview, and other high altitudes around the city, people rushed from their homes into the streets.

Reports of a slight shock came from Seattle, Victoria, Sumas, Tacoma, and Bellingham.

The shock lasted from 7 to 30 seconds, according to various reports from different parts of the city.

In Bellingham plaster was knocked off the walls of houses and electric chandeliers shaken to the floor.

TWO DISTINCT SHOCKS.

Everett, Wash., Jan. 12.—Two distinct earth shocks were felt at 3.15 yesterday afternoon in Everett and vicinity, travelling from east to west.

Please Help the Dorcas Society

Will the boys and girls, ladies and gentlemen, who happen to be on George street this afternoon, please drop into the Crystal, as the proceeds go to the Dorcas Sewing Society, who furnish clothing for the poor and needy families in the city.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box of 48 Preventics—25 cents. Ask your druggist. He knows! Sold by all dealers.

The Interesting Route

To Manitoba, Saskatchewan and Alberta, is via Chicago and St. Paul, Minneapolis or Duluth. Through the brilliantly lighted St. Clair tunnel by electricity, without smoke, gas or dust. Secure pamphlet, "New Route to Winning and West," from nearest Grand Trunk agent.

Miss Dorothy Hilliard of Lakefield, is the guest of Miss Phillippa Delafosse, 293 Stewart street.

Installation of the New Officers

The officers of Court Peterborough No. 29, C.O.F., were duly installed by P.H.C.R. F. J. Jamieson and were as follows;

P.H.C.R.—George Hardwick.
C.R.—Wm. Whiteroft.
V.C.R.—Albert Long.
Rec.-Sec.—Chas. Stenton.
Fin.-Sec.—E. Nesbitt.
Treasurer—F. Adams.
Chaplain—Gordon Carter.
S.W.—E. Roy Menzies.
J.W.—Wesley Flannery.
S.B.—D. Menzies.
J.B.—Wm. Carter.
Physician—Dr. Eastwood.
Trustees—Jos. Metheral, Geo. Stanton, Albert Carpenter.
Auditor—F. A. Coates.

The usual spread provided by the new officers was followed by speech-making—Com.

S.S. Entertainment

The annual Sunday school supper and entertainment under the auspices of the Charlotte street Methodist church was held in the school room last night. A large number were present and a most enjoyable evening was spent.

Thirty Thousand Dollars in Liquor Fines

Toronto, Jan. 12.—The past years fines for infractions of the liquor law amount to $30,000, and not since 1906 have they reached anything like this amount. The official year does not close until the end of April, but for the twelve months ending Dec. 31st the above figures apply.

The $30,000 includes $12,000 which was secured by Provincial Officer Geo. Morrison, and $8,000 secured by Provincial Officer Ayearst, while the one hundred and two local inspectors secured $10,000. This inability on the part of the local inspectors is claimed to be due to their identity being known to all, and no surprises can be made.

The silver north

War in Balkans Averted

Constantinople, Jan. 12.—The Turkish Government accepts the Austro Hungarian offer of $10,000,000 indemnity for the annexation of Bosnia and Hersegovina, thus removing every possibility of war.

The Grand Vizer Kiamil Pasha, received Marquis Pallavicini, the Austro-Hungarian Ambassador at noon today, and notified him of the decision of the Council of Ministers.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear or without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Pres't., Buffalo, N. Y.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

THE MILK QUESTION

The necessity of action being taken to improve the quality of the milk supplied to the people of large towns and cities is coming to be generally recognized, both on this continent and in Europe. In Great Britain active measures are being taken in that regard, popular sentiment having been aroused by the reports on the impurities existing in much of the milk supplied and the danger to the public health caused thereby. In New York City a Milk Committee, chiefly composed of eminent physicians, has the matter in hand, and after an investigation, extending over three years, has come out with the statement in favor of pasteurization as the method for securing safety from tuberculosis and other milk-borne diseases. The Committee declares that this treatment should be given to all milk which has not been produced under strict sanitary conditions. The Committee has experimented on feeding infants with raw milk and that pasteurised, and has come to the conclusion that it is a crime to feed a baby on milk of the former character. The pasteurisation is easily effected, since it only requires that the milk should be raised to seventy degrees centigrade, or one hundred and fifty-eight degrees Fahrenheit in any clean ordinary saucepan. The terrible mortality among infants in the opinion of the Committee is very largely due to the impurity in the milk with which so large a proportion of them are fed.

LASH FOR WIFE BEATERS

Often the law deals only too leniently with wife beaters, says the Kingston Standard. A few months' imprisonment usually is the sentence visited upon these brutes when as a matter of fact they should be given the lash and given it with all possible severity—not once, but several times during their imprisonment, that they may come to realise what a thorough beating actually signifies. If they are brutal enough to beat their wives the law ought to be impartial and severe enough to give them a taste of their own medicine and to drive home to them that for each whipping thus administered to the wife the law will visit the offender not with one whipping but with several whippings, and administered with no gentle hand

AGAINST CHILD LABOR

Announcement is made of the holding of the fifth yearly child labor conference, under the direction of the National Child Labor Committee at Chicago, on January 21, 22 and 23. It is expected that there will be a large and influential gathering, and it is also hoped that on the next day, Sunday, January 24, the subject will be widely discussed in pulpits throughout the country, a request to that effect having been published and that date having been designated as "Child Labor Day". Examination of the tentative programme shows that part in the Chicago conference will be taken by numerous men and women of ample information, of practical purpose and of untiring devotion, and ground is afforded for hope that much substantial good will result from their deliberations. Both the conference and the wider proceedings of the following Sunday are to be cordially commended to the sympathetic interests of the nation.

The evils of child labor, unrestricted or practised on a considerable scale, should be too obvious to need detailed exposition. The physical, intellectual and moral effect upon the race is inevitably disastrous. Horse breeders realize and avoid the evils involved in the premature working of colts. Surely at least as much regard should be had for the young of the human species. The claim that not the sole reason for the working of children is the cheapness of their labor. There could be no greater economic fallacy than to regard it as cheap. In the long run it is the most expensive and wasteful kind of labor, because it impairs or destroys the efficiency of its subjects when they have attained maturity. It is a sacrifice of the far greater efficiency of the future for the far less efficiency of the present—to use a time worn simile, it is a killing of the goose that lays golden eggs. But even if it were truly economical to use child labor, that would be no justification of the practice. Better by far to have the products of our factories cost a little more than to have them at a low price at the cost of the stamina and the happiness of humanity.

It must be recognized that the problem is not an easy one to solve. On the contrary, it is particularly difficult. It seems to belong chiefly to the individual states, as a part of their police and sanitary powers. The ideal plan would doubtless be to secure concerted and uniform action by all the states, but unfortunately this has not yet been found possible, and the variations of industrial and social conditions among the states and the prevalence of commercial rivalries present grave obstacles to the attainment of such an end. National conferences, however, and the widespread discussion of the matter in all parts of the country should conduce toward a general recognition of the need of protecting the children of the nation from being stunted, blighted and debased, and should in time convince the authorities of every state of the fact that no state, for the sake of temporary advantage, can afford to violate the general fundamental principles of social welfare.

THE WHITE PLAGUE

It was Charles Dickens that uttered the truism that consumption is a disease which wealth never wards off and poverty cannot boast exemption from, the force of which is not yet fully realized.

There has been, it is true, an organized warfare carried on by the medical profession, the governments and the public for many years against the scourge in Britain, some of the countries in Europe and the United States, and to some extent in Canada. The death rate in these countries has decreased in proportion to the vigor with which the warfare has been carried on. There is not yet, however, the strong, live, vigorous, persistent public opinion on the question that is necessary to the extermination of the plague. Until that obtains, means initiated to check the ravages of consumption will not be supported as they should be.

Lincoln County and the City of St. Catharines have not been immune from the plague by any means. It was only recently, however, that an organized effort was instituted with a view to effectually treating tubercular patients here. Now, subscriptions are being invited to aid in the establishment of a tuberculosis hospital in this city. The donation of a site by Mr. R. W. Leonard, the arduous work done by the philanthropic ladies who have undertaken the work, and the generosity of a number of our citizens, who have evinced a kindly interest in the enterprise, have given the project a splendid impetus. It is hoped that the amount needed will be fully subscribed in the near future and that this much needed institution will soon be in operation.

Much should be done, as well, to prevent the disease from gaining a foothold where it has not yet penetrated. To this end an energetic educational campaign should be carried on, so that the general public may understand the infective nature of disease, that it is largely preventable by the destruction of the sputum in which the contagion lies, and that in a large percentage of cases the disease in its early stages is curable by the use of good food, sufficient rest and fresh air.

Those who have been immune from the disease owe a distinct duty to their less fortunate fellow citizens to do all in their power to assist in the warfare against consumption. One excellent way in which all can show a live, practical interest is by contributing to the fund now being raised to establish a tuberculosis hospital in St. Catharines.

ADVERTISE IN THE TIMES.

A NEW CONSPIRACY ON OUR LANGUAGE

In view of the local effort to improve the English language by cutting out some of the silent letters in a long list of words, it is worth noting that in the United States a number of patriotic fanatics are trying to rechristen the language. They want it called the American language, instead of the English language. The agitation reminds Prof. Brander Matthews of a humorous incident that occurred while the Revolutionary War was in progress. One staunch Yankee moved that the revolting colonies should renounce the English speech of the British oppressors, and learn a new tongue for themselves. There might be objections, he admitted, to the adoption of the language of any other country, but he thought that free born Americans were capable of inventing a new language of their own. Then Roger Sherman, of Connecticut, arose to move in amendment that the American colonies should retain the English language, and force the hated Saglish to learn another.

THE AMERICAN LANGUAGE.

The bitterness of a hundred and thirty years ago is some excuse for the preposterous motion of the anonymous American patriot; but it is difficult to consider with patience the activity of the American Language League. It is issuing circulars to the American people, urging them to "unite in calling the mother tongue by the name of the children who speak it." It is not intended to seriously change the language, although the incorporation of the host of "Americanisms" in colloquial use is no doubt contemplated when the next patriotic American dictionary is issued. We have often come across such a phrase as "Talk plain United States", but it has been uttered with humorous intention. There is nothing but earnestness, even solemnity, in the propaganda of the American Language League.

A DUTY FOR AMERICANS.

The circular, as quoted in Munsey's Magazine, by Prof. Matthews, appeals in the following words:—

"Does not America's preponderance carry with it the privilege and the duty of renvming its own language and calling it the American language? The language itself has done no more for Americans than French or German would have done, were either of those our national language; on the other hand, the Americans have done for the language this—they have practically made it the international language. Neither the language nor any name is necessary for our glory, but our nation-name, and exclusively ours, has become necessary for the language if it is to be designated by the full defining term, the term which recognizes the teachings of the past and the sweep of present events.

"How much longer must the relative population, wealth and power of the United States and Canada increase before it dawns upon us that the American language is the logically defining, the solely appropriate, the historically inevitable designation? —and that to call the giant language by a nomenclatural inadequacy is like cloaking the shoulders of a Hercules with the garments of a dwarf?"

CANADA LUDGED IN.

You will notice that Canada is dragged into it, although Mexico is excluded. Mexico has as good right to be considered American as has the United States. As a matter of fact, the Mexicans were here before the Americans or Canadians. The matter is also placed before us on the plane of duty. No doubt the appeal will have its effect, and we may expect to see a bill introduced in Congress embodying the change. It may be followed by another bill, moving to change the name "Christianity" to "Americanity", or or some other insanity, for the same reasons advanced against the use of the word English. Congress suppressed the President's effort to have the words, "In God We Trust" struck off the coinage of the United States; and there is hope that it will kill off these similar bills when they make their inevitable appearance.

THE TWO LITERATURES.

Prof. Matthews thinks that the differences between British and American usage of speech are superficial and insignificant. He suggests that his countrymen continue to use the English language, and to speak of it as such; but he recommends that we recognize the term "American literature" as a distinct sub-division of English literature. As a matter of fact, this suggestion has been followed for many years past. We speak of English novels and American novels, English and American writers, and even in humble schools of Canadian literature. We also gravely debate the question;—Resolved that we have a Canadian literature. The noted American critic concludes as follows:—

"English literature as a whole has now, in the beginning of the twentieth century, two main sub-divisions — British literature and American literature. They are both written in the English language, in the use of which they vary very little. In the nineteenth century British literature was adorned by many more glorious names than American literature, important as this is to us Americans. In the twenty-first century probably the balance will incline the other way. The language of this literature is the English language, but it is not exclusively the 'King's English' any longer. As Mark Twain is reported to have said once, the language has been taken over by a company, and we Americans hold a majority of the stock."

NEXT CENTURY.

If the professor's prophecy turns out to be correct, and the twenty-first century is adorned by many more glorious names in American than in English literature, there will be no effort on the part of the owners of those glorious names to distinguish themselves from the great English masters of the past. Their proudest boast will be that they are producing English literature; and in that day they may deserve to have the term "American literature" abolished and forgotten.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.,
Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

$350,000 from "Our Own Road"

Toronto, Jan. 13.—Estimates made one year ago of the surplus of the Temiskaming Railway for the year 1908 have been greatly exceeded, and a cheque for $350,000 just forwarded to the Government amounts exactly to the excess. This brings the total paid over to the Province to $800,000, and represents the difference between receipts and operating expenses. The amount last year was $225,000, so that the increase is nearly fifty per cent., $115,000. There were forty miles of track completed during 1908.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform with the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

ADVERTISE IN THE TIMES.

THE TIMES' FINANCIAL PAGE---OF INTEREST TO THE CANADIAN INVESTOR

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash values in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery installed and paid for. Development work is done exposing a quartz ledge 30 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property that have already waited long for results, and that may not be able to realize anything for 30 years more.

Write me, giving full information of what you have to exchange.

What Christ would Do in Cleveland?

Cleveland, Jan. 11.—The movement began last Sunday by Cleveland young people to live for two weeks as Christ would has assumed a scope far beyond the expectations of its promoters. Fully ten thousand volunteers have unofficially joined the movement by attempting the test and pledging themselves to walk in His steps. Even city officials are taking an interest, and are ruminating on what Jesus would do if He were a city official.

Many interesting experiences have been related by those who have completed the first week's test. Some say they cannot carry the practice into business, others say they can. The test has also brought out a host of critics, some praising, others condemning the idea. Church members are encouraging the trial and pleading for its continuance. The scoffers sarcastically say that the effort implies past hypocrisy.

Discussions are rife in homes, in the churches, in clubs, and in newspapers as to what Jesus would do under all manner of circumstances, and what His attitude would be toward the common forms of amusement and human endeavor. Most of the arguments centre about the theatre, card playing, dancing and baseball, with supporters on either side.

Longboat Saw the Shrubb Race

New York, Jan. 11.—Can Tom Longboat defeat Alfred Shrubb at the Marathon distance? Sporting men are anxiously waiting to have this question answered when these great long-distance runners meet in Madison Square Garden on January 26. They have been matched to travel 26 miles and 385 yards, and speculation is rife as to the result. Shrubb's wonderful running in the twelve-mile relay race in the Garden Saturday night convinced the experts that when Longboat tackles him records will be smashed in wholesale style.

Shrubb was so fresh after running 12 miles Saturday night that he looked as if he could have gone the Marathon distance without extending himself. He ran the last lap like a 100-yard sprinter, and his great speed caused old-timers to open their eyes.

Longboat watched the Englishman's performance with particular interest. He never had seen Shrubb at his best before, and remarked after the race that he had no idea the Briton was "so good". The Indian, however, expressed perfect confidence in his ability to defeat Shrubb, explaining that he did not believe he could stick the 26 miles. It is believed that the Longboat-Shrubb race will be one of the heaviest betting events that has taken place in years.

Complete Drainage System for Whole of the Province

Windsor, Ont., Jan. 11.—An important project for provincial drainage is under consideration by Hon. Dr. Reaume, Minister of Public Works, under which it is proposed to utilize the rivers and waterways of the whole province. The project will probably be crystalized into legislation at the forthcoming session, but its working out will take at least five years.

Under existing conditions the Government has been confronted not infrequently with the question of granting drainage aid to one portion of the country at the expense of another. One district secures satisfactory outlet into a river, only to cause overflow and flooding further down the stream.

The Minister's plan contemplates a Government survey of all Ontario rivers and waterways and a report thereon. Upon the report as to the carrying capacity of the streams, the question of drainage will be tackled from a provincial and not a local standpoint, and the land drainage gauged to the capacity of the outlets.

Large Crowd Witnessed the Degrading Spectacle

Bethune, Pas de Calais, France, Jan. 11.—The first inflictions of capital punishment in France for a number of years past were witnessed in this town today, when four murderers were decapitated by the guillotine. The executions were public and took place in the presence of a large crowd.

The record of crime against the four men was a long one. Working together, they formed a band which had terrorized Northern France and Southern Belgium for several years, robbing, assaulting, and murdering at will.

As the condemned men were led out of prison cries of vengeance arose from the assembled crowd, and as the knife fell four times in rapid succession the people present did not hesitate to evidence their satisfaction.

EIGHTEEN MORE TO DIE.

The French Parliament recently passed a resolution in favor of the retention of the death penalty in France, and the cabinet a fortnight ago decided to carry out Parliament's ruling. The law permitting the infliction of capital punishment had been practically a dead letter, for it has been the custom of the president of the Republic to commute all death sentences to life imprisonment.

There remain today eighteen persons in France under sentence of death and the guillotine will be used for these executions.

IMPATIENT FOR DROP.

The executions were carried out rather quickly, yet the multitude from the town and surrounding country, which gathered early last night, was most impatient, and upon the appearance of the condemned began yelling for instant death. The effect upon the crowd was the most horrible feature of the executions.

As one of the condemned men marched defiantly towards the steps of the platform, cries of rage broke from the crowd, which endeavored to break through the lines of soldiers closely formed around the guillotine. The man brutally repulsed a priest who'd sought to console him.

ATHIRST FOR BLOOD.

Shouts of joy burst from the crowd as the knife dropped. The troops immediately after the executions dispersed the crowd, and ended what was regarded by foreign observers as a degrading spectacle and as suggesting terrible scenes of mob athirst for blood during the revolution.

Are Putting Up Wooden Shacks for the Homeless

Messina, Jan. 11.—Wooden shacks are being erected in the parks and piazas to accommodate 6,000 homeless Messinians and to shelter the soldiers on duty. The north end of the town was not damaged so much as other sections, and many of the low buildings there are intact.

The electric light plant has been patched up and was put in operation last night, affording facilities for continuing work on the ruins without interruption. But the authorities are all at sea, without system or efficient direction. Thousands of soldiers are engaged only in patrolling dangerous streets and guarding property instead of helping only in the work of rescue.

Food is plentiful here now. The weather is beautiful. The torrential rains have ceased and life for the thousands who have to sleep in the open air or under scant shelter is not a hardship for the days are warm and the nights are balmy.

Hundreds of donkey carts are employed in removing merchandise from half-ruined stores and warehouses in the Via Garibaldi Marina. Survivors owning property or awaiting the removal of bodies of relatives from ruins refuse to leave Messina, but hang around helpless and distracted from day to day. Soldiers guard the streets where there is danger from falling walls, and at each end can be seen groups of men and women silently gazing past the military cordon at the ruins of what was once their homes.

Revising the Statutes Night After Night

London, Jan. 12.—The lights burn late these nights in the offices of the law clerk of the legislature.

Three nights at least a week the judges sit there, and among the most devoted at the task is Chief Justice Sir William Meredith. In peace he now enters the halls and turns leftwards, where of old he preceded up the broad stairway into the chamber to meet his doughty and crafty antagonist, the late Sir Oliver Mowat. To the left now, he goes, far along to the western end, then down a long narrow passage, opposite where the white-haired clerk of the House sits alone.

For three years, six judges have met, night after night, to prune, simplify, revise and consolidate the Statutes of Ontario, passed since the year 1897.

Of late they have been concerned chiefly with the laws of education, and the Legislature of 1909 will pass upon their work. Before the session is over seven sets of laws, covering the jurisdiction of the Ontario Department of Education, will have been amended and consolidated and submitted.

These are: High Schools Act, Public Schools Act, Boards of Education Act, Truancy Act, Public Libraries Act, Separate Schools Act, and the Department of Education Act.

When these Acts in compact form come before the members they will represent hundreds of suggestions, a few embodied in their clauses, the most examined and rejected. They will contain some changes in the laws that will be new, but none, it is understood, that will approach in their drastic character the amendments which the Government has introduced from time to time during the last four sessions. In their new form the Statutes will be a great boon to school boards and teachers all over the Province, who have become bewildered in the flood of amendments that the past eleven years have produced.

The commission of judges consists of Mr. Justice Osler, chairman; Chief Justice Meredith, Judge Teetzel, Judge Anglin, Judge Garrow and Judge Snider. The commission has been assisted in the laborious work of arrangement and revision by Mr. R. S. Neville.

Weak Kidneys

Weak Kidneys surely point to weak kidney nerves. The Kidneys, like the Heart, and the Stomach find their weakness, not in the organs themself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a nerve-food specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is useless. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine gets cloudy or dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggists recommend and sell

Dr. Shoop's Restorative
"ALL DEALERS"

New York Woman Suffering from Leprosy

Aiken, S. C., Jan. 12.—Mrs. Mary V Kirke, sixty years old, a former missionary to South America and for fourteen years a resident of this city, is isolated in a house here, suffering from leprosy. For three years Mrs. Kirke has been blind. For a long time she has lived alone with a woman companion, who now faithfully remains in the guarded house in the capacity of a nurse.

Neighbors recently made enquiries, which resulted a few days ago in a report of the matter to the State Board of Health. The Aiken authorities placed armed guards around the house. Nothing is known here of Mrs. Kirke's family or where she formerly lived, except her announcement that she came from New York.

....The.... Plow Woman

(Continued.)

Both the shack. Three smaller both were near it—Simon and the mule team. South, on the opposite bank, were the low, whitewashed buildings of Fort Branson. He bared his dust powdered head in thanksgiving.

The cayuse was warm and dripping. He rode to Shanty Town, loosened the cinch and led the animal up and down before the deserted huts. When it stopped blowing and reached for grass he picketed it on a lariat north of the Trooper's Delight. Then he descended to the building. The light was growing. Already he had been seen from the post. On his hallooing a small boat shoved off toward him, dancing its way against the current. Old Michael was not in it, only his citizen helpers. Fearing their tittle-tattle, Lounsbury curbed his impatience to ask about the shack. Landed, he made for the "bach" quarters on the line.

Fraser was not up. To his "Come in" Lounsbury entered. They shook hands without a word, and the storekeeper sat down on the edge of the bed.

After awhile the lieutenant reached out to put a hand on the other's knee.

"Lounsbury," he said, "I feel like a criminal, but I never dreamed anything would go wrong if I kept track of Matthews."

"Why, we both thought that, Fraser. You're not to blame any more than I am."

"Oh, if I'd only"—

"But we can't spend any time kicking ourselves. After this there mustn't be a loophole. Besides watching Matthews, we must"—

"Matthews isn't here."

"What?"

"Kicked out. We don't know where he is." Rapidly Fraser related the story of Simon's gallantry.

There was another piece of news of lesser importance. An Indian girl named Brown Mink was seriously ill. Her wigwam had been moved to the western curve of the stockade, where the ground was clear, and been changed from tepee shape to the form of a walled wickiup. Mrs. Cummings, touched with pity, had sent her a comfortable bed, while Captain Oliver, touched no less and pleased by the good humor of his prisoners, had ordered that during the daily search of the inclosure the tent of the sick girl be left entirely undisturbed.

The young officer omitted to tell of his share in the interpreter's departure and was distracted over an accident that had befallen him. On visiting his wild pets the previous evening he had found that a box containing reptiles had been broken open somehow and that all his rattlesnakes were gone!

With the first call for the trumpeters Lounsbury routed the sutler in a quest for breakfast. Then once more he sought the river. There was no waiting for men to row him. He found the small boat, headed for the beach below Shanty Town, mounted the cayuse and climbed the steep road to the prairie. Before him on a green stretch between river and shack he saw Dallas.

She was cutting grass in that same swale across which a month before had been tracked the deep planted, labored footprints. As she mowed she moved forward slowly, the boat swathe describing a regular half circle, the long, curved blade clearing a fragrant path. Her hat was off and lay at a distance behind her, where it floated boat-like on some blue stem tops. Still farther behind was Simon, cropping industriously and keeping a furtive watch upon his mistress out of the corner of one fiery brown eye.

Lounsbury spurred his horse to a run. She saw him coming, but, not knowing him, kept her scythe on the swing. When he had covered the greater part of the way, however, she stopped work, retreated to her hat and put it on. Then from beside it she picked up the Sharps.

He saw that, and his jaw squared. The blood darkened his face, too, as if the sight shamed him. He spurred faster, reined so sharply that the horse slid upon its fetlocks and swung off.

"Dallas!" he cried. It was not a greeting, but a plea.

The moment was one long dreamed of, yearned for. A woman less genuine might have met it without a show of feeling. She, outspoken and simple, could not. Her eyes swam. Dropping the gun, she clasped his hand greedily.

"I knew you'd get back quick as you could," she said, choking.

For a long moment they stood thus, hand in hand, looking at each other. She saw that he was changed. The glint of merriment was gone from his eyes. His forehead bore new lines. His mouth had lost its nourishment. With her the past four weeks had also left their mark. The old look of high purpose was on her face. But she was older and graver and wore the new expression that Oliver had seen.

She spoke first. "Your mother?" she faltered inquiringly and withdrew a step.

"My mother—is gone," he said slowly; then, after a pause: "I came right after that; didn't stop to settle things. I can go back to the states later. But if I'd been here sooner—it mightn't 'a' happened"—

She checked him gently. "Now, you got enough to worry you without us. We wouldn't go to the fort or Bismarck, and that was the whole trouble." To excuse her father and to take the blame herself, she told him of the refusal of David Bond's money and of Mrs. Cummings' slight.

"You see," she explained earnestly, by way of putting the best possible color to the latter episode—"you see, they think over there that we're trash. So they're bound to let us alone. It ain't that they haven't good manners"—

It was Lounsbury's turn to interrupt. He was tramping about. "Manners!" he said violently. "Manners! What's manners to do with it? There's a lot that's good manners—and cursed bad heart!"

She took up the scythe, brought a whetstone from the depths of a pocket and ran it down the blade thoughtfully.

"OXOL"

The word "Oxol" does not mean one food, or one preparation to; "Oxol" is a name given to all goods for horses, cattle, swine and sheep, prepared by Messrs. S. K. & T. C. Windsor of Australia New Zealand, England and Canada.

The veterinary preparations as well as the compressed bales of fodder placed on the market of the world under the name of

"OXOL" FOR CATTLE

are all of the greatest possible order of merit and may be used by farmers, graziers, dairymen, and all owners of stock with the full assurance that these goods have the power in a very short time to double their incomes by feeding, fattening and curing all animals, which to them mean money.

One agent only in each district who has sole contract of the local trade for agent's name, see future advertisements, etc.

Cosgrave's Beer

Wordsof praise have ever prevailed in advertising "copy" That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

Says This Medicin Has Mystic Powers

It's in the spring that health gives out—that folks begin to feel draggy, weary, lustless,—hate, to eat, look pale, feel discouraged

If you've reached this state read what J. W. Jervell, well known in Morristown, has to say about the medicine that cured him. "Last winter I caught a heavy cold that settled in my back. My kidneys and liver were affected and my health failed. By spring I was in bad shape—couldn't sleep like I used to—felt tired in the morning—ate very little—was terribly depressed, pale and anxious looking. Twinges of rheumatism, frequent neuralgia attacks over the temples, made matters worse. The doctor prescribed three times, but didn't help. Then I heard of Dr. Hamilton's Pills.—They possess mystic powers surely, for I gained and improved day by day and now am in perfect health again. I will praise and use Dr. Hamilton's Pills till I die."

The ingredients in Dr. Hamilton's Pills are pure and wholesome—come right from the storehouse of Nature in the form of vegetable juices and extracts,—consequently this gentle invigorating laxative tonic and blood purifier is safe for old and young alike. We assure you of enormous benefit from Dr. Hamilton's Pills, which revitalize delicate glands, scatter out the seat of hidden disease, flood the body with vigor and health that has caused thousands of broken-down, despairing men and women to join in a mighty song of praise for the beneficient aid that comes from this king of all tonics. Get Dr. Hamilton's Pills to-day. 25c at all dealers.

Light Snow Fall

The light fall of snow on Monday night was just what was wanted to build up the sleighing again. About a foot or two feet of snow however would do very little harm.

Romaine Street Sewer

In the course of a few days the Board of Works will meet for the purpose of considering the Romaine street sewer which is to be rebuilt at once and a much larger pipe laid. It is expected that the work will be got under way in a short time.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventics—25 cents. Ask your druggist. He knows! Sold by all dealers.

None Better

We have a very large and varied stock of the latest in souvenir cards, also our lines at ten and twenty-five cents per dozen. Times Bookstore.

Chief's Report

The Fire, Water & Light Committee, after the council meeting on Monday night, paid a visit to the fire hall. They had a look over the premises and will hold a meeting in the near future. Chief Howard has prepared a semi-annual report and it will be presented to the meeting.

Iron Mines

A letter received by The Times from Mr. W. J. Kearns, Toronto, Peterborough's well known mining expert, states that he has secured another very large iron property near North Bay. He states that there is a million tons of iron in sight on this property, and he is making arrangements to put it on the market.

Personal

Mr. F. R. Gorman of St. Paul, Minn., is in the city.

Mrs. W. A. Maitland and Miss Ethel of Toronto are the guests of friends in the city.

Mr. R. M. Waldie of Strathcona, Alberta, is in the city on a business visit.

Mr. John Young of Toronto, is visiting Mr. John Foster, 250 Charlotte street.

Mrs. W. E. Wright of Winnipeg, is visiting her sister, Mrs. W. E. Wanson, Boswell avenue.

Mrs. (Dr.) King and Miss King will receive on Thursday and afterwards on the second Thursday of the month.

M. Pappas leaves tonight for Chicago and other American cities, to look up more new features for his Royal Theater.

Miss Lola Ostrom of Toronto, is visiting Miss Ruby Clegg, Stewart street, for a few days.

Mrs. Donald Potter will receive on Thursday of this week and afterward on the second Wednesday and Thursdays of the months.

Mr. and Mrs. Jas. Stubbs have been called to Toronto on account of the serious illness of their son, W. J. Stubbs of the Bell Telephone Company of that city.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—50c. Sold by all dealers.

Mrs. John Hart, Bethune street, who was knocked down by a horse who became frightened at the Army Band, Sunday morning, found it necessary to call in a physician yesterday, who found she has two fractured ribs besides being much affected from shock.

Mr. and Mrs. Jas. G. Humphrey of Griswold, Man., are visiting Mr William Yelland, McDonel street. It is six years since Mr. Humphrey was in Peterborough. He is now engaged extensively in a general business mostly in the hardware line. They will remain in the east about three weeks.

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs, quickly yield to the healing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Contains no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge! Sold by all dealers.

A marvellous trial reading of character by the well-known scientific phrenologist, Prof McKellar, L. V., 21 Beaconsfield avenue, Toronto, whose public blindfold tests prove the reliability of phrenology. Send address and 10 cents silver. Enclose photo when possible. Will return with reading

Obituary

MR. JOHN MENZIES.

An old and well respected citizen passed away Monday in the person of Mr. John Menzies, oldest son of the late James Menzies, in the 69th year of his age. Death came peacefully at the family residence, 228 Stewart street, while surrounded by his faithful wife and a number of relatives and friends. The illness was of short duration, the deceased having been stricken down by the rupture of a blood vessel, which rendered him unconscious and closed his early life at noon Monday. The late Mr. Menzies was born in Perthshire, Scotland, November, 1840, and came to Quebec with his parents in 1851, afterwards removing to Peterborough in 1853, where he has resided ever since. He was married to Sarah Bradfield, daughter of the late William Bradfield of Douro, in 1875. One child was born to this issue, which died in infancy. Deceased was of a quiet, genial nature, an affectionate husband, and an exemplary member of St. John's church. Sincere sympathy will go out to his sorrowing wife, who has been so suddenly bereft of her faithful companion in life, and to his four brothers and three sisters, William, Donald, Jennie and Kate, of this city; Robert J., of Lindsay; James, of Montreal; and Mrs. Walter Paterson of Milwaukee.

Funeral will take place from the family residence, 228 Stewart street, this afternoon at two o'clock.

WM. BADGE.

The death occurred at the Protestant Home yesterday morning of one of the inmates in the person of Wm. Badge. He was a very old man having reached the age of ninety-one years. He had been an inmate of the home for the past six years. He had no friends here, having come to Peterborough from England. No arrangements have been made for the funeral.

FEBBO—THOMPSON.

A quiet wedding was solemnized at St. Peter's Cathedral yesterday morning at eight o'clock when Miss Rose Thompson of Peterborough, was united in marriage to Nicholas Febbo, also of this city. The ceremony was performed by Rev. W. J. McColl. The The bridesmaid was Miss L. Capoli, and the groom was ably supported by Mr. N. Jory. Mr. and Mrs. Febbo will reside at 496 Parnell street.

Health

"There's a Reason"

WORRIED TO DEATH

INDIGESTION, LOSS OF SLEEP, HEART PALPITATION.

A Case that Proves Prompt Action is Wise when Health is Poor.

"At night I would wake up with vague feelings of fear and numbness in my hands and other parts of the body," writes Mr. E. X. Simonton, of St. John's. "I had grown thin and pale, and at night it was very difficult to get enough warmth in my feet to get asleep. My digestion was poor, and appetite very uncertain. The form of nervousness that worried me most was starting at every little thing, which resulted in such violent heart action as sometimes frightened me. Finally I had to give up my work, which was inside office work, so languid, nervous and weak had I become. Through the intervention of a friend I was induced to use Ferrozone. My appetite improved at once, circulation also improved and Ferrozone accomplished the renewal of my blood and natural warmth seemed to come back to my limbs. At the same time Ferrozone built up my constitution. I became quite strong and resumed my occupation. In brief, I am well."

Ferrozone is the only remedy of its kind in the world—it makes you feel better at once; when you are tired, dull, dispirited—when you feel there is nothing in life for you, that's the time to take Ferrozone.

What a change Ferrozone makes! Your blood sings through your veins, carrying nourishment to every nook and corner of the body, you feel the exultant thrill of abundant nerve force, you learn the luxury and delight of being at your best—in perfect good health.

Just try Ferrozone and see how much better you feel; it's the one remedy in all the world that will get you bracing health at once. Sold everywhere, 50c. per box or six boxes for $2.50, at all dealers.

A Presentation and an Address

On Monday afternoon, Principal McKone of the Peterborough Business College, was tendered a most pleasant surprise which will be one of the bright spots in his career as a dispenser of knowledge in this city. Just as he was about to call his class to attention for dismissal the teachers and students of the college took the opportunity to present him with a handsome clock and a bouquet of beautiful roses. The following address was read at the same time as the presentation, Dear Mr. Mc. Kone—

We the students of the P. B. C. gladly avail ourselves of the opportunity presented by your recent marriage to show in some slight degree our appreciation of your many kindnesses and untiring efforts during the year that you have been with us to promote in every way our best interests.

We extend to you our heartiest congratulations, and, as a token of our esteem, would ask you to accept this clock hoping that it may tick for you and Mrs. Mc. Kone, during many years of life together, only hours of happiness and prosperity.

We also would ask Mrs. Mc. Kone to receive these roses, assuring her that with them are given a hearty welcome to her new home in the city of Peterborough.

Signed on behalf of the college,

F. O'CONNOR.
E. HALL.
G. LONG.

January 11, 1909

Although take completely by surprise, Mr. McKone responded in a few hearty words thanking the teachers and students for their remembrance and thoughtfulness and for their expression of good wishes. In closing he said, "I am not much of a speaker, I will leave that to Mrs. McKone.

Mrs. McKone then extended her sincere thanks and appreciation of the kindness and consideration of the teachers and students. She expressed the wish that they would all become better acquainted, and she extended an invitation to all to visit her and Mr. McKone at their home.

MILLIONSOF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Wasted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW wha it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world. Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Oursmelter thus erected will save 85% in treatment, freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when her you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Address

The Kuenzel's Process Smelter Co.

Memorial Service to Late Rev. D. O. Crossley

"Local Option Campaign and the Result of the Vote was Responsible for the Death of the Late Pastor," Said Rev. Mr. Manning

That the late Rev. D. O. Crossley had many warm friends in this city, who regretted deeply his sudden demise, was evidenced by the large congregation, which attended the memorial service in the Charlotte street Methodist church last night. It was in that church where the deceased labored for five years, and where his efforts were so successful. It was in that church that he counted every adherent a friend, and the service last night was a gathering together of personal friends to pay their respects to one who has gone to his reward.

The pulpit was occupied by Rev Mr. Henderson, pastor, and associated with him were Rev. H. M. Manning of St. James' church, Dr. M. A. Morrison, and Mr. A. B. Cunningham. The music was led oy the choor, while a quartette sang 'One Sweetly Solemn Thought," and Mrs. G. Bruce Hughes rendered a solo.

After the devotional exercises, Mr. Cunningham took up the financial work undertakken and accomplished by the late pastor, when he came to this city twelve years ago, there was a debt of over $12,000, and before he left it had all been wiped off. Not only this but a spirit of more liberal giving by the whole congregation was developed. The Sunday school work has been doubled as has also the contributions to all the branches of the church's work.

Dr. Morrison stated that mere words as an expression of the feelings in the hearts of the congregation were empty. A far greater tribute to the memory of the departed was the presence of so large a congregation at the service. There were two features in the late Rev. Crossley's character which stamped him as an exceptional man. The first was his desire for work. Physically he was a weak man but he had a powerful mind, and an indomintable will. It was while he was confined to his bed the first summer of his pastorate here that he developed the plan whereby he intended to build up Charlotte street church, and to wipe off the debt. As soon as he was well enough to leave his room he began his campaign which was so successful.

His devotion to the work and to the ministry was the other feature. While here he was offered a position with an insurance company at double the salary but he refused.

Rev. Mr. Manning spoke of the closing days of Rev. Mr. Crossley's career. They were spent in arousing the people of Whitby to a realization of the inroads into their moral standing being made by the liquor traffic. He was the leader of the local option campaign, and it was the exertion and the responsibility of that which destroyed his strength, while the result of the vote was responsible for breaking the last thread which held his soul within his body.

Private Moir Now on Trial for Killing Lloyd

London, Jan. 13—The trial of Pte. William A. Moir for the murder of Col.-Sergt. Lloyd on the night of April 17, 1908, is in full swing in the old court house here.

Before the court house doors opened, when hundreds of people had gathered outside. At nine o'clock they were admitted and hundreds were turned away disappointed.

At 10 o'clock Moir was led into the court by two constables. Neatly dressed in a new suit of tweed with immaculate linen and a white puff tie.

His face was alert, but baffling as far as any expression of fear or nervousness was concerned, and after a quick curious glance about the court room while all eyes were fixed on him, he sat down and quietly paid attention to the legal proceedings.

EASY CHOOSING JURORS.

The task of choosing a jury was not as great as was feared. Twenty-two men were called, from whom the twelve good and true were chosen, and the Crown Attorney, Sidney Smith, K.C., of Stratford, began his address to the jury. He briefly outlined the shooting in the hospital at the barracks that night, when Moir three times shot at his fellow soldier as he came in to arrest him, of Moir's previous behavior, and the words he had with his victim. Then the disappearance and the sensational flight, ending with his capture three weeks later in Arthur.

DEFENCE IS EPILEPSY.

Epilepsy will be brought in by the defence, which, the Crown Attorney said, rarely affected the brain, although it had been known to do so. He said the whole thing hinged on whether it was a sane or insane man who shot Lloyd.

Architect McBride was the first witness examined, and he at some length described the layout of the building where the tragedy occurred.

BRADY'S SENSATION.

Private Brady produced a sensation in the Moir trial early this afternoon, when he admitted under testimony that for eight months previous to the shooting Moir had stored in his locker in his room 2,000 rounds of rifle ammunition. Brady was Moir's room-mate and he said he did not know Moir was committing a breach of regulations in laying in the store of cartridges. It was from this store that Moir took the 200 rounds he had while fleeing. He took it, according to Brady, before the shooting.

District Orange Lodge Officers

The annual meeting of the City of Peterborough District Orange Lodge, was held Tuesday evening in the Orange Hall, Simcoe street. The meeting was largely attended and the following officers were elected and installed by the W. County Master, Bro. W. H. G. Armstrong.

W.D.M.—R. E. Juby.
W.D.D.M.—C. E. Wiley.
W.D.C.—Robert A. Pogue.
W.D. Rec.-Sec.—M. Armstrong.
D. Fin.-Sec.—H. Patterson.
W.D. Treas.—Jas. Garside.
W.D. D. of C.—A. Hawley.
W.D. 1st Lect.—C. H. Luffman.
W.D. 2nd Lect.—Wm. Nohall.

TWO LINDSAY RINKS WILL PLAY THE PRIMARY FINALS TODAY

Results of 2nd Round of Consolation and Semi-Finals---Local Rinks are in the Consolation.

Several Close and Exciting Games Played Yesterday---Bonspiel will be Over Tonight.

The second day of the Peterborough bonspiel was the biggest yet. There was curling almost continuously from nine o'clock in the morning until 12 o'clock at night, with the result that the semi-finals have been played, reference to which games will be found below. The games yesterday morning and afternoon were very exciting, and many close ends were curled. Wilson of Colborne, and Matthews of Peterborough, played a very close game, the score being 11 to 10, in favor of the Colborne rink. Besides the close games there were several big scores run up, such as 22 to 8; 20 to 8, etc.

During the morning and afternoon 14 contests were held in which 28 rinks took part. For the evening games four rinks played in the 2nd round of the consolation and then the semi-finals were pulled off.

First Round Consolation, 9 a.m. Wednesday;

Bobcaygeon. Davis—1.	Keene. Campbell—10
Colborne Wilson—11.	Peterborough. Matthews—10
Peterborough. Neill—11.	Peterborough. Pearson—5
Lindsay. O'Connor—15.	Keene. McIntyre—7
Lindsay. Gage—22.	Peterborough. Fraser—8
Peterborough. Ferguson—11.	Peterborough. Brown—15
Peterborough. Giroux—14.	Lindsay. McFadden—8

Second Round Consolation, 1 p.m;

Orillia. Thompson—7.	Peterborough. Ray—12
Lindsay. Wallace—9.	Peterborough. Morrow—17

Primary Competition, 1 o'clock—

Orillia. Toogood—8.	Lindsay. Little—14
Beaverton. Dobson—20.	Peterborough. Moore—8
Napanee Ham—16.	Lindsay. Flavelle—14

Today's Program

Everything going well the bonspeil should be wound up tonight and in the morning all the curlers will skiddo. There are eight rinks left in the consolation and they will meet this morning to complete the third round. This afternoon the semi-finals will be played and the bonspiel will come to an end.

Reid, (Bobcaygeon) vs Dobson of Beaverton.
O'Connor (Lindsay) vs. Giroux. Connal vs. Ham (Napanee).
Morrow vs. Davidson.

PRIMARY FINALS.

Flavelle vs. Little.

Bobcaygeon. Reid—14.	Peterborough. J. H. Connal—11

Consolation 2nd round—

Bobcaygeon. Davis—5.	Colborne. Wilson—23
Peterborough. Neill—10.	Lindsay. O'Connor—18
Lindsay. Gage—14.	Peterborough. Brown—10
Peterborough. Giroux—10.	Peterborough. Greer—9

Consolation 3rd round, 8 p.m.—

Peterborough. Ray—10	Peterborough. Morrow—18
Peterborough. Davidson—13.	Orillia. Toogood—11
Colborne Wilson—7	Lindsay. O'Connor—21
Lindsay. Gage—11.	Peterborough Giroux—16

SEMI-FINALS.

In the semi-final of the primary it was at Lindsay. Both Flavelle's and Little's rinks won, although for the first seven ends Reid gave the Lindsay veterans a hard run and was three up. On the 8th end Flavelle got three which made it a tie. The 10th end was a tie but that was the finish of Bobcaygeon. They did not score again and Mr. Flavelle was six up at the 14th end.

In the other game Little vs. Dobson of Beaverton, it was Lindsay all the way through. The Beaverton players did not get started soon enough although they made a strong finish.

This morning at nine o'clock the two Lindsay crack rinks will meet to decide the winners of the primary. The game will start at 9 o'clock, and it will be watched with the greatest interest by everyone. Their should be an exhibition of tankard curling.

The rinks in the semi-finals are,

Lindsay.	Bobcaygeon
F. Williams	C. Dickson
W. Williams	W. T. C. Boyd
P. H. Cuthbert	J. T. Robinson
J. D. Flavelle—14.	W. J. Read—8
Lindsay.	Beaverton
W. E. Reesor	M. Roche
M. H. Sisson	W. Dobson

T. Burke	L. Birchard
G. A. Little—18.	A. Dobson—10

CONSOLATION 3RD ROUND.

In the consolation 3rd round played after supper last night, D. Davidson won his game from Toogood of Orillia, after an extra end had been played. At the eighth end they were tie, then Orillia took 3, and in the next two ends Peterborough got 3. At the 13th end Davidson was one up, and Orillia lay one in the 14th, making the score 11 all. In the extra end Davidson got 2 giving him 13 and the game.

Rice Lake Ice Piled 12 Feet High on Shore

Yesterday Capt. McAllister was up from Gores' Landing, and informed The Times that the ice on the shores of Rice Lake was piling up 10 or 12 feet high. He never saw anything like it in all the years he has been residing at Gores' Landing. He states that after the mild weather new ice formed on top of the old ice, showing it up on shore in piles in all directions. One of the new government wharves was completely destroyed, the ice having torn it asunder, and put it out of bianess.

Address to Hains Jury Outdelmased Delmas

New York, Jan. 13.—With the million and a quarter words of testimony taken in the trial of Thornton Jenkins Hains before him, John E. McIntyre yesterday began an impassioned plea for the life of the defendant. In dramatic effect and interest lawyers who are conversant with recent murder trials in New York declare there has been nothing to equal the Hains' plea in years. McIntyre out-Delmased Delmas and gave even the oratory of Littleton in the second Thaw trial a close race.

And McIntyre was handicapped. He was defending a collateral defendant so to speak. The prisoner at the bar had not fired the shots, it is true, but, on the other hand, it was not his home that was alleged to have been ruined by William E. E. Annis

A REGULAR ACTOR

Nevertheless, the "unwritten law" was promptly and strenuously invoked. The bridge of insanity, which is supposed to save "unwritten law" slayers from the electric chair, was built with all skill and cleverness. Mr. McIntyre became the actor at times. He frothed at the mouth as Captain Hains is supposed to have done. He shambled, he showed the jury glassy eyes. It was a drama and a tragedy, and all the while Thornton Jenkins Hains sat just behind him looking at the jury.

The dramatics of McIntyre's summing up were at times most intense. On one occasion he hauled out the return trip tickets from Bayside. Turning his back on the jury, he went up to Turnton, and in a voice that could be heard almost to the Bridge street station, shouted;

"These tickets, thank God, are with us. These tickets have saved your life, and there is no doubt about it, Thornton."

"I am just about ready to drop in my tracks, and I'm not nearly through," said McIntyre at 5.30 o'clock. "I can finish tomorrow morning."

TRUSTED THE JURY.

Judge Crane said he would adjourn court and that he would not lock up the jury, as he trusted them absolutely. He told Mr McIntyre that the case must go to the jury by Thursday, and that if necessary a night session would be held tonight.

HIS OPENING WORDS.

Mr. McIntyre began his address as follows;

"You are now going to hear me for the last time in behalf of an unfortunate man, around whom some circumstances have been woven—easy however, of satisfactory explanation. They point toward innocence, and they may be a stretch of the imagination be tortured in the direction of guilt. In other words, the moral must always be presumed rather than the immoral.

"I want to impress upon you that you are just as mighty and important in your sphere as any judge ever was in his. It is for you to say, and no one else, whether this defendant is guilty or not guilty. It is for you to say whether he shall live or die, and die he must if you say the word guilty. He must be led away, like a ferocious animal, until a dead march begins to a chamber of horrors, a chamber of death, pinioned with the appliances used in legal atonement, and then shocked and burned to death by an unseen agency.

LOVED HIS BROTHER.

"Thornton Hains loved his brother, and for that it would appear that the prosecution seeks to condemn him. Thornton was the keeper of his brother—for that, too, now that he seems to be condemned. Thornton Hains only protected his brother from the wrath of an infuriated mob. For the love of Peter, he saved his life, and for doing that it is now asked that his life be expiated.

Two Little Girls were Burned to Death in a Fire at Ottawa

Parents Both Injured--Husband Saved Wife, But was Too Late to Rescue the Children Who were Burned to a Crisp

Ottawa, Jan. 13.—Annie, aged five; Elizabeth, aged three, the two children of Mr. and Mrs. J. C. O'Neill, on Armstrong street, Ottawa, were burned to death at three o'clock this morning.

When the temperature was 15 degrees below zero fire broke out. The father, asleep down stairs, rushed up, and managed to save his wife, though both were badly burned about the hands and head. He made several efforts to get back for the children, but could not.

The place was soon a mass of flames, as it was a light frame structure, and the bed containing the little sisters fell through to the bottom floor, where later, they were found dead in each other's arms, both fearfully charred.

THE MARRIOTTS BELOW.

It was a double tenement house, and the family of William Marriott, his wife and four children, occupied the other side. The Marriotts all got out safely, but Marriotts, who has but one leg, and at the time, had his cork leg unstrapped from his body, had not time to get it, and in getting out fell down stairs. The cork leg, along with everything else, was destroyed, and the six members of this family escaped only in their night robes.

They and the O'Neill couple were looked after by neighbors.

Board to Decide What Public Should Pay for the Trent Canal Energy

Ottawa, Jan. 13.—In view of the very large development of water power which will result from the completition of the Trent Valley canal across the Province of Ontario from Georgian Bay to Lake Ontario, the Minister of Railways has thought it well that a policy should be laid down which will ensure the sale of this power to individual users at reasonable rates. Where power from the Trent Canal, therefore, is being sold to the public in electrical energy or other form, the epower is being placed in the hands of the Board of Railway Commissioners to regulate the price to the public. This will apply to existing power works as well as to those which are established hereafter. The completion of the canal will largely increase the power which present lessees are able to draw from it, and this will necessitate a readjustment of the terms of lease.

Authority to place this matter in the hands of the Railway Commission will be taken from Parliament at the approaching session.

Yankee Dollars Getting the Control

London, Jan. 13.—John Ashworth, who attended the meeting of the 1908 Canadian Mining Institute as delegate for the Manchester Mining Society, in a report says; "Canada is a wonderful field for mining enterprises. The tendency with Canadian and other mining men is to regard with suspicion the financier with 'wild cat' schemes. At the same time there is a readiness to entertain any reasonable proposition for the development of the areas which are being constantly prospected. The possibilities of Canada are enormous, but if the British mean to keep it they should see they keep control financially, and not let American dollars have control, as was the tendency very much at the present time." The chairman suggested it would be interesting to hear something of Canadian coal field and coal mines.

Among those who have intimated their intention to be present at the banquet to the Canadian curlers at Edinburgh are Lords Elgin, Haddington, Inverclyde, and Dunedin.

F. Kapp, an Irish manufacturer in Dublin, has just returned from Canada. Interviewed, he expressed the hope that the question of a Canadian system granting facilities to manufacturers to start factories would be discussed publicly. Some attempt should be made to emulate it, which would tend greatly to help forward the industrial development of Ireland.

EXAMINATIONS A NUISANCE.

Dr. Bovey, addressing the Mathematical Association, thought text books and examinations an unmitigated nuisance, if perhaps necessary, they being abandoned by Americs as much as possible. Dr. Bovey expressed a high opinion of mathematics as a mental discipline.

IMPERAL WAR STAFF.

London, Jan. 13.—Sir Frederick Borden sails for Canada on Friday. The Canadian Associated Press understands the discussion of Sir Frederick Borden with the Minister of War will result almost immediately in written regulations for the constitution of a general staff for the Empire for submission to the overseas governments.

London, Jan. 12.—The Bishop of Moosonee has advised the Home Government to purchase a trast of land in his diopese, whereon to place the unemployed. Lord Strathcona told him he had been trying to convince the government of the value of the idea for a septennium.

Wm. Weir Has Resigned

Mr. Wm. Weir, father of Mr. David Weir, township clerk of Harvey township, who has been treasurer of the township for 35 years, has resigned. Mr. David Weir has been appointed to the dual position. Mr. Weir, who was born in Otonabee, went to Harvey over 40 years ago being one of the first settlers there. Those who have the pleasure of Mr. Weir's acquaintance know what a fine man he is and it is not strange that he has retained the confidence of the people of Harvey for so long a time.

Rosy and Plump

Good Health from Right Food

"It's not a new food to me," remarked a Va. man, in speaking of Grape-Nuts.

"About twelve months ago my wife was in very bad health, could not keep anything on her stomach. The Doctor recommended milk, half water, but it was not sufficiently nourishing.

"A friend of mine told me one day to try Grape-Nuts and cream. The result was really marvellous. My wife soon regained her usual strength and to-day is as rosy and plump as when a girl of sixteen.

"These are plain facts and nothing I could say in praise of Grape-Nuts would exaggerate in the least, the value of this great food."

Name given by Postum Co., Battle Creek, Mich. Read, "The Road to Wellville," in pkgs.

"There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

The New Officers were Installed

The new officers of Peterborough Lodge, A.O.U.W., were installed Tuesday night by Mr. J. J. Turner, ex., District Deputy Grand Master.

The officers for the year 1909 are as follows.

P.M.W.—J. J. Turner.
M.W.—Jas. Mulholland.
Foreman—G. W. Powell.
Overseer—Jas. Collinson.
Recorder—T. G. Gillespie.
Financier—F. J. Jamieson.
Treas.—Wm. C. Barrie.
Guide—Adam C. Gould.
I.W.—Wm. Bell.
O.W.—R. G. Ivey.
Representative to Grand Lodge — Jas. Mulholland.
Alternate representative to Grand Lodge—F. J. Jamieson.
Auditors—F. J. Jamieson and T. G. Gillespie.

Wedding Presents

Anything and everything in the shape of wedding presents at sacrifice prices. January sale of china and glassware in full swing. Times Bookstore.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—25c. Sold by all dealers.

Claims Damages Against the City

The first committee of the new council to meet this year was the Legal. Ald. Turner, the chairman presided, and he notified the committee of the request for damages from Mr. McCluskey, whose horse was struck by the fire department rig some time ago on Hunter street. The request was considered, but as there was no information to hand the matter was left over until another meeting. In the meantime evidence will be gathered to enable the committee to deal intelligently with the subject.

The city has had to bear a portion of the cost of the flagman at the C.P.R. crossing on Aylmer street ever since the flagman was put on. Recently the Grand Tunk put a siding across Aylmer street to connect with the C.P.R. siding to the Matthews' Company's factory. Now the Legal Committee considers that the G.T.R. should pay the city's portion of the cost of maintaining the flagman.

Mr. R. F. McWilliams presented a claim for damages on behalf of Mr. Kennedy who fell on the sidewalk in front of the Review office last February. The matter will also be looked into and taken up at another meeting.

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

Water Gauge Burst

C.P.R. Fireman Badly Scalded

C. P. R fireman, Geo. H. Duffus, who lives in Robertson Street, Fort William, while on his engine near Westford happened with a nasty accident. The water gauge of the locomotive burst and scalded the whole of the left side of his face and head terribly.

"It so happened," said Duffus to our representative, "that I had a box of Zam-Buk in my pocket, which I used for a sore on my lip, and when I had recovered from the first shock of the accident, I produced the balm and had it applied freely to the scalded parts. At the time I applied it I was suffering acute agony, but within a wonderfully short time Zam-Buk gave me ease, I was able to continue my journey, and upon reaching home I obtained more Zam-Buk and continued the treatment. It acted wonderfully well, and in a few days had the wound nicely healing. I don't know anything so fine as a healer of burns, scalds, cuts, and similar injuries which workers are so liable to; and in my opinion a box of Zam-Buk should be kept handy in every worker's home."

There is something different and superior about Zam-Buk. Time and again workers in all branches of trade have proved its vast superiority over the advertised ointments and salves of the day. No doubt the fact that Zam-Buk is made entirely from herbal essences and extracts, while ordinary ointments contain more or less animal fats and oils, goes a long way to explain Zam-Buk's superiority. However, this may be, the fact remains that in four continents to which it has been introduced within ten years it has become the leading household balm!

For burns, cuts, scalds, bruises, eczema, piles, ulcers, ring-worm, itch, salt-rheum, bad leg, festering sores, chapped places, cold-sores, frost-bites, and all skin injuries and diseases, Zam-Buk is beyond doubt a most marvellous cure.

Druggists and stores sell at 50 cents a box and the Zam-Buk Co., Toronto, will mail a box, post free, upon receipt of price, to any of our readers who may have difficulty in obtaining a supply of the genuine Zam-Buk from their local stores.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

A SIGNIFICANT MOVEMENT

It is a common matter for Canadians to claim, in conversation with their friends in the United States, that the British system of Government is more responsive to the popular will than that which obtains under the constitution of the Republic; but it is not often that a leading United States newspaper makes the same admission. That has been the case, however, with the Detroit News, which, animated possibly by the recent illustrations of Presidential petulence given by Mr. Roosevelt, argues that the time is rapidly coming to the Republic when the people will have to appreciate "the superiority of the parliamentary to the presidential system." The News says:—

"In Great Britain no constitutional or even legislative change was needed to bring about this change from the absolutism of the Tudors to the present system under which the Crown is a mere figurehead; and the ministry are momentarily subject to the will of the Commons. The Parliament simply refused to give the Government any money until the latter became responsible to it. It was not all done in a day, but little by little the demands of Parliament were enforced upon the Crown by a refusal of supplies until the whole revolution was effected. In France the constitution expressly provides for responsibility of the ministere to the Chamber. In Germany the ministers are, through the Chancellor, responsible to the Sovereign, but recent events show how this is in the way of being completely reversed by making the Chancellor responsible to the Reichstag. Had the latter refused the explanations of Prince Buelow, he would have resigned, and he would have also resigned had not the Emperor accepted and approved those explanations and complied with the Chancellor's conditions. The Reichstag will never recede from the point it gained in this instance, and will and point after point until the Hohensollern house in Germany will do as the Hanoverian house did in England—concede the substantial choice of ministers and the control of their policy to the Parliament. That is all that responsible government means.

"In the United States the change could come about in the same way, or even without such a struggle between the Executive and the Legislature. If we should some time elect a President who could appreciate the superiority of the parliamentary to the presidential system. Such a President could, for instance, keep his secretaries as permanent under secretaries are kept in England, but at the same time recognize the chairmen of the great committee of the Senate and House as the real heads of the departments, take council with them jointly on all policies of the Government, and hold them responsible for a permanent majority to carry out the policies which they would themselves initiate and formulate.

"There is nothing in the constitution to forbid such a method of conducting the Government, as the President may take council and follow the advice of whomsoever he pleases, and, indeed, all Presidents have been compelled to keep in touch with the leaders of the two Houses and to frequently call them for advice. To enlarge this custom and formulate it into a regular practice would need no legislation, and it would be almost precisely the way that the British Government drifted, so to speak, from absolute despotism under the Plantagenets and Tudors, and became the first example in the world of genuine responsible and popular government.

"If it has not done in this or some other way by the initiative of a wise President, it will have to come by a fierce and prolonged struggle between the Executive and the Congress, possibly stained with the blood of the people, as it was in Chili, where only by a civil war could congress succeed in finally overcoming Balmaceda, who attempted to make himself an absolute despot."

Such a movement in the United States, is, indeed, most significant, and is bound in course of time to bring about some modification of the present system under which the President has powers more despotic than those of a Czar of Russia or a Sultan of Turkey. Canadians, who themselves possess the boon of free constitutional government, will watch the progress of the movement with considerable interest and with curiosity as to how the change can be effected.

How's This

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.,
Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

BRITISH CONTROL OF INDIA

Current dispatches from India give dramatic emphasis to the necessity of British sovereignty in that country. The hostility of ages between Brahmin and Moslem has again for the thousandth time become exacerbated into open and deadly violence. There are riots and bloodshed and loss of life, and British troops have had to intervene between the contending factions to prevent a holy war which might involve the empire. Mobs of natives are impotent against trained troops, but against each other they would be capable of vast mischief, and absence of imperial control would unquestionably permit occurrences which would shock humanity and make imperative the demand for reintervention.

Such an occurrence as the present would be significant at any time. It is doubly significant, since it follows directly upon or, indeed, is simultaneous with widespread manifestations of disaffection toward British rule and threats and fears of a general insurrection. Agitators have pretended that British rule was odious to all Indians, who desire above all else to get rid of the hated Feringhee and to rule themselves according to their own benevolent will. Yet at the very first sight of

Mohammed Yar
Prodding Siva's sacred bull down the
Bow Bazzar,

the passion for freedom from the British yoke is forgotten in a surpassing zeal to renew the ancient feud of Brahmin against Moslem—and incidentally, if unintentionally, to demonstrate again to the world in conclusive fashion the unfitness of that seething congeries of conflicting creeds and races for self-government.

The fact is, as "The Spectator", of London, recently remarked, that there is only one thing which links together the diverse parts of India, Peshawur to Mandalay, Cashmere to Madras, Bombay to Sikkim. It is not British bayonets, which are an evidence of power rather than the power itself, but it is the ethos of British rule. The precise components of that may not easily be determined with exact accuracy. Doubtless the potency of physical force is one. Another is the sentiment of racial superiority and prestige. A third, probably the most efficient of all, is the appreciation of the general impartiality and justice of British rule and the realization that, though at may seem arbitrary and oppressive, it is in fact, on the whole, righteous and beneficent and is the one thing which saves India from becoming a welter of universal woe.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box 48 Preventics—25 cents. Ask your druggist. He knows! Sold by all dealers.

ADVERTISE IN THE TIMES

SIDELIGHTS ON THE FIRST PENSION DAY

On New Year's Day the English Pension Act came into force and more than half a million old folks colected the few shillings each which "Free Trade and a Liberal Government," as the leader describes the agencies to be thanked, had provided for them. To be eligible for a pension the applicant must be more than seventy years old, and a British subject. The scale of pensions is as follows:—

Five shillings a week where the pensioner's means do not exceed £21 per annum.

Four shillings a week where the pensioner's means exceed £21, but do not exceed £23 12s. 6d.

Three shillings a week where the pensioner's means exceed £23 12s. 6d., but do not exceed £26 5s.

Two shillings a week where the pensioner's means exceed £26 5s., but do not exceed £28 17s. 6d.

One shilling a week where the pensioner's means exceed £28 17s. 6d., but do not exceed £31 10s.

KILLED BY JOY.

The London Leader publishes interesting little biographical sketches of some of the pensioners, an dthe Express adds a pathetic touch by calling attention to some poor old folks who died just as the evil days upon which they had fallen seemed to be over. One man, an ex-gunner of the Royal Artillery, dropped in a post office just as he was about to receive his pension. The excitement of drawing his money caused the death of another veteran of 84sbkling, who expired on returning home. A Sandwich woman dropped dead in the post office, and two other aged Sandwich people expired on New Year's Day. An old Kilkenny woman died on her way to the post office; two others passed away on New Years Eve. "It was a pathetic sight—the streamy of old, worn men and women, some half blind, some bent with age and rheumatism, hobbling along with sticks, some led by neighbors, some moving along by themselves, a few steps at a time, shaky and fearful, but independent to the last."

LIVING ON 10s A WEEK.

The story is told of two aged Londoners, the husband aged 72, with a cataract on one eye, and very little sight in the other, and the wife a year younger. They have several children, but only one of them is able to help his parents, and only to the extent of 2s. 6d. a week. The old woman earns 2s. every second week by minding a house, while the family goes visiting for the day; and 2s. extra once a month as a charwoman. They will have 10s. a week pension between them.

THE OLDEST PENSIONER.

The oldest pensioner is thought to be Mrs. Rebecca Clarke, of Woodgreen, London, who is said to be 104. She was married in 1830, and had nine children. She has many grandchildren and great-grandchildren; and what is hard for Canadians to understand is the poverty that must surely grip the whole Clarke family if a score of its members cannot provide for the old lady the few years or months she is likely to live. One of Birmingham's pensioners is a well known character, Sergt. John Williams, popularly called "Father Christmas." He was all through the Indian Mutiny. Another pensioner, who explains her longevity to the hard work she has done for the 70 odd years, is a great grandmother with 37 descendants. Another London pensioner was born before Waterloo, and remembers best of all the great sights of his life, Victoria driving through London on her way to be crowned.

HONORING OLD AGE.

"Honored Old Age" is the odd heading the Leader places over a number of pensioners' photographs. To some it would seem that old age is not honored, when it must depend upon the charity of the nation for maintenance. When the kinsmen or friends of a helpless old man cannot or will not come to his support, the community must, for the sake of humanity, supply him with the necessities of life. How much better it would be to have a trade policy that would offer every man the chance of a good living while he was able to work, and leave him a little surplus so that in his old age he could take his ease and remain independent and self-supporting to the last!

Death Ends Claim to the Dukedom

New Orleans, Jan. 13.—The death here yesterday of Bartholomew Albanez ended his claim to the Dukedom of Verona in Italy and an estate said to be valued at many millions of dollars. The father of Albanez, who was an oyster pedler here, is said to have fled from home when a lad. He died a few months ago, and in an old tin box, which he left to his son, papers were found which were claimed to have revealed his identity.

Upon being told by lawyers here a short time ago that his claim was apparently a bona fide one, Albanez's reason became affected. Some days later he was found half starved in a forest near here which he had conceived to be his ducal estates. Negotiations were being carried on in the matter at the time of the claimant's death.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

$240,000 in Prizes for Various Airships

London, Jan. 13.—The International Association of Aeronauts to-day adopted a resolution that the federation should found prizes to the value of $240,000 for aviation and dirigible balloons. The plan provides for a $10,000 gold cup as a special prize for flying machines, and ten prizes of $20,000 each, half of this number for dirigible balloons and half for flying machines, together with a $10,000 cup in each department.

These ten prizes, it is proposed, shall be competed for in ten separate competitions, one to be held every five years. The suggestion was made that the United States, Germany, Great Britain and France shall each contribute $40,000 to this fund, and Belgium, Spain, Italy and Austria $20,000 each. Twenty thousand dollars is to be devoted to the construction of portable sheds for the competing machines.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

Superintendent.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

DOMESTICS

Next time you are in need of a good girl to help you in your housework, send in a small advertisement to THE TIMES

THE TIMES goes into the homes of people who keep servants, and these servants who may intend making a change, will see your advertisment.

THE TIMES goes into many outside towns and villages and your advertisement will be seen by girls coming to the city.

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash values in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinary is installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information of what you have to exchange.

Half Thousand Titles Given by King Edward

King Edward, during the twelve months which have just come to to close, has bestowed near half a thousand honorific distinctions. They comprise seven new peerages, of which two are of the rank of viscount, and the five others baronies. Singularly enough, five baronies have become extinct during the last year, through the death of their holders without issue. Consequently, the actual increase in the number of peerages is to be found in the two viscounties—namely, those of Lord Morley, of Blackburn, the secretary of State for India, and of Lord Wolverhampton, president of the Privy Council, who was Sir Henry Fowler. Neither of these viscounts have sons, and their honors will lapse at their death. Eighteen new baronetcies have emanated from the so-called fountain of honor—that is to say, from the Crown—during 1908, and four only have become extinct. Where the chief increase, however, is to be found is in the number of knighthoods of the various orders bestowed. These include no less than four ribbons of the Order of the Garter, while 97 men have received the grand cross—that is to say, the highest grade of the other orders. In addition to this there have been almost a hundred bestowals of the dignity of knight bachelor—that is to say, knighthood of none of the orders of chivalry, but which enable the person thus honored to prefix the word "Sir" to his Christian name, while his wife is entitled to the predicate of "Lady" instead of "Mrs."

COSTS MONEY TO GET TITLE.

The contribution of the newly created peer to the exchequer of the political party to which he belongs, and to which in the majority of cases he owes his elevation to the Upper House of Parliament, is not the only expense to which he is put in connection with his coronet. There are likewise fees to be paid to the Crown, which range all the way up from $2,000 to $5,000, according to the grade of the peerage, the fees in the case of a barony amounting to about $2,000, while the fees for a baronetcy are a little over $1,500. These fees are almost entirely in connection with the making out and issuing of letters patent.

Letters patent are required for all baronetcies and peerages; but they are not required in the case of ordinary knighthood, where the latter is bestowed in person by the sovereign or by his representative. They are only issued if the knight is prevented by residence abroad or by illness from being personally invested with the honor by King, Prince of Wales, or Viceroy. The Crown realises that it would be unjust to exact the cost of the patent of knighthood, amounting, to some $300, from the recipient of the honor, who is often a meagerly paid servant of the Government, who is prevented by his duties from returning from abroad to receive the honor in person, and it accordingly assumes the expense, which is paid out of the so-called civil contingencies fund, the accounts of the latter during the past year showing the payment of $3400, under the following item: "Cost of letters patent conferring knighthood on 21 persons residing abroad, who are unable for other reasons to attend investiture."

INSIGNIA TO BE RETURNED.

While on this subject, it may be mentioned that in the case of a number of Orders of Knighthood the insignia has to be returned after the knight's death. The same rules, however, do not apply to all orders. Thus, in the case of the British Order of the Garter of St. Andrew, and of St. Patrick, the star and ribbon have to be returned to the sovereign by the nearest relative or next heir of the deceased knight. In an audience given for the purpose. The gold and enameled collar of the three orders, and in the case of the Order of the Garter, the jeweled garter as well, are returned, not to the sovereign, but to the Central Chancery of the Royal Orders of Knighthood at St. James Palace, except in the case of the Order of St. Patrick, the gold collars of which are returned to Dublin Castle. With the other orders, that is to say, the Orders of the Bath, the Star of India, of St Michael and St. George, of the Victorian Order, and of the Indian Empire, the collars alone have to be returned to the Central Chancery at St. James' Palace, and no audience of the monarch is needed. The family of the deceased knight are permitted to retain the remainder of the insignia, except in the instance of all three classes of the Order of the Star of India and the two higher classes of the Order of the Indian Empire, which have to be returned. In Prussia the collar and insignia of the Order of the Black Eagle, in Denmark the Order of the Elephant, and in Austria and Spain the insignia of the Order of the Golden Fleece, have to be returned.

To Open Lumber Camps for the Unemployed

Winnipeg, Jan. 13.—That the city of Winnipeg should open a lumber camp at the city's limits, at Lac Du Bois, for the relief of the unemployed, is a proposal of Mayor Evans, which is meeting general approval. The associated charities have done splendid work, but lacks funds to cope with the present situation, when the distress of hundreds of men out of employment is accentuated by the bitter cold weather. The city will at once start work on a $65,000 sewer, but this will not be sufficient. "Instead of feeding the unemployed here, why not feed them at a lumber camp of our own and get some work out of them, too," is the proposal of His Worship in a nutshell.

THE SILVER NORTH

Cobalt, Lorraine, Larder Lake and Gowganda

Travellers returning from the great mineral fields of the north are more enthusiastic than ever regarding the permanency of the Silver Camp. Traffic was never better and steadily on the increase. One hundred and fifty teams are now employed daily in moving passengers, freight and supplies to the new Gowganda finds from Earlton, Englehart and Charlton. It is only 18 miles from Charlton to Elk Lake where there are 22 mines, and from Elk Lake to Gowganda is 32 miles.

Leaving Toronto 10.15 p.m. daily, on the Grand Trunk "Cobalt Special," Elk Lake can be reached the next afternoon, via Cobalt, Haileybury, New Liskeard and Charlton, and this will continue to be the best way.

The Ontario Government are being strongly urged to push on the extension of their line from Charlton, which will open up this rich territory.

Full information can be obtained by writing J. D. McDonald, District Passenger Agent, G. T. R., oTronto, Ont.

A Mystery Solved

"Yes, sir, I have a wife and six children in New York—and I never saw one of them," said a New York man to his inquisitive companion.

The couple sat a few moments in silence, the interrogator again commenced.

"Were you ever blind, sir?"

"No, sir."

Another lapse of silence.

"Did I understand you to say, sir, that you had a wife and had never seen her?"

"Yes, sir—I so stated it."

Another and a longer pause of silence. Then the interrogator again enquired:—"How can it be, sir, that you never saw one of them?"

"Why," was the response, "one of them was born after I left."

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and purge of this detestable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it unfailingly cures all curable cases of this heretofore much dreaded disease. These acid-like granules, eaten, found in Rheumatic Blood seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water, and then, when dissolved these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer with-out help. We ask, and in confidence recommend

Dr. Shoop's Rheumatic Remedy

"ALL DEALERS"

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

The Interesting Route

To Manitoba, Saskatchewan and Alberta, is via Chicago and St. Paul, Minneapolis or Duluth Through the brilliantly lighted St. Clair tunnel by electricity, without smoke, gas or dust. Secure pamphlet, "New Route to Winning and West," from nearest Grand Trunk agent.

At Cost

Hand sleighs at cost rather than keep any sleighs over. See our big boys' coasting sleighs at 19 and 00 cents; girls' sleigh at 40c and the "fast mail" with railing all around for only $1 Times Bookstore, nearly opposite post office.

Perquisites of London's Lord Mayor

Although the Mayoral perquisites are few in number, his privileges during his year of office are numerous, but perhaps not altogether utilitarian. For instance, he is the one man in the city, outside the Tower, who possesses the password that will admit him at any hour to the precints of that famous fortress. Four times a year is this secret information imparted to the chief magistrate, and the solemnity of the occasion is vastly increased by the fact that the official information bears his Majesty's autograph. The Lord Mayor, again, has the right to a private audience with the King whenever he chooses to demand it; he has the entire chooses to demand it; he has the entree at levees and drawing-rooms; he drives straight into the Ambassador's court at St. James' Palace, while other less exalted beings make a pilgrimmage round Constitution Hill, and, among other coveted honors, he has the privilege of eking out his official salary during his tenancy of the Mansion House by drawing on his own privy purse to the extent of about £5,000. Who would not be Lord Mayor.

ADVERTISE IN THE TIMES.

....The... Plow Woman

(Continued.)

—I'm going to look into this whole business from first to last," he went on more quietly. "I'll spend the next few days investigating. You got my letter?"

"We went to Clark's for you and got it there." She added that she had feared Braden and spoke of his slack courtesy.

"Oh, well," he said, partly in apology for the real estate agent, "if a man out here don't take off his hat to a girl that means nothing."

"It wasn't the hat," she answered, and described Braden's further conduct.

Lounsbury blazed up again. "I'll see about that, too," he declared. "He must be another sample of imported manners."

They heard the cheery grinding of a coffee mill. As if struck by a thought, she looked toward the shack.

"It's about time for me to go in," she said, a little flurried. Then: "Won't you come, too, and take a snack with us? Marylyn 'd like to see you."

"Marylyn!" He had read her meaning. "Why, Dallas, you don't mean to say that you—that she still"—

"Yes," very low.

"Well"—Lounsbury was determined now—"there's got to be some kind of an understanding. I told you how I felt, and you ran away from me. You shan't do it this time. I'll go to the house, and I'll tell Marylyn just how things are. I will."

"Oh, my baby sister!" she murmured.

Instantly he was all gentleness. "No, no; I won't tell her," he said. "But I'm sick and tired of being tied this way, hand and foot. It was your father first, and now this again—Dallas!"

She could not answer him.

"I won't tell her, I'll wait till—till you do. But you see that I can't go to the house. And I suppose I oughtn't to stay here any longer for her to see. But I'm coming back here tonight at taps."

She shook her head. "Marylyn would be alone," she said hastily, "so—so I can't."

"You will; I know you will. She'll be asleep."

"No—no"—

"At taps, Dallas." He touched the hand that held the scythe upright. She thought all at once how worn he was and white. Another moment he had mounted and was cantering off.

Left alone, she dreaded going in to breakfast, expecting a hurt silence or passionate protests, perhaps tears, and she tried to find it in her heart to blame Lounsbury for not accompanying her.

But Marylyn welcomed her with a question or two, exclaimed sorrowfully at the news of Lounsbury's mother and when the elder girl explained that the storekeeper had been too busy to come to the shack returned a faint smile.

"The brave baby!" thought Dallas.

But Marylyn was puzzling over Lounsbury's true reason for staying away—now when their father was not there to object. He had told Dallas he was busy. That, however, was only a pretext. Finally she concluded that Fraser, in spite of his promise, had made a confidant of the storekeeper and that the latter had seen the hopelessness of his affection for her.

"I'm glad," she said to herself. "Now I won't have to tell him."

Lounsbury pursued a feverish investigation that day and found no one who cared to quibble with him. From the captain, never jealous of his dignity, to the rolly poly sutler there was a very outrush of facts. As they came he received them with pitchfork sharpness, examined them and tossed them aside, which led a wag to remark that the storekeeper was kin to Simon. Yet when retreat sounded he admitted himself hedged in by indisputable testimony. Lancaster's death was beyond easy solving. If Matthews were guilty he was not the principal, only an accessory, to the crime. Nevertheless could the storekeeper have come face to face with the interpreter that day scores would have been settled.

To Dallas, laying the blue stem of the swale, the hours of the morning went slowly. Yet how warm and golden they seemed! How tuneful the birds! How cottony white the clouds that flecked the sky! How pleasant the long, hushing sound of the scythe! And all the while she thrilled with expectancy, and the minutes hung upon each other as if loath to pass.

The very keenness of her joy brought a swift revulsion. At dinner, with Marylyn sitting across from her, she began to see more clearly. She realized she had been dreaming; that for her there was only self denial. She ate nothing, but drank her dipper thirstily, as if to wash away a parch in her throat. Back in the swale again, the scythe was swung less steadily, but with more strength, so that its sharp tip often hacked up the ground. She pulled her hat over her eyes, forbore glancing toward the fort—and fought. A thousand times she vowed she would not meet Lounsbury that night. To give herself a better whip hand she called up pictures of Marylyn—Marylyn, the baby, all dimples and lisping demands for "Dals;" Marylyn, the child, slender, yellow haired, pale; Marylyn, entering womanhood, still dependent, and in her frailty, her possiveness, more dear than ever before.

Then, with the sun beating upon her, with her temples streaming and throbbing under the heat and the strain, Dallas' spirit began to flag. Had she not always borne a hard load, suffered discomforts? There were the women of the post. They knew little toil or privation. The brunt of her mother's loss, her father's taking, had fallen upon her. Was she always to have only sorrow? Now, when happiness came her way—a happiness that another might not have—must she be denied it? Disheartened, dizzy, she left the swale for the shade of the nearest trees.

It was the hottest part of the day, and the life of the prairie seemed at a standstill. No breeze stirred the high

"OXOL"

The word "Oxol" does not mean ox food, or ox preparation do; "Oxol" is a name given to all goods for horses, cattle, swine and sheep, prepared by Messrs. S. K. & T. C. Windsor of Australia New Zealand, England and Canada.

The veterinary preparations as well as the compressed bales of fodder placed on the market of the world under the name of

"OXOL" FOR CATTLE

are all of the greatest possible order of merit and may be used by farmers, graziers, dairymen, and all owners of stock with the full assurance that these goods have the power in a very short time to double their incomes by feeding, fattening and curing all animals, which to them mean money.

One agent only in each district who has sole contract of the local trade for agent's name, see future advertisements, etc.

Cosgrave's Beer

Wordsof praise have ever prevailed in advertising "copy" That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

Cosgrave's Brewery Co.

OF TORONTO, LIMITED

What Every Woman Requires for Headache Languor

Has your strength given out? Do you feel languid and tired this spring?

Are you pale, seem what a rerous, finding it hard to do your housework? Thousands feel just the same,—feel the enervating influence of spring, whether that brings out latent symptoms of disease and weakness. You should do like Mrs. Flannigan of Hemax Junction—here is her experience. "I will never again suffer the torture of deadening spring illness — never until I have headaches, such sleepless nights, such pale cheeks and lack of appetite. I lived through it all several times, but now I know the medicine that cures. I urge every person, young and old, to try the invigorating effect of Dr. Hamilton's Pills. When I was so played out, listless,—Dr. Hamilton's Pills gave me appetite —I relished my meals and grew strong. Rosy color came to my cheeks, every day I felt brighter and better. All my old strength has been restored and the great tonic, blood purifying powers of Dr. Hamilton's Pills did it all."

Women who are continually palpitating and sick headaches, faint and dizzy spells, aching muscles, bearing, downs pains, lack of sleep and loss of appetite—they are the poor women that sorely need Dr. Hamilton's Pills of Mandrake and Butternut, 25c at all dealers.

Juby of Peterborough, was in town today.—Miss Ethel Wallace left this morning for Peterborough to visit friends—Mr. J. Conroy of Peterborough, is in town today for a couple of days—Mr. Eddie Jones of Peterborough, is in town for a few days.

Wanted

At once, good Dining Room Girl. Apply at Queen's Hotel.

Porter Wanted

Handy man wanted as porter. Apply at Times Bookstore.

New Company

We have seen the prospectus of the Southern Alberta Coal Co., of which Dr. J. M. Shaw, formerly of Keene, is president, and Mr. Arthur J. Gibson, formerly of Springville, near Peterborough, is managing director. The coal is described as a first-class domestic coal and will be mined to supply the three provinces, Manitoba, Alberta and Saskatchewan.

Otonabee Navigation Company

A meeting of the shareholders of the Otonabee Navigation Company was held last night in The Times building, when several matters relating to the coming season's operations were considered. The meeting adjourned until the 22nd instant, when these matters will be further considered.

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs, quickly yield to the healing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Contains no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge! Sold by all dealers.

Installation of Officers

The installation of the officers of Court Stanley and Queen Alexandra Circle A.O.F., took place in the S.O.E. Hall Tuesday night. After the business was concluded, Chief Ranger Bro. T. Hendry called on Bro. W. J. Johnston to take the chair, and with the assistance of Bro. Record the officers of Court Stanley were installed. District Chief Companion Mrs. W. Head then installed the officers of Queen Alexandra Circle. Speeches were made and refreshments served. Bro. Huyske favored the gathering with music, and the large gathering of both courts spent a very enjoyable evening.

THE MILK QUESTION

The necessity of action being taken to improve the quality of the milk supplied to the people of large towns and cities is coming to be generally recognized, both on this continent and in Europe. In Great Britain active measures are being taken in that regard, popular sentiment having been aroused by the reports on the impurities existing in much of the milk supplied and the danger to the public health caused thereby. In New York City a Milk Committee, chiefly composed of eminent physicians, has the matter in hand, and after an investigation, extending over three years, has come out with the statement in favor of pasteurization as the method for securing safety from tuberculosis and other milk-borne diseases. The Committee declares that this treatment should be given to all milk which has not been produced under strict sanitary conditions. The Committee has experimented on feeding infants with raw milk and that pasteurized, and has come to the conclusion that it is a crime to feed a baby on milk of the former character. The pasteurization is easily effected, since it only requires that the milk should be raised to seventy degrees centigrade, or one hundred and fifty-eight degrees Fahrenheit in any clean ordinary saucepan. The terrible mortality among infants in the opinion of the Committee is very largely due to the impurity in the milk with which so large a proportion of them are fed.

RHEUMTISM

A Very Bad Case that Was Cured By Perseverance with an Old Time Remedy.

"Were it not that I had great patience and perseverence," writes Mr. Frits Kelfer, well known in London." I would still be racked by chronic rheumatism, which was my unhappy lot for three years.

"I didn't have acute rheumatic fever as so many have—which ran the pain and stiffness came on gradually. When I kept quiet, as on Sunday, I was free from pain—but being a working man I had to move about and the pain was simply awful, though after an hour's resting it would subside.

"I got the idea into my head that although the pain was in my joints, the rheumatic poison was in my blood. My druggist said "Ferrosone" was a wonderful blood tonic, and I began to use it. At first it didn't help at all, only change was a better appetite and more strength. Not being a doctor I didn't know that Ferrosone was all the time working at the root of the disease. I kept right on with Ferrosone and in three months was cured. There is no more stiffness, no pain, and I am as limber as forty years ago."

Every kind of Rheumatism, Sciatica, Nerve Pain and Blood Disorder is quickly cured by Ferrosone. Satisfaction guaranteed. 50c per box or six boxes for $2.50, at all dealers.

Obituary

The infant child of Mr. and Mrs. McGregor, Carlisle avenue, died on Tuesday morning, and was buried in the afternoon in LittleLake cemetery. The sympathy of the whole community is with Mr. and Mrs. McGregor in their sad bereavement.

WILLIAM VANNESS HAGGART.

The death occurred yesterday morning of William Vanness Haggart, the eldest son of Mr. James Haggart, 619 Union street, aged 21 years, 11 months. The deceased was very well known in Peterborough, having been born here and lived the greater apart of his life in the city. He was a resident of Richfield Springs, N.Y., for three years, but returned to Peterborough last summer and had live here since. He had been ill for some time with pulmonary affection.

The deceased was married and his wife survives as well as his parents, one brother, Mr. Fred Haggart, and one sister, Mrs. Mutton, reside in Creston in the Kootenay District B.C.

His funeral will take place on Friday afternoon at two o'clock from the family residence, Union street, to Little Lake cemetery.

MRS. CLARENCE LUFFMAN.

The death occurred at Nicholls Hospital yesterday morning at four o'clock of Lucy Elliott, wife of Mr. Clarence Luffman, 224 Lake street, after an illness of nine weeks. She was 27 years of age, and her death at such an early stage of life is much regretted. She was a woman highly esteemed by all who knew her the news of her demise will be learned of with the profoundest regret. She was the daughter of Mr. John Elliott of Tyendinaga, and was married six years ago to her now surviving husband. She was a member of Park street Baptist church.

Two children, one three years old and an infant, only two days old, and four sisters and one brother are left to mourn her loss.

The funeral will take place today at ten a.m., from the family residence to the Little Lake cemetery.

MRS. ALEX. FIFE.

One of Otonabee's oldest residents in the person of Mrs. Alexander Fife, passed away Tuesday night. She was 89 years of age and had suffered for about a week from acute indigestion. Deceased maiden name was Margaret Eason, and she was born in Otonabee township and had resided there all her life. The father of the late Mrs. Fife, was one of Otonabee's pioneer settlers. Mrs. Fife's husband predeceased her forty years ago. She is survived by three sons, John and George of Otonabee, and Alexander of Dakota, and two daughters, Mrs. McConnell of Dakota, and Mrs. Jas Heal of Peterborough.

In religion, Mrs. Fife was a Methodist, and she was highly respected by a large number of friends. Her death will be learned with deep regret.

The funeral will take place this afternoon at two o'clock to Bethel church. Interment will take place in the Fife cemetery.

MILLIONS OF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Wasted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has been tested in every detail. We KNOW what it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world. Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—too?

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Our smelter thus erected will save 85% in treatment, freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when here you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Wedding Bells

SCOTT—SCOTT.

A quiet wedding was solemnized in the guild room of St. Paul's church Tuesday afternoon, when Miss Ada Marie Scott, daughter of Mr. Hugh Scott of Norwood, was united in marriage to Mr. Robt. A. Scott of Asphodel. The ceremony was performed by Rev. Robt. Pogue.

The groom's gift to the bride was a pearl crescent.

Mr. and Mrs. Scott will reside in Asphodel.

BALL—McCAMUS.

The marriage took place at the home of the bride, Cavan, Wednesday afternoon of Miss Martha Kathleen, youngest daughter of the late Thos. McCamus, to Mr. Henry Wilbert Ball, also of Cavan. The ceremony was performed by the Rev. W. C. Allen, rector of the English church of Cavan, in the presence of about sixty friends and relatives. The bride was attended by Miss Margaret Ball, sister of the groom, and the groomsman was Mr. T. W. McCamus, brother of the bride. The bride's dress was of white satin trimmed with baby Irish lace and seed pearls, with veil and orange blossoms. She carried a bouquet of roses. The bridesmaid's costume was of white silk. She carried pink roses. The ceremony took place in the drawing room under an arch of evergreens. The bride was given away by her brother, Mr. Robert McCamus, of Cavan, and the wedding march was played by Mrs. W. C. Allen. The house was beautifully decorated with evergreens and Christmas bells and holly.

After the ceremony a sumptuous repast was served, the catering being done by Mr. T. H. Hooper of Petarborough.

The happy couple left on the 9.30 G.T.R. train at Garden Hill on a wedding trip to Toronto and Buffalo. On their return they will reside at "Maplehurst," Cavan.

Among the guests from a distance were Mr. and Mrs. Robt. Hutchinson of Huntsville, and Mr. and Miss Fair, of Peterborough.

Mr. and Mrs. Ball will have the best wishes of a host of friends.

KELLY—MOORE.

A wedding that is of interest to many in the city was celebrated yesterday at "Moorevale," Smith, the residence of Mr. and Mrs. J. K. Moore, when their daughter Mary, became the wife of Thomas Noble Dean Kelly, son of the late W. B. Kelly of Bridgenorth. The ceremony took place at two o'clock in the presence of over sixty guests, the Rev. Mr. Bonner, pastor of Gilmour Memorial Baptist church, officiating.

The bride was handsomely gowned in ivory satin, wearing the conventional veil and orange blossoms and carrying a beautiful shower bouquet of white bride roses. She was attended by Miss Mary Elliott of Peterborough, and Miss Beatrice Kelly, of Bridgenorth, both of whom were dainty cream empire gowns and pearl rings, the gifts of the groom. The wedding march was played by Miss Ida Sanderson, who, when the ceremony was over, sang, "The Voice that Breathed o'er Eden." The groom was assisted by Dr. Burritt Kelly, of Toronto.

The large number of presents that were received evidenced the popularity of the happy couple.

An elaborate luncheon was served before Mr. and Mrs. Kelly left on their honeymoon, which will be spent in Toronto, Niagara Falls and Buffalo. The bride wore a travelling suit of navy blue with Persian lamb coat and toque.

Many guests were present from the city and outside points, including Mr. F. D. Moore, of Lindsay, Dr. McQueen of Yarker, Miss Zetta Bottum of Bobcaygeon, Mr. Geo. Morrow and the Misses Morrow, and Mr. and Mrs. Geo. E. Elliott, of this city.

HARD TO LEARN

COFFEE knocked Dorando out twice, once in London at the Marathon race and again in New York. Read the Doctor's report;

From the New York World, Dec 16, 1908

DORANDO'S HEART IN BAD SHAPE AFTER RACE, SAYS DOCTOR

By Dr. Jos. Cramer.

"I examined Dorando immediately after he was carried from the track. His heart was in bad shape and he was in a state of total collapse. In my opinion, the condition of his heart was due partly to overstimulation. His handlers gave him stuff from a bottle which they said was coffee. Even coffee taken in such quantities would be likely to affect his stomach and cause his collapse. There wasn't a bruise on him to show that the fall did any damage."

It has been a part of our mission to explain to people that the drug, caffeine, in coffee seriously affects the stomach, heart, and nerves of some people (a good many).

If you want health and the power to do things and win in the race for any kind of supremacy you better trim off the handicaps—and coffee is one.

It is a joy of the keenest sort to be entirely well

Try it.

Quit coffee 10 days and use well-made POSTUM which goes straight away to work rebuilding broken down nerve centres.

"There's a Reason"

You can prove it in your own case.

Receives Wedding Gifts Worth Half a Million

Earl of Granard, King Edward's Master of Horse Marries Niece of Ambassador Reid-- One Check for Hundred Thousand

New York, Jan. 14.—The marriage this afternoon of the Earl of Granard and Beatrice Mills, daughter of Mr. and Mrs Ogden Mills, and niece of Ambassador Reid, has been awaited as one of the season's social events of importance.

The bride is a granddaughter of D. O. Mills, the financier and philanthropist. The Earl of Granard is Master of Horse to King Edward, and head of Royal Equerries.

A temporary altar was erected in the Louis XV. room of the Mills residence in West 69th street for the marriage ceremony, which was performed by Bishop Cusack of St. Stephen's Roman Catholic church.

The bride wore a white satin Empire gown, with a veil fastened with orange blossoms and carried a prayer book instead of a bouquet. She was attended by Miss Alice Astor, daughter of Col. and Mrs. John Jacob Astor; Miss Grace Vanderbil, daughter of Mr. and Mrs. Cornelius Vanderbilt; Miss Edith Taylor and Miss Beatrice Bishop.

She was given away by her father, Lord Granard's brother, the Hon. Donald Forbes, was best man. The guests numbered about 250 They included a number of the notables of society of this and other cities.

GIFT OF $100,000.

The gifts to the bride included a check from her father for $100,000, to be supplemented later on, it is said by a London town house from her grandfather, D. O. Mills. Her mother gave her a tiara of perals and diamonds with tips of pear-shaped pearls and diamonds. The bridegroom's gifts to her were a collar, tiara, and corsage ornaments of diamonds, but of these she has seen only the photographs, the originals remaining in London to greet her when she arrives to take up her residence there.

WORTH HALF A MILLION.

Numerous other ornaments of diamonds and other precious stones and a great quantity of silver were showered upon her, the total value of her wedding presents being said to reach half a million dollars.

The Earl and Countess will spend a few weeks at the country home of Mr. and Mrs. Mills in Staatsburg-on-the-Hudson, and will visit Washington before their departure for England, Feb. 20th next.

Their home in London temporarily will be the Earl of Dartmouth's house in Berkeley square.

"Jiddy" Miller Injured in a Wreck--One Finger Taken Off

Guelph, Jan. 14.—A serious accident, fortunately not attended with loss of life so far, occurred shortly after 11 o'clock this morning, two miles from Guelph Junction. When the heavy-laden morning passenger train, which leaves here at 10.40, was in the vicinity of Gourock the rear coach left the track, due, it is supposed, to a broken tire, and then went into the ditch. In so doing the coach overturned, and a scene of terrible confusion ensued amongst the passengers amongst whom were several Guelphites, besides the members of the Brantford professional hockey team, which played here last night, and the Hamilton Thistles' curling team, going home from the Fergus bonspiel.

HAMILTON DOCTOR ON BOARD

A large number of those received more or less serious injuries, but it is not yet known if any of them are likely to prove fatal. Dr. Peters of Hamilton, was on board, and assisted in caring for the injured, the most serious of whom are Guelph people.

OTHER COACHES KEPT ON.

The train had left Guelph Junction and run about two miles towards Brantford, when the tire of one of the wheels in the rear truck broke. The car jumped the rails and rolled over on the left side, being dragged along the ties. The engine and other coach kept on the irons.

Among the injured are Walter (Jiddy) Miller, son of Mr. F. W. Miller, who had one of his fingers taken off. "Jiddy" plays rover for the Brantford professional team. As soon as he was able he wired to his father to the effect that he was in a wreck but that he was all right. He will not, however, be able to play much hockey until his dismembered hand gets a chance to heal.

The Undraped Dance Shocks the Diet

Berlin, Jan. 14. — The question of shows in which nude women appear, which was inaugurated some time ago by Die Schoenheit, or Beauty Society, was debated in the Prussian Diet today on an interpellation by Herr Hagren, a Catholic member, who wanted to know how the Minister of the Interior intended to defend the country's morals, which were threatened by performances in which the use of drapery was reduced to the minimum. The question in the main was very serious. Herr Roeren and other members who attended a performance, denounced the indecency of the sword dance then given, in which a young woman appeared wearing only a diadem in her hair. They declared the deep shame they felt on seeing women of all ages present on that occasion, but some few right-hearted deputies got much amusement from the debate and roared with laughter at the shocked countenances of their graver colleagues when Count Moltke, Minister of the Interior, after stating the purely legal aspect of the case, spoke as follows: "As to the limits of what is permissible in representation of the nude, opinions differ widely. In my own judgment this point is unalterably settled. The beauty of the human body as God made it is as incontestable as it is harmless. To represent the human body in its beauty has always been the highest aim and justifiable endeavor of every serious scientific art. Who could feel anything but ideal emotions at the sight of the Venus di Medici and other immortal works?"

NO ACTION TAKEN.

After this Count Moltke in vain denounced the "beauty evenings" of Die Schoenheit as an abuse of good principles and as a danger to public morality, for the Minister brought upon himself the angry rebukes of the stern moralists, whom he found it impossible to placate. The debate was adjourned indefinitely without any concrete result.

Olga Desmond, whose nude dances scandalized the complainants, was an interested auditor in the public gallery of the Chamber. She maintained a demeanor of wide-eyed amusement at the denunciation of her performances, for which she claims only moral and artistic motives.

At Cost

Hand sleighs at cost rather than keep any sleighs over. See our big boys' coasting sleighs at 75 and 60 cents;; girls' sleigh at 40c and the "fast mail" with railing all around for only $1. Times Bookstore, nearly opposite post office.

A Poor Weak Woman

As she is termed, will endure bravely and patiently agonies which a strong man would give way under. The fact is women are more patient than they ought to be under such troubles.

Every woman ought to know that she may obtain the most experienced medical advice *free of charge* and in *absolute confidence* and privacy by writing to the World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce's staff of assistants and consulting physicians of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., for many years associated with him in private practice, has had a wider practical experience in the treatment of women's diseases than any other physician in this country. His medicines are world-famous for their astonishing efficacy.

The most perfect remedy ever devised for weak and delicate women is Dr. Pierce's Favorite Prescription.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

The many and varied symptoms of women's peculiar ailments are fully set forth in Plain English in the People's Medical Adviser (1008 pages), a newly revised and up-to-date Edition of which, cloth-bound, will be mailed *free* on receipt of 50 one-cent stamps to pay cost of mailing only. Address as above.

LITTLE'S RINK WON PRIMARY AGAINST FLAVELLE'S CRACK RINK

Peterborough's Bonspiel is Over—Semi-Finals and Finals in the Consolation were Keenly Contested—S. G. Ham's Rink Won from L. V. O'Connor

PRIZE WINNERS

The following are the rinks which won the prizes at the Peterborough Bonspiel;—

Primary contest—Prize, four pair of stanes;

LINDSAY

W. E. Reesor.
M. H. Sisson.
T. Burke.
G. A. Little.

1st consolation—Prize, four travelling bags—

NAPANEE.

H. Daly
R. G. H. Traver.
C. J. Blaybee.
C. S. Ham.

2nd consolation—Prize, four pair military brushes;—

LINDSAY.

F. Carew.
R. Butler
F. Knowlson.
L. V. O'Connor.

3rd consolation—Prize, four cut glass bon bon dishes;—

PETERBOROUGH.

R. Carton.
H. A. Morrow.
G. L. Hay.
W. G. Morrow.

The first bonspiel in Peterborough's new rink was brought to a close last night about eight o'clock when the consolation finals were completed and today all the visiting curlers are at home. That the bonspiel was a big success is admitted by everyone and that all the players had a good time is also admitted. The only unfavorable feature of it was the poor showing made by the local rinks. Only one Peterborough rink got as far as the semi-finals. This is no doubt due to the fact that there are many new players, and the defects will be overcome before the next bonspiel.

PRIMARY FINALS.

The contest for the primary finals was between the two strong Lindsay rinks skipped by Messrs. Flavelle and Little. It was started at nine o'clock yesterday morning, and the eighteen ends took until after twelve o'clock to finish. It was a battle royal and played with as great enthusiasm as was displayed by the many spectators who watched it from start to finish. The result was a popular one with the crowd too, although Mr. Flavelle, the veteran knight of the besom and stane had many supporters.

CONSOLATION.

There was as much interest taken in the semi-finals and finals of the consolation as in the primary and a big crowd of spectators travelled from end to end to watch the stones. The semi-finals were played by W. G. Morrow and L. V. O'Connor of Lindsay, resulting in a win for the Lindsay curlers with eight up. The other rinks were skipped by W. W. J. Reid of Bobcaygeon, and G. S. Ham of Napanee, and was won by the latter by 4 shots.

The finals consolation was played off by L. V. O'Connor and G. S. Ham, for the first prize, and was won by five shots by the Napanee curlers who curled a splendid game and worked hard. They deserved their victory and were warmly applauded by the spectators who were looking for them to win. The Napanee curlers are "all the way" and "T high," and they can "coop 'er up," with the best of them.

The losers, O'Connor's rink took the second prize, while W. G. Morrow and W. J. Reid had to play off for the third consolation prize, and it was won by Mr. Morrow with a score of 8—7. This brought to a close at eight o'clock last night the greatest bonspiel ever held here. All the visiting curlers are well pleased and assured the Peterborough club that they will be glad to come back again.

The scores in the games that were played yesterday are;—

PRIMARY FINALS

J. D Flavelle—14.	G. Little—18

Fourth round of consolation—

L. V. O'Connor.	G.L.Giroux—5
W. G. Morrow—13.	S. Davidson—12
J. H Connal—9.	G. S. Ham—12

Semi-finals Consolation—

L. V O'Connor—18.	W.G.Morrow—10
G. S Ham—14.	W. J. Reid—10

Finals consolation—

L. V. O'Connor—15.	G. S. Ham—20

Consolation, third prize—

W. G. Morrow—8.	W. J Reid—7

THE LINDSAY RINKS.

Great credit is due the Lindsay rinks that participated in the bonspeil. Three of their rinks were in the finals and they took away the big prize and the second consolation. They deserved everything they got and they worked hard for it. Lindsay is the greatest curling town in Ontario and the old players take great pains in coaching their juniors. As a result nearly all the players from that town are young fellows and they are just as good as the old heads. The old curlers here and in other towns would do well to instruct their young players in the art of playing a stone where it is desired. The Lindsay boys can put their stones just where the skip tells them to and that is the secret of their success.

Peterborough Leads in First Half for Fitzgerald-Bottum Shield

Peterborough curlers are four shots up in the first part of the Fitzgerald—Bottum shield contest which was played last night in the new rink here. It was supposed that three Bobcaygeon rinks were to play here, but as only two were down for the bonspiel and they wished to play before they went home, the locals agreed to it. The game was a good one all through and although there has been so much curling this week it was watched by quite a crowd of sports. The return half will be played in Bobcaygeon in the near future.

The scores and rinks are;—

Bobcaygeon.	Peterborough.
Dr. Follis	Dr Wightman
H. Mark	Dr. Eastwood
W. A Davis	J. H Connal
A. E. Bottum—14,	J.E.A Fitzgerald-13
C. Dickson	W. M. Lang
W. J C. Boyd	H. Foote
J. T. Robinson	R. Neil.
W J Reid—9.	C. N. Brown—7

Trades and Labour Council's Officers

A regular meeting of the Trades and Labor Council was held this week in the Foresters' Hall. Mr Alexander, the past president, was in the chair and installed the following officers for the year 1909;

President—Edward Coley.
Vice-Pres.—John McCauliff.
Rec. and Cor. Secretary — Frank Turner.
Financial Sec.—William Mowry.
Treasurer—Henry Carveth.
S. at A.—Daniel Coughlin.
Trustees—W. Geary, W. Hall, E. Yarrington.

Building Society Hold Their Annual Meeting

The annual meeting of the Peterborough Workingmen's Building and Savings Society was held Wednesday night at the Bank of Ottawa Chambers when the officers for 1909 were elected as follows;—

President—T. B. McGrath.
Vice-President—Jas. Lynch.
Secretary—John Corkery.
Treasurer—Jas. Murty.
Directors—Geo. Hall, M. Coughlin, J. Cunningham, R. Sheehy, E. A. Peck, Antony Murty, H. LeBrun, P. McFadden, Chas. Gainey, W. M. Hinchcliffe and Fred Derocher.
Auditors —Jas. Drain and John Sullivan.

The report was most satisfactory, showing the society to be strong in every respect.

Strathconas Won from the T.A.S. ---Three City League Games

The champion Strathconas took an easy game from the T.A.S. seniors last night and won by the handsome score of 8 goals to 2. The half time score was 4—1.

Brock street rink held a fair sized crowd last night to watch the city league games. There were two. The first was Belmonts vs. Lakefield, and Strathconas vs. T.A.S. The last game was the chief attractions and the boys put up a very good class of hockey. Both teams had some team combination, but the T.A.S. during the first part of the game seemed to be at sea, and they did not get down to business, except at intervals all night. The Strathconas on the other hand went on the ice with confidence in themselves and they started right in to pile up a score. The gait they kept up throughout and the Total Abstainers had not a look in at any time. They lacked speed and combination, although Crough at cover put up a good game as did also Dercober in goal.

Both sides tried to mix it up a little at times, but the referee had his eyes open, and there were few infractions which he did not catch.

The goals scored were as follows;

Strathe—2 mins., Ray.
Strathe—3 mins., McMillian.
Strathe—5 mins., Long.
Strathe—4 mins., scrimmage.
T.A.S.—3 mins., Galvin.
Strathe—6 mins., Seymour.
T.A.S.—2 mins., Galvin.
Strathe—4 mins., McMillan.
Strathe—1 min. Long.
Strathe—2 mins., Seymour.

The penalties were;—

Strathconas, 1 min.; Dusty, 2 mins; Rae, 1 min.; McWilliams, 1 min.; Smith, 1 min.

T.A.S.—Galvin, 2 mins.; Quigley, 2 mins.

The line-up was as follows;

Strathconas.		T.A.S.
Wilson	Goal.	Dercober
Smith	Point.	Cabal
Dusty	Cover.	Crough
Ray	Rover.	Quigley
Long	Center.	Giroux
McMillan	Left.	Galvin
Seymour	Right.	Coughlin

LAKEFIELD WON.

In the senior city hockey league Lakefield ran away from the Belmonts last night, and closed up the game with 13 goals in their favor, while the Belmonts had only two and those they got in the first period of play. The ice was in good shape and while the game was fast the boys from the lake shore were too good for the new club. The Belmonts had only about half a dozen shots on the goal all night, nevertheless they were game and did not quit until the referee told them to. Elliott at center put the star game for his team.

For Lakefield Quinn at cover was all the way. He is very fast and can handle himself well. T. Sabatino at rover is also an effective player, while Crawford in goal was not given an opportunity to show himself.

The line-up was as follows;

Belmonts.		Lakefield.
Davidson	Goal.	Crawford
Meyers	Point.	M. Sabatino
Eccleatone	Cover.	Quinn
Wilson	Rover.	T. Sabatino
Elliott	Center.	Simpson
Taylor	Right.	Morin
Waram	Left.	Quinlan

Chieftains Won from the T.A.S. Juniors

In the junior city hockey league last night the Chieftains defeated the T.A.S. by the score of 8—4. The winners played a good game and proved themselves much superior to the total abstainers. They played at a quarter to seven and their was the first game of the series of the evening.

Pte. Moir Acquitted But Goes to Asylum for Rest of His Days

"Not Guilty on the Ground of Insanisy," Say Jurors After Fifteen Minutes Deliberation ---No Addresses by Lawyers

London, Jan 14.- Private Moir's life has been saved, but he goes to the asylum for the insane at Hamilton for the rest of his life.

"Not guilty, on the ground of insanity," is the verdict the jury returned after a very short deliberation.

TURNED WHITE, THEN FLUSHED.

The prisoner sitting in the dock did not arise when the court recorded the sentence. He turned pale for a moment and then his face flushed. He swallowed hard a couple of times and put his hand to his face while the muscles of his mouth twitched visibly.

"You could have reached no other verdict on the evidence," said Sir William Meredith.

"Under the verdict the prisoner will be kept in close confinement till the pleasure of the Crown is known, which means practically he will be confined in an asylum for life. This trial shows the public are in danger from epileptics such as the unfortunate prisoner. Such people may go around without having knowledge of their condition and their homicidal mania may develop at any time.

"Those in charge of affairs should see that epileptics such as the prisoner should be subjected to imprisonment for life or until such time as medical science will have discovered a remedy, which has not yet been done."

Moir was taken from the court-room in perfect silence and the crowds quickly dispersed to their homes.

NONE GIVEN LIBERTY.

"Not in 32 years has anyone sent to the asylum on account of epilepsy been allowed his freedom," remarked Dr. Bruce Smith, when the trial was over.

Long before the doors of the court house were opened a crowd of about fifty men stood in the drizzling rain waiting to gain entrance. An hour before the trial proceeded the theater-like court room with its tiers of seats, was crowded far beyond its capacity. They stood in the aisle, jammed as in a Toronto trolley car.

At 9.30 the doors were closed by order of the sheriff and fully two hundred men and women had to turn away. In the assemblage there were a number of women, to whom the men gallantly gave their seats. A number of military men were also present, showing the interest they are taking in the fate of their quondam companion.

The prisoner, Moir, sat with a rather nonchalant look on his face, leaning his head on his arm. He is rather good-looking with delicately molded features. He looked altogether different from the ordinary idea of a criminal charged with murder.

The taking of evidence on behalf of the defence was continued today before Sir Wm. Meredith and the jury. J. E. Lawrence being the first witness called. He testified as to the clothing Moir had in his room the night ofLloyd's death.

AN EPILEPTIC SURE.

Dr. W. J. Robinson, superintendent of the London Asylum, was then called. He was examined by J. M. McEvoy.

"You have been in court and you have heard the various witnesses testify as to the prisoner's condition. What do you think of him?"

"He is an epileptic," answered Dr. Robinson. "I think there can be no possible doubt that the man is a subject of epilepsy, judging from his actions."

Greys will Play for The Ham's Oyster Supper

After a few days' rest the ten pin tournament at the P.B.C. alleys was resumed last night with renewed energy caused by the arrival of the handsome trophy which is referred to elsewhere in this issue.

There were three matches pulled off last night which provided two distinct sensations. The first was the downfall of the Bankers, whose scalps were carried into camp by the Pacifics. The money counters lost two of the three games and for the first time since the tournament opened have bid farewell to the first place. The Examiner A bunch are now in the lead and the other teams will endeavor to pull them down from their exalted position.

HAMS WON.

The other sensation was the defeat of the Greys by the Hams. This much talked off game was watched with interest, and the Hams are tickled all over. They can taste that oyster supper now. Hurtubise, the professional (so called), was on the Hams line. The protest of the Greys against him was not allowed. An emergency meeting of the executive was called and after due consideration, it was moved by Joe Hay, and seconded by Joseph Hay that the protest be thrown out. The motion was carried unanimously by Mr. J B. Hay, the latter gentleman being also one of the Ham players.

Upon investigation the executive ascertained that one of the Grey's men was also a professional, having played in a league game one night under an assumed name and he also bowled one game for a side bet of 25c. Both sets are offensive to the amateur rules. Under the circumstances and not wishing to be exposed the Grey's consented to Hurtubise playing. They will also pay for the oysters.

The scores for last night's games are as follows;—

LOCK WORKS—				
Laing	130	162	98—	390
Westbrooke	115	123	122—	360
Lacheur	147	110	149—	406
	392	395	369—1156	
B. A. C.—				
Bruce	147	183	131—	461
MacRae	128	166	132—	426
Campbell	126	114	119—	359
	401	463	382—1246	
BANKERS—				
Ford	194	122	150—	466
Barber	200	147	137—	484
Ferguson	185	172	134—	491
	579	441	421—1441	
PACIFICS—				
Connors	151	156	161—	468
Lillie	169	167	155—	491
McIlroy	154	166	145—	465
	474	489	461—142	
GRAYS—				
Parker	151	130	174—	455
McFadden	196	149	134—	479
Sullivan	125	109	133—	367
	472	379	441—1292	
HUTCH'S HAMS—				
Hutchinson	161	141	139—	441
Hurtubise	130	121	151—	402
Hay	148	161	200—	509
	439	423	490—1352	

Entries are coming in fast for the trophy competition which started yesterday at the P.B.C. The trophy which is a handsome and valuable one is in the form of a silver punch bowl, gold lined. It rests on three gold ten pins with a number of bowls grouped beneath, the whole standing on an ebony base. It will be emblamatic of the individual ten pin championship, and the competition now in progress should set at rest the controversy which has been raging for some time past as to the identity of the bowling champion of Peterborough.

The present competition will last until the end of February, and it has been decided that the players who makes the ten highest scores during that period shall become the possessor of the trophy, which he will hold as a challenge trophy, and he will be subject to a challenge on Thursday evening of each week throughout the season, the bowler winning it the most number of times before the end of next season to become the permanent owner of the handsome piece of silverware.

In order to give all devotees of the great indoor pastime an opportunity of having the honor of winning the championship emblem it has been decided to allot generous handicaps to the less experienced members of the fraternity, and already this course has been justified by the large number of entries received from new bowlers. The big fellows, too, are taking up the idea with great enthusiasm, and are almost to a man entering for the trophy.

A suggestion has been made that a number of the high men at the finish of the competition be entered in the Canadian tournament which will be held early in March in Hamilton and the prospects are that some of them will go to the Ambitious City, and try their skill against some of the cracks who will assemble there from all over Canada and many points across the border to battle for Canadian national bowling honors.

THE SILVER NORTH

Cobalt, Lorraine, Larder Lake and Gowganda

Travellers returning from the great mineral fields of the north are more enthusiastic than ever regarding the permanency of the Silver Camp. Traffic was never better and steadily on the increase. One hundred and fifty teams are now employed daily in moving passengers, freight and supplies to the new Gowganda finds from Earlton, Englehart and Charlton. It is only 18 miles from Charlton to Elk Lake where there are 12 mines, and from Elk Lake to Gowganda is 12 miles.

Leaving Toronto 10.15 p.m. daily, on the Grand Trunk "Cobalt Special," Elk Lake can be reached the next afternoon, via Cobalt, Haileybury, New Liskeard and Charlton, and this will continue to be the best way.

The Ontario Government are being strongly urged to push on the extension of their line from Charlton, which will open up this rich territory.

Full information can be obtained by writing J. D. McDonald, District Passenger Agent, G. T. R., eToronto, Ont.

ADVERTISE IN THE TIMES.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it, besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

ONE LANGUAGE SHOULD BE TAUGHT

Quoting The Galt Reporter as to the fact that there are 960 children in the Public Schools of Berlin receiving instructions in the German language, the Toronto Star says that no tongue should be taught in the Public Schools of Canada, outside of Quebec, to the exclusion of English. The Star continues: "It is not desirable that there should be "built up in this country a little German here, a little Hungary there and a small Russia somewhere else."

The Orange Sentinel thinks The Star might also have added a little France in the Eastern corner of Ontario. If The Star is really opposed to the teaching of a foreign language to the exclusion of English, we would suggest that it should send a commissioner into the eastern counties of this Province, where it will be discovered that the French language is being taught to the exclusion of the English in a considerable number of Public Schools. Under cover of the bilingual privileges granted to the French-Canadians by the Mowat Government, schools that were formerly conducted as English Public Schools have been converted into French confessional schools. This is a greater danger than maintaining a little Germany in the vicinity of Berlin. The tendency is to convert a portion of the Province of Ontario to the same conditions that are found in the Province of Quebec, where English is a foreign tongue and English-speaking citizens are regarded as aliens.

It would be a good stroke of journalistic enterprise for The Star, with its large resources, to make a thorough enquiry into this, if it is really in earnest, and if, moreover, it is not afraid of offending the French-Canadian sentiment of Quebec.

STRIPES FOR THE WIFE BEATER

A scoundrel who horsewhipped his wife until her body was covered with welts was tried in Toronto last Monday morning and sentenced to thirty days in jail. Had the flagellated woman not been dependent upon him for support he would have been more severely dealt with. After he was sentenced his wife appeared at the police station with the vain petition that he be let off.

This poor soul, who had frequently felt the lash of the whip before she received the scoring that stung her to legal action against her brutal mate, is evidently once more under the influence of terror. In a moment of desperation she fled to the Police Court for refuge, but after reflection she wishes she had made no complaint. Could enslavement be more complete than that to which this woman is reduced? Of the two evils—whether to endure to be cruelly beaten whenever her husband feels nasty or to have him put to jail—she elects for the former. In her evidence she said that the man was instigated to punish her. If that is so, and if she is now being intimidated because she laid an information against him, the authorities should go out of their way to bring her persecutor to justice. Women must be protected, for we have not trained them to protect themselves. When the husband has served his thirty days he will be not unlikely to enter upon the enjoyment of his freedom by once more disciplining his wife with his horsewhip. He will be emboldened to do that by her frightened efforts to get him out of the captivity into which she had him sent. He will feel confident that she will not again have recourse to the law. While he is in jail she will probably have to suffer more or less from want and possibly from enmity on her husband's account.

How much juster and more effective would the punishment of this man have been had it been laid on with stripes. After being lashed until he should howl for mercy the wretch could be safely returned to his wife and permitted to earn her living. There is nothing like the cat-o-nine tails to take the viciousness out of an abuser of women.

TO SUPPRESS ROWDYISM

Hereafter rowdyism at public meetings in Great Britain will be a punishable offence. The Public Meeting Bill, introduced by Lord Cecil, which became law, contains a provision which the Solicitor-General explained as meaning that "any person disturbing, or inciting any other person to disturb, a public meeting for the purpose of preventing the transaction of the business for which the meeting was called together, should be liable to be prosecuted before a court of summary jurisdiction, and if found guilty of an offence to be fined £5 and costs, and if the offence were committed at a political meeting held in connection with a Parliamentary election, the interrupter should be deemed guilty of an "illegal practice," and the penalties of such an illegal practice would follow." Deliberate rowdyism at public meetings is intolerable, and the example set by the British Parliament might well be copied by other legislative bodies

How's This

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.,

Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

A COMMON INTEREST

The creation of a joint commission for the settlement of differences between Canada and the United States will be a measure of far-reaching importance. The assurance of peace and friendly relations, important as it is, is only one of the benefits of such an arrangement. It recognizes that the interests of the people on the two sides of the border are not conflicting. But it does more. It enables them to perceive that those interests are identical, and that they may work together for the same ends.

Take, for instance, the question of the amount of water to be diverted from Niagara Falls. It is right that the power should be fairly divided between Canada and the United States. But it is still more important that the benefit of this great source of energy shall be shared by the people of the United States and Canada, and shall not be used for the purpose of building up great private fortunes. When the great cataract was regarded solely as one of the beauties of nature, it was recognized that all the people must be allowed to enjoy it. The Province of Ontario and the State of New York co-operated in abolishing extortion and monopoly, and in establishing parks in which the sublime scene could be freely enjoyed by all. They drove the money-changers out of the temple.

The right of public ownership was not destroyed when it was discovered that the Falls could be used for industrial operations upon a very large scale. The people had the same right to share in this benefit as they had to enjoy the beauty of the Falls. Unfortunately, this truth was not fully perceived until recent years, and today the people of Ontario have to fight for the right of enjoyment of the industrial benefits of Niagara, as they had to fight years ago for the enjoyment of its scenic beauties. The people of the State of New York have a similar battle before them. The interests of the people of New York State an dof the people of Ontario are not hostile, but identical.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—50c. Sold by all dealers.

INDEPENDENT PAPERS

A Western Contemporary says that because it supported the Liberal candidate at the last Dominion election, its claim to be an independent newspaper has been called into question. This is a very common experience, and it arises from confounding independence with neutrality. It seems to us that an independent newspaper can hardly avoid taking sides in an election. If it actually participates in the discussion of public questions at other times, one can hardly see how it can at election time avoid extending its help to the party, whose policy and personnel commend themselves most to its judgment. Few men are fit to set themselves up on a pedestal and lay down the law to all political parties. At least if they are at all numerous, they somehow fail to find their way to editorial chairs. The independence of newspapers is shown by the treatment of subjects arising from day to day. A Liberal paper may be independent; so also may a Conservative paper.

We are inclined to think that it is the independent treatment of men and issues that has won for The Times what little influence it may possess. Odd ideas are held by some people as to what are the insignia of independence in newspapers. Some people believe they exhibit it by writing everything in the first person singular, but there is quite as much partnership shown by the newspapers which say "I think", as by those that say "we think." Others consider it to be demonstrated by attacking everything in sight and supporting nothing, but this is not independence; it is only egotism. Others claim to be independent because they never take sides, but this is only cowardice. What an absurd thing it would be for a newspaper to keep track of the course of events, inform itself upon all public questions, do its best to create a sound public opinion by the free and fearless discussion of political issues and then when an election comes on, stand aloof and let other people fight the battle. The independent newspaper is the most useful newspaper. When the leader of the party that is in adopts a certain course it does not search for sinister and dishonorable motives on the one hand or deal in fulsome adulation on the other. When the leader of the party that is out declares for a certain policy, it does not laud it to the skies or condemn him unreservedly. It deals with questions as they arise, honestly and to the best of its ability, and at an election fights the battle of the party which, all things considered, it believes ought to be successful.

Death or Insanity

NERVOUS, SLEEPLESS, WORN OUT.

Expected to Die or go Crazy With Nervousness.

"I could not sleep—I could not rest—was ready to cry on the least occasion—yet I was plump and fat. Can you imagine a more distressing condition than weakness of body and mind?" writes Mrs. Wamsley, of Halifax. "I lost myself in a sort of self pity because health seemed so shattered, and with the mental distress that grew with my bodily weakness, I was a burden to myself and a greater burden to my family.

"Though I sought and really needed pity, I got very little, for I did not look so very sick. It was only my nerves that were sick, and anyone who has sick nerves knows too well how awful a sickness it is.

"From the first Ferrozone strengthened my nerves, and it seemed to help them for I became stronger, more composed, slept more and grew more hopeful. When I had taken Ferrozone for about two months I cast that miserable sense of dread. I never could tell what I was afraid of, but expected something dreadful was going to happen me. Ferrozone gave me the strength to throw aside all those fancies and made me well again."

Go at once to any druggist, get a few boxes of Ferrozone—start right on the road to health and vigor. Ferrozone will keep you there—will show you what it means to be healthy, vigorous, full of nerve energy. Once you're inviged up and energized with Ferrozone you'll never again be content with ill-health.

All dealers sell Ferrozone, 50c. per box or six boxes for $2.50.

Hearty Send-Off for the Curlers

The Canadian team of curlers going to Scotland had as hearty a send-off from Windsor station, Montreal, as anyone could wish.

A very strong feature of the team will be the uniform manner in which all the players will be attired. Their costume—the result of no small amount of thought consists of very smart black and grey Norfolk suits, made to order for each individual member of the team. Candidates are assured that their team will present an imposing and fine appearance to their Scotch confreres—quite in keeping with the dignity of the ancient game. It is pleasing to note that the costumes were designed and tailored by the well known firm of more than local celebrity.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

The Interesting Route

To Manitoba, Saskatchewan and Alberta, is via Chicago and St. Paul. Minneapolis or Duluth. Through the brilliantly lighted St. Clair tunnel by electricity, without smoke, gas or dust. Secure pamphlet, "New Route to Winning and West," from nearest Grand Trunk agent.

ADVERTISE IN THE TIMES.

Mail Contract

Sealed Tenders addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 19th February, 1909, for the conveyance of His Majesty's Mails, on a proposed Contract for four years ninety-two times per week each way, between Peterborough and Canadian Pacific and Grand Trunk Railway stations from the 1st April next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Peterborough and at the Office of the Post Office Inspector at Kingston.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

THE TIMES goes into the homes of people who keep servants, and these servants who may intend making a change, will see your advertisement.

THE TIMES goes into many outside towns and villages and your advertisement will be seen by girls coming to the city.

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash values in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California 25 thar Lode, where the finest quartz mining in the world is still found, old which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery is installed and paid for. Development work is done exposing a quartz ledge 30 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information of what you have to exchange.

Western Canada is in Good Financial Position

Winnipeg, Jan. 15.—Western Canada is of the world of business, but in a situation and under conditions that cause it to be less disadvantageously affected by outside circumstances and more readily susceptible to its own inherent resources than other and older countries which are essentially interdependent in their business progress.

Western Canada can rise from or largely overcome the depression of the outside world in so far as itself is concerned more readily than others through the fact that it is upon the product of its fertile soil it is largely reliant. As long as the world must have bread and Western Canada can supply bread, hard times cannot prevail west of the Red River.

Western Canada is in a better and earlier position than any other country capable of reasonable comparison, to take advantage of the great wave or era of industrial and financial activity which in the sequence of things will spread over the civilized world during the year 1909.

Winnipeg, Jan. 15.—The outlook is that Winnipeg in a few years will become a great financial centre. Every year brings forth a record one in bank clearings, loan company investments, insurance and trust company business. The total for Winnipeg bank clearings for the year 1908 was $614,111,801. Last year it was $599,667,576 and in 1906, $504, 585,914. Taking the three previous years the total clearings for Winnipeg were, 1903, $246,108,006; in 1904, $794,601,437; 1905, $369,86s,179.

An Evidence of Unfriendliness Toward Japanese

Tokio, Jan. 15.—Following the receipt of special cable dispatches from San Francisco relating to bills now pending before the California Legislature, forbidding the ownership of land and the attendance at public schools of Japanese residents at California, the "Asahi", the "Jiji" and the "Nichi Nichi" express surprise at what is termed an evidence of unfriendliness after the sincere effort on Japan's part to prove her friendship toward the people of the United States.

The extreme opposition papers assail the Japanese government for 'falling into the arms of a nation which at the first opportunity not only shows its unfriendly spirit, but even denies equal opportunity to the Japanese.'

The situation is seriously embarrassing to Americans living in Japan. The Foreign Office is endeavoring to convince the protesting newspapers that the action of the California Legislature does not represent general American sentiment, but the publications continue to be extremely pessimistic in tone.

The Baby Wolves Snarl Down in Pittsburg

"What you hear now from Pittsburg is the noise of the baby wolves quarreling over the bones." In this graphic sentence in the Brooklyn Citizen Marlen E. Pew concludes an article about the graft scandals in the Smoky City. He points out that the real wealth of Pittsburg was looted long ago; and that something equal to an earthquake or a revolution must occur if the big grafters, the millionaires in high places, are to disgorge. The tools of these men, the aldermen and petty officials may be indicted, and perhaps the weakest member of the band of robber financiers may be offered as a scapegoat, but Mr. Pew says that, in the absence of another Heney, the worst sinners will escape

PUNISHING THE TOOLS.

The announcement of an indictment against a president of a Pittsburg railway company, made in yesterday's papers, is a cheering indication that the view expressed in the Citizen may be unduly pessimistic. Once an American community becomes thoroughly aroused, it is hard to say that any given man will escape its wrath. It is true that the courts are usually fire escapes down which an execrated boodler may climb to safety; and it remains a remarkable fact that, in all the muckraking and graft prosecutions of the past five years, no "malefactor of great wealth" has been actually jailed, and made to serve a prison sentence. But if the constitution of the United States, makes a law court, instead of a Parliament, the supreme authority in the country on every question, and thus protects men against whom the whole nation may be howling, a thoroughgoing graft prosecution will punish the tools of the great grafters so severely that applicants for their dishonorable positions will be few. In a dearth of cats, monkeys go without roasted chestnuts.

DISTINGUISHED GRAFTERS.

F. J. Heney, the famous prosecutor of the Ruef, Schmitz gang, said publicly the other day that the real power behind these grafters, the most dangerous of San Francisco's enemies, is Harriman, the railroad king. Yesterday The Mail and Empire gave the appraiser's report upon the value of the Marshal Field estate. It was about $$$,$$$,$$$. Marshall Field was a great merchant and philanthropist, yet he did more to debauch the municipal politics of Chicago than any other man that ever lived there. When he died he owed the city several million dollars in back taxes, according to newspaper report, and his executors had to hustle up with a payment of a million or two to prevent a suit. It was Marshall Field who brought into Chicago public life "Bathhouse John" and others of the tribe. He had them elected year after year, and their business was to see that Marshall Field was not annoyed by attempts to enforce the municipal ordinances he was violating every day of the year.

THE GENIAL MAGEE.

So the man behind the graft in Pittsburg was the late Chris. Magee, the notorious boss, who looted the city right and left for twenty years and died a multi-millionaire—and the most popular man in Pittsburg. He was a typical Irish political buccaneer. He stole franchises—but he never forgot a friend. He looted millions—but gave away thousands. He was never overthrown, because he never got what is vulgarly called the "swelled head". He was as genial to the crossing-sweeper as to the Senator. The foe to all the city, he was the private friend and benefactor of hundreds. Now his nephew is in training as the Republican party's candidate for Mayor of Pittsburg. The man who is to conduct the graft prosecutions is an appointee of the dominant party's machine. The present Mayor is a fine, timid old 'silk stocking'', whose chief desire is to get outside papers to cease discussing the rottenness revealed in Pittsburg.

A LOOTED CITY.

Some of old Chris. Magee's chickens are coming home to roost. It was he who grabbed for some wealthy corporations the three great franchises which every city has to dispose of at some time or other. A Philadelphia concern owns the Pittsburg electric light plant and charges exorbitantly for its service. It enjoys a perpetual franchise, for which it pays the city not one cent. The gas company has also a perpetual franchise, for which it paid nothing. The street car franchises are owned by people who, as the Mayor admits, have no interest in Pittsburg except to take profits out of it. There are several of these companies, and the city gets no per centage of earnings, and nothing for the perpetual franchises. Transfers are not issued, and a straight five-cent fare is charged. When this outrageous franchise grab was put through, it was argued that competition between companies would result in a good, cheap service. As a matter of fact, the companies appear to be separate in name only. Pat Calhoun owns them all, and he is the absolute master of the traction system in Pittsburg, responsible to nobody. But worse despots that Magee or Calhoun, or the local chiefs of the Republican party, have been overthrown by determined reformers, and so there is hope for Pittsburg.

Heart Strength

Heart Strength, or Heart Weakness, means the strength, or Nerve Weakness, means Heart Weakness. Nine times out of ten, when a person is short of breath, has pain around the heart, palpitation, smothering spells, dizziness, fainting, sinking spells, or any of the symptoms of a weak heart, it is caused by weak nerves. Dr. Shoop's Restorative is a nerve remedy. It is not a stimulant, but a nerve tonic. It is not a heart remedy. Dr. Shoop's Restorative is a nerve remedy

But worse despots that Magee or Calhoun, or the local chiefs of the Republican party, have been overthrown by determined reformers, and so there is hope for Pittsburg.

Gem as Missile to Scare Dogs

London, Jan. 15.—A magnificent crystal, which, it is claimed, is the largest blue topaz of the last century, is offered for sale at the price of $1,000, at the Queensland Government office in the Strand, where a collection of antipodean products which were displayed at the Franco-British Exhibition is on view.

The Queen took a special interest in the stone when her Majesty visited the exhibition.

Major J. R. Sankey, who is in charge of the Strand exhibition, told yesterday the romantic history of the stone.

"It was discovered by Prof. Skertchley, the eminent geologist," said Major Sankey. "The professor, while journeying in North Queensland, happened one day on a miner's camp after a long and weary tramp. Entering a hut for his rest and refreshment, while chatting with his mining host his eyes fell on the crystal where it lay, near to hand, on a chest.

"He remarked on its beauty, and was surprised when the miner told him that the stone lay there to be used as a missile in case a dog should come in after the meat.

"Seeing that the professor thought something of the stone, the miner laughingly told him he could put it into his pocket for all he cared. So Professor Skertchley took the stone away to Brisbane, where he had it cut down into the gem as seen at present.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness. Your heart is controlled entirely by your nerves. It is almost always a nervous trouble that really is at fault. This statement includes the Organic, or heart disease—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the heart must continue to fail, and the symptoms must become more and more serious.

This simply explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and failing hearts. The right nerves, and the power of right nerves, is the secret of strong heart disease. Dr. Shoop's Restorative is to be depended upon to do just and only what it claims to do. It is a prescription of a famous heart specialist. It is sold by druggists on a positive guarantee. If you would have strong hearts, strong nerves, strong blood, strong bodies—strong men and women, use

....The.... Plow Woman

(Continued.)

cotton worms; the corn stalks were quiet; the birds songless; the frogs hid. Resting on the fading green, looking out upon the silent reaches, she grew calm. Then she remembered her sister's confession. Again, in fancy, she was leaning down in the light of a winter fire, looking into a tear stained face. She felt humiliation for her own weakness and for thoughts disloyal to Marylyn.

"When I see him again I'll make him promise to come and visit her," she said. "Oh, he must! He must!" At last, renewed in spirit, she returned bravely to her work.

But the afternoon was not without its tormenting thoughts. And she, who feared no physical danger, quailed before a temptation that was overwhelming.

When the shack pointed a stubby finger toward the east and the mules, with Simon in tag, came trailing home from their grazing Marylyn called her. Near the door there wafted out the good smell of corn pone and roasting fowl. She drew up the well bucket hand over hand and washed in its generous leak.

Within the night wind was changing and sweetening the air. As the younger girl bustled about the elder put on a fresher dress and smoothed and plaited her hair. Again that strange elation! She was almost glad.

"Supper!" sang out Marylyn.

Dallas started consciously. She was standing at a window holding before her the broken bit of looking glass.

CHAPTER XXX.

THE thrashers were singing to the moon. Out of the gaping coulee came their chorus, loud, rich and artfully melodised. It mingled, as it were, with the scent that the wind fanned from the sumac blossoms, yellowish green. Moon, music, perfume—and lovers were to meet.

The trysting place lay in billows of frosty white, like the satin dress of a bride. Lounsbury measured it impatiently, with anxious eyes turned to the shack. At the last trumpet strain from the fort Dallas approached it on swift foot, her shadow flitting before.

When he saw her—a slender figure—he leaped forward, eager, grateful. She saw him and halted, raising defensive hands.

"Dallas, Dallas!" He stretched out his arms to her.

"No, no—no, no."

As well try to stem the Missouri. He caught her close and held her. He pressed his cheek tenderly to hers. She yielded, murmuring to him. Thus for a space that was matchlessly sweet. Then, without releasing her, he lifted his head and lifted hers by a smoothing caress of her hair. Then he searched her face long and hungrily.

"Oh, Dallas, you do care!" he said finally, and his voice was deep with joy.

She did not deny—only, "Just makes things worse," she whispered miserably.

Gently he let her go. "But I love you," he answered.

Her eyes were grave. They seemed to blame him.

"I love you," he repeated.

She was too just to forget her own lack of strength. Her eyes clouded with sadness and brimmed. "I hate myself for coming," she said fiercely.

"We love each other. That isn't a crime," he declared.

"For you it isn't, but it is for me, because—it'll hurt Maryiyn. Oh, you don't understand! I can't take her happiness! I can't! I can't!"

"It's not your fault that I love you, Dallas."

"What happens next is."

He shook his head, smiling.

She raised her chin as if striving to master herself. "I knew all day that I'd come," she said steadily. "I'd 'a' come if I—died for it!"

"Ah, my dearest!" He put his hands upon her shoulders, drawing her near again.

She stepped back determinedly. "Let me tell you," she begged. "Please. I knew I'd come, so I made up my mind I'd do what was white—ask you to visit Maryiyn and talk to her. If you would, if you only would, why, at last, you couldn't help liking her!"

Again he smiled at her, shaking his head. "I love you, not Maryiyn."

"You're a good man," she said. "You wouldn't like to see me do anything that wasn't right square. You wouldn't think much of me if I did. I'll do wrong if—if I take you from her."

"I wouldn't have you do anything wrong," he declared stoutly. "You never could. But, dear, Maryiyn is a child yet. She's too young to know her own mind, and we're taking her more seriously than she takes herself."

"You don't know how sick and down in the mouth she's been. Just before father—went she got a little better. After that for awhile she was bad again. But I could see it wasn't all about father. There's something else. She's changed so—never talks much; just sits and looks and looks"— She turned away.

"I'm—I'm all she's got," she went on. "All her life I've tended her just as if I was her mother. I fed her and dressed her. When she hurt herself she came to me. Now she's hurt worse than she's ever been, and she's come to me about it. I'm bound to help her."

"I happened to be the first man she got to know this side of Texas. She'd forget me in a week if she met some one else. If she don't meet some one else, I'm afraid she'll have to be hurt."

Dallas straightened proudly. "I'll never hurt her," she said.

"Nor I if I can help it. She needn't know about us just yet."

"I won't lie to her either."

"Not lie, dear. But you won't refuse to come out here"—

"I do! I do! I'll never come again."

"Ah, Dallas, why should we deny ourselves that much? Why keep apart? I've lost the last dear one I had. You've lost your father. You're alone with your little sister. Come to me."

"You'd take me away?" she asked.

"OXOL"

The word "Oxol" does not mean one food, or one preparation fo; "Oxol" is a name given to all goods for horses, cattle, swine and sheep, prepared by Messrs. S. K. & T. C. Windsor of Australia New Zealand, England and Canada.

The veterinary preparations as well as the compressed bales of fodder placed on the market of the world under the name of

"OXOL" FOR CATTLE

are all of the greatest possible order of merit and may be used by farmers, graziers, dairymen, and all owners of stock with the full assurance that these goods have the power in a very short time to double their incomes by feeding, fattening and curing all animals, which to them mean money.

One agent only in each district who has sole control of the local trade for agent's name. See future advertisements, etc.

Cosgrave's Beer

Words of praise have ever prevailed in advertising "copy." That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

CLEAN Up INSIDE

Blood and System Cleansing in the Spring Makes Good Health all Summer.

In spite of all your careful habits safe to say that in the spring you feel poorly—have a throbbing sensation in the head—skin is pale or yellow, with dark rings under the eyes. If not absolutely bilious the system is so full of bile that you feel heavy and tired all day long.

Clean up, work off the winter's accumulation of waste, purify your blood. Do this and you'll feel fresh as a prize-fighter. "For ten years," says W. B. Sangster, of Concord, "I suffered greatly from impure blood, which made me feel debilitated and unfit for work. I had no appetite suffered from indigestion and gas, had some pains in the back, caused by poor kidney action. Spring was the hardest time of all, and many a time I felt despondent and languid enough to throw up the sponge. I was impressed by the marvellous work done by Dr. Hamilton's Pills and tried them. They suited me exactly. In one week I felt like new. I was braced up, got rid of blood weakness, gained in flesh, got back my old time appearance and spirits. Dr. Hamilton's Pills will clean all the sickness out of a man in short order and I urge young and old to use this grand tonic medicine."

Dr. Hamilton's Pills are a perfect spring medicine; they destroy germs and poisons of every description and strength whereby the system rallies and the patient quickly enjoys the blessings of Perfect Health. Get Dr. Hamilton's Pills today—25c. At all dealers.

Wedding Presents

Anything and everything in the line of wedding presents at sacrifice prices. January sale of china and glassware in full swing. Times Bookstore.

Personal

Mr. R. J. Dorey was in Toronto this week.

Mr. Jack Gemmell was in Toronto this week on business.

Mrs. W. H. Robertson, Water St., will not receive today.

Mr. Jas. Conlin of Bolivar street, is visiting his cousin in Cobourg.

Mrs. John Preston of Selwyn, is the guest of Mrs. P. Preston, 295 McDonel street.

Mrs. Alf. M. Simmons will receive with her mother Mrs. Roy this afternoon.

Mrs. J. C. Anderson, corner of Rogers and Douro streets, will receive today.

Mrs. F. H. Crowley and her daughter, Mrs. Wm. Whitton, Lundy's Lane, have returned home after a short visit to Montreal.

The many friends of Mrs. R. J. Elliott will learn with regret that she has been called to Lindsay, owing to the illness of her mother, Mrs J. Hooper.

Mrs. J. Graham and Miss Graham, of Winnipeg, who have been the guests of Miss Bell, 532 Charlotte street, for the last week, returned home yesterday.

Mr. Joseph Crow has returned home after a month's visit with his daughter, Mrs. Thomison, in Preston.

Mrs. Wm. Hutton, Lundy's Lane, leaves on Tuesday next for Rye, N.Y., where she will spend the winter. She will be at home to her friends on Monday afternoon and evening.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

The engagement is announced of Miss Ethel Crane, eldest daughter of Mr. and Mrs. George Crane, avenue road to Mr. Arthur S. Parkin, Lindsay, Ont. The marriage will take place Wednesday morning, January 20.—Mail and Empire.

Mr. John Rothwell, local superintendent of the Metropolitan Life Insurance Company of New York, left yesterday for New York, where he, with the rest of the superintendents will be the guests of the company for a week.

Rev. Dr. Langfeldt, rector of St. Luke's church, left yesterday afternoon for Orillia on an enforced vacation made necessary by the state of his health. The length of his visit is not known, but during his absence from the city Rev. Canon Davidson of St. John's church, will attend to the wants of the members of St. Luke's who may be ill. Any communications with regard to the church work may be addressed to Mr. G. R. Browning.

Obituary

On the same day that her husband passed away the young wife of Wm. Vanness Haggart who died Wednesday at his father's residence, 619 Union street, received the sad intelligence that her child only a month old, had died at Richfield Springs, N.Y. Mrs. Haggart came here to attend her husband in his illness, leaving her child with her mother. Much sympathy is felt for the sorrowing wife.

The late Mr. Haggart was 21 years 11 months old. The deceased was very well known in Peterborough, having been born here and lived the greater part of his life in this city. He was a resident of Richfield Springs, N.Y., for three years, but returned to Peterborough last summer and had lived here since. He had been ill for some time with pulmonary affection.

The funeral will take place today at two p.m., from the family residence, Union street, to the Little Lake cemetery.

Three of a Kind

Dropped Coffee, Picked Up Postum, and Health

The harmful action of caffeine—the drug in tea and coffee—is the same in all cases it is only a matter of degree.

One person may suffer more in the way of heart palpitation, sour stomach, nervousness, or insomnia, than another, but the poison is there all the time, if one continues to drink tea or coffee.

A Penn. lady and two friends learned the truth about coffee in the same way. The lady writes:—

"About four years ago I had an attack of nervous prostration and a great deal of trouble with my heart. Sometimes feared I was dying, and my doctor seemed unable to find out the cause of my trouble.

"I would frequently wake at night with these attacks and the doctor said there was some constant irritation of the nerves, and he began to think some organic disease was at work.

"'One day I was told of a case very similar to mine, and that the woman could find no relief until she stopped using coffee. I did not like the idea of giving up coffee for I was very fond of it.

"Having read frequently of Postum, I determined to try it. It certainly made a great change in me. Those spells left me entirely.

"My most intimate friend was afflicted as I was. In fact the similarity of our afflictions drew us together in the first place. When she saw the great change Postum had made in me she tried it and was benefited as I was.

"The benficial effects of Postum on us two induced a neighbor to follow our example and so we are three of a kind who can't say enough in praise of Postum."

Name given by Postum Co., Battle Creek, Mich., read, "The Road to Wellville," in pkgs.

"There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

CHAMBERLAIN'S COUGH REMEDY

A MEDICINE OF REAL WORTH AND MERIT.

It Not Only Cures Colds and Grip, But Prevents Them From Resulting in Pneumonia.

Chamberlain's Cough Remedy is intended especially for acute throat and lung diseases, of which colds, croup and whooping cough are the most common. Those who have used it for years and are in a position to know its real value, assert that it is without an equal for the treatment of these diseases. It not only cures colds and grip, but counteracts any tendency toward pneumonia.

It has come into almost universal use as a preventive and cure for croup, and has never been known to fail.

In cases of whooping cough it keeps the cough loose, expectoration easy and renders the paroxysms of coughing less frequent and less severe, depriving that disease of all dangerous consequences.

It is pleasant to take, which is of much importance when the medicine must be given to small children.

It contains no opium or other harmful substance, and may be given as confidently to a baby as to an adult.

It is an ideal remedy both for adults and children, and we think the most perfect and most effectual yet produced in any country.

The Dominion Bank's Report

Prosperous Year—12 Per Cent. Dividend—Increase in Deposits

To the rapidly growing list of annual statements recently issued by financial institutions is added the exceptionally satisfactory exhibit of the Dominion Bank. Comparison with previous yearly reports by the same bank reveals the fact that the increase in the paid-up capital by $134,795, during the year fractionally decreased the percentage of profits. The net profits were actually several thousand dollars greater than in the previous year, a very fine achievement in a year when general business experienced the contraction felt during the last twelve months. The profits were $641,318 or 16.25 per cent. on the present paid-up capital of $3,983,392. The dividends at the rate of 12 per cent. took $473,462. $100,000 was written off Bank premises account, and a balance of $302,996 was carried to profit and loss. Last year $235,140 was carried forward. An amount of $148,274, the premium received on the new capital stock being carried to the reserve fund, increases that fund to $1,981,731, or a million dollars more than the paid-up capital. The great strength of the Bank is best shown, however, by a glance at its assets. Quick assets are over ten million and immediately available assets $17,866,000 or 43 per cent. of the total liabilities to the public. The tendency of deposits to increase at the present time is emphasized in this instance by the growth in this item to a record level, total deposits by the public being nearly $38,000,000 or $3,700,000 above last year. At the same time the amount of bills discounted and advances current indicate a large and profitable business in hand.

Y.W.C.A. NOTES

The attendance was large at Mr. Mowatt's class in "Macbeth," last evening. The members, some fifty in number feel that this class is of great privilege and benefit. There is still room for others in the pleasant drawing room, where Mr. Mowatt meets with his class. Mr. Mowatt expects to complete his studies in Macbeth in two or possibly three more evenings, when he will take up "The Development of the English novel."

No book will so richly repay study as Macbeth.

All young women whether members of the association or not will be most cordially welcomed at the Friday evening class. Helpful lessons of present day interest are gleaned from the character studies. Come and enjoy this hour with us. The Junior Club is a most popular and enthusiastic circle of little girls which meet each Saturday afternoon at two o'clock. The first half hour is given to a bright song service followed by a Bible, missionary or nature story. Then work bags are opened and a busy half hour spent in sewing. After which the gymnasium doors open and a merry active hour is spent in marching and games. The Educational Committee expects to announce some new classes within the next week or two.

Letter to The Editor

(To the Editor of The Times.)

Dear Sir,—Shortly before the late municipal election I wrote you a letter criticising the management of the city finances by the mayor and council of 1908, and I predicted an overdraft on the current business of the year $15,000. To that letter Mayor Rush replied accusing me of making "misleading" statements and by stating one side of what had still to be taken into account and not the other side, he tried to make it appear that all would be well in the end.

I want now to invite your readers' attention to the statement of the actual position at the end of 1908 as shown by the city treasurer's report to the first meeting of the new council. I said the deficit would be $15,000 The treasurer shows it actually was $20,745. Now will the mayor tell us who was making the "misleading" statements.

Possibly the mayor will again claim credit for the outstanding taxes amounting according to the tax collector's statement to $11,889. If so he must deduct the similar arrears of the preceeding year which according to the same statement amounted to $8,700 If this allowance should be made the deficit at the end of the year will still be $17,000, which is in addition to the spending of the surplus of $6,500, received from the terribly extravagant council of 1907.

Yours truly,

R. F. McWILLIAMS.

MILLIONS OF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Wasted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW wha it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world. Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Our smelter thus erected will save 85% in treatment, freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when her you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Address

The Kuenzel's Process Smelter Co.

Cor. of George and McDonnel Strs.

THE FRESH COW.

Following Calving She Must Have Good Care and Feed.

The fresh cow has a right to good care. If she does not get it her owner will suffer. The fresh cow, especially if young, is nervous and excitable. For this very reason she acts in such a way as to annoy her owner or keeper, but the owner or keeper is not wise who is weak enough to give vent to his annoyance in abuse of the cow. The cow is not to blame for her nervous condition. Harshness will actually lessen materially the supply of milk. The man who cannot control his temper would better let dairying alone. He cannot make it pay.

The fresh cow also requires care and judgment in feeding on account of her feverish condition. She is not only feverish, but weak. She will crave water, but only a little feed. The water will be better if it is slightly warmed. Professor Smith of the University of Nebraska suggests the following as a method of feeding for the first few days following calving:

"Whatever is given her should be of a light character, such as well cured clover or alfalfa and a little bran, preferably made into a mash by the use of warm water. A few pounds of bran will have a cooling and laxative effect, which is always beneficial just after calving. The following day four or five pounds of a mixture of equal parts of corn, oats and bran would prove satisfactory.

"Without oats it would be well to feed equal parts by weight of corn and bran, gradually increasing the corn to three-fourths of the grain ration, at the same time making the daily feed gradually larger until at the end of three weeks she is receiving a full ration of ten or twelve pounds of grain per day, the exact amount depending upon the size of the cow. In the meantime the cow should be given all the clover or alfalfa hay she will consume."

How Machines Affect the Coinage.

The Deputy Minister of the British Mint, in his report for 1907, comments on the greatly-increased demand for bronze coins, for which automatic machines are in a large measure responsible. One of the largest companies owning these machines took from them in twelve months $3,984,671 pennies (about 316 tons), being an increase of £5,876 over the takings of the previous twelve months.

Marrying Late In Life.

The age of two couples who were married recently at Whithorn, Eng., were 67 and 84 and 78 and 80.

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs, quickly yield to the healing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Contains no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge! Sold by all dealers.

The Weekly Times and the Canadian Home Needlework magazine (a monthly magazine) for $1.35 per year. As most of our readers are probably aware the magazine is indispensible to ladies who have any desire for needle or crochet work. It contains all the latest ideas in fancy work that is worth having. To our present subscribers who will renew and comply with above conditions may also receive a copy. Subscribe now, Times Bookstore, Hunter street, nearly opposite the Post Office.

Miller and Marks were Badly Injured and May Never Play Hockey Again

Brantford, Jan. 15.—Reports from the hospital this morning indicate that Jack Marks and Walter Miller, the Brantford players injured in the wreck yesterday, are resting comfortably.

MARKS BADLY INJURED

Marks is suffering from a broken left arm, which is fractured in six places between the wrist and elbow, and also broken ribs. Doctors assert that he is internally injured so badly that he will never again be able to play hockey. Miller, while not so bad, is also out of the game for good in all probability, as the cords of two fingers of his left hand are severed, and the flesh is held together by eight stitches.

Both men assert that they did not realize the extent of their injuries until some time after the accident. Both got out of the wreckage without much difficulty, and walked about for more than ten minutes before collapsing.

Miller intends staying in the game if possible, while Mark is non-committal as to the future.

SMITH'S NOSE CUT.

The only other player who suffered was Tom Smith, whose nose was lacerated.

For substitutes Manager Brown has already secured Johnny Ward, of Montreal Shamrocks, who arrives this morning. He had previously been engaged to take Miller's position, as Miller was not showing good form.

For Marks' place, which is harder to fill, MacNamara and Laviolette, of Montreal Shamrocks, are being sought, as is also Berne, of Stratford. One of them will be here tonight for the game against Galt.

If not, Brown will get into play himself.

Special Meetings at the Barracks

The week end of the Salvation Army will be a special event and Staff Captain Walton has arranged for a number of of splendid meetings. Col. Henry W. Mapp, chief secretary of the Army in Canada, will be there accompanied by his wife. He will conduct services tonight and all day Sunday. These will be held at the usual hours, but the afternoon service at three o'clock on Sunday is of special importance. Mayor Rush has been invited to be present with some of the aldermen a bright and interesting meeting is assured. Colonel Mapp is one of the foremost speakers in the Army in Canada, and being a stranger to Peterborough large attendances are looked forward to at every meeting. Mayor Rush will extend a civic welcome to Col. Mapp at the Sunday afternoon meeting.

A general invitation is extended to the citizens of Peterborough to hear this eloquent speaker at the Salvation Army Barracks.

Cemetery Company's Annual Meeting

A preliminary meeting of the directors of the Little Lake Cemetery Company was held Thursday afternoon, to consider and prepare matters to be dealt with at the annual meeting of the shareholders on Monday, January 18th. It is desirable that there should be a large attendance of the latter. An erroneous impression prevails in regard to the Cemetery Company. It is not, as some think, a close corporation. Every owner of a lot is thereby a shareholder, and entitled to take part in the proceedings of the annual meeting. No dividends are paid. All monies received are either devoted to maintenance and extension or funded for similar purposes. Everybody interested is invited and urged to attend the annual meeting, on Monday, January 18th, at 3 o'clock p.m.

Southland Septette is to Sing Here

The Leaders Corps of the Y.M.C.A. have been fortunate in securing the Old Southland Sextette to give a concert in the opera house on Friday evening, the 29th of this month. This company is one of the best aggregations of Jubilee Singers touring Canada and the United States, and they will put on an entertainment that is artistic, bright and pleasing in the highest and best sense; so that those who hear the sextette in their program of Southland melodies and old plantation selections will not be disappointed, and those who fail to hear the company will miss such an entertainment as has not been given in this city for many a day.

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs quickly yield to the healthful, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Containing no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge. Sold by all dealers.

Apsley News

Apsley, Jan. 14.—Miss Maggie Lean and Mr. Harry Monorief of Peterborough, spent Christmas at Mr. Isaac Lean's.

Miss Gladys Kilbourn of Lakefield who has been home for a few days, has returned to that village.

Our worthy teacher Mr. Wm. Spence, has returned and resumed duties.

Mr. and Mrs. J. W. Hales, Miss Hattie and Mr. and Mrs. W. C. Hales, visited friends in and around our village during the Christmas holidays.

Mrs. Austin, of Arcola, Sask., is visiting her mother Mrs. Wm. Masters.

The Misses Hendley of Toronto, are visiting at their home here.

We are sorry to learn of the illness of Mrs. Wm. Hales, Burleigh.

Miss Edna Mellmoyle spent the holidays at Havelock the guest of her sister, Mr Jos Bertrand.

Miss Nellie Nesbitt of Harvey, was the guest of Miss Bessie Hales for a few days.

A grand tea and entertainment was held here on Christmas night under the auspices of the Methodist church which was a decided success in every way. Tea was served in the town hall, after which all all assembled in the church where an excellent program of songs, recitations, drills, dialogues and instrumental music was given. Two items of special mention, were two exercises by children from No. 2 Burleigh. The children who took part in those, are worthy of much praise, having gone through the parts without a pause or mistake.

Another item worthy of special mention was a recitation entitled "A Christmas Carol," by Miss Mildred Kilbourne, a child six years of age.

Towards the close of the program Mr. J. W. Hales of Peterborough, was seen to be present and was called upon for a short address. Mr Hales, who was formerly of this place, addressed the audience in a few well chosen words.

Before singing the National Anthem a vote of thanks was tendered to all who so ably assisted in making the evening a success.

Annual Entertainment of St. Luke's Sunday School

The annual Christmas tree, presentation of prizes and entertainment of St. Luke's Sunday school, was held last night and was a decided success. A large crowd was present and the program rendered was very good. The teachers were remembered by the pupils of the various classes, and the prizes won by the scholars during the year were presented. In the absence of the rector, Rev. Dr. Langfeldt, the gathering was presided over by Rev. Canon Davidson. The following program was rendered;—

Opening Prayer—Canon Davidson.
Carol—Sunday school.
Chairman's address—Mr. Spence.
Piano duett—Misses Dawson and Henry.
Recitation—Arthur Lipsett.
Recitation—Jas. Jennings.
Piano solo—Kate Leary.
Recitation—Margaret Turner.
Carol—Sunday school.
Piano solo—Alice Neal.
Recitation—Thos. Jennings.
Recitation—Bert Lipsett.
Recitation—Richard Jellings.
Vocal duett—George and Prudence Long.
Recitation—Hilda Jellings.
Recitation—L. Parker.
Song—George Clementi.
Recitation—Florence Brooks.
Song—Marjorie Kennedy.
Presentation of prizes—
Carol—Sunday school.
Closing prayer—Canon Davidson.

Mayor and Aldermen will Attend Church

With the idea of getting the mayor and aldermen off to a good start this year the Ministerial Association decided to have the civic rulers with the civic servants (for they need it too) attend at least one religious service during the year. The George street Methodist church was selected as the place for the great men to go to worship, and Rev. F. A. Pearson will deliver an address to them. What the subject will be has not been sent to this office, but it might be suggested to the reverend gentleman that he preach on "Municipal economies, or how to keep the taxes down." It is to be hoped that every alderman and all the officials will be present. It is quite probable that the press will be represented and in anticipation so distinguished a crowd special precautions have been taken to prevent any disaster. The choir will render special music of a joyful nature upon the return of the prodigal.

We Give Away Absolutely Free of Cost

The People's Common Sense Medical Adviser, in Plain English, or Medicine Simplified, by R. V. Pierce, M. D., Chief Consulting Physician to the Invalids' Hotel and Surgical Institute at Buffalo, a book of 1008 large pages and over 700 illustrations, in strong paper covers, to any one sending 21 one-cent stamps to cover cost of mailing only, or, in French Cloth binding for 50 stamps. Over 680,000 copies of this complete Family Doctor Book were sold in cloth binding at regular price of $1.50. Afterwards, one and a half million copies were given away as above. A new, up-to-date revised edition is now ready for mailing. Better send NOW, before all are gone. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

DR. PIERCE'S FAVORITE PRESCRIPTION

THE ONE REMEDY for women's peculiar ailments good enough that its makers are not afraid to print on its outside wrapper its every ingredient.—No Secrets—No Deception.

THE ONE REMEDY for women which contains no alcohol and no habit-forming drugs. Made from native medicinal forest roots of well established curative value.

PETERBOROUGH INTERMEDIATES SHUT BELLEVILLE TEAM OUT

Score was 5 to 0—Game was Inclined to be a Rough Exhibition of Hockey—Many Players on Both Teams were Penalized—Fairly Good Crowd in Attendance

Peterborough won a hard game from Belleville, with a score of 5 goals to 0. It was the first game at home for Peterborough in the intermediate series, and it was watched by a good crowd. If every game is as well attended the finances will not be short, when the playing season is ended.

As an exhibition of hockey it was in spots good, but there was a desire on the part of both teams to mix it up pretty well, and had not the referee had a keen eye and a good sense of sport the play would have been very rough. As it was there were three fights between individuals, but they did not amount to anything except a threat on the part of the three Belleville sports who accompanied the team, to give the Peterboroughs their hunks when they got them in Belleville.

The only altercation which threatened to result in any damage was the last one between Gilbert, Belleville's heavyweight point man and Jukey Moore. They started in with their sticks, but the referee marched them down to the penalty official, where they stayed for the balance of the game.

In the first half of the game ten men were put on the fence for offences, and each had a three-minute rest, while Dusty and Burke, who doubled up their fists, got five minutes. There were four locals and six visitors off. In the second half fifteen men decorated the fence, nine locals and six from Belleville. The number of men laid off in each half indicates the way the play was going. Belleville tried to force things in the first half, while Peterborough went after them in the second.

The Belleville team make a very nice appearance. They are all well built fellows of a uniform size, and in they were in the hands of a coach who understood hockey, they should make a fine team. They have sufficient speed for their class, but they lack team work, and they go after the man's feet more than the puck.

From the very first the Peters took the puck and controlled it most of the time, although the visitors made several very nice rushes but were unsuccessful. Charles Rae, the youngest boy on the ice and one of the Strathcona's was a star. If he was making a bid for intermediate honors he certainly made good. He was in his position just at the right time and he is very fast. In fact he was so good that the Belleville bunch tried their best to put him out of business, but he is game and after Gilbert jabbed him in the ribs he rested a couple of minutes and then went at it again. He will be watched Wilcroft if he is handled right.

Dusty on the left wing is a good man and he has a very nice shot on the goal from the side. He has speed and can handle the stick. Parnell was off on his shooting. He had many opportunities and shot many times on the goal but in vain. Rollie Glover, the old war horse, and incidentally the best all round athlete in Ontario, was in good form, and he was a tough proposition for the Belleville forwards, to go up against. Derocher in goal was right there with the goods and made many good stops.

For Belleville Gilbert at cover point played a star game. He is a big fellow and he uses his weight with good effect. He is a man that is admired by the home crowd but hissed by outsiders. He is not a dirty players but his weight gives him an advantage over the light forwards. The only time he got away with anything dirty, was when he jabbed Rae in the ribs. Belleville has a good man in goal, Boland, who made many brilliant stops and saved his team from a score of 20—0. W. Peppe, who plays point deserves credit for his classy playing. He has a beautiful shot and several times landed the puck from center ice right on line of the goal keeper. Luck was against him all right. He should have notched a couple of goals.

The penalties handed out by Referee Dr. Gilfillan of Newmarket, were mostly for three minutes, and were as follows;—

Peterborough — Moore, Moore, Moore, Dusty, Parnell, Dusty, Moore Rose, Moore, Rae, Parnell, Moore Glover.

Belleville—Burke, Burke, Pepper, Allen, Burke, Gilbert, Pepper, Pepper, Burke, Reeves, Allen Gilbert.

The goals were scored as follows;

Parnell, 3 minutes.
Dusty, 20 minutes.
Dusty, 1 minutes.
Rae, 6 minutes.
Moore, 14 minutes.

The line-up was as follows;

Peterborough.		Belleville
	Goal.	
Derocher		Boland
	Point.	
Glover		Pepper
	Cover.	
Moore		Gilbert
	Rover.	
Ray		Allen
	Center.	
Parnell		Spangenburg
	Right.	
Rose		Reeves
	Left.	
Dusty		Burke

Referee—Dr. Gilfillan, Newmarket.

Hains' Jurors Bring In Acquittal Verdict

Prisoner Snoozed on the Table While Jurors where Trying to Reach Verdict---Some Jurors Slept, Others Wrangled

A SUMMERY.

Case given to jury at 5 p.m. on Thursday.

Jury breakfasted at 7.30 a.m. Friday.

Have evidence about shooting scene read to them at 8.40 a.m.

Returned verdict of "Not Guilty" at 2.50 p.m., after being out about 22 hours.

Flushing, N.Y., Jan. 15.—Thornton J. Hains was today acquitted of the charge of murder in the first degree, which grew out of the killing of William E. Annis, at the Bayside Yacht Club in August last.

Hains stood guard over his brother, Captain Peter C. Hains, jr., while the latter shot Annis, but did not actually participate in the shooting.

His brother, Capt. Hains, has not yet been put on trial.

WERE ELEVEN TO ONE.

New York, Jan. 15.—It was reported in the court room at Flushing this morning that the jury in the case of T. Jenkins Hains, the magazine writer, charged with complicity in the murder of Wm. E. Annis, stood 9 to 3 in favor of acquittal. The last previous report was 11 to 1 for acquittal.

This was after an all-night consideration of the evidence, while the lawyers and Justice Crane and the defendant himself all held themselves in readiness for an instant verdict. The jury, after having been out since 5.43 o'clock yesterday afternoon, narrowed down their discussion of a verdict to the actual actions of T. Jenkins Hains on the Bayside Yacht Club float the day William E. Annis was shot and killed. The jury send word to Justice Crane, who had remained in a nearby hotel since they went out, that they wanted to hear once more the vital testimony in regard to this phase of the trial, and the justice summoned them back to the court room. The jury asked to hear the testimony of James Tierney, a witness for the defence, and that of Capt. Clark and Dr. McBride, witnesses for the prosecution. The attorneys of both sides were summoned, and the jury filed into the court room.

WHAT JURY WANTED.

Tierney is the man who gave a circumstantial account of the happenings on the float, declaring that Jenkins Hains had not threatened Mrs. Wm. E. Annis with his revolver, and also that Jenkins Hains had not started running down the float until Capt. Peter Hains, jr., had actually been shooting at Annis. Dr. McBride is the witness who was out in a boat beyond the float and testified that Jenkins Hains was on the float at the time of the shooting. Capt. Clark, a negro, was in the boat "Lavina" also beyond Annis' boat.

EXPECTS AN ACQUITTAL.

Hains, in an interview today, said he expected an acquittal and could not see how any other verdict could be rendered.

BREAKFASTED AT 7.30

The jury, after deliberating all night without reaching a verdict, went to breakfast at 7.30 o'clock this morning. Toward morning, heavy-eyed and exhausted, many of the jurors fell asleep in their chairs, while their more wakeful associates debated the conflicting points of testimony.

GAVE NO INTIMATION.

Shortly after three o'clock this morning, the jury sent word that they desired to have the maps and diagrams of the Bayside Yacht Club House float, which was sent them by Justice Crane. An unusual feature of the jury's deliberations was the fact that not one single intimation came from the jury room during the night as to the progress made toward a verdict. The jury went to breakfast at a hotel near the court house.

DOCTOR IN ATTENDANCE.

Dr. Bicks was in constant attendance at the court during the night, ready to minister to Juror John Walsh, injured in a street car accident, whose heart action, the physician states, has been affected by shock of the accident and the excitement of the case. Patrick Ahearn another juror, is suffering from a heavy cold. Because of the physical condition of these two jurors, Justice Crane held open court all night, in order that he might receive the verdict as soon as it was reached.

Thornton Hains slept through the early hours of the morning on a table in the sheriff's office, while his brother, Major John Hains, wrapped his army coat about him and stretched out on a court room bench.

In the corners of the court room chamber, where long, hard benches lined the wall, John F. McIntyre, chief of Hains' counsel, and his associates stretched themselves out and slept for a couple of hours, while District Attorney Darrin, after a short nap in a chair, went home to rest.

FATHER CALLED ON 'PHONE.

During the night, General Hains and his wife, who went to New York at a late hour, called up frequently on the telephone to learn if a verdict had been reached.

The speculation of the attorneys is that the jurors will find themselves unable to agree.

JUDGE STAYED ALL NIGHT.

New York, Jan. 15.—At one o'clock this morning Judge Crane announced that he would remain in the town hall all night, waiting for the jury to agree in the case of Thornton Jenkins Hains, on trial for the murder of William E. Annis.

The case was given to the jury at 5 o'clock yesterday afternoon.

Judge Crane, sounding, read his charge, occasionally going away from his typewritten manuscript to drive home some point of law or point of fact. On the points of insanity, where the defendant is no the one declared insane, Judge Crane's ruling is said to be an original one. The court briefly stated the fact that the Haines had been informed of alleged wrong-doing on the part of Annis and Mrs. Hains. Then he said,

"This news hung in the mind of this defendant, and his brother Peter, it is claimed in behalf of the people that this defendant and his brother went to the Bayside Yacht Club armed with pistols, with the premeditated and deliberate intention of killing William E. Annis, and that at that time and place the captain shot and killed Annis, while this defendant, knowing these facts, aided, assisted, and abetted him in the deed, and with the intention of aiding and assisting him in the killing of Annis. If the defendant did this, and had these intentions and purposes, he is guilty of a crime.

THE DEFENCE'S CONTENTIONS.

"On the other hand, the claim and contention of the defendant is that he, in good faith, went to the Bayside Yacht Club for the purpose of looking at or inquiring about real estate; that he took Peter, his brother, along with him because Peter had come to live with him since his troubles, and he had been taking care of Peter, and that at the time in question he had gone down on the dock looking for Jesperson, when Peter, while insane and mentally deranged, as an independent act of his own, in which this defendant was not concerned, and did not participate, ran out upon the float and shot and killed Annis. This defendant claims that he did not know his brother was going to do this; that he did not consent to his doing it, and did not participate, aid, or assist his brother in any way in killing Annis.

"If these are the facts, of course, the defendant is not guilty of any crime.

QUESTION OF INSANITY.

"The question has arisen whether or not Peter C. Hains, the defendant's brother, was insane on the day in question. As bearing upon the question of his insanity, evidence has been given as to things he said and did, and as to matters of a more or

(Continued on page four.)

DICKSON—HOPE.

A quiet wedding was solemnized on Wednesday afternoon, January 13, at St. Andrew's manse by Rev. J. G. Potter performed the ceremony which made John Dickson, of Otonabee, and Miss Margaret West Hope, of Otonabee, one. The happy young couple were unattended. They will reside in Otonabee.

Local Juniors were Swamped at Cobourg

(Special to The Times.)

Cobourg, Jan. 15.—The local juniors put it all over the Peterborough juniors in an O.H.A. game here tonight before a large crowd of spectators. The ice was fast and the two teams dug in but the visitors had no chance. The score was 13—2, and the half time score was 7—2.

Two-Year-Old Boy Fell Into Washtub and was Drowned

St. Catharines, Jan. 15.—A sad drowning accident took place yesterday evening at Thorold, the victim being Leonard, the two-year-old son of Percy Glynn, living on Queen street.

Mrs. Glynn was washing and the little fellow was playing about the kitchen. The baby, which was sleeping in another room, cried, and the mother ran to attend to it. When she came back a few minutes later she found the little boy, Leonard, with his head in the tub of water, which was standing on the floor. The poor little fellow was quite dead.

The tub was only half full of water and in falling the little fellow could have been smothered, otherwise he could have cry out.

St. Andrew's Choir was Entertained

About twenty members of St. Andrew's choir enjoyed a very pleasant drive to Mr. Thos. Petrie's, in Otonabee, last night. Two bus loads left the Sunday school room at about six o'clock, and arrived at their destination an hour later. Supper was served about ten o'clock and was greatly appreciated. The evening was spent in singing and games. The choir appreciates very much the kindness of Mr. and Mrs. Petrie.

Six Nations Indians Claim Large Sum

Brantford, Ont., Jan. 13.—A deputation of Six Nations Indian chiefs left Brantford this morning for Ottawa to press a claim for the sum of $150,000, which was invested by the Imperial authorities in the year 1834 in the Grand River Navigation Company. The money belonged to the Six Nations, and the investment turned out to be a total loss.

The descendants of the chiefs whose money it is said was wasted in the early days, now lay claim to the amount as rightfully theirs. Chiefs A. G. Smith, Wm. Smith, and Josiah Hill were the deputation. Senator Belcourt is acting counsel for the Indians, who, it is said, have a good case in their claim.

The nominal sum of $150,000 is a mere bagatelle to the real proportion of the claim, as the latter includes the original amount of the investment with interest since that time.

An appointment has been made with the Superintendent-General of the Indian Department at Ottawa to-morrow for the hearing of the case, which may ultimately be carried into the courts.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

Pacifics Captured Two More Games

Only one game was played in the P.B.C. tournament last night, which resulted in a win for the Pacifics by by two games to one. The scores;

PACIFICS—

Connors	156	176	187	509
Lillie	118	131	155	404
Mellroy	163	156	208	527
	437	463	550	1440

B. A. C.—

McRae	124	172	144	440
Campbell	102	157	130	389
Bruce	115	147	129	391
	341	476	403	1220

Suit for $1000 Damages Against Lindsay Aldermen

Lindsay, Jan. 15.—Mr. Jas. Chalmer has issued a writ against Mayor Begg, Wm. J. Hepburn, Wm. Hoar and James Wilson for $1,000 damages for unlawfully occupying his premises. The defendants went to collect town taxes from Mr. Chalmers, and the latter claims their methods were illegal. He alcims that even if they were justified in making the demands, they did and entering his premises they had no right to occupy his office without his consent. Mr. Chalmers claiming that if they were within legal rights in seizing the goods, they should have removed them instead of staying on the premises. Mr. Chalmers also claims that they entered the property without legal authority. One of them was locked in the office all night.

The attempt to collect back taxes said to be due was perhaps caused by the rumors that Mr. Chalmers was winding up his business and leaving town.

The whole case will now no doubt be aired in court.

The Best Thinkers choose Grape-Nuts from personal experience "There's a Reason"

At Cost

Hand sleighs at cost rather than keep any sleighs over. See our big boys' coasting sleighs at 19 and 69 cents; girls' sleigh at 40c and the "fast mail" with railing all ground for only $1. Times Bookstore, nearly opposite post office.

Must Stay at Home

Detroit, Jan. 15.—Perhaps one of the most unusual sentences ever imposed by a court was that meted out to-day to Mrs. Grace Conger of Flint, Mich. The case was tried before Judge Wismer, who considered the evidence against the woman demanded drastic action, and he accordingly sentenced her. First, to receive no callers for three years, except in the presence of some adult member of her family; second, to stay at home nights; third, to report to the court every sixty days. The woman was arrested at Syracuse, N. Y., several days ago, in company with a man she had run away with.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

A NEW CANAL PROJECT

"It may be said on good authority that a new canal is likely to be built from Lake Erie to Lake Ontario, with locks 700 feet by 70 feet, with 34 feet of water on the sills, and the number of locks reduced to six. If this is done the largest vessels will be able to enter Toronto harbor."

This significant statement was made by Mr. J. G. Sing, Government Engineer, in his address to the Engineers' Club last evening on "Canada and Her Waterways". Mr. A. B. Barry, C. E., the President-elect, occupied the chair, and Mr. Sing, the retiring President, delivered his address as a valedictory.

Canada Mr. Sing characterized as "a geographical colossus". Two origins to her name were submitted, the Spanish Acanada, "here is nothing," by those who maintained the Spanish preceded the French to her shores, and the Indian "Kannata", a collection of huts. There was an area of 53,376 square miles in the great lakes. In most of them the water was lowering. "This lowering of the lakes is serious, as harbors along the shores are detrimentally affected," said the speaker. "It is really a difficult problem to estimate the damage from an economic standpoint." On Huron and Michigan Lakes and the Georgian Bay this lowering of the water was most pronounced. Mr. Sing illustrated its effect by reference to the Soo Canals.

"On this account", said he, "any work such as the Chicago drainage canal, the development of power plants using an immense volume of water, or the enlargement of the existing canal system should be very carefully considered as to the ultimate result on the lake levels, and where there is any danger of these levels being affected prejudicially compensating works should be established simultaneously with the extent and enlargement of the works mentioned." Some $15,000,000 had been spent on canals at the Soo and improvement to approaches.

The Georgian Bay Canal project Mr. Sing characterised as the largest of its kind in the world. It would materially reduce the mileage from Port Arthur to the Atlantic coast. It would cost one hundred millions and necessitate the building of forty-five dams. He also stated that it was the intention of the Government to complete a thirty-foot channel from Montreal to the sea.

Mr. J. A. Culverwell, Port Hope, commended the Government on the enlarged Trent Canal. For $15,000,000 the country was getting a canal of the same barge capacity as the enlarged Erie Canal, which cost $150,000,000, and the route was shortened one day from the upper lakes to Montreal. It would become the cheap grain-carrying route.

MAP OF NORTH AMERICA

The Grand Trunk Railway System has just issued what is considered to be the most complete map of the North American continent showing the relative positions of the Grand Trunk Railway System, the Grand Trunk Pacific Railway and their connections. The map is printed in five colors, the combination of which allows for different colors being used for each of the states of the Republic and each of the Provinces of the Dominion. The colors used for the water portion of the country is light blue making a pleasing contrast with the tints used for the land portion. The map is 46 inches by 65 inches, printed on heavy coated stock mounted on rollers and bound with linen.

Among the special features that are embodied in this map may be mentioned the following:—The Grand Trunk Railway System, is shown with reference designating the double track under operation, other lines of the company in operation, through car lines and connections. The lines of the Grand Trunk Pacific under operation, under construction and the proposed branch lines are also shown in an accurate and comprehensive way. The Trans-Atlantic and Trans-Pacific steamship routes appear in dotted lines, and include all the principal lines operating from all the prominent seaports on both the Atlantic and Pacific coasts.

The typographical features are shown such as mountains, lakes, rivers, etc. In addition to the main map there are two key maps, one showing the routes around the world on Mercator's projection, which is a most interesting feature, and one that shows the relative positions of all the countries on the globe with the around the world routes. The other key map is a part of Alaska showing north Pacific coast points steamship routes, Behring Sea and a part of Siberia.

The execution of the map is a credit to the publishers and it is the best railway map published and one that will be sought after for its general usefulness.

TRENT CANAL PROJECT KEENE

The annual meeting of the District Loyal Orange Lodge was held in the Argyle L. O. L. Hall in Keene on Tuesday evening, January 12th. The following officers were elected and installed:—

District Master—Bro. R. Ritchie, No. 321.
District Deputy Master—Bro. Thos. McIntyre, No. 494.
Chaplain—Bro. W. Hancox, No. 494.
Rec. Sec.—Bro. Geo. Hartley, No. 321
Fin. Sec.—Bro. Archie Holden, No. 321.
Treas.—Bro. Kitley, No. 321.
D. of C.—Bro. Elliott, No. 178.
Lecturer—Bro. Thos. Holden, No. 321.
2nd Lec.—Bro. D. Hamilton, No. 457.

The meeting was closed in due form. The next meeting to be held in Smith L. O. L. Hall on the 2nd Tuesday of June.

The Keene hockey club journeyed to Warkworth on Tuesday evening; they were defeated by 4 goals to 3. The Warkworth rink is an outside affair and is lighted by electric lights known to the farming community as Lanterns. It was the misfortune of the Keene team to have their glims go out about five minutes before time. This gave the Warkworth "Night Owls" the chance they were waiting for and while our boys longed for light or home, the "Owls" scored two goals, at least their good umpire gave this decision. Never mind, boys, we will give them plenty of light on the subject when they pay their return game.

Mr. M. M. Weir, G. T. R operator from Orillia, is visiting his uncle, Mr. A. Weir.

Mr. Wm. Wedlock, Sr., entertained his friends the other evening. Dancing was a feature of the evening. Among those from a distance were Mr. and Mrs. Montgomery, Mr. and Mrs. S. T. Wedlock and Mr. and Mrs. H. McLachlan and daughter Flora. All had a very enjoyable evening which will long remain vividly in their memories.

Mr. John G. Drummond, Westwood, spent Tuesday in Keene, the guest of his grandfather, John Drummond.

Mr. Wm. Wedlock has a gang of men cutting logs on his limits. He is also taking out a large quantity of wood.

There are many loads of potatoes being brought to our market from Alnwick. They are selling at the rate of 70c per bag.

We regret to report the death of Mrs. Fife, mother of John Fife (Reeve of Otonabee). The deceased lady was in her 80th year. The funeral will be held in the Fife cemetery.

MY FREE TRIAL TREATMENT MAY CURE YOU

Kingston, June 6, 1908.

Dear Mrs. Currah: I feel so very much better after using the ten days' treatment of Orange Lily you were kind enough to send, that I will not require any more. In fact, I feel entirely well, and it is now a month since I stopped using the treatment. (Miss) F. T. W.

Similar letters to the above are not infrequent though, of course, such cases are not of long standing. Most women who have suffered for any length of time will require to use Orange Lily longer than the Free Trial Treatment in order to effect a complete cure. But in every case they will be benefited. Further, the benefit will be permanent whether they continue to use Orange Lily or not. It is not taken internally, and does not contain any alcohol or other stimulant. It is an applied treatment, and acts directly on the suffering organs. In all cases of women's disorders, these organs are congested to a greater or less extent, and Orange Lily will relieve and remove this congestion just as positively and certainly as the action of ammonia or soap on soiled linen. It is a simple chemical problem, and the result is always the same, a step towards better health and complete cure.

In order that every suffering woman may prove its good qualities, without cost, I will send enough of Orange Lily for 10 days' treatment absolutely free, to each lady who will send me her address. Mrs. E. F. Currah, Windsor, Ont.

CALL IN AND SEE US BEFORE YOU BUY

A Woman's Sympathy

Are you discouraged? Is your doctor's bill a heavy financial load? Is your pain a heavy physical burden? I know what these mean to delicate women—I have been discouraged, too; but learned how to cure myself. I want to relieve your burdens. Why not end the pain and stop the doctor's bill? I can do this for you and will if you will assist me.

All you need do is to write for a free box of the remedy which has been placed in my hands to be given away. Perhaps this one box will cure you—it has done so for others. If so, I shall be happy and you will be cured for 2c (the cost of a postage stamp). Your letters held confidentially. Write to-day for my free treatment. MRS. F. E CURRAH, Windsor, Ont.

Mail Contract

Sealed Tenders addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 19th February, 1909, for the conveyance of His Majesty's Mails, on a proposed Contract for four years ninety-two times per week each way, between Peterborough and Canadian Pacific and Grand Trunk Railway stations from the 1st April next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Peterborough and at the Office of the Post Office Inspector at Kingston.

Post Office Department, Mail Service Branch, Ottawa, 8th January, 1909.

G. C. ANDERSON,
Superintendent.

Synopsis of Canadian North west HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

NERVOUS DEBILITY CURED

Excesses and indiscretions are the cause of more sorrow and suffering than all other diseases combined. We see the victims of vicious habits on every hand: the sallow, pimpled face dark circled eyes, stooping form, stunted development, youthful, melancholic countenance and timid bearing proclaim to all the world his folly and lead to blight his existence. Our treatment positively cures all weak men by overcoming and removing the effects of former indiscretions and excesses. It stops all drains and quickly restores the victim to what nature intended—a healthy and happy man with physical, mental and nerve power complete.

For over 30 years Drs. K. & K. have treated with the greatest success all diseases of men and women.

If you have any secret disease that is a worry and a menace to your health consult old established physicians who do not have to experiment on you.

We guarantee to cure NERVOUS DEBILITY, BLOOD DISEASES STRICTURE, VARICOCELE, KIDNEY AND BLADDER DISEASES. Consult, free. If unable to call, write for a question Blank for Home Treatment.

Located in Our Own Office Building.

DRS. KENNEDY & KENNEDY

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash values in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery is installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something new on mining stocks, industrials, real estate or city property that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information of what you have to exchange.

CALVIN ESTERLY,
717 Market St., San Francisco, Cal.

Some Big Extensions Around the Soo

The interests represented by Robert Fleming, who has acquired the controlling stock in the Lake Superior Corporation, are both New York and London concerns. The amount already invested is five or six million dollars, and the future may see two or three times that amount added. As to that, no announcement has been made.

The plans under consideration include the extension not only of the Algoma Central, but of the Manitoulin and North Shore road, as well as the expansion of the Soo industries. The extension of the latter railway will mean connection between Manitoulin Island and the mainland. The line is now built only 13 miles west of Sudbury, and will go to Little Current. There is a land bonus for the line; also a bonus of 7,680 acres per mile for the Algoma Central, which will be handed over on completion of the road.

MR. MATHESON HOME.

Hon. Col. Matheson returned from New York to-day. He was accompanied there by Mr. W. H. Hearst, M.P.P., of the Soo industries, but resigned to run Government agent in connection with the Soo industries, but resigned to run for the Legislature. Mr. A. C. Boyce, M. P., was appointed in his place, but as Mr. Boyce has been ill Mr. Hearst accompanied the Provincial Treasurer to New York to arrange for relieving the Provincial Government of its last million dollars of guarantee.

"I have the release in my valise," smiled Col. Matheson this morning, "and the new control will be a grand thing for the Soo. Mr. Fleming is a man of the highest standing, a man who is able to get twenty others to go into anything which he undertakes. He has been identified with a number of big organizations. He is shrewd and able, and represents a huge investment."

WHAT THEY BOUGHT OUT.

It was gathered from Col. Matheson that Mr. Fleming's interests bought over the buildings of the Canadian Improvement Company, Sovereign Bank, and the Philadelphia Company.

Mr. Fleming favors an extension of the Algoma Central to the C. P. R., and Mr. Matheson suggested going to the G. T. P.

MAY CHANGE BOARD.

The Ontario Government had the right of approving of four members of the Board, but has virtually never taken more than verbal action in the matter, the four thus approved being, Messrs. C. D. Warren, of Toronto, R. Wilson Smith, and Drummond of Montreal, and George Pattison, M.P.P., of Preston. Fleming will naturally wish his own men on the Board, but sudden changes are not expected. His control appears to date from last October.

The loan to the Soo industries has as a matter of fact, cost the Government nothing except the expenses of two trips of Col. Matheson to New York. The Canadian Improvement Co., the holding concern, offered to pay even these expenses on the occasion of the Treasurer's first trip, but the offer was declined. They have born all other expenses. This company is nominally still in existence, but practicality, its usefulness is past.

The necessary interchange of documents took place yesterday afternoon

Weak Women

To weak and ailing women, there is at least one way to help. Say with that way, over prejudice and [illegible] One is local, one is constitutional. Dr. Shoop's Night Cure is the [illegible] Dr. Shoop's Restorative, the Constitutional. The former—Dr. Shoop's Night Cure—[illegible] weakness by [illegible] Dr. Shoop's Restorative [illegible] the [illegible] The Restorative [illegible] the [illegible] The Night Cure, as the name implies, does its work while you sleep. It quells nervousness, [illegible] all nervous weakness, banishes tired [illegible] and [illegible] Dr. Shoop's Restorative, when [illegible] makes rich, red blood, [illegible] Restorative, vigor, and energy. Then Dr. Shoop's Night Cure [illegible] to the system. For positive local help, use the

"ALL DEALERS"

Bright Building Prospects in the City of Winnepeg

Winnipeg, Man., aJn. 15.—It is stated that the architects of Winnipeg have prepared and have in preparation plans for over $12,000,000 worth of buildings for 1909. With money becoming much easier than it has been for the past two years contractors are taking advantage of the low prices on materials and are placing tenders that justify a healthy outlook for the early spring.

The City of Winnipeg has awarded contracts to the amount of $1,014,700 on the general works for the municipal power plant. John Gunn & Sons, of Winnipeg, were the successful tenderers for the general works, the contract for the transmission line aluminum cable going to the Northern Aluminum Co., of Shawingan Falls, Que., while the contract for the steel towers was secured by the Manitoba Iron Works of Winnipeg. It will take at least three months for the contractors to get into readiness to go ahead with the work on the power plant. The local labor market is very much overcrowded, and in view of the fact that the building season will not open up for months yet, Winnipeg cannot offer the least inducement for labor men at present.

Winnipeg, Jan. 15.—The railways have played a most important part in the development of Western Canada in the past year. Two thousand miles of railway has been built in that time by the various systems, which has opened up a vast amount of good country, paving the way for new settlement. Of this the Canadian Pacific built 536 miles, the Grand Trunk Pacific 854, and the Canadian Northern the balance. This remarkable extension in railway construction has contributed as much toward the good conditions prevailing in business circles in the west as has the record crops that have been marketed. The total mileage of all railway companies now operating in Western Canada at the close of 1908 is 19,757 miles.

Winnipeg, Jan. 16.—The tenders sent in for the construction of the municipal power works at Point du Bois falls were all below the estimate of the engineers in charge, and have been handed over to the board of consulting engineers for tabulation, when they will be presented to the next meeting of the council with recommendations for the immediate awarding of the work.

Queer Occurence at Sturgeon Lake Recently

Last Saturday afternoon a very peculiar and unfamiliar rumbling noise was heard by people down on the shores of Sturgeon Lake. Very soon the noise became much louder and, with a terrific roar, the ice split, making a thirty-foot gap from Sturgeon Point side of the lake across to Pleasant Point.

But the noise or trouble did not end there. A strange commotion was felt on shore and Mr. Morton's fine, new cement wharf was upheaved and broken beyond any hope of repair and will have to be rebuilt. The new wharf was also slightly damaged.

The people of Pleasant Point heard the noise and felt the shock, and were afraid that an earthquake had broken loose.

INS AND OUTS

Since receiving the Order of the Bath, Sir Edward Clouston has no doubt came in for a shower of congratulations.

The water in the Otonabee River is lower than it has been for years, at this season, but this is probably because we are not keeping closer watch on the milkmen.

The British Parliament's troubles are not over. Those women agitators may suddenly become seized with the idea of swooping down on the House with drawn hatpins.

The Examiner printed an item the other day to the effect that the world's anarchists be placed on an island in mid-ocean. This great family journal would respectfully suggest that the island selected by a sunken one.

The Mail and Empire says that a man named Jackson, living near Toronto, was badly kicked by a mule recently. Which prompts the g.f.j. to offer this advice:—If you have anything to say to a mule, say it to her face.

It is about 15 years since the temperance crowd sprung the Scott Act on the unsuspecting public of Peterborough. They are now at it again with a local option proposal. It appears nothing will stop them until they happen to meet a policeman.

A story is told of the late Dr. Peddie a Scotch minister, to whom his congregation ha dpresented a pulpit robe. He had never worn a robe, and, after acknowledging the gift, he said he would wait in the vestry five minutes after service to hear any objections to the innovation. Nobody appeared but one old lady, who, on being asked what her objections were, answered that she had read the epistles of St. Paul and could not find any reference to the Apostle wearing a gown. "What epistle did you read?" asked the doctor. "From Romans to Hebrews," answered the old lady. "Well, Janet," said her minister, "I have read from Romans to Hebrews also, and I could never find any reference to the Apostle wearing the breeks. What would you think if you saw me going into the pulpit without my breeks?" Needless to say, the old lady departed satisfied with the explanation.

Regina A Centre of Fine Districts

"Go West, young man," advised Horace Greely a half century ago, and his advice still holds good. One of the best countries in the West to-day is Saskatchewan, with its wonderful crop yields of an average of 24 bushels per acre of wheat, 47 bushels of oats and 27 bushels of barley. Statistics prove that the average yield of the grain producing area of Saskatchewan for the past four years has been 23.69 bushels per acre, while a like area in the United States gave an average of 15.07 bushels. In the centre of this magnificent country is Regina, the nerve-centre of the new commercial activity. The district has a yield of 27 bushels per acre of wheat, 61 bushels of oats and 53 bushels of barley.

Should not the call of the Last West draw from every portion of the world farmers, mechanics, business men, investors, and especially Eastern Canadians, who have seen other Western districts grow, and who want to partake of the harvest of Western Canada.

Competitive and adequate shipping facilities are to be valued in Regina, and is fast making the city assume metropolitan proportions. In four years the population has increased from 4,500 to 13,000. A city has has been erected costing thousands of dollars from proceeds of the sale of city lots.

More advantages are to be found in the fact that Regina is the capital of Saskatchewan, and the educational, agricultural, financial and judicial centre of the Province. It is also a city of municipal ownership, and owns its own electric light plant, sewage and waterworks systems.

The railway facilities of the country are of the best.

How's This

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.
Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

The Morton Trust Company had been handed the Government guarantee certificates by Mr. Fleming, and then gave to Col. Matheson a certificate of the cancellation of these. In return he gave them a release of the Government's mortgage claim, Algoma Central, and other bonds of subsidiary companies. The form of the Government's guarantee, signed originally by Hon. Geo. W. Ross and later by Col. Matheson, was an agreement empowering the Morton Trust Company to issue the certificates.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—50c. Sold by all dealers.

Toronto Globe Re Flanagan and Longboat

The Toronto Globe on the Longboat-Shrubb race:—

The change of Tom Longboat's condition from being a charge of a man who knew him and could get out of him the best he had to the control of those who have no further interest in him than as a gate-money attraction puts a different aspect on his approaching race with Shrubb. The Englishman is the most formidable opponent the Indian's list includes, and he will need to be at his best to hold his place as the long distance champion. With Longboat in the same order as will be the man he meets I think there would be little doubt of the result, even over a small indoor track, which is not Longboat's most suitable field of competition. Longboat, trained, should beat Shrubb at any distance from one mile to fifty, and the greater the distance the better the Indian's chance. He can outrun and outstay Shrubb as he did the opponents he has already met, but he can't do either unless fit. It is the matter of condition that forms the only element of doubt where Longboat is concerned. He has all the waywardness and lack of sense of responsibility that are characteristic of his race, and these things render it exceedingly difficult for his trainer. Not that Longboat is a young man of bad habits. He is quite as good as most young white men of his own condition of life and early surroundings. In fact he is perhaps, better, in that, to a certain extent, he is susceptible to a control that would be resented by a pale-face of Tom's ability as a "draw" at the gate.

Knowing the peculiar temperament of the Indian it is not easy to expect that the hired man to whom Pat Powers will turn over the actual work of training and humoring Longboat will be able to accomplish as much as Tom Flanagan, who worked from enthusiasm and a determination to show the world that his estimate was correct when he declared Longboat the best distance runner in the world. It is quite possible that, in the novelty of his surroundings and company Longboat may do a serious and thorough preparation for the race on January 26, and if he goes to the post just fit he should hold Shrubb at all stages. For himself, he is quite confident that he can run as fast and as far as Shrubb wants to go, and then continue, but athletes' own opinions of their abilities are by no means conclusive. They all think they can win, and Shrubb is still more positive than Longboat.

Messrs. J. Ritchie & Co., of Beamsville, Ont., have been awarded the contract for the new Lindsay locks and dam. This announcement was made this morning at Peterborough. Work will be started as soon as possible. It is likely that some of the operations will open within the next few days. The important part of the actual construction work, of course, cannot be undertaken until the spring.

Receipt that Cures Weak Men—Free

Send Name and Address To-day--You Can Have It Free and be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So, I have determined to send a copy of the prescription, free of charge, in a plain, ordinary sealed envelope, to any man who will write me for it.

This prescription comes from a physician who has made a special study of men, and I am convinced it is the surest-acting combination for the cure of deficient manhood and vigor-failure ever put together.

I think I owe it to my fellow man to send them a copy in confidence, so that any man, anywhere who is weak and discouraged with repeated failures may stop dragging himself with harmful patent medicines, secure what, I believe is the quickest-acting, restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and so, cure himself at home quietly and quickly. Just drop me a line like this: Mr. A. E. Robinson, 3949 Luck Bldg., Detroit, Mich., and I will send you a copy of this splendid receipt, in a plain, ordinary sealed envelope, free of charge.

Her Skin was Blotchy

Scaley like pimples covered her face and ruined complexion.

A SPEEDY CURE.

"When my skin had always been so clear and ruddy, I found it very mortifying to see pasty and pimply patches coming over my face," writes Mrs. S. T. Ungerer, a well-known resident of Wheeling. "Great red blotches came on my chin, grew dry and scaled off. I think my stomach was at fault. Certainly my blood was poor because my lips were white and I had an unpleasant fullness and ringing in the ears.

"Noticing in the papers such strong recommendations for Ferrozone as a blood and strengthening medicine, I decided to use. From the first tablet I took there was an improvement. I felt better and had such a good appetite, improved in color and the old rosy flush slowly returned to my cheeks. Finally the blotches began to leave and the skin grew soft and smooth. I have gained seven in weight, look the picture of health and feel as if I had never been ill."

There is no nourishing tonic so sure to build up and strengthen as Ferrozone. It contains concentrated vegetable extracts that supply every weakened system with the ailment it lacks. Health, vigor, happiness—these are the direct results of using Ferrozone regularly.

Sold by all dealers. 50c. per box or six boxes for $2.50. Get Ferrozone today.

Court of Revision

Notice is hereby given that a sitting of the Court of Revision for the City of Peterborough will be held in the City Council Chamber on Friday, the 29th day of January, 1909, at the hour of eight o'clock in the afternoon, for the confirmation of the following special assessments upon the property fronting or abutting on the streets or parts of streets named below, for the construction of sewers thereon, and the total amount to be assessed upon the said property fronting or abutting upon the said streets or parts of streets is as stated below, namely:—

Street or Part of Street.		
William, Bolivar to King streets		
Bethune, Dublin to Edinburgh streets	$ 89.90	$232.93

"OXOL"

The word "Oxol" does not mean one food, or one preparation [illegible]: "Oxol" is a name given to all goods for horses, cattle, swine and sheep, prepared by Messrs. S. K. & E. G. Windsor of Australia New Zealand, England and Canada.

The veterinary preparations as well as the compressed bales of fodder placed on the market of the world under the name of

"OXOL" FOR CATTLE

are all of the greatest possible order of merit and may be used by farmers, graziers, dairymen, and all owners of stock with the full assurance that these goods have the power in a very short time to double their incomes by feeding, fattening and curing all animals, which to them mean money.

One agent only in each district who has sole contract of the local trade for agent's name, see future advertisements, etc.

Cosgrave's Beer

Words of praise have ever prevailed in advertising "copy." That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

Hockey Meeting

A meeting of the junior city hockey league will be held tonight at 7.30 o'clock in the Examiner office. Important business to be transacted.

Lost His Finger

Stony Lake, Jan. 14—Mr. William Drain, son of Mr. John Drain at the Lake, chopped off the first joint of the fore finger of his left hand a few days ago. He was working in Wildman's camp on the ninth line when the accident happened. He will be laid off work for a few days.

Drivers' Ball

The drivers' ball held Thursday evening in the Ashburnham hall was the most successful event of its kind that has been held for some time. About one hundred couple were present and the dance was kept up until an early hour this morning. Excellent music was provided by Messrs. Thos. Mahoney and Wm. Ferguson. A midnight supper was served by Mr. Sam Long.

Won Prize for Window Dressing

In the last issue of the Canadian Grocer is the announcement of the winners of the prizes in the Christmas Window Dressing Contest. The Queen Quality window of Messrs. P. Connal & Son, won second prize in Class One. White & Gillespie's window and J. M. Donovan's window, also of Peterborough, won favorable notice. The contest was open to all Canada and the entries were numerous and meritorious. Mr. Connal's window won many compliments in the city for the novelty of the idea and the dainty manner in which it was carried out.

Historical Society to Meet

The first meeting of the re-organized Historical Society will be held in the Collegiate Institute on Tuesday, Jan. 26th. This is the first of a series of monthly meetings which are being arranged and for this occasion an address will be given by Mr. G. S. Cornish, B.A., of the Normal School staff. His subject is one that should be of special interest at present, being on "Volcanoes." Mr. Cornish is a scientist of provincial reputation, and should deal with his subject in an interesting and instructive manner. A cordial invitation is extended to all those interested to be present. The lecture will probably be followed by a discussion on different points brought out in the address.

Wide Christ Movement by Young People

Cleveland, Jan. 16.—Between five and six million young Christians will be following in the footsteps of Christ, not as an experiment, but permanently, within a short time, if the plans formed by the leaders of the movement in Cleveland are carried out. A committee of thirty, composed of ten representatives each from the Epworth League, the Young People's Society of Christian Endeavor and the Baptist Young People's Union, has been appointed to undertake the task of making the movement a national one.

Letters have been sent to the Rev. Dr. Francis E. Clark, of Boston, president of the Christian Endeavor Society, Bishops W. A. Quayle and W. A. Chandler, presidents, respectively, of the Northern and Southern branches of the Epworth League, and to the Rev. Dr. E. Y. Mullins, of Louisville, president of the Baptist Young People's Union. Each of these national presidents is requested to take up the question with the state and local organizations throughout the United States and Canada.

REMEMBER THIS

A Thorough Cleansing of the System Now is a Sure Protection against Spring and Summer Sickness.

After the long hard winter, system cleansing is badly needed. The blood must be purged and purified, otherwise pent-up impurities will beat through the skin and all through the summer you'll be tormented with rashes, pimples, humors and boils.

The best of all blood purifiers, and at the same time an unequalled tonic and appetizer, is Dr. Hamilton's Pills; they will build up, aid the digestion of food, keep the system vigorous, healthy, strong. Being mild and pleasant in action, you need not hesitate to use Dr. Hamilton's Pills. Take them at night—note the difference in the morning, how fresh, bright and well you feel. No surer health bringer and health keeper known than Dr. Hamilton's Pills. Get a 25c. box today. At all dealers.

Anything and everything in the shape of wedding presents at sacrifice prices. January sale of china and glassware in full swing. Times Bookstore.

SALVATION ARMY.

Col. and Mrs. Mapp

Colonel Mapp, the Chief Secretary for Canada, accompanied by Mrs. Mapp, will pay his first visit to Peterborough today (Saturday) and to-morrow (Sunday) January 16 and 17.

Grand Welcome Meeting

will be held in the Barracks on Simcoe Street, Sunday afternoon at 3 p.m. when members of the City Council will be present. His Worship Mayor Hush will preside, assisted by Brigadier Hargrave.

ALL ARE WELCOME

MOTHER BELIEVES IN PERUNA.

Mrs. K. Kane, of Chicago, Uses Pe-ru-na in her family of five children, Grace, Myrtle, Edward, Reeves and George.

A HEALTHY FAMILY

Pe-ru-na in the Home.

After all, experience is the best teacher. Some doctors may write in favor of Peruna. Other doctors may write against it. But it is the *testimony of the mothers* and fathers who are rearing families, *who love their children*, who must economize as to doctor bills, who are raising little boys and girls into men and women of the future, it is the testimony of such people that really counts.

There is no way to positively ascertain *how many families* in the United States rely upon Peruna for the many climatic ailments to which the family is subject. The number must be a great one. Several millions perhaps. They have learned *how to use Peruna* for ordinary ailments, and in that way are guarding their homes against more serious diseases.

Such ailments as coughs and colds, sore throat and catarrh, croup and colic, indigestion and loss of appetite, anemia and nervousness, all these ailments are promptly *relieved by a few doses of Peruna at the right time.*

Millions of provident mothers and fathers are guarding the interests of the home by using Dr. Hartman's great remedy, and profiting by his medical *booklets and personal advice.*

Catarrhal Croup.

Few people realize how frequently croup is caused by catarrhal congestion of the throat. Probably nine cases out of ten of croup is of the catarrhal variety.

The medical profession recognizes three forms of croup. The spasmodic variety, membranous croup and catarrhal croup.

Nearly every case is of the catarrhal variety, and a few doses of Peruna taken at the first appearance of the catarrhal symptoms is generally sufficient to avert the attack of croup altogether.

Croup is a frightful disease. No disease of children so alarms the household. It is impossible to estimate how many homes have been protected against croup by the proper use of Peruna.

Household Remedies.

There is no remedy in the world which has proven so popular for catarrh as Peruna. It has been used for more than thirty years and cured thousands of cases, as proven by our testimonials.

In the early history of this country every family had its home-made medicines. Herb teas, bitters, laxatives and tonics were to be found in almost every house, compounded by the housewife, sometimes assisted by the apothecary or the family doctor.

Furnishing medical compounds direct to the people, through the druggists, is simply the extension of the practice begun by the people themselves.

Kept the Children Well.

Mrs. K. Kane, 196 Sebor St., Flat 1, Chicago, Ill., writes:

"Peruna has been used so long in our family that I do not know how I could get along without it.

"I have given it to all of my five children at different times when they suffered with croup, colds and the many ailments that children are subject to, and am pleased to say that it has kept them in splendid health.

"I have also used it for a catarrhal difficulty of long standing, and it cured me in a short time, so I have every reason to praise Peruna."

Nervous System a Wreck.

John G. Hirdler, Garfield, Kas., writes: "On December 2, 1899, I was injured by a fall on the Santa Fe R. R., and my entire *nervous system was impaired* by the same. The help of a physician was useless. I believe I tried every one in the vicinity, but all were alike and I remained without strength.

"I then tried Peruna, and after using it for three months was *totally well.* I am seventy-one years old, and my work on the railroad is hard and tedious, but I can work like a young man in all kinds of weather, heat, cold, rain, snow or storm alike.

"Peruna is the purest and best medicine, and if used according to directions, it will help any person and cure any disease for which it is recommended. I recommend this medicine by my own experience to any one suffering from an ailment on the order of mine."

For Herself and Children.

Mrs. Aline DePasse, 776 E. 165th St., New York, N. Y., writes:

"It gives me pleasure to testify to the curative qualities of Peruna and Manalin.

"I was afflicted for over seven years with *catarrh of the head, throat and digestive organs.* I consulted many physicians, but they did me no good.

"One day I happened to read some testimonials in your Peruna almanac. I decided to try Peruna and Manalin. I bought a bottle of each and after taking them for a week, I noticed a change for the better. So I kept it up and after using twelve bottles I was *perfectly cured.*

"I also gave the medicine to my children and they had the same beneficial result. I would never be without these remedies in the house.

"I highly recommend Peruna and Manalin to all my friends, and, in fact, to everybody."

Thousands of families have learned to trust and believe in Dr. Hartman's judgment, and to rely on his remedy, Peruna.

Catarrh of Stomach.

Mr. John M. Stansberry, Amarillo, Tex., writes:

"For several years I had catarrh of the stomach. I was hardly able to do anything, and could not eat with any satisfaction.

"When I commenced using Peruna, I weighed only 110 pounds. I took six bottles, commencing in the spring, and by the following winter I had gained 63 pounds.

"I owe it all to Peruna. It cannot be praised too highly.

"I am forty-five years old, and my occupation is that of architect and builder."

Wanted

At once, good Dining Room Girl. Apply at Queen's Hotel.

Wanted

A respectable young woman wants a position as a housekeeper. Best references. Apply at this office for address.

Representatives Wanted

$5,000 or more a year can be earned by a bright man devoting entire time to permanent, high class business in any place of five thousand or over; salesmen in all lines, including insurance, stock, real estate, books, etc., can operate on side and add materially to present earnings, not interfering with, but actually helping regular business; state experience and say about how much you made past year. Address H. M. Harper, 37 William street, New York City.

Personal

Mr. and Mrs. John Botteral of Lakefield, were in the city yesterday.

Mr. Finch Miller has gone to Brantford, where he will be with his son who was injured in a railway wreck.

Mr. Edward Jory of Pine Grove, Lakefield, was in the city yesterday morning.

Miss Pearl Grievé of Napanee is the guest of her sister, Mrs. Ed. Huff, Robinson street, Ashburnham.

Mr. Spotten of Wingham, arrived in the city Thursday night on a visit of inspection to the Peterborough Business College.

Mrs. J. W. Rork had a visit during the New Year's holidays from her mother, Mrs. Perrin, also her sisters, Misses E. and L. Perrin of Peterborough.—Norwood Register.

Mr. Lewis Spry of Peterborough, was in town attending the sale of real estate and effects of the late Mrs. Edward Spry.—Port Hope Times.

Wemsaly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

Mr. Joseph Quinn for the past five years baggage master at the C.P.R. station, left on Monday morning for Peterborough, to take a course in telegraphy at the Peterborough Business College.—Tweed News.

Miss Vi Fraser and Mr. Jack Fraser left for Brantford yesterday morning to attend the wedding of their sister, which takes place this afternoon.

Miss Jones of London, England, who has been visiting Mr. and Mrs. Mackenzie at the Grove, Lakefield, passed through the city yesterday on her way to Galt, Ontario.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets set as by magic. A few hours—and your threatening Cold is broken. Candylike in taste. Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventics—25 cents. Ask your druggist. He knows. Sold by all dealers.

The many friends of Mr. and Mrs. G. H. Popham will be sorry to hear of the death of their infant child. The death occurred at the home of the parents, 553 Homewood avenue. The funeral, which is private, will proceed to St. Peter's cemetery for interment at 9 o'clock this morning.

Hains Acquitted

Continued from page one.

less shocking nature, which were told to him regarding his wife and Annie. These things, gentlemen, these talks of his, these matters which were told to him by his wife, father, servants, and others, are in this case solely for the purpose of showing his mental condition on the 15th day of August, 1908."

New York, Jan. 14.—A juror whose face was covered with surgeon's sticking plasters was the chief figure at the trial of Thornton Hains in Flushing yesterday, in spite of the fact that the trial is in its last hours. The juror is Thomas Walsh, who occupies chair No. 2, and who is a bachelor, living in Astoria. He spent Tuesday night in Manhattan, and was pushed from the platform of a rapidly moving Third avenue trolley car. That he landed on his face was self-evident. He had some stitches put in at the Presbyterian Hospital in New York, and then went home. On his way to the trial this morning, his wounds broke out afresh, and he went to the Flushing Hospital to have them redressed. He held out through an hour or more of Mr. McIntyre's address. Then Judge Crane saw that the wounded juror was almost slipping from his chair, and ordered a hasty adjournment. The court called in a doctor, who said that Walsh, unless unduly tired, could continue in the case. The prescription meant hourly recesses, while Mr. Walsh went to the judge's chambers, and took his medicine. Judge Crane took personal charge of the juror last night, but he sent the other eleven men home.

MILLIONS OF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Wasted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW wha it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world. Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Our smelter thus erected will save 85% in treatment, freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when here you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary, development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Address

The Kuenzel's Process Smelter Co.

VOL. XXXII NO. 14 PETERBOROUGH, ONTARIO, MONDAY, JANUARY 18, 1909 PRICE TWO CENTS

The Aldermen and City Officials at Church

A very large congregation filled the George street Methodist church last night. The occasion was the annual sermon to his worship the mayor, the aldermen, and the civic officials. The lawmakers attended in a body and occupied pews in the front of the auditorium, while the congregation filled practically every seat in the big church. Rev. E. A. Pearson occupied the pulpit, and delivered the sermon His subject was "Courage," and he took his text from Josh. 16. "Be strong and of a good courage."

In opening the reverend gentleman took occasion to express on behalf of himself and the congregation a hearty and cordial welcome to the city governors. He also expressed his pleasure to see the men gather on this, the very first opportunity since the new year, to worship and to seek the Divine guidance.

Courage is a virtue and from the early days of the world's history it was looked upon as the greatest of all virtues. As an example the Lord Himself was courage personified. There are different kinds of courage. Many look upon the hero of the battlefield as the first type of courage. Such, however, is not the case. The man who hears yet yields not to the evil influences of his friends is courageous. It is easy to meet your enemies, but it requires courage to refuse your friends The man who lives his every day life and overcomes the persistent desire to go astray from the straight and narrow path is a brave and a courageous man. It is, therefore, the privilege of every man to be a hero and to be one of those heroes which receive attention from God.

Special music was rendered by the choir and altogether the service was very successful and should bear much fruit.

Col. and Mrs. Mapp Visit the City in Interests of the Salvation Army

A Welcome Service Sunday Afternoon--Citizens Represented by His Worship Mayor Rush and Mr. J. R. Stratton---Very Interesting Address Delivered---Chief Officers will be Here for a Week.

Col. and Mrs. Mapp of the Salvation Army headquarters in Toronto, were given a hearty and cordial welcome to Peterborough by the local corps and by his Worship Mayor Rush and Mr. J. R. Stratton, M.P., Mapp is the assistant to the Army chief in Canada, and has only been in [illegible] tour and a[illegible] over, been [illegible] impressed [illegible] work of [illegible] the Army. [illegible] in the [illegible] of a century [illegible] in many [illegible].

Sunday was a big day in Salvation Army circles. In the afternoon a special welcome service was held in the barracks at which his Worship Mayor Rush was present to extend a welcome on behalf of the citizens as a whole to the visiting officers. He acted as chairman and on the platform with him was Mr. J. R. Stratton, M.P.

His worship made a very pleasing speech in which he expressed his own and the sympathy of the citizens in the work of the Salvation Army. He felt greatly honored in having the opportunity of welcoming Col. and Mrs. Mapp to the city and hoped they would have a very pleasant and profitable week here.

Mr. J. R. Stratton, M.P., expressed himself as much pleased to be present and said that he was only here to show his sympathy with the great work the Army was doing in this city and in the Dominion. They were doing a work with a class of people who the other religious bodies could not or did not reach and it was a work which should receive the generous support of everyone.

Mrs. Mapp, who has accompanied her husband in all his travels, made a very feeling address in which she gave her experience when a young girl and when she first identified herself with the Salvation Army. She spoke in a most touching manner of her work in the dives and slum and cellars of old London where she and her companions entered and carried the gospel while the police of the city stood at the door and dared not to cross the threshold. From London she went to India and she told one or two of her experiences in the labor among the people of that country. The missionaries in those days had all the trials and troubles it was possible to have, but yet it was God's work she was doing, and she was now glad that she had done it. Mrs. Mapp is a very pleasing, quiet and convincing speaker and her address struck the heart strings of many present.

Col. Mapp, in being introduced to the congregation, said that he would like to have closed the meeting with the words of his wife, but in the face of the whole-hearted and very cordial welcome he had received he could not without first expressing his sincere thanks and appreciation. He said that, while this was his first visit to Canada he had had associations with Canadians in Indian, and found them noble, earnest and devoted workers. One of the characteristics of Canadians which marked them different from other people, was their loyalty to their Master, their love of humanity and their whole-hearted comradeship. What he found among the Canadians in India he also found was a common characteristic here. Colonel Mapp told brief of his joining the Army and his decision to enter the ranks as an officers and to give his whole time to the work. He is a man with a fine appearance, a clever and an impressive speaker and one who speaks with authority. His visit to this city will undoubtedly be of great benefit to the local corps.

Sergt.-Major Braund also made a few remarks. The Army band led in the singing and the service was very bright and interesting.

Enlarge Premises

It is understood that Mr. Thos. Hooper will further enlarge his premises at 414 George street, by acquiring the shop at present occupied by Messrs. Jordan Bros., the florists, and immediately north of Mr Hooper's upper store.

This will give Mr. Hooper much additional room, and the accommodation of his present grill room will be greatly increased. It is his intention to have a first-class banqueting hall, that will adequately supply the demands of any parties desiring to hold banquets.

Messrs. Jordan Bros. will vacate their present stand on the first of February, moving into the store now occupied by McGregor & Reid, whose new premises will be at 422 George street, the store formerly occupied by J. W. Young.

Three Characteristics of Young Manhood

"Three Characteristics of Young Manhood," was the topic upon which Rev. Robt. Pogue preached on Sunday evening. It was a special sermon to young men, and although the announcement was only made Sunday morning there was a very large number present. The first point the reverend gentleman dwelt upon was the "sense of independence." felt by the young fellow starting out in life. He pointed out the danger of that independent feeling if it was not properly directed. Young men frequently think that because they are no longer under the care of their parents that they are free agents with no law to govern them. Such is not the case. There is freedom and freedom. True freedom is only obtained by conforming to the laws of God. All people are under that law.

The second point was the young man's love of the manly. He admires a man who is strong and vigorous. But then physical strength does not represent the strong characteristic of a manly man. What about gentleness, goodness, the grace of forgiveness, etc. True strength is the conquering of the lower nature.

The lack of concentration is the cause of much wasted time. The speaker emphasized the necessity of having a definite aim. Life is not for pleasure or for wasting the golden moments in meandering through the fields picking daisies. It is a constant warfare against sin and a true man takes up that fight and battles every day.

Committees to Meet

A meeting of the Manufacturers' Committee and the Special Power Committee will be held on Thursday night in the city clerk's office.

On Wednesday night the Board of Works will convene for the first time this year. Important business will come up and all members are requested to be present.

The Fire, Water & Light Committee will hold their first meeting this evening at eight o'clock, when the chief of the Fire Department will present his first half yearly report

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some concerns whose medicine dealers may offer you a substitute Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.,—take the advice received and be well.

FAMILY DRIVEN OUT OF HOUSE IN THEIR NIGHT CLOTHES BY FIRE

S.S. Brown, of Auburn, Suffered Total Loss of His Belongings at Midnight Saturday.

Lack of Water Service Prevented The Firemen from Saving the Building.

A disastrous fire at midnight Saturday wiped out the home and all the belongings of Mr. S. S. Brown and family. The sufferer is a teamster at the Auburn Woolen Mills, and his home was in a story and a half frame house on the Douro side of the river road.

The head of the house with his family were all sound asleep when the fire broke out, and when the smothering smoke, which was rapidly filling the whole house, awoke Mr. Brown there was only time for him to get his family out alive (They were cast out into the winter night and the biting east wind with nothing but their night robes on.

When Mr. Brown discovered the fire he awoke his wife and together they rushed into the dining room and found that the kitchen was enveloped in flames. They got the five children, three girls and two boys, the eldest being only 15 years, up and hurried them outside. Then Mr. Brown entered the front door again and managed to get to the bedroom where he grabbed an armful of clothes and was forced to retreat as the smoke was suffocating and the flames making great headway. The neighbors were aroused and took the children in while one of the men went in a fire alarm from box 58.

The fire department responded in quick time, but they could do nothing as there is no water connection in that part of the city, and the chemicals were no good against such a big blaze. A chemical engine, however would have been of great value. All the department could do was to save the house across the road which was in great danger as the wind was blowing strong in that direction. The chief and four men remained at the fire until two o'clock while the rest of the department returned to the fire hall.

The building was owned by Mr David Heaslip and is a total wreck The contents were a total [illegible] also although partly covered by insurance. Mr Brown estimates his loss at about $400.

In speaking to The Times Mr. Brown stated that he and his wife retired to bed about eleven o'clock after seeing that everything about the house was all right. The kitchen fire was put and the kitchen door locked as were all the other doors. The fire started in that room but from what cause he cannot say. The only fire was that in the dining room. He was awake at twelve but noticed nothing wrong and at 12.30 or thereabouts he was awakened by the smell of smoke. The origin of the fire is a mystery to him.

On Sunday morning he had to come down town and get an outfit of shoes for the family. The neighbors kindly furnished some clothing to tide them over and he desires to express to them his sincere thanks.

Some Changes in the Salvation Army

The Salvation Army Incorporated is securing a charter at Ottawa and a bill will be introduced at the next session of the Legislature of Ontario to make certain changes required by the new conditions. The incorporation of the Army will give it a standing as a business concern, and enable the better handling of its immigration and other branches of work.

While officials of the Army are reticent about the nature of the reorganization in Canada, it is known that the Dominion is to have a governing council, of which Commissioner Coombs will be the head.

An interesting feature of the new system will be that the Army's property, heretofore held by General Booth as trustee, will be transferred to the Salvation Army Incorporated, and that hereafter no property will be held in the name of any individual. This will end the difficulty which might arise in case of the demise of the general.

There are other interesting features of the incorporation which will be announced from time to time.

Half a Million Paupers in England and Wales

London, Jan. 16—An unusual return dealing with poor law relief in England and Wales has just been published, figures being given for the year ended September 30th, 1907. The ordinary returns do not show the duration of relief in individual cases, or the number of occasions on which relief is given.

In June, 1906, the poor law commission represented to the local government board the necessity for the purposes of the commission of obtaining more detailed information. Accordingly the local government board prepared special forms for a register of paupers to be kept for the purpose of recording during the twelve months from October 1st, 1906, to September 30th, 1907, adequate particulars as to each person or family relieved in that period and the nature and duration of the relief granted.

Summarised, the returns show that the total number of persons (excluding lunatics and casual paupers) who received relief in the year was 1,769,436 or 4.9 per cent. of the estimated population. Children under sixteen years of age numbered 564,314, forming slightly less than one third; the remainder consisted of 618,637 females and 526,449 males. One section, amounted to nearly three-fifths 995,994 persons) or the aggregate number relieved, was made up of members of some 305,658 families; 502,752 persons received non but indoor relief, 1,125,507 none but outdoor relief (including 216,022 persons who received medical relief only), and 71,177 persons received both indoor and outdoor relief at different times in the course of the year.

The proportion of pauperism in London, with an estimated population of 4,758,218, was much higher than for the whole of England, being equal to one in 14 persons, or 7.1 per cent. Classification by sex and family shows that of the total number of persons relieved the proportions of men, women and children were 30.8, 36.2, and 33 per cent. respectively. The proportions as compared with the estimated adult male and female and child populations (1907) were as follows;

Men, 526,449—4.8 per cent. of male population.

Women, 618,673—5.1 per cent. of female population.

Children under 16, 564,314—4.7 per cent. of population under 16.

(Women form the largest section of paupers).

Services in the City Churches for the Week

ST JOHN'S.

Monday, 4.15 p.m., Boys' practice, 7.30 p.m., King's Daughters; 8 p.m. social evening under the auspices of A.Y.P.A., Girls' Auxiliary and Girls' Guild. A most attractive program is prepared.

Tuesday, 3 p.m., sewing meeting, W.A.; 8 p.m., Girls' Guild; 8 p.m., first meeting of Canon Davidson's confirmation class in the Guild room. A hearty welcome to all to this meeting to organise the class.

Wednesday, 3.30 to 4.30, Women's Devotional and Social hour, conducted by Mrs. Palmer; 8 p.m., Evening service in guild room; 8.30, Brotherhood of St. Andrew.

Thursday, 8 p.m., Choir practice.

Friday, 4.15 p.m., Mission Band led by Mrs. Dutton.

Saturday, 9 a.m., Boys' choir practice.

ST. PAUL'S.

The regular weekly services will be held and after the prayer meeting on Wednesday night, the Ladies' Aid Society will meet.

The congregational meeting will be held a week from Wednesday night, Jan. 27th, when the financial statement will be presented along with the reports from all societies connected with the church.

ST. ANDREW'S.

The Y.P.S.C.E. meeting will be in charge of the social and music committee this evening, and a full attendance is requested.

The W.F.M.S. will meet on Tuesday afternoon at three o'clock. In the evening a special meeting of the Ladies' Aid will be held at the home of Mrs. Chas. McClelland, Downie street.

The congregational meeting to have been held on Thursday night of this week will not be held until Thursday night of next week.

GEORGE STREET.

Next Sunday will be missionary Sunday and the pulpit will be occupied in the morning by Rev. Mr. Weatherwell of Springville, and in the evening by Rev. Mr. Rogers of Millbrook, and on Monday night Rev. Dr. Storey, a returned missionary will lecture.

Wednesday night the weekly prayer meeting will be held and the quarterly board will be held afterward.

The Mission Band will be at home to the ladies of the congregation on Thursday afternoon.

On Friday night a concert in aid of the Sunday school and Sunday school orchestra will be held.

Presentation to Miss Lancaster

On Sunday morning Hymn 376, was sung in connection with the journey to England of a member of the choir, Mr. Wm. Coleman. After the evening service an interesting event took place in the vestry, when the rector on behalf of the choristers of St. John's, presented Miss Florence Lancaster with a handsome piece of plate on the occasion of her leaving the choir to be married very shortly, and will reside in Montreal. Best wishes were expressed for Miss Lancaster's future happiness, although regretting loss of her assistance in the choir.

Four Bankers Get Five Years Each

Pittsburg, Pa., Jan. 16.—In the United States court today three bankers and a business man were sentenced in connection with irregular banking methods; a fourth banker failed to put in an appearance and will be sentenced next Saturday, and the passing of sentence on a fifth banker was postponed until the May term of court, owing to his poor physical condition.

Sentences were pronounced by Judge James S. Young, as follows;

William C. McKee, vice-president of the Farmers' National Bank of Emlenton, Pa., and a director of the First National Bank of Clintonville, Pa., convicted of misapplication of funds, five years in the penitentiary.

John M. McKee, brother of William C. McKee, president of the First National Bank of Clintonville, convicted of misapplication of funds, five years in the penitentiary.

Barry S. McKee, son of John M. cashier of the same bank, pleaded guilty to abstraction of funds and making false entries, will be sentenced next Saturday.

Charles E. Mullin, cashier of the Farmers' and Merchants' National Bank of Mount Pleasant, Pa., convicted of misappropriation of funds, five years in the penitentiary.

E. B. Steinman of Mount Pleasant, president of the Etna Lumber Co., convicted of aiding and abetting in the misapplication of funds of the Mount Pleasant Farmers' and Merchants' Bank, five years in the penitentiary.

R. K. Hissem, president of the Farmers' and Merchants' National Bank of Mount Pleasant, convicted of aiding and abetting in the misapplication of funds, sentence postponed until the May term of the court owing to Hissem's advanced age and poor health. He is 65 years old.

ADVERTISE IN THE TIMES

Seventy Killed and 30 Will Die in a Colorado Train Wreck

Chair Car Telescoped and of the Sixty-Nine Occupants it is Reported That Only a Little Girl Escaped---The Wreck Occurred at Blind Siding---The Relief Train is Stalled by Another Derailment.

Denver, Col., Jan. 16.—Seventy-one dead, 50 injured, at least 30 of whom will probably die.

That is the record of the wreck of the Denver & Rio Grande passenger train No. 5 near Dotsero, 20 miles from Glenwood Springs, according to a long-distance telephone message from Glenwood Springs today.

The passenger train, running down grade, crashed into the leading engine of the freight train, going across a switch at Dotsero, which is a blind siding.

The chair car was telescoped and the first passenger coach was wrecked. It was from the chair car that the dead were taken. Twenty bodies have been recovered.

It is said that not a single person in the day coach escaped.

To add to the horror of the wreck, the second relief train on its way to Glenwood, loaded with injured, was tied up by the derailment of some freight cars.

The first relief train, bearing a number of slightly injured, reached Glenwood this morning, bringing reports of the wreck, which appears to have been one of the worst in the history of railroading.

Most of the slaughter was done in the chair car.

Of 69 passengers in that coach, 68 are said to have been killed.

The one person to escape was a 6 6-year-old girl, who was found under the dead body of her mother, and who is too near dead even to remember her name, more than that it is "Allee."

HORRIBLY MUTILATED.

The dead are, in many instances, so horribly mutilated that identificatoin will be difficult.

The passenger train is said to have been going at a high rate of speed when it reached the siding at Dotsero.

It is supposed that the engineer of the passenger train thought the freight had passed the siding, and was going too rapidly to stop his train when he saw the danger.

THE DEAD.

It was from the chair car that the dead were taken, and 20 bodies have been recovered thus far.

The dead; Gus Olsen, engineer of the passenger train, Salida; 49 passengers, names unknown.

Known injured; Sigel Olsen, engineer on freight train, badly injured, may die; J. T. Jeffrey, engineer on freight engine, badly injured, may die; 70 passengers, names unknown.

It was impossible to carry the wreck, and this fact delayed the relief to passengers for more than an hour.

Mackenzie King and Jas. Stratton to be Desk Mates

Ottawa, Jan. 16—Parliament is to open on Wednesday and those entrusted with the work of furnishing the new wing and clearing up all round say it will be ready But there is a lot to do.

The new wing to the commons will effect a revolution in the accommodation and comfort of members. The top, or third flat, of the new wing, is practically a club flat, including kitchen, dining-rooms, storage, lounge rooms, etc. The new dining room is, as far as view is concerned, the finest in America, commanding from an elevated level the wholepanorama of the Ottawa Valley, the Gatineau and great stretches of the two provinces, the Laurentian Hills and a portion of the city.

The Speaker's apartments are much larger and workmen are busy today in pulling the Louis Quinze and Louis Quatorze furniture into the official apartments.

The press men are getting a fine new room on the chamber floor, with gorgeous desks and typewriter tables to match.

The ministers, most of them, get new rooms, so do the Conservatives.

The prime minister and his secretary will hereafter have two well lighted and comfortable rooms, with a vestibule entrance. If the prime minister is to have a private exit it is not yet in sight.

The leader of the opposition gets a much better room in the old wing.

The house of commons chamber is ready for use and the seats allotted.

Mackenzie King and James Stratton are to be desk mates in the second to last row in the government side. Chas Murphy, secretary of state, is to sit alongside Mr Oliver.

On the opposition side Mr. Monk takes the seat vacated in the front row by the retirement of Col. Tisdale. Of the Toronto men, Mr. Foster and Mr. Maclean are in the front row in their old seats. Mr. Osler and Mr. Macdonell in the second, Mr. Bristol in the third and Joe Russell in the back row and Tommy Wallace and Sam Sharp are desk mates in the back row.

There is a great rush for the little rooms about the house, but some will not be assigned until the new Speaker is elected. Mr. Marcil will be the new Speaker. Mr. and Mrs. Marcil will arrive at the capital early next week. The new dining room of the Speaker is to be on the main floor.

An Accident on Smith St. Bridge

That Smith street bridge will yet be the scene of a serious accident. It has been before the public very prominently for several years, and will likely remain in the public eye for some time yet. On Saturday night when the fire department responded to the fire at Mr. Brown's at Auburn, the first truck, on which was the chief and Fireman Grange, started across at a gallop but a piece of heavy plank was in the way and was struck by the hobs. The plank snapped in two, and while Fireman Grange saw the danger and jumped for the top of the sleigh he was too late and the piece of wood caught him on the ankle. That it was not broken is a marvel. As it is he will be lame for several days. Another piece was going for the chief's head, but he just ducked in time and saved himself.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—50c. Sold by all dealers.

The Six Nations Thank Mr. Tom Flanagan

A testimonial of which T. C. Flanagan values very highly comes to him from the Council of the Six Nations Reserve. It is in part as follows:—

"The chiefs and people of the Six Nations tender to you, Mr. T. C. Flanagan, ex-manager of the Nations' famous warrior and running wonder of the world, their most cordial and sincere thanks for your interest in one of their warriors, and for the many acts of real kindness you have shown him during the time that you held the position of manager of the said Thomas Longboat.

We realize that it was through your constant care and attention that he attained the highest position as a runner in the athletic world.

We also further beg to thank you for placing him under the able and capable management of Patrick Powers, of New York, who holds an eminent a position in international athletics, and who no doubt will lead him on to perform still greater deeds in the athletic field, and to add still more laurels to the glory not only of the Six Nations, but to the whole continent of America.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste, Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventics—25 cents. Ask your druggist. He knows. Sold by all dealers.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

TRENT CANAL ROUTE

To the duties already performed by the Railway Commission, the Minister of Railways purposes adding the regulation of rates to be charged individual consumers by water power promoters along the Trent Valley canal. When power from the canal is sold to the public the Railway Commission will be required to regulate the rates at which it may be sold. This is a very practical application of the principle of government control of public utilities. It may disappoint the power promoters who saw in the Trent Valley Canal project many fortunes in easy money for themselves, but it will be approved by all who remember that the Trent Valley Canal is being constructed with the people's money and that in any advantages that may spring from its development the people should have a share.

FROM NEW ARABIAN NIGHTS

Are all the opportunities gone and is the young man played out? In these days of trusts a melancholy answer is often given to the question, and yet there are biographies that inspire hope.

Turning to the latest edition of the New Arabian Knights we find that a young man who is the hero of one of the stories was working away in a newspaper office less than a score of years ago. He was a reporter, and then he was a financial editor. Now, we do not propose to concede for any purpose of contrasts whatsoever that a reporter or a financial editor is not the equal of any man living. There are reporters and financial editors within our knowledge who size up very much larger than many more pretentious persons who get their names in the newspapers. But this particular reporter and financial editor aroused such interest in his work that when a Chicago banker was made secretary of the Treasury he took him with him as his private secretary.

That was less than twelve years ago, and a short time thereafter, the reporter and financial editor became assistant secretary of the treasury. In 1901, while most of the bank employees of Chicago were keeping along in the old routine, he was made vice president of the National City Bank of New York, and Tuesday he was made president of that institution, which is celebrated as the largest bank in the United States.

Though, as we have indicated, a reporter is as good as a bank president, it is violating no confidence to say that the president of the largest bank in the United States receives a greater remuneration than the average reporter. On other accounts also the change in Mr. Frank A. Vanderlip's life may be regarded as a real promotion. He is not merely a banker; he is at the top, and ambitious bank clerks may well consider whether a preliminary training in the newspaper business would not be to their advantage.

But, of course, every newspaper reporter cannot become the president of the greatest bank. Mr. Vanderlip had virtues of his own as well as the virtues of his profession. He proved that there were opportunities and rose to them. And to the worldly-minded who lay special stress upon the question of remuneration this chapter in the New Arabian Nights should be as pleasing as any of the stories in the original book about gold and silver and precious stones and the power of the enchanter. Others will see something more in the success of an exceptionally capable man of affairs.

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Sheop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs, quickly yield to the healing, soothing action of this splendid prescription—Dr. Sheop's Cough Remedy. And it is so safe and good for children, as well. Contains no opium, chloroform, or other harmful drugs. mothers should in safety always demand Dr. Sheop's. If other remedies are offered, tell them No! Be your own judge! Sold by all dealers.

INDUSTRSAL SAFETY AND LIABILITY

We have spoken of the prominence that is given in gubernatorial messages to the question of proper regulation of public service corporations. No one who reads these documents carefully can fail to notice that almost second in importance is considered to be the question of preventing industrial accidents and adequately compensating the victims of such accidents as are unavoidable under the best possible conditions.

This is comparatively a new question in practical politics. A few years ago the labor unions alone were agitating for modernised employers' liability laws and more attention to safety devices. To-day the public conscience strongly favors such action, and the feeling is that society has been wasteful and unjust in its treatment of industrial casualties.

The three recent mining disasters will further emphasize the necessity for such industrial legislation as is being proposed in New York, Illinois, Indiana, Nebraska, Ohio, Colorado and other states. It is admitted by all that there are too many accidents in our mines and factories. A government report just published shows that "upon a conservative estimate the total mortality from accidents in the United States among adult male wage-earners is between 30,000 and 35,000." and the opinion is expressed that of this number "it should not be impossible to save at least one-third, and perhaps one-half, by intelligent and rational methods of factory inspection and control." The non-fatal accidents reach a total nearly 2,000,000 annually, and they involve a vast amount of pain, distress, destitution and bitterness. Proper laws for th eguarding of machines and the exercise of care generally might reduce the number of these accidents in the same proportion. What a social blessing that would be!

As to compensations for accidents, it is neither right nor expedient to throw the greater part of the burden on the wage-workers, as has been done under antiquated doctrines concerning negligence, fellow servants, etc. It is now realised that accidents ought to be a charge on industry and their cost spread over the whole field of consumption. To withhold proper compensation from the victims of industrial accidents is, moreover, to increase pauperism and insanity and crime, to swell the charity budgets and raise taxes.

The new ideas and sentiments on these questions are among the striking evidences of intellectual and moral advance, and they will quickly find embodiment in appropriate legislation.

THE WHITE PLAGUE

It was Charles Dickens that uttered the truism that consumption is a disease which wealth never wards off and poverty cannot boast exemption from, the force of which is not yet fully realised.

There has been, it is true, an organised warfare carried on by the medical profession, the governments and the public for many years against the scourge in Britain, some of the countries in Europe and the United States, and to some extent in Canada. The death rate in these countries has decreased in proportion to the vigor with which the warfare has been carried on. There is not yet, however, the strong, live, vigorous, persistent public opinion on the question that is necessary to the extermination of the plague. Until that obtains, means initiated to check the ravages of consumption will not be supported as they should be.

Lincoln County and the City of St. Catharines have not been immune from the plague by any means. It was only recently, however, that an organized effort was instituted with a view to effectually treating tubercular patients here. Now, subscriptions are being invited to aid in the establishment of a tuberculosis hospital in this city. The donation of a site by Mr. R. W. Leonard, the arduous work done by the philanthropic ladies who have undertaken the work, and the generosity of a number of our citizens, who have evinced a kindly interest in the enterprise, have given the project a splendid impetus. It is hoped that the amount needed will be fully subscribed in the near future and that this much needed institution will soon be in operation.

Much should be done, as well, to prevent the disease from gaining a foothold where it has not yet penetrated. To this end an energetic educational campaign should be carried on, so that the general public may understand the infective nature of disease, that it is largely preventable by the destruction of the sputum in which the contagion lies, and that in a large percentage of cases the disease in its early stages is curable by the use of good food, sufficient rest and fresh air.

Those who have been immune from the disease owe a distinct duty to their less fortunate fellow citizens to do all in their power to assist in the warfare against consumption. One excellent way in which all can show a live, practical interest is by contributing to the fund now being raised to establish a tuberculosis hospital in St. Catharines.

Our First Shipment of

Haines Bros. PIANOS

has arrived and is on exhibition at our showrooms. They are pronounced, by many who have seen them, to be the

most artistic and and scientifically perfect pianos

ever exhibited in city of Peterborough. Come in to see them. We expect a shipment of

MARSHALL & WENDELL AND EVANS BROS. PIANOS

in a few days. Our Evans Bros. Player Piano is attracting considerable attention. Hear it played.

Synopsis of Canadian North west HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

CALL IN AND SEE US BEFORE YOU BUY

THE TIMES' FINANCIAL PAGE---OF INTEREST TO THE CANADIAN INVESTOR

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash value in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making the offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information of what you have to exchange.

AGAINST CHILD LABOR

Announcement is made of the holding of the fifth yearly child labor conference, under the direction of the National Child Labor Committee at Chicago, on January 31, 32 and 33. It is expected that there will be a large and influential gathering, and it is also hoped that on the next day, Sunday, January 34, the subject will be widely discussed in pulpits throughout the country, a request to that effect having been published and that date having been designated as "Child Labor Day". Examination of the tentative programme shows that part in the Chicago conference will be taken by numerous men and women of ample information, of practical purpose and of untiring devotion, and ground is afforded for hope that much substantial good will result from their deliberations. Both the conference and the wider proceedings of the following Sunday are to be cordially commended to the sympathetic interests of the nation.

The evils of child labor, unrestricted or practiced on a considerable scale, should be too obvious to need detailed exposition. The physical, intellectual and moral effect upon the race is inevitably disastrous. Horse breeders rumble and avoid the evils involved in the premature working of colts. Surely at least as much regard should be had for the young of the human species. The chief if not the sole reason for the working of children is the cheapness of their labor. There could be no greater economic fallacy than to regard it as cheap. In the long run it is the most expensive and wasteful kind of labor, because it impairs or destroys the efficiency of its subjects when they have attained maturity. It is a sacrifice of the far greater efficiency of the future for the far less efficiency of the present—to use a time worn simile, it is a killing of the geese that lays golden eggs. But even if it were truly economical to use child labor, that would be no justification of the practice. Better by far to have the products of our factories cost a little more than to have them at a low price at the cost of the stunting and the happiness of humanity.

It must be recognized that the problem is not an easy one to solve. On the contrary, it is particularly difficult. It seems to belong chiefly to the individual states, as a part of their police and sanitary powers. The ideal plan would doubtless be to secure concerted and uniform action by all the states, but unfortunately this has not yet been found possible, and the variation of industrial and social conditions among the states and the prevalence of commercial rivalries present grave obstacles to the attainment of such an end. National conferences, however, and the widespread discussion of the matter in all parts of the country should conduce toward a general recognition of the need of protecting the children of the nation from being stunted, blighted and debased, and should in time convince the authorities of every state of the fact that no state, for the sake of temporary advantage, can afford to violate the general fundamental principles of social welfare.

Farmer's Murder of Stranger Revealed

York, Pa., Jan. 16.—Harry Keener, a York county farmer, today confessed that the story told by Lorenza Tawser, an 18-year-old girl of this city, that he had killed a man on his farm last July is true. The identity of the victim is still a mystery.

The girl accused Keener, while she was lying on what was believed to be her death bed, but the young farmer steadfastly maintained his innocence until this morning, when mentally tortured by the sweating process he was put through, he broke down and told the police what he had done with the body.

Last summer Miss Tawser was employed on Keener's farm near Seven Valleys, a short distance from this city. Last week she attended a murder trial in this city and was taken seriously ill while listening to the testimony.

SWORN TO SECRECY.

Fearing she would die the girl gave a detailed account of the supposed crime to her mother. Her reason for not telling of the killing sooner, she said, was that she had been sworn to secrecy by Keener and was afraid to divulge it. The local authorities were immediately notified and as a result Keener was taken into custody last Sunday.

The girl said that after Keener had killed the man he buried the body in the orchard of the farm, and that he had painted the places where blood had spilled. An immediate investigation was started and for three days 25 men, under the direction of the district attorney, searched the farm. The entire orchard was plowed up to a depth of three or four feet, but the body was not found.

Keener told the police that his victim was a stranger who came to his house in the night and without apparent provocation threatened to kill him. He said he shot through the glass in the door of his home and killed him.

He then buried the body, he said, in the orchard, but that the odor of odor of the body caused him to take it up.

Centenaries to be Celebrated in 1909

It is doubtful if any year in the nineteenth century was more prolific in the number of great men it gave to the world than the year 1809. Hence the centenaries to be celebrated in 1909 are of unusual importance. Some of the most illustrious statesmen, poets, musicians, and men of science in history will, in the course of the next few months, have international honors paid the hundredth anniversary of their birthdays. Lincoln, Gladstone, Darwin, Tennyson, Fitzgerald, Poe, Mendelssohn, Chopin, Lord Houghton, Oliver Wendell Holmes, Kinglake; Franck, the French philosopher; Benfey, the German Orientalist, and Diez de la Pena, the French painter, are among the geniuses of the nineteenth century who were born in 1809. We shall commemorate, too, the bicentenary of Samuel Johnson, and the hundredth anniversary of the death of Sir John Moore.

EDGAR ALLEN POE.

Though he was not one of the greatest of the famous men born a hundred years ago, Poe's centenary should be one of the most interesting, for he, alone, among this illustrious company, was held in little esteem while he lived. His career was a bitter struggle, and his death hardly less tragic than that of Lincoln. It is a hundred years next Tuesday since Poe was born. The child of a couple of strolling players, Poe was adopted by a Mr. John Allen, who gave him a good education at home and in England. The unexpected marriage of his patron cut Poe out of the inheritance that would have been his otherwise, and he set to work to support himself with his pen. How difficult this was may be judged from the fact that "The Raven" netted him just $10. He became addicted to drink, gambling and dissipation. His first marriage was spent in squalor, and, just as he was on the point of wedding a wealthy woman, a drinking bout cut short his life at the age of forty. It is doubtful if any American writer before or since so well deserves the name genius as Edgar Allen Poe. He had all the faults of genius, and no man born in the nineteenth century had more of its brilliance.

THE FITZGERALD CENTENARY.

Another interesting character born a century ago was Edward Fitzgerald, whose translation of "The Rubaiyat of Omar Khayyam" occupies a unique place in English literature. Fitzgerald was born in England of Irish stock and was a brilliant figure at Cambridge. Among his intimates were Tennyson, Thackeray, Spedding, Donne and Kemble, all of whom became celebrities before Fitzgerald. The latter, indeed, seemed to be wasting his gifts in unprofitable delvings into Oriental literature. As a translator of Greek, Persian and Spanish, he displayed remarkable talent, but it was not until the famous Rubaiyat was written that he was universally recognized as a master craftsman among poets. Nor was it until quite recently that the reading public learned that in the Rubaiyat there is more of Fitzgerald than of Omar. We know, now, that his debt to the Persian was about equal to the debt of Tennyson to Sir Thomas Mallory.

THE LABORIOUS KINGLAKE.

How elastic is the term genius may be shown by the inclusion of both Poe, the poet, and Kinglake, the historian, under the same title. The latter may be admitted under Carlyle's dictum that "genius is an infinite capacity for taking pains." It took Kinglake twenty-four years to produce the second volume of his "Invasion o fthe Chimea." Nine years he spent in recasting and improving his "Eothen", the book of Eastern travels that made his reputation, and which is spoken of by the not too discriminating Justin McCarthy as the most brilliant and vivid work of travel in the English language. If consciousness of genius was not always present in Kinglake's mind, a conviction that he was destined to live to a ripe old age must have been strong within him, or he would not have taken so long about his work. Hungary will celebrate the hundredth birthday, of Michael Horvath, her greatest historian, next October.

CHARLES DARWIN.

The greatest intellect among all these men who would be centenarians if they were living to-day would be that of Charles Darwin, the naturalist. In laborious care he was the equal of Kinglake, and in largeness of vision he might be compared with Lincoln. To the credit of none of these geniuses stands such a monument of mental toil and achievement as Darwin erected to his memory in the "Origin of Species". It is hardly necessary to remark that he did not discovery the theory of evolution. The idea had been adumbrated long before him; it had been foreshadowed by Disraeli in his "Tancred". Alfred Russell Wallace and Darwin appeared to have been seized with the idea simultaneously, but it was Darwin who made the first great systematic attempt to place the theory upon a scientific, concrete basis.

THE FAME OF LINCOLN.

Lincoln's fame, like that of Poe's, only in an immeasurably greater degree, has grown since his death. No English-speaking person would hesitate to name Lincoln as one of the three greatest statesmen of the nineteenth century, though he might boggle over the other two. Words altogether fail to do justice to Abraham Lincoln. In the United States he is as a thing apart. There is no other American to whom he may be compared. Among the Presidents he is like Shakespeare among the English poets. Neither before nor since has there been his counpart, and his fame grows with the years. The Lincoln centenary occurs on the twelfth of February.

Death of Rojestvensky Reported at St.Petersburg

St. Petersburg, Jan. 15.—Vice-Admiral Rojestvensky, who commanded the Russian fleet which was nearly wiped out by the Japanese in the Sea of Japan in May, 1905, is dead. The announcement was made some time ago, but proved to be untrue.

Admiral Sinovi Petroviteh Rojestvensky, more correctly Roshdestvensky, was born in 1848. He became rear-admiral in 1893 and later commander-in-chief of the Baltic fleet. Following is an interesting sketch of his life, written some time ago by Mr. Fred. T. Jane;

ALWAYS ECCENTRIC.

From his earliest years Roshdestvensky was a Russian of the erratic type. He was always eccentric. He saw his first service in the Turco-Russian War under the late Admiral Makaroff. Star torpedo boat No. 2 was commanded by Lieut. Roshdestvensky, and with five other boats attacked a fleet of Turkish battleships at Sulina on June 12th, 1877. Of these boats only Roshdestvensky's succeeded in jumping the boom. He came alongside a Turkish battleship, but his torpedo exploded in her nets. His boat was badly damaged by gunfire, and he escaped only by the skin of his teeth. The attack was a failure, but that failure was not Roshdestvensky's fault.

Later he is said to have served in that Russian armed merchantman which gained splendid renown for a gallant fight with a Turkish ironclad. Subsequently it leaked out that the battle had consisted of the discharge of one solitary gun, and there was a scandal, of course. Roshdestvensky is credited with having posed as a miner lion over the affair, and then at the psychological moment given out that it was all a hoax on his captain's part. Whether the story is true or not is another matter.

AN OPEN-MINDED MAN.

His subsequent career was uneventful enough. As a captain he was Russian naval attache in London (a post for which only good men are selected); after that he was appointed to the admiralty, and he had a post there when I first met him. He was then a rear-admiral, and my first and last impression of him was that he was a remarkably fair-minded man, and one who—for a Russian—was singularly free in his opinions.

Withal he was too wayward to be ideally great. He was too easily diverted. For instance, he was once telling off some incompent officer who knew his man. The incompetent listened until he had done, then reported the time, and reminded the admiral that he had fixed that hour to interview men with grievances. In an instant the offender was forgotten, and Roshdesevensky busy with the men. For, like Admiral Wiren, of the Bayan, Roshdestvensky's pet creed was consideration for the common sailor.

HAD MANY ENEMIES.

His temper was uncertain, and he was so cordially detested that his best ironical shafts often went astray. But he was greatly believed in as an efficient, even by his enemies. If ever a man believed in straight shooting that man was Admiral Roshdestvensky, and what is more, he could train men to shoot. It was characteristic of him perhaps, that it should be trick shooting.

Roshdestvensky's crews were of a motley sort, but he is believed to have knocked them into shape during the voyage in his fleet. He had no fewer than a thousand revolutionaries anxious that through his defeat the political salvation of Russia should be accomplished. Some of these men were sworn to try and bring about defeat, but, personally, I hardly think they contributed much to it. If they did there is no hope for Russia at all, for a nation without patriotism in her hour of deepest need can have no future, be its political constitution what it may.

One cannot write of Roshdestvensky without a reference to the Dogger Bank. That affair was long enough ago now for it to be allowed that he was quite justified in ordering fire to be opened on the mere suspicion of torpedo craft. It is an admiral's first duties to take no risks. The annihilation of his armada by torpedo attack is the dramatic vindication of his appreciatoin of its dangers in October.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

Take Hall's Family Pills for constipation.

Alternating Currents

When Daniel Farnsworth reached home night before last he found his wife and little Albert busy over one of the many cut-out puzzles that the child had received for Christmas. The cut-out puzzle as everyone knows, consists of about 11,500 pieces of wood or heavy cardboard that, when properly put together, form a square on which there is an attractive picture. The small sections are so cut that it is exceedingly difficult to fit them together, and it is estimated that several million people are at this moment working over these foolish and altogether unprofitable things in various parts o four splendid country.

"What are you doing?" asked Mr. Farnsworth, eyeing his wife and son earnestly bending over the component parts of the puzzle.

"Don't bother us, dear," replied Mrs. Farnsworth. "We're getting it. We have found six blocks that fit together.

"I should think," the gentleman said with some severity, "that you were old enough to leave such things for the children. Oh, I don't mean to insinuate that you are getting ancient or anything like that—but you're not a mere child any more. You'll admit that, I think. Haven't you any better way to put in your time? How about dinner? Is it anywhere near ready? I've got to work on a report I shall have to make to our directors to-morrow, and I want to have dinner early this evening."

"Just call down stairs and tell Nora, won't you, please? There, you have bothered me. I was about to get another block fitted in."

"Confound those blocks—excuse me, dear I don't wish to be impatient, but it is hardly my place to give orders to the maid. Please go down and tell her to have dinner as soon as possible. Preparing this report is going to be a big job, and I wish to get at it as early as possible."

"Just a moment. I think I have found another section that—no, it doesn't, either. Isn't it provoking! You think you have found just the place, and when you try to fit it in it isn't the right shape at all. Oh, Albert, let me have that piece. I think I know where it goes."

"Cornelia," said Mr. Farnsworth with considerable emphasis, "I will not put up with this any longer. If I must get angry in order to command attention I will. I want my dinner inside

(Continued on page four.)

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr Shoop's Headache Tablet—contains blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common sense.

We sell at 25 cents, and cheerfully recommend

Dr. Shoop's Headache Tablets

Cosgrave's Beer

Words of praise have ever prevailed in advertising "copy." That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

Weary, Worn Out, Tired

If You Feel Poorly this Spring this Article is worth Considering.

Nothing in life keeps people from advancement like poor health. If the nerves are weak, if the stomach, liver, bowels or kidneys, fail to work properly, healthy surely suffers. Spring is the hardest time on health —the season when the system calls for active cleansing medicine.

The best plan is to entrust your condition to a physician of reputation like Dr. Hamilton, who has had years of experience in compounding tonics. For the ills and tired feeling of spring Dr. Hamilton says nothing is better than Mandrak and Butternut Pills, and this is well proven in the case of James Burton of Lewistown. "I had grip and it left me very weak. The disease settled in my back and side, which ached day and night. I had a nagging cough. My appetite was all gone. My nerves unstrung. I could not sleep well. I struggled against growing pale, thin and weak—but it was no good. Spring brought depression, overpowering weakness and bad headaches. But my life was spared, simply because I learned off the wonderful merit in Dr. Hamilton's Pills of Mandrake and Butternut. The result was marvellous, I gained rapidly, became strong, ruddy, vigorous, perfectly well. I urge every man and woman to use Dr. Hamilton's Pills regularly.

You'll brighten up, have cleaner blood, stronger nerves, better spirits after using Dr. Hamilton's Pills, 25c at all dealers. Guaranteed safe, sure helpful for old and young.

Wanted

A respectable young woman wants a position as a housekeeper. Best references. Apply at this office for address.

Wedding Presents

Anything and everything in the shape of wedding presents at sacrifice prices. January sale of china and glassware in full swing. Times Bookstore.

Miss Lancaster's Last Service

Duett "Love Divine" (Stainer), was splendidly sung at St. John's evening service by Miss Florence Lancaster and Mr. H. Morphet. This was the last service of Miss Lancaster with St. John's choir, as she is to be married next Wednesday, and is to reside in Montreal.

Representatives Wanted

Prominent New York Financial Company, offering stock in a corporation operating the most wonderful invention of the age, seeks services of men of high standing and business ability to interest large and small investors. Exceptional opportunity for high grade men to secure immediate income of $4,000, or more, with assurance of rapid advancement as ability is demonstrated. Previous stock selling experience not necessary; any bright man can do the work. Address G. L. Ellsworth, 49 Exchange Place, New York.

Canadian Club

The first supper and lecture of the Canadian Club for the year will be held in the National Hotel this evening, commencing at 7.30 o'clock. Rev. Dr. Gould will be the speaker of the evening and will give an address on "The Recent Crisis in Turkey." Dr. Gould has recently returned from Turkey, where he lived for some time, and he is, therefore thoroughly conversant with his subject, and the address will, no doubt, be found most interesting, as Dr. Gould is an eloquent and fascinating speaker.

Will Erect a Cottage

Mr. T. B. G. Denne is arranging for a handsome new summer home to be erected at Stony Lake as soon as the weather opens in the spring. Last season Mr. Denne purchased from Dr. Morrison the island formerly owned by Mrs. Dr. Bell, which is very conveniently situated. Mr Denne is having the stone and sand placed upon the island, so as to be ready for operations when the weather permits in the spring. The first story of the residence will be built of stone and the balance will be frame. Its dimensions will be 50 feet by 66 feet. Mr. Denne's cottage when completed will be one of the finest on the lake, will be of the latest architecture, and will be one of the most popular homes in the Kawartha district.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

Personal

Mrs. Donald Edwards of Toronto, is visiting Miss Edwards.

Rev. Dr. Marsh of Springville, is seriously ill, in charge of two physicians.

Miss Laura Davidson, after a few day's stay in Toronto returned home last week.

Miss Mary Coughlin, of Toledo, Ohio, is the guest of Miss G. McFadden, 482 Elm street.

Mr. C. Young of Peterborough, was in town yesterday.—Lindsay Post.

Miss Delamater, superintendent of the Nicholls Hospital, returned from Toronto, where she has been spending the past few days.

Miss Helen Davies left Saturday morning for Toronto, where she will sing at the National Chorus Concert in Massey Hall tonight.

Mr. P. J. Moran, who for the past week has been the guest of his brother, Mr. J. T. Moran, George St., has returned to his home in New York City.

Mr. M J. Connolly of Mallorytown, was in the city last week in connection with his duties as Trent Canal valuator.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

Obituary

The many friends of Dr. and Mrs. E. V. Frederick, George street, will sympathize with them in the death of their infant son, which occurred Saturday morning.

ROBERT H GREEN.

Mr. R. H. Green, a former well known resident and business man, died Saturday morning in the Home for Incurables in London, Ont., at the age of seventy years. He suffered a paralytic stroke about eleven years ago, from which he never recovered, and left him quite helpless. His wife, Miss Ellen Fowler, predeceased him nine years ago. Deceased was a member of Corinthian Lodge A. F. and A.M. The body arrived in Peterborough by C.P.R. last night. The funeral will take place from the residence of his brother, Mr. W. J. Green, 375 Brock street, today at 2.30 p.m., and proceed to the Little Lake cemetery.

MARGARET SULLIVAN.

Death claimed Miss Margaret Sullivan, a native of Peterborough, but for many years a resident of Vallijo, Cal., on Saturday. Word was received here on Saturday night by the deceased's nephews, Ald. Harry Phelan and Rev. Father Phelan. The late Miss Sullivan will be remembered by the older residents of the city who will sympathize with the relatives. The funeral announcement will be made later.

CATHARINE JACKSON.

One of the oldest and most respected residents of Emily township, in the person of Catharine Jackson, relict of the late John Gutrie, passed away at the home of John Wright, Fowlers' Corners, on Sunday morning. She was widely known in the township. The funeral will be held on Tuesday afternoon at 2.30 o'clock, and interment will take place in the Emily cemetery.

MRS. JOHN PEARSON.

The death occurred Saturday morning after a week's illness from peritonitis of Mrs. John Pearson, at her late residence, on the 17th concession of Smith. She was forty years of age and was the daughter of Mr. G. W. Blewett, of Smith, her maiden name being Jennie Blewett. She was a woman highly respected for her many estimable qualities. Besides her husband, a large family, is left to mourn her loss. Her parents also survive her. Mr. Milson Blewett, of this city, is a brother of deceased.

The funeral will take place today at two o'clock from the family residence to the Little Lake cemetery.

REV. FATHER O'CONNELL.

In the death of Rev. Father Daniel O'Connell, chaplain of St. Joseph's Hospital, which took place at the hospital Saturday morning, there passed away one of the best known and most popular priests in the diocese of Peterborough. The deceased had been ill for the past two weeks, suffering from a severe cold and his death was not unexpected. He was seventy-four years of age and had been a resident of Peterborough county for a large number of years.

The late Father Daniel O'Connell was born in Ireland and came to Canada at the age of twenty years. He was educated for the priesthood at Regiopolis College, Kingston, and at Laval University, Montreal. After graduating he was ordained at Kingston, but was not attached to the Cathedral there, going to Perth where he remained one year. He was then appointed parish priest of Deseronto, serving in that capacity faithfully for twenty years, during which he endeared himself in the hearts of his parishioners by his many excellent qualities and his earnest attention to his duties. Afterwards he was three years in charge of the parish of Eganiamore, and from there came to St. Joseph's hospital, where he has acted as chaplain for the past sixteen years.

He is survived by one sister, Mrs. Donaghue, of Jones' Falls. The funeral will take place on Tuesday morning from St. Joseph's Hospital to St. Peter's Cathedral, where requiem high mass will be sung and thence to the St. Peter's cemetery for interment.

CHRONIC CATARRH OF HEAD AND THROAT

ONE OF THE MOST COMMON AND MOST DISAGREEABLE DISEASES.

Always Caused by a Neglected Cold or a Succession of Colds. How to Prevent It.

The air passages of the head, throat and lungs are lined with mucous membrane which in health secretes a thin, watery liquid to keep it moist. When a person takes cold this membrane becomes inflamed. The inflammation is at first acute and is easily cured, but when a cold lingers for weeks the inflammation becomes chronic and a thick, offensive mucus is secreted. The disease at this stage is known as chronic catarrh and is seldom, if ever, permanently cured. The time to effect a cure is when the cold is first contracted and the inflammation is in the acute stage. All that is needed is a bottle of Chamberlain's Cough Remedy. Take it and a quick cure is certain. Very often chronic catarrh is contracted in childhood. Parents do not realize the serious consequences that may follow and permit colds contracted by their children to linger for weeks. As a consequence the child becomes afflicted with chronic catarrh from which it never wholly recovers. The catarrh may cause no serious inconvenience while the child is young and strong but becomes a burden when older.

The Annual Meeting of the Public Library

The annual meeting of the Peterborough Public Library was held on Monday evening, Jan. 11. There was a fair attendance of members. Dr. Burnham, president, read the report of the library for the past year. It was not as good as it might have been owing to the agitation for a Carnegie Library. Quite a number of books were presented to Library during the year. There were 230 volumes added to the Library during the year, and 6470 books issued.

The following were elected directors for 1909:—

Dr. Burnham, J. Corkery, H. Elliott, James English, T. A. S. Hay, J. M. Hayes, W. H. Hill, J. S. Knapman, H. A. Yenney.

The annual sale of periodicals and magazines will take place next Monday night at eight o'clock in one of the rooms at the library.

G. Walter Green Co., Limited Has a Charter

Mr. G. Walter Green, who has been carrying on an extensive and progressive moulding business has taken out a charter under the name of the G. Walter Green Co. Limited, capitalized at $100,000. The officers of the company are as follows;—

President—G. Walter Green.
Vice Pres.—S. Green.
Sec. Treas.—T. O. Donaldson.
Directors—P. J. Heaslip and F. D. Kerr.

The company is authorized to engage in the business of iron and steel founders, manufacturing all kinds of mining and saw mill machinery. It is understood that the stock is not for sale and is not placed on the market.

The splendid growth of this establishment to a place of importance in the city's industrial ranks is greatly due to the perseverance and progressiveness of Mr. Green and under the new company continued advancement should be experienced.

The Past Year was the Most Successful

The annual meeting of St. Paul's Sunday school was held a few nights ago when a large number of the teachers and officers of the Sabbath school were present. Mr. W. Madill, the superintendent, was in the chair.

The reports presented showed that the past year has been the best in the history of St. Paul's congregation. The superintendent's report showed a total enrollement of 479 with an average attendance of 333. The record of the various departments of the school is as follows;—

	On roll.	Average.
Intermediate	132	109
Bible class	190	165
Young Men's class ...	20	15
Kindergarten	40	35
Primary	47	43
Teachers	29	27
Officers	6	5

During the year 46 members of the school united with the church. Master Hugh Carmichael repeated the whole of the shorter catechism at one sitting and Mina Clark attended every Sabbath during the year.

The contributions to missions have shown a decided increase. The Home Department has a membership of 160, and the cradle roll a membership of 42.

A large number of Chinamen of the city are being taught at St. Paul's Sunday school.

The officers elected for the ensuing year are;—

Superintendent—Mr. W. Madill.
Asst. Supt.—J. A. Lillie.
Sec. Treas.—H. O. Fiske.
Librarian—J. H. Connal.
Pianist—Miss F. Scott.

"There's a Reason"

MILLIONS OF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Wasted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has been tested in every detail. We KNOW what it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world. Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Our smelter thus erected will save 85% in treatment, freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when here you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

The Y.M.C.A. Boys' Gym. Exhibition

The boys of the Y.M.C.A. will put on an exhibition of their gymnasium work on Thursday evening, Jan. 21st.

This exhibition will give the parents and friends an opportunity to see what the boys are doing in the gymnasium. The programme is a very good one, and will include drills, marches, apparatus work, games, races, burlesque basketball, and a Ladies championship walking race and many other features.

The drill will be put on by the junior school boys, and will be in the form of running formations with musical accompaniment.

A dumb bell drill will be put on by the business boys, and apparatus work by the Collegiate boys.

Among the specialties will be a ball Among the specialties will be ball hustle, blind pillow fight, obstacle race potato race, Ladies walking race and sack basketball.

Great interest is being taken in the ladies walking race, and this race promises to be one of the best sporting events of the season.

The blind pillow fight and sack basketball will give lots of opportunity for a good laugh and the races will make plenty of excitement.

A very pleasant evening is looked for and will be an education to some who do not know what goes on in the Y.M.C.A. gymnasium.

Tickets can be had from any of the boys or at the Y.M.C.A. office. The admission will be 15c or two for 25c.

Want Flanagan in New York

Tom Longboat, it is reported, has gone to the bad and Tom Flanagan is wanted in New York City at once.

This is the substance of several letters which have been received in Toronto lately by friends of Tom Flanagan, who are urging the Indian's late manager to go down to train the Onondagas.

A young athlete who lives in the Bronx, writes saying that Longboat is doing little conscientious training. He also says he may shrub run the full Marathon race not long hence.

Alternating Currents

(Continued from page three.)

of fifteen minutes, and I desire to have you go downstairs now and give the necessary orders."

"Oh, well, if you are going to be cross, why, if you are going to be a bear, I suppose I shall have to run. Be careful, Albert, not to scatter the pieces we have fitted together. I am sure we shall be able to work it out in time."

While Mrs. Farnsworth was down stairs helping the maid to hurry the dinner, her husband watched little Albert as the boy hunted for the elusive sections of the puzzle.

"Here," he said, leaning over and picking out a small block that was without shape, "this fits in here, doesn't it?"

He tried to put the piece into the place that he had indicated, but it wouldn't go. Then he sat down beside little Albert and began to help him. Fifteen minutes after Mrs. Farnsworth called from the dining-room:

"Come to dinner, everything's on the table."

"In a minute," her husband replied. "Say, Albert, here's a piece under your thumb that belongs in this corner."

Albert tried to fit the piece into the corner his father pointed out, but it could not be done. Five minutes later Mrs. Farnsworth called:

"Are you going to dinner? Things are getting cold."

"Yes, in a minute," replied the head of the house. "Hurrah, here's one that fits!"

It really did, and Daniel Farnsworth got up with a look of triumph, saying:

"There's nothing very puzzling about this. Come on, Albert, let's go to dinner."

He disposed of the meal in short order, and without waiting to partake of dessert left the table. It was nearly eight o'clock when Mrs. Farnsworth, looking over his shoulder, said:

"Papa, it's time for Albert to be going to bed now, and I thought you had to prepare a report for your directors."

"Yes, yes," he replied, "I must really get to work at it. Confound this puzzle. What was it ever brought into the house for, anyhow? Albert, go to bed. Don't let me hear a whine out of you, either. You can work at puzzles during the daytime."

Albert reluctantly permitted his mother to conduct him to his room, and there when his shoes had been taken off she discovered that his stockings needed immediate mending. Forgetting her other troubles, she hunted up the darning implements and went to work. It was nearly ten o'clock when she put the stockings aside, and little Albert was sleeping peacefully.

"Daniel," she called, stepping out into the hall, "are you still working?"

"Uh huh," he answered.

"Well, don't stay up too late. I'm going to bed. I'm tired, and you're no company when you have to prepare reports, anyway."

"All right," Mr. Farnsworth answered.

It was 12.15 when Mrs. Farnsworth awoke from a dream in which she had seemed to see a great castle which had been built of cards suddenly tumble to the ground. As she sat up in bed there was a sound as of many small, hard particles being dashed against a wall, and then she heard her against a wall, and then she heard her husband muttering in a way that frightened her.

"What is it, dear?" she cried, jumping out of bed and running to him.

She found him standing beside the table on which the puzzle blocks had been heaped, but they had all been swept off upon the floor.

"What are you doing here?" the lady asked. "I supposed you were in the library working on your report."

Mr. Farnsworth looked severely at his wife and pressed his lips firmly together, perhaps to keep from saying things which he might regret. When he could control himself he said:

"Don't worry about my report, You don't have to prepare it, do you? Well, then don't let it make you nervous. It's mighty strange that I can't sit up and work even in my own house without having to be cross-questioned. Go back to bed and don't bother me. If I have to stay up all night I'm the one that has to stand it, am I not? You don't need to suffer, do you? And if anybody ever dares to bring another of these fool puzzles into this house, I'll—go on to bed and let me alone. Confound it, I told you I had a report to prepare for our directors, didn't I?"

ADVERTISE IN THE TIMES.

Court of Revision.

Notice is hereby given that a sitting of the Court of Revision for the City of Peterborough will be held in the City Council Chamber on Friday, the 29th day of January, 1909, at the hour of eight o'clock in the afternoon, for the confirmation of the following special assessments upon the property fronting or abutting on the streets or parts of streets named below, for the construction of sewers thereon, and the total amount to be assessed upon the said property fronting or abutting upon the said streets or parts of streets is as stated below, namely:—

STREET OR PART OF STREET	To be paid by Municipality.	To be assessed upon private property.
William, Bolivar to King streets	$ 32.00	$302.00
Bethune, Dublin to Edinburgh streets	112.24	806.65
Reid, McDonel to London streets	148.72	994.54
Rubidge, Brock to 20 ft. n. of Kirk street	64.00	320.00
Hunter, Water to Sheridan streets	180.40	854.27
Sheridan, Hunter to Brock streets	96.00	480.00
Aberdeen, George street to the creek	74.64	397.00
London, Downie to Park streets	262.50	787.50
Donegal, Park to Brock streets	278.00	445.84
George, Argyle to Hilliard streets	207.60	414.00
Patterson, Lot 11 Pl. 49 to Monaghan Road	70.26	617.84

New Methodist Church at Lakefield Opened Practically Free of Debt

Lakefield, Jan. 19—One of the most successful affairs that have have ever taken place in this town was the dedication services of the new Methodist church on Sunday morning and evening, and on Monday evening. It was also an important day in the history of the Lakefield Methodists, as the new church is a large and handsome structure and is a credit to the congregation and to Methodists at large.

One of the greatest features of the affair is that the church was opened practically free of debt, and when it is stated that the cost of the building was $15,000, some idea of what the congregation has accomplished can be gained. The whole subscription was made up of subscriptions from the members of the congregation, except a generous contribution from Hon. Senator Cox, of Toronto, of $2000 which was made in July last, when he laidthe corner stone.

The new Lakefield church has been built on the site of the old church and is much larger and more modern and convenient in every respect. It was built of concrete blocks and has a seating capacity of 700 in the auditorium and the gallery, the latter will hold 100 There is also a basement which is used for Sunday school purposes and for the meetings of the various societies connected with the church.

On Sunday morning the church and gallery was crowded to its utmost capacity, fully 700 people were present. The dedication services were conducted by Rev. F. G. Bartlett, of Toronto, who was also assisted by Rev. H. M. Manning, chairman of this district. On Sunday evening the church was again crowded. The services were particularly bright and successful and the collections taken up during the day for the benefit of the building fund was $2000. This amount will practically wipe off every dollar against the construction. Another feature in connection with the matter is that no money had to be borrowed during the whole period of construction. The funds were all raised by the congregation as the building was going up.

On Monday night a social evening was held in the church and a supper was served in the basement at which a very large number were present. Afterwards a very fine program was rendered by the choir, who were also assisted by several from Peterborough.

Ladies' Walking Race to be Held Thursday

This is a new feature in athletics in Peterborough and it is arousing a great deal of interest. The ladies' walking race has proven a great success in other places and will no doubt attract large crowds here.

The race will be a half mile, and will be held under the auspices of the Y.M.C.A. boys' department in connection with their Boys' Gymnasium Exhibition on Thursday evening. Several entries have been received to date, and the race promises to be very interesting.

Besides the walking race, there will be drills, marches, games, races, blind man pillow fight, and sack basketball.

The proceeds of the exhibition will be used to secure several new magazines for the boys' reading room.

The admission is 15c or two for 25c. Tickets can be had from any of the boys or at the Y.M.C.A. office.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—50c. Sold by all dealers.

ANNUAL MEETING OF CEMETERY COMPANY IN COUNCIL CHAMBER

Report From Superintendent Wise—The Directors and the Auditors —Past Year was a Busy One—Many Improvements were Made—Statement of Receipts and Expenditures

The annual meeting of the Cemetery Company was held in the council chamber yesterday afternoon when quite a number of the shareholders were present. The minutes of the last meeting were read and adopted.

FINANCIAL STATEMENT.

The financial statement was read and adopted as follows;—

RECEIPTS.

	1908	1907
Balance from 1907	$ 582 31	$ 692.61
Lots and graves	1979.00	21833.00
General receipts	2950 35	2159 10
Interest	472.59	436 45
Trust funds, etc.	200.00	200.00
	$6184.25	

EXPENDITURES.

	1908	1907
Supt.'s salary	$ 700.00	$ 700.00
Secretary's salary	100 00	100.00
Auditors' salary	20.00	20 00
Wages	2187.47	2130.47
Horse account	105.65	90 50
City debenture	1000 00	
Insurance	10.25	
Telephone	25.00	25.00
Seeds, etc.	80.17	72.07
Lots repurchased	50.00	
Water	53.90	51.14
Supplies, etc.	1049.42	538 10
Printing	44.65	59 50
Miscellaneous	6.60	
Balance in bank	752.14	582 31
	$6184.25	

We certify that we have examined the above balance sheet, the treasurer's books and vouchers, and the superintendent's fortnightly returns, and we find the same correct. The securities held by the company, consisting of ten debentures of the City of Peterborough, amounting to $11,917.31 have also been examined by us.

We further certify that we have examined the books of the superintendent for the year 1908, and find them carefully and correctly kept. All moneys receied by him appear to have been promptly paid over to the treasurer.

JAMES A HALL
T. Q QUARTERMAINE.
Auditors.

The auditors were re-elected.

DIRECTOR'S REPORT.

The annual report of the directors was read in which mention was made of the work done towards beautifying the cemetery grounds. Other improvements that have been made, including the ladies' rooms in the superintendent's old house. A handsome rockery and fountain have been built near the main entrance. A new section was added to the conservatory; a good deal of grading has been done and many other improvements were made.

The attention of the board was drawn to the condition of the fence along the front of the cemetery, and also to the chapel, both of which require repairs at once.

SUPERINTENDENT'S REPORT.

Superintendent Wise made the following report;—

Peterborough, Jan. 9th, 1909.

To the President, Directors and Shareholders of the Little Lake Cemetery Company.

Gentlemen,—The past year has been a very busy one in your cemetery, not alone in new work undertaken, but I find a feeling among the lot owners to improve the appearance of their lots, by placing them under extra care, so much so, that I have found it necessary to place a man entirely in charge of that work. I regret to say, however, that there are a number of lot owners who entirely neglect their lots, so that they have become an eyesore to the part of the cemetery in which they are situated. I do not wish you to infer from this that the company has neglected their part of the work, as the grass has been regularly cut and trimmed upon these lots, a number of these lots contain valuable monuments which seem to mock at their surroundings.

Probably an explanation of this neglect of family lots as observed by me, will be beneficial. We will suppose that a man loses a member of his family, a beloved wife, mother, daughter or son, he purchases a family plot and makes an interment therein, as long as the father or mother are living the lot is well looked after, eventually they are both laid away, and the sons and daughters are left to look after the lot, which in all probability is too small for the entire family, who have become fathers and mothers themselves and prefer to purchase lots of their own, the old lot becomes neglected, and for which there is seldom any excuse as there is an arrangement whereby for a small sum the lot can be placed in good repair for all time without any additional expense to the owner. I trust that the coming year will see a number of these lots placed in good repair and under future maintenance.

In my report last year I recommended an addition to your greenhouses, and your directors instructed me to build one, this I have done and now that we have more than double our old greenhouse capacity we shall be in a much better condition to cater to the wants of the lot owners.

Last winter I removed the old tank house from its position near the chapel to the northwest side of the cemetery outlake avenue—a foundation was placed under it and it has been fitted up as a repair shop and tool house to replace the old one which in the near future it will be necessary to pull down.

The fountain which formerly sat in a basin is now placed upon a rockwork much improving its appearance.

The old office building at the residence in the cemetery has been turned into a ladies' lavatory and waiting room This will supply a long felt want.

Considerable grading and seeding has been done on section O, situated at the east side of the cemetery. This ground will soon be needed as burial plots, as section D is nearly all taken up.

It will be found necessary during the next year to repair or place a new entrance gate to the cemetery. In a great many instances throughout the world this has been done by some public spirited citizen who has erected a lasting memorial to his memory and I am sure that the thanks of not only the shareholders of the cemetery, but the community at large, will be extended to him should such a one be forthcoming.

Respectfully submitted,
F. WISE,
Superintendent.

Superintendent's financial statement for year ending Dec. 31st, 1908;—

RECEIPTS.

Sale of lots	$1828 00

THE DIRECTORS

The following directors were elected;—Messrs. W. H. Moore, James Stevenson, Chas. Stappleton, J. J. Lundy, T. A. S. Hay, Dr. Geo. Burnham, E. H. D. Hall, W. Geo. Morrow, B. Shortley.

OFFICERS ELECTED.

After the shareholders' meeting the directors met and elected the following officers;—

President—W H Moore.
Managing Committee — President Moore, Messrs Stapleton, Stevenson, Shortly and Hay.

The Mysterious Murder of the Seeley Family in Seattle

Man Found Dead in Bath Tub with His Wife and Daughter---Steamer Trunk on Bodies to Hold Heads Under Water

Seattle, W.T., Jan. 18.—With their heads submerged in water in a bathroom at their home, W. I. Seeley, an attorney, his wife and daughter, Miss Rene, were found yesterday by E. W Zibbell and Guy M. Smelzer Smelzer was engaged to marry Miss Seeley, and Zibbell was a friend of the family.

Mrs. Seeley and her daughter had been murdered with blows inflicted with some blunt instrument, believed to have been a hammer. Seeley had been drowned, according to Coroner Snyder.

CAME FROM MISSOURI.

Mr. Seeley and his family came here more than a year ago from St. Joseph, Mo. Previous to that time they had lived in Ottawa, Illinois, where Mr. Seeley was Deputy United States Marshal and a bank examiner during the administration of Cleveland.

Seeley was an uncle of M. F. Gose of Pomeroy, recently appointed by the Governor to the Washington Supreme Court bench. He has a brother, Charles, at Pomeroy, Wash., and another, Frank, at Hood River.

EIGHT THOUSAND DOLLARS.

Charles discredits a story that his brother was in financial straits by

Dorcas Society Elects Officers

The annual meeting of the Dorcas Society was held at the home of Mrs Rankin, Gilmour street, yesterday afternoon. The ladies connected with this society have been doing a splendid work all fall and winter and will continue to do so. The officers elected were;—

President—Mrs. Rankin.
Secretary—Mrs. Coumon.
Treasurer—Mrs Atkinson
Purchasing Committee — Mrs. Evans, and Mrs. Carters

Ex-Ald. Johnston Makes Sensational Charges

A sensation was sprung on the Fire, Water & Light Committee last night when the chairman read a letter from ex-Ald. Johnston, who was also chairman of the Fire, Water and Light Committee of last year. This letter was a lengthy one and contained many very serious charges against Chief Howard of the Fire Department. All the offences, many of which were sensational in their seriousness, were committed during 1908. The committee heard the letter and Chairman Buller explained that ex-Ald. Johnston was prepared to appear before the committee and prove his statements. A special meeting will, therefore, be held on Thursday evening when both ex-Ald. Johnston and Chief Howard will be present and the committee will thoroughly investigate the matter.

The chairman and all his committeemen are determined to probe this thing to the bottom and ascertain just what is wrong.

Men of Fire Department Object to Promotion Made by the Chief

The members of the fire department wrote the chairman of the committee stating that if the present foremen of the department was promoted to the position of assist chief they would refuse to work under him. They claim it would be unfair to the other men of the department who had been there from the start.

The man objected to is Grange.

The letter was signed by nine members of the brigade.

Ald. Hicks suggested that the matter be laid over until more information was secured.

Ald. Turner stated that he did not know much about the respective merits of the men, but the department was in charge of the chief and he should know who the best man should be. Personally he knew that Mr. Grange was a good man. But he thought that if the chief selected a man as assistant chief that would be sufficient for him. He would be in favor of changing the whole brigade if they should show any insubordination. The chief must have full control of his men.

Ald. Hicks and Chairman Buller agreed with this and the former stated that if the chief selection was not satisfactory then the committee could deal with the chief.

Chief Howard of the department arrived at this moment and the letter was read to him.

The chief stated that Grange was a good man and that he had not really thought very seriously about the appointment. The man was only on trial anyway. Mr. Brummell was also a good man.

On motion the matter was left in the hands of the chief and also that all matters in reference to the department should be communicated to the chief.

The chief also made the statement that five of the men had themselves applied for the position and were very anxious to get it.

Conditions in Gowganda are Becoming Serious

The following despatch from Cobalt will be of interest here. The Mr. Conroy mentioned is Mr. David Conroy of Ashburnham.

Cobalt, Jan. 17.—The conditions in Gowganda and the Elk Lake country, are becoming serious. Prospectors are going in less than half prepared. The snow is deep and the cold intense. It is reported to be 56 below zero. Six men had their feet frozen on Friday at Gowganda, and others had noses or ears frozen. The miners having cabins have been compelled to refuse lodgings and assistance, owing to their own personal needs. Twenty-six head of cattle, driven in by Mr. Conroy of Ashburnham, and four assistants, reached Gowganda on Thursday afternoon, and were killed and strung up on trees around Gowganda Lake, and sold at twelve cents a pound. The cattle were nearly frozen from exposure and lack of feed. The stopping houses, five in number, built for accommodation, are now filthy, according to reports from those returning, and typhoid is predicted unless conditions are improved. The conditions call for the attention of the Provincial Board of Health.

The snow at Gowganda is becoming very deep, even snowshoeing being difficult on that account.

Lindsay Won from Cobourg Last Night

(Special to The Times.)

Cobourg, Jan. 18.—Cobourg fans saw one of the greatest games of hockey tonight that was ever played here. The rink was crowded, and enthusiasm ran high. Lindsay was here and they played a whirlwind game, but did not have the victory won until they scored their last goal. The locals put all the ginger they possessed into their sticks, and the spectators got a great run for their money. The score at full time was 6—7 in favor of Lindsay. This makes them leaders of the district with three straight wins.

Play Lindsay Thursday

Lindsay is now leading the district with three straight wins Peterborough has two wins with no losses and these two teams will meet in Lindsay on Thursday night. A special train will run up to the burg, and will carry a big bunch of supporters. The game should be a lightning fast one and one well worth seeing.

BOWLING

The Greys and Hutch's Hams both lost last night in the ten pin tournament at the P.B.C. alleys. The former met the Examiner B. bunch, and the latter the Frontenacs.

LOST HIS NERVE

A Strong Man Almost Died. Grew Thin, Weak and Nervous.

A REMARKABLE RECOVERY.

"Until three years ago I was the picture of health—then I became what people call Neurasthenic. I grew sleepless, worried, lacked will power, felt great physical fatigue, experienced fears and felt always in danger of something unknown. All the time I grew thinner and weaker, felt so nervous that I felt the end must be near. No medicine helped, each one seemed a new disappointment. Then my doctor suggested "Ferrozone"—It was a fortunate choice because I improved at once. I gained weight, enjoyed my meals, got a better color, forgot my nervous fears. The way Ferrozone built me up is surprising—it made a new man of me and now I look good for twenty years to come."

J. T. WAGHORNE (Merchant)
Wilmington.

Ferrozone is a nourishing tonic that strengthens, fattens, builds up, restores weak sickly people to health. If you feel poorly let Ferrozone help you get well, 50c. per box, or 6 boxes for $2.50, at all dealers.

Just about eight o'clock last night an alarm of fire was sent in from Cunningham's music store, and when the fire department arrived it was discovered that there was a bad chimney fire although practically no damage resulted.

Fire, Water, and Light Committee will Require $12,000 This Year

The chief of the Fire Department submitted a long list of requirements for the department for the ensuing year. Many of the articles asked for were in connection with the new hall suggested but which the committee decided not to have, and these consequently were struck off. The committee also struck off the list all other items which were not absolutely necessary. Another list was made out of articles which might have to be purchased, but which could be got along without. The committee spent a lot of time on the matter and pared the list down as fine as possible. The list is as follows;—

Estimates for the department for 1909—

Chief	$1250
Assist. chief	700
Engineer	800
Eight firemen, each $525	4400
New men (call)	240
Watchman	120
	$7910
Detroit door opener	35.00
One clock	8 00
Seven pair rubber shoes	35.00
Seven black rubber coats	35.00
Two sets improved harness hangers	48 00
500 feet hose	500 00
Three horses	700 00
One set double harness	110 00
Rubber tarpaulins	25.00
One set improved reins, snaps and holders	4.00
Hose coupling for old hose	60.00
Half dozen ladder straps	4.50
Two mattresses	10.00
Fuel	350.00
Incidentals	100.00
Running expenses	2000.00
Stands at river for engine	200.00
12 new suits for men	300.00
12 uniform caps	36.00
Sleight tracks for apparatus	75.00
Volt meters	32.00

To this list may be added several other items and one or two may be taken off. A supplimentary list was made out and will be looked into by the committee.

It was moved by Ald. Morgan and Ald. Turner that this committee purchase all supplies as near as possible in the city. Prices will be considered.—Carried.

On motion of Ald. Hicks and Ald. Turner, the clerk was instructed to write to the secretary of the Underwriters' Association, and acknowledge the receipt of their inspector's report and ask him if any action has yet been taken as to the improvements already made here.—Carried.

Moved by Aldermen Hicks and Turner, that the chairman be authorized to purchase fifteen tons coal for the fire hall.—Carried.

FIRE CHIEF'S REPORT.

Chief Howard of the Fire Department made the following report:—

Peterborough, Jan. 11, 1909.

To the Chairman and Committee, On Fire, Water and Light.

Gentlemen,—Following the usual custom I have the honor to submit herewith the half yearly report of the Fire Department for the period July the 1st, to December the 31st, 1908.

During the half year ending December the 31st, the Department responded to 75 alarms of fire, in the following manner, and from the various mentioned.

Alarms sent in by street boxes	43
Alarms sent in by telephone	26
Verbal or still alarms	6
Total	75

The number of fires occurring,—

From 6.00 a. m. to 6.00 p.m	39
From 6.00 p.m. to Midnight	23
From Midnight to 6.00 a. m.	14
Total	75

CAUSES.

Bush fire	1
Boys smoking	1
Defective wiring	9
Spark from chimney	1
Hot Journal	1
Cigar stubb	4
Burning leaves	1
Underwriters Test	1
Railway collision	1
Accidental by match	1
Spontaneous combustion	1
Wood ashes	1
Total	75

False	12
Overheated stove pipe	1
Cigarette stubb	3
Test by Mayor	1
Defective forege	1
Children and matches	4
Overheated stove	1
Sparks from smoke stack	3
Gas explosion	1
Spark from Locomotive	4
Unknown	1
Defective chimney	3
Incendry	9
Explosion of Gasoline	1
Chimney	17
Hot a Fire	1
Grass Fire	6

The damage by fire as near as can be ascertained amounts to $3,977.00. The greater portion of the Fire Loss occurred in the outlaying districts, where water was not available, and demonstrates the urgent need of a Chemical Fire Engine for this city.

(Continued on page 3.)

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced Box 25c. Sold by all dealers.

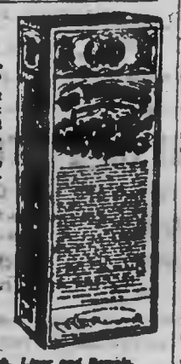
First Banquet of Canadian Club Addressed by Dr. S. H. Gould

The first meeting of the Canadian Club for 1909, was held in the National Hotel banquet hall last night and was a most pleasing success, from every point of view. Host Dennison prepared a very appetizing menu which was greatly enjoyed. The decorations were artistic, while the service was all that could be desired. President D O'Connell occupied the chair, and presided over the luncheon and the social affair afterward. There were between 50 and 60 guests present and all were delighted with the evening.

The speaker of the evening was Dr. Sydney H Gould, who has resided and labored in Palestine for the past twelve years and is well acquainted

(Continued on page four.)

Stomach Blood and Liver Troubles



Most sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale-people look good, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach.

A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery —the great Stomach Restorative, Liver Invigorator and Blood Cleanser.

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

Peterborough Won in Belleville by 4-2

Peterborough's intermediates won a great game from Belleville at that city last night by a score of 4—2. The half time score was 1—2 in favor of Peterborough.

A special despatch to The Times from Belleville is as follows;

Belleville, Jan. 18.—One of the fastest games of the season was played here tonight between Belleville and Peterborough O.H.A. intermediate teams before a very large crowd. These two teams are old rivals and it was a great game from start to finish. score at half time 1—1 in favor of visitors. Ray. Moore and Glover were stars for Peterborough and Spanenburg, Burke, Reeves were shining lights for locals. Second half opened with a rush and Belleville certainly had best of game scoring the only goal. Referee Moxam let the teams mix it up during the last of game but gave very good satisfaction. This put Belleville out of the running for this district.

The Peterborough team was as followings;—

Goal—Dereosher.
Point—Glover.
Cover—Moore.
Center—Pennell.
Rover—Ray.
Right—Dusty.
Left—Rose.

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always heal, soothe, and cure the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things simply cross about. For twenty years Dr Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—a little late though—Congress says "Put it on the label if poisons are in your Cough Mixture." Good! very good! Hereafter for this very reason many and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's—and none in the medicine, you'll find. Just now be on the label. And it's not only safe, but it's said to be by those that know it best, a really reliable cough remedy. Take no chances, be particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare the label on Dr. Shoop's package with others and see for yourself. No poison marks there! You can always be on the safe side by demanding

Dr. Shoop's Cough Cure
"ALL DEALERS"

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

ELECTRIC RAILWAYS IN CANADA

The Labor Gazette summarizes some figures regarding electric railways in Canada, compiled by Mr. J. L. Payne, Controller of Railway Statistics, Ottawa, which are interesting as showing the magnitude to which electric railways have already attained in this Dominion.

Eletric railway statistics have been collected by the Dominion since 1901. On June 30, 1908, according to the controller, the capital invested in the electric railways of Canada totalled $96,929,066, compared with $30,676,613 in 1901. There are at present 80 distinct systems operating 971 miles of main track line in Canada. In 1902, there were only 558 miles of main track line in the Dominion. From 1901 to 1908 the number of passengers carried increased from 130,934,665 to 266,837,60 9or 147 per cent. Gross earnings of electric railways in 1907 amounted to $13,630,430 compared with $5,678,232 in 1901. Operating expenses were $7,727,281 in 1907 or 61 per cent. of gross earnings while net earnings were equal to 6 per cent. of the capital invested.

The Department of Railways and Canals is revising its system of collecting statistics with a view to making it uniform with that of the United States in order that the widest possible comparisons may be readily made. the Interstate Commerce Commission of the United States having recently commenced the collection of electric railway statistics for the United States.

SEVEN GODS OF BLISS

Dr. Paul Karus writes in his open Court Magazine that Japan is a happy country not on account of wealth or power, but because its people are more contented with the simple life they lead. He lays stress on the influence of the Seven Gods of Bliss, "are a jolly and peaceful set of fellows" whose festal days "are celebrated by jollifications."

The Japanese Seven do not make a fighting cabinet. There is no rampant Thor, Jupiter or Mars in their number, although Bishamon le god of the warrior as well as of the merchant prince. After Bishamon is Daikoku, of the farms. "When he shakes his mallet, money drops down," Then comes Ebisu, whom the traders worship and who carries a fish, fresh caught.

Benmaiten, corresponding to Venus, is goddess of love, beauty and everything that adorns life. After her there remain Fukurokuju and Jurojin, who promote length of days, and Hotei, the god of mirth. The first of these, with his long forehead, is evidently an intellectual—classic for American "highbrow". Hotei is pictured as a deity surrounded by children, and we may assume that he is the patron not only of laughter but of anti-race suicide.

To Dr. Carus the fact that the Japanese have proved their ability to steer straight and shoot straight is of less importance than some matters of quieter praise. Commerce, the land, industry, love, long life, the family and laughter—these are things to reckon with. And the Seven Gods? "We," says the doctor, "have also our superstitions."

Take Hall's Family Pills for constipation.

The Wonders of the London Docks

London, Jan. 18.—In the enormous storehouses which lie just below the Tower bridge in London, England, 600,000 bales of wool are handled in a year. Each weighs 400 pounds, and contains the fleeces of 80 sheep. The price of the wool averages a shilling a pound. Therefore the value of a year's trade in wool at the London docks reaches £12,000,000. And all this, or very nearly all is a purely British trade. Down at the Victoria and Albert Docks you see the ships which bring the wool from Victoria, New Zealand, New South Wales, Australia, West Australia, the Cape and Natal. Over the side go the bales into barges (or lighters, as they are more generally called), which carry them up-river to the warehouses. Here the buyers come at sale times to sample the sacks and the whole place hums with activity. As many as 1,200 men are employed.

Underneath the wool warehouses are all there are 28 miles of underground roads, lined on each side with casks. Even this does not include the rum vaults at the West India Dock, where spirit is stored to the value of two and a half millions sterling. Here in the London docks there are four acres of brandy cellars, but most of the space is occupied by port, sherry, and Madeira. Every visitor must carry a little oil lamp on the end of a stick. Looking up one can see the extraordinary effects of the thick black and white fungus on the vaulted roof, caused by the vinous atmosphere.

It is a ghostly place, a wine-vault, dimly lighted by infrequent jets of gas, which you see glimmering far away. One might easily get lost down here. Some people would, perhaps, rather like it! But the little lamps are a precaution against that. The man in charge of them at the entrance keeps a strict account of the number lent out! If one were missing, the vaults would be searched at once.

All sorts of things besides wines and spirits are stored in the vaults. There is one, for instance, filled with iron bottles of quicksilver. Have you ever seen a 56-pound weight floating about in a pail of quicksilver? It is the most astonishing liquid in the world. Lift up a ladelful—you will be surprised at its heaviness. Try to press down the surface with your hand. It resists almost like a solid substance.

Yet again there are vast underground chambers at St. Katharine Dock, where £20,000 worth of rubber is stored. There are crates of it in its roughest state, mixed with bark and earth, just as it flowed from the tree. In this condition it looks like mere rubbish. You would never think it was worth £300 a ton. Other cases contain the rubber in a purer state, and finally we come to boxes of "biscuits," which are round, flat pieces of the rubber of commerce as we know it in bicycle tires. As you come up from these vaults, notice the marble strewn all about the handsome pillared quays, which remind one of the columned arcades down by the port of Genoa. There is a showroom close by for the display of tombstones, graveyard angels, and so on. They are shipped here from Italy. Would you like to choose a monument while you wait?

LEMONS AND ORANGES.

Further on there is a fruit ship unloading ten thousand cases of oranges and lemons from sunny Sicily. It only came in this morning, and before tomorrow's daylight it will be gone. There is an atmosphere of orderly quiet about these docks for the most part but they can get a move on when it is necessary. Piled up near the oranges are cases of currants from Greece, and of dates from Tafilat or Bussorah. Here, too, are all sorts of spices—nutmegs, cloves from Dutch-Sumatra, or French Mauritius, cinnamon from Ceylon.

BLOOD DISEASES

Guaranteed Cured or No Pay.

If you ever had any contracted or hereditary blood disease, you are never safe until the virus or poison has been removed from the system. You may have had some disease years ago, but now and then some symptom alarms you. Some poison still lurks in your system. Can you afford to run the risk of more serious symptoms appearing as the poison multiplies? Beware of mercury or mineral drugs used indiscriminately—they may ruin the system. Twenty years experience in the treatment of these diseases enables us to prescribe specific remedies that will positively cure all blood diseases of the worst character, leaving no bad effects on the system. Our New Method Treatment will purify and enrich the blood, heal up all ulcers, clear the skin, remove bone pains, fallen out hair will grow in, and swollen glands will return to a normal condition, and the patient will feel and look like a different person. All cases we accept for treatment are guaranteed a complete cure if instructions are followed.

Reader if in doubt as to your condition, you can consult us FREE OF CHARGE. Beware of incompetent doctors who have no reputation or reliability. Drs. K. & K. have been established over 20 years.
WE CURE Nervous Debility, Varicocele, Stricture, Blood and Secret Diseases, Kidney and Bladder Complaints. Consultation Free.
If unable to call write for a Question List for Home Treatment.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to reside with the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

ADVERTISE IN THE TIMES.

Favor Corporation Control by the Service Commission

Berlin, Ont., Jan. 14.—The annual meeting of the Berlin Board of Trade held to-night marks the epoch and another milestone in the town's progressive movement. Almost 300 members attended to-night's meeting. The feature of these meetings is always the president's address, and the one delivered to-night by President H. J. Sills was equal to the best. He said in part:

"Notwithstanding the baneful influences which were at work during the past year, it is a matter of satisfaction to note that the increase in the population of Berlin during the year was 534. The total population is now 12,407, greater than that of six of the Ontario cities. There has also been an increase of $210,930 in the assessment, the total amount now being $6,111,897. These figures compare favorably with those of other cities and towns in Ontario.

"Berlin should become a city, and the Board of Trade and Town Council should appoint a committee to look into the matter.

"There has been $250,000 spent in building operations during the year."

Touching on municipal ownership, for which the town is noted, he said: "Public ownership has had a Baptism of fire in Berlin, and if a plebiscite were taken to-day I believe the majority of the ratepayers would favor the principle of private ownership so far as public utilities is concerned."

President Sills said he favored a public service commission as established in the State of New York.

Civic improvement was a matter which should have the attention of the local authorities, he said, and an association formed to take up the work. "It is pleasing to report," he continued, "that all classes of industrial trade report a gradual improvement, and Berlin's 30 manufactories are again on full time."

He expresse dthe hope that in the coming year the most pleasant and harmonious relations will exist between the Board of Trade and the Town Council.

20 Ask Divorces; Few Private Bills

Ottawa, Jan. 13.—There is a big falling off in the demand for all kinds of private legislation at the coming session of parliament, except divorce, so far only sixty-eight applications have been made for the passage of private bills, and twenty of those are for divorce. This is a divorce record.

Two Hot Chases After Burglars

Park Slope, Brooklyn was stirred by a burglar chase yesterday afternoon when George Jones, a negro, with jewelry valued at $300, which he had just taken from the apartments of Mrs. Alice Bean, No. 213 Eighth avenue, was caught after half a mile run and taken to the Bergen street station. Policemen pried his jaws open and there found a brooch of pearls and diamonds concealed in his mouth. The pin of the brooch had gone nearly through the negro's cheek.

Anna Allen, a servant, started the chase when she discovered the negro gathering up the jewelry from Mrs. Bean's dresser. Her screams brought assistance, and the crowd in pursuit continued to grow until the negro was caught. In his possession were found a gold lorgnette and chain, a silver lorgnette and chain, two breastpins, a diamond ring, a gold watch and pearl collar.

The burglar entered the house by skeleton keys. He will be arraigned to-day on a charge of burglary, second degree.

New York, Jan. 16.—The Tribune says: Tom Longboat, the Indian Marathon runner, used his speed yesterday to bring into the hands of the police James Smith, a negro, who, it is charged, tried to steal a coat from a tenderloin tailor shop, Sixth avenue.

Paul Pashkin, a tailor, had vainly pursued the man. Smith was turning into 30th street, going toward Broadway at top notch speed. Before the short block had been covered by Smith, the Indian speeded up behind him and took him by the collar to Patrolman Baggerty.

Labor Has Endorsed Suffragette Cause

New York, Jan. 19.—The delegates of the Central Federated Union looked scared yesterday when a deputation of suffragettes swooped down upon them at the University Settlement Building and told them rather sharply that women should have the same right to vote as men.

The delegation of suffragettes was headed by Mrs. Carrie Chapman Catt, president of the Interurban Woman Suffrage Council. Calmly she surveyed the men who represented 300,000 workers in the city, then ascended the platform and began her speech.

"I suppose," she said, "you with many other people, and with many members of Congress think the national constitution too sacred an institution to be changed.

She paused for a reply, but none of the delegates ventured to lift his voice.

MRS. CATT'S VIEWS.

"You mustn't forget, gentlemen," Mrs Catt went on "that the world is growing wiser and wiser and that everything is changing. The women of this country will insist on having a national roll-call on the question of allowing women to vote, and it is essential and proper that we should have the labor unions with us on this important question. You know as well as I do that if woman suffrage was backed by a pledge that in case it became law all the women would vote the Republican ticket a Republican Congress would pass it, and the same applies to a Democratic Congress. But we will give no such pledge. Never!

"President-elect Taft believes in woman suffrage, but says that the people are not ready for it. We say that we are ready for it. Do you mean to say that this government, which is controlled by men, is absolutely perfect?"

"A SPLENDID MAN."

At the close of her speech James P. Hatch, one of the most prominent of the labor leaders, arose and said:

"If the men here who give their wages to their wives—and I hope they all do—had the spending of the money you would not administer the household affairs as well as your wives. This shows that the average woman knows more in business matters than men do. All things considered, there would be very little risk in allowing women to vote."

"What a splendid man!" exclaimed Mrs. Catt, gazing admiringly at Mr. Hatch.

The upshot was that organized labor of New York, as represented by the C. F. U., unanimously voted to give the suffragettes their indorsement. The delighted women were supplied with credentials to obtain the 30,000 signatures of organized labor.

President Would Bridge Hudson

President John. A. Beneel, of the Board of Water Supply told the Cassidy joint legislative committee at the City Hall yesterday that the most practicable method of carrying the Catskill aqueduct water across the Hudson would be by a bridge that could be used for all kinds of traffic.

His statement was in harmony with the announcement first made in The Times two months ago, that there was a strong sentiment in favor of a bridge across the Hudson at Storm King. If the structure is built, as now seems probable, it will have to be heavier and stronger than any of the present suspension bridges in this country on account of the great weight of the aqueduct, with further provision for car and wagon traffic.

Russian Trusts May be Legalized

London, Jan. 17.—A despatch from St. Petersburg to the Observer says a petition to the Council of Ministers is being extensively signed by Moscow capitalists and manufacturers in favor of legalizing industrial combinations for the maintenance of prices. The petition urges that the present law is an old-fashioned survival, and is harmful to the present developments of Russian industry. The immediate object of the Moscow capitalists is to obtain freedom of action to fight American trusts for control of Russia's Far Eastern markets.

Under the protective tariff which is to be reimposed in the Far Eastern provinces important articles like agricultural machinery will still be admitted free of duty.

The tender leaves of a harmless lung-healing mountainous shrub give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs quickly yield to the healing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Contains no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge! Sold by all dealers.

Great Discovery after 2000 years.

Two thousand years ago the usual method of healing skin injuries and diseases was to apply certain essences and juices obtained direct from various healing herbs and roots. The gladiators of ancient Rome and the athletes of Greece adopted this means of healing their injuries, and with wonderful effect. A gladiator would emerge from the ring having sustained terrible cuts and bruises, yet on the application of his favourite herbal balm, within a few days he would again be ready for combat.

As centuries rolled by, the secret of making these herbal extracts was lost, and ointments and salves made up of animal fats took the place of the pure herbal balm.

Zam-Buk, the great balm which during the past few years has revolutionised the system of skin-healing, was produced by returning to the idea of the ancients, that man's best medicaments must be found in herbal extracts.

In the investigation which followed, the necessity was seen for entirely excluding the rancid fats and coarse minerals from which most modern ointments are compounded, and sticking closely to nature.

Scientific inquiry eventually centred round the peculiar properties of certain vegetable saps and juices. These extracts from rare herbs had, it was found, a curious power that enabled them when spread on the broken skin, to knit the edges of tissues together—in short, the power of healing injuries in a marvellously natural way, and of annihilating any germs of disease harboured by wound or pore.

The choice of the right herbal juices and their refinement comprised the next step, after which came the more difficult problem of finding out just the exact proportion of the different ingredients which would give the best healing results. Early disappointment and costly experiments are often the forerunner of famous discoveries, but at length, when success arrived, the investigators found themselves in the possession of a substance of fine consistency, of slight yet agreeable odour, and unique for its marvellous healing, soothing and antiseptic value. The original medicinal power of the respective ingredients was found to have been multiplied many times by reason of the scientific and novel manner of their combination as they exert in Zam-Buk.

Careful tests established the exceptional value of the new balm, its constant reliability, and its unvarying success even in certain obstinate cases of eczema and ulceration.

From the first Zam-Buk has born out in practice what its discoverers expected of it from a practical standpoint. In four continents it has now become the favourite household balm. Cheap substitutes made up to look like Zam-Buk, and sold at so-called "cheap" rates, are constantly being produced, but the careful housewife, the mother, bearing the responsibility and the welfare of her ailing children, or the bread-winner, who once wastes money on them never repeats the experiment. There is no "cheapness" in nature. If one wants her treasure her price must be paid, and now people don't waste money on "cheap" imitations.

Zam-Buk, so pure yet so powerful, is good for young and old. The delicate skin of babes benefit from its application and it is widely used by nursing mothers for the rashes and chafings of very young children. Men of experience and of great attainments in varied walks of life have tested it, and speak of it in the highest terms.

Dr. Andrew Wilson, whose name as a scientist is familiar all the world over, in one of his recent medical works ("Homely Talks on First Aid") says: "Wherever a box of Zam-Buk is handy the preparation may be relied upon as an antiseptic dressing which requires no preparation and has the particular advantage of possessing unique healing properties."

Mr. Frank Scudamore, the great war correspondent says: "Zam-Buk cured me of blood-poisoning, which caused severe ulcers. It is a splendid healer, and I hope its merits will become even more widely known."

Mr. R. F. Perry, Justice of the Peace, of Goldfields, B.C., says: "Zam-Buk cured me of a skin rash of five years' duration, which no doctor had been able to relieve."

For skin eruptions, scalp sores, ulcers, abscesses, poisoning, cold sores, chapped places, frost bite, blistering, chafing, ringworm, etc., Zam-Buk is without equal. For piles it is the best remedy yet discovered. It relieves the burning, stabbing, throbbing pains, and gives ease. Almost all druggists and stores sell Zam-Buk at fifty cents per box, or post free from Zam-Buk Co., Toronto, for price.

MILLIONS OF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Wasted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has been tested in every detail. We KNOW what it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world. Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Our smelter thus erected will save 85% in treatment, freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when here you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you in this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Address

The Kuenzel's Process Smelter Co.

Chas. A. Kuenzel, President A. W. Kuenzel, Secretary and Treasurer

BUENA VISTA, COLORADO

Chief Howard's Report

Continued from page one.

The number of feet of hose used at fires was 24,000 feet.

Chemicals used 224 gallons.

Ladders used 1,016 feet.

Apparatus travel, 100 1-2 miles.

I regret very much having to report that the fire of August the 29th at the rear of 301 Charlotte street, was attended with fatal results. The late John Grelr was so badly burned by the explosion of gasoline that he died the following day.

The Municipal Council of 1908 undertook the re-organization of the Fire Department, which took effect July the 1st, last, with the appointment of a permanent Chief, and staff of firemen, such as is generally termed a fully paid Department.

From the time of my appointment I have conducted regular fire drill. This drill has proved a material advantage and an additional protection to the citizens.

Attached to this report you will please fin da stock sheet, containing every dollar's worth of material on hand at the time of taking stock; December 31st, 1908. I also attach an estimate of the expenditure required for the Department for the year 1909.

It affords me much pleasure to report upon the good conduct of my men; they have at all times conducted themselves in a gentlemanny manner, and have been courteous and polite to persons visiting the Fire Station, and diligent in the performance of their duties.

Two members of the staff met with slight accidents which rendered them incapable for a few days. The general health of the Department has been excellent.

I desire to tender my sincere thanks to the public press for the many kind references to the Fire Department, and myself, during the half past year; and also to the officials and heads of the respective Departments, who have always shown a disposition to assist me in the performance of my duties. The Chief of Police and his staff of constables have rendered valuable assistance to the Fire Department, on several occasions; a kindness we highly appreciate.

In conclusion I desire to express my sincere thanks to His Worship the Mayor, and the Aldermen of last years Council for their uniform courtesy and kindness to me personally, and for their generous help and co-operation, and also for the prompt manner in which they acted upon my recommendations and suggestions. I sincerely hope the friendly relations that characterized the affairs of the last six months will be continued.

All of which is respectfully submitted.

I have the honor to be, Sirs,

Your obedient servant,

W. A. HOWARD,

Chief Fire Dept.

A Woman's Sympathy

Are you discouraged? Is your doctor's bill a heavy financial load? Is your pain a heavy physical burden? I know what these mean to delicate women—I have been discouraged, too; but learned how to cure myself. I want to relieve your burdens. Why not end the pain and stop the doctor's bill? I can do this for you and will, if you will assist me.

All you need do is to write for a free box of the remedy which has been placed in my hands to be given away. Perhaps this one box will cure you—it has done so for others. If so, I shall be happy and you will be cured for 5c (the cost of a postage stamp). Your letters held confidentially. Write to-day for my free treatment. MRS. F. B CURRAM, Windsor, Ont.

Court of Revision.

Notice is hereby given that a sitting of the Court of Revision for the City of Peterborough will be held in the City Council Chamber on Friday, the 29th day of January, 1909, at the hour of eight o'clock in the afternoon, for the confirmation of the following special assessments upon the property fronting or abutting on the streets or parts of streets named below, for the construction of sewers thereon, and the total amount to be assessed upon the said property fronting or abutting upon the said streets or parts of streets is as stated below, namely:—

STREET OR PART OF STREET	To be paid by Municipality.	To be assessed upon private property.
William, Bolivar to King streets	$ 58.00	$162.00
Bethune, Dublin to Edinburgh streets	113.34	316.66
Reid, McDonel to London streets	146.70	204.30
Rubidge, Brock to 80 ft. n. of Kirk street	94.95	265.05
Hunter, Water to Sheridan streets	169.40	472.60
Sheridan, Hunter to Brock streets	95.95	268.05
Shortreeds, George street to the creek	71.55	199.95
London, Dev...is to Park streets	202.50	567.50
Donegal, Park to Brock streets	202.50	445.50
George, Argyle to Hilliard streets	202.50	202.50
Patterson, Lot 31 Pl. 49 to Monaghan Road	32.25	67.75

S. B. ARMSTRONG,

Peterborough, Jan. 14th, 1909. City Clerk.

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash value in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making the offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery is installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine copper unity for many persons to realize something now on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information of what you have to exchange.

CALVIN ESTERLY,

717 Market St., San Francisco, Cal.

HOW TO TELL

If the Kidneys and Liver are Not Acting Well.

Thousands die every year from aggravated kidney distress that could have been saved if they only knew.

Your back may ache, you think it's tiredness or physical weakness.

You grow irritable and nervous—it's put down to loss of sleep.

Joints ache, muscles get sore, —that's all put down to bad weather.

Then digestion gets poor, appetite fades away, color bleaches, spirit droop.

Can't you see it's all from your over-worked kidneys, which can't keep the body clear of poisons that are now surging through the whole system.

Cure your kidneys with Dr. Hamilton's Pills.

"When I was so stooped and back weary, so lame and sore with kidney and bladder trouble, I cured myself quickly with Dr Hamilton-ton's Pills" writes C C. Ferrier, a well known merchant in Plainville. "Dr. Hamilton's Pills touched the spot, at once, gave my back ease, lifted depression and weariness, made a new man of me. I can also say for a good spring medicine to clear and enrich the blood Dr. Hamilton's Pills have no equal."

The housewife whose aching back makes every little duty a burden, the working man who is tired all day and can't rest at night, whose back aches, and whose feet swell—these people have kidney trouble. Women whose kidneys are sick, suffer continually from blind and sick headaches, faint and dizzy spells, bearing down pains, sharp twinges when stooping, distressing urinary troubles, aching muscles, and joints lack of apetite, and loss of sleep. Reach the cause. Cure the kidneys. Use Dr. Hamilton's Mandrake and Butternut Pills, which have cured thousands, 25c. at all dealers.

PETERBOROUGH, ONT.

TUESDAY, JANUARY 19, 1909.

Carpet Weavers' Banquet

The local union of the Carpet Weavers' Association will hold its first annual banquet at the Grand Hotel on the evening of January 22nd. Fuller particulars will be announced tomorrow.

Sewing at Shelter

Ladies will meet at the Children's Shelter this afternoon to sew. Any one is invited as all assistance will be appreciated. There is much need in the way of clothing amongst the inmates of the Shelter and also for families that are being helped by Relief Officer Miller.

New Elders

Two new elders, Messrs T. R. Kennedy and F. D. Armstrong, were received into the session of Knox church on Sunday last. The interesting ceremony was performed by the pastor Rev. H. J. Keith. This makes a total membership of the session of eight.

Grand Lodge Convention

At the regular meeting tonight of Sentinel Lodge No. 36, Ladies' Orange Benevolent Association, the delegates to the annual meeting of the Right Worshipful Grand Orange Lodge of the L.O.B.A., will be elected. The meeting of the Grand Lodge will be held in Peterborough on May 26th and 28th and in view of the fact that this is the first year of the local lodge, it is a decided honor to have this city selected for the Dominion convention. Delegates from the different lodges in Canada will be in attendance.

ADVERTISE IN THE TIMES.

Wanted

A respectable young woman wants a position as a housekeeper. Best references. Apply to A. Schenidor, General Delivery, Peterborough.

Went Through the Ice

Mr. Corkery purchased several head of cattle at Mr. Bell's sale in Ennismore last week, and was driving them home across Chemong lake, when the drove suddenly went through. A horse and a man also broke through but assistance soon appeared on the scene and got the stock and man out.

Euchre Tonight

The fortnightly euchre contest at the Young Conservative club rooms will be held tonight. There will be first, second and third prizes. All the members are invited to attend. The contest will start as soon after eight o'clock as possible.

Horses Wanted

Mr. William Greer of Brandon, Man., is in the city for the purpose of buying three car loads of horses for Western Canada. Mr Greer is one of th elargest horse buyers in Manitoba. Mr Greer is staying at the Cavanagh House and will be here about two weeks.

Election of Delegates

The regular meeting of Sentinel Lodge, No. 66, L.O.B.A., will be held in the Orange Hall, Simcoe street, tonight at eight p.m., when delegates will be elected to represent the lodge at the annual meeting of the Right Worshipful Grand Orange Lodge of the L.O.B.A., of B.A., which will be held in this city during the week beginning May 24th. Every member is requested to be present. L. E. Calder, W.M.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

Representatives Wanted

$5,000 or more a year can be earned by a bright man devoting entire time to permanent, high class business in any place of five thousand or over; salesmen in all lines, including insurance, stock, real estate, books, etc., can operate on side and add materially to present earnings, not interfering with, but actually helping regular business; state experience and say about how much you made past year. Address H. M. Harper, 27 William street, New York City.

Gowganda

The quickest and best route will continue to be via Grand Trunk and T. & H. O. Rys. to Charlton, thence 18 miles by stage to Elk Lake and 21 miles Elk Lake to Gowganda. This route will enable stops to be made at Temagami, Cobalt Haileybury, New Liskeard and Englehart. Cobalt special leaving Toronto 10.15 p.m., daily, makes direct connection with stages reaching Elk Lake next afternoon.

Full information from W. Buntin, C. P. & T. A.

Personal

Mrs. F. S. Schneider will not receive this week.

Mr. Alf. Hunter, North Monaghan, has left on a visit to Buffalo, Chicago and, probably, to the Coast.

Mrs. A. H. Briggs of Toronto, is the guest of Mrs. R. Goodenough, James street, Ashburnham.

Mr. J. T. Morrow of Peterborough, was in town on Saturday on business.—Lindsay Post.

Messrs. Arthur Blade and Charles Gladman leave tomorrow for Gowganda on a prospecting tour.

The Misses Titterson were in Lakefield and took part in a concert which was given in the new Methodist church last night. Miss Reta Maud Titterson rang and Miss Jennette Titterson was the accompanist.

TENDENCY OF THE TIMES

TENDENCY OF MEDICAL SCIENCE TOWARDS PREVENTIVE MEASURES.

Pneumonia, One of the Most Dangerous and Often Fatal Diseases, Can Be Prevented.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza, (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied on with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Even this side of and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always

with that country and his address was on that part of the country.

Dealing with the circumstances which led to the recent establishment of constitutional government in Turkey, he took exception to the generally used phrase "a bloodless revolution." In considering the causes that brought about the change it was impossible to overlook the rivers of blood that had been shed in Turkey. In the attempt to suppress the Yemen revolution alone there had been engaged no less than 85,000 troops, and of these something like 60,000 had lost their lives through starvation. He told how on one occasion a regiment of a thousand men left Jerusalem for a march of five hundred miles through the disaffected districts. The entire commissariat for the regiment consisted of a few bags of unground wheat. Neglect of the army was one of the direct causes of the change. Massacres in Armenia and Macedonia had all contributed to the bringing about of the change, and such being the case, to call the revolution a bloodless one was a misnomer. Other contributory causes were the successful administration of Egypt under British rule, the raising of that country from bankruptcy to the position of being the most prosperous on the shores of the Mediterranean, and its refluex influence when contrasted with the maladministration of Turkey.

Dr. Gould dated the rise of the Young Turkish party from the time of the Crimea, but at the same time admitted the developements of the last few months have been most trifling. Twelve months ago there were parts of Jerusalem which for a Jew to visit meant death. Now one of the members for Jerusalem of the new parliament for Turkey is a Jew. Another feature of the change is the reascendancy of British influence and the discrediting of Germany.

A vote of thanks to Dr. Gould was moved by Messrs. F. D. Kerr and D. Hughes Charles and was unanimously carried.

Do Fat Folks Worry?

Most thin people would say no. Most fat folks, yes. They have all the causes for worry thin people have, and one other—their fat. Fat mortifies women because it spoils their appearance, and it distresses men, for it affects their activity. A few are afraid of it. There are few fat members of either sex who would not gladly dispense with 20 to 50 pounds if they knew how.

The "how" is my excuse for taking up this newspaper space. Although very few fat folk know it (and those who do are no longer fat), there is a very simple method of reducing safely. All one has to do is to take after meals and at bedtime one teaspoonful of the following simple receipt, which any druggist will fill for a few cents; One-half ounce Marmola, 3-4 ounce Fluid Extract Cascara Aromatic, and 4 3-4 ounces Peppermint Water, and the trick is turned.

This is a certain cure for "fat folks' worry," for it does away with all necessity for exercise or dieting. It never causes wrinkles or stomach disturbances, and 12 to 16 ounces I am told, is by no means an unusual amount of fat to rid of to take off daily.

Family Murdered

(Continued from page 1.)

saying that recently he had received $60,000 from the settlement of his father's estate. His brother knows no motive for the crime, and thinks the man must have been insane.

Yesterday morning Smelzer and Zibbell, who discovered the bodies, went to the Seeley home determined to find out what was the matter, finally climbed over a transom of the back door and got into the house.

In the front bedroom, which was that occupied by Mrs. Seeley, a great blood stain was found on the bed. Another big blood stain was on the bed in Miss Seeley's room, but Smelzer and Zibbel did not see it.

Going into the bathroom, they found the three bodies, each with the head in the bathtub filled with water. Over the corpses of Seeley and his wife was a steamer trunk. The trunk did not touch the body of Miss Seeley, but was a few inches above it. An empty chloroform bottle was on the stand in the bathroom.

Clutched in one hand of Seeley, which was beneath the water, was a pocket handkerchief, which, although soaked in water, still carried a faint trace of odor of chloroform. There were three wounds on the head of Mrs. Seeley. One was above the left eye and the other two were on the forward part of the head.

The blow that evidently killed Miss Seeley was dealt her over the left eye. There were no marks on the man.

Seeley was 58 years of age, his wife about 50, and his daughter 23. Seeley within the past few days, it is said, had borrowed money, indicating that he was in financial straits.

Our First Shipment of

Cosgrave's Beer

Words of praise have ever prevailed in advertising "copy." That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Boys and Girls were Drunk on Brandy in Chocolates--Action Taken

Montreal, Jan. 19.—Brandy chocolates with more than half a teaspoonful of brandy in each and 25 to 30 of the chocolates in each half-pound box, sold extensively in the city at 60 cents a pound, led to decisive action to-day on the part of Chief Archambault, of the Provincial Revenue Police. One of the largest chocolate manufacturing establishments in the city is concerned in the action. On Friday afternoon one hundred cased with four or five pounds of these chocolates in each, according to the statement of Mr. Archambault, were seized by the revenue police on the premises of Walter M. Lowney Co., of Canada, and from 25 to 30 gallons of brandy in a cask was confiscated in the same establishment.

Following this a tour of city confectionery stores was made by revenue officers, with the result that this afternoon 30 warrants against as many candy store proprietors were issued in the Police Court. The charge in each case is "selling liquor without a license," this being the only accusation on which actions of the kind can be entered. A similar charge has been entered against the Lowney Co.

The complainants regarding the sale of these chocolates were received by Chief Archambault last week and a campaign was at once instituted. Numerous cases of boys and young women having bought half-pound boxes of the chocolates and afterwards notice din a state of intoxication have been reported. The largest sale was in the neighborhood of East-end theatres and picture shows, matinee girls being the most noticeable purchasers.

Directors of Y.M.C.A. Elected Their Officers

A meeting of the directors of the Y.M.C.A., was held in the parlors of the institution last night when the organization for the year was completed. The officers were elected as follows;—

President—J. C. Shook.
1st Vice-Pres.—V. Eastwood.
2nd Vice Pres.—J. H. Connal.
Treasurer—J. J. Bowden.
Rec.-Sec.—C. E. Simon.
Property Committee—A. McFarlane, G. M. Roger, B. A. Lillie, and A. B. Cunningham.
Finance Committee—V. Eastwood, Ald. J. J. Turner, W. E. Conway, A. W. Creasman, B. F. Ackerman J. J. Bowden, J. C. Shook.

The chairmen of the other committees were as follows;—

Religious Work.—J. F. Thornton.
Educational—E. A. Peck.
Social—J. J. Bowden.
Physical—J. H. Connal.
Boys' Work.—Dr. J. E. Middleton.
Membership—P. A. Kerr.

Sounded Depths of Human Souls

London, Jan. 17.—Prof. Cesare Lombroso, the alienist, professor of psychiatry at the University of Turin, has written a long article on the state of the minds of the people during the recent Italian earthquake. He says the recent disaster enables one to sound the very depths of the human soul. He quotes one of the survivors as saying; "I saw the last judgment, the end of the world. I am sure the end of the world must come this way. In the pitch black night I saw houses tremble, shake and subside, abysses open in the earth, endless shrieks and cries. I thought it was the reign of death as I had pictured it in nightmares. I no longer felt alive. I thought myself dead. I thought that my consciousness was the consciousness that must follow death."

Prof. Lombroso continues. "No one, thuoght seriously wounded, speaks of physical suffering. Panic and terror took possession of their senses and paralysed all sense of pain. Men who had an arm broken ran miles without knowing it. A woman, whose eye was so badly hurt that it had to be removed, declares that she felt nothing. With bare feet and clad only in a shirt the first thought of the survivors was to fly and they set off without thought of rest.

"There was a striking episode of collective mutism. Three hundred work people were about to enter a factory. They stayed outside and thus were saved, but their amazement was so great that when the director of the factory called their names scarcely one answered. Their names had slipped their recollection."

Some remarkable instances are given in which the instinct of self-preservation showed itself strongly. Woman and children remained for two days sitting on window sills on third and fourth floors with a great drop on either side and yet they refused to fall a prey to sleep or fatigue. This reminds Prof. Lombroso of a remark often made by Alpine climbers, that the instinct of self-preservation always dominates any tendency to dizziness.

Prof. Lombroso goes to show that children resisted terror and pain better than adults. This, he says, was due not only to their remarkable power of resisting suffocation, but also to their unconsciousness of danger and the cessation of fear which must certainly have killed a majority of those who died after being extricated.

Will be Presented on February First

The second presentation by local amateurs, under the direction of Mr. Irving Beers, will be given at the Grand Opera House on February 1st, when the celebrated farcial comedy by Chas. Hawtrey, "The Private Secretary," will be produced. Several rehearsals have been held and the production of the piece promises to be a highly interesting one. "The "Private Secretary" is very cleverly written and contains many intensely funny lines and situations. The plot is most original and the story a very amusing one—in fact the play is one long laugh from the first to the last curtain, the only breathing space for the audience being in the intervals between the acts.

The cast as given The Times by Mr. Beers is;

Mr. Marsland, M.F.H.—B. Gillespie.
Harry Marsland, his nephew—W. B. Hillhouse.
Mr. Cattermole—D. B. McRae.
Douglas Cattermole, his nephew—Chas. Barber.
Rev. Robt. Spalding, an ill used secretary—A. C. Yokome.
Mr. Sydney Gibson, tailor of Bond street—Walter S. Davidson.
John, a servant—T. Savigny.
Knox, a writ server—M. Moore.
Gardner—Irving Beers.
Edith Marsland, daughter of Mr. Marsland—Miss M. Brooks.
Eva Webster, her friend and companion—Miss B. Brightman.
Mrs. Stead, Douglas' landlady—Miss Overend.
Miss Ashford—Mrs. J. N. Barber.

Exams. Played Double-Header

The Examiner B team played a double header last night and won and lost. They lost two games to the Belmonts and won two from the Frontenacs, although if the total for the three games played against the Belmonts was taken into consideration the Examiner trio would have lost both contests. The scores were as follows;—

EXAMINER B—

Dela Fosse	156	168	122— 446
Craig	158	115	152— 425
Clarke	150	112	146— 410
	464	395	422—1281

BELMONTS—

Pollard	123	124	180— 397
Tenney	138	166	129 456
Warem	168	174	254— 596
	429	466	563—1448

EXAMINER B—

Dela Fosse	133	134	158— 422
Craig	114	128	141— 383
Clarke	166	122	130— 358
	853	384	426—1163

FRONTENACS—

Fryer	160	149	148— 457
Barrett	157	116	150— 423
Lang	137	97	114— 348
	460	362	412—1233

BOWLING

Minneapolis, Minn., Jan. 18.—There is said to be a possibility that the action taken yesterday by the delegates who attended the bowling meeting, in changing the name of the association from the Minnesota Bowling Association to the International Bowling Association, will cause a Bowling war. Dissatisfied with the treatment which they have received at the hands of the National Bowling Congress the northwestern bowlers have struck and they intend to spare no efforts to demonstrate to the eastern bowlers that they can get along without them.

The action taken yesterday was the result of a request from the bowlers of Winnipeg and other Canadian cities and of several North and South Dakota cities for membership in the Minnesota Association. The advantage of such organization was apparent to Twin City and Duluth men who follow the game, and every delegate voted in favor of the new organization.

Officers of the Public Library

The annual sale of periodicals and magazines at the Public Library was held Monday night, when a fairly good sale was the result.

Prior to the auction the officers for the coming year were elected, as follows;

Chairman—Dr. Burnham.
Vice-Chairman—W. B. Hill.
Sec.-Treas.—John Corkery.

The committee was re-elected.

ADVERTISE IN THE TIMES.

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well.

Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

COMMISSIONER OF INDUSTRIES FOR THE CITY OF PETERBOROUGH

City Has Lots of Power for Manufacturers—Sites will be Tabulated and an Official will Advertise the City and Secure Industries—Joint Committee Meeting Last Night

The City Council this year intends to get out after more manufacturers and they are going to go about it in an entirely different manner to anything tried heretofore. The work of advertising the city and of securing industries will be placed in the hands of a man who is specially qualified for that business, and the committee have the man in view. There is lots of power here now for immediate sale and the committee has been assured that much more will be supplied as soon as required.

There was a joint meeting of the Manufacturers' Committee, the Special Power Committee, and the Board of Trade Committee last night in the city clerk's office and a lot of valuable information was forthcoming. It begins to look like a business proposition, and in the near future Peterborough will be brought before the attention of the commercial world in the proper manner.

Those present were, Mayor Rush, Ald. McIntyre, chairman of the Special Power Committee, Ald. Gillespie, chairman of the Manufacturers' Committee, Ald. Bradburn, Duffus, Metheral and Morrow.

Messrs. J. H. Larmouth, W. H. Moore and Dr. M. A. Morrison, president of the Board of Trade.

Ald. McIntyre was elected to the chair, but as there was no quorum present no business could be done, although it was decided to discuss the business anyway so that the evening would not be wasted.

The chairman stated that the object of the meeting was to consider the two resolutions passed by the Board of Trade and forwarded to the City Council. He read the resolutions bearing on the power question and also the question of securing new industries and the appointment of a commissioner of industry.

Dr. Morrison, president of the Board of Trade, stated that the idea of that body was that the city should inaugurate a more progressive policy to induce manufacturers to locate here. There is lots of machinery here to accommodate a much larger population and the best way to increase the population was to get more manufacturers here. Other cities were moving and it is time Peterborough was moving. The board also discussed the advisability of securing more electric power. This would be left with the Power Committee. The Board also recommended the necessity of establishing a publicity department for the purpose of advertising the city. That department could also take up the matter of securing options on all property available for manufacturing sites, so that they will be on file when required. The publicity agent could also go into the imports and find out what articles are not manufactured and then go after those people and endeavor to get them here.

W. H. MOORE.

Mr. W. H. Moore stated that he had never yet seriously considered the question of securing manufacturers here. It struck him, however, that the city would do well to get more power, municipal power and cheap power. He mentioned Burleigh, Buckhorn and Healey's Falls powers, which might be secured. This is a great natural center for manufacturing. One great feature is the wood supply which can be secured very easily. He mentioned the Auburn dam which was valuable.

J. H. LARMONTH.

Mr. Larmouth stated that he had intended to get evidence to show the council that they have lots of power here and that it is reasonable in price. The power companies now in existence will look after the manufacturers and will gladly increase their plant as rapidly as there is any sign of a market. Last year they spent $20,000 on their plant with the result that they have now 1000 horse power more. As far as the city is concerned and going into municipal power he did not think that the city could afford to develope power as it meant an expenditure of several thousand dollars. He further stated that in very few places in Canada could power be had at less than they are asking viz., $20 per horse power. He pointed out that while Toronto was getting 10,000 horse power from the power commission at $18 per h.p., but before the people are through with it it will cost at least $35 per horse power. Mr. Larmouth stated that if Toronto could get factories with $30 to $35 per horse power this city should also get factories at $20 if the city put its energies in the right direction. Mr. Larmouth said he could supply 1000 horse power by the first of May, and 2000 horse power a short time after.

Ald. Morrow arrived at this time and made the necessary quorum.

Mr. J. H. Larmouth stated that at the present time the city could with every confidence go to six or eight ordinary manufacturers, and assure them that there will be plenty of power at $20 per horse power.

Ald. Bradburn asked Mr. Larmouth if he would place on record in the hands of the committee that he would supply 1000 horse power. He stated that he would take it up with the head office in Chicago at once.

FACTORY SITES.

Chairman McIntyre then read the next resolution, viz., the tabulation of factory sites and the publicity department and asked if there was any discussion.

Dr. Morrison stated that this city should certainly have a ppublicity department so that they could get after these new factories at once.

Ald. Bradburn stated that he had taken this matter up last year and was convinced that it would pay this city to have a commissioner of industries, who would keep in touch with the manufacturers in the States and Europe, and when he got hold of a concern looking for a Canadian site, he could go directly after them and bring them here. This commissioner could also advertise the city within a radius of 100 miles, and induce many more excursionists into the city. Those outsiders leave money here and all benefit thereby. He was strongly in favor of trying this for two or three years anyway, and was confident that it would pay. He would take it at an early date.

ALD. MORROW.

Ald. Morrow stated that the Power Committee had been doing everything possible during the past year. He agreed with Ald. Bradburn in his ideas of securing a commissioner of industries.

ALD. GILLESPIE.

Ald. Gillespie, chairman of the Manufacturers' Committee, stated that he had been taking in all that had been said and would endeavor to carry out all or some of them.

Man Who Married First White Woman in West is Dead at Edmonton

Edmonton, Jan. 19.—Harrison S. Young, 61, in charge of the government meterological station, died here after a residence of 21 years. Young came to Edmonton via the Peace River in 1873, and for a time was employed by the Hudson Bay people in British Columbia and Alberta. He married Elizabeth, the first white woman in the West, a daughter of the pioneer Methodist minister, Rev. Geo. MacDougall. Young was the son of Hon. John Young, Montreal, where his mother still resides. He leaves living six sisters and four brothers, and four sons and three daughters.

Special Train for Lindsay Thursday Night

Tomorrow night there will be a big crowd go up to Lindsay with the hockey team on the special train to see the first game between the intermediates of the two towns. The return fare will be $1.05. The special will leave the G.T.R. station at seven o'clock, and will return after the game. This promises to be the big game of the season and no one who can possibly get away should miss it.

Supplimentary List was Considered

The Fire, Water & Light Committee met at the fire hall last night, and went over the stock sheet and also considered the supplimentary list of requirements for the department this year. The report will be taken up at the next meeting of the committee and dealt with.

Company Ask for a Charter

Toronto, Jan. 18.—An electric railway may be built connecting Cobourg with Peterborough and the Kawartha Lakes. An application has been made to the legislature for a charter to the Cobourg, Peterborough and Kawartha Lakes Electric Railway Co. Two lines are proposed one between Cobourg and Havelock, going through the villages of Warkworth, Burnley, Centreton and Baltimore; and a second from Cobourg to the Kawartha Lakes, through Cold Springs, Plainville, Bewdley, Baillieboro, Centreville and Peterborough. The lines are not to exceed thirty miles each.

The company asks leave to issue bonds to the extent of $25,000 a mile, which would amount to $1,500,000 for the two roads.

Peterborough Radial Railway Co., asks for an Act extending the time for completion of their road, and for authority to extend it from Clear Lake to a point in Sonty Lake in Peterborough county.

Six Rinks Played in Club's Tournament Last Night

Six rinks played in the club's tournament games last night, and the play in some instances was very close. The rinks and scores were as follows;—

F. Dolphin	Dr. Gorman
M. Lyle	J. D. Craig
J. M. McDermid	A. Gibson
T. F. Matthews—12.	Dr. McCullough, 8
G. J. Hill	W. S. Dodds
R. J. Winch	R. Cameron
A. Webb	D. Ball
R. Hicks—10.	G. B. Stevenson—8
F. Dixon	S. Rush
B. Evans	J. Hall
H. Meredith	W. T. Hall
R. B. Clegg—12.	S. D. Ball—14
W. Adamson	F. D. Kerr
C. Taber	Stubbs
F. Bronsombe	R. Bo. Merritt
R. Neill—19	R. R. H. Kenner—11
B. Lester	R. Harstone
Clark	Goodwill
R. H. D. Hall	W. D. Campbell
J. R. Burnham—9.	J.H.Ferguson—14
W. Menzies	G. Tovey
J. Davidson	Bowes
J. Montgomery	W. R. Tagbot
W. G. Morrow—7.	C. N. Brown—12

Tankard Rinks.

The following rinks will go to Toronto to compete in the primary competition for the Ontario Tankard;

D. Davidson,
W. J. Thompson,
Dr. Wightman.
J. H. Connal,
G. T. Reid,
G. L. Hay,
R. Caton,
Sam Ray.

These games will be played in the Granite Rink, Toronto.

Reported That Mr. Hossack will Succeed Mr. Mackay as Liberal Leader

Toronto, Jan. 18.—That Hon. A. G. MacKay, leader of the Opposition in the Ontario Legislature, will retire, and Rev. Donald Hossack, the former pastor of Deer Park Presbyterian Church, elevated to the leadership, has, it is understood, been determined on by the men who usually control the moves of the Provincial Liberal party.

That this will take place shortly after the legislature opens is the present plan. The great difficulty that confronts those behind the movement is Mr. Hossack's lack of a seat, but arrangements are under way, it is understood, to provide him with one by the resignation of one of the safest of the little band that still remained after the June tidal wave.

The defeat of Mr. Hossack last June in North Toronto put a crimp in the plans, but only for a time. With his entrance into the leadership, the chief cause of his selection, perhaps will it is understood, be the adoption of an advanced temperance plank that will probably go so far as to advocate prohibition for the Province of Ontario.

Mr. MacKay is said to have been displeased at having to play a lone hand during the last campaign. On his shoulders, it is said, fell almost entirely the work of preparing the campaign literature, and arranging the campaign itself. He fought with great vigor and practically alone.

His reply to the party was in the form of a rebuke administered last fall, when he stayed away from the annual convention of the Ontario Reform Association—to attend a local meeting of riflemen.

So far as can be learned, however, there was no effort at an overture. The Provincial Association went farther, and is said to have affronted their leader just before Christmas, when the regular quarterly allowance of $1,000 to him as leader was denied.

Blythe Children will be Taken to the Old Country

Toronto, Jan. 19.—The story of the death at Agincourt of Mrs. Walter Blythe, and of her husband's arrest on the charge of having so brutally murdered her, has aroused the small village of Hutton, Granawick, Yorkshire, near where Mr. and Mrs. Blythe spent their childhood, and where the families are well known. Mr. A. W. Consitt, a brother of the dead woman, is in Toronto to settle up his sister's affairs, and to take her two children, a boy and a girl, back to their parents' old home. Mr. Consitt was seen by a newspaper correspondent on his arrival in the city. Of the horrible tragedy he said he knew very little.

The Consitts, the family to which Mrs. Blythe belonged, are farmers and cattle dealers of wide reputation in Yorkshire, where they do business in all of the big cattle markets. Blythe's people were also farmers, until a short time ago, and the murdered woman and her husband knew each other from childhood. They were married about eight years ago and came to Canada two or three years after their marriage.

Asked if there were objections to the marriage, Mr. Consitt replied it was not favored by either family but he would not state the reason. As regards social standing he said the families were on about an equal footing. The Consitts did not, however favor the match, and it was not altogether to the liking of the Blythes.

Regarding the stories that Blythe had ill-treated his wife in England, Mr. Consitt said if there was any trouble between them then he had not known of it. Blythe might have abused his wife, but if this had been the case Mrs. Blythe had kept her troubles to herself, not even telling them to members of her own family. Mr. Consitt declined to talk further about the affairs of his sister and her husband till he had time to learn more of the crime and of their life in Canada. He will go to Agincourt today or tomorrow. He wishes to settle his sister's affairs and return home with her children as soon as possible.

St. Andrews's Won From Knox Boys

One of the biggest crowds that has ever witnessed a hockey match in an open air rink in this city, gathered at the Knox church rink last night to see the league game between Knox and St. Andrew's. Both teams were out to win and they played fast clean hockey and the spectators enjoyed the fun. Rev. H. J. Keith played point for Knox. He borrowed a pair of skates and as this was his first appearance on the ice this winter he put up a pretty fair argument for his boys, and it is the general belief that with practice he will be a source of strength to his team, materially as well as spiritually. One of the features of the game was the goal scored for Knox by Bartley with only two minutes to play, and one of his eyes bound up. Bartley made a rush from one end of the rink to the other and scored the only goal Knox got. The score at half time was 1—0 in favor of St. Andrew's, and 2—1 at full time in favor of the Saints. Mr. Harry Morgan made a very satisfactory referee.

The teams lined up as follows;

St. Andrews.		Knox
	Goal.	
Patterson		Crowe
	Point.	
McDonald		Rev. Keith
	Cover.	
Flanagan		Galley
	Rover.	
Stanton		Hillier
	Center.	
Rae		Bartly
	Right.	
Dormer		Reid
	Left.	
Currie		Stewart

May Apply the Three-Fifths Majority

Toronto, Jan. 19.—Does the present license law, which requires a three-fifths vote for a short cut to local option, permit a simple majority to win by the long route?

This is a question that is being discussed among those who legislate both in the government and opposition ranks.

The vote in Toronto on January 1, by which a majority of less than 1,000 will result in forty licenses being struck off the Commissioners' lists, has made the method of license reduction a live issue, and a change in the Act will be attempted at the coming session.

The change which may be asked will be a two-fold one; (1) to prevent municipal councils from reducing licenses in the absence of a popular vote; (2) to make a popular vote mandatory, but only when three-fifths of the votes are cast in the affirmative. If less than that, council shall be prevented from taking the steps necessary to reduction.

In other words, it is proposed to consider the reduction of licenses as partial local option and to have this conform to the same regulations as govern local option.

Those who are pressing this change point out that local option could be carried in Toronto by a series of reductions. From 130 to 110 in 1909, from 110 to 70 in some other year; next to 30 say, and then wipe out the 30. Thus, local option could be carried by the city council of itself, or, following the latest precedent, by a mere majority of the voters. This, it is argued, is unfair if the local option law requiring "three-fifths" is fair.

Under the present law the public vote on reduction is not mandatory, no matter what the majority. St. Catharines couples a position similar in Toronto where the licenses will be reduced from 19 to 12 as the result of a majority vote.

Horses Wanted

Mr. William Greer of Brandon, Man., is in the city for the purpose of buying three car loads of horses for Western Canada. Mr. Greer is one of the largest horse buyers in Manitoba. Mr. Greer is staying at the Cavanagh House and will be here about two weeks.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it?. Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

LASH FOR WIFE BEATERS

An Ontario Grand Jury, having to do with a case in which a man was indicted for beating his wife to death, brought in a strong recommendation in favor of the lash for wife-beaters; and the judge in the case, Mr. Justice Magee, heartily endorsed the recommendation. Public opinion can compel this addition to the wife-beaters sentence, if it will take the trouble. That public opinion would favor it, there can be little doubt. Ask the next ten men you meet whether they would like to see brutal wife-beaters get "the cat," and you will be convinced on this point. There is no other cowardly and cruel crime which so deeply stirs the indignation of the ordinary man. A wife-beater is a traitor, a violater of his word, a betrayer of the most sacred trust, an enemy of the family as an institution, a danger to society, a coward, a soulless brute, a thing without heart or conscience. He should not be allowed to add to his cruelty towards his wife by idling in prison while she starves. He should be made to work for her support while in jail, and have his term punctuated by the application of the lash. When a wife—beater comes up for a second sentence, he convicts our system of justice of utter inadequacy.

NAVAL PROTECTION FOR OUR FISHERIES

Sooner than anyone expected, there comes from the Pacific coast a demand by the Vancouver Board of Trade on Sir Wilfrid Laurier for some proper system of naval protection. The demand is nothing new, but it now is reaching the acute stage, and instead before this of taking time by the forelock we have slumbered and still slumber while our citizens on the coast are plundered in their international rights by foreigners. With daring impudence and laughing contempt the three-mile limit is totally ignored.

The foreigner practically says to us: "Well, what are you going to do about it?" and the weak patrol on the Pacific we call protection is there only to show its stern, and run away to tell the tale of trespass. How long is this going to last? Is it not far better to expend money an dprotect our rights than to expend money in getting compensation? Apart from all else, the maintaining of our rights commands the respect of other nations and preserves our own. But to look on and see our properties and our rights filched from us to-day is being done on the Pacific coast, and then to demand national compensation for encroachment, is to invite national censure, first, for being too small to protect our own rights, or, secondly, for adopting back-door methods in obtaining compensation. The vigilance of the Canada on the Atlantic has saved our name to some extent, but from all accounts the protection on the Pacific invites a laugh all round. Canada must do something, and whilst about it we should combine protection with naval defence. If we had a cruiser of the speedy class at Esquimault there would be no flaunting of foreign poachers, and our rights and properties would be held intact for our own people. There is nothing "infra dig" in putting a naval defence to this use. The ships of Great Britain continually drop anchor to warn off foreign thieves, and Canada will save money in preserving its properties by a metamorphosis in which suitable defensive cruisers replace the present admittedly inefficient vessels. We suggest the Spendy class because it is well within our means. But we do not pretend to a sound knowledge of detail. That should be left to Rear-Admiral Kingsmill, who comes to us with a reputation for honor and efficiency which should exempt him from the carping influence of partyism, and procure for him a practically "free hand" within our means. It is well, however, to consider detail, because it is the omission to do so which blinds many to what Canada really wants, and what she really wants is to be gauged by Kipling's words. "We defy not, but defend."

If this motto is our guide, then it will be seen that the enormous outlay for a Dreadnought or an Invincible is as unnecessary as buying a shire horse to draw a sulky, and all they who "hold back" because of this outlay have their fears for nothing. The Speedy class to which we refer is a first-class cruiser with a displacement of 910 tons; horse-power 4,763; length, 330 feet, and beam, 37; maximum draught, 9 feet 7 inches. Her principal armament is two 4.7-inch quick-firers protected by steel shields, and her speed 20 knots.

THE PRESIDENT AND CONGRESS

The pugnacity of President Roosevelt is leading him into dire trouble in the closing months of his term. He is at war with both the Senate and the House of Representatives, in the latter case going so far as to accuse it of curtailing the secret service fund with the intent of preventing the investigation of wrongdoing by its own members. Both houses have resented his attacks as discourteous or insulting to two co-ordinate branches of the Government.

The Port Huron, Mich., Times, a well conducted and moderate Republican journal of many years' standing, has this to say of the embroglio:—

"It will be a matter for general regret among the people of the United States, that President, after one of the most brilliant and forceful administrations in the history of the nation, is likely to go out of office under Congressional censure. Upon nearly all points of public policy President Roosevelt has been right in the estimation of the majority of voters; but all will acknowledge that some of his public utterances have been injudicious and even intemperate in their language, although right as to fact and principle.

"Washington despatches say that the Senate as well as the House is likely to put the stamp of disapproval upon the President's treatment of Congress, even to the extent of holding up or rejecting some important Executive appointments. In some cases rejections will be on the ground that the men nominated are unfit to hold offices for which they have been designated by the President.

"The Senate will also join with the House in a thorough investigation of the secret service and the methods that have been employed in carrying on its work during the Roosevelt administration.

Rightly or wrongly, it is evident that Congress is up in arms against the President. The feeling that exists among Congressmen has been growing for years, and is little appreciate doutside of Washington. It is most likely, however, that in the end public opinion will be largely with the President, for the reason that, whatever mistakes he may have made in his dealings with Congress and members of Congress individually, he has been right upon the important issues presented, and more than any other President has promoted measures in the interest of the common people, of morality and of good government."

A Scotch laboring man, who had married a rich widow, exceptional for her plainness, was accosted by his employer: "Well Thomas," he said, "I hear you are married. What sort of a wife have you got?" "Well sir," was the response, "she's the Creator's handiwork, but I canna' say she's His masterpiece."

SEQUEL TO "CUDDLE DOON"

Wull I hae to speak again,
To thae weans o' mine?
Eight o'clock and weel I ken
The schule gangs in at nine.
Little haud me but tae gang
And fetch the muckle whup;
O, ye sleepy heidit rogues,
Will ye wauken up?

Never mother had sic faught,—
No a moment's ease!
Cleed Tam as ye like, at nicht
His breeks are through the knees;
Threed is no for him ava'
It never hauds the grup;
Maun I speak again, ye rogues,
Wull ye wauken up??

Tam, the very last to bed,—
He winna rise ava',
Last to get his books and slate,
Last to roon awa',
Sic a limb for tricks and fun,
Heeds na- what I say;
Rab and Jamie—but thae plagues
Wull thae sleep a' day?

Here they come the three at ance,
Lookin' gleg an' fell,
Hoo they ken their bits o' claes,
BBeats me fair to tell.
Wash your wee bit faces clean,
An' here's your bits an- sup,—
Never was mair wiselike bairns
Noo they're waukened up.

There the three are aff at last;
I watch them fra the door—
That Tam, he's at his tricks again,
I count them by the score.
He's put his fit afore wee Rab,
An' coupit Jamie doon;
Coul dI lay my han's on him,
I'd mak' him claw his croon.

Noo to git my work on han',
I'll hae a busy day,
But losh! the house is unco quate
Since they're a' away,
A dizzen times I'll look the clock
When it comes roun' to three,
For cuddlin' doon or waukenin' up
They're dear, dear bairns to me.

Green Sickness

A DISEASE OF YOUNG GIRLS.

Interesting and Suggestive Advice that All Should Read.

Many mothers will echo the conclusion expressed in a very interesting and suggestive letter written by Mrs. Zacharia Pollard, of Grand Bay.

"It is one of the illusions of motherhood that once the diseases of childhood have been successfully passed a smooth road lies before their dear ones. Boys bruise themselves, or perhaps break a limb, but the physical history of the young girl, is subject to so many dangers, it is only when some great one has been successfully overcome that we realize how many dangers there are. My eldest child, a daughter, just as she had entered upon the sixteenth year, suddenly developed weakness, her color faded, some unpleasant heart symptoms indicated a lowered vitality of that organ, but strange to say she appeared plump. The bodily functions were obstructed, and a waxy or pallid, or yellowish skin gave her a ghastly look. The doctor's tonic failed to improve the symptoms, we decided to try Ferrozone so highly recommended in the newspapers. It was probably three weeks before any manifest change was noticeable, but once that Ferrozone checked the running-down process the upward advance was rapid. I suppose if I had neglected to give her Ferrozone she would have fallen into permanent ill-health, as it is I am deeply thankful that Ferrozone has completely restored my daughter to vigorous robust health."

No tonic so nourishing, as strength-giving, as Ferrozone. It gives you a grand appetite, brings fine color, a healthy glow to the cheeks. If this, you gain in weight. Think it over, Ferrozone is just what every person in poor health requires. Sold by all druggists, 50c. per box or six boxes for $2.50 Try Ferrozone today.

The History of Canadian Journalism

The volume just issued from the press entitled "The History of Canadian Journalism" is one of the most valuable historical works which have appeared in Canada for many years. Edited by a committee of the Canadian Press Association to commemorate that Society's Jubilee in 1908, it covers the entire field of the Dominion, and embodies many facts possessing an important bearing on the political and social development of the country. The book contains contributions from Mr. Goldwin Smith (formerly a vice-president of the Association), Mr. J. W. Bengough, Mr. John Reade, F.R.S.C., Montreal; Mr. J. E. B. McCready, Charlottetown; Mr. Arthur Wallis, Toronto; Mr. Robert Sellar, Huntingdon; Mr. J. P. Robertson, Winnipeg; Mr. A. H. U. Colquhoun, Toronto; Mr. R. E. Gosnell, Victoria, and Mr. J. K. McInnes, Regina. The record of the Maritime press, which dates from 1752, and that of Quebec, which began with the Quebec Gazette in 1764, are fully set forth. In a rapid survey of the Ontario press from 1793 to the present time Mr. Wallis includes the names of many notable newspapers and editors, and touches on many facts relating to public events. Mr. Gosnell contributes a paper on the British Columbia press, and this sketch is full of interesting material little known to Eastern Canadians. Mr. Sellar's reminiscences of Toronto journalism in 1854 reproduce with much fidelity the conditions of publishing in the early days of the Globe and the Colonist. The history of the Manitoba press is also a revelation of the growth of newspapers there, and the Journalism of Alberta and Saskatchewan is not overlooked. In the history of the Canadian Press Association, which was founded in 1859, there is a great deal of information not heretofore accessible about the early newspapers and editors of Ontario and Quebec, with short biographies of men of note like Hon. Thomas White, Wm. Buckingham, Hon. Jas. Young, Sir Mackenzie Bowell, David Wylie, and a host of others. The story of the society touches nearly the political life of Canada before and since Confederation, and is something more than the narrative of a private organization of interest merely to journalists. The book may fairly claim to be a notable contribution to Canadian history. It is copiously illustrated with full page engravings of Goldwin Smith, Sir Mackenzie Bowell, and Wm. Gillespy (founder of the Canadian Press Association), and half-tone photographs of editors like Messrs. Willison, Pense, Blackett Robinson, Geo. Pattullo, Dr. Dewart, J. T. Clark, R. V. Somerville, T. H. Preston, Wm. Buckingham, H. P. Moore, M. A. James, Col. J. B. MacLean, John A. Cooper, Robert Holmes, W. S. Dingman, D. McGillicuddy, H. J. Pettypiece, J. S. Brierley, Wm. Watt, C. D. Barr, the late John Cameron, E. Jackson and many others. The book is fully indexed both in respect of names and events. There is a list of the officers of the Canadian Press Association from 1859 to 1908, and a membership roll which includes over 400 names of the active members of the press of to-day. The book is handsomely printed and bound with gilt tops, in the best modern fashion. Each copy is sold for two dollars, with 15 cents extra for postage, and orders may be sent care of Mr. John R. Bone, Secretary of the Canadian Press Association, Star Office Toronto.

Found in Museum

Paris, Jan. 19.—The curator of the museum at Versailles a week ago removed from the lycee a dirt-covered portrait of a woman, which had hung neglected for many years. The painter and the subject were alike unknown. When cleaned it was found to be a portrait by Nattier of Marie Leczinska, the wife of Louis XV.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior.

THE TIMES' FINACIAL PAGE---OF INTEREST TO THE CANADIAN INVESTOR

Cosgrave's Beer

Wordsof praise have ever prevailed in advertising "copy." That a producer should wax enthusiastic over his own wares is but human. But it's the praise of the consumer that counts—and it is to a discriminating and critical public that "Cosgrave's" refers you.

It is safe to say that no product, of any kind, enjoys a more enviable reputation than does this same Cosgrave Beer of Toronto in markets where it is offered.

Its self-evident honesty of purpose, purity, brilliancy, body, and every other attribute that goes to make a perfect beer are ever in evidence.

Cultivate the "Cosgrave Habit"— Watch for the name—ask for any of these brands: Half-and-Half, Pale Ale, XXX Porter.

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash value in exchanging any of them for stock in a live mine.

Here is your opportunity for changing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery is installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 10 years more.

Write me, giving full information of what you have to exchange.

Mail Contract

Sealed Tenders addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 15th February, 1908, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, sixty-two times per week each way, between Peterborough and Canadian Pacific and Grand Trunk Railway stations from the 1st April next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Peterborough and at the Office of the Post Office Inspector at Kingston.

Post Office Department, Mail Service Branch, Ottawa, 8th January, 1908.

G. C. ANDERSON,
Superintendent.

News in Brief

Chicago, Jan. 19.—What is claimed to be one of the largest wedding cakes ever made for actual use will receive its finishing decorations to-morrow in the kitchen of the Grand Pacific Hotel. It will then be sent by express to Hamilton, Ont. The cake is nearly six feet in height, five feet in diameter at the base and weighs practically a quarter of a ton. It will be served at the wedding of Charles F. McColm, of Montreal, Iowa, to Miss Alice Davis, daughter of William R. Davis, collector of Customs at the port of Hamilton, Jan. 27. There are to be six hundred guests at the wedding reception and Mr. McColm gave Frank Ottis, steward at the Grand Pacific, instructions to make the largest wedding cake this country had ever known.

London, Jan. 17.—Miss Violet Gordon Charlesworth, the alleged heiress, whose mysterious disappearance a short time ago caused a great deal of excitement, because of her remarkable career and her intimate associations with extensive stock deals, has been found and identified at Oban, Scotland.

It was reported that Miss Charlesworth, who lived with her parents in Regura, St. Asaph, Wales, was killed while automobiling in the neighborhood of Penmaenmawr, with her sister and the chauffeur, about two weeks ago, but the truth of the story was doubted. A day or two ago a torn telegram addressed to Violet Charlesworth was found in a room in a hotel at Tobermory, Scotland, and it was ascertained that the occupant of the room who answered the description of Miss Charlesworth, had gone to Oban. She was located there to-day.

Mr. P. J. Moran, who for the past week has been the guest of his brother, Mr. J. T. Moran, George St., has returned to his home in New York City.

Will Abolish the Bar-Maid in New Zealand

London, Jan. 18.—A Wellington despatch says that a meeting in Auckland of the Brewers' and Licensed Victuallers' Association, representing all the wholesale trade, and nearly every member of the retail trade, it was unanimously resolved to abolish barmaids and private bars, and raise the age limit of youths who may be supplied with liquor from 18 to 21. No woman will be supplied liquor for consumption on the premises unless she is boarding in the house.

The doctrine that temperance is the foundation of national prosperity and efficiency was enforced. Sir V. Horsley, speaking at the Whitefields Tabernacle yesterday, asserted the desirability and practicability of a high license, which would most certainly reduce the number of public houses, as he had seen in Canada.

The Paris correspondent of the Canadian Press wires that Hon. W. S. Fielding arrived yesterday, and will continue negotiations respecting the Franco-Canadian treaty. Mr. Fielding returns to London in a few days, and will sail immediately for Canada.

An Increase for All the Civil Servants

Ottawa, Jan. 19.—It is expected that the parliamentary estimates at the approaching session will contain provision for a substantial increase in the scale of Civil Service salaries, based on the large increase which has occurred within recent years in the cost of living. This increase, if granted, will not be on any percentage basis, but will be in the nature of a flat bonus addition to the salaries of public servants of all classes. The amount of the bonus will be the same to those who are in receipt of $600 a year as to those who draw $2,000. It will be a flat rate all along the line. This principle has been adopted as the fairest one to all concerned. To the low salaried men this will mean an increase considerably larger than they would have received under the recommendations of the Courtney Commission; but to the higher salaried officials the percentage may not be quite as large. However, all will share in the advantage of what is now proposed, and where the man is at the top of his class and could not receive the amount class and could not receive the full amount of the bonus without carrying him into the next class above, the minister of the department will make special enquiry so that if promotion into the next higher grade is permissable it will be made.

All the details of the Government's policy in this matter are not yet agreed upon, but it is expected that an announcement will be possible at a very early stage of the session.

The Civil Service Association, through its president, vice-president and secretary, had an opportunity of presenting the claims of the service to the Prime Minister in the form of a memorial on Saturday. Sir Wilfrid's reply was sympathetic and the members of the deputation are said to have been quite satisfied that their representations would receive the favourable attention of the cabinet. Mr. H. B. McGiverin, M. P., accompanied the deputation of the Civil Service Association which waited on the Prime Minister, and it is known that Mr. McGiverin has been active for some time past in pressing this whole matter on the notice of the Government.

A 4,000-Mile Journey

King Gustav of Sweden has honored Sven Hedin, one of his most distinguished subjects, by conferring on him a medal for his explorations in Tibet. It was in 1890 that Dr. Hedin first applied himself to the task of solving some of the geographical mysteries of Central Asia. His journey through Khorassan and Turkestan established his fame as a scientist, and marked him as one of the hardiest and most intrepid of explorers. The account of his penetration of Tibet will add to his great reputation, for, as the London Times says, the traveler in that country must reckon upon encountering a more daunting combination of difficulties interposed by man and by nature than is now to be found in any other quarter of the globe, with the possible exception of the interior of Arabia.

THE OLD ORDER CHANGETH.

Dr. Hedin says, however, that the difficulties are not now so great as they were on the occasion of his previous visits. Contact with the outer world, due to the Younghusband expedition to Lhasa four years ago, has had its effect upon the exclusive Tibetans, and although the Lamas try to discourage intercourse with the foreigners, the people of Tibet dare not use their old-time methods of blocking the investigations of curious outsiders. However, there is little in the nature of a welcome for the explorer in Tibet. In their journeys to the Far North Arctic adventurers can usually count on the friendliness of the natives, and often on their active co-operation; while the explorer whose path lies among the head hunters or anthropophagi is frequently delighted by beautiful weather. But there is no compensation, either in nature or human interest, for the Tibetan explorer. The cold is bitter. Food is scarce, and little or no assistance can be looked for from even those Tibetans who are not actively hostile.

THE GREAT DISCOVERIES.

Dr. Hedin sums up the results of his Tibetan discoveries as follows:—

"My great discoveries are:—First, the true sources of the Brahmaputra and Indus, and the genetic source of the Sutlej east of Mansorawar Lake.

"Secondly, the exploration of Bongba, which I traversed twice by different routes.

"But the greatest of all is the discovery of that continuous mountain chain, which, taken as a whole, is the most massive range on the crust of the earth, its average height above sea level being greater than that of the Himalayas. Its peaks are 4,000 feet to 5,000 feet lower than Everest, but its passes average 3,000 feet higher than the Himalayan passes. The eastern and western parts were known before, but the central and highest part is in Bongba. Not a tree or a bush covers it; there are no deep-cut valleys, as in the Himalayas, for rain is scanty. The absolute heights remain to be calculated from observations made on the ten passes which I crossed."

There is no doubt that this is a correct estimate of Dr. Sven Hedin's discovery, which will excite the highest interest of geographers. He proposes calling the chain the Trans-Himalaya Range, a name which meets with the approval of the Viceroy, as one of the first to hear the extent of the discovery.

A 4,000 MILE JOURNEY.

As a result of the journey which began on Dec. 4, 1907, and is only now properly concluded by the return of the explorer to his native land, Tibet ceases to be an unknown land. The new map of the country which will be prepared from the drawings and calculations made by Dr. Hedin, will be of 900 sheets. All the heights of the passes, the river crossings, and the encampments are recorded. A hundred astronomical points have been fixed, and several thousand panoramas have been taken with compass bearings and names. The explorer has brought back photographs, pencil drawings and water colors. Meteorological observations were made three times daily, and the explorer has geological specimens with the dip and fall of the rocks from 1,200 different points. It may be worth noting that considerable gold has been found in Tibet, but the well known veins are owned by Tibetan officials. The whole journey covered 4,000 miles.

THE OPEN ROAD.

What good is the country now that it has been penetrated? is a question that may occur to the practical Canadian. Of course, it is impossible to forte! what mineral treasures may be locked in the mountain bosom of Tibet. Leaving these out of the question, it is not likely to be the scene of a large immigration movement. The explorer encountered 40 below zero weather, and traveled for more than two months without seeing a sign of life. Tibet is of present use chiefly as a road. Across its once guarded passes move the caravans between India and China. It was of the utmost importance to British Asiatic policy that this great highway should be kept open. Otherwise the land is of interest to only the most enthusiastic of explorers and geologists.

Beauty Doctor Ends Life at Coney Island

New York, Jan. 12.—John H. Woodbury, who once widely advertised himself as the mender of ugly faces, and the manufacturer of beauty soaps and lotions, committed suicide this morning in the room he had been occupying in the Sanscliffe Inn, Coney Island, since the hotel had closed at the end of the Summer season. He shot himself twice with a revolver, and left no note or other message to indicate what had caused him to take this life.

Woodbury, who was 56 years old, came to New York from Salem, N. H., when he was a young man, and engaged in various businesses with more or less success during the early years of his career. About 15 years ago he began the manufacture of soaps, and later he instituted the John H. Woodbury Dermatological Institute, and the first of its kind to be attempted. Here Woodbury is credited with having done a big business, straightening noses, removing wrinkles and shaping ears, and other features of disordered countenances.

About five years ago the County Medical Society began to get after Woodbury for advertising to practise medicine without being a duly registered physician. Before suit was brought he sold his firm to another company, which continues to do business under the same name. Later Woodbury opened a rival beauty hospital to the one he had established. Although his business seems to be in no jeopardy, and Woodbury was counted a rich man, he had experienced several vicissitudes recently which may have caused him to take his life.

Woodbury was married, but his wife has been separated from him for some time. It was said to-day.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one done and be convinced. Box 25c. Sold by all dealers.

Tragedy Darkens World of Fashion

London, Jan. 17.—According to an expert therein, who writes to-day, a terrible tragedy has darkened the world of fashion, for the report has gone around that the waist will be defined in the new spring models. This expert, who has just returned from the French capital, says Paris is extremely mysterious in regard to the spring models. Numerous small dressmakers are weeping about the gay city wondering the autocrat of fashion has On everyone's lips is the or or no waist. They must awaits in patience for t inspira. The many fashion shrines London maint went so far skirts w of the Mo

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the stomach, nor stimulate the Heart or Kidneys, Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give universal preference. A test surely tell. Sold by all deale

Indigestion

Stomach trouble is but a symptom of, and is in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases. They are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

"ALL DEALERS"

Hard at Work on Big Ice Palace

Montreal, Jan. 19.—Mr. Ed. Sheppard, chairman of the Carnival Committee, states that the work on the ice palace on Fletcher's Field is progressing nicely. Upwards of 70 men are now engaged in the work of laying the foundations, among them a goodly number of masons. The ice now being hauled in an average of 18 inches in thickness, and beautifully clear. Arc lights are being placed in position, so that full advantage of frosty nights can be taken, and the work advanced with all rapidity. Four derricks for handling the blocks of ice are now being put in position, and Contractor Thackeray promises the palace completed by the 5th of February.

The Carnival Committee wish it understood that there is but one official programme. A number of canvassers have been about the city soliciting the advertisements for the official programme, which, for a matter of fact, they do not represent, and business men are finding out too late that they are signing contracts, and giving their money, under a misapprehension.

Will Live to be 100 Years Old

Cleveland, Jan. 19.—Dr. H. Biggar, physician and close personal friend of John D. Rockfeller, denied to-day a report that Mr. Rockfeller was suffering from rheumatism. He said Mr. Rockfeller was enjoying perfect health.

"He will live to be a hundred years old," said Dr. Biggar, "by these simple rules: First, he avoids all worry; second, he takes plenty of exercise in the open air; third, he never overloads his stomach, and always gets up from the table a little hungry. If men would follow Mr. Rockefeller's physical methods we would all be young at seventy."

United States Army withdraw from Cuba

Havana, January 19,— On January 28th, at noon, the Cuban people will come into their own for the second time at the hands of the American Government. Appetite Gone—Nerves Badly Run Down

A Strong Moral Well Exemplified In Mrs. Wilson's Case.

Like thousands of other people at this season of the year Mrs. E. P. Wilson was tired and worn out—winter nearly tried her health and vigor. But now she is robust and well, eats well, sleeps well, feels invigorated and braced. "For some years," writes Mrs. Wilson of Watmore, P.O., "I suffered from systematic weakness, billiousness and depressing headache. I could take little nourishment and grew thin and pale. If I ate a hearty meal the result was dreadful. Pains started at my chest, and spread all through my body going across my stomach, back and right side. I was discouraged till a friend insisted on me taking Dr. Hamilton's Pills. They made a new woman of me, and for the past eight months my health has been perfect. For a good cleaning, rejuvenating medicine I urge every one to use Dr. Hamilton's Pills."

There is extraordinary and magic power in Dr. Hamilton's Pills; they bring, vigor, tone, health and spirits—are compounded from the most wonderful and healing juices and essences in vegetable life—are safe for young and old, and guaranteed to kindle renewed activity and strength of every system that is weak, sickly or run down from kidney, liver, stomach or bladder trouble. Get Dr. Hamilton's Pills of Mandrake and Butternut—today—25c. at all dealers.

Wanted

A respectable young woman wants a position as a housekeeper. Best references. Apply to A. Schendler, General Delivery, Peterborough.

Lost

Last night, brown stole, between Peterborough and Bridgenorth. Finder will please leave at Cavanagh's hotel.

Ladies' Aid

The Ladies' Aid Society of St. Andrew's church was entertained at the home of Mrs. Chas. McClelland, on Downie street last night. A large number of members were present and after the business part of the meeting was over a very pleasant evening was spent.

Euchre Contest

The monthly euchre party in the Conservative Club rooms was held last night when a large number turned out and took part in the contest. There was keen competition for the prizes.

Gowganda

The quickest and best route will continue to be via Grand Trunk and T. & H. C. Rys to Charlton, thence 18 miles by stage to Elk Lake and 33 miles Elk Lake to Gowganda. This route will enable stops to be made at Temagami, Cobalt Haileybury, New Liskeard and Englehart. Cobalt special leaving Toronto 10.15 p.m., daily, makes direct connection with stages reaching Elk Lake next afternoon.

Full information from W. Buntin, C. P. & T. A.

THE BEST FAMILY NEWSPAPER

An ideal newspaper for the American home must be habitually clean and high-minded, it must offer something of interest to every member of the family, and it must present daily the news of the world in authentic and readable form. A large contract, you will say. Well, the newspaper that comes nearest to filling it in the West is The Chicago Record-Herald. Its moral tone is always high, its news service is unsurpassed, and probably no other paper in the United States has so brilliant an array of special features suited to the tastes and needs of every member of the family. Business and professional men have long regarded The Record-Herald as the best paper for their own reading because of its unequalled faculty for getting all the news of the world in digutting it into the briefest possible form for the busy man. They also esteem it for the reliability of its financial, agricultural and market reports. Young men perhaps find its greatest attraction in the excellent sporting department, which fills four entire pages on Sunday and a page or more on other days. Wives and mothers emphatically prefer The Record-Herald on account of its well-conducted feminine departments—its daily recipes and menus, its daily fashion news and hints for home dressmaking. Mme. Qui Vive's pungent and sensible beauty talks, talks, Marion Harland's famous page and the rest of the good things that make up the handsome Woman's Section in the Sunday paper. Children enjoy the Little Nemo and other Comic Section pictures, with the bright stories for boys and girls every Sunday. And all the family together can enjoy the interesting travels and special articles of William E. Curtis, Mr. Kiser's humor and verse, the serial stories and many similar features outside the news columns. The Chicago Record-Herald has every right to call itself the best all-round family newspaper in the West.

Personal

Mrs. Anson Sperry will not receive today.

Mr. Sidney Stirke, of Peterborough, is visiting Mr. W. H. McCallam Dale.—Port Hope Guide.

Miss Fanny C. Brandon, of Fenelon Falls, is the guest of her aunt, Mrs. W. H. Robertson.

Mr. Harry Lush of Peterborough, spent Sunday at the home of Mr. T. McGibbon, Sherbourne street.—Port Hope Guide.

Remains of Father O'Connell Laid to Rest

The funeral of the late Father O'Connell yesterday was very largely attended, people coming from a very long distance to pay their last respects to the deceased priest. The funeral took place from St. Joseph's hospital, and thence to the cathedral where high mass was celebrated by Father Hogan of Kingston, the sermon being preached by Father Dancey of Toronto. The pall bearers were Father O'Connell, of Warkworth; Father O'Sullivan, Victoria Road; Father P. McGuire, Father M. McGuire, Father O'Leary, Father Phelan, of Young's Point. Most of the priests of the diocese were present, among them were, Father Conway, of Norwood; Father Kelly, of Douro, Father Murray, of Cobourg; Father Scanlon, of Grafton. Father Fitzpatrick was here Monday, but was unable to be present on account of a wedding that he had to perform. Father O'Connell's sister, Mrs. Donoghue with her children, was present also.

The master of ceremonies was Father O'Reilly, who is private secretary to Archbishop Gauthier, of Kingston.

There is no Quinine, nothing whatever harsh or sickening in Preventies. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste, Preventies please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventies—25 cents. Ask your druggist. He knows. Sold by all dealers.

Obituary

FREDERICK FITZSIMMONS.

The many friends of Mr. and Mrs. Fitzsimmons will be sorry to hear of the death of their infant son, Fred, who died Monday night. He had only been ill a few days with pneumonia.

The funeral will take place this afternoon at three o'clock from the home of the parents, 556 Aylmer street, and proceed to St. Peter's cemetery, for interment.

WILLIAM BELL.

At his home in Smith, the death took place of Mr. William Bell, at the age of of 80 years. Mr. Bell was the only surviving son of one of the oldest settlers in the township of Smith, Mr. Matthew Bell, who settled there in 1820. He had been ill for the last few months when death carried him away on Thursday. He is survived by one son, Matthew, who is residing on the old homestead, and one daughter, Miss Ellen D. Bell, who kept house for her father.

The funeral was held on Sunday and proceeded to the Selwyn Cemetery for interment.

Knox Company will Have Store Here

The S. H. Knox Company will open a branch in Peterborough about the first of February. It will be a five, ten and fifteen cent store, and will be located in the north half of the premises occupied by Merrill and Meredith on George street. The latter firm is retaining the south half for their own business.

The Knox Company has branches in the leading cities of Canada and the United States. Only goods that sell at five, ten and fifteen cents are carried.

Her Mother-in-Law

Proved a Wise, Good Friend

A young woman out in Ia. found a wise, good friend in her mother-in-law, jokes notwithstanding. She writes:

"It is two years since we began using Postum in our house. I was greatly troubled with my stomach, complexion was blotchy and yellow. After meals I often suffered sharp pains and would have to lie down. My mother often told me it was the coffee I drank at meals. But when I'd quit coffee I'd have a severe headache.

"While visiting my mother-in-law I remarked that she always made such good coffee, and asked her to tell me how. She laughed and told me it was easy to make good 'coffee' when you use Postum.

"I began to use Postum as soon as I got home, and now we have the same good 'coffee' (Postum) every day, and I have no more trouble. Indigestion is a thing of the past, and my complexion has cleared up beautifully.

"My grandmother suffered a great deal with her stomach. Her doctor told her to leave off coffee. She then took tea but that was just as bad.

"She finally was induced to try Postum which she has used for over a year. She travelled during the winter over the greater part of Iowa, visiting, something she had not been able to do for years. She says she owes her present good health to Postum."

Name given by Postum Co., Battle Creek, Mich. Read, "The Road to Wellville," in pkgs.

"There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

Wedding Bells

McMANN—RUTHERFORD.

A quiet wedding was solemnized at the home of Mrs. A. Rutherford, Mount Pleasant, on Wednesday afternoon, Jan. 6th, when her daughter Mabel was united in marriage to Mr. David H. McMann of Rearboro. The ceremony was performed by Rev. Mr. Johnston, Millbrook. Little Miss Ethel Howard, Toronto, cousin of the bride, acted as maid of honor. The Wedding March (Grieg) was played by Miss Nettie Rutherford, sister of the bride. After the ceremony and the receiving of congratulations, the party repaired to the dining room where a sumptuous repast was served. The happy couple took the evening trains for points west. On their return they will reside in Rearboro.

WESTON—FRASER.

On Saturday, January 16th, at the home of Mr. James Shields, 169 Darling street, a wedding took place, when Miss Alice Pearl Fraser, was married to Mr. Harold Weston, the second son of the late J. Weston of this city, in the presence of a large number of friends. The clergyman, was Rev. Mr. Caswell of Colborne St., Methodist church. The young couple were unattended. The bride was given away by her father and wore a gown of white point desprit over white liberty satin in Empire effect. The veil was of tulle, crowned with lillies of the valley and the bouquet was of bridal roses and lillies of the valley. Mendelssohn's wedding march was played by the bride's sister, Miss Viola Fraser of Peterborough. The room in which the wedding took place was decorated with palms, ferns and carnations. After a wedding trip to Boston the young couple will reside at 169 Darling street.—Brantford Exposition.

FITZGERALD—CAHILL.

Yesterday morning at St. Peter's Cathedral the marriage took place of W. J. Fitzgerald, O.L.S., C.E., son of late J. W. Fitzgerald, and Agnes, third daughter of the late Thomas Cahill, collector of Inland Revenue. The ceremony was performed at 7 o'clock by Rev. Father McColl, rector of the Cathedral, in the presence of a large congregation. The bride was escorted by her brother-in-law, Mr. J. J. English, of Hastings. The bridesmaid was Miss Amelia Cahill, sister of the bride, and Mr. William Grady performed the duties of best man. At the conclusion of the ceremony the wedding breakfast was served at the residence of the bride's mother, 481 Gilmour street.

Mr. and Mrs. Fitzgerald took the midday Canadian Pacific express for Montreal, en route to Buffalo, New York and the south. On their return they will take residence in the city. The bride is one of the most popular and amiable ladies in Peterborough, and the husband stands high in the esteem of a large circle of friends, who will unite in wishing them both a long and happy wedded life.

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs quickly yield to the healthing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Containing no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge. Sold by all dealers.

Will Have Banquet on Friday Next

An affair of interest will be the first annual banquet of the United Textile Workers local, 663 Peterborough. It will be held at the Grand hotel on the evening of January 22. A program of interest will be given.

President E. Coley will officiate as toastmaster. The toast list will be as follows;

The King; Army and Navy, Brinton Carpet Company, The Ladies, Our Visitors, The Land of our Birth, The Land of our Adoption, The Press, Our Host and Hostess.

The officers of the local union and the committee under whose auspices the banquet will be held are as follows,—

Pres.—Mr. Edward Coley.
Vice-Pres.—Mr. Alfred Giles.
Rec.-Sec.—Mr. Walter Hall.
Fin.-Sec.—Mr. Edgar Yarrington.
Committee—The officers and Messrs. David Ferguson, Emmott Stanefield, Henry Rew, George Skeldon, and Herbert Brown.

Presentation Made to Sunday School Teacher

The members of Mr. Isaac Richardson's Bible Class of the Charlotte street Methodist Sunday school, gathered at his home on Homewood avenue Monday night, and agreeably surprised him with the presentation to him of a pair of gloves and a silk scarf as a mark of the esteem in which he is regarded by his class. The presentation was made by Mrs. Thistlewaithe, while the following address was read by Mr. S. D. Carver;

"Dear Teacher;—We are gathered here this evening to give expression to a deep sense of our appreciation of your untiring efforts to instruct us in the Holy Scriptures.

For several years it has been our privilege to attend your Bible Class. We have noted your praiseworthy punctuality. We can always depend upon you being present.

We feel sure, judging from your able teaching of the lesson, that you devote a great deal of time and thought to their preparation.

We not only desire to express our gratitude for your past services, but at the same time to record our earnest wish and hope that you may long be spared to break to us the Bread of Life.

It is with pleasure that we ask your acceptance of this slight token of our appreciation of your valuable services, praying that you and yours may still be the subjects of the Heavenly Father's care and love.

Signed on behalf of the
BIBLE CLASS.

MILLIONS OF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Wasted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW wha it will do and we know that it will do what we claim for it.

You know what a cheap smelting process will mean to the mining industry all over the world. Miners as well as investors in mining stock must pay their share in unreasonable charges to some smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Oursmelter thus erected will save 85% in treatment, freight charges and hauling the ore to the railway. This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when her you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you In this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Praise for Miss Helen Davies

Miss Helen Davies, of Peterborough, scored a distinct success as soprano soloist in the cantata, "The Flag of England," which was presented by the National Chorus in Toronto last night. The Mail and Empire has the following reference;

"Sir Frederick Bridge's setting as a cantata of Kipling's "The Flag of England," was revived by the choir. Kipling is one of the most impossible of poets as a singable proposition, and Sir Frederick's military setting with its super-abundance of brass does not make him any easier, but the chorus climbed over the difficulties in fine fashion and was particularly effective in the charming lyric interlude, "Never the Lotus Closes." Miss Helen Davies, of Peterborough, whose powerful soprano voice, with its sweet and silvery timbre, is ever a delight, surpassed herself in the difficult declamatory passages of this ungrateful work. The fine quality of the organization in unaccompanied works was demonstrated in a delightful rendering of Lee Williams' setting of "The Peddler's Song," from "A Winter's Tale," and Leslie's "Lullaby" of life. As an added feature, the chorus "Thanks Be to God," from Mendelssohn's "Elijah," was given a most spirited rendering with a fine body of tone."

The Globe says.

The soprano soloist in "The Flag of England," was Miss Helen Davies, of Peterborough, whose bright, clear voice won her a gratifying demonstration.

Wholesale Smuggling

Montreal, Jan. 17.—Evidences of a wholesale scheme for smuggling Chinamen into the United States from Montreal was discovered here to-day, when Grand Trunk detectives found ten Celestials ensconced in a car booked as theatrical scenery for Albany, N. Y.

The detectives found the seal of a car in the freight yard broken and on entering the car found instead of the scenery a group of Chinamen supplied with food and water for their prospective journey. They were arrested on a charge of loitering and the detectives are now at work trying to find out who is behind the smuggling scheme. The Chinamen so far have refused to give any information.

There is no Quinine, nothing whatever harsh or sickening in Preventies. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste, Preventies please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventies—25 cents. Ask your druggist. He knows. Sold by all dealers.

"Yes, gentlemen," said the orator, "if I had the wings of the eagle, I'd spread them forth and soar the broad heavens, until stretched athwart the blue they held beneath their thrall the majestic waters of the rolling deep; I'd soar from mountain peak to mountain peak, across the dales and grassy plains. I'd onward sweep from the vast Atlantic's rockbound shore, westward, to where the grand Pacific leaves the western coast; from lake to gulf I'd wend my flight, and everywhere I'd sing the grand, inspiring word, Socialism, Socialism, Socialism."

"Oh, come off," cried the old campaigner from the rear seats." You'd be shot for a hen-hawk before you'd flew a mile."

First Meeting of the Eleventh Parliament Was Held Yesterday

Ottawa, Jan. 20—The first meeting of the eleventh parliament of the Dominion was held today for the selection of a speaker of the new House. The formal opening, with the reading of the speech from the throne, will take place in the senate chamber at three o'clock tomorrow afternoon.

Ever since the first of the week the new senators and members have been arriving in the city and becoming acquainted with one another. The lower house assembled at noon to afford its members an opportunity of subscribing to the prescribed oath, and also to receive from the clerk of the house, Dr. Flint, the formal message from the deputy of the Governor-General requesting their presence "in the chamber of the honorable the senate."

On proceeding to the senate chamber, at three o'clock the following message was delivered by the Deputy Governor, Sir Charles Fitzpatrick;

"Honorable Gentlemen of the Senate; Gentlemen of the House of Commons;

I have it in command to let you know that his excellency, the Governor-General, does not see fit to declare the causes of his summoning this present parliament of Canada until the speaker of the House of Commons shall have been chosen according to law; but, tomorrow, at the hour of three o'clock in the afternoon, his excellency will declare the causes of his calling this parliament."

The commoners will, thereupon, return to their own chamber to carry out the duty devolving upon them of selecting one of themselves to serve as the speaker.

There are about eight new members in the house, making over one-third of the total.

Mr. T. F. Matthews is the Chairman

At the first regular meeting of the Water Commissioners held Tuesday afternoon, Mr. T. F. Matthews was elected chairman of the board for the seventh consecutive time. He was first appointed chairman in February, 1902, when the commission was first organized, and has been re-elected to the position each year ever since.

The Water Commissioners will have a meeting with the Committee of the Whole Council in the course of a few days for the purpose of laying before them their scheme of a new dam and water pumping plant.

A part of the business of the meeting was the reception of the report of the work done during 1908, as presented by the superintendent, Mr. W. Henderson. It was as follows;

The total length of pipes laid was 9,360 feet, or 1 77-100 miles, in the following sizes and lengths;—10 4 inch, 1,062 feet; of 5 inch, 5,731 feet; of 6 inch, 1,508 feet; and of 8 inch, 527 feet. This is an increase over previous years of 1,295 feet. Stop valves set on pipe were laid to the number of 16 of the following sizes;—Five 4 inch, seven 5 inch, three 6 inch, and eight 1 inch. There were 227 new services laid, constituting 6,980 feet or 1 32-100 miles.

The total pipe distribution on December 31, was 162,171 lineal feet, or 30 71-100 miles, on which are set 213 hydrants and 261 stop valves. Total services on distribution are 2,463 in sizes from 1-2 inch to 8 inches inclusive.

At the dam the following work was pperformed; at east end crib work was raised 18 inches, filled with stone and gravel as protection against extremely high water. Repairs were made to apron and dam on upstream face of over floor and around were regravelled. Restricted forebay opening to wheel pits and constructed new set of stop log checks in forebay to east wheel pit. Renewed head timbers at rack and placed new rack (tamarack) in position. Removed decayed tops of lower boom piers and renewed same and repaired boom timbers where required.

W. HENDERSON.
Superintendent.

District Cup Games to be Played Here

Next Tuesday will be a big day in curling circles here as the district cup games will be played off in the new rink then. The skips for the two local rinks are R. Hicks and T. F. Matthews. Mr. Matthews' rink will be composed as follows;—M. Fyfe, D. Hall and P. Lang. Mr. Hicks will have Mr. H. Foote as his vice-skip, but the other two have not been selected.

The towns included in District No. 2 are Peterborough, Lindsay, Lindsay, Beaverton, Oshawa, Keene, Colborne, Fenelon Falls, Bobcaygeon, Lakefield, Bellevile and Port Hope. All these places will not have rinks here but there will be a good day's sport anyway.

Ontario Tankard.

Peterborough's Ontario Tankard rinks now playing in Toronto are;

Carton	Dr. Wightman
G. L. Hay	W. J. Thompson
T. Medd	D. Davidson

Got a Bye.

In the first draw for the Ontario Tankard for the games to be played yesterday morning, Peterborough drew a bye. They played in the afternoon, however.

MacBeth Class Has Been Cancelled

As Mr. Mowatt will be out of the city on educational business tonight his class in Shakespeare at the Y.W.C.A., has been cancelled for this week. Next week Mr. Mowat will give the concluding lecture on Macbeth, after which he will take up the development of the English novel. Anyone wishing to join Miss Ross' free class in wood carving, will kindly leave name at Y.W.C.A. Also Miss Nicholls class.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—50c. Sold by all dealers.

Farmers Refuse to Give Lease of Land

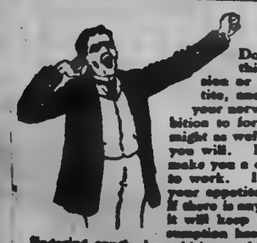
Mr. Chas. Dettman's gas and oil prospecting company will start at once to lease up lands between here and Lindsay. Mr. R. H. Leary in company with Mayor Rush, Ald. Bradburn and Ald. Gillespie made a final effort yesterday afternoon to lease the lands from the few farms who heretofore had held out, but they failed to make any progress. The farmers say no, and also that they will sign nothing to consider the proposition. That knocks the whole thing on the head, and throws the work of prospecting away back.

Mr. Leary had a letter yesterday from Mr. Dettman instructing him to start at once on the new block and get from 500 to 1000 acres leased up between here and Lindsay, and as near Peterborough as possible. Mr. Leary will follow instructions today.

Nine Skeletons are Unearthed

Windsor, Ont., Jan. 19.—The remains of nine bodies, presumably those of Indians, were uncovered near Taylor's Point in Sandwich today by workmen engaged in excavation work. Four of the skeletons were in a fairly good state of preservation.

It was near this locality in 1812 where the army of Gen. Hull and his American soldiers were encamped, and the same ground also marked a rendesvous of the Ojibways some years previous. With the skeletons were also found two stone drinking mugs, and a pipe.



Do You Feel This Way?

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Are your nerves all down, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce of Buffalo, N. Y., whose *advice is given free* to all who wish to write him. His great success has come from his wide experience and varied practice.

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good." Dr. Pierce's medicines are of known composition. Their every ingredient printed on their wrappers. Made from roots without alcohol. Contain no habit-forming drugs. World's Dispensary Medical Association, Buffalo, N. Y.

STREET RAILWAY COMPANY'S APPLICATION TO THE LEGISLATURE WILL BE OPPOSED

Board of Works Says the Road Must be Built to Young's Point This Year—Smith Street Bridge and Street Extension By-Laws Come Up Again—Twenty Mill Rate at Least This Year

The application of the Street Railway Company to the legislature for an extension of time in which to commence their road from the city to Lakefield, and then on to Young's Point, will be opposed by the city. The Board of Works took the matter up and every alderman was convinced that the company had already had all the time that was necessary and that they must get to work this year. The council will take the matter up and appear before the legislature.

The Board of Works met for the first time this year and put through a lot of business. The Smith street bridge will again be submitted to the people for consideration, but a new plan will be prepared and tenders will be called before the by-law is drawn up.

The Romaine street sewer will not be touched until the report from Mr. Chipman on the Park street outfall sewer is received.

The committee is bent on economy this year. Ald. Bradburn promised a 20 to 22 mill rate. A 20 mill rate is the lowest possible to be struck this year and the people will not stand for any further taxation.

The street extension bylaw for $21,500 will also be submitted again.

Those present were Ald. Phelan, chairman; Aldermen Turner, Gillespie, Bradburn, McIntyre, Buller and Duncan, and Mayor Rush.

Ald. Phelan in opening, stated that this was the first meeting this year and he hoped that everything would be as pleasant as last year. There were a few matters passed by last year's committee that did not come before the council. These were presented to the new board and were confirmed.

A letter was received from a number of teamsters notifying the committee that $3 per cord was not sufficient for drawing stone and asked that it be increased. The letter was signed by twenty-six teamsters.

On motion a deputation of the teamsters was heard.

Mr. Hickey stated that the teamsters considered it was too cheap to draw stone three or four miles for $3 per cord. In many cases they had to pay for the stone also. They thought that they should have $4 per cord, but would be satisfied with $3.50 per cord.

Chairman Phelan promised that the committee would give the matter their serious consideration.

Ald. Bradburn stated that before the committee went into the stone business they should wait until the estimates are struck and it is ascertained how much money will be available. The council this year is up against a 20 mill rate at least, and if a lot of stone is contracted for and road work gone on with the rate will go up to 22 mills.

Last year 1600 cards of broken stone were put on the streets at a cost of about $7000. The work was all necessary but the council has to economize some place.

Ald. Buller stated that there was a lot of stone down near the dam, and he recommended that the small crusher be put down there and used. All the rocks and granite stone can be had for nothing. It will save half the cost anyway.

The engineer and Mr. Evans will go into the stone matter and report at once.

Mr. T. A. S. Hay reported that the city would need some 600 cords of stone this year.

Ald. McIntyre was out for buying stone now, so that the teamsters could get busy.

SMITH STREET BRIDGE.

Ald. Phelan in going through the fyle came across the Smith street bridge communication. He said this was a matter which must be brought up and dealt with now. The people did not understand the bylaw at first and thought that it was being built expressly for the street railway company.

City Engineer Hay said that he was confident that his figures were correct. He had gone over the figures himself and with others who were judges. He said there was only about $300 difference between concrete and steel, in favor of the steel bridge.

The contractors who build cheap bridge come forward.

Ald. Buller made it in the form of a motion and it was seconded by Ald. Gillespie and carried.

ROMAINE STREET SEWER.

The engineer submitted the requirements for constructing the Romaine street sewer. These things will also be of use for other sewer works. The total cost would be $253.15.

Ald. Buller and Ald. Bradburn were opposed to touching the Romaine street sewer.

Chairman Phelan explained that if $18,000 was spent for a steel bridge, all that money would go to Hamilton, while a concrete bridge would mean that practically all the money would be spent in the city.

Ald. Buller said that this committee should have the engineer submit a plan for a cheaper bridge, and then advertise for tenders and let Romaine street sewer until the report from Mr. Chipman has been received as a much better fall may be had to the new trunk sewer that will have to be built on Park street.

Ald. Bradburn moved that no action be taken at present. This was seconded by Ald. Buller and carried.

STREET RAILWAY CO

Ald. Phelan said that he noticed the street railway company was applying for an extension of time for expending their road to Lakefield. The company had had a two-year extension already and this city should get busy and see that it is not granted unless the company is compelled to start at once on their road.

The city needs that road and the council should make representations to the legislature at once.

Ald Buller brought to the notice of the board that a new company was going to build from Cobourg to the Kawartha Lakes and might go to Havelock instead of Peterborough.

Ald. McIntyre moved that the city oppose the company's application for an extension of time.

Ald. Phelan informed the committee that the street railway company begins this year to pay one-half the cost of snow cleaning for the next five years. Heretofore the city has had to pay the full cost.

The street railway company's charter permitted them to run their line to Young's Point. They then got an extension of time and an extension to their charter to run to Stoney Lake. They were to commence the work by May 14th inst., and that the whole thing was to be completed in five years.

STREET EXTENSION.

That big item for $21,500 for street extensions which was defeated in January will again be submitted to the people at the first opportunity, and a full explanation given to the people that if it is not passed it will have to be paid for out of the current account which will mean a big increase in their taxes. When the citizens understand this the bylaw will be carried.

Official Report of the Inspection of Prisons

An official visit of inspection was made to Peterborough jail on Dec 28 h, 1908, when there were 18 male prisoners in custody, charged with horse stealing, larceny; drunkenness and vagrancy, 10 of the prisoners had been committed to the jail for vagrancy, and the majority of these were from the city of Peterborough. Unfortunately no provision has been made for the care of the old people by the city and it is deplorable that arrangements have not been made by the municipality for the care of its destitute poor instead of sending them to jail as criminals.

On inspection the general condition of the building, beds, bedding, corridors, cells, yards, closets, drainage and water supply were found quite satisfactory. The ventilation is not satisfactory, for the building is heated by old stoves. The arrangement for heating this jail is one of the worst in the Province.

The dietary is according to jail regulations, but on account of so many old people being sent in from the city of Peterborough the rations have to be better than the ordinary jail fare provides. This is as it should be, for these poor unfortunate oldpeople should always be provided with nourishing food, no matter what the cost is to the municipality for the same. The cost of rations for the past quarter was only 10 cents per day. The supplies are obtained by contract. There were no complaints in regard to the quality of the food supplied.

There were 20 suits of clothing in good condition of repair.

On examining the books the entries were found neatly and correctly made and up to date.

My visit of inspection impressed me favorably in regard to the discipline and management of this jail.

The attention of the County Council should be called by the sheriff at the earliest possible date to the necessity of a complete and thorough renovation in the court house and jail as far as the heating is concerned. The court house and jail should be heated from one central plant, and when this is installed, a much needed improvement will be carried out.

R. W. BRUCE SMITH.
Inspector.

December 28th, 1908.

Stop Sale of Black Bass and Protect Fisheries

A movement all along the line to stop the sale of black bass is reported in a paper from New York State, which is to be taken up at the convention of the North American Fish and Game Protective Association, and it promises to receive endorsation.

Sooner than anyone expected, there comes from the Pacific coast a demand by the Vancouver Board of Trade on Sir Wilfrid Laurier for some proper system of naval protection. The demand is nothing new, but it now is reaching the acute stage, and instead before this of taking time by the forelock we have slumbered and still slumber while our citizens on the coast are plundered in their international rights by foreigners. With daring impudence and laughing contempt the three-mile limit is totally ignored.

The foreigner practically says to us "Well, what are you going to do about it?" and the weak patrol on the Pacific we call protection is there only to show its stern, and run away to tell the tale of trespass. How long is this going to last? Is it not far better to expend money an dprotect our rights than to expend money in getting compensation? Apart from all else, the maintaining of our rights commands the respect of other nations and preserves our own. But to look on and see our properties and our rights filched from us to-day is being done on the Pacific coast, and then to demand national compensation for encroachment, is to invite national censure, first, for being too small to protect our own rights, or, secondly, for adopting back-door methods in obtaining compensation. The vigilance of the Canada on the Atlantic has saved our name to some extent, but from all accounts the protection on the Pacific invites a laugh all round. Canada must do something, and whilst about it we within our means. It is well, however, cure for him a practically "free hand" in preserving its properties by a metamorphosis in which suitable defensive cruisers replace the present admittedly inefficient vessels. We surwell within our means. But we do not [illegible] should be left to [illegible] defence. If we had a cruiser of the [illegible] class to come to us with [illegible] of particulars and precise information about which to demand reparation for honor and efficiency [illegible] Speedy class because it is ly drop anchor to warn off foreign thieves, and Canada will save money [illegible] should combine protection with naval speedy class at Esquimault there would be no flaunting of foreign poachers, and our rights and properties would be held intact for our own people. There is nothing "infra dig" in putting a naval defence to this use. The ships of Great Britain continuto consider detail, because it is the omission to do so which blinds many to what Canada really wants, and what she really wants is to be gauged by Kipling's words. "We defy not but defend."

If this motto is our guide, then it will be seen that the enormous outlay for a Dreadnought or an Invincible is as unnecessary as buying a shire horse to draw a sulky, and all they who "hold back" because of this outlay have their fears for nothing. The Speedy class to which we refer is a first-class cruiser with a displacement of 910 tons; horse-power 4,768; length, 320 feet, and beam, 37; maximum draught, 8 feet 9 inches. Her principal armament is two 4.7-inch quick-firers protected by steel shields, and her speed 30 knots.

34 Burned or Drowned Off Chicago's Harbor

Twenty-Six Men Were Also Injured in Fire at City's Water Works' Intake Crib--Fifteen Men May Have Smothered at Tunnel

Chicago, Jan. 20.—Thirty-four men are believed to have lost their lives in a fire which destroyed the intermediate water works intake crib, one and one-half miles from shore off 71st street, in Lake Michigan today.

Forty-five men were rescued by the tug Morford, 26 of whom were taken to hospitals.

Fifteen men are unaccounted for.

The estimate of the number of dead was made by John Wampopolel, one of the injured brought in by the Morford. He stated that a few might have escaped into the tunnel, where others were working, but he declared it almost certain that in this event they would die of suffocation or explosion of dynamite, which was stored in the bore.

A SUDDEN EXPLOSION.

Sixty men, twenty of them at work in the tunnel under the crib, a few moving about the structures and others asleep in their bunks, were suddenly confronted with death by an explosion which immediately wrapped the wooden structure in flames. Those who were not killed or injured by the first blast rushed out of doors to find no means of escape. On every side were the waters of Lake Michigan. A mile and a half distant near the shore at 73rd street lay the tug Morford. The last word received from the crib was tragic in its incompleteness.

"The crib is on fire. For God's sake send help at once or we will be burned alive. The tug—"

Then the telephone wire broke and the men on shore heard no more.

CLUNG TO CAKES OF ICE.

The tug immediately started to the rescue. From the deck of the boat it was seen that many of the men were seeking to escape by swimming. Some of them clung to cakes of ice for a time and then disappeared. The tug was finally able to get aboard forty-five men, many of them injured.

The crib is a temporary structure erected in the construction of a new three-mile tunnel into the lake for the ultimate purpose of adding to Chicago's water supply. It was used as the headquarters for supplies and sleeping quarters for the men. Ordinarily about seventy-five men were employed. They worked in shifts of eight hours each, eating on the premises and sleeping in the bunks with which the place was provided.

A telephone message from a neighboring crib at one p.m., stated that twenty bodies had been recovered from the tunnel. The report added that there were more bodies at the bottom of the shaft.

Great Campaign in Progress in Manitoba

Winnipeg, Jan. 20.—The Social and Moral Reform Association, supported by the Royal Templars, are conducting a Banish the Barroom propaganda throughout the Province, circulating petitions for presentation to the approaching session of the legislature. Not to be caught sleeping, the Licensed Hotelkeepers' Association are conducting a counteragitation, and petitions will be presented by a fighting delegation. The attack is being concentrated entirely on hotel licenses.

TOWN CLERK ARRESTED.

St. Boniface, Jan. 20.—The opera bouffe performances of the council are becoming more tragic, certain papers connected with the poll having been turned over to the town clerk, Joseph Laberge, including poll books, by Magistrate Turenne. He could not find them when wanted by the parties interested in the prosecution of the poll officers in connection with the alleged improprieties in the municipal elections. The mayor and seven out of eight councillors' rights to sit are being challenged in the courts. Accordingly, Laberge has been arrested and admitted to bail by Magistrate Turenne, though the latter refused to try him, he already being engaged in the case against Returning Officer Dussealt. Laberge is charged with stealing the documents.

Craik, Sask., Jan. 20.—Reuben Cook, aged 67, a veteran of the Civil War, homesteading twenty miles east of here, was found with his feet frozen badly on Sunday. He has not regained consciousness, and there is little hope for his recovery. He is a bachelor and came from Oklahoma.

Lancaster Moves to Abolish the Senate

St. Catharines, Jan. 20.—Mr. Lancaster, M.P., decided after all not to go to the Grimsby inquest, but instead to go to Ottawa for the opening of Parliament. His law partner Mr. Cruise, is representing the families of the victims at the inquest. On reaching Ottawa today, Mr. Lancaster immediately handed the clerk of the Private Bills Committee notification that he would present a bill before the house to abolish the senate.

Wedding Bells

WILLOCK—DANIEL.

A very pretty wedding was solemnized at the home of Mrs. Thomas Daniel, on January 6th, when her daughter, Ella E., was married to Arthur Bruce Willock of Fenelon. As the wedding march was being played the bridex entered the parlor leaning on the arm of her brother, the parlor being beautifully decorated with bells and streamers of white ribbon. The groomsman was Mr. Lourie Willock of Saskatchewan, cousin of the groom, while Miss Etta Black, cousin of the bride, acted as bridesmaid, and was dressed in beautiful blue silk. Little Misses Jean and Jennie Archer, nieces of the bride, acted as flower girls.

The bride was dressed in white silk with overlace. Her going away suit was mauve colored lady cloth, with hat and blouse to match.

About eighty guests were present, all being relatives of the bride and groom. Mr. J. R. Lillico, of New Ontario, who assisted Rev. G. W. Cragg, in performing the ceremony, is a nephew of the bride. Many from a distance were present, among whom were Miss J. A. Jayent of Lucknow, Mrs. Allen and Mr. and Mrs. W. B. Daniel of Toronto, Mr. and Mrs. John Nugent of Peterborough, Mr. T. G. Loudon of Queen's University, and Mr. and Mrs. Walter Ellis of Winnipeg.

The evening was spent in music and singing, which was much enjoyed by all present.

The young couple will reside in Fenelon.—Lindsay Post.

ADVERTISE IN THE TIMES.

Ministers Praise

CATARRHOZONE

Rev. D. K. Smith, of White Head, N.S., was cured of catarrh by Catarrhozone.

The following statement coming from one of Nova Scotia's prominent churchmen carries conviction of the fact that Catarrhozone is all right.

"For years I tried all the advertised remedies for Catarrh, but was unable to get relief until I used Catarrhozone. Before I had used the Inhaler half an hour my nostrils became free and clear so that I could breathe easily through them. In one day Catarrhozone helped me immensely, stopped my coughing and hawking and cured a dull pain that was continually over my eyes. I have great pleasure in recommending Catarrhozone. I have proved it the best remedy for Catarrh and diseases of the throat, lungs and bronchial tubes."

There is certainly no remedy that is so well spoken of by the clergy as Catarrhozone and this can be accounted for by the fact that it gives perfect satisfaction.

It is the only remedy that reaches all diseased parts and gives quick relief without bad after effects. Catarrhozone contains no cocaine nor morphine. It is nature's own remedy, soothing and healing, and pleases everybody that uses it.

Catarrhozone is a local and constitutional treatment. The inhaler clears the air passages, stops the headache, and Ferrozone Tablets that are included in every complete Catarrhozone outfit, never fail to drive impurities from the blood. This builds up and strengthens the system so that Catarrhal conditions cannot exist.

The speediest cure for Coughs, Colds, Catarrh, Bronchitis, and Asthma is Catarrhozone. Two months' treatment, price $1.00; medium size 50c; at druggists, or N. C. Polson & Co., Kingston, Ont.

Canada Cuba Land & Fruit Company (LIMITED)

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands.

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

A Good Proposition

The Maple Leaf Mines One of the Very Best

The Maple Leaf Mines, Ltd., with a capital of $150,000 is offering treasury stock at par 25c. This would seem a most reasonable proposition, and compared to other flotations is most favorable to the investor. Compared to the Pan Silver which has 130 acres of no better lands, and a capital of $3,000,000, the Maple Leaf with 160 acres and only $150,000 capital, would appear to give the investor a splendid show for his money. The certainty of finding shipping ore is equal, but the profit results would be much greater in the Maple Leaf.

It is an accepted fact that companies with a low capitalization, provided of course that their proposition is a good one, always raise sufficient funds to develop their properties. This is so because the investor buys the stock readily, thus saving the company large expense in advertising, etc. Companies of very large capital find it difficult to sell off hand the amount of treasury stock necessary and the result is that not sufficient funds are raised to carry out the proposed development.

Syndicates who purchase claims to exploit, usually fail because of internal dissensions, or the inability to raise development monies after purchase price has been paid. A lessening of interest in mining for a time leaves the syndicate shareholders high and dry. There is also in syndicates usually a lack of knowledge of real mining and soon the members become tired of their deal and if they cannot sell their interest, why they charge it up to profit and loss. It would seem better for the investors who as a rule have no idea of mining, to select some one of the good development companies, for their venture and to trust to their practical work to make him a profit.

The Maple Leaf Mines Ltd., certainly have good lands and with the class of men heading it should make a decided success.

In another column of this paper appears the advertisement of the Maple Leaf Mines, Ltd. The company have 40 acres in the now famous Coleman district and quite close to the Temiskaming and Gifford Mines. They claim to have surface showings that are far superior to the usual indications, and the officers of the company feel that slight development will prove these claims to be of great value.

These claims will be tested by diamond drill, and it would seem that this means would prove up the property very cheaply and in no uncertain manner. It is a fact that there are several veins that show on the surface, that at some depth should prove very rich. At Gowganda they have 62 acres, and these are situated well within the rich area. Little work has been done on these claims, yet sufficient evidence has been found to prove them very rich, at least on the surface. Work will be started on these claims at once, to fulfil the requirements and it would not be surprising if some additional big finds would be made. Already on one claim they have an 8-inch vein of black muck showing silver and when a pit is sunk on this it is expected that very high grade ore will be found.

This company will have the benefit of Mr. Chas. Gifford's experience in the Cobalt district, as he will in the interests of the shareholders, advise in all field work.

With the large and excellent acreage held by this company, its low capitalization should appeal to investors.

...The... Plow Woman

(Continued.)

homeward. Behind her the tall grass was running with the wind. She longed to run with it. Yet—

"I'll wait and wait," he said, "long as you ask, if it's years."

She retreated a few steps. "I must go now. Don't think I don't know what you've done for us—the suttee and all that. I'll remember it, but I got to go. Goodby."

"Good night, not goodby," he answered. "Can't I come this far and help you tomorrow with the hay?"

"No, no!"

"Let me send a couple of men, then."

"I'll do it alone. I'd rather. It's all in but this little bit."

"But please go slow. Don't wear yourself out, Dallas."

"If my work was all!" she said sorrowfully.

"If you would come here now and then to me, dear"—

"I'll never come again. This once I couldn't help it. Oh, I tried and tried! But next time I can. I'll think of Maryiya. Why, I'd give my life to make her happy!"

"But your love—that goes where it pleases."

"You won't come to see her?"

"It wouldn't help. But I'll be here every night."

She retreated again. He did not attempt to follow.

"Good night," she said.

"Good night; good night."

The moon was drifting up the eastern sky, and as she went her shadow pursued her. He watched until it blended with the shadow of the shack, then walked far to the left and laid out a beat that half circled the squat building.

"There's just one men I got to look out for," he said aloud. "It 'd be different if I had to worry about Indians."

That moment across the river in the lodge of Standing Buffalo the young chieftain was bending over an uncovered box, holding in one hand the shaft of an arrow, on the end of which was a piece of freshly killed dog; in the other hand he held a willow wand, sharpened. Beneath him, crawling and coiling and singing, were Lieutenant Fraser's rattlers.

The Indian kept the shaft to one side while he diligently prodded the reptiles with the willow. When he had enraged them so that they began to strike blindly at each other and at themselves he lowered the shaft and let them drive their fangs into the meat. And when they were spent with their anger and springing he covered the box and held up the flesh, which had turned from red to green and was dripping dark with venom. Then into it he began thrusting the points of a quiver of arrows.

CHAPTER XXXI.

A SMUDGE was burning at the center of the stockade. In its lee, to be safe from the swarms of pestering mosquitoes, sat the hostage braves. Their pipe smoke blended with the smoke of the fire. Their loud gibberish was broken only when shrieks of laughter followed a sally of wit. Their black eyes sparkled. Their white teeth flashed.

Before them were their squa, now romping with the favored dogs of the pack, now gathering to watch a wrestling match between a chosen couple, again lining the way while several raced down the inclosure.

The squaws and girls were also outside the lodges, the July night being hot. They cackled together to the windward side of the lordly males and did not approach except to throw more wet sticks upon the smolder.

The outcast watched the jollity from his dark corner and marveled at it, for were there not two tragedies threatening, either of which should properly lay hard upon the hearts of the village?

One was the nearing execution of the four condemned. Two sleeps ago, on the arrival of a runner from the absent cavalry, a wood wagon had hauled several loads of lumber to the site of the pony corral. From that lumber—it was said openly, and he had told it in sign language to the braves—was to be built a scaffold!

The other tragedy hovered in the person of Brown Mink. Since her lodge had been placed against the upper curve of the pen there had been much singing, conjuring, dancing and beating of drums. But to no purpose. Daily she wasted. She was dying!

He was not allowed to see her, to tend her fire or clean her kettle. When

(To be continued.)

Canadian Grocer and Ald. Gillespie

The Canadian Grocer has the following reference to Ald. Gillespie, in a recent issue;

After one of the closest races for aldermanic honors in the municipal history of Peterborough, Geo. A. Gillespie carried off first honors with a majority of ten over his next contestant. Last year he was a close second and by his work during the past year he has gained the confidence of the public in his ability to deal wisely with public matters, influenced only by the best interests of the people.

Ald. Gillespie is one of Peterborough's leading grocers, being in partnership in the firm of White & Gillespie. He was formerly a cheese maker at Central Smith factory, to the north of the city, and after a number of years' experience came to Peterborough, and has been particularly interested in dairying, their store carrying a special line of supplies for the manufacture of butter and cheese. He has been the largest cheese buyer on the local market during the past year and has been recently chosen as the representative from Peterborough district on the Board of the Eastern Ontario Dairymen's Association, having been re-elected to that honor, Ald. Gillpie is also vice-president of the Board of Trade of that city and altogether occupies a prominent place in the business and public life of Peterborough. He recently attended the convention of the Eastern Dairymen, Prescott. Ald. Gillespie will hold office for two years, being among the six securing the highest votes.

Mrs. Albert Dunford, accompanied by her daughter, Olive, left for their home, Fort Royal, Stony Lake, Tuesday, after a pleasant visit with her sister, Mrs. Jos. Batten, McDonel street.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the ailing would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skilful. I wrote them and got The New Method Treatment. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I am earning $31 and never lose a day. I wish all sufferers knew of your valuable treatment.

HENRY G. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

ADVERTISE IN THE TIMES.

THE TIMES' FINACIAL PAGE---OF INTEREST TO THE CANADIAN INVESTOR

Maple Leaf Mines, Limited

No Personal Liability

Authorized Capital, $150,000.00, Divided Into 600,000 Shares of 25 Cents Each.

DIRECTORS—Robert Curran, Publisher, Orillia, Ont., Pres.; J. J. Hatley, Merchant, Orillia, Ont., Vice-Pres.; J. Collins Davies, Broker, Orillia, Ont., Sec-Treas.; Charles Gifford, Mine Operator, Cobalt, Ont.; J. C. Ritchie, Agent, Toronto, Ont.

This company owns 40 acres of patented land in the southern part of Coleman, south of the Ophir, Gifford Extension, and Temiskaming Mines. The entire formation is Diabase, and by trenching across the property two splendid veins have been uncovered showing Calcite and Bloom.

Immediately adjoining the property on the west is the Ontario Development Company, who have recently discovered a very fine silver vein, the trend of which indicates that it crosses the Maple Leaf in a northeasterly direction. With these indications in the richest part of Coleman, it would be reasonable to expect very favorable development.

The attention of mining men has been recently directed to the new field at Gowganda, where some remarkable surface showings of silver have been located. Indications would warrant a very considerable investment in this district.

We have staked for the company claim M.R. 868, containing 40 acres, situated about 80 chains from the Bartlett, and adjoining other claims of great value.

The formation is Diabase and the discovery on our claims was made with little effort and is an eight-inch vein of decomposed vein matter showing good silver values. We believe that slight development on this claim would have warranted a capitalization of $1,000,000.

Claims like this are selling at from $10,000 to $1,000,000 each, surface indications being the basis of valuations.

On Calcite Lake we have staked claim No. 1869, containing 23 acres.

This claim is surrounded by claims th at have splendid native silver showings.

One of these rich veins crosses this fraction and forms the discovery of same. With a total of 163 acres, 40 acres of which are in the rich Cobalt field, 63 acres in the new Bonanza district, with 200,000 shares in the treasury, for development purposes, with no purchase price to be charged against same, it would seem that this proposition, based on a capitalization of $150,000, was the very thing you have been waiting for.

In order to comply with the Ontario Companies Act, we append the following information:

No special qualification for directors; minimum subscription for allotment, 50 shares; agreement between Charles Gifford and the company dated 18th December, 1908, and which may be inspected at the offices of H. C. Levesconte, 30 King Street, East, Toronto, Ont., solicitor for the company, provides for sale by Gifford to the Company of the properties, in consideration of 500,000 shares of the said Capital Stock to be issued to him as fully paid, and out of which he has set apart 200,000 shares to be sold and the entire proceeds thereof used for development purposes; no payment in stock or cash for good-will; usual brokerage of 5 cents per share may be paid; preliminary expenses estimated at $000; Gifford has sold at 15 cents per share, 2000 each to the said Curran and Hatley, 1000 to the said Ritchie, and 5000 to the said Davies; prospectus dated and filed with Provincial Secretary 16th of December, 1908.

Our claims are as good as the best, our capitalization the lowest, and our ability to develop to your profit is equal to that of any syndicate now operating.

These claims are excellently located, titles are perfect, and the development fund will be economically and properly expended. Is not this a better proposition than those of enormous capital?

The company reserves the right to reject any or all subscriptions.

A limited amount of this stock to be sold at par—25 cents.

Make your checks payable to Maple Leaf Mines, Ltd., and send same to—

Values for Your Investments

Have you any stock or other investments that have been slow or unprofitable?

And would you like to make a turn of them for new interests in a going proposition?

I can and will offer you cash values in exchanging any of them for stock in a live mine.

Here is your opportunity for bringing your undesirable investments up to date and making them as good as new.

My principal object in making this offer is to keep doing business, diversify my own holdings and not carry all my eggs to market in one basket.

The mine is on the California Mother Lode, where the finest quartz mining in the world is still found, and which is the original source of the one billion five hundred million dollars in gold that was weathered down and picked up in placer mining. The price of this stock is 10 cents per share.

Power and hoisting machinery is installed and paid for. Development work is done exposing a quartz ledge 20 feet wide at 170 feet depth, extending laterally and down indefinitely. Assays of this immense body of ore prove up a great mine. The usual mining risks are therefore practically eliminated.

I consider this a genuine opportunity for many persons to realize something now on mining stocks, industrials, real estate or city property, that have already waited long for results, and that may not be able to realize anything for 20 years more.

Write me, giving full information of what you have to exchange.

CALVIN ESTERLY,

717 Market St., San Francisco, Cal.

300,000 Italians Coming from Sicily and Italy

Washington, Jan. 29. — That one-quarter of a million of Italian laborers, most of them from Sicily and Calabria, will leave their native land within the coming four months, principally for the United States, as a result of the earthquake, is the remarkable claim made by importers of New York City in a brief filed with the House Committee on Ways and Means. These importers declare that the lemon-raising area of Italy will lose nearly 200,000 workers as a result of the earthquake.

"Normal conditions which, until Dec. 28th last, governed the production and exportation of lemons from Sicily, have been suddenly overturned. Nearly or quite 150,000 human lives have been suddenly destroyed, one-fifth being men, and largely of the laboring class.

"From our best advices we are assured that a quarter of a million will leave Italy during the coming four months, most of them from Sicily and Calabria.

"Facing the conditions now existing in Sicily, we solemnly assure your honorable body that unless the duty upon lemons is materially reduced the importation of the lemon has reached its end."

President Pat Powers Tells of His Plans

President Powers has sent a letter to the team owners in the eight cities of the Eastern League, of which Toronto is one. The letter contains much information that is of interest to the fans of that city.

In it is, for instance, the information that Mr. Powers will announce his 1909 schedule on March 1st, and also the further announcement that the pennant-winners of the Eastern League and American Association, who will meet to decide the supremacy of the Class AA leagues, will probably play one game in New York and one in Chicago, as well as several in each of the two cities interested.

Mr. Powers says in part:

"The ten-year agreement between the American Association and Eastern League, recently adopted in Buffalo, will be gone over again to perfect the document. Both the Class AA leagues will open their sessions and close them on the same days. The Eastern League's 1909 campaign will be ushered in on April 14th, and the schedule will consist of 154 games. I now am working on this document, and will have it ready by March 1st, when the Eastern League will hold its spring meeting in New York.

"There will be a post-season series of games for the championship of the Class AA leagues, these to be contested early in October, and to be under the supervision of a committee composed of two members from the American Association and Eastern League. If we can make arrangements, one of these games will be played in Chicago and one in New York. Last year such a series was impossible, because our season closed ten days in advance of the American Association."

Dam Mississippi to Furnish Power for Eastern Ontario

A deputation waited upon the Hon. Frank Cochrane to-day to ask the Ontario Government to dam the headwaters of the Mississippi River.

The request is not so remarkable as would appear at first thought, for it is the Canadian Mississippi to which the request refers. The dam would furnish power to Carleton Place, Almonte, Appleton, Blakeney, Pakenham, and Galetta.

The deputation, which was introduced by Hon. Adam Beck, consisted of the following:—B. Rosamond, ex-M.P. Metcalf, A. Jamieson, W. H. Stafford, J. W. Wiley, of Almonte; G. Moran, and B. McHugh, of Arnprior; J. B. Brown, of Carleton Place, and T. B. Caldwell and A. B. C. Caldwell, of Lanark.

Girls Wail for Mates

Chicago, Jan. 30.—Help! Here's a new wail from the Rosebud reservation in Tripp County, South Dakota. It's aimed at Chicago bachelors. Girls are in distress. There are two of them. They want husbands and by way of dowry have 160 acres of land each.

And the irony of it. Bachelors with claims of their own on the reservation are falling over each other in wooing these maids, for be it known they are about the only eligibles in the district. But not for these damsels. They remember the ardent wooers of their Chicago days and they are determined to have the right brand. Hence the Rosebud swains are in desperation and for days have been writing to Chicago for wives.

These girls, Rose Freeman, who is but 18 years old, and Blanche Bates, four years her senior, were the first of their sex to go to the reservation after winning claims. They yearn for husbands. So they have also written a letter to Chicago, addressed to William Carroll, 178 North State street, vice-president of the Rosebud Club. They inclosed their photographs.

GIRLS NOW HIRE MEN.

"We came out here to get the land given us by the government and to find husbands that were good and kind and true," says the letter. "We found good rich land. We hired men to work it. We built a house and are making money.

"But we are lonesome. We have suitors that would make the girls east of us jealous as far as numbers are concerned. Every man out here wants a wife. There are scarcely any women here but Indians. Some of the men have married squaws. But the majority want white wives.

"We are Chicago girls, and while the men here are nice enough, we want Chicago husbands. As you can see by our photographs, we are not 'undesirables.' We insist on good looking and young husbands of some business ability, who cannot only be good husbands, but who can carry out the work which we have started. Send letters and photographs to us at Dallas, S.D. It is a hard life out here, but we will make it pleasant for the right men."

George Sanders is one of the gallants who has written. He wanted a "sweet young thing" to take charge of his home for him.

HE DOES NOT BRAG.

"It is not much of a shack," he wrote but the woman who is willing to come will find a good and kind husband and not too much work to do, though things are still in the rough."

There are now twenty women in the Rosebud Club in Chicago. About half of them are married.

Frances Ranney, secretary of the club, who is 25 years and comely, laughed when asked if she were going West to seek a husband.

"I can get plenty of them here," she said. "But I have my claim out there, and I am going to take a look at it. If I should happen to find my affinity there, of course, I would marry him."

Dr. William Hogan, 5811 Wabash avenue, is already engaged. He has one of the best claims on the reservation and will try western life. His bride has agreed to go with him and he will spend his honeymoon on prairie lands building a new home.

Gruesome Find Made by Guy M. Smelzer

Seattle, Jan 30.—Clutching in his fingers a pocket handkerchief, to which the odor of chloroform still clung W. L. Seeley, a former Illinois bank examiner, was found dead, partly submerged in a bath tub beside the corpses of Mrs. Kate M. Seeley, his wife, and Miss Keene Seeley, their daughter. The heads of the two women had been crushed.

The gruesome find was made by Guy M. Smelzer and W. Shell, who forced an entrance to the Seeley home on Capital Hill shortly before 1 o'clock this afternoon. Mr. Smelzer was the fiance of Miss Seeley. The two women are supposed to have been murdered Thursday. Seeley is believed to have died on Friday.

Smelzer had talked with his fiancee over the telephone at 9 o'clock Thursday night, making arrangements to accompany her to a social event on the following evening. He called up the Seeley residence by telephone Friday, but received no answer. That evening he went to the house, but received no answer to rings and knocks. The following day Smelzer again tried to get into communication with his fiancee, but failed.

Accompanied by Shell, a friend, Smelzer went to the Seeley home this afternoon and forced an entrance through a window in the bedroom used by Mr. and Mrs. Seeley. Great blood stains were found on the bed, and a trail of blood was followed to the bathroom. Here the three bodies were found, the heads submerged in the tub half full of water. The women were in their night clothing. Seeley was partly dressed.

Seeley was 56 years old and formerly lived in Ottawa, Ill., His daughter was 22. They came to Seattle a year ago, and have maintained a high place in the best circles in this city.

Stop That Cold

To check early colds or fevers with "Preventics" some days before they appear is to prevent them. To check a cold with Preventics is quite sure to do it with a day or two. If you are obliged to come in contact with cold and grippy conditions you will save great suffering and discomfort by taking Preventics. Sold by druggists everywhere, or sent by mail on receipt of price by the Preventics Chemical Co., Limited, Toronto. Sold on your druggists guaranteed to please you or your money back.

Preventics

"ALL DEALERS"

Specialist was Baffled

Child Tortured with Eczema

When All Else Failed Zam-Buk Cured Her

Once again the unequalled merit of Zam-Buk as a healer of skin disease has been demonstrated, this time at Lunenburg Co., N. S.

Mr. D. G. Mossman, of that place, says:—"My little girl, now nearly three years old, when about four months of age began to be afflicted with eczema. I consulted a specialist who did his best for the poor little thing, but the disease baffled him, and after a long trial I was obliged to admit that his treatment was not doing any good. Then I tried various remedies which were advised by friends, but with no better result.

Next I called in another doctor—still the disease continued to spread! It began in the form of small spots and pustules on the child's head. These increased in size and discharged. The discharge seemed to spread infection to other parts, and bit by bit the diseased area increased until at last the poor child's head and face seemed to be one great sore.

"When the second doctor failed to give any relief, I was at a loss what to do. Someone who had tried Zam-Buk strongly advised me to give it a trial, and I did so. The first few applications didn't seem to have any effect at all, but although not apparent it must have been attacking the very roots of the disease, for after persevering with the treatment for a little while we noted a marked improvement. Encouraged by this we continued with Zam-Buk and left off everything else. The disease was gradually subdued, the itching grew less acute, and the little one's suffering was relieved. Then the area of the sores grew less and less, and in the end every trace of the dreadful eczema was removed. Not only so, but there has been no scarring or marking left to disfigure the child's face.

"There is now no trace of the disease which caused her much suffering, baffled one specialist and one practitioner, and defied every remedy I could obtain save Zam-Buk."

Zam-Buk is Nature's own healing balm, being composed of pure herbal essences. It is a sure cure for eczema, ring-worm, ulcers, cuts, burns, bruises, poisoned sores, chronic wounds, bad leg, piles, festering sores, chapped hands, cold-sores, frost-bite, and all skin injuries and diseases. Druggists and stores everywhere sell at 50c. a box, or post free for price from Zam-Buk Co., Toronto; 3 boxes $1.25. You are warned against harmful imitations sometimes represented to be "just as good."

Coco-nuts Make Good Fuel.

"Mine is rather a curious business," said a man who owns a small warehouse and shed down near the London docks. "I deal in coco-nut shells, and last year I sold more than 50,000 bags full of them as fuel.

"I buy thousands of coco-nut shells from stall-keepers all over London, from confectioners, from coco-nut oil extractors, from market-sweepers, and others. I won't tell you the usual price, but sometimes I get them for nothing—for carting them away, in fact. I sell them at 4d. a bag, most of my customers being poor people, who mix them, when broken up, with 'slack' coal. But in scores of hotels and large houses a quantity is bought to be mixed with coals as fire-lighters, for the immense amount of oil in coco-nut shells makes them take fire at once. Try it, and see.

"I have rivals in the business in other parts of London, and some of the makers of patent firelighters mix large quantities of the shells in their compositions."

Ethics of Republication.

A keen discussion is in progress in literary circles on the ethics of republication. A "notable new novel," as it is described by the publisher, has appeared under the title of "The Old Allegiance," the author's name being given as "Hubert Wales." It has been discovered that the same work was published as "Purple and Fine Linen" in 1889, when the author's name was William Pigott. The Spectator has drawn attention to the case, and called for an explanation. The publisher, Mr. John Long, admits that the two novels are one and the same. Under its previous title the book was not a success, but now that it has been re-issued in another name it is selling very well.

Short Skirt League.

A Ladies' Short Skirt League has been formed in London. The members bind themselves to wear dresses which will not sweep the floors and pavements, and so gather up dust and microbes. This is not a new idea. In America they have a similar organization called the Five Inch League. Every member is pledged to at least five inches of clear space between skirt and floor. The plan is commendable in many ways, for it is appalling the way in which some women sweep the pavements with their gowns. An Englishwoman has still much to learn in the art of holding up her skirt.

Gay Shows Are Immoral.

Complaint has been made to the department of moral reform of the Methodist Church about the class of theatrical production allowed to enter the Dominion from the United States and do business throughout Canada.

It is charged that in certain theatres in Toronto, Hamilton, and Montreal plays of violence and immoral tendency are given.

Eaten by Wolves.

Mike McHugh of Vancouver, B.C., disappeared three years ago at Alberni, Vancouver Island. Recently the remains of the skeleton were found, indicating he had been killed and devoured by wolves or panthers.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the stomach, nor stimulate the Heart or Kidneys, Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success [illegible] leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

are all of the greatest possible order of merit and may be used by farmers, graziers, dairymen, and all owners of stock with the full assurance that these goods have the power in a very short time to double their incomes by feeding, fattening and curing all animals which in them mean money.

One agent only in each district who has sole control of the local trade for agents name. See future advertisements, etc.

DOMESTICS

Next time you are in need of a good girl to help you in your housework, send in a small advertisement to THE TIMES

THE TIMES goes into the homes of people who keep servants, and these servants who may intend making a change, will see your advertisement.

THE TIMES goes into many outside towns and villages and your advertisement will be seen by girls coming to the city.

Says This Medicin Has Mystic Powers

It's in the spring that health gives out—that folks begin to feel draggy, weary, tasteless,—hate, to eat, look pale, feel discouraged

If you've reached this state read what J. W. Jervell, well known in Morristown, has to say about the medicine that cured him. "Last winter I caught a heavy cold that settled in my back. My kidneys and liver were affected and my health failed. By spring I was in bad shape—couldn't sleep like I used to—felt tired in the morning—ate very little—was terribly depressed, pale and anxious looking. Twinges of rheumatism, frequent neuralgia attacks over the temples, made matters worse. Tne doctor prescribed three times, but didn't help. Then I heard of Dr. Hamilton's Pills.—They possess mystic powers surely, for I gained and improved day by day and now am in perfect health again. I will praise and use Dr. Hamilton's Pills till I die."

The ingredients in Dr. Hamilton's Pills are pure and wholesome—come right from the storehouse of Nature in the form of vegetable juices and essences,—consequently this gentle invigorating laxative tonic and blood purifier is safe for old and young alike. We assure you of enormous benefit from Dr. Hamilton's Pills, which revitalize delicate glands, scatch out the seat of hidden disease, flood the body with vigor and health that has caused thousands of broken-down, despairing men and women to join in a mighty song of praise for the beneficient aid that comes from this king of all tonics. Get Dr. Hamilton's Pills to-day. 25c at all dealers.

Wanted

A respectable young woman wants a position as a housekeeper. Best references. Apply to A. Schneider, General Delivery, Peterborough.

Agricultural Society

The annual meeting of the Agricultural Society will be held in the council chambers tomorrow afternoon at 2.30 o'clock.

Y.M.C.A. Tonight

The boys' department of the Y.M.C.A., will give an exhibition in the gymnasium tonight. A fine program of sports has been arranged, and a big crowd should attend.

There is no Quinine, nothing whatever harsh or sickening in Preventics. These little Candy Cold Cure Tablets act as by magic. A few hours—and your threatening Cold is broken. Candylike in taste, Preventics please the children—and they break the feverishness, always. And least of all is the economy. A large box—48 Preventics—25 cents. Ask your druggist. He knows. Sold by all dealers.

Council Meeting

The first session of the Peterborough County Council will open at the court house on Tuesday afternoon at two o'clock. The first business will be the election of a warden.

Meet Tonight

The Fire, Water & Light Committee will meet in the city clerk's office this evening when ex-Ald. Johnston's charges against Fire Chief Howard will be heard.

Had a Good Practice

The intermediates held a good practice and work out in Brock St. rink last night preparatory to their big struggle in Lindsay tonight. The boys feel confident of winning although they realize that it will be a hard fight.

City Leagues

The city league senior clubs will hold forth at the Brock street rink to-night when two games will be played. The returns from the intermediate game in Lindsay will also be announced during the evening. The first city league game will be between the Belmonts and T.A.S., and the second between Lakefield and West Ends.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

Gowganda

The quickest and best route will continue to be via Grand Trunk and T. & N. O. Ry. to Charlton, thence 18 miles by stage to Elk Lake and 18 miles Elk Lake to Gowganda. This route will enable stops to be made at Temagami, Cobalt Haileybury, New Liskeard and Englehart. Cobalt special leaving Toronto 8.35 p.m., daily, makes direct connection with stages reaching Elk Lake next afternoon.

Full information from W. Buntin, C. P. & T. A.

ADVERTISE IN THE TIMES.

Personal

Miss Mabel Brown has returned home after spending a few days in Lakefield.

Mrs. W. A. Bell, 533 Charlotte St., will not receive again until the 3rd Wednesday in March.

Mrs. Chas. Billings and little son Edgar, of Calgary, Alta., is in town visiting friends.

Miss Evelyn Bennett of New York city, is a guest of Mr. and Mrs H. R. Stewart, 559 Stewart street.

Mr. Brooks, proprietor of the South Beach Hotel, Young's Point, was in the city yesterday.

Miss Olive Stevens left yesterday for Campbellford, where she will spend a few weeks visiting friends.

Mrs. C. G. Graham, 188 Dalousie street, will receive in future on the third and fourth Wednesdays.

Miss Alice Hinkley of Wellington, Prince Edward County, is visiting with her sister, Mrs. A. Hanna, George street.

Miss May Sullivan, Ashburnham, left on Tuesday for Ottawa, where she will be the guest of Madam Corriveau.

Miss Bessie Pearce, daughter of Mr. J. W. Pearce, M.P.P., Marmora, is visiting her cousin, Miss Minnie Pearce, 387 Walton street.

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs quickly yield to the healthing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Containing no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge. Sold by all dealers.

Mr. and Mrs. Noble Kelly returned home Tuesday night from their honeymoon spent in a trip through the Eastern States and New York City. They will reside in Bridgenorth.

Mr. Martin Lamb, who has spent the last few months in Cincinnati and other southern points, has returned to the city, and is warmly welcomed by his acquaintances of last summer.

Mrs. Alex. Trotter, accompanied by her daughter, Miss Vernon Grace Trotter, has returned to her home in Toledo after spending a month with her father and mother, Mr. and Mrs. A. Jones, Romaine street.

Lindsay Free Press: Mrs. T. W. McDonough and Miss Connor, of Peterborough, were in town Saturday.—Messrs. John McCabe and John Waley of Peterborough, were in town yesterday.—Mr. J. N. Rosenberg of Peterborough, was in town today.—Rev. Father Collins, was in Peterborough on Monday.—Mrs. Jos. Clutchey of Peterborough, is spending a week with Mr. and Mrs. John Pearson, Melbourne street.

If your Stomach, Heart, or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

One of the largest and most enjoyable "at homes" of the season, was that given by Mrs. W. E. Conway at her residence, 364 Downie street yesterday. The spacious drawing rooms were decorated with pink roses and candles, while in the tea room, the same color predominated. Mrs. Conway was assisted by her guests, Mrs. Sills and Miss Guerin, in receiving the guests and also by Mrs. E. B. Clegg, Mrs. Billington, of Winnipeg, Mrs. Fred Roy, Miss Mills, Miss Dobbin and Miss Maud Foote. During the reception an orchestra under the leadership of Mr. R. J. Devey, played bright selections, and Miss Reesor sang several vocal numbers in a very pleasing manner.

Obituary

MRS. MICHAEL EANO.

The death occurred yesterday morning at her late residence, 509 Elm street, of Michael Eano, after a lengthy illness. The deceased was 42 years of age, and was the daughter of Mr. John Cronin, Ashburnham, her maiden name being Mary Cronin. Her husband predeceased her a number of years ago.

Three children, Joseph and Frank and Nellie, are left to mourn her loss. Three sisters and one brother survive her. The sisters are Mrs. Cadigan, and Sarah, of Ashburnham, and Nellie of Toronto. The brother is Mr. Thos. Cronin of this city.

The funeral will take place on Friday morning at nine o'clock to St. Peter's Cathedral and thence to the Roman Catholic cemetery.

Wedding Bells

PERKS—LANCASTER.

A pretty wedding was solemnized Wednesday morning at nine o'clock at St. John's church when Miss Florence E. Lancaster, daughter of Mr. Thos. Lancaster, 198 Edinburgh street, was united in marriage to Mr. George Perks of Montreal, and son of Mrs. L. R. Perks, 542 Gilmour street. The ceremony was pperformed by Rev. Canon Davidson, in the presence of a number of the friends of the contracting parties. The bride and groom were unattended.

The bride entered the church leaning on the arm of her father to the strains of Mendelssohn's wedding march played by Mr. R. J. Devey.

After the ceremony the bridal party drove to the residence of the bride's parents, 198 Edinburgh street, where hearty congratulations were bestowed upon the young couple and a sumptuous wedding breakfast served.

Mr. and Mrs. Perks left on the 11.28 train for Montreal where they will in future reside.

HUNTING IN AFRICA.

Missionary Tells of Royal Big Game Sport in Old Days.

Missionaries frequently have good stories to tell of the sporting, as well as the more serious sides of life, in the countries they visit. Of the early days of British East Africa a well-known missionary writes:

"In those days of African methods and leisurely traveling, when the next train was two or three days behind you, famous bags were made, before the prohibition to shoot within two miles of the railway. If the passengers encountered at some station news of lions having raided near at hand, guns would be seized, and a start made in the direction indicated, whilst the train settled down for a rest; and it would be time enough to go on, and not difficult to make up lost time, on the return of the hunters. Our Scotch engineer had won for himself a reputation as holding the record, having shot thirteen lions in four months. But the hunting was not all on one side. It is recorded of those days that one man-eating lion which had for a long time terrorised the railway camp of Indian coolies, near Tsavo, was responsible for carrying off thirty-nine of the workmen." ("These days" in this case were not very long ago; certainly within the last decade or so.) "Some months before our journey up-country a party had been out tracking lions, but returned towards evening unsuccessful, and settled themselves down in their carriage. Suddenly there was a great crash! One of the hunted beasts had sprung in through the broad window extending down the whole length of the carriage, and, without a moment's warning, seized one of the huntsmen and sprang out again, leaving the poor fellow's companions alone in the carriage. The recollection of the incident was still vivid among officials along the line as we traveled down."

FALSE WEIGHTS SOLD.

Dealers Can Buy Light and Heavy Ones at English Fairs.

At the fairs held in various parts of England—the dishonestly-minded tradesman can buy false weights.

The few men who deal in them are well-known, but they cannot be prosecuted, and the actual makers cannot be traced. So the illicit trade goes on year after year.

The profits must be enormous, for a full ordinary set of false weights costs anything from £5 to £15 according to number, size, and material out of which they are made, whether iron or brass.

They are cast of varying lightnesses, to suit the requirements of purchasers, but the average deficiency is generally one-fourth of the nominal weight. Thus, a quarter-pound weight will have in it only three ounces of metal, and so on in proportion with the heavier ones.

Specially light weights are, however, made for special trades. Hollow half-hundredweights, for instance, are turned out, which weigh as little as twenty-five pounds apiece. They are used by dishonest furniture-dealers for selling feather beds "by weight," and they cost to buy as much as four or five guineas apiece. Some time back a complete set of three of these hollow dummies was seized in the borough by an inspector, and has since been preserved at the Weights and Measures Office of the London County Council, where it can be seen by the curious in such matters.

False weights, however, are not invariably made light. Some are purposely cast too heavy.

These latter are purchased by marine-store dealers, who, needless to say, however, use them only when buying from a customer, and not when selling to one.

Chamberlain as Dramatist.

In spite of the optimistic assurances of his supporters, Mr. Chamberlain's medical advisers cannot offer any hope of the veteran statesman ever again leading his followers in the Parliamentary arena. While there is every hope that Mr. Chamberlain may be spared for many years to come, it is feared that as a politician his active days are over. A little-known role of Mr. Chamberlain's is that of dramatist. As a boy in his teens he had a strong taste for amateur theatricals, and played more than once with great success. Quite early, too, he wrote a one-act play called "Who's Who," in which he himself played the part of a Frenchman. A Brough-like comedy, founded on political life, has also been ascribed to him. Mr. Chamberlain has declared that no amount of money would persuade him to give this unacted masterpiece to the world.

Fire! Fire!

As Fire Commissioner of Weeds, Mr. "Lulu" Harcourt looks after the royal palaces and parks, museums, and a hundred-and-one things, and is a firm believer in obtaining knowledge first-hand. He took it into his head, one day, to run down to Hampton Court.

"How long is it," he asked one of the officials, "since you had an alarm of fire?"

"Several years," was the reply.

The answer was hardly out of the man's mouth before Mr. Harcourt had smashed the glass of a fire alarm with his stick. In four minutes the hose and escape were out, and as he put away his watch, after timing the operation, he remarked:

"That's fairly good."

Lay Preacher's Method.

Mr. Jowett of Birmingham, Eng., tells of a lay preachers' conference in which a veteran described his method of sermon preparation, and it seems to me to be a good method. "I take my text," he said, "and divide my sermon into three parts. In the first part I tell 'em what I am going to tell 'em; in the second part—well, I tell 'em; in the third part I tell 'em what I've told 'em."

Hunting Women Ride Astride.

Many of the women followers of the Devon and Somerset (Eng.) draghounds are riding astride this year.

The Two Women.

An old offender was introduced to a new county justice as John Timmins, alias Jones, alias Smith.

"I'll try the two women first," said the justice. "Bring in Alice Jones."

The Wiles of Women.

There are only two possible things that a woman can do if a man proposes to her, but there are more than 2,000,000 she can do if he doesn't.—Golden Penny.

MILLIONS OF DOLLARS WASTED

IN EXPERIMENTS

These Millions Have Been and Are Being Wasted in Experiments With Mills and Other Treating Plants

Ours is no experiment. Our new smelting process has Been tested in every detail. We KNOW wha it will do and we know that it will do what we claim for it.

You kn w what a cheap smelting process will mean to the mining industry all over the world. Miners as well as investors in minir g stock must pay their share in unreasonable charges to s me smelter under the present system. Why not interest yourself in a company which will help you—which will help the miner as well as the investor in mining stock—to

SAVE MORE THAN HALF YOUR PRESENT SMELTER CHARGES

We will erect a smelter of fifty tons right near your mine. Oursmelter thus erected will save 85% in treatment, freight charges and hauling the ore to the railway This is the crying need of the mining industry to-day.

Think what this means in the treatment of the ores from your mine. Think what this means in the treatment of the ore at present upon the dump. No matter how low grade the dump ore, so long as we have some high grade in every charge, we can get you the values from the ore now lying worthless upon the dump.

We have the practical smelter of the new era. It is not an experiment; it is now in practical working order. We are now ready to erect smelters everywhere. We will build the smelters right at your mines, and thereby overcome all the obstructions which may be placed in our way by the railroads and trust smelters.

Why lament the fact of the present smelter overcharges, when her you have the chance to get a smelter right at your mine, which will treat the ore at $2 per ton, without difference for grades?

We are offering only 100,000 shares of stock in the Kuenzel's Process Smelter Company at 75 cents a share. The proceeds from the sale of this stock will be used towards erecting several of our smelters near producing mines, when we will begin at once to make money for ourselves and for the mine owner.

We have a large plant, a completely equipped machine shop, capable of building at least two 50-ton smelters every month. The preliminary development stage of our enterprise has passed. We are ready to make money. Why not join us as a stockholder?

The money which you In this company is represented in full value in property and other assets. You are investing in a reality when you buy these shares.

Buy stock in this company now and you will help to realize upon the low grade ores in your dumps which otherwise must remain in waste and valueless. Let us tell you all about this new era smelter, the practical operation of which actually means the revolution of the mining industry. Write for full particulars. We will convince you that this is, indeed, the best gilt-edge investment on the market, from every point of view.

Synopsis of Canadian North west

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-Agency for the district in which the land to obtainte. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform the above while living with his parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,

Deputy of the Minister of the Interior.

Boys of the Y.M.C.A. Give Splendid Exhibition of Gym. Work

One of the greatest events of the season took place last night when the boys of the Y.M.C.A., put on an exhibition of their gymnasium work. The boys were greeted with a record audience which taxed the capacity of the gymnasium gallery.

A most interesting event was the dumb-bell drill by the business boys, while the school boys did themselves credit in their marches and apparatus work.

The races and games provided lots of excitement and a great deal of amusement.

The blind man's pillow fight created much laughter, and the ladies walking race which was a burlesque, was won by (Miss) Leslie Gurney, although the rules of heel and toe were not strictly enforced by the judges. The costumes of the "ladies" were varied and picturesque.

The boys deserve great credit for the care indicated in their preparation for the entertainment, and the large audience were greatly pleased with the exhibition.

Keene Defeated Norwood by Seven to Three

The annual ball and entertainment held under the auspices of the S.O.S. 494, last Friday evening, was a decided success. Messrs. McFarlane, Wilson and Miller furnished the music and the floor was ably managed by Messrs. Kennaley and Moore. This annual affair is looked forward to as the best of the season, and judging from the appearance of the crowd this year, outdid any of its predecessors. The receipts for the evening amounted to $118.45. The first part of the evening was taken up by an entertainment. The following program was ably rendered.

Chairman's address—A. St. A.
Phonograph selection—
Song—Flora McLachlan.
Drama—Country vs. City.
Song—Jno. J. Moore.
Phonograph selection—
Song—Norman Taylor.
Song—Joseph McCarthy.
Dialogue, Two of a Kind.
Song—Richard Wedlock.
Phonograph selection—
Song—Miss Maggie Weir.
Song—Fred Weir.
Phonograph selection—
God Save the King.

The remainder of the evening was spent tripping the light fantastic. Everyone enjoyed themselves and state it was the most enjoyable affair of the season.

Miss O'Boyle, Lindsay, is a guest at the Victoria House.

Miss McKittrick, Petrolea, is a guest at the Victoria House.

Miss Jeane Boyle, Sanark, is visiting at her uncle's, Mr. Jno. McFarlane's.

Mr. John G. Drummond, Westwood, was in the village renewing old acquaintances this last few days. We are sorry John is getting so thin.

Mr. Wm. Danlton has moved into the house formerly occupied by Mr. S. Burley. At the present time there isn't a vacant house in the village.

The Otonabee Agricultural Society held their annual meeting in the town hall on Tuesday 18th.

Mr. Andrew Rennie spent Wednesday in Peterborough. We understand Mr. Rennie located a deer. We suppose the lack of snow has driven them from the wolf infested districts.

Mr. John B. Doris is contemplating taking up his residence in the business section of our village. Why not marry her John, and settle down to wedded bliss.

Mr. Herbert John Miller, one of the most enterprising farmers of Monaghan, was in the village on Tuesday on business.

The Norwood Hockey team drove up to Keene on Wednesday evening and played a league game with the home team. The following is the line up;—

Norwood.		Keene.
	Goal.	
Doherty		Dean
	Point.	
Edwards		Dickson
	Cover.	
Cummings		Dinsdale
	Rover.	
S. McNicholl		Quinn
	Center.	
Kempt		McCarthy
	Right.	
H. McNicholl		Weir
	Left.	
Rogers		Dinsdale

The score at full time was Norwood 3, Keene 9.

Russell Pearce of Norwood, made an impartial referee. He filled his position in a capable and satisfactory manner.

Lakefield Won Great Game from West End

After playing two 20-minute halves the T.A.S. seniors took the Belmonts into camp last night at the Brock street rink. The score was 5—2, and was very one-sided. It was started about eight o'clock, with Referee Wasson handling the bell. The line up was as follows;—

T. A. S.—
Goal—Crough.
Point—Cahill.
Cover—Quigley.
Rover—Coughlin.
Center—Giroux.
Right—Galvin.
Left—Henry.

BELMONTS—
Goal—Dyell.
Point—Myers.
Cover—Eccleston.
Rover—Wilson.
Center—Ball.
Right—Wareham.
Left—Smith.

LAKEFIELD—WEST ENDS.

In the senior city league last night Lakefield won one of the hardest fought games that has been seen in the Brock street rink for many a day. At full time the score was one all, so 10 minutes more were played, five minutes each way, and no score was made. Another 10 minute period was played and T. Sabatino scored in 2 1-2 minutes. He was later laid off but Simpson scored another for Lakefield, making it 3—1. With just half a minute to play Wade got a shot on the Lakefield nets and made the score 3—2. The game was a little inclined to be rough, and Referee Wasson had to penalize about fifteen men. Those who deserated the ice were, Dobson, Wade, Quigley, McNirn, Rose, Rose, Simpson, Quigley, Quinn, McNirn, Simpson, M. Sabatini, Rose, M. Sabatino, T. Sabatini.

The line up was as follows,—

WEST ENDS—
Goal—Halpin.
Point—McNirn.
Cover—C. Dobson.
Rover—Rose.
Center—Wade.
Right—Sbortt.
Left—Pentland.

LAKEFIELD—
Goal—W. Croft.
Point—M. Sabatini.
Cover—Quinn.
Rover—Simpson.
Center—T. Sabatini.
Right—Moran.
Left—Quigley.

Referee—E. Wasson.

"Yes, gentlemen," said the orator, "If I had the wings of the eagle, I'd spread them forth and soar the broad heavens, until stretched athwart the blue they hold beneath their thrall the majestic waters of the rolling deep; I'd soar from mountain peak to mountain peak, across the dales and grassy plains. I'd onward sweep from the vast Atlantic's rockbound shore, westward, to where the grand Pacific leaves the western coast; from lake to gulf I'd wend my flight, and everywhere I'd sing the grand, inspiring word, Socialism, Socialism, Socialism."

"Oh, come off," cried the old campaigner from the rear seats." You'd be shot for a hen-hawk before you'd flew a mile."

Despair and Despondency

No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine. The tortures so bravely endured completely upset the nerves if long continued.

Dr. Pierce's Favorite Prescription is a positive cure for weakness and disease of the feminine organism.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

It allays inflammation, heals ulceration and soothes pain. It tones and builds up the nerves. It fits for wifehood and motherhood. Honest medicine dealers sell it, and have nothing to urge upon you as "just as good." It is non-secret, non-alcoholic and has a record of forty years of cures. Ask Your Neighbors. They probably know of some of its many cures.

If you want a book that tells all about women's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a *free* copy of his great thousand-page Illustrated Common Sense Medical Adviser—revised, up-to date edition, in paper covers. In handsome cloth-binding, 50 stamps. Address Dr. R. V. Pierce, Buffalo, N.Y.

EX-ALD. JOHNSTON'S CHARGES AGAINST CHIEF HOWARD HEARD

Are Not So Serious as They at First Appeared—Men Have No Complaint Against the Chief—He Did Some Things That were Wrong—Was Always on Duty when Needed and was Capable

Ex-Ald. Johnston's charges against Chief Howard of the fire department were taken up by the Fire, Water & Light Committee last night. Chairman Ald. Buller was in the chair and handled the investigation in a very business like manner. He was very fair to both parties and got as much information as possible. He was assisted in the questioning by all the members of the committee. The evidence produced however, did not show the chief to be a bad man. Outside of the fire hall it was shown that he had been indiscrete. The men as a whole had no fault to find with him and most of them were well satisfied. The committee heard Ald. Johnston and Chief Howard and then adjourned until Monday night.

Those present were, Ald. Buller, chairman; Mayor Rush, Aldermen Hicks, Morgan, Turner, Gillespie, Duffus, Metheral, Bradburn, Duncan and McIntyre.

Chief Howard was present with his solicitor, Mr. Gordon. Ex-Ald. Johnston objected to the chief's solicitor being present as he had none, and did not care to have it. The chief stated that he was willing to waive the privilege of a solicitor.

It was finally decided by a vote of the committee, moved by Ald. Turner and seconded by Ald. Morgan, the solicitor for the chief was asked to retire.

INVESTIGATION OPENS.

Ald. Buller, chairman of the committee, was in charge of the investigation, and in opening the proceedings, read ex-Ald. Johnston's letter and charges. The letter pointed out that the writer had heard many stories about the chief, and had asked him about it and also cautioned him several times on the matter. This had apparently no effect and it was for this reason that the charges were made.

There was a charge in the letter against the mayor for not calling a meeting of the committee of the whole as he requested to be done.

His Worship explained that Ald. Johnston asked to have a meeting on Wednesday night late in December. Several aldermen could not be present so the meeting was not called. His worship stated that he knew nothing of the charges nor the nature of it.

THE EVIDENCE.

Ald. Johnston had the chairman call practically every man on the fire brigade to testify against the chief. Some of them stated the chief had come into the hall under the influence of liquor, but none could say that he was drunk or incapable. One man did say the chief fell in the office one night, but it turned out that the lights were all out and that the chief fell over a chair that was in the way. The man could not see very little either. None of the men had any serious complaint to make, but the two or three who gave evidence against him had a personal grievance over the prospective appointment of an assistant chief. Five of them want the job, none of the men said that they had been ordered to do anything that was not part of their regular duty, but had been asked to a couple of times and consented. They did not object to it. No evidence was produced of men being discharged for drinking and the chief would allow no drinking on the premises and never took liquor on the premises. The men did not object to the language the chief used at fires or at other times, and, none of them had any complaint to make. The charge in reference to the junk deal was cleared up as far as possible without the chief's book giving dates, etc., and this will be taken up at the next meeting. The only thing that was taken from the fire hall to the chief's house was a handful of linseed soap, a half dozen old rags and a handful of nails which one of the men took on his own hook. As far as beating one of the horses unmercifully was concerned it was shown that the chief did not treat it unreasonably. He was training it to do its work.

Witnesses outside the fire department called were Messrs. W. Metheral, Jos. Perrin, City Treasurer Adams and John Wright. Treasurer Adams evidence was in reference to the receipt of money from the chief. The other men all testified to having seen the chief under the influence of liquor but none could or would say that he was drunk or incapable.

SUMMING UP.

After the evidence was all in the committee first heard ex-Ald. Johnston and then Chief Howard, in reference to the charges. What they said is given below in brief.

EX-ALD. JOHNSTON.

Ex-Ald. Johnston stated that he did not know that any more evidence could be produced. With respect to the chief's career here he said the appointment was made in opposition to him. He felt that had he done justice to himself when Chief Howard was appointed he would have resigned. He was influenced to stay and he did. He took the chief into his confidence and did all he could to help him. But when these infernal rumors started he finally went to the chief and advised him to keep in the straight and narrow path. Towards the end of the year Mr. Johnston again went to the chief and argued with him. But the chief evidently paid no attention to it. Then Mr. Johnston said that he would not enter the council again. He wanted to hold a special meeting but none was held.

CHIEF HOWARD.

Chief Howard started with the first of the charges and gave his explanation. In reference to forbidding the firemen to speak to the aldermen. He denied that Taylor quit for that reason. All the men were told not to talk to aldermen unless spoken to by them first. It was a matter of discipline as exercised in all cities. No fireman was to know anything about accidents or such things. All information was to come from the chief. The chief denied ever being intoxicated, and defied any man in the room to say that they saw him intoxicated. He admitted that he did not sleep in the fire hall all the time, but recently he had done so. In reference to the junk the chief explained fully the circumstances, and stated that Ald. Johnston knew all about it and it turned out to be a misunderstanding between the ex-chairman and the chief.

The charge of abusing the horse did not amount to anything.

The meeting then adjourned until Monday night.

Tearse Attacked His Guard And will Go to the Asylum

Stratford, Jan. 21.—Sydney Smith, discussing his conduct of the Moir trial in an interview here, referred to the case of young Tearce, convicted of murder at Brampton some months ago. Tearce was an epileptic, and despite the fact that both the presiding judge and the King's Counsel favored a verdict of not guilty on the grounds of the prisoner's tendency to epilepsy, a verdict was brought in against the accused young man. The executive powers, however intervened, and had the sentence commuted to life imprisonment. Two or three weeks later, during a fit of epilepsy, Tearce made a murderous attack on his guard, and has since been removed to Hamilton asylum, the same institution to which Moir will be sent.

"What will be Moir's fate?"

"In Moir's case he will remain in an asylum for the rest of his life," declared Mr. Smith.

"Do you agree with the verdict of the jury in this case?"

"In my opinion it was the only possible one in justice to the man on trial," concluded Mr. Smith.

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs quickly yield to the healthing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Containing no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge. Sold by all dealers.

Lindsay Took First Game From the Peterborough Intermediates

The Peterborough intermediate O.H.A. team met their first defeat of the season, last night in Lindsay when they were downed by the famous Midgets by as score of 7—5, after one of the hardest contests ever witnessed in the Scugog town. The home town led at half time four goals to two. The match was played on soft ice and before one of the largest crowds that ever assembled in that burg to see a hockey match. About 150 of whom accompanied the locals from here on a special and who made themselves heard all the way through.

The Midgets won (or were handed) the game in the first half when Referee Moxon benched Dusty. Parnell and Moore for something which most of the spectators could not see what they had done and during their visit with the penalty timers the home team annexed three goals and practically clinched the game. This high handed action of the official brought forth much dissatisfaction from the Peterborough contingent.

The locals are not yet out of the championship race by any means, as they still have a fighting chance. Should they win their three remaining league fixtures they would be tied with the Midgets for district honors and there is every reason to believe they will.

The game last night was played on ice which was covered with slush and water and which was by no means conducive of good hockey. There was little or no combination displayed by either sevens. The Midgets seemed to be more at home in the heavy going than did the visitors. Moore won tube skates and at every stroke the blades would sink in nearly to the board floor.

The stars of the Lindsay team were Royle and Stoddart at cover and rover respectively, while the rest of their team mates were not very far behind them.

For Peterborough Derocher in goal put up a great game. He was applauded by all for his clever saves. Glover and Moore at point and cover point very effective, although Jakie's skates caused him considerable trouble. On the line every man played a good game.

J. H. Moxon of Toronto handled the bill.

The teams lined up as follows;

PETERBOROUGH—
Goal—Derocher.
Point—Glover.
Cover—Moore.
Rover—Ray.

POSTUM

"There's a Reason"

Read "The Road to Wellville" in pkgs.

Parliament Formally Declared Open Yesterday

Ottawa, Jan. 21.—The formal opening of Parliament took place this afternoon at three o'clock, and was attended by the customary ceremonial; the arrival of his excellency the Governor-general and party from Government House, attended by a mounted military escort; the presence of a guard of honor from the Governor-General's Foot Guard, the firing of a salute from Nepean Point battery, and a brilliant assembly in the Senate Chamber, where the speech from the throne was read by Earl Grey, outlining the sessional program of Government business.

WEATHER SUITED CROWD.

The mild weather was responsible also for an unusually large number of spectators on Parliament Hill, and the route along which the vice-regal procession passed. Today's proceedings in both houses were purely formal.

It is expected that the debate on the address in the Commons will begin tomorrow, but there is a possibility that it may go over until Monday.

33 NOTICES BY FOSTER.

The first day's order paper of the House of Commons contains 78 notices of motion, of which 33 stand in the name of Hon. Geo. E. Foster. One of these asserts "That in view of the great and varied resources, the geographical position and natural environment, and of that spirit of self-respect which alone befits a strong and growing people, Canada should no longer delay in assuming her proper share of the responsibility and financial burden incident to the suitable protection of the extended coast line and great seaports."

Another resolution of Mr. Foster favors co-operation between the governments of Great Britain and Canada for the settlement in this country of a suitable class of immigrants from the British Isles.

Dr. Schaffner will propose the purchase by the Government of the terminal grain elevators at Port Arthur and Fort William, and the transfer elevator between the great lake and the Atlantic.

TEXT OF THE SPEECH.

The speech was as follows,

In welcoming you to the performance of your duties at the first session of a new parliament, I desire to acknowledge, with devout thankfulness, the abundant harvest with which divine Providence has again blessed us.

The Quebec Tercentenary festivities in July, which were honored by the gracious presence of his Royal Highness, the Prince of Wales, as representing his Majesty, marked an epoch in the history of the Dominion.

IMPERIAL SYMPATHIES

The generous support given to this national celebration by the Federal Parliament and Provincial Legislatures, and by the people of Canada, of the other Dominions, and of the United Kingdom, emphasized the community of sympathy which binds the various parts of the British Empire to each other, and to the throne and person of his Majesty the King. The presence of representatives from the United Kingdom, Australia, New Zealand, South Africa, Newfoundland, and from the great and friendly republics of France and the United States, with the ships of war of the three nations, served not only to add lustre to the occasion, but

(Continued on Page 4.)

Forty-Second Annual Tea and Entertainment for Chemong Indians

The 42nd annual tea and entertainment of the Chemong Indians was held in the hall at the village Wednesday and the number in attendance was the largest on record. The event was also the most successful ever held at the village and the greatest credit is due those in charge of the arrangements. The program was contributed largely by the members of the band and showed that a great deal of talent is possessed by the Indians. A number from Peterborough were in attendance and dance and greatly enjoyed themselves. Mr. E. S. Clarry of this city made an excellent chairman and contributed greatly to the success of the entertainment. Several of those from the city took part in the program.

Tea was served in the school room between five and six o'clock and the repast was an excellent one. The tables were waited on by the Indian ladies and they performed their duties in a manner that brought them great praise.

After the tea, the entertainment was given. Solos, duets and dialogues were given by members of the reserve and the Indian choir sang exceedingly well. The accompaniments on the organ were played in a most acceptable manner by Miss Lavina Whetung.

The program was as follows:
Opening chorus—Choir.
Address by the chairman.
March—I'm going to be a soldier—Little boys.
Grand Medley Chorus—Choir.
Dialogues—Minnie's Christmas; by Misses Coppway, Whetung and Johnston.
Humorous song—Mr. D. Whetung, jr.
Dialogue—Trying to raise the price of butter.
March—Society Swing; Miss Lavina Whetung.
Duett—Miss Lavina and Mr. D. Whetung, jr.
Duett—Misses Clara Coppway and Ruth Whetung.
Solo—Miss Lavina Whetung.
Dialogue—No law suits in Heaven.
Song—Twinkle on my little star; Misses Ruth Whetung and Clara Coppway.
Dialogue—Unappreciated Genius.
Song—Mr. D. Whetung, jr.
Recitation—Mr. Irving Beers.
Song—Mr. Cdnego, Alderville.
Speech—Mr. W. Hillhouse.
Recitation—Mr. D. B. MacRae.
Anthem—Choir.
God Save the King.

The chairman, Mr. Clarry, made an excellent address in which he expressed his appreciation for the honor conferred upon him in asking him to preside as chairman. He prophesied the continued prosperity of the Chemong reserve and referred to the necessity of having a bridge built across the lake at the narrows and also for improved educational facilities for the reserve. Mr. Clarry also expressed the opinion that the suffrage should be extended to the Indians of Canada.

Representatives from the Indian reserves at Hiawatha, Alderville, Scugog and Christian Island were in attendance. Every hospitality was shown by the residents of the Chemong reserve, the home of Mr. D. Whetung being thrown open to the visitors.

A social is being held at Chemong tonight.

The proceeds of the tea and concert amounted to $62.

CURLING.

The draw for tonight's games is as follows;

W. M. Lang v. D. Fraser.
G. L. Hay v. J. H. Ferguson.
F. M. Dela Fosse v. W. C. Reid.
G. B. Giroux v. G. B. Stevenson.
S. Ray v. Dr. Eastwood.
J. E. A. Fitzgerald v. A. Moore.
W. E. Talbot v. Dr. McCullough.

25th Anniversary of Local S.O.E. Celebrated by Banquet Last Night

The twenty-fifth anniversary of Lansdowne Lodge S.O.E., was celebrated last night by a banquet in the lodge rooms on Hunter street. It was a most enjoyable affair and one which will be remembered for a long time by those who were present. It was just a quarter of a century ago that twelve Englishmen gathered together and organized Lansdowne Lodge. Since then it has steadily grown until today it has a membership of 200. There were only four of the charter members present last night, Messrs. H. Manley, G. King, R. Secord and T. Gunn.

The menu, a regular English dinner, was served by Caterer T. Hooper and was first-class in every respect. About 150 sat down and enjoyed the good things. After dinner Mr. E. A. Peck was elected to the chair and made a few pleasing remarks and then the following program was rendered.

Instrumental solo—Mr. Greenslade.
Duett—Messrs. King and Greenslade.
Recitations—Mr. Johns.
Banjo solo—Frank Clark.
Solo—Mr. Greenslade.
Recitation—Mr. Tovey.
Solo—Mr. King.
Recitations—Mr. Johns.
Solo—Mr. King.

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist about the formula. It is printed on the box—and it can't be bettered. Try one and be convinced. Box 25c. Sold by all dealers.

ADVERTISE IN THE TIMES.

Canada Cuba Land & Fruit Company

Stop raising $50 crops on $100 lands. Raise $500 crops on $40 lands. (LIMITED)

We Will Gladly Tell You How

WHY MEN GET RICH IN CUBA: Conditions count; that is why they get rich there; the ideal conditions prevailing insure wealth to the thrifty northerner who grasps the opportunities presented, and goes in for the things which count.

TEN ACRES planted in an orange orchard means an income, when the grove comes into full bearing, of from $2,700 to $5,000 per annum for life.

IF YOU SOW WHEAT, and the crop is good, and you get 70 bushels to the acre, your crop would be a farm topic of conversation. Now, say you get $1.00 per bushel for the wheat, and that is a pretty strong price, isn't it? Well, your one acre has earned $70.00, and it is safe to say that there was a lot of hard work about it; besides a new crop must be sown next year with chances of failure. The land is worth little, if any, more than the previous year.

NOW AN ORANGE ORCHARD IS DIFFERENT. Ten acres of the best land in Cuba will not cost you as much as in the Northwest, and on every acre you can plant 100 orange trees at a cost of 30c each; in four years' time this growth will bear profitably. In the meantime you can raise pineapples, bananas and other fruits and vegetables between the rows of orange trees that will net three times the profit that northern crops will.

ORANGE GROVES AT 8 TO 10 YEARS OF AGE ARE WORTH $1,000 to $1,500 PER ACRE, and these trees live, after the planter is dead and forgotten, bearing the same luscious fruit, more and more every year. Don't you think it will pay you to investigate? We believe it will, and that your children and your children's children will thank you for so doing. This investment insures you and them an absolute and sure income for life.

OUR COLONY is no venture, but a practical success, producing fruit of a most luscious quality. The groves planted on our estate have more than come up to our expectations.

NO INVESTMENT, with so small an outlay, will produce the same income as will such a grove of oranges, grape-fruit and pineapples. There is a ready market for all that can be produced, with shipping facilities direct from the Company's dock and excellent railway accommodation.

PROSPECTUS. Write for further firmly founded facts, when prospectus, etc., will be sent you by return mail.

Program of the Historical Society

The Peterborough Historical Society, of which little has been heard for some two or three years has taken on new life and now presents to the public a varied and interesting program for four meetings to be held during the winter season.

This society was organized on December 7th, 1896, and since that time has done some very effective, though quiet work. Being in affiliation with the Ontario Historical Society its aim has been to collect materials which would some day be of service as details in the history of the country, the Province or the Dominion. Much of this kind of work has been done, and the stories of the lives and struggles of the pioneers of Peterborough County have been collected and preserved.
